## LIVE AUCTION Signature® Floor Sessions 1-4

(Floor, Telephone, HERITAGE Live!®, Internet, Fax, and Mail)

Long Beach Convention Center • Room 103B  
300 E. Ocean Blvd. • Long Beach, CA 90802

### Session 1

Thursday, February 7 • 1:00 PM PT • Lots 3001–3639

### Session 2 - PREMIER SESSION

Thursday, February 7 • 7:00 PM PT • Lots 3700-4048

### Session 3

Friday, February 8 • 1:00 PM PT • Lots 4049–4681

### Session 4

Friday, February 8 • 7:00 PM PT • Lots 4682-5026

## HERITAGE Live!®, Internet, Fax, & Mail only Session

### Session 5

Sunday, February 10 • 12:00 PM CT • Lots 7001-8985

## LOT SETTLEMENT AND PICK-UP

Friday, February 8 • 10:00 AM – 1:00 PM PT

Saturday, February 9 • 9:00 AM – 12:00 PM PT

Extended Payment Terms available. Email: [Credit@HA.com](mailto:Credit@HA.com)

Lots are sold at an approximate rate of 200 lots per hour, but it is not uncommon to sell 150 lots or 250 lots in any given hour.

**This auction is subject to a 17.5% Buyer's Premium.**

## BIDDING METHODS:

### HERITAGE Live!® Bidding

Bid live on your computer or mobile, anywhere in the world, during the Auction using our HERITAGE Live!® program at [HA.com/Live](http://HA.com/Live)

### Live Floor Bidding

Bid in person during the floor sessions.

### Live Telephone Bidding (floor sessions only)

Phone bidding must be arranged on or before

Wednesday, February 6, by 12:00 PM CT.

Client Service: 866-835-3243.

### Internet Bidding

Internet absentee bidding ends at 10:00 PM CT the evening before each session. [HA.com/1182](http://HA.com/1182)

### Fax Bidding

Fax bids must be received on or before Wednesday, February 6, by 12:00 PM CT. Fax: 214-409-1425

### Mail Bidding

Mail bids must be received on or before Wednesday, February 6.

Dear Bidder:

Welcome to Long Beach! After a successful FUN event, we are switching coasts for the first of our three visits to the Long Beach Expo in 2013. This auction marks the debut of our Premiere Session, a twist on the Platinum Night concept we debuted in 2004 that concentrates the highest-value lots of the auction into a single evening session but keeps the single-volume format used for most of our auction catalogs.

The February 2013 Long Beach Signature® U.S. Coins auction includes continuations of two past Featured Collections, *The Atlanta Collection* and selections from *The Teich Family Collection* in the Non-Floor Session, as well as one new Featured Collection:

### The Fenn Family Collection

The Fenn Family Collection combines numismatic "star power" with notable connoisseurship. While classic rarities such as the 1895 Morgan dollar (PR66 Cameo NGC) and 1909-O half eagle (MS61 PCGS, CAC) are well-represented, so too are less famous but still impressive coins. An 1857 quarter eagle, MS68 PCGS, is the finest graded by that service, while a Judd-1173 1871 ten dollar in copper, PR67 Brown NGC, comes from the famous Lemus Collection of patterns. A well-matched complete set of Indian quarter eagles, all graded MS62 including the 1911-D key, attests to the discernment that went into building the collection.

As always, you have plenty of ways to participate in this event. You can place pre-auction bids through HA.com, mail, fax, and e-mail. Day-of remote bidding is available via telephone and our award-winning online system, Heritage LIVE!™ If you are attending the Long Beach Expo, in-person lot viewing and the auction floor await. Remember to stop by our booth on the Bourse and introduce yourself. We will be happy to see you.

Good luck!

Sincerely,

Greg Rohan  
President

Todd Imhof  
Executive Vice President

## COLONIALS

- 3001** 1652 Pine Tree Threepence Fine 15 NGC. Noe-34, W-630, Salmon 1-A, R.4. Pellets at trunk. 15.4 gn. The tree and date are well defined. The peripheral legends are partial. A dove-gray and powder-blue example with a wavy appearance and a small obverse edge mark at 5 o'clock. Listed on page 39 of the 2013 *Guide Book*. PCGS# 21
- 3002** (1670-75) St. Patrick Farthing VG10 PCGS. Breen-212. A medium brown example that has the expected amount of wear and granularity. Only one slender minor mark near the harp angel. The brass splasher is aligned with the crown. Listed on page 41 of the 2013 *Guide Book*. PCGS# 42
- 3003** (1670-75) St. Patrick Farthing Fine 12 PCGS. CAC. Breen-211. The centers are mahogany-brown and deep aquamarine toning enriches the borders. Moderately granular but unabraded. The brass splasher overlaps the base of the crown. Listed on page 41 of the 2013 *Guide Book*. PCGS# 42

### VF Details St. Patrick Farthing Large 8, Breen-216

- 3004** (1670-75) St. Patrick Farthing — Rim Damage — NGC Details. VF. Breen-216, W-11500. Ex: Ted L. Craig Collection. A faint large numeral 8 is beneath the king, along with one of Breen's "sea beasts" to the right. The St. Patrick halfpenny is typically encountered well-worn or corroded, and examples are seldom seen as sharply defined as the present lot. The walnut-brown surfaces display wispy hair-thin marks on the motifs and rims. Moderate rim damage is limited to the area above the crown. Theodore Louis Craig was an Early American specialist who passed away in 1971. Listed on page 41 of the 2013 *Guide Book*. PCGS# 42
- 3005** (1670-75) St. Patrick Halfpenny VF20 PCGS. Vlack 1-B, W-11540. Mark Newby is credited with importing St. Patrick halfpennies to New Jersey from England in 1781. They are scarcer than their farthing counterparts. An evenly defined golden-brown example. The granular brass splasher overlaps the base of the crown. Listed on page 41 of the 2013 *Guide Book*. Population: 17 in 20, 33 finer (1/13). PCGS# 46
- 3006** (1694) London Elephant Token, Thick Planchet XF45 NGC. Hodder 2-B, W-12040, R.2. A lovely Choice XF example of this popular variety, which shares an obverse die with the very rare Carolina and New England varieties. The mahogany-brown and gunmetal-gray surfaces are smooth aside from small flan flaws (as made) on the reverse. Listed on page 46 of the 2013 *Guide Book*. PCGS# 55

- 3007** (1694) London Elephant Token, Thick Planchet XF45 PCGS. Hodder 2-B, W-12040, R.2. Deep lavender-brown and lilac-red toning embraces this richly detailed and unblemished Elephant token. The pachyderm displays minor flan flaws, as struck. Listed on page 46 of the 2013 *Guide Book*. PCGS# 55

### D. G. REX MS62 Brown 1722 Rosa Americana Halfpenny Martin 2.1-B.1

- 3008** 1722 Rosa Americana Halfpenny, D. G. REX MS62 Brown PCGS. M. 2.1-B.1, W-1218, R.4. The early variety with DEI GRATIA abbreviated. This sharply impressed representative is light tan and deep brown with the latter shade prevalent on the obverse. Unabraded, though trivial flan flaws are noted near the R in ROSA. The reverse legends are strike doubled. Listed on page 42 of the 2013 *Guide Book*. PCGS# 101
- 3009** 1722 Rosa Americana Penny, UTILE AU55 PCGS. M. 2.12-D.3, W-1268, R.6. A repunched O in GEORGIUS attributes this better die variety. Considerable golden-tan luster illuminates the legends, though the high points are walnut-brown. Evenly struck and attractive despite minor peripheral granularity. Listed on page 42 of the 2013 *Guide Book*. PCGS# 113

### MS62 Brown Crowned Rose 1723 Rosa Americana Halfpenny Martin 3.2-F.4

- 3010** 1723 Rosa Americana Halfpenny, Crown MS62 Brown PCGS. M. 3.2-F.4, W-1236, R.7. A sharply struck and semiprooflike example. The medium brown surfaces are free from detractors. The L in UTILE is crudely reworked on the die, as coined, a late die state absent in the Martin reference. William Wood's issues were unpopular everywhere but did circulate to some extent in the American colonies. Listed on page 43 of the 2013 *Guide Book*. PCGS# 119

- 3011 1723 Rosa Americana Penny AU58 PCGS. Martin 2.30-E.10, W-1278, R.4.** The obverse is predominantly golden-brown while the reverse is deep brown with glimpses of lighter tan. One dark and mildly granular area on the back of the king's head. Crisply struck and devoid of contact. Listed on page 43 of the 2013 *Guide Book*. PCGS# 125
- 3012 1724 Hibernia Halfpenny AU55 PCGS. M. 4.51-K.4, W-13690, R.2.** A smooth medium brown example with light high point wear but good eye appeal. A much scarcer date than its 1723 predecessor. Listed on page 45 of the 2013 *Guide Book*. Population: 5 in 55, 7 finer (1/13). PCGS# 190
- 3013 1766 Pitt Halfpenny XF40 PCGS. Betts-519, W-8350, R.3.** The olive-brown patina is even and original. The left obverse field has a few thin marks, as does the right reverse field. Well centered and relatively sharp. Listed on page 50 of the 2013 *Guide Book*.  
Ex: *Orlando FUN Signature (Heritage, 1/2003)*, lot 5027, which realized \$1,121.25. PCGS# 236
- 3014 1773 Virginia Halfpenny, Period MS65 Red and Brown PCGS. CAC. N. 27-J, W-1585, R.2.** The surfaces are mostly peach-red, although the cheek and shield center are brown. A prooflike Gem with a bold strike and exemplary preservation. Listed on page 45 of the 2013 *Guide Book*. PCGS# 241
- 3015 1788 Connecticut Copper, Mailed Bust Left — Environmental Damage — NGC Details. AU. M. 12.2-C, W-4525, R.5.** Struck over a Crosby 5-E 1785 Nova Constellatio copper, with several letters in the peripheral legends from the undertype visible on both sides. This dark brown example displays exceptional design definition but is evenly microgranular. Listed on page 62 of the 2013 *Guide Book*. PCGS# 403
- 3016 1786 New Jersey Copper, Narrow Shield, Straight Plow Beam XF40 PCGS. M. 17-b, W-4870, R.3.** This evenly defined medium brown state copper is smooth aside from a couple of minor rim dings on each side. Struck over a 1787 Connecticut copper; traces of the undertype include the I in AUCTORI at 8 o'clock on the reverse, the CON in CONNECT at 10 o'clock on the reverse, and the date at 7 o'clock on the obverse. Listed on page 69 of the 2013 *Guide Book*. PCGS# 45423
- 3017 1787 New Jersey Copper, Outlined Shield AU53 PCGS. Maris 46-e, W-5245, R.1.** A chocolate-brown piece that retains noticeable mint gloss. The familiar variety with die sinking near the date and prominent clashes from the shield above the plow. Small marks are noted near the B in PLURIBUS and the R in CAESAREA. Listed on page 66 of the 2012 *Guide Book*. PCGS# 503
- 3018 1787 New Jersey Copper, Outlined Shield AU55 PCGS. Maris 46-e, W-5245, R.1.** Rich olive-gray and brick-red toning. Smooth and problem-free aside from minor die misalignment on the reverse toward 11 o'clock. The obverse die is clashed and failing near the date, as made and usual for the Maris variety. Listed on page 66 of the 2012 *Guide Book*. PCGS# 503
- 3019 1787 New Jersey Copper, Small Planchet, Plain Shield XF40 PCGS. Maris 32-T, W-5100, R.2.** A deep golden-brown example with impressive sharpness for the XF40 grade. No marks are evident but the fields are evenly microgranular. Listed on page 66 of the 2012 *Guide Book*.  
Ex: *Long Beach Signature (Heritage, 2/2002)*, lot 1. PCGS# 506
- 3020 1787 New Jersey Copper, Small Planchet, Plain Shield XF45 PCGS. CAC. Maris 43-d, W-5225, R.1.** A well defined chocolate-brown New Jersey type coin with ideal centering and only a few unimportant obverse marks. The diagonal crack on the shield is customary for the Maris marriage. Listed on page 66 of the 2012 *Guide Book*. PCGS# 506
- 3021 1785 Vermont Copper, VERMONTS VF20 PCGS. RR-2, Bressett 1-A, W-2005, R.2.** This medium brown copper is struck several degrees off center toward 3:30. The date is absent due to centering and a flan flaw at 6 o'clock. As often seen on Ryder-2, a tornado-shaped die break affects the plow. Listed on page 72 of the 2013 *Guide Book*. PCGS# 539
- 3022 1787 Vermont Copper, Bust Right PCGS Genuine. RR-12, Bressett 11-K, W-2110, R.3.** The PCGS number ending in .97 suggests Environmental Damage as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of a Very Fine specimen that has environmental damage. The obverse is walnut-brown and has minor verdigris. The reverse is dark brown and somewhat granular. Struck over a Crosby 4-D 1785 Nova Constellatio, with the undertype apparent on the portrait. Three letters from a different, unidentified undertype is visible near the VER in VERMON. Listed on page 72 of the 2013 *Guide Book*. PCGS# 560
- 3023 1788 Vermont Copper, Bust Right PCGS Genuine. RR-25, Bressett 16-U, W-2195, R.3.** The PCGS number ending in .97 suggests Environmental Damage as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of a Fine specimen that has environmental damage and pinscratches. Overstruck on an Irish halfpenny with the crown evident on the reverse. Listed on page 72 of the 2013 *Guide Book*. PCGS# 563
- 3024 1785 Nova Constellatio Copper, Pointed Rays, Large Date AU53 NGC. Crosby 5-E, W-1915, High R.4.** A lightly circulated example with chocolate-brown fields and medium brown high points. Smooth aside from a single thin mark near the left corner of the eye. Listed on page 54 of the 2013 *Guide Book*. PCGS# 813
- 3025 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays XF45 PCGS. N. 12-KK, W-6835, R.6.** A rare die variety in a better grade. The fields are dark olive-brown and the devices are deep lavender. One strike-through overlaps the F in FUGIO. The lower reverse die break is usual for this challenging marriage. Listed on page 87 of the 2013 *Guide Book*. PCGS# 883
- 3026 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays AU50 NGC. N. 12-X, W-6820, R.3.** An unabraded chocolate-brown representative. Each side has a small toned flan flaw, and the left-side borders are lightly impressed. The vertical reverse die crack at 6 o'clock is characteristic of the prevalent 'X' reverse. Listed on page 87 of the 2013 *Guide Book*. PCGS# 883
- 3027 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays AU58 NGC. N. 13-X, W-6855, R.2.** A medium brown Fugio type coin that shimmers with luster and is free from remotely relevant marks. Mildly granular near 3 o'clock on the reverse and a slender flan flaw is noted near the sundial's Roman numeral II. The sun's rays also show a couple of unimportant flan laminations. Listed on page 87 of the 2013 *Guide Book*. PCGS# 883

**MS63 Brown Fugio Cent, Newman 8-X  
STATES UNITED, Pointed Rays**

- 3028 1787 Fugio Cent, STATES UNITED, 4 Cinquefoils, Pointed Rays MS63 Brown PCGS. N. 8-X, W-6750, R.3.** Newman Die State E/C with a heavy vertical break affecting the central obverse exergue. Well struck and unabraded with glimpses of fire-red in protected areas. The open fields and high points are olive-brown. One flan flaw noted at 9:30 on the reverse. The high grade and 'X' reverse die suggest a Bank of New York origin. Listed on page 87 of the 2013 *Guide Book*. PCGS# 883

- 3029 1787 Fugio Cent, STATES UNITED, Eight-Pointed Stars XF40 NGC. N. 15-Y, W-6915, R.2.** Only one reverse die in the Fugio series exhibits two eight-pointed stars on the reverse label. This mahogany-brown example displays only minor marks and flan imperfections. Listed on page 88 of the 2013 *Guide Book*. Census: 3 in 40, 2 finer (1/13). PCGS# 898

- 3030 1787 Auctori Plebis Token AU50 PCGS. Breen-1147, W-8770, R.3.** Struck slightly off center toward 1 o'clock. This walnut-brown representative has a few thin marks on the motifs. The obverse legends are complete though portions of the reverse legends are partially present. Listed on page 74 of the 2013 *Guide Book*. Population: 12 in 50, 9 finer (1/13). PCGS# 601

**Near-Mint 1787 Auctori Plebis Token, W-8770**

- 3031 1787 Auctori Plebis Token AU58 NGC. Breen-1147, W-8770, R.3.** A high-grade medium brown example of this popular token, which has an obverse design similar to contemporary Draped Bust Connecticut coppers. Smooth and satiny with soft definition on Liberty's profile, as always due to a low-relief portrait. The usual die state with slender breaks on each side of Liberty's head. The break becomes broad near her elbow. Listed on page 74 of the 2013 *Guide Book*. Census: 3 in 58, 0 finer (1/13). PCGS# 601

- 3032 1789 Mott Token, Thick Planchet, Plain Edge MS64 Brown NGC. Breen-1020, Rulau E-NY-610.** A satiny chocolate-brown Mott token with a pleasing strike and mark-free surfaces. A middle die state; the break from the clock corner is noticeable but not yet extensive. Die crumbling is advanced, as made. Listed on page 74 of the 2013 *Guide Book*. Census: 6 in 64 Brown, 3 finer (1/13). PCGS# 603

- 3033 (1792-94) Kentucky Token, LANCASTER Edge MS63 Red PCGS. Breen-1156, W-8810, R.5.** Most Kentucky tokens are the plain edge variety (W-8800). The LANCASTER edge is very scarce. The present brick-red example is well struck and free from marks. The obverse displays a few minor flan imperfections, as made. Listed on page 75 of the 2013 *Guide Book*. PCGS# 625

- 3034 1791 Washington Small Eagle Cent AU58 PCGS. Baker-16, W-10630, R.3.** Deeply toned with cobalt-blue high points, lavender fields, and olive-green borders. Well defined and unblemished with impressive eye appeal. Listed on page 81 of the 2013 *Guide Book*. PCGS# 705

**Rare ASYLUM Edge MS62 Brown  
1795 Washington Halfpenny  
Liberty & Security, Baker-31A**

- 3035 1795 Washington Liberty & Security Halfpenny, ASYLUM Edge MS62 Brown PCGS. Baker-31A, W-11005, R.6.** The ASYLUM edge is partly readable through the PCGS holder. The rarest of the Liberty and Security halfpenny varieties. "At least 15 known" according to Rulau-Fuld, which would categorize the ASYLUM variety as R.6. This chocolate-brown and steel-blue representative displays luster on the legends and motifs though the strike shows the high point incompleteness usual for the issue. Listed on page 83 of the 2013 *Guide Book*. PCGS# 761

**HALF CENTS**

- 3036 1794 — Corroded — ANACS. XF Details, Net Fine 15. C-4a, B-6b, R.3.** The Small Letters Edge is presumed, as the coin is housed in a small-size holder. A darkly toned, sharply defined, and evenly granular half cent without any visible marks. Our EAC grade Good 4. NGC ID# 2223, PCGS# 1003, CoinPlex ID# HFC1794BN

**1794 C-1a Half Cent, VF25  
Large Edge Letters**

- 3037 1794 VF25 NGC. C-1a, B-1a, R.3.** Large Edge Letters as usual for this die pair. The C-1 marriage is the only 1794 half cent that is commonly seen with Large Edge Letters. The reverse of this light brown specimen is rotated about 45 degrees. Both sides have minor granularity mixed with some original planchet fissures. A few trivial rim bumps are noted on the reverse. Our EAC grade VG8. NGC ID# 2223, PCGS# 1003, CoinPlex ID# HFC1794BN

**Smooth 1795 Half Cent, VF30  
C-5a, No Pole, Plain Edge**

- 3038 1795 Plain Edge VF30 ANACS. C-5a, B-5a, R.3.** The No Pole variety with a heavy diagonal crack above HALF. This is a refreshingly mark-free golden-brown midgrade representative. Liberty's hair shows substantial detail. HALF CENT, though struck with low relief, is clear. Struck a few degrees off center toward 7 o'clock. Our EAC grade Fine 15. NGC ID# 2225, PCGS# 1018, CoinPlex ID# HFC1795PEBN

**XF 1806 Half Cent  
Small 6, Stems, C-2**

- 3039 1806 Small 6, Stems XF40 PCGS. C-2, B-1, R.4.** Manley Die State 1.0. This piece appears to represent the rare early die state with no evidence of the usual clash marks through the bases of RT. Both varieties of the Small 6, With Stems half cent are elusive and desirable due to their inclusion among varieties listed in the *Guide Book*. A sharply detailed example, this piece has smooth chocolate and tan surfaces with hints of darker toning. Thin marks are noted near OF and beneath the hair ribbon. Our EAC grade VF25.  
*Ex: St. Louis Central States Signature (Heritage, 5/2007), lot 103, which realized \$2,990. PCGS# 1096, NGC ID# 222J, CoinPlex ID# HFC1806S6STBN*
- 3040 1806 Large 6, Stems AU58 PCGS. CAC. C-4, B-4, R.1.** Manley Die State 1.0. Ample faded mint red fills the design recesses of this satiny and lightly abraded near-Mint half cent. The strike is sharp except opposite the bust tip near the second S in STATES. Our EAC grade AU55. PCGS# 1099, NGC ID# 222J, CoinPlex ID# HFC1806L6STBN
- 3041 1807 AU58 PCGS. C-1, B-1, R.1.** A double set of clash marks is noted near Liberty's profile, a die state unmentioned in the Manley reference. Generally golden-brown with hints of deeper toning on the obverse margin. The left-side borders are lightly impressed. Smooth aside from translucent residue near the hair ribbon. Our EAC grade AU50. PCGS# 1104, NGC ID# 222K, CoinPlex ID# HFC1807BN

**Better Date 1811 Half Cent  
C-2, VF30**

- 3042 1811 VF30 PCGS. C-2, B-2, Low R.3.** Manley Die State 3.0. This midgrade example has medium to dark-brown toning, and the devices and legends show only minor build-up. Examination beneath a loupe locates thin, faint obverse marks. Our EAC grade Fine 15.  
*Ex: St. Louis Central States Signature (Heritage, 5/2007), lot 109, which realized \$2,300. PCGS# 1135, NGC ID# 222S, CoinPlex ID# HFC1811BN*

**Choice Very Fine 1811 Half Cent  
Close Date, C-2**

- 3043 1811 VF35 NGC. C-2, B-2, Low R.3.** Manley Die State 3.0. The Close Date die variety of this much better Classic Head issue. Toned deep brown and minutely granular with faint marks on the left obverse and the uppermost hair curls. The reverse is unabraded aside from an inconspicuous vertical line through the ribbon. Our EAC grade Fine 12. NGC ID# 222S, PCGS# 1135, CoinPlex ID# HFC1811BN
- 3044 1811 — Filed Rims — PCGS Genuine. XF Details. C-2, B-2, Low R.3.** The Close Date subtype. The rims on this otherwise XF-level example have been filed a large part of the way around, more notably on the reverse. Portions of the fields are smoothed. Deep mahogany surfaces have considerable remaining luster and blue overtones. Our EAC grade Fine 12. PCGS# 1135, NGC ID# 222S, CoinPlex ID# HFC1811BN
- 3045 1828 12 Stars AU58 PCGS. C-2, B-3, R.2.** Manley Die State 2.0. Portions of the initial fire-red outline the bust tip and much of the wreath. The high points and open fields are ebony-brown. Minimally abraded and nicely defined. Our EAC grade XF40.  
*Ex: Dallas Signature (Heritage, 4/2007), lot 154, which realized \$632.50. PCGS# 1150, NGC ID# 222W, CoinPlex ID# HFC182812STBN*
- 3046 1829 MS63 Brown PCGS. C-1, B-1, R.1.** Manley Die State 2.0. A lovely chocolate-brown half cent whose gently shimmering surfaces are free from visible detractors. A good strike despite minor blending on the shoulder curl. Our EAC grade AU55. PCGS# 1153, NGC ID# 222X, CoinPlex ID# HFC1829BN
- 3047 1835 MS65 Brown PCGS. CAC. C-1, B-1, R.1.** Higher placement of the leaf near the I in UNITED distinguishes this variety from the C-2. While PCGS has classed this coin as "Brown," the obverse's mahogany luster is generous and the orange and violet tones to the reverse are vivid. Our EAC grade MS63. PCGS# 1168, NGC ID# 2233, CoinPlex ID# HFC1835BN

**3048 1853 MS65 Red and Brown PCGS. C-1, B-1, R.1.** Orange-red fills the reverse field and the obverse margin. The obverse field and portrait are powder-blue. Lustrous and well struck with no carbon and smooth fields. The cheek displays faint grazes. Our EAC grade MS63. PCGS# 1228, NGC ID# 26YX, CoinPlex ID# HFC1853RB

**3049 1856 MS64 Red and Brown PCGS. CAC. C-1, B-1, R.1.** Only dies for the year. The design elements are sharply detailed and the well-preserved surfaces show a mix of original red and light brown patina. Our EAC grade MS60. Population: 31 in 64 Red and Brown, 0 finer (1/13). PCGS# 1237, NGC ID# 26Z2, CoinPlex ID# HFC1856RB

**3050 1857 MS64 Red and Brown PCGS. C-1, B-1, R.2.** An unabraded and satiny near-Gem. The obverse is orange-gold, as is most of the reverse, though gunmetal-gray toning near UNITED denies a Red assessment. Our EAC grade MS63. PCGS# 1240, NGC ID# 26Z3, CoinPlex ID# HFC1857RB

**3051 1857 MS64 Red and Brown NGC. C-1, B-1, R.2.** Brick-red is particularly extensive on the reverse of this nearly unabraded Choice final-year half cent. The open fields and the cheek and neck have toned brown. A loupe reveals scattered minor gunmetal spots. Our EAC grade MS62. NGC ID# 26Z3, PCGS# 1240, CoinPlex ID# HFC1857RB

**3052 1857 MS64 Red and Brown NGC. CAC. C-1, B-1, R.2.** Rich orange luster dominates, though a few blushes of steel-gray are present. Smooth aside from a few delicate marks on the portrait. The die alignment causes a sharp strike on the lower obverse and upper reverse. Our EAC grade MS62. NGC ID# 26Z3, PCGS# 1240, CoinPlex ID# HFC1857RB

## LARGE CENTS

**3053 1793 Chain AMERICA — Corrosion — NGC Details. Fair. S-2, B-2, High R.4.** The Chain cent was our nation's first coinage design, struck only during March 1793. The present example is from scarcer Sheldon-2 dies. All letters in LIBERTY are readable, as is UNITED STATES OF AMERICA. The denomination is bold. The date cannot be discerned. The medium brown surfaces are granular, especially on the obverse. Minor field marks are noted near the ES in STATES. Our EAC grade Poor 1. NGC ID# 223F, PCGS# 1341, CoinPlex ID# LGC1793CHAINAMERICABN

**1793 Chain Cent, VG8  
AMERICA, Sheldon-3**

**3054 1793 Chain AMERICA VG8 NGC. S-3, B-4, Low R.3.** Noyes Die State A/C. The legends are clear on this famous introductory type coin. The portrait is well outlined and displays partial hair and eye detail. The dark gray surfaces are lightly granular, and one diagonal mark is noted to the right of the fraction. The rims display unimportant occasional bruises customary for the grade. Our EAC grade Good 5. NGC ID# 223F, PCGS# 1341, CoinPlex ID# LGC1793CHAINAMERICABN

**Very Good 1793 Wreath Cent, S-8**

**3055 1793 Wreath Cent, Vine and Bars VG8 PCGS. S-8, B-13, Low R.3.** This chocolate-brown example has clear types and fully readable legends, although several of the letters are faint. Moderate edge marks are noted at 8 o'clock on the obverse and 9 o'clock on the reverse, a few faint pinscratches are east of the date and under the chin, and the obverse has a few small planchet flaws, as made. Our EAC grade Good 4.

*Ex: Long Beach Signature (Heritage, 9/2005), lot 691, which realized \$2,990. PCGS# 1347, NGC ID# 223H, CoinPlex ID# LGC1793WREATHVBBN*

**VF Details 1793 Wreath Cent  
Vine and Bars Edge, S-8**

**3056 1793 Wreath Cent, Vine and Bars — Corrosion — NGC Details. VF. S-8, B-13, R.3.** Sheldon-8 is promptly identified by its bisecting diagonal reverse crack, visible on the present cent near the N in CENT. This ebony-brown example has sharp legends and strong definition on Liberty's eye and profile. Both sides are evenly granular but no marks are visible. Our EAC grade Good 5. NGC ID# 223H, PCGS# 1347, CoinPlex ID# LGC1793WREATHVBBN

**3057 1793 Wreath Cent, Vine and Bars — Damage — PCGS Genuine. XF Details. S-5, B-6, R.4.** This medium brown Wreath cent has pleasing sharpness but the rims show several knocks and a portion of the obverse, shaped like a piece of pie, is absent between 10:30 and 12 o'clock. The absent portion may have been a lamination, though the hinge is raised from metal movement. Our EAC grade undetermined. PCGS# 1347, NGC ID# 223H, CoinPlex ID# LGC1793WREATHVBBN

**XF Details 1793 Wreath Cent  
Lettered Edge, S-11c**

- 3058 1793 Wreath Cent, Lettered Edge — Planchet Flaw — NGC Details.** XF. S-11c, B-16c, Low R.3. Two small planchet flaws are noted on the top of the portrait and a horizontal linear flaw ventures from the rim at 2 o'clock to above Liberty's eye. The reverse has slender flaws at the base of the ATE in STATES and between the AM in AMERICA. This moderately granular walnut-brown Wreath cent is minimally abraded and impressively detailed for the scarce and early single-year copper type. Our EAC grade Good 6. NGC ID# 223J, PCGS# 1350, CoinPlex ID# LGC1793WREATHLEBN

- 3059 1794 Head of 1794 VF20 PCGS.** S-44, B-33, R.1. A medium brown Liberty Cap type coin that has scattered small marks but only a small reverse rim ding at 2 o'clock merits individual mention. Evenly defined and nearly void of granularity. Our EAC grade Fine 12. PCGS# 901374, NGC ID# 223P, CoinPlex ID# LGC1794HD1794BN

- 3060 1794 Head of 1794 — Environmental Damage — PCGS Genuine.** VF Details. S-31, B-13, R.1. The russet-brown fields are moderately and evenly granular. The high points are light brown. The types are clear and all legends are bold. Substantial hair definition is present behind the neck. No marks are evident. Our EAC grade Fine 12. PCGS# 901374, NGC ID# 223P, CoinPlex ID# LGC1794HD1794BN

**Iridescently Toned XF 1794 Cent  
Head of 1794, S-22**

- 3061 1794 Head of 1794 XF40 PCGS.** S-22, B-6, R.1. Sea-green and rose-gold shades enrich this well detailed and minimally marked Liberty Cap type coin. The sole noticeable mark is a slight rim ding over the Y in LIBERTY. The upper right reverse shows slight softness of impression, but the remainder of the strike is bold. Our EAC grade VF25. PCGS# 901374, NGC ID# 223P, CoinPlex ID# LGC1794HD1794BN

**1794 Head of '94 Cent, S-26, XF45**

- 3062 1794 Head of 1794 XF45 PCGS.** S-26, B-16, R.2. This is an aesthetically pleasing representative of the variety with bold overall definition that wanes a little at the upper obverse border. The dominant color is a pleasing orange-brown shade, but we also note some swirls of dark brown and tan colors in the field after Liberty's portrait. The obverse die was reground prior to striking with the result that some of Liberty's hair curls and the inside of the cap are attenuated. The high points of the portrait are also a little rough in texture, but there are only a few scattered obverse abrasions. Our EAC grade VF30.

*Ex: FUN Signature (Heritage, 1/2003), lot 5166; Central States Signature (Heritage, 5/2003), lot 5074. PCGS# 901374, NGC ID# 223P, CoinPlex ID# LGC1794HD1794BN*

- 3063 1795 Plain Edge Fine 12 PCGS.** S-78, B-8, R.1. This Liberty Cap cent shows substantial curl definition behind Liberty's neck. The weakness on the N in UNITED is often seen on S-78. Ocean-blue and lavender undertones enrich unblemished surfaces. Our EAC grade VG8. PCGS# 1380, NGC ID# 223T, CoinPlex ID# LGC1795PEBN

**VF30 1796 Liberty Cap Cent, S-91**

- 3064 1796 Liberty Cap VF30 PCGS.** S-91, B-1, R.3. A horizontal die bulge on the lower obverse aids attribution. Sheldon listed S-91 as the final Liberty Cap variety, but Breen differed and designated it as the initial 1796 marriage. Deep steel-blue toning embraces this midgrade cent. The surfaces are minimally abraded and only mildly granular. The lower hair curls show pleasing definition. Our EAC grade Fine 15. PCGS# 1392, NGC ID# 223V, CoinPlex ID# LGC1796LIBCAPBN

**Bold XF45 1798 Cent  
Second Hair Style, S-174**

- 3065 1798 Second Hair Style XF45 NGC. S-174, B-35, R.2.** This mahogany-brown large cent is richly detailed, and is smooth aside from a few obverse rim nicks and a whisper of gray buildup near the reverse design crevices. The lower reverse and Liberty's chin and ribbon are boldly clashed, as usual for the variety. Our EAC grade VF25.  
*Ex: Long Beach Signature (Heritage, 6/2006), lot 145. NGC ID# 2244, PCGS# 1434, CoinPlex ID# LGC17982NDHAIRBN*

- 3066 1803 Small Date, Small Fraction VF30 NGC. S-251, B-8, R.2.** This medium brown midgrade cent is minimally abraded. Granularity is moderate and limited to the date area and the reverse margin at 11:30. A mint-made strike-through is noted beneath the hair ribbon. Our EAC grade VF20.  
*Ex: George Ramont (10/1969); Jules Reiver Collection (Heritage, 1/2006), lot 19564. NGC ID# 224G, PCGS# 1482, CoinPlex ID# LGC1803SDSFBN*

- 3067 1803 Small Date, Large Fraction PCGS Genuine. S-260, B-19, R.1.** The PCGS number ending in .98 suggests Damage as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, the piece has the details of an XF specimen that has reverse damage. The deep chocolate-brown obverse is luminous and displays well, but the light digs in the left field on that side have more serious counterparts around the peripheral reverse. Our EAC grade VF20. PCGS# 1485, NGC ID# 224G, CoinPlex ID# LGC1803SDLFBN

- 3068 1803 Small Date, Large Fraction XF45 NGC. S-258, B-17, R.1.** The arc-shaped crack beneath the hair ribbon identifies this available Sheldon variety. The chocolate-brown surfaces display only minor contact. Luster shimmers from the curls and legends. Our EAC grade VF35. NGC ID# 224G, PCGS# 1485, CoinPlex ID# LGC1803SDLFBN

**Near-Mint 1803 Cent, S-258  
Large Fraction, Small Date**

- 3069 1803 Small Date, Large Fraction AU58 NGC. S-258, B-17, R.1.** The curved die crack on the left obverse field and an "accent" die break above the D in UNITED identify this Sheldon marriage. A lustrous type coin with lovely ocean-blue and tan-gold toning. The fields show clash marks but are free from abrasions. Light rub on the shoulder and leaves confirms a momentary stint in Jefferson-era commerce. Our EAC grade VF30. NGC ID# 224G, PCGS# 1485, CoinPlex ID# LGC1803SDLFBN

- 3070 1804 Restrike MS64 Brown PCGS Secure. Breen-1761.** Per Breen, "Struck about 1858 by parties unknown from rusted [and broken] dies retrieved from scrap metal sold by the Mint in 1833. Obv. altered from 1803 Sheldon 261; rev. of 1820. Both dies hand-strengthened." A later, lapped die state than is usual for the issue with ONE faint and additional cracks near the shoulder curl. Golden-brown and olive-green with satin luster. Our EAC grade MS60. PCGS# 45344

**Challenging AU 1806 Cent, S-270**

- 3071 1806 AU50 PCGS. S-270, B-1, R.1.** *Ex: Benson.* The only known dies for this conditionally rare date. Sharply struck on the obverse with the usually seen softness on the reverse wreath. The deep golden-brown and olive-green surfaces show hints of luster and are generally smooth aside from a slight rim ding beneath the date. Our EAC grade XF40. Population: 6 in 50, 15 finer (1/13).  
*Ex: Ira S. Reed (9/1944); Benson II Collection, Part I (Ira & Larry Goldberg, 2/2001), lot 369. PCGS# 1513, NGC ID# 224L, CoinPlex ID# LGC1806BN*

- 3072 1812 Large Date VF35 NGC. S-289, B-4, R.1.** A mauve-brown representative with glimpses of luster in protected regions. A loupe reveals only minor marks near the date. The curls and stars are lightly brought up. The reverse is multiply clashed. Our EAC grade VF20. NGC ID# 224W, PCGS# 1564, CoinPlex ID# LGC1812LDBN

- 3073 1820 Large Date MS64 Brown PCGS. N-13, R.1.** Though designated as Brown, the initial crimson lingers about the letters and stars. The fields and high points are medium brown. Mark-free but we note a small spot beneath the shoulder curl. Our EAC grade MS60. PCGS# 1615, NGC ID# 2256, CoinPlex ID# LGC1820LDBN

- 3074 1820 Large Date MS65 Brown PCGS. CAC. N-13, R.1.** Brick-red and steel-blue shades alternate across this lustrous Gem Matron Head type coin. One small spot above star 13 but abrasions are essentially absent. N-13 is the most prevalent 1820 variety in Uncirculated grades due to the Randall Hoard. Our EAC grade MS63. PCGS# 1615, NGC ID# 2256, CoinPlex ID# LGC1820LDBN

- 3075 1820 Large Date MS65 Brown PCGS. CAC. N-13, R.1.** Mahogany-brown and aquamarine toning attests to the originality of this lustrous and mark-free Randall Hoard Gem. A few stars lack an absolute impression but the central motifs are bold. Our EAC grade MS60. PCGS# 1615, NGC ID# 2256, CoinPlex ID# LGC1820LDBN

- 3076 1820 Small Date MS64 Brown NGC. N-15, R.1.** A chestnut-brown near-Gem with satin luster and unabraded surfaces. The major devices are bold, while most of the stars are lightly impressed. Most Uncirculated 1820 cents are N-13 Large Date pieces from the Randall Hoard. N-15 is rare in the present quality. Our EAC grade AU55.  
*Ex: Charlotte ANA Signature (Heritage, 5/2003), lot 5057, which realized \$977.50. NGC ID# 2256, PCGS# 91615, CoinPlex ID# LGC1820SDBN*

- 3077 1825 AU58 PCGS. N-6, R.3.** Repunching on LIBERTY identifies the Newcomb marriage. This satiny near-Mint scarcer date cent is principally walnut-brown but also displays steel-blue and olive-gray shades. Free from obtrusive abrasions. Our EAC grade XF45. PCGS# 1642, NGC ID# 225F, CoinPlex ID# LGC1825BN

- 3078 1828 Large Narrow Date MS61 Brown PCGS. N-11, R.2.** A blundered legend variety with the partial letters S and O on each side of STATES. Mostly chocolate-brown though olive-green accompanies design recesses. The strike is good and the glossy surfaces are minimally abraded. Our EAC grade AU50. PCGS# 1654, NGC ID# 225J, CoinPlex ID# LGC1828LNARDATEBN

**N-18 1847 Cent, MS63 Brown  
Large Over Small 47**

- 3079 1847/47 Large Over Small 47 MS63 Brown PCGS. N-18, R.5.** Grellman Die State a. Rarer overall than the Newcomb-2 die marriage of this blundered date variety, though N-18 may be more available in Uncirculated grades. The present medium brown example displays a bold strike and a smooth reverse. A few minute obverse ticks are of little consequence. The portrait has a granular texture, as made and usual for N-18. Our EAC grade MS60. PCGS# 1880, NGC ID# 226D, CoinPlex ID# LGC1847OVR7LGS47BN

- 3080 1850 MS65 Brown PCGS. CAC. N-21, R.2.** Although certified as Brown, this Gem has considerable splashes of orange mint luster, especially on the obverse. A few trivial blemishes and slight surface roughness are evident. Our EAC grade MS62. PCGS# 1889, NGC ID# 226G, CoinPlex ID# LGC1850BN

- 3081 1850 MS64 Red and Brown NGC. N-26, Low R.5.** Grellman Die State b. This better die variety near-Gem is identified by the die line in the dentils near the UN in UNITED. The base of the 0 is lightly repunched. Sharply struck, lustrous, and mostly fire-red with fading to lilac on the portrait and beneath CENT. Our EAC grade MS63. NGC ID# 226G, PCGS# 1890, CoinPlex ID# LGC1850RB

**Red Gem 1853 Cent, N-25**

- 3082 1853 MS65 Red PCGS. CAC. N-25, R.1.** A beautiful orange-red Gem with vibrant luster and impressive eye appeal. The reverse is unabraded. A few tiny gray spots are distributed. The stars are lightly brought up but the types are nicely struck. Certified in a first generation holder. Our EAC grade MS65. Population: 59 in 65 (1 in 65+) Red, 14 finer (1/13). PCGS# 1903, NGC ID# 226K, CoinPlex ID# LGC1853RD

**FLYING EAGLE CENTS**

- 3083 1857 MS63 NGC. CAC.** This lustrous tan-brown Flying Eagle type coin shows moderate incompleteness of strike on the beak and cotton leaves, but the fields display only unimportant imperfections. NGC ID# 2276, PCGS# 2016, CoinPlex ID# FEC1857

- 3084 1857 MS64 NGC.** This walnut-brown type coin exhibits sweeping luster and smooth surfaces. Shallow strike-throughs near the denomination are of mint origin but deny an even finer grade. NGC ID# 2276, PCGS# 2016, CoinPlex ID# FEC1857

- 3085 1857 — Clashed Reverse Die — MS64 PCGS.** A satiny and nicely struck walnut-brown near-Gem with no remotely consequential marks. The reverse field exhibits clash marks from a Flying Eagle obverse die near the denomination. PCGS# 2016, NGC ID# 2276, CoinPlex ID# FEC1857

- 3086 1857 — Clashed With Half Dollar — MS64+ NGC. Snow-3, FS-402.** One of three highly unusual cross-denomination clashes on 1857 Flying Eagle cents (the others are FS-403 and FS-901). The obverse shows clash marks from a Seated half, most clearly beneath STATES. Lustrous and unabraded with golden-tan color and a bold strike. NGC ID# 2276, PCGS# 2016, CoinPlex ID# FEC1857

**1857 Flying Eagle Cent, MS64  
First Year of Regular Issue**

- 3087 1857 MS64 PCGS. CAC.** For many first-year type collectors, the 1857 is chosen due to the rarity and associated expense of the 1856, which is technically a pattern coin anyway. Olive patina resides on lustrous tan surfaces on this Choice Mint State specimen, housed in a green-label PCGS holder. PCGS# 2016, NGC ID# 2276, CoinPlex ID# FEC1857

**Unabraded Gem 1857 Flying Eagle Cent**

- 3088 1857 MS65 NGC.** A lovely walnut-brown Gem of this introductory small cent type. One small lamination (as issued) is at 2:30 on the reverse but the coruscating surfaces are unabraded. Sharply struck on the eagle and upper left portion of the wreath, though some peripheral elements are incompletely brought up. NGC ID# 2276, PCGS# 2016, CoinPlex ID# FEC1857

---

### Mint State 1858/7 Cent, Snow-1

- 3089 **1858/7 MS61 NGC. Snow-1, FS-301.** The diagnostic die lump is clearly present above the first 8 in the date. The upper right corner of the 7 underdigit is faint but visible. A satiny and mark-free walnut-brown cent with selected softness of strike on the tail feathers and right-side margins.

*Ex: Estate of Robert R. Rollins Collection, Part One (Heritage, 5/2008), lot 2242. NGC ID# 2TYC, PCGS# 2022, CoinPlex ID# FEC18587*

---

### Gem Large Letters 1858 Cent Smooth, Semiprooflike Surfaces

- 3090 **1858 Large Letters MS65 NGC.** High Leaves Reverse. Closed E in ONE. This unabraded and semiprooflike Gem has a primarily orange-gold obverse, though the margin shows iridescent rose-red and powder-blue tints. The reverse exhibits variegated peach, olive, and lilac shades. The strike is sharp except on the upper left portion of the wreath. NGC ID# 2277, PCGS# 2019, CoinPlex ID# FEC1858LL

---

### Small Letters 1858 Cent, Fiery MS65

- 3091 **1858 Small Letters MS65 NGC.** Eagle Eye Photo Seal, card not included. High Leaves, Closed E in ONE. A precisely struck Gem with fiery luster and lovely orange-gold color. The central reverse has a few minute carbon flecks. Housed in a former generation holder. Census: 71 in 65, 15 finer (1/13).  
*Ex: Cincinnati Central States Signature (Heritage, 4/2009), lot 1091, which realized \$2,760. NGC ID# 2279, PCGS# 2020, CoinPlex ID# FEC1858SL*

---

## INDIAN CENTS

- 3092 **1859 MS64 PCGS.** This is a lovely near-Gem first-year type piece with attractive color. This was the only year for the laurel wreath reverse. A number of toning spots appear on both sides. A few contact marks on the obverse limited the grade. PCGS# 2052, NGC ID# 227E, CoinPlex ID# INC1859
- 3093 **1859 MS64 PCGS. Snow-2, FS-302.** The 8 in the date is obviously repunched south. Snow-2 is also interesting for its heavy arc-shaped die crack on the lower right reverse. This peach-red near-Gem is unabraded, lustrous, and desirable. PCGS# 2052, NGC ID# 227E, CoinPlex ID# INC1859

---

### 1859 Copper-Nickel Cent, MS65 One-Year Subtype, Seldom Seen Finer

- 3094 **1859 MS65 PCGS.** Lighter golden-copper at the rims yields to medium almond-tan in the centers of this Gem 1859 copper-nickel cent, an issue that is technically a one-year subtype. The strike is sharp throughout both sides and there are no singular marks. A tiny planchet flake in the center obverse is as minted. PCGS has seen only 16 finer (1/13). PCGS# 2052, NGC ID# 227E, CoinPlex ID# INC1859
- 3095 **1860 MS66 NGC.** Tan and mushroom-brown surfaces offer strong, pleasing luster. The tips of the first four feathers are weak, but the remaining elements are sharp. A few minor flecks are undisturbing. Overall, a highly desirable representative of this first Oak Wreath Reverse Indian cent. Census: 36 in 66, 3 finer (1/13).  
*Ex: Summer FUN Signature (Heritage, 7/2009), lot 92. NGC ID# 227F, PCGS# 2058, CoinPlex ID# INC1860RNBUST*
- 3096 **1861 MS65 PCGS.** Semiprooflike fields yield modest contrast with the devices of this Gem copper-nickel cent. Sharply defined, though the feather tips are weak; all four diamonds show clearly. A couple of grade-consistent obverse marks do not disturb.  
*Ex: Long Beach Signature (Heritage, 5/2008), lot 2256. PCGS# 2061, NGC ID# 227G, CoinPlex ID# INC1861*
- 3097 **1863 MS65 PCGS.** Attractive champagne and wheat-gold colors add to the visual appeal of this lovely Gem. Many of the feathertips display the typical incompleteness of strike. A few small areas of charcoal are visible on the obverse and a small aqua speck appears at the rim near 2 o'clock on the reverse. PCGS has assigned higher numeric grades to only 39 examples (1/13). PCGS# 2067, NGC ID# 227J, CoinPlex ID# INC1863
- 3098 **1863 MS65 PCGS. CAC.** An attractive patina in shades of champagne, gold, and russet adds to the visual appeal of this Gem. Tiny spots of toning appear on both sides. Only 39 examples have received higher numeric grades from PCGS (1/13). PCGS# 2067, NGC ID# 227J, CoinPlex ID# INC1863
- 3099 **1864 Copper-Nickel MS65 NGC.** An attractive and well-struck example from the last of the copper-nickel cent issues, honey-gold with hints of mahogany on the reverse. Top-notch eye appeal.  
*Ex: Long Beach Signature (Heritage, 2/2009), lot 289. NGC ID# 227K, PCGS# 2070, CoinPlex ID# INC1864CN*

- 3100 1864 Copper-Nickel MS65 PCGS. CAC.** A prooflike Gem from the final year of the copper-nickel composition. Honey-gold overall with a traces of lime-green and lilac-red. One tiny spot beneath a jaw. Only the uppermost feather tips lack a full strike. PCGS# 2070, NGC ID# 227K, CoinPlex ID# INC1864CN
- 3101 1864 Copper-Nickel MS65 PCGS. CAC.** This transitional issue was minted early in the year, before the composition was changed to bronze. This Gem displays well-struck devices and satin luster. A number of carbon spots are visible on the obverse. Only 17 examples have received higher numeric grades from PCGS (1/13). PCGS# 2070, NGC ID# 227K, CoinPlex ID# INC1864CN
- 3102 1864 L On Ribbon MS64 Red and Brown PCGS.** Eagle Eye Photo Seal, card included. The obverse of this boldly struck Choice semikey cent is sun-gold with slight lilac toning on the high points. The reverse displays blended plum-red and orange-gold shades. Lustrous, spot-free, and minimally abraded. PCGS# 2080, NGC ID# 227M, CoinPlex ID# INC1864LRB
- 3103 1864 L On Ribbon MS64 Red and Brown PCGS. CAC.** Generally orange-red with hints of lilac on the portrait and left obverse field. Lustrous and crisply struck with a mark-free appearance. One small strike-through (as issued) near the A in STATES. PCGS# 2080, NGC ID# 227M, CoinPlex ID# INC1864LRB
- 3104 1864 L On Ribbon MS65 Red and Brown NGC.** A well-detailed Gem with a touch of softness on the ribbon knot and headdress feathers, this specimen exhibits the L for Longacre on the ribbon. The surfaces display a mix of original red with light brown and lilac highlights. NGC has certified 22 coins in higher numeric grades (1/13). NGC ID# 227M, PCGS# 2080, CoinPlex ID# INC1864LRB
- 3105 1866 MS65 Red and Brown NGC. Snow-5a.** The date is clearly repunched. Unabraded and satiny with Red borders and Brown centers. The strike is bold on the obverse though the reverse margin is lightly brought up. Struck from clashed dies. Housed in a prior generation holder. NGC ID# 227P, PCGS# 2086, CoinPlex ID# INC1866RB
- 3106 1866 MS65 Red and Brown ANACS.** Bright wheat-gold color along with areas of red, fiery orange, violet, russet, and light green combine to provide this Gem with pleasing eye appeal. The coin is well-struck and free of abrasions. NGC ID# 227P, PCGS# 2086, CoinPlex ID# INC1866RB
- 3107 1867/67 MS63 Red and Brown PCGS. Snow-1, FS-301.** The 67 is clearly repunched north. Orange-gold fills the margins though most of this Reconstruction-era cent is brown. Sharply struck and unabraded with minor obverse carbon. Housed in a green label holder without a variety designation. PCGS# 92089, CoinPlex ID# INC1867OVR67RB

**Choice Red and Brown Snow-1  
1867/67 Cent, FS-301**

- 3108 1867/67 MS64 Red and Brown ANACS. Snow-1, FS-301.** The 67 is clearly repunched north. This numismatic prize has pleasing cartwheel sheen and rich chocolate-brown fields and devices. Orange-gold fills generous portions of the borders. Well struck save for the top of the shield. Struck from boldly clashed dies. Housed in an ANA cache holder.  
*Ex: Stamford Signature (Heritage, 10/2010), lot 3839, which realized \$3,450. PCGS# 92089, CoinPlex ID# INC1867OVR67RB*

- 3109 1869 MS64 Brown PCGS.** Varieties of colors intermingle to provide this lustrous near-Gem with lovely eye appeal on both sides. The shades include cherry, lilac, lemon, lime, and bright orange. The feathertips exhibit a minor incompleteness of strike. A long die crack extends from the second S in STATES to the 6 in the date. PCGS# 2094, NGC ID# 227T, CoinPlex ID# INC1869BN
- 3110 1869/69 MS64 Red and Brown NGC. Snow-3d, FS-301.** Designated as FS-008.3 on the NGC insert, the former *Cherrypickers'* number for the variety. A popular repunched date that at one time was regarded as an overdate. This is a richly toned fire-red, orange, sea-green, sky-blue, and plum-mauve near-Gem. A smooth example with golden-brown streaks on the left obverse field.  
*Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 128, which realized \$1,725. PCGS# 37475*
- 3111 1870 MS64 Red and Brown PCGS. Snow-6.** Bold N in ONE. The base of the 1 is repunched and ONE CENT has minute die doubling. Satiny and nicely struck with smooth lavender-brown and fire-red surfaces. Certified in a green label holder. PCGS# 2098, NGC ID# 227U, CoinPlex ID# INC1870RB

**1870 Indian Cent, MS65 Red  
Only Four Finer at PCGS**

- 3112 1870 MS65 Red PCGS. FS-901.** Shallow N in ONE. While the 1870 is seen slightly more often than some other years with orange color, this fully brilliant specimen remains elusive and will become a prized part of a complete Indian cent collection. Both sides have frosty orange mint luster with sharp design motifs and pristine surfaces. A magnificent specimen. Population: 31 in 65 Red, 4 finer (1/13). PCGS# 2099, NGC ID# 227U, CoinPlex ID# INC1870RD
- 3113 1871 MS64 Red and Brown PCGS. CAC.** Bold N. Generally orange-gold, though the portrait and left obverse field show lilac-red and the reverse displays moderate carbon. Sharply struck and lustrous. Housed in a green label holder. PCGS# 2101, NGC ID# 227V, CoinPlex ID# INC1871RB
- 3114 1871 MS65 Red and Brown NGC.** Bold N in ONE. Vibrant luster sweeps this sharply struck Gem. Orange-gold dominates much of the design though the high points and left obverse field are steel-blue. Housed in a prior generation holder.  
*Ex: Long Beach Signature (Heritage, 9/2008), lot 254, which realized \$2,185. NGC ID# 227V, PCGS# 2101, CoinPlex ID# INC1871RB*
- 3115 1872 MS62 Brown PCGS. CAC. Snow-10a, FS-901.** Shallow N in ONE. Snow-10a is identified by the die chip above the jaw. Nicely struck and carousing with scattered minor field marks. Some mint red remains though the Indian and open fields are sea-green. PCGS# 2103, NGC ID# 227W, CoinPlex ID# INC1872BN
- 3116 1872 MS64 Red and Brown PCGS.** Bold N in ONE. Orange-gold fills the legends though the motifs and obverse field are brown. Well struck and unabraded with only trivial carbon and minute mint-made strike-throughs. Certified in a green label holder. PCGS# 2104, NGC ID# 227W, CoinPlex ID# INC1872RB

- 3117 1872 MS64 Red and Brown PCGS.** Bold N in ONE. The caramel-gold obverse approaches a Red designation though the central reverse has rich violet toning. The reverse periphery is peach-gold. Lustrous and mark-free. The obverse is well struck though the reverse shows softness.  
*Ex: West Palm Beach FUN (Heritage, 6/2008), lot 135, which realized \$1,610. PCGS# 2104, NGC ID# 227W, CoinPlex ID# INC1872RB*

**1872 Indian Cent  
MS65 Red and Brown**

- 3118 1872 MS65 Red and Brown PCGS.** Bold N in ONE. Although the top of the shield is weak, the feathers are fully defined and most other design elements are nicely detailed. This satiny Gem has nearly full red mint luster with delicate blue overtones. Population: 76 in 65 (1 in 65+) Red and Brown, 6 finer (1/13). PCGS# 2104, NGC ID# 227W, CoinPlex ID# INC1872RB
- 3119 1873 Open 3 MS65 Red and Brown NGC.** This lustrous semikey Gem displays a nearly equal percentage of almond-gold and gunmetal-gray. The clashed surfaces are void of marks. The obverse border displays brown freckles. Housed in a former generation holder.  
*Ex: Long Beach Signature (Heritage, 9/2008), lot 258, which realized \$920. NGC ID# 227Y, PCGS# 2107, CoinPlex ID# INC1873OP3RB*
- 3120 1873 Closed 3 MS64 Red and Brown PCGS. CAC.** This near-Gem exhibits attractive rich color that includes subtle shades of green and is well-struck. A few minor contact marks do little to detract from the eye appeal of this well-preserved example. Population: 92 in 64 (1 in 64+) Red and Brown, 33 finer (1/13). PCGS# 2110, NGC ID# 227X, CoinPlex ID# INC1873CL3RB
- 3121 1875 MS65+ Red and Brown PCGS. CAC.** This high-end Gem displays lustrous golden, orange, and red surfaces leading to tremendous eye appeal. The reverse exhibits several clash marks and small die cracks. Tiny carbon spots appear on both sides. This example is tied with one other PCGS-graded piece at the 65+ level in Red and Brown, with three finer (1/13). PCGS# 2122, NGC ID# 2282, CoinPlex ID# INC1875RB
- 3122 1876 MS65 Red and Brown PCGS.** A delightful Gem Indian cent from the Centennial year, this piece displays rich color. Tiny toning spots appear primarily on the reverse. The coin is well-struck overall, but exhibits design weakness at the feather tips. Population: 67 in 65 Red and Brown, 2 finer (1/13). PCGS# 2125, NGC ID# 2283, CoinPlex ID# INC1876RB
- 3123 1877 VF30 PCGS. CAC.** This midgrade key date cent has a bold LIBERTY and retains most feather detail, though the tips show wear. The medium brown surfaces show only minor contact. Mildly granular near the wreath stem. Encapsulated in a first generation holder. PCGS# 2127, NGC ID# 2284, CoinPlex ID# INC1877BN
- 3124 1877 VF35 NGC. CAC.** A medium brown example of the most challenging date of the widely held series. No marks merit mention. The BE in LIBERTY displays moderate wear but the other five letters are sharp. NGC ID# 2284, PCGS# 2127, CoinPlex ID# INC1877BN

- 3125 1877 — Improperly Cleaned — NGC Details. XF.** This moderately circulated key date cent has been recolored and displays sea-green undertones, though the lightly marked surfaces are principally walnut-brown. Widely pursued in all grades. NGC ID# 2284, PCGS# 2127, CoinPlex ID# INC1877BN
- 3126 1877 XF45 NGC.** A nicely detailed representative of the coveted series key. Sea-green and rose-red undertones frequent this medium brown example. Smooth except for one slender mark above the cheekbone. NGC ID# 2284, PCGS# 2127, CoinPlex ID# INC1877BN

**1877 Indian Cent, AU53  
Sought-After Business-Strike Key**

- 3127 1877 AU53 NGC.** A lightly circulated example of this sought-after low-mintage key, with a touch of wear showing on the well-detailed design elements but no large or distracting abrasions. The medium-intensity brown surfaces show a few scattered hints of original red, with no signs of carbon. NGC ID# 2284, PCGS# 2127, CoinPlex ID# INC1877BN

**1877 Cent, AU58, Snow-2  
Medium Chocolate-Brown Color**

- 3128 1877 AU58 PCGS. CAC. Snow-2.** Shallow N reverse, the sole reverse die known for the business strike 1877s and an excellent authentication tool (along with the ubiquitous die clash above the O in ONE), as the reverse is a pre-1870-style die. This piece shows the Snow-2 obverse, with the 18 slightly apart and a die dot at the juncture of Liberty's lower hair and neck. This piece is medium chocolate-brown with only light high-point wear and few signs of contact. A couple of the feather tips are bluntly struck. PCGS# 2127, NGC ID# 2284, CoinPlex ID# INC1877BN
- 3129 1881 MS66 Red and Brown PCGS. CAC.** Brilliant surfaces appear on both sides, with the obverse including shades of brilliant iridescent orange, bright red, plum, and silver. The Indian's cheek displays minor marks. The tips of the feathers and the shield on the reverse exhibit an incompleteness of strike. Population: 4 in 66 Red and Brown, 0 finer (1/13). PCGS# 2140, NGC ID# 2288, CoinPlex ID# INC1881RB
- 3130 1886 Type One MS65 Red and Brown NGC.** The lustrous obverse is mostly peach-gold with hints of olive toning near the profile. The prooflike reverse displays alternating streaks of sun-gold and lavender. Certified in a prior generation holder.  
*Ex: Orlando FUN Signature (Heritage, 1/2009), lot 7353, which realized \$805. NGC ID# 228D, PCGS# 2155, CoinPlex ID# INC1886TY1RB*

**1888/7 Indian Cent, VG10  
FS-301, Snow-1**

- 3131 1888/7 VG10 NGC. Snow-1, FS-301.** A small rim break outside the dentils over the E in UNITED is diagnostic for this overdate variety, and that rim break is faintly visible on this specimen, despite being worn nearly smooth. Both sides have sky-blue toning over the medium brown surfaces. A few scattered marks are consistent with the grade of this affordable specimen. NGC ID# 228G, PCGS# 2169, CoinPlex ID# INC188OVR87BN

- 3132 1889 MS65 Red NGC. CAC.** Rich luster emanates from both sides of this appealing Gem. Splashes of peach and orange add to the eye appeal of this copper-gold piece. Several small spots of color appear and there are a few contact marks on Liberty's face. Census: 30 in 65 Red, 1 finer (1/13). NGC ID# 228H, PCGS# 2174, CoinPlex ID# INC1889RD

- 3133 1894 Doubled Date MS62 Brown PCGS. Snow-1, FS-301.** The Cherrypickers' authors call this variety "one of the Top 5 varieties in the Indian Head cent series." The secondary digits are widely repunched northeast. Although designated Brown, glimpses of the initial orange-red cling to the design recesses. Sharply struck and only lightly abraded.

*Ex: Orlando FUN Signature (Heritage, 1/2010), lot 226, which realized \$1,840. PCGS# 92187, CoinPlex ID# INC1894DDBN*

- 3134 1908-S MS64+ Red and Brown PCGS. CAC.** Orange-gold luster with hints of lilac abounds on this high-end Choice example with a wood grain appearance. The design elements display a sharp strike except for the usual softness in the feather tips. PCGS# 2233, NGC ID# 2296, CoinPlex ID# INC1908SRB

- 3135 1908-S MS65 Red and Brown PCGS.** The first cents struck at San Francisco were produced in 1908, and this Red and Brown Gem is part of that historic issue. Several different hues appear on each side of this lovely Gem. PCGS has awarded higher numeric grades to only 7 examples (1/13). PCGS# 2233, NGC ID# 2296, CoinPlex ID# INC1908SRB

- 3136 1909-S MS64 Red and Brown PCGS.** Liberal splashes of gold, wheat, russet, orange, and red intermingle on the obverse to create an attractive appearance. The lustrous reverse is largely uniform in color, with mingled shades of gold and apricot along with sea-green highlights primarily on the arrows. Well struck for a '09-S, the only mark of any note is on the upper reverse.

*Ex: Long Beach Bullet (Heritage, 9/2003), lot 169. PCGS# 2239, NGC ID# 2298, CoinPlex ID# INC1909SRB*

- 3137 1909-S MS64 Red NGC.** Lustrous surfaces display pleasing orange coloration and sharply struck design elements. A few tiny flecks on each side and a hint of ebony on the left border of the shield keep this piece from full Gem classification, but all in all this is a pleasing key branch-mint issue.

*Ex: The Plymouth Collection (Heritage, 1/2009), lot 378. NGC ID# 2298, PCGS# 2240, CoinPlex ID# INC1909SRD*

**1909-S Indian Cent, MS65 Red  
Elusive San Francisco Issue**

- 3138 1909-S MS65 Red PCGS Secure.** Traces of lavender toning appear on the mellow orange surfaces of this frosty and highly lustrous San Francisco Mint Indian cent. The 1909-S is the second and scarcer issue of only two Indian cents produced at the California facility. This piece has pristine surfaces with exceptional eye appeal. PCGS has only certified 15 finer Red examples (1/13). PCGS# 2240, NGC ID# 2298, CoinPlex ID# INC1909SRD

**PROOF INDIAN CENTS**

- 3139 1862 PR65 PCGS.** Peach, lemon, and sky-blue tints endow this copper-nickel specimen. A well struck Gem with mirrored fields and a smooth appearance. From a tiny proof mintage of 550 pieces. PCGS# 2259, NGC ID# 229C, CoinPlex ID# INP1862

**Vibrantly Toned 1866 Cent  
PR66 ★ Red and Brown Cameo**

- 3140 1866 PR66 ★ Red and Brown Cameo NGC.** Rotation beneath a light reveals intense cherry-red and lilac shades. Fully struck and strongly mirrored with minute mint-made granularity on the cheek and neck. An exceptional specimen from the initial mintage of 725+ proofs.

*Ex: Orlando FUN Signature (Heritage, 1/2007), lot 579, which realized \$3,737.50. NGC ID# 229J, PCGS# 2286, CoinPlex ID# INP1866RB*

**Red Gem Proof 1868 Cent**

- 3141 1868 PR65 Red PCGS.** Rich copper-gold color and hints of red cover both sides of this very pleasing example that displays an intricate strike. Small splashes of plum, blue-green, and violet, primarily visible at the rim, are largely confined to the reverse. A small lint mark appears near the E in UNITED. The reverse displays moderate rotation. Population: 10 in 65 Red, 2 finer (1/13). PCGS# 2293, NGC ID# 229L, CoinPlex ID# INP1868RD

**1877 Cent, PR64 Red and Brown  
Variegated Color, Sharply Struck**

- 3142 1877 PR64 Red and Brown PCGS.** The surfaces show a dominant underlying yellow-golden tint with a speckled layer of variegated-color reddish-brown patina on top, about 60/40 Red/Brown to our eyes. The strike is quite sharp, showing four diamonds and most of the feather tips full. There is no visible carbon or other distractions. The Bold N reverse confirms the proof status. PCGS# 2319, NGC ID# 229W, CoinPlex ID# INP1877RB

**1877 Cent, PR65 Red and Brown  
Date Pressure Premium**

- 3143 1877 PR65 Red and Brown NGC.** Sharply struck, with excellent definition appearing on all four diamonds and the feather tips. Coppery-tan and crimson patination bathes both sides, neither of which reveals mentionable contact marks or unsightly spotting. A pleasing 1877 Red and Brown Gem proof. Census: 71 in 65 Red and Brown, 17 finer (1/13).  
*Ex: ANA Signature (Heritage, 8/2007), lot 218. NGC ID# 229W, PCGS# 2319, CoinPlex ID# INP1877RB*

- 3144 1878 PR66 Cameo NGC.** The design elements of this impressive Premium Gem are sharply detailed, with rich mint frost that contrasts boldly with the reflective fields. The orange-red surfaces show a few hints of light brown and crimson toning. Census: 1 in 66 Cameo, 1 finer (1/13). PCGS# 82323, CoinPlex ID# INP1878RDCA

- 3145 1881 PR66 Red and Brown PCGS.** The reflective fields of this spectacular Premium Gem show mostly original red color, while the sharply detailed design elements display hints of light brown and lilac. Population: 20 in 66 (1 in 66+) Red and Brown, 4 finer (1/13). PCGS# 2331, NGC ID# 22A2, CoinPlex ID# INP1881RB

**1883 Indian Cent, PR66 Red  
Perfect High-Grade Type Coin**

- 3146 1883 PR66 Red PCGS.** Perhaps surprisingly for a proof 1880s Indian cent with a sizeable original delivery of 6,609 pieces, the 1883 is a condition rarity with which to be reckoned. Most survivors display Red and Brown surfaces, and what few fully lustrous examples are extant typically grade no finer than PR63. Among the finest proof 1883 cents that we have offered, this high-end Gem is fully brought up from an obviously powerful impression. Shimmering reflectivity is noted, mostly on the obverse, and the surfaces are equally free of grade-limiting distractions. The luster is perhaps the single most important feature, and it is both full and vibrant with alternating cherry-red and orange-red colors. Population: 4 in 66 (1 in 66+) Red, 1 finer (1/13).  
*Ex: Long Beach Signature (Heritage, 2/2003), lot 5310. PCGS# 2338, NGC ID# 22A4, CoinPlex ID# INP1883RD*

- 3147 1885 PR66 Red and Brown PCGS. CAC.** Rich pink highlights add to the visual appeal on both sides of this pleasing Premium Gem that displays brilliant, lustrous surfaces. The legend on the obverse exhibits attractive Longacre doubling. A few small toning spots are present. Population: 38 in 66 (1 in 66+) Red and Brown, 18 finer (1/13). PCGS# 2343, NGC ID# 22A6, CoinPlex ID# INP1885RB

**1889 Indian Cent, PR66 Red  
None Certified Finer**

- 3148 1889 PR66 Red PCGS.** Among the finest certified survivors of this 1880s production, both sides are ablaze with copper-golden luster. There is a tinge of bright golden iridescence intermingled over the reverse, and the surfaces retain their essentially mark-free appearance at all angles. A no-questions Premium Gem. Population: 8 in 66 Red, 0 finer (1/13). PCGS# 2356, NGC ID# 2732, CoinPlex ID# INP1889RD

- 3149 1899 PR66 Red and Brown PCGS. CAC.** A coin with tremendous eye appeal on both sides, this well-struck example displays wheat, yellow, and lime-green surfaces along with splashes of bright orange and cherry. The piece is devoid of carbon spots. Vertical roller marks appear on the obverse. Population: 30 in 66 Red and Brown, 5 finer (1/13). PCGS# 2385, NGC ID# 22AM, CoinPlex ID# INP1899RB

## LINCOLN CENTS

- 3150 1909-S VDB AU50 PCGS.** A walnut-brown key date cent. The portrait shows moderate wear, though ample luster glimmers from the surfaces. A lens locates minor marks compatible with light circulation. PCGS# 2426, NGC ID# 22B2, CoinPlex ID# LIC1909SVDBBN
- 3151 1909-S VDB MS61 Brown NGC.** This attractive Mint State example displays sharply detailed design elements and a bold VDB. The medium brown surfaces show highlights of original red and lilac, with much luster underneath the toning. NGC ID# 22B2, PCGS# 2426, CoinPlex ID# LIC1909SVDBBN
- 3152 1909-S VDB MS62 Brown PCGS. CAC.** A sharply detailed example of this key date, with well-preserved surfaces that show a mixture of original red, medium brown, and lilac highlights. Original mint luster is present beneath the patina. PCGS# 2426, NGC ID# 22B2, CoinPlex ID# LIC1909SVDBBN
- 3153 1909-S VDB MS64 Brown NGC. CAC.** A golden-brown to medium brown near-Gem of this all-time collector favorite. Sharply struck and attractive with minor contact on Lincoln's neck and one fleck behind the base of his head. NGC ID# 22B2, PCGS# 2426, CoinPlex ID# LIC1909SVDBBN

### 1909-S VDB Cent, Colorful MS64 Red In-Demand First-Year Issue

- 3154 1909-S VDB MS64 Red PCGS.** Flame-red surfaces cover each side of this near-Gem. The deep color is still fully within the Red context, and magnification reveals only a few tiny dark flecks, mostly on the reverse. The crucial designer's initials are quite sharply struck, along with the Lincoln portrait. PCGS# 2428, NGC ID# 22B2, CoinPlex ID# LIC1909SVDBRD

### Red Gem 1909-S VDB Cent

- 3155 1909-S VDB MS65 Red PCGS.** This butter-gold Gem has dazzling luster and an unimprovable strike. The VDB initials are sharp. Devoid of contact though pinpoint carbon is scattered and one tiny spot is above Lincoln's shoulder. The most famous issue of the series, and for decades the target of tens of thousands of collectors. Encapsulated in a green label holder. PCGS# 2428, NGC ID# 22B2, CoinPlex ID# LIC1909SVDBRD

### 1909-S VDB Cent, Fiery MS66 Red Important Subtype in This Popular Series

- 3156 1909-S VDB MS66 Red NGC.** A flashy and carefully preserved example of this always popular first-year subtype and key date issue. The lustrous, essentially pristine surfaces are bathed in soft honey-gold hues that fade to pale orange over the central devices, and all devices are fully struck.  
*Ex: Portland Signature (Heritage, 3/2004), lot 5167.* NGC ID# 22B2, PCGS# 2428, CoinPlex ID# LIC1909SVDBRD

- 3157 1909-S S Over Horizontal S MS65 Red PCGS. FS-1502.** Encapsulated in an old green label holder that omits any reference to the blundered mintmark, but a lens confirms the variety. This lustrous Gem is nicely struck and devoid of abrasions. The dusky wheat-gold surfaces display incidental carbon. PCGS# 92434, CoinPlex ID# LIC1909SSSHORISRD

- 3158 1910-S MS65 Red PCGS.** Intermingled orange and gold color appears on the frosty mint surfaces of this lustrous Gem. The obverse exhibits a wood grain appearance. The piece is well-struck overall with just a touch of incompleteness at the tops of the first few letters in E PLURIBUS UNUM. PCGS# 2440, NGC ID# 22B6, CoinPlex ID# LIC1910SRD

- 3159 1911 MS66 Red NGC.** A magnificent orange-red Premium Gem of this early Lincoln issue. Well struck except on the rims near 9 o'clock. From a high mintage, but seldom seen in the present quality. Census: 36 in 66 Red, 1 finer (1/13). NGC ID# 22B7, PCGS# 2443, CoinPlex ID# LIC1911RD

- 3160 1911-D MS65 Red PCGS.** A lustrous butter-gold Gem of this conditionally challenging early Denver issue. Fully struck and devoid of marks with occasional moderate carbon. Encapsulated in a green label holder. PCGS# 2446, NGC ID# 22B8, CoinPlex ID# LIC1911DRD

- 3161 1911-D MS65 Red PCGS.** This is a luminous and largely copper-orange example, with a few traces of red, of the first Denver cent issue displaying occasional carbon. Only 20 examples have been assigned higher numeric grades by PCGS (1/13). PCGS# 2446, NGC ID# 22B8, CoinPlex ID# LIC1911DRD

- 3162 1911-D MS65 Red PCGS.** Well-struck and impressively preserved, this Gem displays even color on both sides and satiny, slightly granular surfaces. Tiny flyspecks are scattered over the upper obverse and a few minor abrasions are present. Only 20 examples have received higher numeric grades from PCGS (1/13).  
*Ex: Long Beach Signature (Heritage, 9/2003), lot 5624.* PCGS# 2446, NGC ID# 22B8, CoinPlex ID# LIC1911DRD

- 3163 1912 MS66 Red PCGS.** An orange-gold high grade cent from the year that Arizona and New Mexico entered the Union. Essentially void of contact or carbon. Population: 84 in 66 (3 in 66+) Red, 7 finer (1/13). PCGS# 2452, NGC ID# 22BA, CoinPlex ID# LIC1912RD

- 3164 1912-D MS65 Red PCGS.** A peach-gold Gem that boasts a good strike, vibrant luster, and a mark-free appearance. Carbon is limited to a solitary fleck on the right obverse field. Exceptional quality for the designated grade, and encapsulated in a first generation holder. PCGS# 2455, NGC ID# 22BB, CoinPlex ID# LIC1912DRD

- 3165 1912-S MS64 Red PCGS.** A lovely near-Gem piece, this boldly struck example displays thoroughly original copper-red color over both sides. Splashes of yellow and fiery-orange add to the visual appeal. Small toning and copper spots appear.  
*Ex: Denver Signature (Heritage, 8/2006), lot 355. PCGS# 2458, NGC ID# 22BC, CoinPlex ID# LIC1912SRD*
- 3166 1913-S MS64 Red PCGS.** The lustrous surfaces are brassy-gold, and exhibit just a few small grade-limiting marks and carbon spots. Adequately struck on the obverse, while some letters of AMERICA and the wreath along the right border are soft.  
*Ex: Fort Lauderdale FUN Signature (Heritage, 1/2005), lot 5349. PCGS# 2467, NGC ID# 22BF, CoinPlex ID# LIC1913SRD*
- 3167 1914-S MS65 Red and Brown PCGS.** Yellow, red, wheat, and bright orange color mingle to provide both sides of this lovely Gem with a pleasing appearance. The coin is well-struck and virtually free of abrasions. Population: 18 in 65 Red and Brown, 0 finer (1/13). PCGS# 2475, NGC ID# 22BJ, CoinPlex ID# LIC1914SRB
- 3168 1915-D MS65 Red PCGS.** The well-preserved original red surfaces of this delightful Gem show no mentionable distractions and just a few microscopic specks of carbon on the reverse. The design elements are sharply detailed throughout. PCGS has certified 22 numerically finer examples (1/13). PCGS# 2482, NGC ID# 22BL, CoinPlex ID# LIC1915DRD
- 3169 1915-D MS65 Red PCGS.** Brilliant and lustrous orange surfaces with hints of cherry on the obverse provide this Gem with lovely eye appeal. The coin is well-struck and displays areas of orange peel texture. PCGS has assigned higher numeric grades to only 22 pieces (1/13). PCGS# 2482, NGC ID# 22BL, CoinPlex ID# LIC1915DRD
- 3170 1915-S MS64 Red and Brown PCGS.** Sharply detailed, this near-Gem specimen exhibits well-preserved lustrous surfaces with a mixture of original red, wheat, and gold colors. Only 18 examples have been assigned higher numeric grades by PCGS (1/13). PCGS# 2484, NGC ID# 22BM, CoinPlex ID# LIC1915SRB
- 3171 1916-S MS64 Red PCGS.** Fiery orange color dominates large portions of both sides of this near-Gem. An arc of light charcoal color extends from the R in LIBERTY to the rim just below the second T in TRUST. PCGS has awarded higher numeric grades to only 22 pieces (1/13). PCGS# 2494, NGC ID# 22BR, CoinPlex ID# LIC1916SRD
- 3172 1917 MS66 Red PCGS.** Fire-red and olive-gold alternate across this nicely preserved example. The strike is unimprovably sharp, and only moderate carbon is noted near the portrait.  
*Ex: Dallas Signature (Heritage, 4/2007), lot 245, which realized \$1,495. PCGS# 2497, NGC ID# 22BS, CoinPlex ID# LIC1917RD*
- 3173 1917 Doubled Die Obverse VF35 NGC. FS-101.** TRUST and the date exhibit obvious die doubling. This *Guide Book* variety commands a strong price in all grades. The present Choice VF representative is toned deep walnut-brown and is devoid of detractors. PCGS# 92495, CoinPlex ID# LIC1917DDBN
- 3174 1917-D MS64 Red PCGS.** Fully struck and lustrous, this near-Gem displays attractive mint-green and red-orange color. A bit of flyspecking on each side prevents a higher grade. Only two numerically finer examples have emerged from PCGS since this coin was last offered over seven years ago, with that total now standing at 48 (1/13).  
*Ex: Long Beach Signature (Heritage, 9/2005), lot 1060. PCGS# 2500, NGC ID# 22BT, CoinPlex ID# LIC1917DRD*
- 3175 1917-S MS64 Red PCGS.** Dusky reddish-orange and peach shadings prevail on this Red near-Gem. Well-defined with excellent overall eye appeal. The population data has barely changed in the intervening four plus years since this piece was last offered, with only two more examples graded at this level and no additional higher-graded pieces. Population: 59 in 64 Red, 17 finer (1/13).  
*Ex: Long Beach Signature (Heritage, 9/2008), lot 391. PCGS# 2503, NGC ID# 22BU, CoinPlex ID# LIC1917SRD*
- 3176 1919-S MS64 Red PCGS.** From a surprisingly difficult issue with full red color despite an overwhelming original mintage, this piece displays bold definition throughout. A light freckling of carbon appears mostly along the lower portion of the reverse. Only 21 examples have been assigned higher numeric grades by PCGS (1/13). PCGS# 2521, NGC ID# 22C2, CoinPlex ID# LIC1919SRD
- 3177 1920 MS66 Red PCGS.** Satiny orange and honey-gold surfaces display radiant luster and sharply struck motifs. There are a few minute, inoffensive marks in the field near Lincoln's chin and a couple in the upper left (facing) reverse field. The number of numerically finer examples graded by PCGS has not changed since we last offered this coin over seven years ago, with the total remaining at 5 (1/13).  
*Ex: Orlando FUN Signature (Heritage, 1/2006), lot 194. PCGS# 2524, NGC ID# 22C3, CoinPlex ID# LIC1920RD*
- 3178 1920-S MS64 Red PCGS.** Vibrant color remains on both sides of this example, with splashes of red on the reverse. Although this near-Gem displays a partial incompleteness of strike, this issue is notorious for poorly struck coins. A few streaks of color and carbon spots are visible. Population: 78 in 64 Red, 9 finer (1/13). PCGS# 2530, NGC ID# 22C5, CoinPlex ID# LIC1920SRD
- 3179 1921 MS66 Red PCGS.** Dazzling luster illuminates this pristine pumpkin-gold Premium Gem. Peach-red and sun-gold grace fully struck surfaces. Population: 63 in 66 Red, 11 finer (1/13). PCGS# 2533, NGC ID# 22C6, CoinPlex ID# LIC1921RD
- 3180 1921-S MS63 Red PCGS.** A Select Mint State example that is bright and lustrous on both sides, this coin has an attractive appearance. The piece is well-struck at the centers although areas of incompleteness appear at the outer edges. The obverse exhibits contact marks and a few copper spots. PCGS# 2536, NGC ID# 22C7, CoinPlex ID# LIC1921SRD
- 3181 1922 No D Strong Reverse XF40 PCGS. FS-401.** Die Pair 2. A moderately circulated but problem-free example of this famous variety. All diagnostics are present, such as comparatively sharp definition on TRUST and the final 2 in the date. PCGS# 3285, NGC ID# 22C9, CoinPlex ID# LIC1922NODSTRONGBN
- 3182 1922 No D Strong Reverse XF40 PCGS. FS-401.** Die Pair 2. TRUST and the second 2 in the date are sharp, characteristic of the desirable Strong Reverse No D variety. The lines in the wheat ears are bold and the golden-brown surfaces display only minor marks. PCGS# 3285, NGC ID# 22C9, CoinPlex ID# LIC1922NODSTRONGBN

---

**Choice AU Strong Reverse  
1922 No D Cent**

- 3183 1922 No D Strong Reverse AU55 NGC. FS-401.** Die Pair 2. The typical example of the key FS-401 variety grades Fine or Very Fine, but the present cent has partial mint luster and essentially full reverse design definition. The portrait shows lesser detail as the obverse die was worn. Olive-gold and lilac toning visit both sides. Thin marks are relegated to the bust truncation and the field east of the denomination. NGC ID# 22C9, PCGS# 3285, CoinPlex ID# LIC1922NODSTRONGBN
-

**3184 1923-S MS64 Red and Brown PCGS.** Intermingled lavender, magenta, copper-orange, and mahogany shadings grace each side of this pleasing near-Gem survivor. This coin is well-defined by the standards of the issue with no overt distractions, though a handful of wispy flaws are evident on the devices and in the nearby fields. This coin is housed in a green label holder. Only two additional numerically finer Red and Brown examples have been graded by PCGS in the five years since this piece last appeared at auction, with the total now standing at 16 (1/13).

*Ex: Long Beach Signature (Heritage, 2/2008), lot 3197. PCGS# 2547, NGC ID# 22CB, CoinPlex ID# LIC1923SRB*

**3185 1924-D MS64 Red PCGS.** This better branch mint issue is very scarce in full Red. This near-Gem is principally orange-red with hints of gunmetal on the reverse. Lustrous and mark-free with moderate reverse carbon.

*Ex: Ron Bozarth Registry Collection (Heritage, 1/2006), lot 44, which realized \$1,265. PCGS# 2554, NGC ID# 22CD, CoinPlex ID# LIC1924DRD*

**3186 1924-S MS64 Red and Brown PCGS.** This is a lustrous near-Gem example. Portions of the right edge of the reverse exhibit russet color. A few charcoal-colored streaks appear on the obverse. Only 22 examples have received numerically finer grades from PCGS (1/13). PCGS# 2556, NGC ID# 22CE, CoinPlex ID# LIC1924SRB

**3187 1925-S MS64 Red and Brown PCGS.** The obverse includes shades of iridescent lime-green, cherry, and vibrant orange on this near-Gem. Russet, red, and deep orange appear on the reverse, particularly at the top portion. A mere 7 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 2565, NGC ID# 22CH, CoinPlex ID# LIC1925SRB

#### 1926-D Cent MS65 Red, Few Known Finer

**3188 1926-D MS65 Red PCGS. CAC.** The 1926-D Lincoln cent is likely underrated since it essentially "tops out" at the Gem Red level, save for two examples at PCGS and one at NGC finer (1/13). The medium orange-red surfaces on this Gem display no mentionable flecks or signs of contact, an excellent candidate for a Registry Set. The 1926-D's sibling 1926-S is a legendary conditional rarity at the Gem Red level. PCGS# 2572, NGC ID# 22CK, CoinPlex ID# LIC1926DRD

**3189 1926-S MS64 Brown PCGS. CAC.** The 1926-S is perhaps the rarest Lincoln cent in full Red, and most collectors must settle for a toned example. The present well struck and coruscating near-Gem displays faded fire-red along with lilac and jade-green patina. PCGS# 2573, NGC ID# 22CL, CoinPlex ID# LIC1926SBN

**3190 1926-S MS64 Red and Brown PCGS.** Lustrous surfaces that include shades of iridescent lime-green and bright orange add to the visual appeal of this pleasing near-Gem. PCGS has assigned higher numeric grades to only 13 pieces (1/13). PCGS# 2574, NGC ID# 22CL, CoinPlex ID# LIC1926SRB

#### 1927 Cent, Bold MS67 Red

**3191 1927 MS67 Red PCGS. CAC.** Most examples of the 1927 Lincoln cent remain uncertified and in low circulated grades, a byproduct of the vast mintage exceeding 144 million coins. Mint State examples are often plagued by abrasions, carbon, or weak strikes, but this Superb Gem Red piece shows no such afflictions. The surfaces are medium red color with no mentionable distraction of any sort, and the strike is razor-sharp throughout both sides. Population: 34 in 67 Red, 0 finer (1/13). PCGS# 2578, NGC ID# 22CM, CoinPlex ID# LIC1927RD

**3192 1927-S MS64 Red PCGS.** Brilliant red, orange, and yellow colors appear on this near-Gem along with smaller areas of cherry, plum, and several hues of green. A few darker splashes of color are present. Only 16 pieces have been assigned higher numeric grades by PCGS (1/13). PCGS# 2584, NGC ID# 22CP, CoinPlex ID# LIC1927SRD

**3193 1928 MS67 Red PCGS. CAC.** A brilliant, well-struck, and beautifully preserved example, this Superb Gem displays tremendous eye appeal. The coin exhibits great color on both sides and only a few minor contact marks appear. Population: 58 in 67 Red, 0 finer (1/13). PCGS# 2587, NGC ID# 22CR, CoinPlex ID# LIC1928RD

**3194 1928-D MS65 Red PCGS.** A well struck fire-red Gem that provides booming luster and imposing eye appeal. One small spot is concealed near the forehead curl.  
*Ex: Long Beach Signature (Heritage, 2/2003), lot 5424, which realized \$833.75. PCGS# 2590, NGC ID# 22CS, CoinPlex ID# LIC1928DRD*

**3195 1928-D MS65 Red PCGS.** A well-struck example with vibrant color on both sides, this pleasing Gem also features hints of bright pastel colors in shades of sea-green, pink, and lilac. Population: 78 in 65 Red, 11 finer (1/13). PCGS# 2590, NGC ID# 22CS, CoinPlex ID# LIC1928DRD

**3196 1930-D MS66 Red PCGS. CAC.** Brilliant color and detailed design elements provide this Premium Gem with an attractive appearance. The coin is virtually free of abrasions. A few tiny toning spots appear and the reverse exhibits diagonal striations, as made. PCGS has awarded higher numeric grades to only 7 examples (1/13). PCGS# 2608, NGC ID# 22CY, CoinPlex ID# LIC1930DRD

**3197 1931-D MS65 Red PCGS.** A precisely struck peach-gold Gem that boasts a mark-free appearance and coruscating luster. One minute fleck above the RT in LIBERTY. Encased in a green label holder. PCGS# 2617, NGC ID# 22D3, CoinPlex ID# LIC1931DRD

**3198 1933-D MS66+ Red PCGS. CAC.** Both sides of this high-end Premium Gem display vibrant, lustrous red-orange surfaces. The boldly impressed devices exhibit magnificent preservation on this pleasing representative from this lower-mintage Denver issue of just 6.2 million pieces. Population: 3 in 66+ Red, 20 finer (1/13). PCGS# 2632, NGC ID# 22D8, CoinPlex ID# LIC1933DRD

- 3199 1945 MS67 Red PCGS.** This orange-red Superb Gem provides an intricate strike and is essentially immaculate. An unimprovable representative of an eventful year. Population: 48 in 67 Red, 0 finer (1/13). PCGS# 2734, NGC ID# 22EG, CoinPlex ID# LIC1945RD
- 3200 1948 MS66+ Red PCGS. CAC.** Rich color appears on both sides of this lustrous, well-struck high-end Premium Gem, creating an attractive appearance. A small streak of color appears below LIBERTY and extends into the portrait and horizontal die striations appear on the reverse. Population: 5 in 66+ Red, 7 finer (1/13). PCGS# 2761, NGC ID# 22ES, CoinPlex ID# LIC1948RD
- 3201 1951-D MS67 Red PCGS.** A fire-red Superb Gem with essentially mark-free surfaces. Carbon is absent aside from a tiny fleck above the 9 in the date. The strike is bold despite minor blending on TRUST. *Ex: Long Beach Signature (Heritage, 9/2008), lot 7458, which realized \$805.* PCGS# 2791, NGC ID# 22F4, CoinPlex ID# LIC1951DRD
- 3202 1951-D MS67 Red PCGS.** An extraordinary Superb Gem, this brilliant orange Lincoln cent exhibits sharp details and exceptional eye appeal. A small mark appears on Lincoln's cheek. Population: 67 in 67 Red, 0 finer (9/12). Population: 72 in 67 Red, 0 finer (1/13). PCGS# 2791, NGC ID# 22F4, CoinPlex ID# LIC1951DRD
- 3203 1951-D MS67 Red PCGS.** A coin with tremendous eye appeal, this Superb Gem displays radiant, lustrous surfaces and brilliant orange color with hints of red. The design elements exhibit strong detail and the few surface marks are extremely minor in nature. PCGS# 2791, NGC ID# 22F4, CoinPlex ID# LIC1951DRD
- 3204 1951-S MS67 Red PCGS.** An orange-red Superb Gem with potent luster and a needle-sharp strike. Study beneath a loupe reveals only minor imperfections. Population: 57 in 67 Red, none finer (1/13). PCGS# 2794, NGC ID# 22F5, CoinPlex ID# LIC1951SRD
- 3205 1955 Doubled Die Obverse — Improperly Cleaned — NGC Details. AU. FS-101.** Only slight wear is apparent on Lincoln's cheekbone and jaw, but the luster is subdued, and the surfaces are recolored. Mostly pale orange-gold though a blush of navy-blue is near the profile. The most prominent and best known doubled die of the Lincoln cent series. NGC ID# 22FG, PCGS# 2825, CoinPlex ID# LIC1955DDOBN
- 3206 1955 Doubled Die Obverse — Scratched — Genuine PCGS. AU Details. FS-101.** Pinscratches are noted on Liberty's shoulder, on the obverse border at 3:30, and across the center of each wheat ear. A retained lamination (as made) overlaps the curve of the D in UNITED and the left base of the N in CENT. Though graded AU, the rose-red and olive-brown surfaces are lustrous and the portrait appears friction-free. PCGS# 2825, NGC ID# 22FG, CoinPlex ID# LIC1955DDOBN
- 3207 1955 Doubled Die Obverse AU53 ANACS. FS-101.** The remarkable obverse die doubling caused a hobby sensation during 1955. This briefly circulated key date example has blended chocolate-brown, jade-green, and ruby-red toning. Mint gloss is nearly universal across the minimally abraded surfaces. NGC ID# 22FG, PCGS# 2825, CoinPlex ID# LIC1955DDOBN
- 3208 1955 Doubled Die Obverse AU53 PCGS. FS-101.** A satiny chocolate-brown example of the famous doubled die variety. The jaw and cheekbone show minor wear but no marks are of any consequence. The obverse margin displays faint aqua debris. PCGS# 2825, NGC ID# 22FG, CoinPlex ID# LIC1955DDOBN
- 3209 1955 Doubled Die Obverse AU55 NGC. FS-101.** Blended mahogany-brown and steel-blue toning. The dramatic variety with a strong and widely separated secondary obverse image. Light friction on the cheekbone confirms a brief stint in circulation, but marks are absent aside from a curved line on the central reverse. NGC ID# 22FG, PCGS# 2825, CoinPlex ID# LIC1955DDOBN

- 3210 1955 Doubled Die Obverse AU58 NGC. FS-101.** A lovely near-Mint chocolate-brown example of this landmark doubled die variety. Satiny and unmarked with only a trace of friction on the cheekbone. Carbon is limited to a couple of trivial pinpoint flecks. NGC ID# 22FG, PCGS# 2825, CoinPlex ID# LIC1955DDOBN

---

**Smooth Select Brown  
Doubled Die Obverse 1955 Cent**

- 3211 1955 Doubled Die Obverse MS63 Brown PCGS. CAC. FS-101.** The fields and motifs are chocolate-brown, though orange-red is retained within the design recesses. Coruscating and pleasing with only inconsequential contact and carbon. The most impressive of all doubled die cent varieties, with the spread on the obverse legends apparent to the unaided eye. PCGS# 2825, NGC ID# 22FG, CoinPlex ID# LIC1955DDOBN
- 3212 1972 Doubled Die Obverse MS66 Red PCGS. FS-101.** The most important of the many doubled dies for this issue. All obverse legends exhibit wide, strong doubling reminiscent of the famous 1955 variety. The present peach-red Premium Gem is nearly void of marks and shows only a couple of tiny carbon spots. PCGS# 2950, NGC ID# 22GU, CoinPlex ID# LIC1972DDORD
- 3213 1972 Doubled Die Obverse MS66 Red PCGS. CAC. FS-101.** The "king" of the many doubled die 1972 varieties. All obverse legends show remarkable doubling. A peach-red Premium Gem with magnificent preservation. Encapsulated in a green label holder. PCGS# 2950, NGC ID# 22GU, CoinPlex ID# LIC1972DDORD

## PROOF LINCOLN CENTS

- 3214 1910 PR65 Red NGC. CAC.** Hints of red, pink, and brilliant yellow appear on the obverse of this attractive Gem. Lime-green accents along with hints of red decorate the reverse. Both sides exhibit freckles, however they primarily reside on the reverse. An attractive, well-struck example, this coin has lovely eye appeal. Census: 10 in 65 Red, 11 finer (1/13). NGC ID# 22KT, PCGS# 3308, CoinPlex ID# LIP1910RD
- 3215 1911 PR65 Red and Brown NGC. CAC.** Orange-gold and jade-green dominate though cherry-red fills portions of the borders. Fully struck, undisturbed, and rare in high grade. Certified in a former generation holder. NGC ID# 22KU, PCGS# 3310, CoinPlex ID# LIP1911RB
- 3216 1914 PR64 Red NGC.** The 1914 has a proof mintage of 1,365 pieces, a figure vastly surpassed by the number of Lincoln cent collectors. Most specimens were toned by the Mint packaging for the proof set of that date, but the present near-Gem is butter-gold with hints of orange-red. The razor-sharp surfaces are mark-free though small spots are near the nose and left of the O in OF. In a prior generation holder. NGC ID# 22KX, PCGS# 3320, CoinPlex ID# LIP1914RD

**Premium Gem Proof 1916 Lincoln Cent  
Attractive Red and Brown Surfaces**

- 3217 1916 PR66 Red and Brown NGC.** Lincoln cent specialists have long questioned why this date in matte proof, with 600 coins struck, is as elusive as the statistically rarer first-date proofs, 1909 VDB, which saw 420 pieces struck. Another unanswered mystery is why there has been such great difficulty in obtaining matte proof 1916 cents in any of the higher grade ranges. David Lange has suggested that many examples of this date were probably unsold and routinely melted at year's end. Much of this coin's beauty derives from the subtly blended crimson-red and medium brown colors that sweep over both sides, lightening to tan-gold in the upper left obverse field and on the reverse at the legend UNITED STATES OF AMERICA. The fine-grained, matte-textured surfaces are wonderfully free of the minor blemishes that often impact grading of vulnerable matte proofs, and all of the devices boast razor-sharp definition throughout. Census: 12 in 66 Red and Brown, 2 finer (1/13). Ex: FUN Signature (Heritage, 1/2003), lot 5785. NGC ID# 22KZ, PCGS# 3325, CoinPlex ID# LIP1916RB

- 3218 1939 PR67 Red NGC.** An outstanding Superb Gem proof, this example displays brilliant orange mint color and deeply mirrored fields. The devices are similarly reflective and sharply detailed. Census: 28 in 67 Red, 0 finer (1/13). Ex: Cincinnati Central States (Heritage, 4/2009), lot 1307. NGC ID# 22L6, PCGS# 3344, CoinPlex ID# LIP1939RD

**TWO CENT PIECES**

- 3219 1864 Large Motto MS63 Red and Brown NGC,** nearly Red though a few trivial spots are present along with an obverse strike-through at 12 o'clock; **1864 Large Motto MS63 Red and Brown NGC,** the orange-gold surfaces are Red aside from areas of dark gray on the right obverse margin; **1864 Large Motto MS64 Red and Brown NGC,** sun-gold and also close to Red though moderate carbon is scattered, a couple of shallow strike-throughs; and an **1864 Large Motto MS64 Red and Brown NGC,** peach-red and lustrous with carbon flecks noted at the margins. All four coins are from the same die pair and have likely been together for the past century and a half. (Total: 4 coins) NGC ID# 22N9, PCGS# 3577, CoinPlex ID# 2CM1864LMRB
- 3220 1865 MS66 Red and Brown NGC.** This second-year Premium Gem is brightly lustrous and contains considerable gold and peach luster to go with occasional mahogany and violet shadings. Well-struck but with minor carbon dots in the centers. NGC ID# 22NA, PCGS# 3583, CoinPlex ID# 2CM1865RB

**1871 Two Cent, MS66 and Brown  
Pleasing Mostly Red Example**

- 3221 1871 MS66 Red and Brown NGC.** The 1871 two cent piece is seldom seen in any Mint State grade, but this Premium Gem Red and Brown piece beats the typical Uncirculated coin by a country mile. There is far more Red than Brown remaining amid generous luster over mostly carbon-free, sharply struck surfaces with a predominantly orange-gold color. Census: 8 in 66 Red and Brown, 0 finer (1/13). NGC ID# 22NE, PCGS# 3610, CoinPlex ID# 2CM1871RB

**Uncirculated 1872 Two Cent  
Doubled Die Obverse, FS-101**

- 3222 1872 MS61 Brown NGC. FS-101.** TRUST is lightly die doubled north, but any 1872 two cent piece is desirable, as the final year business issue was limited to 64,000 pieces. Perhaps the diameter of the copper coin was deemed too cumbersome in commerce, relative to its purchasing power. The present unabraded and smooth Uncirculated example displays variegated golden-brown and gunmetal-blue surfaces. NGC ID# 22NG, PCGS# 3612, CoinPlex ID# 2CM1872BN

**1872 Two Cent Piece, MS62 Brown  
Low-Mintage Issue**

- 3223 1872 MS62 Brown NGC.** A mere 64,000 examples were struck of this final year for circulation strike two cent pieces. Pieces are always in demand by collectors and naturally bring a significant premium. Deep chocolate-brown toning covers both sides of this sharply struck two cent piece. Devoid of serious marks. Census: 14 in 62 Brown, 24 finer (1/13). Ex: Columbus Central States Signature (Heritage, 4/2006), lot 738, which realized \$2,300. NGC ID# 22NG, PCGS# 3612, CoinPlex ID# 2CM1872BN

## PROOF TWO CENT PIECES

- 3224 1867 PR65 Red and Brown PCGS. CAC.** Shades of light brown and electric-blue toning mix with the original red to form an attractive play of colors on this delightful Gem. The design elements are sharply detailed and moderate reflectivity is evident, under the toning. Population: 51 in 65 Red and Brown, 7 finer (1/13). PCGS# 3634, NGC ID# 274W, CoinPlex ID# 2CP1867RB
- 3225 1868 PR65 Red and Brown PCGS. CAC.** The design elements of this impressive Gem are sharply detailed and the fields are brightly reflective, under attractive shades of orange and lilac patina. On close inspection, only a few minor contact marks can be detected. Population: 39 in 65 Red and Brown, 8 finer (1/13). PCGS# 3637, NGC ID# 274X, CoinPlex ID# 2CP1868RB
- 3226 1870 PR65 Brown PCGS. CAC.** Attractive shades of copper-gold and cerulean-blue toning blanket the surfaces of this impressive Gem, with sharply detailed design elements and deeply mirrored fields under the patina. Population: 4 in 65 Brown, 0 finer (1/13). PCGS# 3642, NGC ID# 274Z, CoinPlex ID# 2CP1870BN
- 3227 1872 PR65 Brown NGC.** Rich toning adds to the attractiveness of this dark Gem, particularly the obverse. The colors include deep purple, plum, red, orange, russet, and teal. The coin displays nice detail. Census: 39 in 65 Brown, 9 finer (1/13). NGC ID# 2752, PCGS# 3648, CoinPlex ID# 2CP1872BN
- 3228 1872 PR64 Red PCGS.** Wheat-gold and peach tones are among the colors appearing on this Red near-Gem. This low mintage date representative exhibits a crisp strike, minimal abrasions, and pleasing eye appeal. A few light obverse toning spots do not detract. Population: 27 in 64 Red, 49 finer (1/13). PCGS# 3650, NGC ID# 2752, CoinPlex ID# 2CP1872RD

### 1873 Closed 3 Two Cent, Gem Red and Brown Original Proof Issue, Reverse of 1872

- 3229 1873 Closed 3 PR65 Red and Brown PCGS Secure. CAC.** One of the original proof issues, as the Open 3 coins are backdated pieces issued later in the year. Lilac predominates, but generous amounts of mint red outline all the devices on both sides. A single scrape under the 2 in the center reverse is the only visible contact. The proof Closed 3s were produced to the extent of only 600 pieces. The die line running horizontally into the reverse field, from the leaf left of the large 2, is diagnostic for this reverse — the same seen on some 1872 proof two cents. Population: 87 in 65 (1 in 65+) Red and Brown, 18 finer (1/13). PCGS# 3652, NGC ID# 2753, CoinPlex ID# 2CP1873CL3RB

## THREE CENT SILVER

- 3230 1853 MS66 PCGS.** This well-detailed Premium Gem displays vibrant satiny mint luster and a few hints of lavender toning. No mentionable distractions are evident. Population: 52 in 66 (1 in 66+), 6 finer (1/13). PCGS# 3667, NGC ID# 2222, CoinPlex ID# 3CS1853
- 3231 1853 MS66+ PCGS. CAC.** Softly swirling luster has glimmers of brightness at the obverse. Lightly toned blue-gray over parts of silver surfaces with impressive all-around preservation for the first design type. Population: 52 in 66 (1 in 66+), 6 finer (1/13). PCGS# 3667, NGC ID# 2222, CoinPlex ID# 3CS1853

- 3232 1858 MS64 PCGS. CAC.** An attractively toned near-Gem, this piece boasts a number of colors including bright sage-green, ice-blue, orange, and violet. The right-side borders are lightly brought up. Type Two three cent silvers are scarce in the present quality. PCGS# 3674, NGC ID# 22Z7, CoinPlex ID# 3CS1858
- 3233 1862/1 MS66 NGC. FS-301.** Rich rose-red and sea-green toning graces this satiny and exceptionally preserved Premium Gem. The strike is generally sharp. Coined from clashed dies. Census: 62 in 66, 12 finer (1/13). NGC ID# 22ZC, PCGS# 3681, CoinPlex ID# 3CS1862OVR1

### 1862/1 Three Cent Silver, MS67 Tied for Finest Certified

- 3234 1862/1 MS67 NGC. FS-301.** The upright and base of a 1 are visible beneath the 2 on this Superb Gem. There is also a radial die crack from the border through the upright of the first 1 to the star on this late die state specimen. Both sides have frosty mint luster beneath outstanding rose and iridescent toning. Census: 12 in 67, 0 finer (1/13). NGC ID# 22ZC, PCGS# 3681, CoinPlex ID# 3CS1862OVR1
- 3235 1862 MS65 PCGS. CAC.** An impressive Gem, this 1862 has lovely album toning comprising brilliant blue and gold at the centers, with lighter champagne near the peripheries. Sharply struck with pristine surfaces and excellent eye appeal. PCGS# 3680, NGC ID# 22ZB, CoinPlex ID# 3CS1862

### Choice 1863 Three Cent Silver Low-Mintage Civil War Issue

- 3236 1863 MS64 PCGS.** From a low Civil War mintage of 21,000 pieces, this attractive Choice example exhibits sharply detailed design elements and vibrant satiny mint luster, with a few areas of prooflike reflectivity. Pale champagne-gold toning enhances the well-preserved surfaces of both sides. Population: 20 in 64, 32 finer (1/13). PCGS# 3682, NGC ID# 22ZD, CoinPlex ID# 3CS1863

## PROOF THREE CENT SILVER

- 3237 1863 PR63 PCGS.** Mottled toning, in shades including sea-green, violet, light steel-gray, champagne, and russet covers large portions of this Select example. This Civil War date has a proof mintage of just 460 pieces. PCGS# 3712, NGC ID# 22ZP, CoinPlex ID# 3SP1863
- 3238 1865 PR64 NGC.** An extraordinary near-Gem, this brilliant proof is entirely white with no evidence of toning. The devices have a hint of luster, generating delicate cameo contrast. A prominent obverse die crack extends in from the border left of the date. NGC ID# 27CB, PCGS# 3715, CoinPlex ID# 3SP1865

**Premium Gem 1866 Three Cent Silver  
Spectacular Cameo Example**

**3239 1866 PR66 Cameo NGC.** Spectacular shades of silver-gray, champagne-gold, and cobalt-blue toning enhance the surfaces of this attractive Premium Gem. The design elements are sharply detailed and frosty, contrasting boldly with the mirrored fields. Census: 7 in 66 Cameo, 3 finer (1/13). PCGS# 83716, CoinPlex ID# 3SP1866CA

**3240 1867 PR66 Cameo NGC.** A total of 625 three cent silver proofs were struck in 1867 and examples with Cameo surfaces are seldom encountered. The untuned surfaces of this Premium Gem display pronounced field-motif contrast, and are quite well-preserved. A well-executed strike bring out exquisite detail on the design features. Census: 9 in 66 Cameo, 4 finer (1/13). PCGS# 83717, CoinPlex ID# 3SP1867CA

**3241 1872 PR64 PCGS. CAC.** Rich lavender, autumn-brown, and forest-green embrace both sides. A razor-sharp near-Gem from the penultimate date of the series. Only 950 proofs were coined. Certified in a first generation holder. PCGS# 3723, NGC ID# 27CH, CoinPlex ID# 3SP1872

**3242 1873 PR63 PCGS. CAC.** Toning in vibrant colors including shades of turquoise, cobalt, orange, cherry, lilac, and plum appears on both sides, primarily at the outer edges. Golden-orange and silver colors surround the central device on the obverse, further enhancing the eye appeal. PCGS# 3724, NGC ID# 27CJ, CoinPlex ID# 3SP1873

**1873 Silver Trime, PR66 Ultra Cameo  
None Certified Finer at NGC**

**3243 1873 PR66 Ultra Cameo NGC.** Just 600 proofs and no business strikes were produced in this final year of three cent silver production. The Ultra Cameo Premium Gem offered here has bold frost-and-mirror contrast with silver interiors and prominent speckles of gold, green, and aqua at the margins. Census: 1 in 66 Ultra Cameo, 0 finer (1/13). PCGS# 93724, CoinPlex ID# 3SP1873DC

**THREE CENT NICKELS**

**3244 1887 MS65 PCGS. CAC.** Brilliant lustrous surfaces provide this Gem with tremendous visual appeal. Only 5,001 business strikes were produced. A minor incompleteness of strike appears at the lower portions of the bow on the wreath and a small surface anomaly is present in the field near the lower left portion of the first Roman numeral. Population: 28 in 65 (1 in 65+), 10 finer (1/13). PCGS# 3755, NGC ID# 22NU, CoinPlex ID# 3CN1887

**3245 1888 MS67 NGC.** Vibrant luster sweeps the medium golden-gray surfaces. The strike is surprisingly sharp, though the reverse dentils slope toward the field. High grade 1888 business strikes are scarcer than their proof counterparts. Census: 14 in 67, 0 finer (1/13). NGC ID# 275H, PCGS# 3757, CoinPlex ID# 3CN1888

**3246 1889 MS66 PCGS. CAC.** Gray satin surfaces with hints of golden-tan appear on this Premium Gem. The reverse exhibits four die cracks, approximately 3 millimeters in length, extending from the rim toward the center of the coin. The cracks are located at 11, 1, 3, and 5 o'clock. Not surprisingly, the strike is incomplete on the obverse. Population: 27 in 66, 11 finer (1/13). PCGS# 3758, NGC ID# 275J, CoinPlex ID# 3CN1889

**PROOF THREE CENT NICKELS**

**3247 1865 PR63 PCGS. CAC.** The date is clearly repunched. Sharply struck and satiny with caramel-gold and steel-blue toning. Along with the 1877, the 1865 is the key date of the proof series. The *Guide Book* lists a mintage of just 500+ pieces. PCGS# 3761, NGC ID# 275K, CoinPlex ID# 3CP1865

**3248 1867 PR65 Cameo PCGS. CAC.** Pleasing cameo contrast appears on each side of this lovely specimen. Contrasting proofs from the first few years of three cent nickel production are rarely encountered. Small splashes of russet toning appear throughout. Population: 36 in 65 Cameo, 22 finer (1/13). PCGS# 83763, CoinPlex ID# 3CP1867CA

**1867 Three Cent Nickel, PR67 Cameo  
Lower-Mintage, Early Proof Date**

**3249 1867 PR67 Cameo NGC.** The lovely silver-white surfaces show just a trace of golden patina near the obverse rim. The bold strike is impeccable. The only mentionable distraction is a small contact mark near the date. The contrast is moderate on the obverse, considerably deeper on the reverse. Census: 2 in 67 Cameo, 0 finer (1/13). PCGS# 83763, CoinPlex ID# 3CP1867CA

**3250 1868 PR66 Cameo PCGS.** From a tiny mintage of 600 pieces, this lovely Premium Gem proof three cent nickel displays bold Cameo contrast between the deeply reflective fields and the sharply detailed devices. Minor horizontal roller marks appear on Liberty's cheek, as produced. Population: 14 in 66 Cameo, 0 finer (1/13). PCGS# 83764, CoinPlex ID# 3CP1868CA

**3251 1868 PR66 ★ Cameo NGC.** A lovely example, this piece displays brilliant reflective fields and boldly contrasted devices. Both sides exhibit scattered minute flecks. Only 600 proof three cent nickels were struck in 1868. Census: 19 in 66 Cameo, 10 finer (1/13). PCGS# 83764, CoinPlex ID# 3CP1868CA

- 3252 1868 PR65+ Ultra Cameo NGC. CAC.** A few light splashes of golden-yellow color appear on the obverse of this virtually untuned high-end Gem that displays pronounced contrast and sharply-struck design elements, creating tremendous eye appeal. The obverse nears perfection while the reverse includes diagonal roller marks along with several lint marks. Census: 4 in 65 (1 in 65+) Ultra Cameo, 7 finer (1/13). PCGS# 93764, CoinPlex ID# 3CP1868DC
- 3253 1869 PR66 Cameo NGC.** A few light splashes of golden-yellow appear on the obverse of this example that displays evident contrast between the mirrored fields and frosted devices. Census: 25 in 66 (1 in 66+) Cameo, 2 finer (1/13). PCGS# 83765, CoinPlex ID# 3CP1869CA
- 3254 1869 PR65 Deep Cameo PCGS.** The cameo contrast is both undeniable and profound. This untuned Gem is sharply struck and expectantly distraction-free for the Gem level of preservation. Population: 17 in 65 Deep Cameo, 3 finer (1/13).  
Ex: *Santa Clara Signature (Heritage, 11/2002), lot 5677.* PCGS# 93765, CoinPlex ID# 3CP1869DC

**1869 Three Cent Nickel, PR66 Deep Cameo  
Tied for Finest at PCGS**

- 3255 1869 PR66 Deep Cameo PCGS. CAC.** There is no trace of color on the quicksilver surfaces of this Premium Gem proof, and the contrast is abundant between fields and devices, accentuated by the sharp strike and lack of perceptible toning. An estimated 600 proofs were struck of the 1869 three cent nickel, but this piece is one of only three at this grade level (1/13). PCGS# 93765, CoinPlex ID# 3CP1869DC
- 3256 1870 PR65 PCGS. CAC.** Dusky peach centers are framed by apple-green. Fully struck, and pristine save for a few carbon flecks. Scarcer than suggested by its proof mintage of 1,000 pieces, since unsold specimens were melted by the Mint. Encapsulated in an old green label holder. PCGS# 3766, NGC ID# 275R, CoinPlex ID# 3CP1870
- 3257 1870 PR66 Cameo NGC. CAC.** Moderately contrasted with a touch of wateriness to the reflectivity in the fields. Hints of pale blue and green visit otherwise nickel-white surfaces. PCGS# 83766, CoinPlex ID# 3CP1870CA
- 3258 1871 PR65 Cameo PCGS. CAC.** A lightly toned Gem whose mirrored fields are pristine aside from infrequent minute carbon. The wreath and portrait display blatant frost.  
Ex: *Milwaukee Central States Signature (Heritage, 5/2005), lot 5996, which realized \$2,300.* PCGS# 83767, CoinPlex ID# 3CP1871CA
- 3259 1872 PR66 PCGS.** A high grade and satiny specimen whose wheat-gold surfaces appear devoid of post-strike detractors. The strike is good, and the minute granularity on the portrait is as made. PCGS# 3768, NGC ID# 275T, CoinPlex ID# 3CP1872
- 3260 1872 PR66 NGC.** The three cent nickel series is one that has been overlooked by collectors for decades. Scarce and underrated issues abound, making this a highly collectible series. This Premium Gem exhibits satin luster. These pieces frequently display an incompleteness of strike as is the case with this example as appears at the upper portions of Liberty. The area above Liberty's hair exhibits a tiny gray spot. Census: 24 in 66, 0 finer (1/13). NGC ID# 275T, PCGS# 3768, CoinPlex ID# 3CP1872

- 3261 1873 Closed 3 PR66 Cameo NGC.** This high grade specimen has a full strike and only a whisper of tan toning. Pristine, since a wispy lint mark beneath the chin is as produced. Struck from moderately rotated dies. Census: 19 in 66 Cameo, 1 finer (1/13).  
Ex: *Milwaukee ANA (Heritage, 8/2007), lot 332, which realized \$1,610.* PCGS# 83769, CoinPlex ID# 3CP1873CL3CA
- 3262 1874 PR66 Cameo NGC.** A stone-white example, this piece exhibits mirrored fields that provide pleasing contrast to the devices. A few tiny pinpoint strike throughs appear on the portrait. Census: 29 in 66 (1 in 66+) Cameo, 5 finer (1/13). PCGS# 83770, CoinPlex ID# 3CP1874CA
- 3263 1874 PR66 Cameo PCGS. CAC.** The portrait and wreath are luminous and contrast with the reflective fields. A lightly toned high grade specimen. Population: 15 in 66 (1 in 66+) Cameo, 0 finer (1/13).  
Ex: *Baltimore Signature (Heritage, 3/2009), lot 7775, which realized \$1,265.* PCGS# 83770, CoinPlex ID# 3CP1874CA
- 3264 1874 PR66 Cameo PCGS. CAC.** A crisply struck and flashy Premium Gem that has a brilliant reverse and only a trace of chestnut toning on the upper obverse. Population: 15 in 66 (1 in 66+) Cameo, 0 finer (1/13).  
Ex: *Baltimore Signature (Heritage, 3/2009), lot 464, which realized \$1,265.* PCGS# 83770, CoinPlex ID# 3CP1874CA

- 3265 1875 PR66 PCGS. CAC.** Light to medium honey-gold toning encompasses this satiny and immaculate specimen. The strike is intricate and the eye appeal is considerable. PCGS# 3771, NGC ID# 22NV, CoinPlex ID# 3CP1875
- 3266 1876 PR66+ ★ Cameo NGC.** Brilliant reflective fields and attractive contrast against the devices add to the eye appeal of this bright example. The upper left portion of the wreath displays an incompleteness of strike. The tiny die line on Liberty's chin is of Mint origin. Census: 12 in 66+ Cameo, 2 finer (1/13). PCGS# 83772, CoinPlex ID# 3CP1876CA
- 3267 1876 PR65 Ultra Cameo NGC.** The wreath and portrait provide consistent frost, and the strike is needle-sharp throughout. An essentially brilliant Gem from our Centennial year. Census: 2 in 65 Ultra Cameo, 9 finer (1/13). PCGS# 93772, CoinPlex ID# 3CP1876DC
- 3268 1877 PR30 ANACS.** With a mintage of only 510 pieces, and no business strikes, the 1877 is an undisputed key to the series and collector favorite. This is a more affordable proof example than typically encountered and displays overall even wear and color. There are no surface marks worthy of mention. NGC ID# 275X, PCGS# 3773, CoinPlex ID# 3CP1877

**1877 Three Cent Nickel, Cameo PR65  
Key, Proof-Only Date**

- 3269 1877 PR65 Cameo PCGS.** Sharply struck and beautifully preserved, this Gem example displays unmistakable cameo contrast on each side, with reflective fields and lightly frosted devices. 1877 was a proof-only year for the three cent nickel, and a mere 510 pieces were reportedly minted, making this a valuable and scarce key date in the series.  
Ex: *Dallas Signature (Heritage, 11/2007), lot 336.* PCGS# 83773, CoinPlex ID# 3CP1877CA

- 3270 1878 PR66 NGC.** A delightful Premium Gem proof, this lovely piece has champagne and pale blue toning on both sides with lightly mirrored fields and slight field-to-device contrast. NGC ID# 275Y, PCGS# 3774, CoinPlex ID# 3CP1878

**1878 Three Cent Nickel, PR67  
Proof-Only Issue**

- 3271 1878 PR67 NGC.** This is a collector-favorite due to the low mintage of only 2,350 pieces, all of which were proofs. This well-preserved Superb Gem displays slightly reflective fields with just a touch of gold and gray toning. Most examples exhibit incomplete detail in the bridge of Liberty's nose and the ends of the ribbon bow, due to excessive die polishing, as is the case with this example. Census: 18 in 67, 0 finer (1/13). NGC ID# 275Y, PCGS# 3774, CoinPlex ID# 3CP1878

- 3272 1878 PR66 Cameo PCGS. CAC.** In 1878, only proofs were struck with a mintage of just 2,350 pieces. This is an essentially untoned coin, with good frosting on the devices and deeply mirrored fields. It is the second scarcest date in the series. Population: 74 in 66 (1 in 66+) Cameo, 17 finer (1/13). PCGS# 83774, CoinPlex ID# 3CP1878CA

- 3273 1878 PR67 Cameo NGC. CAC.** One of three proof-only issues in this odd-denomination series, produced to the extent of 2,350 proofs. This example offers good field-device contrast with excellent luster radiating from silver-white surfaces. Close examination reveals no impairments, but a tiny dark fleck near OF is noted. Attractive and nearly unimprovable. Census: 26 in 67 Cameo, 1 finer (1/13). PCGS# 83774, CoinPlex ID# 3CP1878CA

- 3274 1879 PR67 PCGS. CAC.** Caramel-gold toning is consistent across this intricately struck Superb Gem. The wreath and portrait exhibit noticeable cameo contrast with the reflective fields. Certified in a green label holder. PCGS# 3775, NGC ID# 275Z, CoinPlex ID# 3CP1879

- 3275 1879 PR67 Cameo NGC.** Radiant ice-white devices contrast with gleaming mirror-fields on this Superb Gem proof. The piece displays strong definition overall, with just a few tiny breaks in the obverse frost. Census: 24 in 67 Cameo, 6 finer (1/13). PCGS# 83775, CoinPlex ID# 3CP1879CA

- 3276 1881 PR67 PCGS. CAC.** A magnificent Superb Gem, with sharply detailed design elements and reflective brilliant fields. Close inspection reveals no mentionable distractions and eye appeal is outstanding. Population: 59 in 67, 3 finer (1/13). PCGS# 3777, NGC ID# 2763, CoinPlex ID# 3CP1881

- 3277 1883 PR67 PCGS.** Pale pinks, peaches, and blues enrich this gleaming Superb Gem specimen from one of the most heavily produced proof three cent nickel issues. A well-struck, smooth delight. Population: 62 in 67, 4 finer (1/13). PCGS# 3779, NGC ID# 2765, CoinPlex ID# 3CP1883

- 3278 1883 PR67 NGC. CAC.** The large proof mintage of 6,609 three cent nickels in 1883 actually outnumbered the business-strike production of just 4,000 examples. Subtle light green patina appears on this sharply-struck Superb Gem example. Census: 81 in 67 (1 in 67+), 4 finer (1/13). NGC ID# 2765, PCGS# 3779, CoinPlex ID# 3CP1883

**1884 Three Cent Nickel, PR66 Ultra Cameo  
Only One Finer Coin at NGC**

- 3279 1884 PR66 Ultra Cameo NGC.** A generous proof mintage of 3,942 three cent nickels was struck in 1884, to accompany an extremely low business-strike total of 1,700 examples. This well-detailed Premium Gem shows the effects of die polishing in some areas, like the ribbon bow, but the devices are richly frosted, providing profound contrast with the reflective fields. Census: 2 in 66 Ultra Cameo, 1 finer (1/13). PCGS# 93780, CoinPlex ID# 3CP1884DC

- 3280 1887/6 PR66 NGC. FS-302.** Clear remnants of the underlying 6 are visible on the lower left side of the 7. Both 8s are repunched. Straw-gold toning adorns this satiny and well struck Premium Gem. Exemplary despite a small strike-through near the E in UNITED. Census: 82 in 66 (2 in 66+), 4 finer (1/13). PCGS# 3784, NGC ID# 276A, CoinPlex ID# 3CP1887OVR6

**EARLY HALF DIMES**

**Choice Fine 1794 Half Dime  
Better V-2, LM-2 Variety**

- 3281 1794 Fine 15 PCGS. V-2, LM-2, R.5.** The third-rarest of the four die varieties known for the date. This scarce type coin offers stone-gray centers and lavender margins. The pleasing definition on the curls and feathers should elicit strong bidding. Tiny marks are distributed but none are consequential to the grade. PCGS# 4250, NGC ID# 222T, CoinPlex ID# EHD1794

**1795 Half Dime, Fine 15  
Deeply Toned, V-5, LM-8**

- 3282** 1795 Fine 15 PCGS. V-5, LM-8, R.3. Partial wing plumage is visible on this deep gunmetal-gray Flowing Hair type coin. The strike is uneven on the motifs but peripheral design elements are clear. One hair-thin mark passes through the chin but the overall appearance is smooth.

*Ex: San Francisco ANA Signature (Heritage, 7/2005), lot 5751, which realized \$1,955. PCGS# 4251, NGC ID# 22ZV, CoinPlex ID# EHD1795*

- 3283** 1795 — Improperly Cleaned — NGC Details. VF. V-4, LM-10, R.3. This nicely defined slate-gray Flowing Hair type coin displays delicate hairlines and has been dipped, but is also free from relevant marks. An early die state without any indication of the cud that later forms over TY and star 9. NGC ID# 22ZV, PCGS# 4251, CoinPlex ID# EHD1795

**AU Sharpness 1796 Half Dime  
LIKERTY, V-1, LM-1**

- 3284** 1796 LIKERTY — Improperly Cleaned — NGC Details. AU. V-1, LM-1, R.3. Though somewhat subdued and mildly granular, this Draped Bust half dime is desirable due its sharp design definition and unmarked surfaces. Toned dusky pearl-gray with hints of tan and aqua patina. Only two die pairs struck 1796 half dimes, and the other variety is rare and separately collected as an overdate. NGC ID# 22ZX, PCGS# 94254, CoinPlex ID# EHD1796LIKERTY

**1797 V-4, LM-2 Half Dime, 16 Stars, VF20  
Usual Die State**

- 3285** 1797 16 Stars VF20 NGC. V-4, LM-2, R.4. The centers show glimpses of cream-white though most of this early half dime is toned deep lavender-gray. Both sides are surprisingly devoid of marks, and the definition is sharp on the legends and stars. The radial crack through the E in UNITED is usual for the variety. NGC ID# 22ZZ, PCGS# 4259, CoinPlex ID# EHD179716ST

**Rare 13 Stars 1797 Half Dime  
V-1, LM-4, VF Details**

- 3286** 1797 13 Stars — Obverse Scratched — NGC Details. VF. V-1, LM-4, R.5. The 13 Stars is the final and scarcest die marriage for the date, and is priced in the *Guide Book* with a large premium over the 15 Stars and 16 Stars varieties. The present deep cream-gray representative has VF sharpness but the obverse has a number of lengthy straight pinscratches, which range from faint to visible. The reverse has only a few light thin marks. NGC ID# 22ZZ, PCGS# 4260, CoinPlex ID# EHD179713ST

**BUST HALF DIMES**

- 3287** 1829 MS63 NGC. V-3, LM-2, R.1. Blended walnut-brown, dove-gray, and sky-blue toning encompasses this well struck and semiprooflike Bust half dime. No marks are evident and the eye appeal is substantial. NGC ID# 232B, PCGS# 4276, CoinPlex ID# EHD1829

- 3288** 1832 MS64 PCGS. CAC. V-2, LM-12, R.2. Star 12 and the F in OF are repunched. A satiny near-Gem with a typical strike at the centers and intricate definition on peripheral elements. Golden-brown, cream-gray, and jade-green compete for territory though portions of the piece remain brilliant. PCGS# 4279, NGC ID# 232E, CoinPlex ID# EHD1832

**MS65 1832 Half Dime, V-8, LM-5**

- 3289** 1832 MS65 NGC. V-8, LM-5, R.1. Vibrant forest-green, rose-red, and sun-gold patina invigorate this sharply struck and satiny Gem. Generally smooth overall, though a thin mark is present in the obverse field near 1 o'clock.  
*Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 462. NGC ID# 232E, PCGS# 4279, CoinPlex ID# EHD1832*

- 3290** 1835 Small Date, Small 5C MS64 PCGS. CAC. V-7, LM-10, R.1. A needle-sharp near-Gem that boasts attractive caramel-gold and lime-green toning. Lustrous and minimally abraded. LM-10 is interesting for its areas of die sinking near the profile and the eagle's head. Population: 20 in 64, 19 finer (1/13). PCGS# 4285, CoinPlex ID# EHD1835SDSM5C

## SEATED HALF DIMES

- 3291 1837 No Stars, Small Date (Flat Top 1) MS64 PCGS.** A lovely cream-gray near-Gem that boasts a precise strike and smooth surfaces. Interesting die breaks are noted near the right (facing) knee and elbow. Population: 41 in 64 (1 in 64+), 36 finer (1/13). PCGS# 4312, NGC ID# 232M, CoinPlex ID# SHD1837NOSTARSD
- 3292 1840-O Drapery XF45 PCGS.** Small O. Dusky gunmetal-gray toning drapes the smooth surfaces of this well struck, faintly worn O-mint half dime. A die crack bisects the obverse between 1 and 7 o'clock. Excellent eye appeal for this conditionally rare issue.  
*Ex: FUN Signature (Heritage, 1/2008), lot 885; Long Beach Signature (Heritage, 2/2009), lot 843, which realized \$1,035.* PCGS# 4327, NGC ID# 232X, CoinPlex ID# SHD1840ODRAP
- 3293 1845 MS66 PCGS. CAC.** A well-struck example, this Premium Gem displays steel-gray and tan surfaces that reveal attractive mint luster. Die chips are present at a number of the stars to the right of Liberty. Very few contact marks are present and they are minor. Population: 16 in 66 (2 in 66+), 7 finer (1/13). PCGS# 4335, NGC ID# 2337, CoinPlex ID# SHD1845
- 3294 1857 MS66 NGC.** Dynamic luster sweeps this intricately impressed and unabraded Premium Gem. Caramel-gold and lavender tints grace both sides. Struck from multiply clashed dies. Census: 50 in 66, 7 finer (1/13). NGC ID# 233S, PCGS# 4365, CoinPlex ID# SHD1857
- 3295 1857-O MS66 NGC.** This attractive Premium Gem displays well-detailed design elements and vibrant mint luster, under shades of golden-brown and silver-gray patina. Census: 30 in 66, 4 finer (1/13). NGC ID# 233T, PCGS# 4366, CoinPlex ID# SHD1857O
- 3296 1858 MS65+ PCGS. CAC.** Attractive toning appears on both sides of this high-end Gem, with the colors including iridescent shades of teal, russet, red, and champagne. The patina on the reverse is more pronounced. The reverse exhibits a surface anomaly between the lettering and the top of the wreath. Population: 81 in 65 (1 in 65+), 57 finer (1/13). PCGS# 4367, NGC ID# 233U, CoinPlex ID# SHD1858
- 3297 1858-O MS65 PCGS. CAC.** Although it is not a particularly rare date, the 1858-O half dime is scarce in higher grades. This pleasing Gem displays attractive satin luster with small, scattered hints of toning. Population: 14 in 65, 5 finer (1/13). PCGS# 4369, NGC ID# 233V, CoinPlex ID# SHD1858O
- 3298 1859 MS66 PCGS. CAC.** Anthony Paquet of 1861 double eagle fame was the engraver for this single-year obverse subtype. The stars have hollow centers and the seated Liberty has a different expression. Sharply struck and coruscating with a pristine appearance and peripheral tan-gold toning. Population: 14 in 66 (1 in 66+), 25 finer (1/13). PCGS# 4371, NGC ID# 233W, CoinPlex ID# SHD1859
- 3299 1860 MS66+ PCGS. CAC.** Sea-green and lavender shades endow this coruscating and immaculate first-year type coin. Well brought up save for the usual portion of the wreath opposite the left corner of Liberty's rock. Struck from clashed dies. Population: 56 in 66 (4 in 66+), 37 finer (1/13). PCGS# 4377, NGC ID# 2347, CoinPlex ID# SHD1860

## 1863 Half Dime, MS67 Only Two Finer at NGC

- 3300 1863 MS67 NGC.** The small denomination 19th century silver coins, such as Seated half dimes and Seated dimes, seem to be considerably underrated in the current numismatic marketplace. There are many condition rarities, and they are valued at modest levels today. One example is the 1863 half dime. The combined PCGS and NGC population is just 30 examples in MS67, and only five finer coins, including resubmissions. This Superb Gem is an exceptional example with frosty silver luster and bold design motifs beneath delicate champagne toning. Census: 15 in 67, 2 finer (1/13). NGC ID# 234C, PCGS# 4382, CoinPlex ID# SHD1863
- 3301 1864 MS65 NGC.** The 1864 half dime is a key to the series. Although the *Guide Book* lists a mintage of 48,000 coins, it is believed the number may have been closer to 14,500 pieces, with Breen estimating 80-100 survivors. Few are known in high grades. This remarkably well-preserved example exhibits softly frosted mint luster, with areas of light golden-brown and rose toning. Both sides exhibit pronounced die clash marks, and the strike is strong overall in all areas except on the upper left portion of the wreath. A die crack appears between 3 and 4 o'clock on the reverse. Census: 13 in 65, 8 finer (1/13). NGC ID# 234E, PCGS# 4384, CoinPlex ID# SHD1864
- 3302 1869 MS66 PCGS. CAC.** Lustrous, brilliant surfaces and attractive toning create lovely eye appeal for this Premium Gem. The obverse center includes attractive orange hues while shades of aquamarine, teal, fuchsia, and plum appear near the outer edges. The toning on the reverse primarily consists of shades of sea-green with spots of plum. The parallel die polish lines on the obverse are of Mint origin. Population: 12 in 66 (2 in 66+), 5 finer (1/13). PCGS# 4394, NGC ID# 234R, CoinPlex ID# SHD1869
- 3303 1872 MS66 PCGS. CAC.** Delicate gold toning visits this pristine, needle-sharp, and coruscating Premium Gem. Given its 1872 mintage of nearly 3,000,000 pieces, it is difficult to believe that the half dime denomination was eliminated the next year. Certified in an old green label holder. Population: 12 in 66 (1 in 66+), 0 finer (1/13). PCGS# 4400, NGC ID# 234X, CoinPlex ID# SHD1872

## PROOF SEATED HALF DIMES

### 1864 Half Dime, Cameo Superb Gem Proof Brilliant, Starkly Contrasted

- 3304 1864 PR67 Cameo NGC.** Only 470 proof Seated Liberty half dimes were struck in 1864, at the height of the Civil War era. This magnificent Superb Gem is certainly one of the finest survivors, with sharply detailed frosty devices that contrast profoundly with the deeply mirrored pristine fields. Census: 3 in 67 Cameo, 1 finer (1/13). PCGS# 84447, CoinPlex ID# SHP1864CA
- 3305 1865 PR65 Cameo PCGS.** Intermingled toning in a variety of hues, including russet, gold, bright orange, and plum covers large portions of both sides of this Gem. In addition, vibrant flecks of violet, teal, turquoise, and aquamarine further enhance the appearance of this lovely piece. Population: 6 in 65 (1 in 65+) Cameo, 7 finer (1/13). PCGS# 84448, CoinPlex ID# SHP1865CA
- 3306 1866 PR65 PCGS.** Sea-green, caramel-gold, and lilac toning embraces this fully struck and flashy Gem. Devoid of detractions. The base of the 1 in the date is repunched. A scant 725 proofs were produced. Population: 20 in 65, 11 finer (1/13). PCGS# 4449, NGC ID# 2363, CoinPlex ID# SHP1866

### 1868 Half Dime, PR66 Cameo Well-Contrasted, Lightly Toned

- 3307 1868 PR66 Cameo PCGS. CAC.** Each side of this Premium Gem proof 1868 half dime shows predominantly saffron-yellow patina on the upper portions, blending into pinkish hues on the lower portions. Much field-device contrast and deep reflectivity add to the high eye appeal. The small mintage of 88,600 circulation strikes adds pressure from date collectors to the proof issue of 600 coins. Population: 8 in 66 (1 in 66+) Cameo, 1 finer (1/13). PCGS# 84451, CoinPlex ID# SHP1868CA
- 3308 1870 PR65 PCGS.** A modestly contrasted late-date Gem proof half dime with light gray interiors and gold, blue, and violet patina along the borders. The reflectivity and preservation are equally pleasing. Population: 21 in 65, 13 finer (1/13). PCGS# 4453, NGC ID# 2367, CoinPlex ID# SHP1870
- 3309 1870 PR66 NGC.** A delightful Premium Gem, with sharply detailed design elements and deeply reflective fields, under attractive shades of cerulean-blue and champagne-gold toning. Census: 22 in 66, 7 finer (1/13). NGC ID# 2367, PCGS# 4453, CoinPlex ID# SHP1870

### 1873 Half Dime, Cameo PR66 Final Year of the Denomination

- 3310 1873 PR66 Cameo PCGS.** This Premium Gem displays outstanding cameo contrast, as the frosted design elements appear to ride over deep watery fields. The strike is impressive, with no hints of weakness on any of the design elements. A faint linear mark on Liberty's left shoulder, and another on the left knee, may help to identify the coin. Population: 3 in 66 Cameo, 1 finer (1/13). Ex: Long Beach Signature (Heritage, 2/2007), lot 2848; Long Beach Signature (Heritage, 6/2010), lot 514. PCGS# 84456, CoinPlex ID# SHP1873CA

## EARLY DIME

- 3311 1802 Good 4 PCGS. CAC. JR-4, R.4.** Though four die pairs are known for the 1802, JR-1 is extremely rare, JR-3 is very rare, and the other two varieties are merely rare. The present piece has a bold date and LIBERTY. The right-side stars and AMERICA show slight blending into the rim. The devices are pearl-white and straw-gold while the fields are powder-blue. PCGS# 4472, NGC ID# 236K, CoinPlex ID# EDM1802

## BUST DIMES

### Challenging 1811/09 Dime, JR-1, AU55

- 3312 1811/09 AU55 NGC. JR-1, R.3.** The sole 1811-dated die pair. The partly lustrous surfaces are evenly toned steel-gray. The usual die state with several lengthy reverse die cracks and an arc of die sinking above the cap. A few patches of thin marks are noted on the obverse margin and over the bust tip. Census: 6 in 55, 19 finer (1/13). NGC ID# 236V, PCGS# 4487, CoinPlex ID# EDM1810VR9
- 3313 1821 Large Date AU55 PCGS. CAC. JR-1, R.2.** Golden-brown, jade-green, and stone-gray toning grace this partly lustrous and richly detailed Capped Bust dime. Mark-free, attractive, and certain to contested on the auction floor. PCGS# 4496, NGC ID# 236Y, CoinPlex ID# EDM1821
- 3314 1827/7 MS61 NGC. JR-1, R.2.** Prominent repunching on the 7 in the date is associated with both this relatively accessible die pair and the extremely rare JR-2 variety. Though softly struck on the obverse stars and distinctly flat on the hair just below Liberty's cap, this dime has generous silver luster with just a hint of peach. NGC ID# 2375, PCGS# 4504, CoinPlex ID# EDM1827

---

**Patinated Near-Gem 1827 Dime, JR-3**

- 3315 1827 MS64 NGC. JR-3, R.1.** Sea-green, lilac-red, and stone-gray embrace this satiny and unabraded near-Gem. The strike is slightly soft at the centers though the stars are fully brought up. A later die state with rim crumbling near 12 o'clock, as made. Census: 53 in 64 (1 in 64+), 30 finer (1/13). NGC ID# 2375, PCGS# 4504, CoinPlex ID# EDM1827

---

**1829 JR-4 Dime, Small 10C, MS65  
Prooflike Fields  
A Single Unlocated Proof Reported**

- 3316 1829 Small 10C MS65 PCGS. JR-4, R.2.** The obverse has a minuscule crack from the outer point of star 5 to the border, and the reverse is perfect on this early strike. A single proof has been reported from this die pair, although that specimen is unlocated today. This piece is a stunning and fully original example with prooflike fields and lustrous devices beneath lovely iridescent toning. The design elements are boldly rendered with full stars and hair curls on the obverse, and sharp feathers on the reverse. PCGS# 4511, NGC ID# 2378, CoinPlex ID# EDM1829SM10C

- 3317 1830 Medium 10C MS62 PCGS. JR-6, R.2.** Almond-gold and powder-blue enrich this boldly struck and satiny representative. Marks are nearly absent save for a few hairlines above the date. The portrait exhibits minute die rust, as coined. PCGS# 4516, NGC ID# 2379, CoinPlex ID# EDM1830MD10C

---

**SEATED DIMES**

- 3318 1837 No Stars, Small Date MS62 NGC. Fortin-103a.** One of Fortin's Top 100 varieties, likely due to the heavy die crack between the E in UNITED and the E in DIME. This No Stars type coin is satiny and lightly abraded with dusky steel-blue toning. NGC ID# 237R, PCGS# 4562, CoinPlex ID# SDM1837NSSMDT

- 3319 1838-O No Stars AU55 NGC. Fortin-101.** The mintmark is repunched south and there are two obverse rim cud. Only two issues are available of the No Stars type, the 1837 and 1838-O. The latter is by far the scarcer of the two, especially in higher grades. This is a mostly brilliant coin with lightly abraded surfaces. NGC ID# 237T, PCGS# 4564, CoinPlex ID# SDM1838OND

- 3320 1840 No Drapery MS64 PCGS. CAC.** This charming Choice specimen possesses outstanding eye appeal, with well-detailed design elements, vibrant mint luster, and attractive golden-brown and electric-blue toning. The short-lived No Drapery design is avidly sought-after for type purposes. PCGS# 4573, NGC ID# 237Z, CoinPlex ID# SDM1840ND

---

**1846 Seated Liberty Dime, AU50  
Lowest-Mintage Obverse Stars Issue**

- 3321 1846 AU50 PCGS.** The 1846 Seated Liberty dime boasts a tiny mintage of 31,300 pieces, and most examples seen grade no better than VF. This attractive AU50 specimen displays shades of greenish-blue toning at the peripheries, while the centers are primarily silver-gray. The surfaces remain lustrous and only light wear shows on the devices. Population: 4 in 50, 10 finer (1/13). PCGS# 4588, NGC ID# 238D, CoinPlex ID# SDM1846

- 3322 1851-O MS60 NGC.** An extremely rare New Orleans Mint issue in Mint State from an original mintage of only 400,000 pieces, this Mint State survivor is untoned. The piece is moderately marked on the obverse. Census: 1 in 60, 5 finer (1/13). NGC ID# 238M, PCGS# 4596, CoinPlex ID# SDM1851O

---

**1853 Arrows Dime, Attractively Toned MS66**

- 3323 1853 Arrows MS66 NGC.** Toning is present on both sides of this Premium Gem, with the colors being particularly vibrant on the obverse. The shades include deep gold, red-brown, emerald-green, teal, steel-blue, and plum. This attractive piece exhibits a crisp strike. Census: 39 in 66 (1 in 66+), 14 finer (1/13). NGC ID# 2398, PCGS# 4603, CoinPlex ID# SDM1853ARR

- 3324 1857-O MS64 PCGS. Fortin-102.** Large O. Only a hint of gold toning visits this highly lustrous and well preserved Choice New Orleans dime. The strike is intricate, though definition is incomplete near the raised elbow due to a polished obverse die. PCGS# 4615, NGC ID# 238Y, CoinPlex ID# SDM1857O

- 3325 1857-O MS65 NGC.** Large O. Medium powder-blue, autumn-gold, and plum-mauve shades adorn this coruscating Gem. Well struck and attractive with contact virtually limited to the reverse exergue. NGC ID# 238Y, PCGS# 4615, CoinPlex ID# SDM1857O

**Pristine MS66 1857-O Dime  
Large O Mintmark, Fortin-104**

- 3326 1857-O MS66 NGC. CAC. Fortin-104.** Large O. This die pair is interesting for its die chips nears stars 4 through 6. A magnificent high grade example that has pristine surfaces and rich sea-green and caramel-gold toning. The strike is intricate throughout. Census: 9 in 66, 8 finer (1/13). NGC ID# 238Y, PCGS# 4615, CoinPlex ID# SDM1857O

- 3327 1859-O MS64+ PCGS. CAC.** From a mintage of 480,000 pieces, the 1859-O Seated Liberty dime is very scarce in high grade. This high-end Choice example is sharply detailed and brightly lustrous, with pale gold and lavender toning. Population: 31 in 64 (1 in 64+), 21 finer (12/12). PCGS# 4620, NGC ID# 2395, CoinPlex ID# SDM1859O

**1873 Seated Liberty Dime, MS65  
Popular Arrows Design**

- 3328 1873 Arrows MS65 NGC.** The Arrows were placed beside the date in 1873 and 1874 to indicate a weight adjustment in silver coinage, creating a popular two-year design type. This well-detailed Gem displays vibrant satiny mint luster, under attractive shades of cerulean-blue and champagne-gold toning. Census: 17 in 65, 4 finer (1/13). NGC ID# 23BG, PCGS# 4665, CoinPlex ID# SDM1873ARR

**1874-CC Arrows Dime, VF Details  
Classic Seated Dime Rarity**

- 3329 1874-CC Arrows — Obverse Scratched — NGC Details. VF.** From a mintage of 10,817 pieces, the 1874-CC Arrows dime is the undisputed key to the Seated Liberty series (discounting the uncollectible 1873-CC No Arrows, known by a single specimen). The issue is prized by collectors in all grades and conditions. This coin is typical of the usual example seen, with moderate, even wear on both sides and pleasing gray patina. A few short scratches near Liberty's head are the only problems noted. NGC ID# 23BL, PCGS# 4669, CoinPlex ID# SDM1874CCARR

- 3330 1877-CC MS65 NGC.** An attractive Gem specimen with well-detailed design elements that show just a touch of softness on the ribbon bow. The well-preserved surfaces display vibrant mint luster, with a few wisps of golden-tan toning. Census: 70 in 65, 52 finer (1/13). NGC ID# 23AM, PCGS# 4683, CoinPlex ID# SDM1877CC

- 3331 1879 MS65 PCGS.** Golden-yellow toning covers large portions of the outer edges of both sides of this Gem. Additionally, splashes of russet, sea-green, plum, and teal appear. The upper left wreath displays the incompleteness of strike the mint state examples are known for which differentiates them from the proofs. Population: 53 in 65, 82 finer (1/13). PCGS# 4687, NGC ID# 23AS, CoinPlex ID# SDM1879

- 3332 1880 MS66 Prooflike NGC. Fortin-103.** A die chip on the M in DIME is diagnostic. Dramatically toned in swaths of cherry-red, sea-green, and orange-gold throughout the obverse. The reverse is straw-gold with peripheral aquamarine and russet patina. Flashy and unabraded. As of (1/13), NGC has certified only three examples as Prooflike. Only 36,000 business strikes were issued.

*Ex: Long Beach Signature (Heritage, 6/2010), lot 542, which realized \$1,495. NGC ID# 23AT, PCGS# 4688, CoinPlex ID# SDM1880*

- 3333 1883 MS66 PCGS. CAC.** Vibrant iridescent turquoise color along with hues of russet, gold, and champagne on both sides provides this nicely struck Premium Gem with attractive eye appeal. Population: 58 in 66 (1 in 66+), 11 finer (1/13). PCGS# 4691, NGC ID# 23AW, CoinPlex ID# SDM1883

- 3334 1884 MS67 NGC.** Areas of toning appear on both sides of this Superb Gem including several shades of sea-green, along with tan and russet colors. Vibrant luster and a sharp strike further the appeal. Census: 25 in 67, 3 finer (1/13). NGC ID# 23AX, PCGS# 4692, CoinPlex ID# SDM1884

- 3335 1886 MS66 PCGS. CAC.** Russet, gold, deep green, cherry, orange, and sea-green toning flecks cover large portions of both sides of this Premium Gem, adding to the eye appeal. The coin is well-struck, displaying attractive detail. Population: 29 in 66, 7 finer (1/13). PCGS# 4696, NGC ID# 23B3, CoinPlex ID# SDM1886

**1889-S Dime, MS65  
Small S Mintmark**

- 3336 1889-S MS65 NGC.** Small S variety. A scarce issue in Mint State, and seldom seen in Gem condition. The peripheries of this appealing coin exhibit golden hues, while the centers are brilliant silver-white. Census: 8 in 65 (1 in 65+), 2 finer (1/13).

*Ex: ANA Milwaukee (Heritage, 8/2007); Central States (Heritage, 5/2009), lot 157. NGC ID# 23BA, PCGS# 4703, CoinPlex ID# SDM1889S*

- 3337 1891 MS66 PCGS.** A well-detailed Premium Gem from the last year of the Seated Liberty design, this coin displays lustrous, pristine surfaces, with attractive shades of bluish-gray and champagne-gold toning. Population: 61 in 66, 7 finer (1/13). PCGS# 4706, NGC ID# 23BD, CoinPlex ID# SDM1891

## PROOF SEATED DIMES

- 3338 1860 PR64 PCGS.** This near-Gem displays a sharp strike and attractive toning on both sides, with the colors particularly appealing on the obverse. Those colors include orange, copper, sea-green, teal, sky-blue, and plum. The reverse primarily exhibits hues of sea-green and copper-orange. Population: 43 in 64, 41 finer (1/13). PCGS# 4753, NGC ID# 23CJ, CoinPlex ID# SDP1860
- 3339 1862 PR66 NGC.** A Premium Gem example, this piece displays mirrored fields that provide attractive contrast to the well-struck devices. Lovely toning in shades of aqua and violet adds to the eye appeal. A strike through appears near the D in DIME. NGC has graded only 7 examples at the PR66 level and neither NGC nor PCGS has assigned a higher numeric grade to a single example (1/13). NGC ID# 23CL, PCGS# 4755, CoinPlex ID# SDP1862

1862 Dime, PR66 Cameo  
Tied for Finest Certified at NGC

- 3340 1862 PR66 Cameo NGC.** The low mintage of only 550 proofs makes the 1862 dime a popular early date, when available. This impressive coin is mostly brilliant on both sides, except for a pronounced but thin arc of dark iridescence on the right side of the obverse and a less-pronounced but longer accent of color on the right side of the reverse. Numerous tiny lint marks and planchet flakes are seen with magnification, but these have no effect on the visual impact of the coin or its technical grade. Census: 2 in 66 Cameo, 0 finer (1/13). PCGS# 84755, CoinPlex ID# SDP1862CA

- 3341 1865 PR64 PCGS.** The striking of dimes, business strikes or proofs, was an exercise in futility during the Civil War. Philadelphia struck 500 proof and 10,000 business dimes; both varieties are scarce. The present unabraded near-Gem displays deep cobalt-blue and orange-red patina. PCGS# 4758, NGC ID# 23CN, CoinPlex ID# SDP1865

- 3342 1865 PR65 PCGS.** Mottled toning, primarily in hues of aqua, champagne, gold, and gray covers both sides of this well-struck Gem. The obverse displays a number of lint marks, as made. Population: 13 in 65 (1 in 65+), 3 finer (1/13). PCGS# 4758, NGC ID# 23CN, CoinPlex ID# SDP1865

- 3343 1873 No Arrows, Closed 3 PR64 PCGS.** Delicate almond-gold toning deepens slightly at the rims. A nicely mirrored and boldly struck near-Gem. Scarcer than implied by its proof mintage of 1,100 pieces. Certified in a first generation holder. Population: 48 in 64, 25 finer (1/13).  
*Ex: ALG Collection of Proof Dimes (Heritage, 6/2010), lot 571, which realized \$1,035.* PCGS# 4766, NGC ID# 23CX, CoinPlex ID# SDP1873NA

- 3344 1873 No Arrows, Closed 3 PR66 NGC. CAC.** Dense and dappled gold and blue patina saturates each side of this gleaming Premium Gem proof. This pre-weight-adjustment issue saw a mintage of 1,100 proofs. Census: 12 in 66 (1 in 66+), 7 finer (1/13). NGC ID# 23CX, PCGS# 4766, CoinPlex ID# SDP1873NA

- 3345 1873 Arrows PR63 NGC.** Vibrant, flashy luster adds to the eye appeal of this lovely example. The coin is well-struck and displays moderate contrast between the field and the devices. Arguably, the most pleasing aspect of this example is the attractive lilac toning that covers the reverse. Census: 21 in 63, 59 finer (1/13). NGC ID# 23DH, PCGS# 4769, CoinPlex ID# SDP1873ARR

- 3346 1873 Arrows PR64 NGC.** The motifs are lightly frosted and show moderate contrast with the glassy honey-gold fields. Formerly in a B. Max Mehl auction of unknown date (1950s or earlier) as lot 1352, where it sold for \$7. NGC ID# 23DH, PCGS# 4769, CoinPlex ID# SDP1873ARR

- 3347 1873 Arrows PR64+ PCGS. CAC.** Pastel rose, blue-green, and violet toning appears on both sides of this near-Gem proof. The fields are fully mirrored around lustrous devices with subdued cameo contrast. Population: 1 in 64+, 22 finer (1/13). PCGS# 4769, NGC ID# 23DH, CoinPlex ID# SDP1873ARR

- 3348 1874 Arrows PR64 PCGS.** Light gold tinges visit parts of the pale gray surfaces. Both sides are minimally contrasted but have appreciable field reflectivity through patina. A desirable Choice specimen of the proof With Arrows type. PCGS# 4770, NGC ID# 23DJ, CoinPlex ID# SDP1874ARR

1874 Arrows Dime, Gem Proof  
Scarce Two-Year Type

- 3349 1874 Arrows PR65 PCGS.** Struck for only two years, the 1873 and 1874 Arrows type is highly sought after by collectors. This fully struck example is covered with deep blue-green and golden toning, but the color has little effect on the underlying proof mirrors. Surprisingly scarce in Gem condition. Population: 18 in 65, 9 finer (1/13). PCGS# 4770, NGC ID# 23DJ, CoinPlex ID# SDP1874ARR

- 3350 1875 PR66 NGC.** Dusky chestnut-gold and gunmetal toning enriches this nicely mirrored and undisturbed Premium Gem. The strike is good and the sole imperfection is a slender impression on Liberty's cheek and left (facing) shoulder. NGC ID# 23CY, PCGS# 4772, CoinPlex ID# SDP1875

- 3351 1876 PR65 Cameo NGC. Fortin-103.** Type One Reverse. The reverse is die doubled, principally on the E in DIME. This well-detailed Gem displays reflective fields under spotty blue and gold patina, with noticeable field/device contrast. Census: 6 in 65 Cameo, 5 finer (1/13). PCGS# 84773, CoinPlex ID# SDP1876CA

- 3352 1879 PR65 PCGS.** The obverse offers bright sea-green and gold patina, while the reverse exhibits deep lilac toning at the center. A well struck and magnificently preserved Gem. A low mintage date. Certified in an old green label holder. Population: 29 in 65, 22 finer (9/12).

*Ex: Orlando FUN Signature (Heritage, 1/2003), lot 6439.* PCGS# 4776, NGC ID# 23D4, CoinPlex ID# SDP1879

- 3353 1880 PR66 NGC.** Splashes of rose-gold and sea-green alternate across this unperturbed and nicely struck Premium Gem. A low mintage date due to the legislated need for silver dollar production. NGC ID# 23D5, PCGS# 4777, CoinPlex ID# SDP1880

- 3354 1882 PR66+ PCGS. CAC.** A well struck and pristine specimen with rich lavender-gray toning on the reverse. The obverse is lightly patinated by comparison but displays subtle gold, cream, and lilac hues. PCGS# 4779, NGC ID# 23D7, CoinPlex ID# SDP1882

- 3355 1885 PR65 Cameo NGC.** A glassy Cameo Gem proof, this piece displays a light hint of gold over otherwise silvery surfaces. This example exhibits pronounced contrast between those fields and the frosty devices. A few small strike throughs appear in the obverse field and the reverse has a single dark fleck. Census: 9 in 65 Cameo, 50 finer (1/13). PCGS# 84782, CoinPlex ID# SDP1885CA

- 3356 1886 PR65 PCGS.** Rose-red, butter-gold, and jade-green toning dominates the obverse. The reverse displays dusky peach and ivory shades. Sharply struck with pristine fields and slight contact on the cheek. PCGS# 4783, NGC ID# 23DB, CoinPlex ID# SDP1886

#### PR67 Cameo 1886 Dime

- 3357 1886 PR67 Cameo NGC.** Attractive contrast between the devices and the brilliant fields provides this example with lovely eye appeal. The coin displays a strong strike with only a touch of softness at Liberty's hair. Hints of golden color appear. The sole imperfection is a small spot near the ME in AMERICA. Census: 11 in 67 Cameo, 2 finer (1/13). PCGS# 84783, CoinPlex ID# SDP1886CA
- 3358 1889 PR66 PCGS.** Forest-green, orange-gold, and cherry-wine shades consume the obverse. The reverse displays similar but lighter shades. Crisply struck and pristine. A mere 711 proofs were produced. PCGS# 4786, NGC ID# 23DE, CoinPlex ID# SDP1889
- 3359 1891 PR65 Cameo NGC.** Ex: Richmond Collection. Ice-white motifs rise above the glassy fields. Fairly close to an Ultra Cameo designation, though perhaps held back by a hint of golden toning. Careful rotation reveals only minor hairlines. Ex: *Richmond Collection, Part III (David Lawrence, 3/2005)*, lot 1285, which realized \$1,265. PCGS# 84788, CoinPlex ID# SDP1891CA

### BARBER DIMES

- 3360 1893-O MS65+ NGC.** Light peach toning graces much of each side on this second-year New Orleans Barber dime. The hair below Liberty's crowning leaves and ribbon is a trifle soft, but the overall appeal is excellent. A rewarding coin. Census: 9 in 65 (1 in 65+), 8 finer (1/13). NGC ID# 23DR, PCGS# 4801, CoinPlex ID# BRD1893O
- 3361 1893-S MS64 PCGS.** Shades of ice-blue, champagne-gold, and russet toning blanket the lustrous surfaces of this attractive Choice example. The design elements are lustrous and the surfaces are free of serious distractions. Population: 27 in 64, 22 finer (1/13). PCGS# 4802, NGC ID# 23DS, CoinPlex ID# BRD1893S
- 3362 1895-O Fine 15 PCGS.** CAC. From a mintage of just 440,000 pieces, the 1895-O is a rare key date in the Barber dime series. This pleasing Fine 15 example retains much of its original design detail, at least in outline, with shades of gray and amber patina outlining the silvery devices. PCGS# 4807, NGC ID# 23DW, CoinPlex ID# BRD1895O
- 3363 1897 MS66 PCGS.** CAC. Shades of apricot, aqua, and champagne toning cover the beautifully preserved, shimmering surfaces. The reverse is particularly pleasing to the eye. Population: 26 in 66 (1 in 66+), 4 finer (1/13). Ex: *Long Beach (Heritage, 9/2008)*, lot 1710. PCGS# 4812, NGC ID# 23000, CoinPlex ID# BRD1897
- 3364 1898-O MS65 NGC.** An amazing New Orleans Barber dime, this piece exhibits a full strike with frosty luster beneath outstanding gold and deep violet toning on the obverse, with additional rose, blue, and green on the reverse. NGC and PCGS have only graded 22 similar pieces, with just eight finer examples. Census: 14 in 65, 2 finer (1/13). NGC ID# 230000000, PCGS# 4816, CoinPlex ID# BRD1898O

#### 1900 Barber Dime, MS66+ Sharply Struck, Beautifully Toned

- 3365 1900 MS66+ PCGS.** CAC. Rose, lemon-yellow, and pinkish-gold hues appear on the obverse, while the reverse shows similar colors with a silver center on this splendid Premium Gem 1900 Barber dime, one of the few finest survivors technically and with excellent eye appeal aesthetically. A sharply struck example. Population: 1 in 66+, 4 finer (1/13). PCGS# 4821, NGC ID# 23EC, CoinPlex ID# BRD1900

#### Gem Mint State 1903-O Dime Deep Peripheral Patina

- 3366 1903-O MS65 PCGS.** CAC. Pale gold-gray interiors yield to deep orange and eventually blue-to-violet hues. The luster on this well-defined O-mint Gem has an uncommon warmth and slight satiny texture. Conditionally rare and all-around appealing for its underrated issue. Population: 12 in 65, 4 finer (1/13). PCGS# 4831, NGC ID# 23EN, CoinPlex ID# BRD1903O

#### Premium Gem 1905 Barber Dime Pale, Dappled Patina

- 3367 1905 MS66 PCGS.** CAC. Dotted patina, pale blue, peach, and green-gold, graces unworn and strongly lustrous surfaces. The few marks present on each side are hard to spot through the toning. Despite a mintage of more than 14 million pieces, the 1905 dime was not saved deliberately in any quantity and is rare this fine. Population: 6 in 66, 3 finer (1/13). PCGS# 4835, NGC ID# 23ET, CoinPlex ID# BRD1905
- 3368 1905-O Micro O MS61 ANACS.** Breen-3545. This scarce mintmark size variety receives a separate listing in the *Guide Book*. The present Uncirculated example has attractive peripheral golden-brown, plum-red, and powder-blue patina. Satiny and unabraded. PCGS# 94836, CoinPlex ID# BRD1905OMICROO

**3369 1906-D MS66 PCGS. CAC.** Attractively toned on both sides, this lustrous Premium Gem includes shades of golden-yellow, rich peach, sea-green, russet, plum, teal, and violet. Minor incompleteness of strike is evident at portions of the top of the wreath. Population: 14 in 66 (1 in 66+), 3 finer (1/13). PCGS# 4839, NGC ID# 23EY, CoinPlex ID# BRD1906D

**3370 1914-S MS66 NGC. CAC.** Attractive shades of lavender and champagne-gold toning enhance the pristine surfaces of this well-detailed Premium Gem. Both sides are brightly lustrous, with outstanding eye appeal. Census: 7 in 66, 1 finer (1/13). NGC ID# 23FV, PCGS# 4867, CoinPlex ID# BRD1914S

**3371 1916 MS66 PCGS. CAC.** Generous satiny luster enhances the eye appeal of this final-year Barber dime. Green-gold border toning and silver-blue interiors make up for the slight weakness on the central devices. Population: 40 in 66 (1 in 66+), 6 finer (1/13). PCGS# 4870, NGC ID# 23FY, CoinPlex ID# BRD1916

## PROOF BARBER DIMES

**3372 1892 PR65 NGC.** An attractive blinding ice-white first-year Gem proof Barber dime, evident contrast is present between the field and the devices on the obverse. The piece exhibits superb eye appeal along with a sharp strike and bold reflectivity. Close examination reveals subtle hints of color. Census: 45 in 65, 66 finer (1/13). NGC ID# 23G2, PCGS# 4875, CoinPlex ID# BRP1892

**3373 1893 PR65 Cameo PCGS.** Pale blue and champagne-gold toning highlight the reflective surfaces of this well-preserved Gem. The frosty sharply detailed design elements provide startling cameo contrast. Population: 16 in 65 Cameo, 27 finer (1/13). PCGS# 84877, CoinPlex ID# BRP1893CA

**3374 1895 PR66 Cameo PCGS.** Light almond-gold toning enriches this fully struck and essentially immaculate Premium Gem. Uncirculated 1895 business strikes are elusive, which contributes to demand for proofs. Population: 13 in 66 (1 in 66+) Cameo, 11 finer (1/13). PCGS# 84879, CoinPlex ID# BRP1895CA

**1895 Dime, PR67 Cameo  
Remarkably Deep Mirrors**

**3375 1895 PR67 Cameo NGC. CAC.** Delicate wheat-gold toning graces this otherwise brilliant Superb Gem. The portrait and wreath are frosty and contrast with glittering fields. The strike is precise and there are no visible detractors. A beautiful Barber type coin. Census: 8 in 67 Cameo, 5 finer (1/13). PCGS# 84879, CoinPlex ID# BRP1895CA

**3376 1896 PR65 Cameo NGC.** A brilliant Gem with a needle-sharp strike and blatant cameo contrast. This well preserved Barber specimen has a few minute strike-throughs (as made) near the O in ONE. A scant 762 proofs were issued. PCGS# 84880, CoinPlex ID# BRP1896CA

**3377 1898 PR66 Cameo NGC.** Brilliant, fully struck, immaculate, and flashy. A slight frost break on the cheek is of mint origin, as are minor retained laminations on the reverse at 9 and 12 o'clock and near the O in ONE. Just 735 proofs were issued. PCGS# 84882, CoinPlex ID# BRP1898CA

**1902 Barber Dime, PR67  
Tied for Finest at PCGS**

**3378 1902 PR67 PCGS. CAC.** Housed in a green-label PCGS holder, this Superb Gem is an early product of the third Philadelphia Mint building, the one on Spring Garden Street, that opened the previous year. The obverse is essentially brilliant with wispy gold toning, and the reverse is fully toned in dark violet. Population: 6 in 67, 0 finer (1/13). PCGS# 4886, NGC ID# 23GF, CoinPlex ID# BRP1902

**Deeply Toned PR66+ 1906 Dime**

**3379 1906 PR66+ PCGS. CAC.** A richly toned and carefully preserved specimen from an issue of just 675 pieces, reflective at parts of the borders but near-opaque at the interiors. Gold-green, peach, blue, and violet shadings are most prominent, while in-between accents such as orange and jade also are present. Population: 20 in 66 (2 in 66+), 11 finer (1/13). PCGS# 4890, NGC ID# 23GK, CoinPlex ID# BRP1906

**3380 1908 PR65 PCGS.** Pleasing glittering reflectivity and contrast emerge through the dappled ocean-blue, golden-brown, and cherry-red patina, though PCGS does not recognize this coin as Cameo. Just 545 proof specimens were struck. PCGS# 4892, NGC ID# 23GN, CoinPlex ID# BRP1908

## TWENTY CENT PIECES

**3381 1875-CC XF40 NGC.** Gorgeous iridescent toning in shades of sea-green, turquoise, orange, cherry, plum, and lilac covers large portions of both sides of this example of the only collectible Carson City issue of the type. Although a number of surface marks are present as expected at this grade level, the colors largely conceal them unless the coin is examined closely. NGC ID# 23R6, PCGS# 5297, CoinPlex ID# TWM1875CC

**3382 1875-CC XF45 PCGS.** This Carson City twenty cent has an almost Cameo-like appearance. Light gray devices are modestly worn, while fields with deep slate-blue toning remain subtly luminous. PCGS# 5297, NGC ID# 23R6, CoinPlex ID# TWM1875CC

**3383 1875-CC AU55 PCGS.** Pale golden patina overlies the surfaces of this Choice AU, the only collectible Carson City twenty cent piece. Softly struck, especially on the reverse. Significant mint luster remains. PCGS# 5297, NGC ID# 23R6, CoinPlex ID# TWM1875CC

**3384 1875-CC AU58 NGC.** A lightly rubbed and minimally toned example of the Carson City's sole collectible twenty cent issue. The obverse is pleasing in its entirety, though the reverse has a scrape on the eagle's breast. NGC ID# 23R6, PCGS# 5297, CoinPlex ID# TWM1875CC

**3385 1875-S MS63 NGC.** A few wispy grazes on the right obverse field are strictly assessed by NGC, but this lustrous type coin provides impressive eye appeal for the designated grade. The margins display tan-gold and apple-green toning. NGC ID# 23R7, PCGS# 5298, CoinPlex ID# TWM1875S

**3386 1875-S MS63 PCGS.** Golden-brown and cream-gray envelop this coruscating and nicely struck San Francisco type coin. A loupe reveals distributed wispy field marks of no individual consequence. PCGS# 5298, NGC ID# 23R7, CoinPlex ID# TWM1875S

**3387 1875-S MS64 NGC. FS-302.** The so-called "dollar sign variety" with a repunched mintmark. Also, a date digit is misplaced within the dentils beneath the 7 in the date. This nicely struck and lustrous Choice type coin is moderately patinated in orange-red and forest-green shades. One thin mark is noted on the right obverse field. NGC ID# 23R7, PCGS# 5298, CoinPlex ID# TWM1875S

#### Lustrous Gem 1875-S Twenty Cent Misplaced Date, FS-301

**3388 1875-S MS65 PCGS. CAC. FS-301.** The top of a misplaced digit is in the dentils beneath the 8 in the date. Both sides are golden-brown and slate-gray, with the latter shade more prevalent on the obverse. Lustrous and mark-free. The strike is crisp at the centers though several stars are lightly impressed. PCGS# 5298, NGC ID# 23R7, CoinPlex ID# TWM1875S

### PROOF TWENTY CENT PIECES

**3389 1875 — Cleaning — PCGS Genuine. Proof, Unc. Details.** A challenging proof type as the denomination was struck for only four years. This precisely struck and unmarked specimen is bright from a wipe but retains full design detail. PCGS# 5303, NGC ID# 27GZ, CoinPlex ID# TWP1875

**3390 1875 PR62 PCGS. CAC.** The twenty-cent piece is one of our short-lived denominations, minted only from 1875 to 1878 in proof format. Pronounced contrast between the fields and devices adds to the visual appeal of this example although it did not earn a cameo designation. Subtle shades of pink and apricot appear. Both sides exhibit grade-limiting hairlines. PCGS# 5303, NGC ID# 27GZ, CoinPlex ID# TWP1875

**3391 1876 PR61 PCGS.** Sharply detailed design elements and reflective fields are evident, under attractive shades of powder-blue and champagne-gold toning. A few minor contact marks in the obverse field explains the grade. PCGS# 5304, NGC ID# 27H3, CoinPlex ID# TWP1876

#### 1876 Twenty Cent Piece, PR64 Deep, Variegated Toning

**3392 1876 PR64 NGC.** The proof mintage in this second year was less than half that of the debut 1875's production. A medley of aqua-blue, lavender, and yellow-orange toning bathes this near-Gem proof, and the design features are solidly struck. Occasional fine hairlines are all that stand in the way of a finer numerical grade. Nevertheless, this coin exudes pleasing eye appeal. Housed in a former generation holder. Census: 74 in 64 (1 in 64+), 37 finer (1/13). NGC ID# 27H3, PCGS# 5304, CoinPlex ID# TWP1876

#### Select Proof 1878 Twenty Cent Piece Final Proof-Only Issue

**3393 1878 PR63 PCGS.** The a tiny proof-only mintage of 600 twenty cent pieces in 1878 was the final issue for this short-lived denomination. This attractive Select example exhibits sharply detailed design elements in most areas, with some feather detail missing on the eagle, due to die polishing. The reflective fields are visited by irregular shades of light green toning. PCGS# 5306, NGC ID# 27H5, CoinPlex ID# TWP1878

### EARLY QUARTERS

#### Collectible 1796 Quarter, B-2 Rare Silver Type Coin

**3394 1796 — Holed and Plugged — Genuine PCGS. B-2, R.3.** In our opinion, this coin has the details of a Poor specimen that has been plugged, whizzed, and damaged. A fairly large plug is at 12 o'clock on the obverse and 6 o'clock on the reverse. The stone-gray surfaces are evenly microgranular from whizzing, and the lower half of the reverse displays a few patches of tiny to moderate abrasions. The upper half of the date is clear and the portrait is nicely outlined. PCGS# 5310, NGC ID# 23RA, CoinPlex ID# EQU1796

**B-2 1796 Quarter, AG Details  
Key Silver Type**

- 3395 1796 — Plugged, Damaged — NGC Details. AG. B-2, R.3.** The 1796 Small Eagle quarter is the second-rarest silver U.S. type, outdone only by its 1796 to 1797 half dollar counterpart. Here is an affordable example that has a bold date and a fully outlined portrait. The small eagle is evident, and a majority of the reverse legend is readable. Plugged at 12 o'clock with nearby obverse tooling and a dig beneath the eagle's left (facing) wing. The surfaces are lightly hairlined and mildly wavy with a number of faint scratches. NGC ID# 23RA, PCGS# 5310, CoinPlex ID# EQU1796

**BUST QUARTERS**

**Near-Mint 1815 Quarter, B-1  
Enigmatic 'E' Counterstamp**

- 3396 1815 "E" Counterstamp AU58 NGC. B-1, R.1.** The E and L counterstamps have confounded numismatists since their first appearance during the 1870s. Seen only on 1815 and 1825 quarters, a sizeable number are known, with the E stamp about twice as available as the L stamp. Current conjecture is that the counterstamps reflect an important vote of the Harmony Society commune in Pennsylvania circa 1832. This is a partly lustrous light steel-gray representative with an unabraded appearance and a hint of granularity near the date. NGC ID# 23RG, PCGS# 5321, CoinPlex ID# EQU1815

**1818 Quarter, B-4, Toned AU58**

- 3397 1818 AU58 PCGS. CAC. B-4, R.2.** Tompkins Die State 2/2. The radial obverse die crack at 5 o'clock helps distinguish B-4 from the similar but rarer B-5. The present partially lustrous near-Mint example displays lavender-gray, sea-green, and autumn-gold toning. Smooth aside from wispy field marks near the profile. PCGS# 5322, NGC ID# 23RH, CoinPlex ID# EQU1818

**Choice VF 1824/2 Quarter, B-1**

- 3398 1824/2 VF35 PCGS. CAC. B-1, R.3.** Deep gunmetal-gray toning encompasses unblemished surfaces. The eagle's plumage is well defined, though the wingtips and claws exhibit wear. The sole 1824-dated die variety. Very scarce, although overshadowed by its rare and famous 1823 predecessor. Population: 10 in 35, 35 finer (6/12). PCGS# 5335, NGC ID# 23RR, CoinPlex ID# EQU1824OVR2

- 3399 1824/2 — Scratch — PCGS Genuine. XF Details. B-1, R.3.** The sole 1824-dated dies. The present cream-gray piece displays a number of faint to moderate obverse pinscratches and is mildly bright from cleaning. The reverse rim has a minor ding at 7 o'clock. PCGS# 5335, NGC ID# 23RR, CoinPlex ID# EQU1824OVR2

- 3400 1825/4 AU55 NGC. B-2, R.2.** This mildly prooflike and richly detailed Capped Bust quarter displays dusky golden-brown and olive-gray toning. Examination beneath a lens reveals only scattered small abrasions. NGC ID# 23RU, PCGS# 5336, CoinPlex ID# EQU1825

**Borderline Uncirculated 1825/4 Quarter  
Better Browning-3 Variety**

- 3401 1825/4 AU58 PCGS. CAC. B-3, R.3.** This is a lightly circulated and well struck representative with olive-gray and chestnut-gold toning. The crossbar and base of the 4 are clearly visible in the lower loop of the 5, with the upright visible at the upper right of the 5. Scarcer than B-2, the usually encountered 1825-dated variety. Ex: *Long Beach Signature* (Heritage, 9/2004), lot 6336, which realized \$2,242.50. PCGS# 5336, NGC ID# 23RU, CoinPlex ID# EQU1825

- 3402 1834 AU55 PCGS. B-1, FS-901, R.1.** The blundered reverse legend with an O over F in OF. Well struck and untoned with lightly marked fields. Luster illuminated the margins and motifs. PCGS# 5353, NGC ID# 23RZ, CoinPlex ID# EQU1834

**Select Mint State 1835 Quarter  
Elusive Browning-8 Variety**

- 3403 1835 MS63 PCGS. B-8, High R.4.** Tompkins Die State 1/2 with an arc-shaped crack through much of STATES. Browning-8 is a very scarce die marriage, the rarest for the date aside from B-3. This lustrous and crisply struck representative has a few delicate hairlines but is minimally abraded for the designated grade. PCGS# 5354, NGC ID# 23S2, CoinPlex ID# EQU1835

**SEATED QUARTERS**

- 3404 1838 No Drapery — Artificial Toning — NGC Details. Unc.** The light to dusky orange-gold toning is attractive but deemed unnatural by NGC. Both sides display faint hairlines and a pale gray spot is noted near the left (facing) shoulder. Sharply struck except on the upper obverse stars and dentils. NGC ID# 23SE, PCGS# 5391, CoinPlex ID# SQU1838ND

**1842 Seated Liberty Quarter, MS63  
Rare Low-Mintage Issue**

- 3405 1842 Large Date MS63 PCGS.** From a small mintage of 88,000 pieces, the 1842 Seated Liberty quarter is scarce-to-rare in all grades, and Mint State specimens are very rare. This impressive Select example is darkly toned in shades of emerald-green and grayish-blue, with sharply detailed devices and prooflike surfaces under the patina. Population: 3 in 63, 3 finer (1/13). PCGS# 5401, NGC ID# 23SM, CoinPlex ID# SQU1842
- 3406 1847-O VF25 PCGS. CAC.** The mintage of 368,000 pieces would lead one to believe the 1847-O is considerably more available than it is. This piece shows the usual flatness of strike; otherwise, the surfaces are original and untampered with, displaying medium-density gray-golden toning. Traces of mint luster can still be seen around some of the devices. Population: 5 in 25, 42 finer (1/13). PCGS# 5411, NGC ID# 23SY, CoinPlex ID# SQU1847O
- 3407 1852 MS63 NGC.** Dusky light-gray color, with hints of light tan, covers both sides of this Select example. The reverse displays a high degree of design detail. A strike through, as made, appears between stars 10 and 11. Surface marks on the obverse held this piece from a higher grade. Census: 7 in 63, 16 finer (1/13). NGC ID# 23T8, PCGS# 5419, CoinPlex ID# SQU1852

- 3408 1852-O — Questionable Color — PCGS Genuine. XF Details.** Well defined and unmarked, though the olive-gray and chestnut-tan surfaces are mildly granular. Silver coins were hoarded in 1852. As a result, New Orleans struck only 96,000 quarters that year, and survivors are rare in any grade. PCGS# 5420, NGC ID# 23T9, CoinPlex ID# SQU1852O

- 3409 1853 Arrows and Rays MS61 NGC.** The popular Arrows and Rays motif was inaugurated in 1853 to indicate a weight change for most silver coinage. This well-detailed Mint State example retains much original mint luster, with hints of gray and golden-tan toning. NGC ID# 23U4, PCGS# 5426, CoinPlex ID# SQU1853ARRRAY

**1858 Seated Liberty Quarter, MS66  
Extremely Rare Any Finer**

- 3410 1858 MS66 NGC.** This delightful Premium Gem is sharply detailed in most areas, but a touch of softness is apparent on some of the stars. The brilliant surfaces radiate vibrant mint luster, and a few minor contact marks do not detract from the stunning eye appeal. Census: 14 in 66, 4 finer (1/13). NGC ID# 23TH, PCGS# 5445, CoinPlex ID# SQU1858

**1859-O Quarter Dollar, MS64  
Unrecognized Condition Rarity**

- 3411 1859-O MS64 PCGS.** The 19th century subsidiary silver coinage from branch mints offer a number of important condition rarities, issues that are not overly rare, but are quite rare in higher grades. The 1859-O Seated quarter is an example. More than a quarter million were minted, and examples are available on a regular basis in circulated grades, but extremely rare in Mint State. This near-Gem has frosty luster beneath original golden-gray toning. A few stars are weak but all other design elements are crisp. Population: 2 in 64, 1 finer (1/13). PCGS# 5449, NGC ID# 23TM, CoinPlex ID# SQU1859O
- 3412 1863 MS64 PCGS.** Light sun-gold and rose-red toning adorns the margins. A magnificent Civil War near-Gem that has dynamic luster and a full strike. One strike-through (as made) on the right obverse field. Housed in a green label holder. Population: 15 in 64, 23 finer (1/13).  
*Ex: Houston Signature (Heritage, 11/2007), lot 60523, which realized \$1,725. PCGS# 5458, NGC ID# 23TX, CoinPlex ID# SQU1863*

**Gem 1863 Seated Quarter  
Popular Civil War Type Coin**

**3413 1863 MS65 NGC.** From a nominal Civil War mintage of 191,600 pieces, the 1863 Seated Liberty quarter is quite rare in MS65 condition. This delightful Gem displays well-detailed design elements and well-preserved lustrous surfaces, under attractive shades of champagne-gold toning. Eye appeal is outstanding. Census: 12 in 65, 6 finer (1/13). NGC ID# 23TX, PCGS# 5458, CoinPlex ID# SQU1863

**3414 1864-S VG8 PCGS.** A very appealing example for the grade, the golden-brown patina is uniform on both sides and, although this example is well-circulated, the wear is even overall and there are no mentionable surface marks. During the 1860s, San Francisco struck half dollars in considerable quantity but produced far fewer quarters. The 1864-S has a particularly paltry mintage of just 20,000 pieces. A contemporary absence of West Coast collectors ensured relatively few survivors. Population: 6 in 8, 44 finer (1/13). PCGS# 5460, NGC ID# 23TZ, CoinPlex ID# SQU1864S

**1871-S Quarter, Sharp, Satiny AU58**

**3415 1871-S AU58 NGC.** Only 30,900 examples of the 1871-S quarter were struck, and most of them were "rode hard and put up wet" in the postbellum Old West. The average *certified* survivor is a bit more than XF40. Briggs (2008) writes that the 1871-S is a "very scarce coin in all grades with rarity escalating with grade. True rarity just now starting to be recognized. Usually found AG-F and with some sort of problem ... . In AU and Mint State grades, when problem-free, nice strike and nice luster. Very underrated." The surfaces on this near-Mint coin are indeed nice and well-struck, with semiprooflike fields and scattered deep russet hues on the reverse. Census: 2 in 58, 14 finer (1/13). NGC ID# 23UP, PCGS# 5480, CoinPlex ID# SQU1871S

**3416 1873 Closed 3 — Improperly Cleaned — NGC Details. AU.** Bands of navy-blue and plum-red adorn the reverse margin. The remainder of this rare date quarter is light cream-gray. Mildly subdued from cleaning but sharply detailed. The motifs exhibit luster. NGC ID# 23UU, PCGS# 5484, CoinPlex ID# SQU1873CL3

**3417 1873-S Arrows MS61 NGC.** Light to medium olive-green and almond-gold shades visit this satiny and lightly abraded better date Seated quarter. The strike is bold aside from a few star centers. Census: 2 in 61, 17 finer (1/13). NGC ID# 23VW, PCGS# 5493, CoinPlex ID# SQU1873SARR

**3418 1877-CC MS64 PCGS. FS-301. Briggs 2-B.** The base of the 77 is widely repunched, which suggests a two digit gang punch was used to finish the date. Golden-brown and ocean-blue endows the reverse, while the obverse features light autumn-brown patina. Sharply struck and lustrous. PCGS# 5505, NGC ID# 23V6, CoinPlex ID# SQU1877CC

**3419 1877-S MS65 PCGS. CAC.** Spectacular shades of sea-green and cerulean-blue patina grace the reflective surfaces of this sharply detailed Gem. Eye appeal is terrific. From a mintage of just 600 pieces. Population: 30 in 65, 16 finer (1/13). PCGS# 5506, NGC ID# 23V7, CoinPlex ID# SQU1877S

**PROOF SEATED QUARTERS**

**3420 1862 PR64 PCGS.** A fully mirrored and lightly contrasted Choice proof, this Seated quarter has intense blue, gold, and iridescent toning. Great eye appeal for its Civil War issue. Population: 39 in 64, 19 finer (1/13). PCGS# 5558, NGC ID# 23WP, CoinPlex ID# SQP1862

**3421 1868 PR64 PCGS.** A few wisps of powder-blue and champagne-gold toning highlight the reflective fields of this Choice proof specimen. The design elements are richly frosted and sharply detailed. Population: 31 in 64, 12 finer (1/13). PCGS# 5567, NGC ID# 23WZ, CoinPlex ID# SQP1868

**3422 1868 PR64+ Cameo NGC.** The flashy reflective fields of this high-end Choice example contrast boldly with the sharply detailed frosty design elements. Only a few minor hairlines prevent an even higher grade. Census: 8 in 64 (1 in 64+) Cameo, 4 finer (1/13). PCGS# 85567, CoinPlex ID# SQP1868CA

**3423 1870 PR63 Cameo PCGS.** Faint splashes of golden-tan largely frame the central devices on both sides of this example. Reflectivity remains on this well-struck piece. Surviving examples are scarcer than the mintage of 1,000 pieces might suggest, since unsold examples were melted. Population: 8 in 63 Cameo, 23 finer (1/13). PCGS# 85569, CoinPlex ID# SQP1870CA

**Premium Gem Proof 1872 Seated Quarter  
Rare Example With Cameo Contrast**

**3424 1872 PR66 Cameo NGC.** A fairly generous mintage of 950 proof Seated Liberty quarters was accomplished in 1872, but quality control was not always what it should have been. Few examples show the crisp strike and icy mint frost of the present coin, and Cameo specimens are seldom encountered. The deeply reflective fields of this impressive Premium Gem show traces of cerulean-blue and golden-tan toning at the peripheries. Census: 9 in 66 Cameo, 5 finer (1/13). PCGS# 85571, CoinPlex ID# SQP1872CA

- 3425 1873 No Arrows PR63 NGC.** Only 600 No Arrows proof quarters were minted in 1873, all with a closed 3 in the date. The outstanding feature of this Select Mint State example is its attractive toning. The obverse center is vivid streaky blue with sea-green peripheries. The same colors visit the reverse, but the toning is less pronounced. The striking details are uniformly sharp. Census: 36 in 63, 87 finer (1/13).  
Ex: Milwaukee Central States Signature (Heritage, 4/2010), lot 2548, which realized \$1,150. NGC ID# 23X6, PCGS# 5572, CoinPlex ID# SQP1873NA

**1875 Quarter, PR65  
Undesignated Cameo Proof**

- 3426 1875 PR65 PCGS. CAC.** Deserving of a Cameo designation, this Gem proof remains undesignated because of the deep, original blue and iridescent toning. Trivial hairlines and minuscule marks are only visible under a glass. An exceptional specimen for a date or type collection. Population: 9 in 65, 3 finer (1/13). PCGS# 5576, NGC ID# 23X7, CoinPlex ID# SQP1875

**1875 Quarter Dollar  
PR65 Deep Cameo**

- 3427 1875 PR65 Deep Cameo PCGS.** This stunning black-and-white Gem exhibits brilliant silver surfaces with exceptional contrast. Each side of this bold strike has a small splash of subtle champagne toning. A glass reveals tiny lint marks and die polishing lines, along with a few insignificant post-strike blemishes. Population: 3 in 65 Deep Cameo, 2 finer (1/13). PCGS# 95576, CoinPlex ID# SQP1875DC
- 3428 1876 PR64 Cameo PCGS.** Type Two Reverse with narrow feet on the A in STATES. Well struck and frosty design elements contrast with the lightly toned and reflective fields. The right obverse field has a couple of minor hairlines. PCGS# 85577, CoinPlex ID# SQP1876CA

- 3429 1877 PR64 PCGS.** The well struck devices exhibit obvious cameo contrast, although this feature is undesignated because of its old green label insert. A brilliant near-Gem. Only 510 proofs were struck.  
Ex: Dallas Signature (Heritage, 11/2007), lot 584, which realized \$2,530. PCGS# 5578, NGC ID# 23X9, CoinPlex ID# SQP1877

- 3430 1881 PR65 NGC. CAC.** The streaky silver-gray and honey-good centers are bounded by navy-blue, jade-green, and peach-red peripheries. Well struck and satiny with unmarked surfaces. NGC ID# 23XD, PCGS# 5582, CoinPlex ID# SQP1881

**1882 Seated Liberty Quarter, PR66  
Vivid Reverse Toning**

- 3431 1882 PR66 PCGS.** The reported mintage of proof Seated Liberty quarters was a generous 1,100 pieces in 1882, but the small business-strike production of 15,200 coins puts strong date collector pressure on the nominal supply of proofs. This well-detailed Premium Gem displays deeply mirrored surfaces under shades of cobalt-blue and golden-brown toning, with more color on the reverse. Population: 19 in 66 (1 in 66+), 9 finer (1/13). PCGS# 5583, NGC ID# 23XE, CoinPlex ID# SQP1882

- 3432 1882 PR64 Cameo PCGS. CAC.** This Choice Cameo proof is a borderline deep cameo specimen with extraordinary contrast between the bold design motifs and deep mirrored fields. Both sides are brilliant an untoned. Population: 16 in 64 Cameo, 30 finer (1/13). PCGS# 85583, CoinPlex ID# SQP1882CA

**1882 Quarter, PR66+  
Stunning Cameo Contrast**

- 3433 1882 PR66+ Cameo PCGS. CAC.** The design elements of this high-end Premium Gem are sharply detailed throughout, with richly frosted central devices that seem to float on the reflective liquid fields. The mostly brilliant centers yield to dark shades of sea-green and golden-brown at the peripheries and no mentionable distractions are present. Population: 15 in 66 (4 in 66+) Cameo, 2 finer (1/13). PCGS# 85583, CoinPlex ID# SQP1882CA

- 3434 1884 PR64 NGC.** This Choice proof is generally golden-brown though emerald-green and ruby-red adorn the margins. The flashy fields are smooth and the strike is sharp except on the uppermost stars. NGC ID# 23XG, PCGS# 5585, CoinPlex ID# SQP1884

**Gem Proof 1886 Seated Quarter  
Rare Cameo Specimen**

- 3435 1886 PR65 Cameo PCGS.** Intermingled shades of cobalt-blue and lime-green toning enhance the considerable eye appeal of this impressive Gem, with sharply detailed frosty design elements that stand out in sharp contrast to the deeply reflective fields. From a nominal proof mintage of 886 pieces. Population: 6 in 65 Cameo, 11 finer (1/13). PCGS# 85587, CoinPlex ID# SQP1886CA

**1887 Seated Liberty Quarter, PR66  
Only 710 Pieces Struck**

- 3436 1887 PR66 PCGS.** A small mintage of 710 proof Seated Liberty quarter was achieved in 1887 and examples in Premium Gem condition are quite rare today. This impressive specimen features well-detailed design elements and deeply reflective fields, under attractive shades of champagne-gold and cerulean-blue toning. Population: 22 in 66, 3 finer (1/13). PCGS# 5588, NGC ID# 23XK, CoinPlex ID# SQP1887
- 3437 1888 PR64 PCGS. CAC.** Splendid orange-red patina graces the peripheries of this flashy near-Gem. The motifs are frosted but the contrast is slightly insufficient to merit a Cameo designation. A low mintage issue. PCGS# 5589, NGC ID# 23XL, CoinPlex ID# SQP1888

**BARBER QUARTERS**

- 3438 1892 MS65+ PCGS. CAC.** Type One Reverse. Hints of autumn-gold toning adorn the margins of this lustrous and fully struck Gem. The reverse is essentially pristine, and only delicate portrait grazes limit the obverse. PCGS# 5601, NGC ID# 23XT, CoinPlex ID# BQU1892

**Premium Gem 1895 Barber Quarter  
Condition Rarity With Outer Toning**

- 3439 1895 MS66 PCGS. CAC.** Sparkling cartwheel luster swirls around lightly frosted silver interiors, far wider on the obverse. Peach-to-gold patina prevails at the margins, though the rims show areas of blue at the upper obverse and around much of the reverse. A high-end Premium Gem from a little-saved Philadelphia issue. Population: 10 in 66, 3 finer (1/13). PCGS# 5610, NGC ID# 23Y4, CoinPlex ID# BQU1895
- 3440 1897-O MS62 PCGS.** The surfaces are brilliant and largely untuned on this piece, although subtle hints of color are visible on the obverse. A toning spot appears to the left of the eagle's tail feathers. Population: 7 in 62, 47 finer (1/13). PCGS# 5617, NGC ID# 23YB, CoinPlex ID# BQU1897O
- 3441 1899-O MS64 NGC.** Sharply detailed in most areas, this impressive Choice example shows a touch of softness on the eagle's claw. Vibrant mint luster shines through attractive shades of lavender toning. Census: 24 in 64, 14 finer (1/13). NGC ID# 23YH, PCGS# 5623, CoinPlex ID# BQU1899O
- 3442 1903-O MS63 NGC.** The 1903-O Barber quarter is an elusive issue in Mint State. This impressive Select example displays well-detailed design elements and satiny mint luster, under shades of champagne-gold and lavender-gray toning. Census: 11 in 63, 15 finer (1/13). NGC ID# 23YW, PCGS# 5635, CoinPlex ID# BQU1903O
- 3443 1904 MS65 PCGS. CAC.** An attractive, lightly toned Gem, this coin displays shades of orange, red, forest-green, and pale olive-green on both sides. The nicely struck piece displays lovely eye appeal and exhibits minimal abrasions. Population: 17 in 65, 8 finer (1/13). PCGS# 5637, NGC ID# 23YY, CoinPlex ID# BQU1904
- 3444 1905-S MS63 NGC. CAC.** The 1905-S Barber quarter claims a mintage of 1.8 million pieces, but few high-quality examples were saved for numismatic purposes. This attractive Select specimen displays well-detailed design elements and bright mint luster, with a few hints of pale gold toning. Census: 11 in 63, 30 finer (1/13). NGC ID# 23Z4, PCGS# 5641, CoinPlex ID# BQU1905S
- 3445 1906-O MS64 PCGS. CAC.** Attractively toned in shades of violet, champagne-gold, and gray, this pleasing Choice specimen features well-detailed design elements and ample mint luster, under the toning. Population: 37 in 64, 61 finer (1/13). PCGS# 5644, NGC ID# 23Z7, CoinPlex ID# BQU1906O

**3446 1907-D MS65 PCGS.** Circulated and lower Mint State 1907-D quarters are readily available, but higher Uncirculated coins are rare. The strike is good, though the fletchings are softly brought up. Occasional splashes of lavender, cobalt-blue, and golden-tan patina visit lightly marked and lustrous surfaces. Population: 11 in 65, 3 finer (1/13). PCGS# 5646, NGC ID# 23Z9, CoinPlex ID# BQU1907D

**3447 1908 MS66 PCGS.** This attractive Premium Gem displays well-detailed design elements and vibrant mint luster, with shades of sea-green and pinkish-gray toning. Population: 18 in 66, 2 finer (1/13). PCGS# 5649, NGC ID# 23ZC, CoinPlex ID# BQU1908

**3448 1910 MS65+ PCGS. CAC.** Vibrant satiny mint luster and sharply detailed design elements are the calling cards of this high-end Gem Barber quarter. The pleasing surfaces are blanketed in shades of champagne-gold toning. Population: 37 in 65 (1 in 65+), 21 finer (1/13). PCGS# 5657, NGC ID# 23ZL, CoinPlex ID# BQU1910

**3449 1911 MS65 PCGS.** Brilliant, richly lustrous surfaces provide this Gem with strong eye appeal. Small areas of golden toning appear on the obverse. Both sides exhibit a number of small wispy die cracks. Population: 41 in 65, 11 finer (1/13). PCGS# 5659, NGC ID# 23ZN, CoinPlex ID# BQU1911

#### Powder-Gray Gem 1913 Quarter Notable Condition Rarity

**3450 1913 MS65 NGC.** Both sides of this powder-gray 1913 Barber quarter show remarkably few abrasions (other than a couple of tiny ones on the cheek), with generous luster and faint pinkish-gold tinges. The strike is close to full, with weakness solely on the right (facing) shield corner. Seldom seen in finer grades, unsurprisingly so, given the mintage of less than a half-million pieces. Census: 8 in 65, 1 finer (1/13). NGC ID# 23ZU, PCGS# 5664, CoinPlex ID# BQU1913

**3451 1916-D MS65 PCGS.** Subtle sea-foam green, denim-blue, and tan highlights appear on this attractive Gem. The design elements exhibit bold detail on both sides. This is a lovely representative from the last issue of the Barber design. PCGS# 5674, NGC ID# 2426, CoinPlex ID# BQU1916D

**3452 1916-D MS65 PCGS. CAC.** Brilliant lustrous surfaces provide this Gem with excellent eye appeal. A small toning spot appears at the top of the branch on the reverse. Numerous wispy die cracks are visible. A number of minor surface marks on the obverse limited the grade on this attractive piece. PCGS# 5674, NGC ID# 2426, CoinPlex ID# BQU1916D

## PROOF BARBER QUARTERS

### Deep Cameo Gem Proof 1892 Quarter

**3453 1892 PR65 Deep Cameo PCGS. CAC.** Type Two Reverse. Ice-white motifs rise above the brilliant but darkly reflective fields. Though the 1892 has the highest proof mintage of the type, most specimens fail to exhibit the exemplary cameo contrast of the present Gem. Population: 8 in 65 Deep Cameo, 18 finer (1/13). PCGS# 95678, CoinPlex ID# BQP1892DC

**3454 1893 PR65 NGC.** Deep plum-mauve and navy-blue dominate the obverse. The reverse offers medium chestnut-gold and rose-red toning. A well struck and satiny Gem with no evident hairlines. Only 792 proofs were coined. NGC ID# 2428, PCGS# 5679, CoinPlex ID# BQP1893

**3455 1901 PR66 PCGS.** The portrait and eagle display significant frost and the fields exhibit flash, though PCGS has balked at a Cameo designation. Both borders offer multicolor toning, with rose-red, orange-gold, and navy-blue patina at the reverse periphery. PCGS# 5687, NGC ID# 242G, CoinPlex ID# BQP1901

**3456 1902 PR65 NGC. CAC.** Deeply mirrored fields display rich toning on both sides of this pleasing Gem. The colors include gold, ocean-blue, russet, lilac, and red. The hues are particularly vibrant on the reverse. This coin displays tremendous eye appeal. Census: 31 in 65, 53 finer (1/13). NGC ID# 242H, PCGS# 5688, CoinPlex ID# BQP1902

**3457 1903 PR65 Cameo PCGS. CAC.** Although both sides exhibit toning, the colors are more pronounced on the reverse and include shades of deep champagne-gold, bright aquamarine, teal, and russet. The obverse displays a light gold cast with splashes of russet at the outer edges. Brilliant surfaces and a sharp strike add to the visual appeal. Population: 14 in 65 (2 in 65+) Cameo, 29 finer (1/13). PCGS# 85689, CoinPlex ID# BQP1903CA

### 1906 Quarter, Fully Struck PR67

**3458 1906 PR67 PCGS.** Faint pastel-lemon toning evenly covers each side of this deeply mirrored proof striking. The surfaces are virtually flawless, and the strike details are fully brought up in all areas. A lovely, fully original type coin. Some scuffiness over the reverse arrows is actually on the PCGS holder, not on the coin. Population: 18 in 67, 2 finer (1/13).

*Ex: FUN Signature (Heritage, 1/2002), lot 6817; New York Signature (Heritage, 11/2003), lot 6253. PCGS# 5692, NGC ID# 242M, CoinPlex ID# BQP1906*

**1907 Barber Quarter, PR67 Cameo  
Sixth Lowest Proof Mintage**

- 3459 1907 PR67 Cameo NGC.** This impressive Barber quarter exhibits brilliant silver surfaces with splashes of delicate powder-blue toning on the obverse. The deeply mirrored fields provide a splendid backdrop to the lustrous and boldly defined devices of this Superb Gem Cameo proof. Census: 14 in 67 Cameo, 1 finer (1/13). PCGS# 85693, CoinPlex ID# BQP1907CA

**EARLY HALF DOLLARS**

- 3460 1795 2 Leaves VG10 PCGS. O-109, R.4.** The pearl-gray centers are bounded by peripheral sea-green and golden-brown. An unblemished example with clear legends and a few lightly defined left-side stars. PCGS# 6052, NGC ID# 240000000, CoinPlex ID# EHA1795

**VF25 1795 Half Dollar  
O-102, Two Leaves Reverse**

- 3461 1795 2 Leaves VF25 NGC. O-102, R.4.** Rich golden-brown and gunmetal-blue toning drapes this nicely defined early silver type coin. Liberty's curls exhibit considerable detail. Both sides are essentially unabraded except for two minor obverse rim nicks at 8:30 and 11:30. The high points display only trivial hairlines. NGC ID# 240000000, PCGS# 6052, CoinPlex ID# EHA1795

**1801 O-101 Half Dollar, VF30  
Prominent Reverse Die Defects**

- 3462 1801 VF30 PCGS. CAC. O-101, R.3.** Only two die marriages are known for the 1801 half dollars, representing the first appearance of the Heraldic Eagle reverse for this denomination. The O-101 is scarce and the O-102 is rare. This pleasing Choice VF specimen had golden-brown and iridescent toning, with scattered grade-consistent marks. PCGS# 6064, NGC ID# 24ED, CoinPlex ID# EHA1801

- 3463 1803 Large 3, Large Reverse Stars VF35 ANACS. O-103, R.3.** The sole Overton variety with both the Large 3 and Large Reverse Stars features. Ice-blue and caramel-gold toning alternates across this better date Choice VF Draped Bust half. Smooth save for one thin mark on the neck. NGC ID# 24EF, PCGS# 6066, CoinPlex ID# EHA1803

**Smooth AU 1803 Half Dollar  
O-101, Large 3, Small Reverse Stars**

- 3464 1803 Large 3, Small Reverse Stars AU50 NGC. O-101, R.3.** Autumn-gold and steel-gray enrich this well defined half dollar. Luster fills design elements such as the hair, legends, and stars. Both sides are surprisingly unabraded, though a small reverse rim nick at 7 o'clock is mentioned as an identifier. Minor adjustment marks (as made) are noted on the shield and reverse border. NGC ID# 24EF, PCGS# 6066, CoinPlex ID# EHA1803

**1803 O-104 Half Dollar, AU50  
Small 3**

- 3465 1803 Small 3 AU50 NGC. O-104, R.3.** The Small 3 date style lacks the upper serif on that digit. Clash marks are evident on the reverse. This still lustrous light silver-gray example has delicate peripheral lavender toning. The O-104 Small 3 variety is no rarer than any of the Large 3 varieties, but the latter date style has three individual die pairings, with only one for the Small 3. NGC ID# 24EF, PCGS# 6067, CoinPlex ID# EHA1803SM3

- 3466 1805 VF35 NGC. O-110, R.5.** Rich apple-green toning dominates the obverse border, leaving a window of brilliance at the center. The reverse has glimpses of deep lilac and blue-green near the rims. Minimally abraded. O-110 was struck later than O-111 through O-113, since the rim die break near star 8 is absent on the latter varieties despite sharing the same obverse die. NGC ID# 24EG, PCGS# 6069, CoinPlex ID# EHA1805

---

**1806 O-111a Half Dollar, XF40**

**6 Over Inverted 6**

**Intermediate Die State**

- 3467 1806 6 Over Inverted 6 XF40 PCGS. CAC. O-111a, R.4.** The inverted 6 beneath the final 6 is clearly visible on this piece, with a prominent rim break on the E of UNITED as frequently encountered. An intermediate die state before the second rim break developed over UN. This pleasing XF specimen has light silver-gray devices with deep gray-brown and gold fields. The drapery shows little detail with weakness in the right wing. PCGS# 6078, NGC ID# 24EL, CoinPlex ID# EHA18066OVRINV6

- 3468 1806 Pointed 6, Stem XF45 PCGS. O-119, R.3.** Golden-brown, navy-blue, and plum-red shades invigorate the peripheries of this otherwise slate-gray early half dollar. The strike shows occasional softness but remaining luster is ample and no marks are noticeable. PCGS# 6071, NGC ID# 24EJ, CoinPlex ID# EHA1806PTD6ST

- 3469 1807 Draped Bust XF40 NGC. O-110, R.2.** Cream-gray and almond-gold toning embrace this unmarked final-year Draped Bust half. Luster illuminates peripheral elements, though the curls and left (facing) wing display wear. NGC ID# 24EM, PCGS# 6079, CoinPlex ID# EHA1807DRAPE

---

**AU Draped Bust 1807 Half, O-105**

**Richly Patinated Obverse**

- 3470 1807 Draped Bust AU50 NGC. O-105, R.1.** Deep forest-green, lavender, and wheat-gold visits most of the obverse. The reverse is lightly toned though the borders show ice-blue and almond-gold. Glimpses of luster are plentiful and neither side displays any remotely noticeable abrasions. NGC ID# 24EM, PCGS# 6079, CoinPlex ID# EHA1807DRAPE

---

**BUST HALF DOLLARS**

- 3471 1807 Large Stars, 50 Over 20 VF30 PCGS. CAC. O-112, R.1.** A problem-free dusky stone-gray example of this popular Mint blunder. The working die engraver began to enter the denomination as 25 C before recognizing the mistake. Most of the 2 was effaced but the telltale upper left curve remains. PCGS# 6086, NGC ID# 24EN, CoinPlex ID# EHA1807CAP

- 3472 1807 Large Stars, 50 Over 20 AU50 NGC. O-112, R.1.** Deep cream-gray and powder-blue toning embraces this first year Capped Bust half. Satin luster encompasses peripheral elements, and marks are minimal save for a few small ticks on Liberty's neck. The 50 Over 20 blunder suggests the engraver briefly thought the reverse die was intended for the quarter denomination.  
*Ex: Dallas Signature (Heritage, 10/2008), lot 846, which realized \$2,645.* NGC ID# 24EN, PCGS# 6086, CoinPlex ID# EHA1807CAP

- 3473 1807 Capped Bust, Large Stars AU50 NGC. O-114, R.3.** This walnut-brown first-year Capped Bust half exhibits impressive design definition. Both sides appear unabraded, though moderate granularity is noted to the west of Liberty's ear. NGC ID# 24EN, PCGS# 6088, CoinPlex ID# EHA1807CAPLGST

- 3474 1808/7 XF45 NGC. O-101, R.1.** The serif of the undertype 7 is apparent above the 8, identifying the O-101 variety. This attractive Choice XF specimen retains much of its original design detail and mint luster, and the pleasing surfaces show light golden-brown and lavender toning. Census: 25 in 45, 75 finer (1/13). NGC ID# 24EP, PCGS# 6091, CoinPlex ID# EHA18087

---

**Near-Gem 1812 Half Dollar, O-103**

- 3475 1812 MS64 NGC. O-103, R.1.** Vertical die lines beneath the eagle's beak identify this Overton pairing. Dusky cream-gray and almond-gold toning blends across satiny, friction-free, and unblemished surfaces. The strike is precise except on the right-side stars. Though O-103 is relatively plentiful, this is an example unlikely to ever allow an upgrade. NGC ID# 24EW, PCGS# 6100, CoinPlex ID# EHA1812

- 3476 1817 AU50 PCGS. CAC. O-106a, R.4.** The "Single Leaf" variety. The reverse die was lapped, attenuating the upper leaf pair. The obverse is noteworthy for a bold "comet" die line behind the cap. This lightly circulated half dollar displays attractive jade-green, golden-brown, and lavender toning. PCGS# 6109, NGC ID# 24F6, CoinPlex ID# EHA1817

- 3477 1823 Broken 3 — Cleaning — PCGS Genuine. AU Details. O-101, R.3.** The Broken 3 is a *Guide Book* variety and significantly scarcer than the later die state, the Patched 3 O-101a. The present example is glossy and faintly hairlined but lacks visible marks. Light golden-brown toning attends protected areas. PCGS# 6132, NGC ID# 24FJ, CoinPlex ID# EHA1823BRK3

---

### Select 1823 Half Dollar, O-105

**3478 1823 MS63 PCGS. CAC. O-105, R.1.** This Overton marriage is readily attributed by the presence of a center dot inside the upper left shield border. The sharply struck surfaces exhibit unbroken cartwheel luster and richly blended walnut-brown and apple-green toning. Marks are confined to a faint trail of tiny ticks between star 2 and Liberty's neck curls. PCGS# 6131, NGC ID# 24FJ, CoinPlex ID# EHA1823

**3479 1826 MS62 PCGS. O-116a, R.1.** A lengthy peripheral reverse die crack helps identify the Overton marriage. This lustrous and evenly struck Bust half dollar appears unabraded and has only delicate golden toning. A trace of struck-in grease near star 13 is of no import. PCGS# 6143, NGC ID# 24FM, CoinPlex ID# EHA1826

**3480 1827 Square Base 2 MS61 NGC. O-112, R.2.** The obverse displays shades of gray from light to dark, while the more colorful reverse exhibits fire-red, apple-green, and rose-red toning. No marks are evident. Certified in a former generation holder. NGC ID# 24FN, PCGS# 6144, CoinPlex ID# EHA1827SQU2

**3481 1827 Square Base 2 MS63 NGC. CAC. O-106, R.2.** A principally cream-gray representative with light tan-gold and ice-blue toning at the margins. Void of noticeable marks, and luster illuminates design elements. NGC ID# 24FN, PCGS# 6144, CoinPlex ID# EHA1827SQU2

---

### Finest Certified O-129 1827 Half Dollar, MS64 Low Rarity-4 Variety

**3482 1827 Square Base 2 MS64 PCGS. O-129, Low R.4.** The Autumn 2012 revision of Stephen J. Herrman's roster lists four examples of O-129 atop the Condition Census, and we suspect that the two listings from Alpine's fixed price list represent the same coin. Thus, the present coin may be the single finest certified example of the O-129 variety, which Dr. Glenn Peterson identifies by a die break within the L in PLURIBUS. This is a lustrous near-Gem with smooth, clashed fields and rich jade-green, plum-mauve, and wheat-gold toning. PCGS# 6144, NGC ID# 24FN, CoinPlex ID# EHA1827SQU2

**3483 1828 Curl Base 2, No Knob MS62 PCGS. O-102, R.2.** A repunched N in UNITED helps identify the Overton variety. Delicate golden patina visits this lustrous half dollar. The strike is sharp except on the left-side stars. A slender mark passes through the beak. PCGS# 6148, NGC ID# 24FR, CoinPlex ID# EHA1828

**3484 1828 Curl Base 2, Knob MS61 PCGS. O-107, R.2.** Light to medium chestnut-gold and steel-gray adorn this lustrous Bust half dollar. The reverse toning is slightly deeper than on the obverse. Marks are absent save for a faint graze near the beak. Population: 3 in 61, 14 finer (1/13). PCGS# 6149, CoinPlex ID# EHA1828C2KNOB

**3485 1829 Small Letters MS62 NGC. O-112, R.1.** Cream-gray and honey-gold toning alternates across this lightly abraded Bust half dollar. A couple of upper obverse stars lack a full impression but the overall strike is bold. NGC ID# 24FS, PCGS# 6154, CoinPlex ID# EHA1829

---

### 1829 Half Dollar, MS64 O-105, Small Letters

**3486 1829 Small Letters MS64 PCGS. O-105, R.1.** Repunching on the upper arrow shaft promptly attributes this collectible Overton variety. The present satiny Choice half dollar displays medium golden-brown and olive-green toning. Minimally abraded and rarely encountered any finer. Population: 46 in 64 (1 in 64+), 19 finer (1/13). PCGS# 6154, NGC ID# 24FS, CoinPlex ID# EHA1829

**3487 1831 MS61 NGC. O-116, R.3.** Glimpses of walnut-brown and navy-blue are relegated to the margins of this dusky pearl-gray Mint State Bust half. No marks are noticeable and both sides teem with luster. A nondescript but moderately scarce Overton variety. NGC ID# 24FV, PCGS# 6159, CoinPlex ID# EHA1831

**3488 1832 Small Letters MS62 PCGS. O-110, R.1.** The "Spiked Cap" Overton variety with a small tine atop Liberty's cap. Rich dove-gray toning encompasses this satiny and nearly mark-free half dollar. Well struck at the centers with selected softness on the stars and the URI in PLURIBUS. PCGS# 6160, NGC ID# 24FW, CoinPlex ID# EHA1832SL

---

### Choice 1832 Half Dollar, O-116 Small Letters Reverse

**3489 1832 Small Letters MS64 NGC. O-116, R.3.** The apricot-gold fields are surrounded by lilac borders and devices. This satiny and carefully preserved near-Gem has satin luster and is sharply struck except for the upper right stars. The best identifier for the reverse die is the A in STATES, entered high and tilted to the right. NGC ID# 24FW, PCGS# 6160, CoinPlex ID# EHA1832SL

**3490 1833 MS63 PCGS. O-113, R.2.** Blended dove-gray and chocolate-brown toning encompasses this satiny and fully struck half dollar. The reverse appears devoid of contact and the obverse is nearly as smooth. PCGS# 6163, NGC ID# 24FX, CoinPlex ID# EHA1833

**3491 1836 Lettered Edge MS62 NGC. O-123, R.4.** A scarcer die marriage from the final year of the lettered edge 50 C type. Sea-green, chestnut-gold, and stone-gray adorn this lustrous and unmarked example. The strike is good aside from occasional peripheral softness. NGC ID# 24G2, PCGS# 6169, CoinPlex ID# EHA1836LE

## REEDED EDGE HALF DOLLAR

### Satiny Choice 1838 Half Dollar

**3492 1838 MS64 PCGS. GR-11, R.1.** Wheat-gold, dove-gray, and sea-green encompass this satiny Choice half dollar. Abrasions are absent save for a slender, minor mark near the profile. A good strike with precise centers and only infrequent incompleteness at the borders. Population: 40 in 64 (2 in 64+), 8 finer (1/13). PCGS# 6177, NGC ID# 24G5, CoinPlex ID# EHA1838RE

## SEATED HALF DOLLARS

**3493 1842 Medium Date, Large Letters NGC. WB-105, FS-301.** The date is clearly repunched south. The reverse has interesting die cracks and a rim break at 1:30. Toned almond-gold and steel-blue with moderate parallel roller marks (as made) on each side. NGC ID# 27ST, PCGS# 6239, CoinPlex ID# LHM1842

**3494 1846 6 Over Horizontal 6 XF45 NGC. CAC. WB-104, FS-301.** The "lazy" 6 on its side near the prominent 6 ranks as one of the more awkward Mint blunders of the era. A late die state with a retained die break over the NI in UNITED. Toned deep dove-gray with unobtrusive field marks. NGC ID# 24H6, PCGS# 6254, CoinPlex ID# LHM18466OVRHORIZ6

**3495 1846-O Tall Date AU50 NGC.** This lightly circulated AU example represents the scarce Tall Date variety. The design elements are well-detailed, with slight wear limited to the high points of the devices, and the lightly toned pink and gold surfaces show only minor abrasions. Census: 2 in 50, 11 finer (1/13). NGC ID# 24H9, PCGS# 6256, CoinPlex ID# LHM1846OTALLDT

### 1850 Seated Liberty Half Dollar, MS64 None Certified Finer at NGC

**3496 1850 MS64 NGC.** Dark shades of sea-green and golden-brown toning dominate the centers of this attractive Choice specimen, with areas of cobalt-blue at the peripheries. The design elements are sharply detailed and areas of prooflike reflectivity shine through the patina. Census: 17 in 64, 0 finer (1/13). NGC ID# 24HG, PCGS# 6264, CoinPlex ID# LHM1850

**3497 1853 Arrows and Rays AU58 NGC.** Delicate shades of pink and golden-tan toning accent the pleasing surfaces of this attractive near-Mint specimen. The design elements are well-detailed and the surfaces retain much original mint luster. The short-lived Arrows and Rays design is always in demand from type collectors. NGC ID# 24JJ, PCGS# 6275, CoinPlex ID# LHM1853ARRRAYS

**3498 1854-O Arrows MS62 PCGS. CAC.** Highly lustrous and moderately toned in streaks of chestnut-gold and ocean-blue toning. The fields display a few thin marks. A briefly struck design subtype. Certified in a first generation holder. PCGS# 6280, NGC ID# 24JM, CoinPlex ID# LHM1854OARR

**3499 1854-O Arrows MS63 PCGS.** An attractive Select example of the popular Arrows design, this coin displays sharply detailed design elements and lustrous surfaces, with hints of golden-tan and lavender toning. An extensive network of fine die cracks is evident on the obverse. PCGS# 6280, NGC ID# 24JM, CoinPlex ID# LHM1854OARR

**3500 1856-O MS62 PCGS. WB-104.** Light repunching is evident on the base of the 6 in the date. Not to be confused with the more dramatic WB-102, FS-301 variety. Medium tan-gold toning visits coruscating and unmarked surfaces. Well struck aside from the lower half of the eagle. PCGS# 6288, NGC ID# 24HP, CoinPlex ID# LHM1856O

**3501 1858 MS64 NGC.** Type One Reverse. Delicate almond-gold toning endows lustrous and smooth surfaces. A good strike except on the left (facing) claw. Clashed near the knees, as made. One small spot beneath star 8. Census: 37 in 64, 17 finer (1/13). NGC ID# 24HV, PCGS# 6293, CoinPlex ID# LHM1858

### Near-Gem 1860 Half Dollar Comprehensive Golden Toning

**3502 1860 MS64 PCGS. CAC.** Type Two Reverse. The dusky semireflective surfaces are generally golden-brown but display ocean-blue and lilac-red toning near the rims. Crisply struck and minimally abraded with impressive eye appeal. Very scarce in Uncirculated grades. Population: 15 in 64, 9 finer (12/12). PCGS# 6299, NGC ID# 24J3, CoinPlex ID# LHM1860

- 3503 1861-O S.S. Republic "CSA New Orleans Die Variety" Four-Coin Set NGC.** Set 19 of 50, per the NGC custom holder. Contains examples of (from left to right) **WB-102, WB-103, WB-104, and WB-103/104.** All show shipwreck effects, most obviously the piece to the right. Offered with informative disk, certificate of authenticity, and display case. (Total: 4 coins) NGC ID# 24J8, PCGS# 6303, CoinPlex ID# LHM1861O
- 3504 1861-O S.S. Republic "CSA Speared Olive Bud Set" Two-Coin Set NGC.** Set 49 of 50, per the NGC holder. Contains examples of **WB-104 and WB-103/104.** Piece on left has heavy seawater effect, coin on right brighter silver. In custom NGC holder and offered with certificate of authenticity, informative disk, and display case. (Total: 2 coins) NGC ID# 24J8, PCGS# 6303, CoinPlex ID# LHM1861O
- 3505 1872-CC VF30 PCGS. CAC.** A pleasing midrange example of an early Carson City half dollar with a mix of slate-blue and gold-gray shadings across each side. Overall detail is pleasing for a VF-range coin and marks are few. Population: 17 in 30, 79 finer (1/13). PCGS# 6334, NGC ID# 24K8, CoinPlex ID# LHM1872CC
- 3506 1872-CC XF45 NGC.** The Carson City half dollar of 1872 had the highest mintage of any issue from that Mint until 1875. It is the most available of the early No Arrows issues. This is a pleasing representative with light silver-gray surfaces with wisps of steel-blue toning along portions of the borders on both sides. Census: 13 in 45, 13 finer (1/13). NGC ID# 24K8, PCGS# 6334, CoinPlex ID# LHM1872CC
- 3507 1873-CC No Arrows VF35 PCGS.** Small CC. A gunmetal-gray example of this scarce Carson City issue. The E in LIBERTY is faint but the remainder of the legends are bold. No marks are of any consequence. Population: 12 in 35, 47 finer (1/13). PCGS# 6338, NGC ID# 24KC, CoinPlex ID# LHM1873CCNA
- 3508 1877 MS64 NGC.** This well-detailed Choice specimen shows just a touch of softness on the eagle's claws, with vibrant satiny mint luster under pleasing shades of lavender-gray and champagne-gold patina. Census: 50 in 64, 45 finer (1/13). NGC ID# 24KK, PCGS# 6355, CoinPlex ID# LHM1877
- 3509 1877 MS64 PCGS. CAC.** Type Two Reverse. A beautifully toned near-Gem. The obverse field is wheat-gold while the seated Liberty is sea-green and the periphery is cherry-red and aquamarine. The reverse has a lilac-red center bounded by bands of jade-green and lemon-gold. Population: 47 in 64, 39 finer (1/13). PCGS# 6355, NGC ID# 24KK, CoinPlex ID# LHM1877
- 3510 1878 MS64 NGC.** Sharply detailed design elements and satiny mint luster are the calling cards of this impressive Choice example, with attractive shades of champagne-gold toning accenting both sides. Census: 22 in 64 (1 in 64+), 8 finer (1/13). NGC ID# 24KN, PCGS# 6358, CoinPlex ID# LHM1878
- 3511 1879 XF45 PCGS.** Although both sides display an overall even light gray color, closer examination reveals attractive toning in shades of gold, russet, sea-green, sky-blue, and orange. A bold strike, even wear, and no marks worthy of mention add to the appeal of this pleasing example. PCGS# 6361, NGC ID# 24KS, CoinPlex ID# LHM1879
- 3512 1882 MS64 PCGS. CAC.** An exceptional Choice Mint State piece, this 1882 half dollar has prooflike fields and sharp design motifs beneath deep golden-brown and iridescent toning. Population: 23 in 64 (1 in 64+), 17 finer (1/13). PCGS# 6364, NGC ID# 24KV, CoinPlex ID# LHM1882

- 3513 1886 MS62 ANACS.** This semireflective business strike has thick patina, silver-gray over the interiors but gold to orange and blue at the margins. Lightly abraded, though the MS62 designation underrates its eye appeal. Housed in a small-format holder. NGC ID# 24KZ, PCGS# 6368, CoinPlex ID# LHM1886

## PROOF SEATED HALF DOLLARS

- 3514 1864 PR62 Cameo PCGS. CAC.** Attractive light golden-yellow toning covers both sides of this lovely example. Small, scattered splashes of gold and russet color appear on both sides. A few delicate field marks are present on this well-struck piece. Population: 4 in 62 Cameo, 25 finer (1/13). PCGS# 86418, CoinPlex ID# LHP1864CA

### 1866 Seated Half, Motto, PR64 Cameo Ideal First-Year Type Coin

- 3515 1866 Motto PR64 Cameo PCGS.** The 1866 Seated Liberty half dollar is an important issue for type purposes, representing the first year of the Motto design. This well-preserved Choice example displays sharply detailed icy design elements that contrast dramatically with the deeply mirrored fields. Hints of orange-gold toning visit the peripheries. Population: 13 in 64 (2 in 64+) Cameo, 6 finer (1/13). PCGS# 86424, CoinPlex ID# LHP1866MOTCA

### 1867 Seated Half, PR64+ Cameo Well-Contrasted Surfaces

- 3516 1867 PR64+ Cameo PCGS. CAC.** Much field-device contrast prevails on both sides of the near-Gem proof, a sharply struck coin with light copper-gold accents on the devices and near the rims. This piece offers excellent eye appeal despite the few light field hairlines that appear under a loupe. Population: 11 in 64 (2 in 64+) Cameo, 13 finer (1/13). PCGS# 86425, CoinPlex ID# LHP1867CA

**Gem Proof 1868 Seated Liberty Half  
Only One Finer Coin at PCGS**

- 3517 1868 PR65 PCGS. CAC.** This Gem 1868 half dollar is fully struck throughout and boasts superlative original patina, shade of electric-blue and pink dominating the rims with some silver color clinging to the centers. The reverse die shows the "minute doubling on STATES" and attenuated second and third shield stripes at the bottom that Breen mentions in the *Proof Encyclopedia*. A mere 600 pieces were minted. Population: 6 in 65, 1 finer (1/13). PCGS# 6426, NGC ID# 27U3, CoinPlex ID# LHP1868

- 3518 1869 PR64 PCGS.** This well-detailed Choice proof shows just a touch of softness on the eagle's claws, with attractive shades of cobalt-blue and champagne-gold toning blanketing the reflective fields. Population: 51 in 64 (1 in 64+), 16 finer (1/13). PCGS# 6427, NGC ID# 27U4, CoinPlex ID# LHP1869

- 3519 1871 PR62 Cameo PCGS.** A lovely example with brilliant silver surfaces, this Cameo proof has pleasing contrast with sharply defined design elements and mirrored fields. A hint of champagne toning heightens the eye appeal. Population: 4 in 62 Cameo, 15 finer (1/13). PCGS# 86429, CoinPlex ID# LHP1871CA

**1873 Half Dollar, PR65  
No Arrows at Date**

- 3520 1873 No Arrows PR65 PCGS. CAC.** Only 600 proof Seated Liberty half dollars were struck with the No Arrows design in 1873, all with a Closed 3 in the date. Examples in Gem condition are quite rare today. This delightful Gem displays well-detailed design elements and brightly reflective surfaces under shades of champagne-gold and cerulean-blue patina. Population: 17 in 65, 11 finer (1/13). PCGS# 6431, NGC ID# 27U8, CoinPlex ID# LHP1873NACL3

- 3521 1876 PR64 PCGS. FS-401.** Type One Reverse. Per *Cherrypickers'*, "the remnants of a C are evident in Liberty's neck. The style of the C is identical to that of a CC mintmark." Light honey patina graces crisply struck and nicely mirrored surfaces. PCGS# 6437, NGC ID# 27UA, CoinPlex ID# LHP1876

- 3522 1877 PR63 Cameo PCGS. CAC.** Type Two Reverse. This virtually brilliant specimen is exquisitely struck on all design features aside from the eagle's left (facing) ankle. The field to motif contrast is pronounced. A few wispy hairlines in the obverse field preclude an even higher grade. A mere 510 proof examples were struck. Population: 6 in 63 Cameo, 12 finer (1/13). PCGS# 86438, CoinPlex ID# LHP1877CA

- 3523 1878 PR64 PCGS.** Spectacular shades of golden-brown and cerulean-blue toning enhance the well-preserved surfaces of this attractive Choice specimen. The design elements are well-detailed and frosty and the fields are moderately reflective, under the patina. Population: 52 in 64, 17 finer (1/13). PCGS# 6439, NGC ID# 27UD, CoinPlex ID# LHP1878

- 3524 1879 PR63 NGC.** Type One Reverse. Intermingled shades of gold, russet, and steel-gray along with flecks of fuchsia, emerald and teal cover both sides of this example. The coin displays a crisp strike. Although surface marks are present as expected at this grade level, the toning largely obscures them. NGC ID# 27UE, PCGS# 6440, CoinPlex ID# LHP1879

- 3525 1879 PR63 PCGS.** Type One Reverse. Areas of golden color emerge from the gray-green patina that largely covers both sides. A small stain appears near 10 o'clock on the reverse. PCGS# 6440, NGC ID# 27UE, CoinPlex ID# LHP1879

**1879 Half Dollar, PR65  
Borderline Cameo Proof**

- 3526 1879 PR65 PCGS.** The obverse of this sharply detailed Gem proof has light gold and iridescent toning, while the reverse exhibits deep blue with hints of iridescence. Both sides have a hint of cameo contrast, insufficient to garner the Cameo designation. Population: 23 in 65 (1 in 65+), 16 finer (1/13). PCGS# 6440, NGC ID# 27UE, CoinPlex ID# LHP1879

**1880 Half Dollar, Deeply Toned PR65 Cameo**

- 3527 1880 PR65 Cameo NGC.** The gorgeous Gem Cameo proof exhibits deep blue and violet toning on each side with lighter centers. The excellent eye appeal of this piece trumps the faint hairlines and contact marks. Here is an excellent candidate for a Seated half dollar collection or type set. Census: 23 in 65 (3 in 65+) Cameo, 14 finer (1/13). PCGS# 86441, CoinPlex ID# LHP1880CA

- 3528 1881 PR62 Cameo PCGS.** The fields are deeply reflective on this example. Hints of peach toning appear on both sides. Hairlines in the field to the right of Liberty limited the grade of this well-struck piece. The bottom of the reverse displays several light spots. Population: 5 in 62 Cameo, 57 finer (1/13). PCGS# 86442, CoinPlex ID# LHP1881CA

- 3529 1881 PR63 Cameo PCGS.** Light gray patina overall with hints of gold. Contrast stands out through the toning, due more to the frost on Liberty's figure than the surrounding fields, which are pleasingly reflective but a trifle watery with a few post-striking disturbances. Population: 21 in 63 (1 in 63+) Cameo, 36 finer (1/13). PCGS# 86442, CoinPlex ID# LHP1881CA

- 3530 1882 PR62 Cameo NGC.** The design elements are sharply detailed and richly frosted, and the fields are deeply reflective, creating bold cameo contrast. Light pale gold toning blankets the pleasing surfaces that show only a few minor hairlines. Census: 15 in 62 Cameo, 58 finer (1/13). PCGS# 86443, CoinPlex ID# LHP1882CA

**1882 Half Dollar  
Beautifully Toned Gem Cameo Proof**

- 3531 1882 PR65 Cameo PCGS. CAC.** Beautiful patina on both sides of this Gem Cameo proof 1882 Seated half encompasses amber-gold and violet hues on the obverse and cobalt-blue and pinkish on the reverse, with sufficient field-device contrast despite the deep color. The full strike even further enhances the eye appeal. Population: 14 in 65 Cameo, 6 finer (1/13). PCGS# 86443, CoinPlex ID# LHP1882CA

**1883 Seated Liberty Half, PR66  
Attractively Toned Example**

- 3532 1883 PR66 PCGS.** Layers of champagne-gold and electric-blue patina cover the deeply reflective surfaces of this impressive Premium Gem proof. The design elements are sharply detailed, aside from the slightest touch of softness on the eagle's claws, and no mentionable distractions are evident. Population: 20 in 66 (7 in 66+), 1 finer (1/13). PCGS# 6444, NGC ID# 27UJ, CoinPlex ID# LHP1883

- 3533 1884 PR64 NGC.** This low-mintage date shows bright reflectivity in the fields and nearly brilliant surfaces except for a slight accent of golden at the margins. Sharply struck. NGC ID# 27UK, PCGS# 6445, CoinPlex ID# LHP1884

- 3534 1886 PR63 PCGS.** An impressive Select proof, this 1886 half dollar exhibits slight cameo contrast between the satiny, sharply defined devices and fully mirrored fields. Both sides are brilliant, save for delicate champagne toning. PCGS# 6447, NGC ID# 27UM, CoinPlex ID# LHP1886

- 3535 1890 PR63+ Ultra Cameo NGC.** "If only ..." How many times have each of us said that about a particular coin with a problem? But then, if this coin didn't have the longish scrape in the right obverse field, it would be one pricey item. As it is, the collector who can live with this defect, will be fortunate indeed. The surfaces show profound field-device contrast on each side. Each side is mostly brilliant with a thin ring of golden around the margins. Census: 1 in 63 (1 in 63+) Ultra Cameo, 10 finer (1/13). PCGS# 96451, CoinPlex ID# LHP1890DC

- 3536 1891 PR63 PCGS. CAC.** This final year Seated half displays iridescent apple-green, lemon-gold, and rose-red toning. The strike is good though slightly incomplete. A scant 600 proofs were issued. Certified in a green label holder. PCGS# 6452, NGC ID# 27UT, CoinPlex ID# LHP1891

**BARBER HALF DOLLARS**

- 3537 1892 MS64+ PCGS. CAC.** Brilliant satin surfaces with just a hint of color add to the visual appeal of this high-end near-Gem example. The coin displays attractive detail and minimal abrasions. A few wispy die cracks appear on the obverse at the date and the stars at right. PCGS# 6461, NGC ID# 24LF, CoinPlex ID# BHM1892

- 3538 1892-O MS62 ANACS.** A luminous and richly toned first-year Barber half dollar from New Orleans. Deep peach overtones prevail, though areas of slate-blue also are present. Softly struck but with surprisingly few marks for the assigned grade. Housed in a small-format ANACS holder. NGC ID# 24LG, PCGS# 6462, CoinPlex ID# BHM1892O

- 3539 1894-S MS64 NGC.** The pale-gray toning with hints of rose and pale-yellow does not disguise the attractive luster this piece possesses. In addition to the overall color, closer examination of the reverse reveals aquamarine, moss-green, plum, and orange. Census: 30 in 64, 7 finer (1/13). NGC ID# 24LR, PCGS# 6470, CoinPlex ID# BHM1894S

- 3540 1901-O — Improperly Cleaned — NGC Details. Unc.** The 1901-O has a relatively low mintage and is a better date in grades as low as VG. This Uncirculated example is typically struck and displays delicate hairlines on the portrait. Walnut-brown and blue-green toning is relegated to the borders. NGC ID# 24MD, PCGS# 6490, CoinPlex ID# BHM1901O

- 3541 1906 MS65 NGC.** Straw-gold and ice-blue tints illuminate this mildly prooflike and lightly abraded Philadelphia Gem. The reverse is close to pristine though the strike shows occasional softness. Census: 14 in 65, 0 finer (1/13). NGC ID# 24MU, PCGS# 6504, CoinPlex ID# BHM1906

**Gem 1906-O Barber Half Dollar  
Strong Visual Appeal**

- 3542 1906-O MS65 NGC.** The 1906-O Barber half dollar is usually seen with a weak strike, and attractive coins at the Gem level are decidedly rare. The present coin is a welcome exception, sharply struck throughout, with thick satiny mint luster. Rich red and lilac color enhances both sides. This specimen has intense visual appeal, uncommon on an O-mint coin of the era. Census: 6 in 65, 4 finer (1/13). NGC ID# 24MW, PCGS# 6506, CoinPlex ID# BHM1906O

- 3543 1906-S MS63 PCGS. CAC.** Attractive satin luster emanates from both sides of this lovely example. Rose-gray, sea-green, and golden-brown toning appears on both sides, primarily at the outer edges. The piece exhibits only a few scattered marks and displays lovely eye appeal. Population: 24 in 63, 60 finer (1/13). PCGS# 6507, NGC ID# 24MX, CoinPlex ID# BHM1906S

**3544 1907 MS64 PCGS. CAC.** Golden-brown and sea-green toning graces the peripheries of this otherwise brilliant Choice Barber half. Lustrous and splendidly preserved with slight inexactness of strike near the right shield corner. PCGS# 6508, NGC ID# 24MY, CoinPlex ID# BHM1907

**3545 1907-D MS64 PCGS.** Areas of russet, olive-green, and aqua-blue cover portions of this near Gem that displays rich satin luster. This is an attractive example of this popular second-year Denver issue. Population: 50 in 64 (2 in 64+), 32 finer (1/13). PCGS# 6509, NGC ID# 24MZ, CoinPlex ID# BHM1907D

**3546 1908-O MS64 PCGS. CAC.** A fully brilliant Choice Mint State New Orleans half dollar, this piece displays satiny silver luster, with only the faintest hints of toning. The strike is quite sharp for this issue. Population: 70 in 64, 63 finer (1/13). PCGS# 6514, NGC ID# 24N6, CoinPlex ID# BHM1908O

#### Border-Toned Select 1908-S Half Dollar

**3547 1908-S MS63 PCGS.** Silvery interiors give way to gold, orange, and midnight-blue patina dotted along the borders. Liberty's portrait has a single sizable abrasion on the cheek and a number of thinner faults, but the all-around eye appeal is solid thanks to swirling luster. Definition on the eagle's talons is above-average. Examples of this little-saved issue are elusive any finer. Population: 15 in 63, 31 finer (1/13). PCGS# 6515, NGC ID# 24N7, CoinPlex ID# BHM1908S

#### Choice Low-Mintage 1913 Half

**3548 1913 MS64 PCGS.** Branch mint Barber halves command the greatest collector attention, but an exception is made for the low mintage Philadelphia trio between 1913 and 1915. The present near-Gem offers lightly dappled honey-gold and stone-gray toning. Well preserved and lustrous with a typical strike on the fletchings. Certified in a green label holder. Population: 24 in 64, 17 finer (1/13). PCGS# 6527, NGC ID# 24NK, CoinPlex ID# BHM1913

**3549 1914 MS62 PCGS.** Bright and pale on the obverse with a slightly more subdued appearance on the peach-centered reverse. Well-defined, though several small nicks and slide marks affect Liberty's cheek. PCGS# 6530, NGC ID# 24NN, CoinPlex ID# BHM1914

## PROOF BARBER HALF DOLLARS

### 1895 Half Dollar, PR65 Cameo Important Proof Year

**3550 1895 PR65 Cameo NGC. CAC.** A delightful Gem Cameo proof, this 1895 is highly popular due to its famous Morgan dollar counterpart. This specimen exhibits light silver-gray surfaces with delicate gold toning near the borders, displaying prominent field-to-device contrast. Census: 10 in 65 Cameo, 37 finer (1/13). PCGS# 86542, CoinPlex ID# BHP1895CA

**3551 1902 PR64 PCGS.** An attractive light golden cast covers the highly reflective obverse of this sharply-struck near-Gem example. Large portions of the reverse are brilliant. Population: 68 in 64 (1 in 64+), 60 finer (1/13). PCGS# 6549, NGC ID# 24P6, CoinPlex ID# BHP1902

### 1902 Half Dollar, Lightly Toned Gem Proof

**3552 1902 PR65 PCGS.** Light, almost imperceptible patina of lilac and light gold covers both sides of this lovely Gem proof 1902 Barber half. There is little evident contrast on either side, but contact marks are also at a minimum. Trivial strike weakness on the right (facing) shield corner is more design flaw than distraction. Population: 29 in 65, 31 finer (1/13). PCGS# 6549, NGC ID# 24P6, CoinPlex ID# BHP1902

### Patinated PR66 1902 Half Dollar

**3553 1902 PR66 PCGS.** Dramatic plum-mauve, peach-gold, and forest-green consume this well struck and undisturbed Premium Gem. The reverse is die doubled, evident on the branch stem and the leaves above the H in HALF. Housed in a first generation holder. A stingy 777 proofs were issued. PCGS# 6549, NGC ID# 24P6, CoinPlex ID# BHP1902

**3554 1904 PR64 PCGS.** A colorful, fully struck, near-Gem. The patina is deep, with the obverse displaying pinkish-gold with emerald. The reverse includes shades of pink, lavender, and aqua. The brilliant centers surrounded with toning lead to tremendous eye appeal. Population: 80 in 64, 49 finer (1/13). PCGS# 6551, NGC ID# 24P8, CoinPlex ID# BHP1904

**3555 1910 PR64 NGC.** Pastel rose-red, sun-gold, and powder-blue shades embrace this nicely struck near-Gem. The fields are reflective despite the diverse palette of patina. One of only 551 proofs produced. Certified in a prior generation holder. NGC ID# 24PE, PCGS# 6557, CoinPlex ID# BHP1910

#### 1910 Half Dollar, PR65 Fifth Lowest Mintage

**3556 1910 PR65 PCGS.** The business strike 1910 Barber half dollars are elusive, and many collectors choose a proof instead. This issue has the fifth lowest business strike mintage and the fifth lowest proof mintage. The obverse of this Gem proof has gold and blue toning, with splashes of silver-white still visible, and the reverse has intense lemon-yellow and iridescent toning. Population: 15 in 65, 22 finer (1/13). PCGS# 6557, NGC ID# 24PE, CoinPlex ID# BHP1910

#### 1911 Half Dollar, PR65 Low-Mintage Proof Issue

**3557 1911 PR65 PCGS.** Rich forest-green, cobalt-blue, and tobacco-brown toning enriches this well-struck Choice proof. One spot is noted beneath the A in STATES. An impressive Gem from a low proof mintage of only 543 pieces, third lowest of the series. Population: 29 in 65, 23 finer (1/13). PCGS# 6558, NGC ID# 24PF, CoinPlex ID# BHP1911

## EARLY DOLLARS

### Fine Flowing Hair 1795 Dollar B-6, BB-25

**3558 1795 Flowing Hair, Three Leaves Fine 12 PCGS. B-6, BB-25, R.3.** Freckles of gunmetal-blue and russet-brown visit portions of the peripheries, but this Flowing Hair silver dollar is primarily ivory-gray. No abrasions are remotely consequential for the grade, and the faint obverse adjustment marks are of mint origin. PCGS# 6852, NGC ID# 24WZ, CoinPlex ID# EDO1795FH3LEAV

**3559 1795 Flowing Hair, Two Leaves — Improperly Cleaned — NGC Details. Good. B-1, BB-21, R.2.** A silver-gray and caramel-gold representative of the coveted Flowing Hair type. The obverse legends are bold and the stars are well outlined. STATES is readable and the other reverse legends are clear. Moderately hairlined and mildly granular with a number of small marks on the upper obverse field. NGC ID# 24WZ, PCGS# 6853, CoinPlex ID# EDO1795FH2LEAV

**3560 1795 Flowing Hair, Two Leaves — Repaired — NGC Details. VG. B-9, BB-13, R.4.** Bowers-Borckardt Die State II with prominent clash marks from the wings near the portrait. Liberty's neck appears to have been smoothed, and both sides are mildly granular from cleaning. Stone-white at the centers with dark gray toning at the borders. A better Bolender variety. NGC ID# 24WZ, PCGS# 6853, CoinPlex ID# EDO1795FH2LEAV

**3561 1795 Draped Bust, Centered — Scratch — Genuine PCGS. Fine. B-15, BB-52, R.2.** Bowers-Borckardt Die State IV. Generally pearl-gray though the borders are darkly toned. This early dollar is hairlined and has a thin scratch near the left stem of the wreath. A few minor pinscratches are on the lower right obverse quadrant and near the first S in STATES. The obverse has a small rim nick at 5 o'clock. PCGS# 6858, NGC ID# 24X2, CoinPlex ID# EDO1795DRAP

### XF Sharpness B-15, BB-52 Centered Draped Bust 1795 Dollar

**3562 1795 Draped Bust, Centered — Cleaning — PCGS Genuine. XF Details. B-15, BB-52, R.2.** Bowers-Borckardt Die State V. This first-year Draped Bust dollar has been dipped and appears stone-gray. The right obverse has a couple of thin abrasions, and minor mint-made adjustment marks appear on the obverse. The reverse has a faint thin mark near 3 o'clock. The wings and hair are well defined and show traces of luster. PCGS# 6858, NGC ID# 24X2, CoinPlex ID# EDO1795DRAP

- 3563 1795 Draped Bust, Off Center — Obverse Damage — NGC Details. VG. B-14, BB-51, R.2.** The first die marriage of the Draped Bust type. The present piece shows impressive detail for the VG level but is hairlined and has a number of tiny marks near the chin. There is a single small dig on Liberty's chest and a thin scratch on the right obverse field. An obverse edge flaw at 7:30 is mint-made. PCGS# 96858, CoinPlex ID# EDO1795DRAPOFFCENT

**VF30 1795 Draped Bust Dollar  
B-14, BB-51 Uncentered Bust**

- 3564 1795 Draped Bust, Off Center VF30 PCGS. B-14, BB-51, R.2.** Bowers-Borckardt Die State I. A deep stone-gray and steel-blue example of this well known *Guide Book* variety. The device punch for Liberty was entered off center on the obverse die, causing a crowded appearance on the left-side stars and legends. This midgrade representative is only lightly abraded and shows ample wing and hair definition. PCGS# 96858, CoinPlex ID# EDO1795DRAPOFFCENT

- 3565 1796 Small Date, Large Letters Good 6 NGC. B-4, BB-61, R.3.** Bowers-Borckardt Die State II. The gunmetal-gray surfaces display subtle rose-red and sky-blue tints when rotated beneath a light. Though this Small Eagle dollar performed its duty in commerce, all legends are bold except for LIBERTY, which is fully readable. No marks are of any significance. PCGS# 6860, CoinPlex ID# EDO1796SDLL

**1798 B-1, BB-82 Dollar, XF Details  
Small Eagle, 13 Stars**

- 3566 1798 Small Eagle, 13 Stars — Improperly Cleaned — NGC Details. XF. B-1, BB-82, R.3.** Light yellow and gray toning appears over the bright silver surfaces of this Small Eagle dollar. Both sides have a glossy appearance from cleaning, with minor handling marks that are expected for the grade and condition. NGC ID# 24X5, PCGS# 6867, CoinPlex ID# EDO1798SMEAG13STOBV

- 3567 1798 Large Eagle, Pointed 9, Four Berries Fine 15 NGC. B-8, BB-125, R.2.** Bowers-Borckardt Die State IV. The BB-125 variety is recognized by the pointed 9 in the date and the four berries in the branch on the reverse. This attractive Fine 15 specimen shows even wear on both sides, with pleasing gray patina and only minor abrasions. NGC ID# 24X6, PCGS# 6873, CoinPlex ID# EDO1798LGEAG

- 3568 1798 Large Eagle, Pointed 9 VF20 PCGS. B-24, BB-124, R.2.** Bowers-Borckardt Die State IV. Stone-white motifs contrast with deep gray fields. The upper-right reverse is lightly brought up, but the remainder of the design is well defined, particularly Liberty's curls. A pair of light thin marks noted near the profile. PCGS# 6873, NGC ID# 24X6, CoinPlex ID# EDO1798LGEAG

- 3569 1798 Large Eagle, Pointed 9 — Improperly Cleaned — NGC Details. VF. B-14, BB-122, R.3.** Bowers-Borckardt Die State IV. A stone-gray Heraldic Eagle dollar with dabs of chestnut-gold toning near the chin, bust tip, and obverse border at 2:30. Hairlined and a bit glossy but without consequential abrasions. NGC ID# 24X6, PCGS# 6873, CoinPlex ID# EDO1798LGEAG

- 3570 1798 Large Eagle, Pointed 9, Close Date — Improperly Cleaned — NGC Details. VF. B-27, BB-113, R.2.** This stone-gray representative exhibits hairlines but is devoid of visible abrasions. Liberty's hair is well defined. The reverse displays minor adjustment marks, as made. NGC ID# 24X6, PCGS# 6873, CoinPlex ID# EDO1798LGEAG

**Choice VF B-14, BB-122 1798 Dollar  
Heraldic Eagle, Pointed 9**

- 3571 1798 Large Eagle, Pointed 9 VF35 PCGS. B-14, BB-122, R.3.** Bowers-Borckardt Die State V. Rich blue-green, mauve-gray, and chestnut-gold shades encompass this Choice VF silver dollar. Glimmers of luster emerge from design crevices. Refreshingly free from abrasions, and the narrow lamination between the CA in AMERICA is of mint origin. PCGS# 6873, NGC ID# 24X6, CoinPlex ID# EDO1798LGEAG

**1798 B-27, BB-113 Dollar, XF40  
Usual Die State**

- 3572 1798 Large Eagle, Pointed 9 XF40 NGC. B-27, BB-113, R.2.** Likely the usual die state although the strike prevents viewing of the die cracks on each side. This light gray specimen has lighter silver-gray devices with deeper iridescent toning near the borders. An attractive example of a relatively plentiful die marriage. NGC ID# 24X6, PCGS# 6873, CoinPlex ID# EDO1798LGEAG

**XF 1798 Large Eagle Dollar**  
**Close Date, Pointed 9, B-27, BB-113**

- 3573** 1798 Large Eagle, Pointed 9, Close Date XF40 PCGS. B-27, BB-113, R.2. Bowers-Borckardt Die State III. This boldly detailed early silver dollar offers rich and consistent ocean-blue toning. The surfaces are minimally abraded and moderately granular. An early use of the long-lived obverse die, which later coined BB-114 through BB-119. PCGS# 6873, NGC ID# 24X6, CoinPlex ID# EDO1798LGEAG

**Heraldic Eagle 1798 Dollar, XF40**  
**Pointed 9, B-14, BB-122**

- 3574** 1798 Large Eagle, Pointed 9 XF40 NGC. CAC. B-14, BB-122, R.3. Bowers-Borckardt Die State IV. Tan-brown, powder-blue, and olive-gold embrace this dusky and nicely detailed early dollar. Crisscross adjustment marks are mint-made and confined to the central reverse. Study beneath a loupe fails to locate any mentionable detractions. NGC ID# 24X6, PCGS# 6873, CoinPlex ID# EDO1798LGEAG

**1798 Large Eagle Bust Dollar, VF35**  
**Late Die State Example**

- 3575** 1798 Large Eagle, Wide Date, Pointed 9 VF35 PCGS. B-12, BB-120, R.4. A lovely example that shows luster in the protected areas, even light silver-gray colors throughout and excellent surfaces for the grade. This is a terminal die state of the variety, with extensive die cracks on the lower obverse and portions of the legend on the reverse. The die cracks likely caused the lower drapery lines on Liberty to be very poorly struck, and the area just above the date lacks definition, and the opposing area on the reverse is also quite weak through most of the stars over the eagle's head. One for the die state specialist to long enjoy.

A small die crack extends vertically from the rim between the 79, another vertical crack is noted up through the first stars inner two points into the field toward the ribbon, another to one of Liberty's lower curls from the rim, and yet another to her bust from the rim. These cracks likely caused the very weak strike on Liberty's drapery lines and shoulder, but surrounding devices are quite sharp.

*Ex: Ft. Lauderdale FUN Signature (Heritage, 1/2005), lot 8152.*  
 PCGS# 6877, CoinPlex ID# EDO1798LGEAGWIDEDT

**Undisturbed XF Large Eagle 1798 Dollar**  
**Wide Date, B-23, BB-105**

- 3576** 1798 Large Eagle, Wide Date, Pointed 9 XF40 PCGS. B-23, BB-105, R.3. Bowers-Borckardt Die State III. Deep cream-gray toning blankets this uncommonly unabraded Heraldic Eagle silver dollar. The central and forehead curls show wear but the wings retain luster and design definition. A small planchet void on the rim at 11:30 is of mint origin. PCGS# 6877, CoinPlex ID# EDO1798LGEAGWIDEDT

- 3577** 1799 7x6 Stars VG8 ANACS. B-21, BB-169, R.3. Bowers-Borckardt Die State IV. This circulated but unmarked Heraldic Eagle dollar has bold peripheral legends, though only a few letters show within E PLURIBUS UNUM. Toned dove-gray and steel-blue with glimpses of chestnut-tan. NGC ID# 24X7, PCGS# 6878, CoinPlex ID# EDO1799

- 3578** 1799 7x6 Stars Fine 15 PCGS. B-12, BB-160, R.3. Bowers-Borckardt Die State III. Slate-gray and chestnut-gold shades embrace this lightly abraded Draped Bust collector coin. Much of E PLURIBUS UNUM is readable. Housed in a green label holder. PCGS# 6878, NGC ID# 24X7, CoinPlex ID# EDO1799

- 3579** 1799 7x6 Stars — Improperly Cleaned — NGC Details. VF. B-17, BB-164, R.2. Bowers-Borckardt Die State II. A deeply patinated Heraldic Eagle dollar that displays rose-red and sea-green undertones. The surfaces are glossy but surprisingly unabraded aside from a small tick on Liberty's neck. NGC ID# 24X7, PCGS# 6878, CoinPlex ID# EDO1799

**3580 1799 7x6 Stars — Obverse Scratched — NGC Details. VF. B-11, BB-161, R.3.** Bowers-Borckardt Die State III. A faint horizontal pincscratch, from Liberty's hair to the rim at 3 o'clock, is the source of the NGC notation but appears relatively inoffensive. Deep steel-gray and almond-gold toning embraces this 18th century silver dollar. One small obverse rim flaw, as made, at 2:30. NGC ID# 24X7, PCGS# 6878, CoinPlex ID# EDO1799

**3581 1799 7x6 Stars VF20 PCGS. B-16, BB-158, R.2.** Bowers-Borckardt Die State III. This Heraldic Eagle type coin is predominantly stone-gray though walnut-brown and sky-blue are also apparent. The upper reverse has faint mint-made roller marks and the lightly hairlined reverse has a small rim nick at 3 o'clock. PCGS# 6878, NGC ID# 24X7, CoinPlex ID# EDO1799

**3582 1799 7x6 Stars VF35 ANACS. B-11, BB-161, R.3.** Bowers-Borckardt Die State II. The intermediate die state with a heavy crack near the D in UNITED. A gunmetal-gray Heraldic silver dollar without any noticeable marks, though one small ding is on the obverse rim at 11 o'clock. NGC ID# 24X7, PCGS# 6878, CoinPlex ID# EDO1799

**1799 B-10, BB-163 Dollar, XF Details  
Shattered Reverse Die**

**3583 1799 7x6 Stars — Cleaning — PCGS. XF Details. B-10, BB-163, R.2.** The reverse has several die cracks in this late state, including a vertical crack from the border through the O in OF, thickening inside that letter. This rare die state is likely terminal for the variety as the reverse die was nearly unserviceable. Both sides show minor hairlines from cleaning with light gray surfaces and peripheral iridescent toning. PCGS# 6878, NGC ID# 24X7, CoinPlex ID# EDO1799

**3584 1800 Fine 12 NGC. B-13, BB-193, R.4.** Bowers-Borckardt Die State III. Deep steel-gray toning envelops this mildly granular and better variety early silver dollar. We note a mint-made lamination east of the eagle's tail and a couple of faded thin marks on Liberty's neck and the right obverse field. NGC ID# 24X9, PCGS# 6887, CoinPlex ID# EDO1800

**Choice VF 1800 Dollar  
B-8, BB-188**

**3585 1800 VF35 PCGS. B-8, BB-188, R.4.** Bowers-Borckardt Die State IV. Glimmers of luster are plentiful on this moderately circulated late Adams-era silver dollar. Light lavender and chestnut-brown toning drapes each side. Minor flan striations at 7 o'clock are as made, and a faded mark above obverse star 1 is of little consequence. PCGS# 6887, NGC ID# 24X9, CoinPlex ID# EDO1800

**AU Sharpness 1800 Silver Dollar  
Better B-5, BB-189 Variety**

**3586 1800 — Cleaning — PCGS Genuine. AU. B-5, BB-189, R.5.** Bowers-Borckardt Die State I. Likely among the sharpest examples of this very scarce Bolender die marriage. Honey-gold and powder-blue shades overlie the mildly bright stone-gray surfaces. Only a couple of inconsequential marks emerge beneath a loupe. PCGS# 6887, NGC ID# 24X9, CoinPlex ID# EDO1800

**Choice VF 1800 Dollar  
AMERICA1, B-19, BB-192**

**3587 1800 AMERICA1 VF35 PCGS. B-19, BB-192, R.2.** Bowers-Borckardt Die State I. A rare early die state without clash marks above the date. Well defined for the designated grade, and richly patinated golden-brown and gunmetal-blue. We note one thin mark in front of Liberty's neck and a slight reverse rim ding at 12 o'clock. PCGS# 6892, CoinPlex ID# EDO1800AMERICA1

**1800 B-15, BB-195 Dollar, XF45  
Scarce Die Marriage**

**3588 1800 10 Arrows XF45 PCGS. B-15, BB-195, R.4.** Although a couple other obverse dies are similar, this variety has star 1 farther from the hair curls than any other die of the year. A lovely example with light to medium natural gray color and exceptional eye appeal. The reverse has ten perfectly formed arrows, along with three arrowheads floating in the field, without shafts. Scattered die rust is evident at the upper reverse. A couple hidden marks in the wings are only visible upon careful inspection.  
*Ex: Dallas Signature (Heritage, 11/2005), lot 5102, which realized \$6,900.* PCGS# 6891, CoinPlex ID# EDO180010ARR

**3589 1800 12 Arrows VG8 NGC. B-17, BB-196, R.1.** Bowers-Borckardt Die State IV. The Bolender variety is readily attributed by a die scratch left of the 1 the date. Cream-white motifs contrast slightly with wheat-gold fields and lavender margins. Though circulated, this early dollar is problem-free. PCGS# 6890, CoinPlex ID# EDO180012ARR

**3590 1802 Narrow Date Fine 15 NGC. B-6, BB-241, R.1.** Bowers-Borckardt Die State III. Almond-gold toning visits the obverse, while the reverse field is lavender. The high points are ivory-gray. Both sides are smooth except for minor marks on the bust truncation. NGC ID# 24XB, PCGS# 6895, CoinPlex ID# EDO1802

**3591 1802 Narrow Date — Obverse Rim Damage — NGC Details. VF B-6, BB-241, R.1.** Bowers-Borckardt Die State III. A lavender-gray Draped Bust type coin. The obverse border has a ding at 3:30 and a faded scratch at 3 o'clock, but no other detractors are noted. NGC ID# 24XB, PCGS# 6895, CoinPlex ID# EDO1802

## SEATED DOLLARS

**3592 1840 XF45 PCGS.** Cobalt-blue and chestnut-gold shades encompass this lightly circulated introductory year Seated dollar. Devoid of distracting abrasions, and certified in a green label holder. PCGS# 6926, NGC ID# 24YA, CoinPlex ID# L\$M1840

1840 Seated Dollar, AU58  
First-Year Issue

**3593 1840 AU58 PCGS.** A trace of rub on this high points prevents a Mint State grade to this lovely first-year Seated Liberty silver dollar. Housed in a green-label PCGS holder, this near-Mint specimen has virtually full luster with brilliant surfaces and wisps of champagne toning. Population: 20 in 58, 30 finer (1/13). PCGS# 6926, NGC ID# 24YA, CoinPlex ID# L\$M1840

**3594 1841 AU53 PCGS. CAC.** A lightly rubbed but otherwise well-preserved example of an early Seated dollar. Scattered small digs are present on luminous surfaces with gold-gray, violet, and blue overtones. PCGS# 6927, NGC ID# 24YB, CoinPlex ID# L\$M1841

**3595 1842 AU58 NGC.** Shades of gray, lavender, and amber toning enhance the pleasing surfaces of this lightly circulated specimen. The design elements are well-detailed, with just a touch of high-point wear, and a significant amount of original mint luster clings to the devices. Census: 76 in 58, 70 finer (12/12). NGC ID# 24YC, PCGS# 6928, CoinPlex ID# L\$M1842

**3596 1843 AU55 PCGS.** The reverse remains brilliant though the obverse exhibits delicate honey patina. Luster illuminates the motifs and fills the legends. The strike is above average, and the only noticeable marks are on the upper reverse field. PCGS# 6929, NGC ID# 24YD, CoinPlex ID# L\$M1843

**3597 1844 AU50 PCGS.** Only a single die pair was used to strike the 20,000 business strikes, distinguished by a die doubled LIBERTY and myriad die lines (as made) on the central reverse. The stone-white surfaces are well defined and faintly hairlined. Housed in a green label holder. PCGS# 6930, NGC ID# 24YE, CoinPlex ID# L\$M1844

**3598 1845 XF45 NGC.** Deep tan-brown and gunmetal-gray toning blankets this low mintage Seated dollar. Lightly abraded overall, though we note a short reverse mark at 7:30 and small obverse rim dings at 5:30 and 8 o'clock. Encapsulated in a prior generation holder. NGC ID# 24YF, PCGS# 6931, CoinPlex ID# L\$M1845

**3599 1847 AU55 NGC.** Dusky gunmetal-gray and wheat-gold toning encompasses this No Motto silver dollar. We note a mildly granular streak on the upper obverse and a small obverse rim ding at 4 o'clock. NGC ID# 24YJ, PCGS# 6934, CoinPlex ID# L\$M1847

**3600 1849 MS60 ANACS.** Attractive shades of cerulean-blue and champagne-gold patina enhance the pleasing surfaces of this Mint State Seated dollar. The design elements are well-detailed and only minor contact marks are evident. From a mintage of 62,000 pieces, the 1849 is elusive in Mint State. NGC ID# 24YL, PCGS# 6936, CoinPlex ID# L\$M1849

1850-O Silver Dollar, AU53  
Second of Four O-Mint Issues

**3601 1850-O AU53 NGC.** The New Orleans Mint produced Seated silver dollars in just four years, 1846, 1850, 1859, and 1860. While the latter two are common issues in Mint State grades, the 1846 and 1850 are rare in higher grades. This attractive AU has light gray surfaces with splashes of darker toning near the obverse border, and pale blue on the reverse. NGC ID# 24YN, PCGS# 6938, CoinPlex ID# L\$M18500

**3602 1859-O MS61 NGC.** This pale and beautiful antebellum Seated dollar is ideal for reverse-up display. The obverse has virtually all of the choppy, grade-defining marks, while the reverse is impressively clean. NGC ID# 24YY, PCGS# 6947, CoinPlex ID# L\$M18590

**3603 1859-S VF20 PCGS.** An unusual survivor as a pre-Civil War San Francisco Seated dollar, this midrange example has a mix of blue and gold overtones against a light gray base. Several digs are noted in the fields, though the devices are relatively clean. PCGS# 6948, NGC ID# 24YZ, CoinPlex ID# L\$M1859S

**3604 1860-O MS61 PCGS.** Brilliant luster remains on both sides of this pre-Civil War New Orleans Mint representative. The design elements display bold detail. Subtle peach and crimson accents appear. The coin displays numerous abrasions, particularly on the obverse. PCGS# 6950, NGC ID# 24Z3, CoinPlex ID# L\$M18600

**3605 1860-O MS61 NGC.** The mint luster is typical for the issue with mint frost present over each side. Purportedly, a sealed Treasury bag of 1859-O and 1860-O Seated dollars was discovered in the early 1960s, and is the source for most remaining Uncirculated No Motto New Orleans dollars, explaining the numerous bagmarks that are generally present of surviving examples, as is the case with this piece. NGC ID# 24Z3, PCGS# 6950, CoinPlex ID# L\$M18600

**3606 1863 XF40 NGC.** Only light wear is evident on this low-mintage (27,200 pieces) Civil War date. Most detail is still intact on the devices and the pearl-gray surfaces are clean.  
*Ex: Stamford Signature (Heritage, 10/2010), lot 3798, which realized \$1,150.* NGC ID# 24Z6, PCGS# 6953, CoinPlex ID# L\$M1863

**1864 Seated Liberty Dollar, AU55  
Scarce Civil War Date**

**3607 1864 AU55 NGC.** The Philadelphia Mint struck a small total of 30,700 Liberty Seated dollars in 1864, in the waning days of the Civil War. This attractive Choice AU specimen retains much of its original mint luster and design detail, with a few hints of gold and amber toning. A scattering of minor abrasions on both sides is consistent with the grade. Census: 8 in 55, 34 finer (1/13). NGC ID# 24Z7, PCGS# 6954, CoinPlex ID# L\$M1864

**3608 1866 Motto VF35 PCGS. CAC.** A deeply toned Choice VF piece with deep blue and rose elements saturating medium-gray surfaces. Fingerprint patterns at the obverse margins add character to that side. PCGS# 6959, NGC ID# 24Z9, CoinPlex ID# L\$M1866

**3609 1868 XF45 PCGS.** A surprisingly lustrous piece with close to AU details but a number of choppy marks through the fields. Light gold and blue overtones enhance a pale gray base. Overall, a solid example of a postwar Seated dollar. PCGS# 6961, NGC ID# 24ZB, CoinPlex ID# L\$M1868

**3610 1869 AU53 NGC.** Most of the 1869 mintage was exported to the Orient where it was valued at its bullion content. The present example escaped that fate and shows only light circulation and a few obverse field abrasions. The obverse margin displays multicolor toning. Housed in a former generation holder. NGC ID# 24ZC, PCGS# 6962, CoinPlex ID# L\$M1869

**Rare VF30 1872-CC Dollar  
Mintage of 3,150 Pieces**

**3611 1872-CC VF30 PCGS.** Light chestnut patina overlies slate-gray surfaces. A problem-free midgrade example of this rare and desirable Carson City date, which has fewer survivors than any Morgan dollar business issue. There are no consequential marks. A scant 3,150 pieces were struck. Encased in a green label holder. PCGS# 6969, NGC ID# 24ZK, CoinPlex ID# L\$M1872CC

**PROOF SEATED DOLLARS**

**3612 1862 PR62 ANACS.** A luminous, deeply toned Civil War-era proof Seated dollar with rich blue-to-green shadings encompassing each side. Boldly impressed, though lightly hairlined in the fields with a handful of contact marks. NGC ID# 252G, PCGS# 7005, CoinPlex ID# L\$P1862

**3613 1866 Motto — Stained — NGC Details. Proof.** This sharply struck stone-gray specimen has a subdued obverse and a flashy but mildly granular reverse field. The obverse displays scattered small contact marks. A mere 725 proofs were produced. NGC ID# 252M, PCGS# 7014, CoinPlex ID# L\$P1866MOT

**1871 Seated Liberty Dollar, PR62 Cameo  
Spectacular Multicolor Toning**

**3614 1871 PR62 Cameo PCGS. CAC.** A dazzling display of golden-brown and cerulean-blue toning blankets the surfaces of this attractive Seated Liberty dollar. The fields are deeply mirrored and the design elements are sharply detailed and frosty, creating bold cameo contrast. A few minor contact marks in the left obverse field explain the grade. Population: 5 in 62 Cameo, 29 finer (1/13). PCGS# 87019, CoinPlex ID# L\$P1871CA

**TRADE DOLLARS**

**3615 1873 MS62 PCGS. CAC.** The upper obverse and lower reverse show strike weakness, as does some of the obverse periphery on this lustrous Mint State piece. Both sides exhibit an attractive blend of emerald and gold toning with considerable ivory luster on the reverse. PCGS# 7031, NGC ID# 252W, CoinPlex ID# T\$M1873

**1873-CC Trade Dollar, AU58  
Important Transitional Issue**

**3616 1873-CC AU58 PCGS.** The Carson City Mint began silver production in 1873 with the Seated Liberty design, and concluded the year with the Trade dollars. The transition, and the emphasis on striking large gold coins, means that both silver dollar issues are elusive. The Trade dollar mintage was 124,500 coins. Survivors are generally lightly circulated, with an average certified grade of AU50. This near-Mint specimen has light silver surfaces with pale champagne toning and reflective fields that host minimal abrasions. Population: 29 in 58 (1 in 58+), 40 finer (1/13). PCGS# 7032, NGC ID# 252X, CoinPlex ID# T\$M1873CC

**White 1875-CC Trade Dollar, MS62  
Type One Reverse**

- 3617 1875-CC MS62 NGC.** Type One Reverse with berry beneath claw. An untuned example of this popular Carson City issue. The satiny fields exhibit only minor marks. The strike is good though the eagle's right (facing) leg is incomplete. Mildly granular on the reverse field near the legs. Census: 41 in 62, 47 finer (1/13). NGC ID# 2535, PCGS# 7038, CoinPlex ID# T\$M1875CC

- 3618 1875-S MS61 PCGS. CAC.** Type One Reverse. Large S. Booming luster and light almond-gold toning ensure the eye appeal of this San Francisco Trade dollar. Field marks are moderate and both sides show parallel roller marks on the high points, as made. PCGS# 7039, NGC ID# 2536, CoinPlex ID# T\$M1875S

- 3619 1875-S MS62 PCGS.** Type One Reverse. Large S. A brilliant type coin with potent luster and minimal abrasions. Both sides exhibit parallel roller marks, as issued, though the strike is crisp except for the right (facing) claw. PCGS# 7039, NGC ID# 2536, CoinPlex ID# T\$M1875S

- 3620 1875-S MS62 NGC.** Closely examination under a glass reveals the expected blemishes and trivial scratches consistent with the grade of this brilliant and lustrous Mint State Trade dollar. NGC ID# 2536, PCGS# 7039, CoinPlex ID# T\$M1875S

**Choice 1875-S Trade Dollar  
Type One Reverse**

- 3621 1875-S MS64 NGC.** Type One Reverse. Large S. This highly lustrous and nearly brilliant Choice Trade dollar displays only minor field chatter. The overall strike is good though the hair and the eagle's right (facing) claw show incompleteness. Ex: *Long Beach Signature* (Heritage, 2/2001), lot 342. NGC ID# 2536, PCGS# 7039, CoinPlex ID# T\$M1875S

- 3622 1876-S MS62 NGC. CAC.** Type One Obverse, Type Two Reverse, Minute S. This thoroughly lustrous San Francisco silver type coin displays light chestnut-gold toning. Abrasions are minimal for the MS62 level. Minor roller marks (as coined) are noted on the reverse exergue and the upper obverse shows slight incompleteness of strike. NGC ID# 253B, PCGS# 7043, CoinPlex ID# T\$M1876S

- 3623 1876-S MS62 PCGS. CAC.** Type One Obverse and Reverse. Large S. This brilliant Trade dollar type coin has good luster and is well struck. Marks are surprisingly minor save for a small reed impression on the left obverse field. PCGS# 7043, NGC ID# 253B, CoinPlex ID# T\$M1876S

- 3624 1877 MS63 NGC.** This well-detailed Select specimen shows the typical softness on Liberty's head and some of the stars, and some feather detail has been lost on the eagle due to excessive die polishing. The pleasing surfaces are brightly reflective and show hints of champagne-gold patina. Census: 49 in 63, 72 finer (1/13). NGC ID# 253C, PCGS# 7044, CoinPlex ID# T\$M1877

**1877-CC Trade Dollar, MS61  
Just One-Half Million Struck**

- 3625 1877-CC MS61 PCGS.** Although scattered marks appear on each side, this Mint State Carson City Trade dollar offers excellent eye appeal with its brilliant silver luster and untuned surfaces. The fields are reflective and nearly prooflike. A sharp impression. Population: 6 in 61, 70 finer (1/13). PCGS# 7045, NGC ID# 253D, CoinPlex ID# T\$M1877CC

- 3626 1878-S MS64 NGC.** A dazzling near-Gem, this piece exhibits a semiprooflike obverse and a lustrous reverse. The strike is intricate throughout, and the light golden toning only adds to the eye appeal. Minor surface marks limited the grade of this lovely example. Census: 66 in 64 (2 in 64+), 39 finer (1/13). From *The Fenn Family Collection*. NGC ID# 253G, PCGS# 7048, CoinPlex ID# T\$M1878S

**PROOF TRADE DOLLARS**

**1873 Trade Dollar, PR62 Cameo  
First Year of Denomination**

- 3627 1873 PR62 Cameo PCGS.** The Trade dollar was introduced in 1873, and a nominal proof mintage of 865 pieces was accomplished. This attractive specimen is sharply detailed on the obverse, but a touch of the typical softness shows on the eagle's leg on the reverse. The design elements are richly frosted and show bold cameo contrast with the mirrored fields. A few minor hairlines explain the grade. Population: 9 in 62 Cameo, 23 finer (1/13). PCGS# 87053, CoinPlex ID# T\$P1873CA

- 3628 1874 PR55 PCGS.** This lightly circulated proof Trade dollar is darkly toned in shades of bluish-gray and golden-brown, with well-detailed design elements and a few traces of reflectivity beneath the patina. From a low proof mintage of 700 pieces. PCGS# 7054, NGC ID# 27YK, CoinPlex ID# T\$P1874

**1874 Trade Dollar, PR64 Cameo  
Elusive With Contrast**

- 3629 1874 PR64 Cameo PCGS.** The second year of Trade dollar production saw a proof mintage of only 700 coins, and those pieces seldom display any degree of contrast. This example has delicate champagne toning over brilliant silver surfaces with a high degree of field-to-device contrast that is reminiscent of some Deep Cameo specimens. Population: 15 in 64 Cameo, 4 finer (1/13). PCGS# 87054, CoinPlex ID# T\$P1874CA

**Select Proof 1874 Trade Dollar  
Very Rare Deep Cameo Specimen**

- 3630 1874 PR63 Deep Cameo PCGS.** Only 700 proof Trade dollars were struck in 1874, and the survival rate for this issue is less than optimal. Only a handful of survivors display the quality and appeal of the present coin, with well-detailed design elements that show just a touch of softness on the eagle's leg, and deeply reflective fields that contrast boldly with the frosty devices. Population: 2 in 63 Deep Cameo, 4 finer (1/13). PCGS# 97054, CoinPlex ID# T\$P1874DC

- 3631 1875 PR62 PCGS.** Type One Reverse. This brilliant proof Trade dollar exhibits obvious cameo contrast, but is undesignated as such due to its green label holder. The fields exhibit wispy hairlines commensurate with the grade.  
*Ex: Denver Signature (Heritage, 8/2006), lot 3782, which realized \$2,070. PCGS# 7055, NGC ID# 27YL, CoinPlex ID# T\$P1875*

**1875 Trade Dollar, PR64 Cameo  
Elusive Trade Dollar Issue**

- 3632 1875 PR64 Cameo PCGS. CAC.** Type One Reverse. Business strikes of this issue are rare, and proofs are in high demand. This Choice Cameo proof has light champagne toning over deep mirrored fields and fully lustrous devices, exhibiting strong contrast. Population: 18 in 64 (1 in 64+) Cameo, 5 finer (1/13). PCGS# 87055, CoinPlex ID# T\$P1875CA

- 3633 1875 PR63 Deep Cameo PCGS. CAC.** Type One Reverse. The 1875 Trade dollar is a rarity as a business strike, increasing demand for proofs. This Select Deep Cameo proof has brilliant silver surfaces with scattered, grade-consistent marks. The design motifs are crisp and the contrast is outstanding. Population: 2 in 63 Deep Cameo, 8 finer (1/13). PCGS# 97055, CoinPlex ID# T\$P1875DC

- 3634 1877 PR61 Cameo PCGS.** Brilliant and well struck with frosty motifs and hairlined fields. The reverse is lightly die doubled, most evident on UNUM. At 510 pieces, the 1877 has the lowest proof mintage of the type, excluding the extremely rare 1884 and 1885 dates that emerged from the William Idler estate. PCGS# 87057, CoinPlex ID# T\$P1877CA

**1877 PR62 Cameo Trade Dollar  
Strong Field-Device Contrast**

- 3635 1877 PR62 Cameo PCGS.** Even more crisply struck than expected, with razor-sharp definition apparent on virtually every design element, including the dentils. Strong cameo contrast is evident on both sides, with frosted white devices set against the illimitable reflectivity of jet-black fields. Faint cloudiness and a few wispy hairlines in the fields define the numerical grade of this pleasing proof specimen.  
*Ex: Long Beach Signature (Heritage, 2/2007), lot 3723. PCGS# 87057, CoinPlex ID# T\$P1877CA*

**1877 Trade Dollar, PR62 Deep Cameo  
Limited Proof Mintage**

- 3636 1877 PR62 Deep Cameo PCGS.** Although a few hairlines and contact marks limit the grade, this amazing piece has impressive field-to-device contrast with delicate peripheral gold and iridescent toning, especially on the obverse. Only 510 proofs were coined in 1877, the lowest proof production of the series, save for the ultra-rare 1884 and 1885 proofs. Population: 1 in 62 Deep Cameo, 10 finer (1/13). PCGS# 97057, CoinPlex ID# T\$P1877DC

1881 Trade Dollar, PR62  
960 Proofs Minted

- 3637 1881 PR62 PCGS. An important entrant in the series of proof-only Trade dollars that were minted in Philadelphia from 1878 to 1885. There was no need for Trade dollars after the start of the Morgan series, and the proof series satisfied a limited collector demand. This example has nicely mirrored surfaces with splashes of light gold toning and mild contrast. PCGS# 7061, NGC ID# 27YT, CoinPlex ID# T\$P1881

Select Proof 1881 Trade Dollar  
Undesignated Cameo Contrast

- 3638 1881 PR63 PCGS. CAC. Cameo frost is obvious throughout both sides, but the coin is undesignated as such as it resides in a first generation holder. Well struck and flashy with delicate gold patina. The collector fad of proof-only Trade dollars crested in 1880 but diminished by 1881, when only 960 proofs were issued. PCGS# 7061, NGC ID# 27YT, CoinPlex ID# T\$P1881

Choice Proof 1881 Trade Dollar  
Bold Cameo Specimen

- 3639 1881 PR64 Cameo PCGS. Many 1881 proof Trade dollars are weakly struck on Liberty's head and the upper stars, but this impressive Choice example is sharply detailed throughout. The fields are brightly reflective, with hints of golden-tan and amber toning, primarily on the reverse. The frosty devices provide bold cameo contrast. PCGS# 87061, CoinPlex ID# T\$P1881CA

### COLONIAL

#### Fine Details 1739 Higley Copper Broad Axe Reverse, W-8265

**3700** 1739 Higley Copper, Broad Axe — Damage or Tooling — PCGS Genuine. Fine. Friedus 3.2-D, W-8265, R.7. Ex: Norweb. 127.8 gm, 29.6mm per its Norweb auction appearance. The Bowers Colonial Encyclopedia lists W-8265 as URS-4 (five to eight known). We are aware of seven examples:

1. "VF or better." Col. E.H.R. Green; Mayflower, 5/1957, lot 1628; Herbert M. Oechsner Collection (Stack's, 9/1988), lot 972.
2. VF20 PCGS. Henry Da Costa Gomez Collection, Part Two (Stack's, 6/2004), lot 4004; Long Beach Signature (Heritage, 5/2008), lot 2106, which realized \$92,000.
3. Fine Details. Norweb Collection, Part I (Bowers and Merena, 10/1987), lot 1240. The present lot.
4. Good. Charles Ira Bushnell; Garrett Collection, Part III (Bowers & Ruddy), 10/1980, lot 1307.
5. Good 4 PCGS. Robert Prann Collection (Numismatic Gallery, 8/1947), lot 579; French's, 1969; John "Jack" Royse Collection; Baltimore Auction (Stack's-Bowers, 11/2011), lot 6017.
6. Andrew C. Zabriskie Collection (Henry Chapman, 6/1909), lot 41; Eric P. Newman.
7. Connecticut State Library.

Samuel Higby, a medical doctor who graduated from Yale College, operated a copper mine near Granby, Connecticut. Higby is associated with various very rare copper issues, the earliest of which is dated 1737. Since Higby died on a ship voyage in May 1737, he could not have made the present lot, dated 1739. Probably, his son John was responsible for several Higby varieties, including W-8265.

The first Higby issues feature three hammers on the reverse, which refer to smith operations at the copper mine. Later varieties replace the hammers with a single axe and a motto of perseverance: I CUT MY WAY THROUGH. The obverse legends also evolved, from a definitive declaration of value as threepence, to the more conditional VALUE ME AS YOU PLEASE.

This is an important representative of the extremely rare W-8265 variety. The deer and axe types are clear, as is the denomination. The date, CUT MY WAY, and VALUE ME are readable. The dark brown fields are evenly granular and contrast with tan-brown devices. The right obverse has a couple of tiny pits, and close examination reveals a few pinscratches on each side near the borders, from an attempt to remove verdigris. Given the rarity of the variety, any example would be a highlight of an advanced Early American collection. Listed on page 49 of the 2013 *Guide Book*. PCGS# 219

## HALF CENT

### Key Date 1802/0 C-2 Half Cent

- 3701** 1802/0 Reverse of 1802 Fine 12 PCGS. C-2, B-3, R.3. Overdate obverse with the new style reverse identified by a double terminal leaf pair on the right branch. One of two overdates in the Draped Bust series of half cents, this issue is considered a key date for the type, and among all business strike half cents. The present walnut-brown half cent is smooth aside from one thin line each on the forehead and between the LF in HALF. Our EAC grade Good 7.  
Ex: *St. Louis Central States (Heritage, 5/2007)*, lot 95, which realized \$3,162.50. PCGS# 1057, NGC ID# 222D, CoinPlex ID# HFC1802OVR0R1802BN

## PROOF CLASSIC HEAD HALF CENT

### 1836 Original Half Cent, PR64 Red and Brown Deeply Reflective and Boldly Struck

- 3702** 1836 PR64 Red and Brown NGC. B-1, R.5. A rare proof half cent issue with originals distinguished from first restrikes by the absence of buckling in the center of the obverse. The fields are nicely mirrored and the devices are all intricately detailed, as seen only on proofs of the Classic Head design. The surfaces display ruby-red and orange with elements of powder-blue patina near the borders. A few faint marks near the date and Liberty's jaw account for the grade. Our EAC grade PR63.  
Ex: *St. Louis Central States (Heritage, 5/2005)*, lot 5070, which realized \$7,475; *FUN Signature (Heritage, 1/2009)*, lot 3570. PCGS# 1208, CoinPlex ID# HFP1836ORIGRB

## PROOF BRAIDED HAIR HALF CENTS

### 1850 Half Cent, PR63 Brown Seldom-Seen Proof Striking

- 3703** 1850 PR63 Brown PCGS. B-1, R.6. The only known dies. From an unknown, but undoubtedly small proof mintage, the 1850 proof half cent is extremely rare in PR63 Brown today. Currently, PCGS has certified only three examples in PR63 Brown, with three finer; while NGC has graded a single specimen in this grade, with none finer in the Brown designation(4/10). The present coin displays exquisite striking details, with hints of original red color mixed with attractive chocolate brown. Our EAC grade PR60.  
Ex: *Long Beach Signature (Heritage, 6/2010)*, lot 49. PCGS# 1311, NGC ID# 26ZP, CoinPlex ID# HFP1850BN

### Elusive First Restrike 1852 Half Cent B-2, PR64 Red and Brown

- 3704** 1852 Restrike, Small Berries PR64 Red and Brown PCGS. First Restrike, B-2, R.4. Doubling on the T in CENT confirms this coin's First Restrike status. This example has a mix of blue-violet, umber, olive, and reddish-orange hues, the obverse with the cooler colors and the reverse showing generally warmer tones. Glossy and appealing. Our EAC grade PR60. Population: 4 in 64 Red and Brown, 6 finer (1/13). PCGS# 1318, NGC ID# 26ZT, CoinPlex ID# HFP1852ORIGRB

## LARGE CENTS

VF Sharpness 1793 Chain Cent  
Leaning R, S-3, AMERICA

- 3705** 1793 Chain AMERICA — Obverse Tooled — NGC Details. VF. S-3, B-4, Low R.3. Noyes Die State B/C, obverse clashed. This medium brown Chain cent has excellent eye appeal for the introductory and briefly issued type. All legends are bold and substantial hair definition is present. No field marks are remotely consequential, and unlike most survivors, there is no hint of corrosion. We note one slight rim ding near 6 o'clock on each side along with a couple of minor rim bruises near 10 o'clock on the obverse. The right obverse field shows subtle smoothing, as does the portrait near the ear. Overall, an important example of the desirable Chain type. Our EAC grade VG8. NGC ID# 223F, PCGS# 1341, CoinPlex ID# LGC1793CHAINAMERICABN

Bold VF30 1793 Wreath Cent  
S-11c, Lettered Edge

- 3706** 1793 Wreath Cent, Lettered Edge VF30 NGC. S-11c, B-16c, Low R.3. Noyes Die State B/A with prominent clash marks near the profile. The NGC holder allows inspection of the edge, including the sole leaf after DOLLAR. A pleasing golden-brown representative of the single-year, first-year Wreath type. The right side of the hair displays wear commensurate with the grade but traces of luster emerge from design recesses. Small mint-made planchet flaws are noted on the forehead, the final A in AMERICA, and the reverse border at 6:30. Verdigris is absent, and abrasions are incidental except for a single slender mark on the cheek. Our EAC grade Fine 12. NGC ID# 223J, PCGS# 1350, CoinPlex ID# LGC1793WREATHLEBN

Choice XF 1794 Cent, S-26  
Head of 1794, Late Die State

- 3707 1794 Head of 1794 XF45 NGC. S-26, B-16, R.2. Noyes Die State C/D with heavy radial crack at 10 o'clock on the reverse. The curls above the ear show wear but the remainder of the hair is sharp. The tan-brown surfaces are void of flan detractions or verdigris. Both sides are impressively unabraded save for a single thin faded mark on the obverse near 7:30. Our EAC grade VF30. NGC ID# 223P, PCGS# 901374, CoinPlex ID# LGC1794HD1794BN

Bold AU53 1795 Cent  
Lettered Edge, S-74

- 3708 1795 Lettered Edge AU53 PCGS. S-74, B-2, Low R.4. A high grade example of the Liberty Cap design. The richly detailed devices are steel-gray. The lightly abraded fields are deep mahogany-brown. Mint gloss is evident on design elements. The reverse exhibits many delicate die cracks and clash marks, as coined. Our EAC grade XF40. PCGS# 1377, NGC ID# 223S, CoinPlex ID# LGC1795LEBN

Still-Lustrous AU58 1798/7 Cent  
High-Grade Example of S-152, B-13

- 3709 1798/7 AU58 NGC. S-152, B-13, R.2. Die State II, lightly cracked from rim to ribbon. The most accessible of three overdate varieties for the year, a class that has its own *Guide Book* entry, and the sole use of the Wide Overdate obverse. This example is high-end for its category and offers faint rosewood undercurrents, more prominently on the reverse, against a glossy, deep brown base. While the portrait and surrounding areas show a number of small abrasions and striking weakness is noted near the T in CENT, actual wear is surprisingly minimal and the remaining luster is rewarding. Our EAC grade XF40. NGC ID# 2245, PCGS# 1440, CoinPlex ID# LGC1798OVR7BN

1803 S-258 Cent, MS61 Brown  
Small Date, Large Fraction

- 3710 1803 Small Date, Large Fraction MS61 Brown NGC. S-258, B-17, R.1. Most Mint State 1803 large cents known today are from the S-258 die pair, a small hoard having been discovered some years ago. This still lustrous specimen combines light olive surfaces with considerable pale orange, especially on the reverse. Our EAC grade XF45. NGC ID# 224G, PCGS# 1485, CoinPlex ID# LGC1803SDLFBN

---

Smooth Near-Gem 1824 Cent, N-2

- 3711** 1824 MS64 Brown PCGS. N-2, R.1. Gunmetal-blue and walnut-brown toning embrace this semiprooflike near-Gem. Marks are absent aside from a single small tick on the nose. The strike is precise except on the uppermost stars. The 1824 did not participate in the Randall Hoard and is rare in Mint State. Our EAC grade AU55. Population: 6 in 64 Brown, 3 in 64 Red and Brown, 1 in 65 Brown (1/13). PCGS# 1636, NGC ID# 225D, CoinPlex ID# LGC1824BN

---

Small Wide Date 1828 Large Cent  
MS64 Brown Example of *Guide Book* Variant

- 3712** 1828 Small Wide Date MS64 Brown PCGS. N-10, R.1. The sole die pair bearing the Small Wide Date, relatively accessible in worn grades but distinctly elusive in the Mint State zone. For the variety, PCGS has graded only two MS64 Brown examples and no finer coins in the color category (1/13). This Choice example, though bluntly struck on the upper stars, has quality detail on Liberty's smooth portrait. The coin's appearance at most angles is of light- to medium-brown color, but aspects of rose-violet and orange appear when the piece is tilted into the light. A high-quality coin for the condition-conscious enthusiast. Our EAC grade MS60. PCGS# 1657, CoinPlex ID# LGC1828SWIDEDATEBN

---

PROOF LARGE CENT

1831 Cent, PR63 Brown  
Possibly the Finest Known

- 3713** 1831 PR63 Brown NGC. N-3, R.6 as a Proof. Large cent aficionado Denis Loring grades this coin PR64 and lists it at the top of his roster of 1831 N-3 cents, while our own grade is slightly more conservative. The existing population of 1831 proof large cents includes 30 to 35 coins, and about half of those are the N-3 die combination. This piece carries a reported census back to Homer Downing and before, although it was unplated in the 1952 ANA catalog of Downing's cents. It may have earlier been in the Dr. French Collection, according to the New Netherlands 1952 catalog, where the cataloger wrote: "Glittering light red Proof. Perfectly centered and well struck, with a gorgeous iridescent surface."

Both sides have mostly greenish-gold toning with considerable iridescence. A few tiny marks are present on each side, but they are entirely inconsequential. Here is an attractive 1831 proof large cent, perhaps the finest that survives. Our provenance is from Loring's notes. Our EAC grade PR63.

Ex: Henry C. Hines; Homer K. Downing (*New Netherlands*, 1952 ANA, 8/1952), lot 2176; Willard C. Blaisdell; R.E. "Ted" Naftzger; Eric J. Streiner; *Legend Collection of Proof large cents*; *American Numismatic Rarities* (3/2004), lot 323; *Fort Worth Signature* (Heritage, 3/2010), lot 180. NGC ID# 2263, PCGS# 1796, CoinPlex ID# LGP1831BN

## FLYING EAGLE CENT

MS66 1857 Flying Eagle Cent  
Snow-2, Type of 1856

**3714 1857 MS66 NGC. Snow-2b, FS-401b.** The “Type of 1856” variety with a square interior on the O in OF, as seen on the famous 1856 pattern. This outstanding Flying Eagle type coin has booming luster and is devoid of abrasions. Two small strike-throughs, as coined, are beneath the beak and the TE in STATES. Mostly sun-gold, as if copper instead of copper-nickel, with a slender streak of deeper mahogany at the central reverse. The strike is uncommonly sharp for the series with full definition on the cotton leaves and the extremities of the eagle. Housed in a prior generation holder. Census: 14 in 66, 0 finer (1/13). NGC ID# 2276, PCGS# 2016, CoinPlex ID# FEC1857

## INDIAN CENTS

1862 Copper-Nickel Cent, MS67  
Fully Struck With ‘Four Diamonds’

**3715 1862 MS67 PCGS.** The copper-nickel cents of 1859-1864 constitute an interesting and challenging subset of the entire Indian cent series. The 1859 is copper-nickel but technically a one-year subtype, due to the Laurel Wreath reverse. The Mint had a time striking these harder planchets in the new metallic composition beginning with the 1856 Flying Eagles, 12% nickel and 88% copper. For comparison, the near-contemporary Shield nickel and three cent nickel were each 25% nickel, 75% copper, while the old large cents were pure copper. This piece is one of the few fully struck pieces showing both full feather tips and a full “four diamonds” on the ribbon. It also boasts surfaces that are incredibly clean overall. Even though the 1862 is the most frequently seen copper-nickel cent, this piece is among the few finest survivors. The color is light reddish-tan, complementing generous luster and superb eye appeal. Population: 9 in 67, 0 finer (1/13). PCGS# 2064, NGC ID# 227H, CoinPlex ID# INC1862

**1877 Indian Cent, MS64 Red**  
**Very Scarce With Full Red Surfaces**

- 3716 1877 MS64 Red PCGS.** Only 852,500 pieces were struck of the 1877 Indian cent — the second lowest mintage of the series and by far the most difficult date to locate in all grades. In Uncirculated grades, the 1877 is a very challenging coin as the date is needed by so many collectors of this popular 19th century series. This piece has original orange-red mint luster with the occasional deeper spot of color here and there. The striking details are soft and somewhat irregular as the coin appears to have been struck from misaligned dies with softer definition on the lower obverse and upper reverse while the upper obverse and lower reverse are quite strong.  
*Ex: Dallas Signature (Heritage, 12/2004), lot 5094; ANA Signature (Heritage, 8/2004), lot 5176; Long Beach Signature (Heritage, 2/2005), lot 5230. PCGS# 2129, NGC ID# 2284, CoinPlex ID# INC1877RD*

**Eye-Catching 1887 Cent, MS66 Red**

- 3717 1887 MS66 Red PCGS.** Generous luster shows a range of reds and oranges on this Premium Gem. This boldly struck coin shows no spots of any significance and would make an ideal choice for the high-end series enthusiast or a type collector willing to go slightly off the beaten path. Population: 16 in 66 (1 in 66+) Red, 2 finer (1/13). PCGS# 2159, NGC ID# 228F, CoinPlex ID# INC1887RD

**1888/7 Indian Cent, Extremely Fine**  
**Rare in All Grades**

- 3718 1888/7 XF40 PCGS. CAC. FS-301, Snow-1.** In addition to the obvious diagnostic, the remains of a 7 appearing below the final 8 in the date, Fivaz and Stanton note in the *Cherrypickers' Guide*, "Most specimens have a small cud (die break) over UNITED. No coins above Very Good have been seen without this cud." More specifically, said cud appears above the E of UNITED on this example, a pleasing walnut-brown XF piece that shows the overdate plainly despite light wear. Both sides are smooth and generally unmarked, making this a most appealing representative. For overdated coins, the PCGS population is: 2 in XF40, with only 9 finer (1/13). PCGS# 2169, NGC ID# 228G, CoinPlex ID# INC188OVR87BN

---

1908 Indian Cent, MS67 Red  
Top PCGS-Graded Example

**3719 1908 MS67 Red PCGS.** The Philadelphia Mint struck in excess of 32 million Indian cents in 1908, during the year when San Francisco struck its first meager complement of S-mint Indians, to the tune of only 1.1 million pieces. Nonetheless, the present 1908 Philadelphia cent is the only example at PCGS to attain the lofty MS67 Red assessment. The surfaces boast a sharp strike save for some bluntness on the 19 of the date — likely a function of the large number struck — but this piece shows near-perfect preservation amid brick-red color and no mentionable distractions. PCGS# 2231, NGC ID# 2295, CoinPlex ID# INC1908RD

---

## LINCOLN CENTS

---

1909-S Lincoln Cent, MS67 Red  
Among the Few Finest Known

**3720 1909-S MS67 Red NGC.** The 1909-S VDB cent was saved in far greater numbers than its 1909-S counterpart without VDB initials, although both are elusive above the Gem level. This 1909-S Superb Gem Red cent — lacking the initials — is one of only three at NGC (1/13). Fabulous color, strong in the yellow range as 1909 cents often are, complements strong mint luster. This piece is sharply struck and abrasion-free. A couple of pinpoint carbon flecks can be found on the right side of the obverse, but magnification is needed. This key-date Lincoln should find numerous willing bidders. NGC ID# 22B4, PCGS# 2434, CoinPlex ID# LIC1909SRD

---

1992-D Close AM Cent, Reverse of 1993  
Vibrantly Colored MS64+ Red

- 3721 1992-D Close AM MS64+ Red PCGS. FS-901.** This variety, featuring a close AM in AMERICA and a wide gap between Frank Gasparro's initials and the Lincoln Memorial, was implemented formally in 1993 and used on proofs and business strikes at all mints. Denver "jumped the gun," so to speak, with a single pairing of a 1992-D Lincoln cent obverse and a Close AM Reverse of 1993. The luster on this example ranges from pale copper-gold to rich orange with areas that approach violet. Softness is noted at STATES OF, as sometimes seen, but the overall eye appeal is solid aside from a few flyspecks. PCGS# 83101, CoinPlex ID# LIC1992DWIDEAMRD

Red Gem FS-901 1992-D Cent  
Transitional Close AM Reverse

- 3722 1992-D Close AM MS65 Red PCGS. FS-901.** A transitional variety that has the reverse of 1993. The design subtype is identified by a close AM in AMERICA and distant FG initials from the Lincoln Memorial, and was used on all proof and business strikes for 1993. Apparently, a single reverse die intended to be paired with a 1993-D obverse instead was used to strike 1992-D cents, likely shortly prior to the date transition. This peach-red Gem has exemplary color and luster. STATES OF shows minor incompleteness, but the strike is otherwise sharp. Both sides are essentially pristine aside from a small tick on Lincoln's forehead. The single finest certified at PCGS (1/13). PCGS# 83101, CoinPlex ID# LIC1992DWIDEAMRD

## PROOF LINCOLN CENTS

### 1916 Cent, PR65 Brown Rare Matte Proof Issue

- 3723 **1916 PR65 Brown PCGS.** Other than the 1909 VDB, the 1916 is the rarest matte proof issue and more challenging than implied by its mintage of 1,050 pieces. The present needle-sharp Gem is void of contact and displays only microscopic carbon. Although designated as Brown, the surfaces retain substantial mahogany-red color. Population: 13 in 65 Brown, 3 finer (1/13). PCGS# 3324, NGC ID# 22KZ, CoinPlex ID# LIP1916BN

### 1950 Lincoln Cent, PR66 Red Deep Cameo

- 3724 **1950 PR66 Red Deep Cameo PCGS.** The modern-day key to the proof Lincoln, Wheat Ear Reverse cents, the 1950 cents saw a small mintage of 51,386 pieces, and few bear the Deep Cameo designation from PCGS — only 11 in this grade with one finer (1/13). This piece shows deeply contrasted surfaces with medium orange-gold color and absolutely no distractions on either side. PCGS# 93359, NGC ID# 22LA, CoinPlex ID# LIP1950RDDC

## PROOF TWO CENT PIECES

### 1865 Two Cent Piece, PR65 Red Cameo Rare with Full Mint Color

- 3725 **1865 PR65 Red Cameo PCGS.** Plain 5. A few carbon specks with a single small spot near the date limit the grade of this brilliant Gem Cameo proof. The obverse is mellow orange-gold while the reverse is richer orange. The strike is bold and the eye appeal is exceptional. Population: 4 in 65 Cameo, 2 finer (1/13). PCGS# 83629, CoinPlex ID# 2CP1865RDCA

### Outstanding PR66 Red Cameo 1866 Two Cent

- 3726 **1866 PR66 Red Cameo NGC.** A pale and beautiful third-year proof two cent coin with primarily copper-gold surfaces that show occasional sea-green accents. Frost is light but a cameo effect is present, particularly on the reverse, and the watery mirrors supply reflectivity. A few tiny flyspecks hide within the vertical stripes of the shield, but there are few flaws otherwise. Between the noteworthy color, the contrast, and the preservation, this is among the best proof 1866 two cent pieces out there, and the condition-conscious odd-denomination enthusiast should take a long look at this specimen. PCGS# 83632, CoinPlex ID# 2CP1866RDCA

## THREE CENT SILVER

1870 Three Cent Silver, MS66  
Low-Mintage Issue, Most Melted in 1873

- 3727 **1870 MS66 PCGS.** The 1870 three cent silver is a tiny-mintage date — 3,000 circulation strikes — that is elusive in any grade, but the present Premium Gem is among the finest graded, with one finer at PCGS (1/13). The surfaces are covered with a layer of pinkish-gold patina but show no mentionable marks. A bit of strike weakness is confined to the extreme center upper shield area on the obverse, and correspondingly on the lower reverse in the center of the bow, ribbon, and arrows device. Most of the business strikes from this era were melted in 1873. PCGS# 3691, NGC ID# 22ZL, CoinPlex ID# 3CS1870

## PROOF THREE CENT NICKELS

1865 Three Cent Nickel, PR66 Ultra Cameo  
Repunched Date

- 3728 **1865 PR66 Ultra Cameo NGC.** FS-305. With only 500 or so pieces minted, the 1865 proof is one of two key dates in the three cent nickel series, along with the 1877 which has a similar mintage. Few high grade proofs were preserved from this year, and even fewer coins are known with the stark cameo contrast seen on this piece. Essentially brilliant, there is just the faintest accent of golden color present over the denticles on the obverse. The date shows an undertype of all four digits to the left of the primary numerals. Census: 6 in 66, 2 finer (12/12). PCGS# 93761, CoinPlex ID# 3CP1865DC

1866 Three Cent Nickel, PR66 Deep Cameo  
Highly Reflective Fields

- 3729 **1866 PR66 Deep Cameo PCGS.** CAC. The best guess for the proof mintage of 1866 three cent nickels is 725 pieces, although few survive as nicely preserved or well-contrasted as this example. The surfaces are completely untoned. Some of the leaves on the reverse and parts of the bow ribbons are attenuated due to die lapping. Population: 9 in 66 Deep Cameo, 2 finer (1/13). PCGS# 93762, CoinPlex ID# 3CP1866DC

Eye-Catching 1875 Three Cent Nickel  
PR66 ★ Cameo

- 3730 **1875 PR66 ★ Cameo NGC.** This gorgeous Premium Gem Cameo proof scored its Star designation with its reverse, a smooth and clearly contrasted side with light apricot toning across much of it. The obverse too has a special gleam, though many collectors will have their eyes drawn to the (notably frosted) die defect on Liberty's cheek. PCGS# 83771, CoinPlex ID# 3CP1875CA

## PROOF SHIELD NICKELS

PR67 ★ 1871 Shield Nickel  
Obvious Obverse Contrast

- 3731 **1871 PR67 ★ NGC.** A stunningly gorgeous representative of the proof Shield nickel. The obverse, taken in isolation, would be an easy Cameo qualifier at NGC, and even the reverse has a degree of contrast. Gleaming reflectivity is largely nickel-white but shows faint elements of green-gold and olive that add touches of color. NGC has graded no PR68 or finer non-Cameo examples of the issue (1/13). NGC ID# 276M, PCGS# 3825, CoinPlex ID# SNP1871

---

**Superb Gem Proof 1874 Shield Nickel**  
**None Certified Finer**

- 3732 1874 PR67 NGC.** Razor-sharp definition is evident on all design elements and the fields of this spectacular Superb Gem are deeply reflective, creating tremendous eye appeal. Only a few hints of pale gold toning can be detected. From an estimated proof mintage of just 700 pieces. Census: 5 in 67, 0 finer (1/13). NGC ID# 276R, PCGS# 3828, CoinPlex ID# SNP1874

---

**LIBERTY NICKEL**

---

**Surprising Premium Gem 1912-S Nickel**  
**Lustrous and Distinctly Toned**

- 3733 1912-S MS66 NGC.** Non-silver, non-gold coinage was the exclusive purview of the main Mint in Philadelphia until the 20th century. The first branch mint minors were the 1908-S Indian cents. Denver joined in with the 1911-D Lincoln cent, while both Mints made their five-cent nickel debut in 1912, final official year of the Liberty nickel design.

This is an exquisitely preserved and conditionally rare Premium Gem survivor from the San Francisco issue, a noted key date with a mintage of only 238,000 pieces. The strike is typically soft on the left ear of corn but the stars have better detail. Toning is blue-to-violet at the margins with gold-to-peach interiors. NGC ID# 277R, PCGS# 3875, CoinPlex ID# LBN1912S

---

**BUFFALO NICKELS**

---

**Premium Gem 1914-S Buffalo Nickel**  
**Sharply Detailed, Attractively Toned**

- 3734 1914-S MS66 PCGS. CAC.** The 1914-S Buffalo nickel is not difficult to locate in lower grades, but it is rare at the MS66 level. This magnificent Premium Gem displays sharply detailed design elements, with fine definition on the bison's head and shoulders. The unmarked surfaces radiate vibrant mint luster, under attractive shades of violet and champagne-gold toning. Population: 30 in 66 (3 in 66+), 0 finer (1/13). PCGS# 3926, NGC ID# 22R6, CoinPlex ID# BFN1914S

---

**Rare Doubled Die Obverse 1916 Nickel**  
**Series Key, VG10**

- 3735 1916 Doubled Die Obverse VG10 NGC. CAC. FS-101.** Broad die doubling on the 6 in the date (and other nearby design elements, such as the feather tips) is obvious despite 50 points of wear. The 1916 DDO is considerably rarer than the 1918/7-D nickel, and is the key to a *Guide Book* collection of the series. This slate-gray example is unabraded aside from a minor thin line at 4:30 on the obverse. NGC ID# 2TSS, PCGS# 3931, CoinPlex ID# BFN1916DDO

---

**XF 1918/7-D Nickel, FS-101**  
**Green Label Holder**

- 3736** 1918/7-D XF40 PCGS. FS-101. Although discovered in 1931, the overdate remains very scarce and a key date in the Buffalo nickel series. The upper right corner of the 7 is sharp on this moderately circulated cream-gray example. Visible marks are absent, and the faint laminations on the reverse are mint-made and of little consequence. Housed in a green label holder.  
*Ex: Long Beach Signature (Heritage, 9/2003), lot 6151, which realized \$6,900. PCGS# 3939, NGC ID# 22RJ, CoinPlex ID# BFN19187D*

---

**1921-S Nickel, Lightly Toned Gem**  
**One of the Capstones to the Complete Set**

- 3737** 1921-S MS65 NGC. Gem examples of the 1921-S Buffalo nickel are among the capstones to the assembly of a complete set, one of the most popular in all U.S. numismatics. We thus believe that this coin will be the subject of much interest, showing a sharp strike far better than typical for the issue. There are no singular marks, and the surfaces display rich reddish-gold patina as one of its many attractions. A finer specimen would be quite difficult to obtain. Census: 34 in 65, 3 finer (1/13). NGC ID# 22RU, PCGS# 3948, CoinPlex ID# BFN1921S

---

**1928-S Buffalo Nickel, MS67**  
**Better Date in High Grade**

- 3738** 1928-S MS67 NGC. The 1928-S Buffalo nickel is a better date in high grade, from a mintage of 6.9 million pieces. Many lower-grade specimens were culled from circulation in the 1930s, when hoarding S-mint coins was popular, but Mint State examples with sharp details are seldom encountered in today's market. The present coin is a spectacular Superb Gem with sharply detailed design elements and vibrant mint luster on both sides. Mingled shades of ice-blue, champagne-gold, lime-green, and violet toning create a delightful play of colors. Even on close inspection, the pleasing surfaces reveal no mentionable distractions, and eye appeal is terrific. Census: 1 in 67, 0 finer (12/12). NGC ID# 22SD, PCGS# 3965, CoinPlex ID# BFN1928S

---

**Gem 1937-D Three-Legged Buffalo Nickel**  
**Bright Mint Luster, Subtly Toned**

**3739 1937-D Three-Legged MS65 PCGS. CAC. FS-901.** The FS-901 Cherrypickers' Guide designation, if one reads the relevant reference closely, is reserved for a "reverse variety, miscellaneous," i.e. not a doubled die reverse, for example. In fact, the 1937-D Three-Legged Buffalo is a die state variety, one of the few that are actively collected as such, and certainly one of the few to ever make it into the *Guide Book of United States Coins*. *Cherrypickers'* authors Bill Fivaz and J.T. Stanton also assign the Three-Legged Buffalo a I-5 Interest rating, the highest. They say, "A variety with a very high Interest Factor is in high demand, with several thousands of collectors desiring it." So, even though the authors estimate that from 4,000 to 8,000 examples survive, there may be as many or more collectors than that desiring to acquire an example.

The 1937-D Three-Legged is, nonetheless, not the only die state example that the series' many fans collect: The various Two Feathers varieties are also in the same category of die states. The *Cherrypickers'* explanation under the 1913-D Type One, Two Feathers, first in the series, is the same: "The obverse die was heavily polished, probably to remove clash marks. The result was a die with the innermost feather missing, hence the nickname 'Two Feathers.'" The authors comment further, "Recently more Two Feathers varieties have been found, creating a search for more while increasing interest in Buffalo nickels with abraded dies." Even though the authors mention increased interest in abraded dies, they assign the many Two Feathers varieties Interest and Liquidity factors of 3, meaning that they are far less in-demand and more thinly traded than the 1937-D Three-Legged.

This is one of the few Gems available of this conditionally elusive variety. The mint luster is satiny and unusually bright. Each side displays subtle shadings of pale golden and lilac, and as one would expect from a Gem, there are no noticeable abrasions. Population: 51 in 65 (2 in 65+), 6 finer (1/13).  
From *The Fenn Family Collection*. PCGS# 3982, NGC ID# 22SX, CoinPlex ID# BFN1937D3LEG

---

1937-D Buffalo Nickel, MS66  
Popular Three-Legged Variety  
None Certified Finer at NGC

**3740 1937-D Three-Legged MS66 PCGS. FS-901.** Although the popular Three-Legged Buffalo's name derives from the missing front left (facing) leg, curiously, the *hoof* on that leg is still present, despite the overeager die polishing that apparently created the variety. Despite the many bogus coins present in the marketplace — this variety should always be purchased certified, never raw — there are many other die diagnostics on each side that characterize examples of the genuine item.

The fifth edition, volume one of the *Cherrypickers' Guide* gives the Three-Legged Buffalo a ranking of 5 for Interest and Liquidity, the maximum, while assigning it a 14 on the Universal Rarity Scale. In other words, 4,001 to 8,000 examples survive in all conditions, yet it is nonetheless an issue with enduring popularity in any grade, one that readily changes hands and finds eager buyers.

The Three-Legged Buffalo is often found in grades of XF and AU, and even examples in the lower Mint State grade are seen with some regularity, up to the near-Gem level. Gem examples and the occasional Premium Gem, however, are conditionally quite rare, and when offered at auction they meet a host of potential buyers.

Heritage has been privileged to offer a number of top-grade examples of the Three-Legged Buffalo in recent auctions, MS65 and MS66 pieces certified by PCGS or NGC that have generally brought in the range from mid-five-figure prices up to \$86,000-plus for an MS66 PCGS example we offered in 2005. PCGS has seen a few examples in MS66 as their top grade, while NGC has certified three submissions in MS67, including one with the Star designation.

This is one of the finest-preserved examples we have handled of the Three-Legged variant. The surfaces glow with rich, satiny mint luster, and the strike details are uncommonly strong for an issue that is normally weak. Slight rose and lilac is seen over each side but does not impede the power of the underlying mint brilliance. Population: 6 in 66, 0 finer (12/12). PCGS# 3982, NGC ID# 22SX, CoinPlex ID# BFN1937D3LEG

## PROOF BUFFALO NICKELS

### Superb Gem Proof 1913 Type One Nickel Great Specimen of One-Off Design

- 3741 1913 Type One PR67 PCGS.** Any collector seeking an example of the proof 1913 Buffalo nickel, whether a type or date enthusiast, must confront an essential bottleneck: just 1,520 of the specimens were struck and fewer survive today. This Superb Gem example is magnificently preserved and intricately detailed with partial peach and apricot toning over light gray surfaces. Population: 47 in 67 (1 in 67+), 3 finer (1/13). PCGS# 3988, NGC ID# 278R, CoinPlex ID# BFP1913TY1

### 1936 Satin Finish Nickel, PR68 Essentially Perfect

- 3742 1936 Type One—Satin Finish PR68 PCGS.** An essentially perfect Satin Finish example of this first striking variant from 1936. Following the matte proof coins that were struck two decades earlier, the first 1936 proof nickels had a finish reminiscent of the earlier coins, although without the grainy appearance. Pinpoint striking details characterize this proof, and each side is covered with rich golden-rose and lilac toning. The strike is so bold, in fact, that thin guide lines are visible at the top and bottom of the date. A memorable Satin Finish nickel. Population: 30 in 68, 1 finer (1/13). PCGS# 3994, NGC ID# 278X, CoinPlex ID# BFP1936TY1SATIN

## JEFFERSON NICKEL

### 1961-D Nickel, MS64 Full Steps Important Strike Rarity

- 3743 1961-D MS64 Full Steps PCGS Secure.** Ex: Compradore Collection. An important strike rarity in the Jefferson nickel series, the 1961-D is seldom encountered with five or more visible steps leading up to the porch of Monticello. Both sides are satiny and fully lustrous with lovely champagne toning. Population: 2 in 64 Full Steps, 1 finer (1/13). PCGS# 84070, NGC ID# 22VB, CoinPlex ID# JFN1961DFS

## PROOF JEFFERSON NICKEL

### 1939 Reverse of 1938 Nickel, PR68 Gorgeous Two-Tone Patina

- 3744 1939 Reverse of 1938 PR68 NGC. CAC.** Most of the proof 1939 Jefferson nickels are found with the “wavy steps” Reverse of 1938, while the opposite is true for circulation strikes; most of them, perhaps 90%, are the Reverse of 1940. This 1939 Reverse of 1938, certified PR68 by NGC, is one of only two in this grade with none finer (1/13). Gorgeous pale ice-blue and gold toning alternates throughout both sides, and a small fleck at the top of the second L in MONTICELLO is noted. NGC ID# 279X, PCGS# 4176, CoinPlex ID# JFP1939

## EARLY HALF DIMES

### Famous 1792 Half Disme Judd-7, VG Details

- 3745** 1792 Half Disme, Judd-7, Pollock-7, R.4 — Damaged — NGC Details. VG. The 1792 half disme holds a unique place in U.S. coinage. It was a silver issue struck for circulation, but not at the First Philadelphia Mint, which did not open until 1793. Instead, it was coined in the basement of John Harper, a sawmaker who lived a short distance from the fledgling Mint. Numismatic legend has it that the obverse bust depicts First Lady Martha Washington, and that her silverware was the source of the bullion for the issue. It is more likely that the portrait is merely symbolic of Liberty, and that the bullion came from Spanish-American silver coin owned by George Washington, who referred to the issue in his November 6, 1792, State of the Union address. Approximately 1,500 pieces were struck, and survivors are coveted in all grades. The present silver-gray specimen has only a few small marks, but the surfaces are wavy and show uneven wear. The date is bold, as is the lower portrait, and the left reverse and right obverse. PCGS# 11020, CoinPlex ID# PAT1792J7

### Select 1795 Half Dime V-5, LM-8

- 3746** 1795 MS63 PCGS. V-5, LM-8, R.3. Among the more accessible 1795 half dime varieties and also one of the simplest to attribute: the obverse has a crack through the Y in LIBERTY and a star distant from the same, while the reverse has no berries in the area of the UN of UNITED. This high-quality example does not show the secondary crack branching off the main, which suggests an earlier die state. Peripheral definition is generally good, though adjustment marks affect the eagle and its detail. Both sides are unworn with warm luster under rich blue and green patina with hints of violet. PCGS# 4251, NGC ID# 22ZV, CoinPlex ID# EHD1795

### 1797 Draped Bust Half Dime, VF30 Rare V-3, LM-3 Die Pair

- 3747** 1797 16 Stars VF30 PCGS. CAC. V-3, LM-3, R.5. The 1797 half dimes exist with three distinctly different obverse layouts having 13 stars, 15 stars, and 16 stars. The 15 Stars coins were struck first from leftover 1796 dies, the 16 Stars coins were next, and finally the 13 Stars coins came last. This pleasing VF30 specimen has a blend of tan, gray, and steel surfaces with adequate detail for the grade and pleasing surfaces. Population: 4 in 30, 37 finer (1/13). From The Fenn Family Collection. PCGS# 4259, NGC ID# 22ZZ, CoinPlex ID# EHD179716ST

**Rare 13 Stars 1797 Half Dime  
V-1, LM-4, AU55**

- 3748** 1797 13 Stars AU55 NGC. V-1, LM-4, R.5. The 1797 half dime, last issue of the denomination for the 1700s, has three distinct obverse varieties listed in the *Guide Book* based on the number of stars surrounding Liberty's portrait. The 13 Stars variant is the most elusive and valuable of all, as it is represented by only one die pair that is rare regardless of condition. This is a noteworthy Choice AU representative of the 13 Stars, modestly worn but with few marks of any significance. Generous luster remains on distinctly toned surfaces that offer green, blue, and violet toning that is patchy on the obverse but concentric on the reverse. NGC ID# 22ZZ, PCGS# 4260, CoinPlex ID# EHD179713ST

**XF 1800 Half Dime, LM-1  
Well-Defined Devices**

- 3749** 1800 XF40 NGC. V-1, LM-1, R.3. Design detail is particularly sharp on the eagle's wings and shield. This rare date half dime is principally toned apple-green but the margins display golden-brown. Marks are confined to a thin line near the 18 in the date and another atop the cheekbone. A small mint-made strike-through is noted near the profile. NGC ID# 2326, PCGS# 4264, CoinPlex ID# EHD1800

**Rare AU 1800 Half Dime  
LIBEKTY Variety, V-2, LM-3**

- 3750** 1800 LIBEKTY AU50 NGC. V-2, LM-3, R.4. The top of the R punch broke off prior to its Mint use to create the obverse die, hence the LIBEKTY name. The peripheral obverse die break at 7 o'clock, and the large break at the left shield corner, are also characteristic of V-2. This is a pleasing mark-free example with lovely lavender and stone-gray toning. Struck a few degrees off center toward 9 o'clock. NGC ID# 2326, PCGS# 4265, CoinPlex ID# EHD1800LIBEKTY

**Richly Toned Large 8 1803 Half Dime  
Near-Mint Example of V-2, LM-3**

- 3751** 1803 Large 8 AU58 PCGS. CAC. V-2, LM-3, R.3. The most accessible of three die pairs for the 1803 half dime, though still scarce regardless of grade. The Large 8 obverse and contact between a leaf and the second A in AMERICA on the reverse are diagnostic for the variety.

Demand for half dimes, the smallest silver denomination authorized by the Mint Act of 1792, was low and irregular; after 1803, production skipped a year until 1805 and then halted until 1829. This lightly rubbed example has come through more than two centuries with few troubles of any significance. Blue peripheral toning yields to light gray and peach shadings through still-lustrous interiors. For the Large 8 varieties combined, Population: 6 in 58, 6 finer (1/13). PCGS# 4269, NGC ID# 2329, CoinPlex ID# EHD1803LG8

## BUST HALF DIME

### Pristine MS66 1833 Half Dime

- 3752** 1833 MS66 PCGS. CAC. V-6, LM-9, R.2. The diagonal die crack above the cap helps attribute this collectible Valentine variety. Lustrous and unabraded with light chestnut-gold and jade-green toning. The strike is intricate at the peripheries though a bit incomplete on the forehead curl and the left shield border. Population: 20 in 66 (1 in 66+), 8 finer (1/13). PCGS# 4280, NGC ID# 232F, CoinPlex ID# EHD1833

## SEATED HALF DIME

### Premium Gem 1840 No Drapery Half Dime Spectacular Multicolor Toning

- 3753** 1840 No Drapery MS66 NGC. Attractive shades of golden-brown and powder-blue patina blanket the surfaces of this remarkable Premium Gem. The design elements are sharply detailed throughout and vibrant mint luster shines through the toning. Although the recorded mintage was a substantial 1 million pieces, only a handful of specimens survive at this grade level. Census: 14 in 66, 6 finer (1/13). NGC ID# 232U, PCGS# 4321, CoinPlex ID# SHD1840ND

## PROOF SEATED HALF DIME

1856 Half Dime, PR65 Cameo  
Rare, Pre-1858 Proof Issue

3754 1856 PR65 Cameo PCGS. CAC. No record was kept of proof mintages in the years before the Mint began their official offerings in 1858, but production totals were undoubtedly small. Writing in 1989, Walter Breen estimated only 30-40 examples of the 1856 proof half dime were still extant, and some of them had been mishandled. This well-detailed Gem is one of the few survivors with cameo contrast, as the reflective fields and frosty devices provide a startling black-on-white flash when the coin is tilted in the light. Attractive accents of champagne-gold and ice-blue toning enhance the well-preserved surfaces. Population: 1 in 65 Cameo, 0 finer (1/13). PCGS# 84434, CoinPlex ID# SHP1856CA

## EARLY DIME

Patinated AU53 1796 Dime, JR-1

3755 1796 AU53 PCGS. CAC. JR-1, R.3. The usual die state with a fairly large die break or "cud" at star 1. The Small Eagle dime is a rare silver type, though more affordable than its quarter or half dollar counterparts. 1796 was the first date of the denomination, excluding the extremely rare 1792 disme pattern. The present representative has a lavender center bounded by golden-brown, fire-red, and apple-green patina. The strike is incomplete at the centers but sharp at the margins. Close evaluation beneath a loupe reveals only a couple of minor thin marks on the left obverse field and a shallow struck-through area (as made) near star 3. PCGS# 4461, NGC ID# 236B, CoinPlex ID# EDM1796

## BUST DIMES

### Premium Gem 1822 Capped Bust Dime Scarce Issue, JR-1 Tied for Finest Certified

3756 1822 MS66 NGC. JR-1, R.4. The 1822 dime is the last single-year variety in the Capped Bust dimes, and it is also one of the key dates in the series. With the present lot, we offer what is likely one of the two finest known examples of this prized rarity in the Capped Bust series. It is quite likely that the listed mintage of 100,000 pieces struck in 1822 may include a large number of coins that were actually dated 1821, as Breen suggests. Experts generally conclude that approximately 300 pieces exist in all grades, putting the 1822 Bust dime in elite company as one of the most challenging issues of the denomination in the entire run of U.S. numismatics.

This Premium Gem example is one of the two finest certified examples, one each at NGC and PCGS. As we can find no sale record for the PCGS-graded example, we cannot compare images of the two or determine if they are in fact different coins, or the same coin submitted once to each service. The striking details are well executed save for the lower obverse stars. Rich golden-violet and turquoise toning is seen near the peripheries, with areas of silver brilliance on the portrait of Liberty and the obverse fields. The reverse offers similar coloration, with a bit more lilac in the centers. Light evidence of clashing is seen on each side. The underlying luster is bright and satiny, and close inspection yields only a few paper-thin blemishes in the fields. An important offering for the specialist or for the connoisseur of finest certified rarities. Census: 1 in 66, 0 finer (1/13).

Ex: FUN Signature (Heritage, 1/2007), lot 864. NGC ID# 236Z, PCGS# 4497, CoinPlex ID# EDM1822

---

### Patinated Gem 1835 Dime, JR-5

- 3757 1835 MS65 PCGS, CAC, JR-5, R.1.** Fire-red and forest-green toning fills the reverse and the obverse margin. The obverse field and portrait are steel-gray. A satiny Gem with exemplary preservation and a bold strike. JR-1 is promptly attributed by the location of the 5 in the date west of Liberty's shoulder curl. PCGS# 4527, NGC ID# 237F, CoinPlex ID# EDM1835
- 

### SEATED DIME

---

#### 1860-O Seated Liberty Dime, XF45 Elusive Low-Mintage Issue

- 3758 1860-O XF45 PCGS, CAC.** From a small mintage of just 40,000 pieces, the 1860-O Seated Liberty dime is a rare issue in all grades. This Choice XF specimen displays well-detailed design elements, with traces of mint luster under attractive shades of powder-blue toning. Population: 3 in 45, 7 finer (1/13). PCGS# 4632, NGC ID# 239E, CoinPlex ID# SDM1860O
- 

### PROOF SEATED DIME

---

#### 1882 Dime, PR68 Cameo Nearly Brilliant, Tied for Finest

- 3759 1882 PR68 Cameo NGC.** Ex: Philip Kaufman. Kaufman's collection of proof Seated dimes was auctioned by Heritage in May 2003 but did not include the present specimen. This is an intricately struck Superb Gem with icy motifs and glassy fields. A hint of gold patina precludes absolute brilliance. Census: 3 in 68 Cameo, none finer as Cameo or Ultra Cameo (1/13). PCGS# 84779, CoinPlex ID# SDP1882CA
- 

---

### BARBER DIMES

---

#### Sharply Struck Premium Gem 1892-O Dime First-Year O-Mint Barber

- 3760 1892-O MS66 PCGS.** As the first-year O-mint Barber dime issue, the 1892-O is generally more available than some later New Orleans series issues, but the present Premium Gem is among the finest PCGS survivors, save for a single example in MS67. Generous luster and a bold strike prevail on both sides; the obverse shows variegated rose and jade tints, while the reverse is several shades lighter. Population: 9 in 66 (3 in 66+), 1 finer (1/13). PCGS# 4797, NGC ID# 23DL, CoinPlex ID# BRD1892O
- 

---

#### 1892-O Barber Dime, MS66+ Only One Numerically Finer Coin at PCGS

- 3761 1892-O MS66+ PCGS, CAC.** Despite a substantial first-year mintage of 3.8 million pieces, the 1892-O Barber dime is seldom encountered in high grade. This high-end Premium Gem is sharply detailed and lustrous, with spectacular shades of mingled blue, gray, lavender, and amber toning. Eye appeal is tremendous. Population: 9 in 66 (3 in 66+), 1 finer (1/13). PCGS# 4797, NGC ID# 23DL, CoinPlex ID# BRD1892O
-

**Superb Gem 1907-D Barber Dime  
Challenging D-Mint Issue in High Grade**

- 3762 1907-D MS67 NGC. CAC.** The Denver Mint struck a respectable total of 4 million Barber dimes in 1907, the second year of coinage operations at that facility. The coins circulated heavily at the time of issue, and few examples were saved by contemporary collectors. As a result, the 1907-D is the most difficult D-mint issue of the series to locate in Mint State condition. This delightful Superb Gem is well-detailed and lustrous under spectacular shades of champagne-gold, greenish-gray, and violet toning. The surfaces display no mentionable distractions, adding to the tremendous eye appeal. Census: 2 in 67, 1 finer (12/12). NGC ID# 23F4, PCGS# 4843, CoinPlex ID# BRD1907D

**PROOF BARBER DIME**

**1897 Barber Dime, PR68  
Stunning Cameo Specimen**

- 3763 1897 PR68 Cameo NGC.** Of the 731 proofs struck in 1897, this is one of the finest. The fields are deeply mirrored, as expected, and the devices noticeably frosted. The combination gives the desired cameo effect across both sides. Light golden and ice-blue toning is seen over each side, speckles here and smoothly textured there. An interesting, high-grade type piece. Census: 3 in 68 Cameo, 0 finer (1/13). PCGS# 84881, CoinPlex ID# BRP1897CA

**MERCURY DIMES**

**1916 Mercury Dime, MS68 Full Bands  
None Certified Finer**

- 3764 1916 MS68 Full Bands PCGS.** This spectacular MS68 Mercury dime is among the finest certified examples and possesses incredible eye appeal. The satiny fields are smooth and highly reflective. All fascies bands are full and bold. One small tick each on the *pileus*, or Liberty cap, and the neck are noted for accuracy. Virtually unimprovable. Population: 9 in 68 Full Bands, 0 finer (12/12). Ex: *FUN Signature* (Heritage, 1/2006), lot 1866. PCGS# 4905, NGC ID# 23GX, CoinPlex ID# MRD1916FB

**Choice AU 1916-D Mercury Dime  
Famous First-Year Key**

- 3765 1916-D AU55 NGC.** An attractive Choice AU specimen of the key date in the Mercury dime series, this lightly circulated example displays well-detailed design elements, with just a touch of wear on the high points. The lightly marked surfaces show light shades of champagne-gold and lavender toning. Census: 32 in 55, 79 finer (1/13). NGC ID# 23GY, PCGS# 4906, CoinPlex ID# MRD1916D

---

### Uncirculated Details 1916-D Dime

- 3766 1916-D — Artificially Toned — ANACS. MS60 Details.** Most examples of the series key 1916-D dime are in Fair to VG grades. Uncirculated examples with unbroken cartwheel luster are highly desirable. This unmarked example appears to qualify as full bands, though it is undesignated as such on the ANACS insert. The obverse has consistent stone-gray color while the reverse is rose-gold and pearl-gray with a dappled navy-blue periphery. NGC ID# 23GY, PCGS# 4906, CoinPlex ID# MRD1916D

---

### 1926-D Dime, MS66 Full Bands Seldom Seen as Such

- 3767 1926-D MS66 Full Bands PCGS Secure.** The quicksilver surfaces of this satiny Mercury dime are silver-white with the slightest hint of gold patina scattered here and there. Neither side shows any more than a few of the most minor, inconsequential marks, well away from the prime focal areas, and the winged cap and head of Liberty outlined in white gives a lovely cameo effect. Full Bands examples of this issue are quite elusive. Population: 23 in 66 (4 in 66+) Full Bands, 4 finer (1/13). PCGS# 4957, NGC ID# 23HS, CoinPlex ID# MRD1926DFB

---

### 1938 Mercury Dime Spectacular MS68 Full Bands

- 3768 1938 MS68 Full Bands PCGS.** The 1938 dime mintage from the Philadelphia Mint (22,190,000 pieces) decreased from the extremely large coinage of the previous three years. David Lange explains this: "The recession which had set in during the latter part of 1937 slowed the nation's economy throughout 1938. This fact is reflected in lower production figures for all five denominations."

The MS68 specimen offered here displays strong luster emanating from immaculately preserved surfaces. Hints of occasional olive-green color are visible under magnification, and all of the design elements are well impressed. In addition to the full middle bands, the diagonal ones are bold as well. Population: 10 in 68 Full Bands, 0 finer (1/13).

Ex: *Summer FUN Signature* (Heritage, 7/2007), lot 607. PCGS# 5011, NGC ID# 23JM, CoinPlex ID# MRD1938FB

---

### ROOSEVELT DIME

---

#### 1949-D Roosevelt Dime, MS68 Full Bands Three-Quarter-Moon Crescent Toning

- 3769 1949-D MS68 Full Bands PCGS.** This challenging 1949-D Roosevelt dime graded MS68 Full Bands could form the beginning of a lifetime pursuit, the assembling of the finest known 1949 mint set on the PCGS Registry. This year is one of the favorites for collectors of "modern classic" coinage, due to the various low-mintage productions. This piece displays a three-quarter-moon crescent of deep iridescence around the rims on each side, cherry, violet, and jade prevailing, with the remainder most silver. Population: 4 in 68 Full Bands, 0 finer (1/13). PCGS# 85092, NGC ID# 23KV, CoinPlex ID# ROD1949DFB

---

### PROOF TWENTY CENT PIECES

---

#### Gem Cameo Proof 1876 Twenty Cent Piece Last Issue With Corresponding Business Strike

- 3770 1876 PR65 Cameo NGC.** The twenty cent piece has an enduring popularity for collectors old and new. It is one of the odd-denomination type coins that has a story to tell. In this case, its issuance is tied to Western silver interests and the pursuit of another outlet for Comstock silver. Proofs are popular with collectors as they maximize eye appeal because of the unusually deep mirrors present on most examples, including this one, and the frostiness found on the devices of a select few. Modestly toned and free of significant distractions. PCGS# 85304, CoinPlex ID# TWP1876CA

---

1877 Twenty Cent Piece, PR63  
Proof-Only Issue, Only 510 Minted

- 3771 1877 PR63 PCGS. This fully brilliant Select proof twenty cent piece is one of only 510 pieces minted, all in the proof format. Both sides are bright silver with no evidence of toning. Faint hairlines and minimal surface marks limit the grade of this pleasing piece. Slight cameo contrast is present on both sides. PCGS# 5305, NGC ID# 27H4, CoinPlex ID# TWP1877

---

1877 Twenty Cent Piece, Select Cameo Proof

- 3772 1877 PR63 Cameo PCGS. Almost fully brilliant, with only a hint of pale golden patination at the borders on either side. This Gem example comes from a small original mintage of just 350 proofs. It is well struck on both sides, and the reflective fields contrast nicely with the mildly frosted design elements. The fields display few noticeable marks or hairlines, and the overall appearance is very pleasing for the grade. Population: 18 in 63 (2 in 63+) Cameo, 33 finer (1/13). Ex: Central States Signature (Heritage, 4/2006), lot 1458. PCGS# 85305, CoinPlex ID# TWP1877CA

---

EARLY QUARTERS

---

1804 Quarter, Choice Very Fine, B-1  
Compelling Original Surfaces

- 3773 1804 VF35 PCGS. CAC. B-1, R.3. Many a collector is bound to find the original surfaces to be a compelling feature of this Choice Very Fine B-1 1804 quarter, an issue that is probably second in popularity only to the first-year 1796. While the 1796 quarter is the only issue having the Small Eagle reverse, the 1804 is a first-year type, the forerunner of all the Heraldic Eagle issues that follow. This piece displays splendid medium blue and gray surfaces tinged with pink and gold. There are a few scattered marks on each side, none of any consequence and largely removed from the focal points. The prominent die mark by star 9 easily attributes the B-1 die variety. PCGS# 5312, NGC ID# 23RB, CoinPlex ID# EQU1804

---

Gem 1806 Draped Bust Quarter  
Condition Census B-3 Variety  
Only One Finer Coin at NGC

**3774** 1806 MS65 NGC. B-3, R.1. Tompkins Die State 1/2. The 1806 Draped Bust quarter claims a mintage of 206,124 pieces, with 10 die varieties known for the date. This coin represents the available B-3 variety, with a missing lower-left serif on 1 in the date and 12 arrowheads on the reverse. This example is the finest of the six pieces that Steve Tompkins lists in his 1806 B-3 Condition Census.

The obverse and reverse dies were both used for other varieties in addition to the B-3 combination. The obverse die was also used for B-2, and the reverse die was also used for B-4. Tompkins has presented a detailed remarriage chart for the three varieties, showing that 1806 B-2 was struck first, B-3 was struck second, B-4 was struck third, and finally more examples of B-3 were struck fourth. The final use of the dies for B-3, struck after B-4, is called a "remarriage" since the same dies were joined together for a second time. Documenting any remarriage among early coins is an extremely difficult challenge, since multiple examples of all varieties have to be studied, and exact die state differences must be documented.

Faint traces of champagne toning appear on the obverse of this otherwise fully brilliant white quarter. Both sides have highly lustrous and frosty surfaces with few imperfections of any kind, other than a planchet impurity that is visible on the obverse rim over IB. The lower part of the obverse and upper part of the reverse show considerable weakness. Struck on a screw press, this piece is a couple turns short of a full strike. Since all of the peripheral detail is fully defined, the weakness may not be attributable to improper operation of the screw press. Instead, the possibility exists that one or both dies were slightly sunken at the center, making it impossible to achieve a full strike. Census: 2 in 65, 1 finer (1/13).

Ex: ANA Signature (Heritage, 7/1997), lot 6225; Richard Jewell Collection (American Numismatic Rarities, 3/2005), lot 1665; FUN Signature (Heritage, 1/2009), lot 3712, realized \$80,500. NGC ID# 23RD, PCGS# 5314, CoinPlex ID# EQU1806

## BUST QUARTERS

### 1818 B-3 Quarter, MS65 Second Overdate Obverse Die Use

**3775 1818 MS65 NGC. B-3, R.3.** The overdate obverse die is now in its second use, with remnants of the overdate still visible on the flat upper surface of the second 8. The reverse die is cracked through the lower arrow, nearly reaching the shield, and also shows clash marks below the scroll. Another crack is faintly visible from an olive leaf, across the left wing tip, to the U.

About a dozen Gem or finer examples of 1818 B-3 are known, and these pieces are candidates for a type, date, and variety collectors. This example has frosty luster with lovely champagne and iridescent toning. Census: 24 in 65, 13 finer (1/13), for all 1818 varieties. NGC ID# 23RH, PCGS# 5322, CoinPlex ID# EQU1818

### Select Mint State 1821 Quarter Challenging Browning-5

**3776 1821 MS63 PCGS. B-5, High R.4.** This better Browning die marriage can be attributed by its curved die line beneath the bust tip. The golden-brown and dove-gray surfaces are minimally abraded, and the strike is bold except on the claws and uppermost stars. Encapsulated in a green label holder. PCGS# 5331, NGC ID# 23RM, CoinPlex ID# EQU1821

### 1828 B-1 Quarter, Splendid, Unmarked MS65+

**3777 1828 MS65+ PCGS. CAC. B-1, R.1.** The reverse shows a curl base 2 in the denomination, which is high in the field, and repunching is prominent on several obverse stars, including numbers 2, 7, 9-11, and 13, providing the attribution. Star 1 is closer to the bust than the dentils. Three of the four known die pairings for 1828 all share this obverse, with the B-4 having a different obverse that has star 1 closer to the dentils. This piece is a splendid MS65+ coin with ivory-cream centers deepening to amber-copper hues near the rims. Marks are few, scattered, and minor, putting this piece into the high-eye appeal category. PCGS# 5342, NGC ID# 23RV, CoinPlex ID# EQU1828

## SEATED QUARTERS

### 1849-O Quarter, AU53 Scarce New Orleans Issue

- 3778 1849-O AU53 NGC.** Deep dove-gray and walnut-brown toning blankets this lightly worn but partly lustrous New Orleans quarter. Void of any detrimental marks. No mintage was separately recorded for the 1849-O, but given its rarity in all grades, the production must have been minimal. Census: 3 in 53, 10 finer (1/13).  
*Ex: Long Beach Signature (Heritage, 2/2012), lot 3461, which realized \$9,775. NGC ID# 23T3, PCGS# 5414, CoinPlex ID# SQU1849O*

### Huge O 1854-O Quarter, XF45

- 3779 1854-O Huge O XF45 NGC. Briggs 1-A, FS-501.** The high relief and oversized New Orleans mintmark was probably entered by hand on the working die. All dies were made at Philadelphia during that era, and the Mother Mint presumably inadvertently shipped the reverse die sans mintmark. FS-501 is unknown in Mint State and is usually seen well-worn. The present example has only light wear, and the mildly granular dove-gray surfaces show only a single mark near the AM in AMERICA. Census: 2 in 45, 3 finer (1/13). NGC ID# 23U7, PCGS# 5434, CoinPlex ID# SQU1854OARRHUGEO

### Gem 1855 Seated Quarter Short-Lived Arrows Subtype

- 3780 1855 Arrows MS65 NGC.** Larry Briggs, in his *Liberty Seated Quarters* book, says the 1855 Arrows is very common in grades from Good to VF, scarce in XF and AU, and very scarce in Uncirculated grades. As indicated from the population figures, Gem and better examples are very challenging. The Gem we offer here has whispers of russet patina over lustrous surfaces that are devoid of significant marks. The fields are bright and semireflective on each side. Except for the star centers along the upper left (facing) obverse border and the feathers on the eagle's right leg, the design elements are well impressed. Census: 7 in 65, 7 finer (1/13). NGC ID# 23U8, PCGS# 5435, CoinPlex ID# SQU1855ARR

### 1870-CC Seated Quarter, AG3 Only 8,340 Pieces Struck

- 3781 1870-CC AG3 PCGS. CAC.** A well-worn example of this low-mintage first-year key, with the date and mintmark legible, and the central design elements complete in outline, but the rims and much of the legends worn smooth. Collectors prize this issue in all grades and conditions. Population: 5 in 3, 37 finer (1/13). PCGS# 5477, NGC ID# 23UL, CoinPlex ID# SQU1870CC

### 1870-CC Seated Liberty Quarter, Good 4 Rare First-Year Key

- 3782 1870-CC Good 4 PCGS.** A small mintage of 8,340 Seated Liberty quarters was achieved at the Carson City Mint in 1870, its first year of operations. Few examples were saved by contemporary collectors, and the issue is rare in all grades today. This well-worn example retains the outline of most major design elements, but the rims are worn flat in many areas. Population: 4 in 4, 33 finer (1/13). PCGS# 5477, NGC ID# 23UL, CoinPlex ID# SQU1870CC

### 1872-S Quarter Dollar, AU50 Elusive in All Grades

- 3783 1872-S AU50 NGC.** A low mintage combined with extensive circulation makes the 1872-S one of the important rarities in the Seated Liberty quarter series. This splendid specimen has considerable luster with sharp design motifs. The obverse has mottled steel-blue over its light silver surface while the reverse is mostly silver-white with splashes of toning. Census: 1 in 50, 10 finer (1/13). NGC ID# 23UT, PCGS# 5483, CoinPlex ID# SQU1872S

---

## BARBER QUARTERS

---

1899-O Barber Quarter, MS66  
Only One Finer Coin at PCGS

- 3784 1899-O MS66 PCGS.** The well-detailed design elements of this attractive Premium Gem show a touch of softness on the central reverse, but the well-preserved surfaces display vibrant satiny mint luster, under shades of golden-brown, silver-gray, and lavender patina. Population: 4 in 66, 1 finer (1/13). PCGS# 5623, NGC ID# 23YH, CoinPlex ID# BQU1899O

---

Key 1901-S Barber Quarter, VG8

- 3785 1901-S VG8 PCGS.** This heavily circulated key Barber quarter shows even wear over each side. The only mentionable surface distractions are a few shallow planchet flakes out of the right obverse field. Otherwise the surfaces are light gray with a hint of reddish patina and darker charcoal accents around the margins. PCGS# 5630, NGC ID# 23YR, CoinPlex ID# BQU1901S

---

1913-S Barber Quarter, VF20  
Only 40,000 Pieces Struck

- 3786 1913-S VF20 PCGS. CAC.** The 1913-S Barber quarter claims a minuscule mintage of just 40,000 pieces, an extremely low production total for any 20th century coin. This pleasing VF example retains all major design detail in outline and much interior detail remains intact. The surfaces are lightly abraded, with pleasing pinkish-gray and pale gold patina. Population: 13 in 20, 98 finer (1/13). PCGS# 5666, NGC ID# 23ZW, CoinPlex ID# BQU1913S

---

1913-S Quarter, MS66+  
Only Four Finer at PCGS

- 3787 1913-S MS66+ PCGS. CAC.** The 1913-S needs no introduction to specialists in the Barber quarter series, but even so, it is somewhat more available in the higher Mint State grades compared to its counterparts, the 1896-S and 1901-S, despite a smaller mintage. We suspect a small hoard or two were stashed away, perhaps in San Francisco or certainly close by, shortly after these coins were minted. Such a phenomenon is easily understood when one considers the revelation that the general public underwent only four years previously, that a tiny "S" mintmark could be worth a fancy premium when attached to a 1909 VDB cent.

Nonetheless, this MS66+ PCGS 1913-S quarter is a coin that will not soon be bettered, as PCGS has seen only 11 in MS66, this piece and one other in MS66+, and there are but four finer (1/13). This piece is well-struck throughout both sides, with silvery centers ceding to charcoal and russet patina near the rims. A few tiny ticks on Liberty's neck appear to preclude an even finer grade, but there is eye appeal to spare. PCGS# 5666, NGC ID# 23ZW, CoinPlex ID# BQU1913S

---

## PROOF BARBER QUARTERS

### Patinated PR68 1892 Quarter

- 3788 1892 PR68 PCGS. CAC.** Type Two Reverse, as are a majority of the first-year proofs. A fully patinated specimen that displays golden-brown toning across two-thirds of the obverse. The remainder of that side shows navy-blue and lime-green patina. The reverse is principally aquamarine but plum-red shades illuminate the eagle's left (facing) wing. The strike is razor-sharp and the surfaces appear virtually flawless beneath the palette of colors. Encapsulated in a green label holder. This is the only CAC example graded PR68 or PR68 Cameo. Population: 5 in 68, 1 in 68 Cameo, 2 in 68 Deep Cameo, none finer (12/12). PCGS# 5678, NGC ID# 2427, CoinPlex ID# BQP1892

### Cameo PR67 1892 Quarter Type Two Reverse

- 3789 1892 PR67 Cameo PCGS. CAC.** Type Two Reverse. The obverse is close to brilliant and exhibits exceptional contrast between the icy portrait and darkly mirrored field. The reverse is partly untoned but also displays splashes of deep jade-green. A high grade specimen from the first year of the proof type. Population: 9 in 67 Cameo, 1 finer (1/13). PCGS# 85678, CoinPlex ID# BQP1892CA

### Premium Gem Proof 1902 Barber Quarter Rare Cameo Example

- 3790 1902 PR66 Cameo PCGS. CAC.** This spectacular Premium Gem shows an unusual amount of mint frost for a 1902 proof, creating bold cameo contrast with the deeply mirrored fields. The design elements are well-detailed and the unmarked surfaces show just a hint of pale gold toning. Population: 2 in 66 Cameo, 3 finer (1/13). PCGS# 85688, CoinPlex ID# BQP1902CA

### Superb Gem Proof 1907 Barber Quarter Undesignated Obverse Contrast

- 3791 1907 PR67 NGC.** Although not designated as a Cameo, the design elements of this delightful Superb Gem show unusually rich mint frost for this era, and the fields are deeply mirrored, creating distinct elements of contrast, especially on the obverse. A few hints of electric-blue and lime-green toning show on the obverse, while the reverse is blanketed in light champagne-gold. Census: 16 in 67, 9 finer (1/13). NGC ID# 242N, PCGS# 5693, CoinPlex ID# BQP1907

### 1910 Barber Quarter, PR68 Stunning Cameo Specimen

- 3792 1910 PR68 Cameo NGC.** Only 551 proof Barber quarters were struck in 1910, and very few examples can match the quality of this magnificent PR68 specimen. Razor-sharp definition is present on all design elements and the richly frosted devices stand out boldly against the deeply mirrored fields. Vivid shades of cobalt-blue and pale green toning accent the peripheries. Eye appeal is extraordinary. Census: 2 in 68 Cameo, 1 finer (1/13). PCGS# 85696, CoinPlex ID# BQP1910CA

### Proof Superb Gem 1913 Quarter Substantial Contrast

- 3793 1913 PR67 PCGS. CAC.** The portrait and eagle are frosty and demonstrate strong contrast with the glassy fields. However, the coin is undesignated as Cameo, since its green label generation precedes extension of the distinction to the Barber series. Sharply struck with light to medium russet-brown and ocean-blue toning. Only 613 proofs were produced. Certified in a green label holder. PCGS# 5699, NGC ID# 242V, CoinPlex ID# BQP1913

**1915 Barber Quarter, Toned PR67  
Impeccable Strike and Preservation**

- 3794 1915 PR67 PCGS.** The 1915 Barber quarter is the last proof entry in the series, as none were struck in 1916. The last-year Barber silver proof sets were produced to the extent of 450 coins each — including the dime, quarter, and half dollar — but this PCGS-certified Superb Gem is one of only 10 so graded by that service with just two finer (1/13). The surfaces show impeccable preservation, as expected, and the moderate patina on each side includes generous gold centers with ice-blue, pink, and violet accents. Fully struck throughout and a marvelous finale for the series enthusiast. PCGS# 5701, NGC ID# 242X, CoinPlex ID# BQP1915

**STANDING LIBERTY QUARTERS**

**1916 Standing Liberty Quarter, VF25  
Important Low-Mintage Key**

- 3795 1916 VF25 PCGS.** Light gray and amber patina blankets the surfaces of this well-worn Standing Liberty quarter. The date is legible and the major design elements are complete in outline, but some interior detail has been worn smooth. The 1916 is the rarest date of the series, from a low mintage of 52,000 pieces. PCGS# 5704, NGC ID# 242Y, CoinPlex ID# SLQ1916

**1916 Standing Liberty Quarter  
AU Sharpness**

- 3796 1916 — Polished — NGC Details. AU.** The 1916 is the first and rarest regular issue of the Standing Liberty quarter series. Difficulties in coining the new design led to production delays, and the issue was struck only during the final two weeks of the year. Examples were issued alongside 1917-dated coinage, which constituted the bulk of public hoarding of the novel design. Demand for the widely collected series ensures high grade examples will always be valuable. The present piece displays noticeable cartwheel luster on the obverse, though the reverse luster is confined to the legends and eagle. The surfaces display delicate hairlines and the types are mildly glossy. Close to brilliant though a hint of chestnut patina visits the margins. NGC ID# 242Y, PCGS# 5704, CoinPlex ID# SLQ1916

---

Key-Date 1916 Standing Liberty Quarter  
MS64 Full Head

**3797 1916 MS64 Full Head NGC.** Unless one includes the famous 1918/7-S overdate, the 1916 Standing Liberty quarter is the key to its series in virtually all grades. A quality Mint State representative, such as this Choice Full Head example, is essential for a well-regarded collection. This piece has considerable peach patina over a light gray base, generous luster, and a technical full head on Liberty. Though a number of small marks are noted under close inspection, most notably a small nick just below the eagle, the all-around visual appeal is solid. Census: 47 in 64 Full Head, 65 finer (1/13). NGC ID# 242Y, PCGS# 5705, CoinPlex ID# SLQ1916FH

---

1916 Standing Liberty Quarter  
Bright, Lustrous MS64 Full Head Example

**3798 1916 MS64 Full Head PCGS.** Of the 10 new coin designs introduced between 1908 and 1921 during the so-called Renaissance of American coinage — the copper cent, nickel five cent, four silver denominations, and four gold — the Standing Liberty quarter design, which debuted in 1916, was the shortest-lived of the lot, lasting only through 1930. The debut of the Washington quarter two years later, in 1932, made the 1916-1930 series of Standing Libertys a set that includes only 38 members, counting both types of 1917 and the overdate.

The 1916 is both a first-year type and an essential member of the set, whether one chooses to include or exclude the 1918/7-S overdate. And the low mintage of 52,500 coins, many of which circulated, further increases the difficulty of the issue and its collector demand. This is a bright, vibrant example that shows the usual granular surfaces. Pale pastel iridescence further accents the remarkable luster. There are no detracting abrasions on this lovely, upper-end 1916 quarter. PCGS# 5705, NGC ID# 242Y, CoinPlex ID# SLQ1916FH

---

**1917 Type One Quarter, MS67 Full Head  
Beautifully Toned, Thick Mint Frost**

- 3799** 1917 Type One MS67 Full Head PCGS. CAC. This frosty Superb Gem Full Head 1917 Standing Liberty quarter offers aqua and rose toning interspersed over each side, with speckles of golden color around the reverse margin. A beautiful example for this popular Type One issue, and one of 65 such submissions at PCGS, with none finer (1/13). PCGS# 5707, NGC ID# 242Z, CoinPlex ID# SLQ1917TY1FH

**1918/7 Standing Liberty Quarter, AU53  
Key Wartime Hubbing Error**

- 3800** 1918/7-S AU53 NGC. FS-101. A lightly circulated example of this famous hubbing error, with the undertype 7 clearly visible inside the lower loop of the 8. This coin retains much of its original design detail and a few traces of mint luster, under dark gray and amber toning. Census: 9 in 53, 98 finer (1/13). NGC ID# 243A, PCGS# 5726, CoinPlex ID# SLQ19187S

**1923-S Quarter, MS66 Full Head  
High-End Eye Appeal and Strike**

- 3801** 1923-S MS66 Full Head PCGS. CAC. This Premium Gem Full Head 1923-S quarter is an excellent example of the difference in "just barely" Full Head and "solid" Full Head. Two of the three olive leaves are well-defined, as is the earhole, eye, and the split at the hair all along the forehead. A couple of soft shield rivets are as expected. This piece offers generous satin luster with pinkish-silver color and super eye appeal. A bit of strike softness on the tops of the date digits is also to be expected, but the CAC endorsement is absolutely correct. Population: 31 in 66 (1 in 66+) Full Head, 6 finer (1/13). PCGS# 5745, NGC ID# 243K, CoinPlex ID# SLQ1923SFH

**WASHINGTON QUARTER**

**1959-D Quarter, Stunning Silver-White MS67**

- 3802** 1959-D MS67 PCGS. This is a stunning silver-white Superb Gem example of the 1959-D Washington quarter, an extremely high-mintage coin struck when the emphasis was on quantity, not quality — which makes the present unmarked piece a standout example, with simply no mentionable distractions. The lack of noticeable color or marks of any size gives a slight cameo appearance to our first president. Population: 7 in 67, 0 finer (1/13). PCGS# 5867, NGC ID# 246J, CoinPlex ID# WQU1959D

**EARLY HALF DOLLARS**

**Problem-Free XF 1795 Half Dollar  
O-113, A Over E in STATES**

- 3803** 1795 2 Leaves XF40 NGC. O-113, R.3. The A over E in STATES mint blundered variety, which is mentioned but not separately priced in the 2013 *Guide Book*. This better grade example displays dusky chestnut toning over steel-gray surfaces. Close inspection locates only minor abrasions. Void of adjustment marks or rim detractors. NGC ID# 240000000, PCGS# 6052, CoinPlex ID# EHA1795

**1795 O-117a Half Dollar, XF40  
Repunched Y in LIBERTY**

- 3804** 1795 2 Leaves XF40 PCGS. O-117a, R.4. A die line above the right stand of the Y in LIBERTY remains from repunching of that letter, and a faintly visible die crack from the border to the drapery right of the date confirms the late die state of this piece. Both sides have deep gray patina with delicate gold overtones. Adjustment marks in various directions are visible on the reverse. PCGS# 6052, NGC ID# 240000000, CoinPlex ID# EHA1795

**1795 Flowing Hair Half Dollar  
Two Leaves, O-109, Lustrous AU50**

- 3805 1795 2 Leaves AU50 PCGS Secure. O-109, R.4.** This very scarce die pair is attributable solely from the reverse, which has inner berries but no outer berries under the eagle's wings and a leaf extending on either side of the F in OF. This richly toned example is only modestly worn and has considerable remaining luster under waves of blue, violet, pink, peach, and gold-gray toning. The surfaces show several faults that influence the grade, including two sizable scrapes over the 17 in the date and a pinscratch on the eagle's breast, but the overall visual appeal remains strong, especially at arm's length. PCGS# 6052, NGC ID# 240000000, CoinPlex ID# EHA1795

**1802 Draped Bust Half Dollar, O-101, AU55  
Popular Low-Mintage Date**

- 3806 1802 AU55 PCGS. O-101, R.3.** The 1802 Draped Bust half dollar claims a small mintage of 29,890 pieces, with a single die variety known for the date. The reverse die was previously used to strike the O-102 variety in 1801. The issue is scarce in lower circulated grades, and high-grade specimens are quite rare.
- This attractive Choice AU specimen possesses sharply impressed design elements that show just a trace of wear on the high points. The lightly abraded surfaces retain much original mint luster, under shades of lavender, gray, and champagne-gold toning. Eye appeal is outstanding. Population: 1 in 55, 9 finer (1/13). PCGS# 6065, NGC ID# 24EE, CoinPlex ID# EHA1802

## BUST HALF DOLLARS

### 1811 Small 8 Half Dollar, Toned MS65 O-110a, Tied for Second Finest

- 3807 1811 Small 8 MS65 NGC. O-110a, R.1. Ex: Frank McCarthy Collection. Identifiable by the leftward slant of the digits in the date, and the center dot between crossbars 4 and 5. This later die state shows a die crack that starts below the olive leaves, continues through the tops of UNITED, and terminates above the first S in STATES. At this grade level, this piece is tied with several other Gems, suggesting this production run may have been set aside for many years in a vault as part of a bank's cash reserves. Sharply struck in all areas, the surfaces are lustrous with an overlay of mottled deep gray and blue toning on each side. PCGS# 6097, CoinPlex ID# EHA1811SM8

### Multicolor Gem 1831 Half, O-101

- 3808 1831 MS65 NGC. O-101, R.2. A blanket of ocean-blue, sun-gold, and lilac-red patina embraces this well struck and virtually mark-free Gem. Cartwheel luster illuminates both sides. The Autumn 2012 revision of Stephen J. Herrman's auction reference lists three MS65 examples atop the condition census, one of which is a prior appearance of the present coin.  
Ex: Pre-Long Beach Auction (Ira & Larry Goldberg, 2/2005), lot 1210. NGC ID# 24FV, PCGS# 6159, CoinPlex ID# EHA1831

## REEDED EDGE HALF DOLLAR

### 1838 Reeded Edge Half, MS65 Two-Year Subtype

- 3809 1838 MS65 NGC. The denomination was expressed as HALF DOL. starting in 1838, creating a two-year design subtype. This impressive Gem displays sharp definition on all design elements except for the center of star 1, and vibrant mint luster shines through shades of lavender-gray, champagne-gold, and sea-green toning. Census: 18 in 65, 6 finer (1/13). NGC ID# 24G5, PCGS# 6177, CoinPlex ID# EHA1838RE

## SEATED HALF DOLLARS

### Famous Doubled Date 1844-O Half Choice AU, FS-301

- 3810 1844-O Doubled Date AU55 PCGS. WB-103, FS-301. The most dramatic repunched date of the series, featured on the cover of the classic 1993 Wiley-Bugert reference. The date overlaps the rock and much of the initial misplaced logotype is visible. A high grade for the variety, with noticeable remaining luster and only light wear on the knees. Each side has a hint of golden toning. Population: 3 in 55, 3 finer (1/13). PCGS# 6247, NGC ID# 24H2, CoinPlex ID# LHM1844ODD

### Choice 1847-O Seated Half Dollar Conditionally Rare at This Level

- 3811 1847-O MS64 NGC. This issue had a substantial mintage of more than 2.5 million coins, but it is an extremely important condition rarity in the Seated half dollar series. NGC and PCGS have graded just five examples in MS64, with only eight finer pieces (1/13). This Choice Mint State specimen has lovely splashes of gold and iridescent toning over frosty silver surfaces. NGC ID# 24HB, PCGS# 6259, CoinPlex ID# LHM1847O

---

1859-S Half, Fully Struck Gem, WB-6

- 3812 1859-S MS65 NGC. WB-6, R.3.** Medium S. The WB-6 shows a Medium S mintmark centered beneath the olive-branch/arrow shaft intersection, according to the recent encyclopedic work by Bill Bugert, "with special edits and by and consultations with Randy Wiley," *A Register of Liberty Seated Half Dollar Varieties, Volume I, San Francisco Branch Mint* (2009). This piece shows an absolute, full strike in all areas, with the fields on each side displaying definite semiprooflike tendencies. The surfaces are mostly brilliant, save for a slight reddish tinge. This piece is in the EDS to LDS die state, showing a heavy die clash in the lower right shield and in the field above the right claw. Census: 3 in 65, 2 finer (1/13). NGC ID# 24J2, PCGS# 6298, CoinPlex ID# LHM1859S

---

CONFEDERATE STATES OF AMERICA

1861 Confederate Half Dollar, MS61  
Scott Restrike, Breen-8002

- 3813 1861 Scott Restrike MS61 NGC. Breen-8002.** J.W. Scott purchased the Confederate half dollar reverse die from Ebenezer Locke Mason in 1879. Scott was something of a commercial genius, and he lost no time in executing a scheme to benefit from the fame of the extremely rare original Confederate issue. Gathering 500 examples of 1861-dated half dollars from circulation, Scott polished off the reverse design and used the mutilated coins as planchets to strike copies with the Confederate reverse. In the process, the obverse was somewhat flattened on the restruck pieces. As usually seen, the reverse on this piece is sharp and the obverse flattened. The sides have toned well, with the Confederate side showing hints of light violet and greenish-gold color and the obverse generally light silver-gray, with pink patina. Listed on page 404 of the 2013 *Guide Book*. Ex: ANA Signature (Heritage, 8/2010), lot 3161, where it brought \$8,625. From The Fenn Family Collection. PCGS# 340402, CoinPlex ID# LHM1861CSARES

**Very Rare Haseltine Silver Restrike  
1861 Confederate Cent, PR58 Details**

- 3814 1861 Confederate States of America Cent, Haseltine Silver Restrike — Rim Bumps, Polished — ANACS. PR58 Details. Breen-8007.** Robert Lovett, Jr. was the engraver for the 1861 Confederate cent. In 1874, Captain John W. Haseltine purchased the dies from Lovett and struck small numbers of examples in gold, silver, and copper. Breen (1988) states the silver mintage, per Haseltine, was either five or twelve pieces, in any event much rarer than the copper restrikes (Breen-8008). Those, in turn, are vastly rarer than the Bashlow bronze restrikes from defaced dies, the “Confederate cent” familiar to collectors. The present well struck silver Haseltine restrike is from perfect dies, but we note a small obverse rim bump at 4 o’clock, and both sides are moderately glossy from cleaning. PCGS# 340409

**PROOF SEATED HALF DOLLARS**

**1876 Half Dollar, PR67 Cameo  
None Certified Finer**

- 3815 1876 PR67 Cameo NGC.** An extraordinary Superb Gem Cameo proof, this Seated half dollar has amazing contrast between the frosty silver devices and lightly toned fields. Splashes of gold and violet toning add to the eye appeal of this centennial half dollar. Census: 2 in 67 Cameo, 0 finer (1/13). PCGS# 86437, CoinPlex ID# LHP1876CA

**Superb Gem Cameo 1888 Seated Liberty Half**

- 3816 1887 PR67 Cameo NGC.** Only 832 Seated Liberty half dollars were struck in 1888, and this magnificent Superb Gem is one of the finest survivors. The sharply detailed design elements are richly frosted and contrast boldly with the deeply mirrored fields. Crescents of cobalt-blue and lime-green toning grace the peripheries.

**1889 Seated Half, PR66 Cameo  
Excellent Surface Preservation**

- 3817 1889 PR66 Cameo PCGS.** This Premium Gem proof 1889 Seated half shows a brilliant quicksilver appearance with no trace of toning. Ample contrast between fields and devices creates the Cameo designation, and the excellent surface preservation contributes further to the overall high eye appeal. This piece is one of only two Cameo examples in this grade at PCGS, and none are finer (1/13). PCGS# 86450, CoinPlex ID# LHP1889CA

**Superb Gem Proof 1890 Half Dollar  
Only One Coin Finer at NGC**

- 3818 1890 PR67 NGC.** This was the final year of the low-mintage decade when quarters and halves were struck in such paltry numbers. In the case of the 1890, only 12,000 business strikes were coined plus 590 proofs. This is a lovely example that has deep rose-colored centers with deep blue marginal toning. The overall presentation is greatly enhanced by the brightly reflective mirrors in the fields. The strike is complete throughout. Census: 9 in 67, 1 finer (1/13). NGC ID# 27US, PCGS# 6451, CoinPlex ID# LHP1890

**BARBER HALF DOLLARS**

**1892 Barber Half Dollar, MS66+  
Ideal First-Year Type Coin**

- 3819 1892 MS66+ PCGS. CAC.** A high-end Premium Gem example from the first year of the Barber design, this delightful specimen offers sharply detailed design elements, with vibrant mint luster and shades of violet-gray and champagne-gold toning. Eye appeal is outstanding. Population: 41 in 66 (3 in 66+), 12 finer (1/13). PCGS# 6461, NGC ID# 24LF, CoinPlex ID# BHM1892

---

### Border-Toned Gem 1893-S Half Dollar

- 3820 **1893-S MS65 NGC.** Six-figure mintages dot the history of the Barber half dollar, but in 1893, the second year of the design, only San Francisco fell under the million-coin threshold, coming in at 740,000 pieces. This Gem representative of the 1893-S half is remarkably well-preserved for an issue that was not saved in quantity. Blue-violet and rose-tan outer toning gives way to broad silver interiors with powerful luster. A reed mark just to the right of Liberty's earlobe largely accounts for the grade. The combined certified population has only one PCGS coin graded MS66 or finer (1/13). NGC ID# 24LM, PCGS# 6467, CoinPlex ID# BHM1893S
- 

---

### Gem 1894-O Barber Half

- 3821 **1894-O MS65 PCGS. CAC.** Soft, partly quicksilver luster remains essentially silver-white on this New Orleans Barber half. The strike is uneven on the stars and weak on the eagle's right (facing) talon but decent elsewhere. A few light marks are not serious obstacles to the Gem grade that establishes this coin as a condition rarity. Population: 9 in 65, 5 finer (1/13). PCGS# 6469, NGC ID# 24LP, CoinPlex ID# BHM1894O
- 

---

### Gem 1896-S Barber Half Dollar Prime Condition Rarity

- 3822 **1896-S MS65 PCGS. CAC.** Striking problems and excessive bagmarks plague the typical 1896-S Barber half dollar, but this exceptional coin displays sharply detailed design elements and well-preserved surfaces, with vibrant mint luster and accents of green and bluish-gray toning. Population: 8 in 65, 5 finer (1/13). PCGS# 6476, NGC ID# 24LX, CoinPlex ID# BHM1896S
- 

---

### 1897-O Barber Half, MS65+ Lustrous, Attractively Toned Example

- 3823 **1897-O MS65+ NGC.** The 1897-O Barber half dollar is a low-mintage issue, with a reported production total of 632,000 pieces. This high-end Gem offers sharply detailed design elements, vibrant mint luster, and attractive shades of blue-steel, gray, and golden-brown patina. Census: 8 in 65 (1 in 65+), 4 finer (1/13). NGC ID# 24LZ, PCGS# 6478, CoinPlex ID# BHM1897O
-

**1899-O Barber Half, Eye-Appealing MS66  
Well-Preserved Surfaces**

- 3824 1899-O MS66 NGC.** The 1899-O Barber half is not as elusive as its predecessor the 1898-O, due to its mintage which is roughly twice as large. Few survive at the Premium Gem level of the present NGC example, however. An MS67 that was formerly in the NGC population data was now been delisted, and NGC currently shows only eight submissions in MS66 as the finest. PCGS shows three in MS66+ as the finest, including the Akers-Duckor example that we offered in August 2010, lot 3195, which brought \$25,300. This MS66 NGC example is mostly silver in the centers, complementing a light peripheral ring of amber-gold. Eye appeal abounds on each side, and there are no mentionable signs of contact. The right shield corner on the reverse shows the typical weak strike, as do the wing nearby and the right (facing) claw, but otherwise there are no quibbles on this splendid coin. NGC ID# 24M7, PCGS# 6484, CoinPlex ID# BHM1899O

**1899-S Half Dollar, Frosted MS65**

- 3825 1899-S MS65 NGC.** The frosty silver-white surfaces show no trace of color on this untroubled Gem. The strike is fairly sharp, despite the presence of some very faint parallel roller marks on the cheek of Liberty, and the weakness at the right shield corner and nearby wing on the reverse are typical. Few marks appear on either side. Census: 4 in 65, 11 finer (1/13). NGC ID# 24M8, PCGS# 6485, CoinPlex ID# BHM1899S

**1899-S Barber Half Dollar, MS66  
Only Three Finer Coins at NGC**

- 3826 1899-S MS66 NGC.** Attractive shades of champagne-gold, violet, and lavender toning enliven the surfaces of this spectacular Premium Gem, with a thin streak of brilliance bisecting the obverse and vibrant mint luster underneath. The design elements are sharply detailed throughout and eye appeal is quite strong. Census: 8 in 66, 3 finer (1/13). NGC ID# 24M8, PCGS# 6485, CoinPlex ID# BHM1899S

**Premium Gem 1915-S Half Dollar**

- 3827 1915-S MS66 PCGS.** Subtly gold-tinged, more visibly on the obverse, with silver luster otherwise and a considerable gleam. Well-defined for the issue with two tiny reed marks on Liberty's cap but few abrasions elsewhere. A quality Premium Gem representative from the end of the series, the "other" 1915-S half dollar. Population: 6 in 66, 2 finer (1/13). PCGS# 6534, NGC ID# 24NT, CoinPlex ID# BHM1915S

## PROOF BARBER HALF DOLLARS

### Multicolor PR68 1896 Half Dollar

- 3828 1896 PR68 NGC. CAC.** Peach-gold and sea-green shades adorn the obverse margin and dominate the reverse, where they are joined by ruby-red, powder-blue, and lemon-gold tints. A magnificently patinated representative of the proof Barber design. Careful perusal beneath a loupe fails to locate any imperfections. The strike is full on the fletchings and shows minor inexactness only near the right shield corner. Just 762 proofs were struck. Housed in a former generation holder. Census: 6 in 68, 2 in 68 Cameo, 1 in 68 Ultra Cameo, none finer (12/12). NGC ID# 24NY, PCGS# 6543, CoinPlex ID# BHP1896

### Deep Cameo PR67 1897 Half Dollar Exquisite Late 19th Century Proof

- 3829 1897 PR67 Deep Cameo PCGS. CAC.** Silver proof coinage of the United States experienced a “golden age” from 1896 to 1898, and the best proof examples from those years are among the masterpieces of their type. This magnificent Deep Cameo Superb Gem proof Barber half is a case-in-point. A light golden overtone only enhances the inherent contrast between deeply gleaming fields and the exquisitely frosted devices that seem to emerge from them. The strike is sharp, the preservation excellent, the all-around eye appeal memorable. A worthy coin. Population: 12 in 67 Deep Cameo, 3 finer (1/13). PCGS# 96544, CoinPlex ID# BHP1897DC

### Superb Gem Proof 1900 Barber Half Mirrored Fields Under Multicolor Toning

- 3830 1900 PR67 NGC.** A remarkable Superb Gem proof, this 1900 Barber half dollar exhibits fully mirrored fields around lustrous devices with impressive gold, russet, and blue toning. Proofs of this date are elusive in high grades as the census data indicates. Census: 26 in 67, 8 finer (9/12). NGC ID# 24P4, PCGS# 6547, CoinPlex ID# BHP1900

**1900 Barber Half, PR68  
Among the 12 Finest Certified by NGC**

- 3831 1900 PR68 NGC.** This turn-of-the-century Barber half in Superb Gem proof grade is among the finest survivors from the mintage of 912 pieces, a nominal amount, even if slightly higher than the years preceding or following. NGC has seen a total of 12 submissions at this top grade level, including two each in Cameo and Ultra Cameo (1/13). While the present coin lacks such a modifier, considerable contrast between the fields and devices is apparent, more so on the reverse. Brilliant luster is equally abundant beneath a moderate layer of copper-pink patina with silver areas remaining. The strike is full throughout both sides, even on the problematic right (facing) shield border and eagle's wing nearby. NGC ID# 24P4, PCGS# 6547, CoinPlex ID# BHP1900

**WALKING LIBERTY HALF DOLLARS**

**Gem 1916-S Walking Liberty Half  
First-Year Obverse Mintmark Style**

- 3832 1916-S MS65 PCGS.** This is a gleaming white-gold Gem of this Obverse Mintmark first-year subtype within the half dollar series. All of the 1916 branch mint coins had this mintmark style. Radiant luster prevails throughout. Although a partial split thumb appears on Liberty's branch hand, the strike through the centers is still a trifle weak — the only mentionable distraction on this lovely coin. Population: 88 in 65 (1 in 65+), 14 finer (1/13). PCGS# 6568, NGC ID# 24PN, CoinPlex ID# WLM1916S

**1917-S Walking Liberty Half Dollar, MS64  
Scarce Obverse Mintmark Example**

- 3833 1917-S Obverse MS64 PCGS.** An attractive Choice example of this low-mintage early series date, with the mintmark on the obverse. The design elements are well-detailed, with some emerging detail showing on Liberty's wreath hand and the eagle's leg. The surfaces show satiny mint luster and traces of light gold toning, with only minor signs of contact. PCGS# 6572, NGC ID# 24PT, CoinPlex ID# WLM1917SOBV

**Silvery Near-Mint 1921 Half Dollar  
Sharply Struck and Attractive**

- 3834 1921 AU58 PCGS. CAC.** Just a whisper of high-point rub in the device centers on each side separates from silvery coin from a Mint State designation. Light amber-gold accents appear at the rims. Liberty shows a split thumb and the eye appeal is excellent throughout both sides. A nice alternative to a far-pricier Uncirculated example. PCGS# 6583, NGC ID# 24R6, CoinPlex ID# WLM1921

**Satiny Gem 1921 Half Dollar**

- 3835 1921 MS65 NGC.** Even casual collectors of the series are familiar with the mighty triumvirate of 1921-dated Walking Liberty halves from Philadelphia, Denver, and San Francisco, the most illustrious trio of issues, if not the rarest in every grade within the series. The 1921 Philadelphia has the second-lowest mintage but appears more often in Gem condition than the 1921-D or 1921-S. The present Gem shows light, even satin luster throughout both sides, predominantly silver with light tinges of pinkish color. The few light ticks appearing through the central high points are consistent with the grade; the only mentionable mark is at the top of the juncture of the eagle's neck and right (facing) wing. The sharp is quite bold, showing a well-defined split thumb on Liberty and excellent head details. Census: 33 in 65, 2 finer (1/13). NGC ID# 24R6, PCGS# 6583, CoinPlex ID# WLM1921

---

**Near-Mint 1921-D Half Dollar  
Strongly Struck**

- 3836 1921-D AU58 PCGS. CAC.** The 1921-D is a well-known rarity in this widely collected series. While most of the attention is focused on coins in Mint State, especially those in MS63 and better grades, those pieces are not for everyone. This piece represents excellent value. The surfaces retain almost complete mint luster, and visually this coin would blend in well with an otherwise Uncirculated set. The strike is strong for the issue, and the centers are almost brilliant with golden-blue accents surrounding the rims. PCGS# 6584, NGC ID# 24R7, CoinPlex ID# WLM1921D

---

**1921-D Walking Liberty Half, Unc Details  
Low-Mintage Series Key**

- 3837 1921-D — Reverse Improperly Cleaned — NGC Details. Unc.** An attractive, well-detailed specimen of the famous 1921-D Walking Liberty half dollar with well-preserved surfaces that display light shades of champagne-gold and lavender patina. Both sides are still lustrous, despite the noted cleaning on the reverse. From a series-low mintage of 208,000 pieces. NGC ID# 24R7, PCGS# 6584, CoinPlex ID# WLM1921D

---

**Choice AU 1921-S Half Dollar  
Key to the Series**

- 3838 1921-S AU55 PCGS. CAC.** The 1921-S Walking Liberty half dollar is the rarest issue of the series in Mint State, even though several other dates — the 1916-S, 1921-P and D, and 1938-D — have smaller production figures. It appears that the issue was not saved in any significant numbers. Today, even when Mint State specimens are found, they will be the subject of intense collector demand and will command a hefty premium. This Choice AU example may provide collectors with many of the same pleasures at a more-affordable price. As demanded of the grade, much of the mint luster remains, with light contact marks and subtle tinges of pinkish-amber near the rims, while the remainder of the surfaces are untoned and extremely appealing. PCGS# 6585, NGC ID# 24R8, CoinPlex ID# WLM1921S

---

**1928-S Half Dollar, MS65  
Exemplary Strike**

- 3839 1928-S MS65 PCGS. CAC.** Highly lustrous and virtually brilliant with exemplary surfaces. Perhaps the most impressive quality about this Gem specimen is the boldness of the strike. Good detail is seen on Liberty's head, hand, and the eagle's feathers. Although this detail is not considered full, it is remarkably better than is often seen. An elusive issue at the Mint State level and especially so in Gem condition. Population: 55 in 65, 6 finer (1/13).  
*Ex: Dallas Signature (Heritage, 12/2005), lot 2154; Long Beach Signature (Heritage, 6/2006), lot 1799; ANA Signature (Heritage, 8/2010), lot 4188.* PCGS# 6588, NGC ID# 24RB, CoinPlex ID# WLM1928S

---

**1933-S Walking Liberty Half, MS67  
None Certified Finer**

- 3840 1933-S MS67 PCGS.** The 1933-S Walking Liberty half dollar claims a smallish mintage of 1.7 million pieces, and the issue is known for its high production values. This spectacular Superb Gem is a case in point, with sharply detailed design elements and unusually vibrant mint luster throughout. Eye appeal is tremendous. Population: 8 in 67, 0 finer (1/13). PCGS# 6591, NGC ID# 24RE, CoinPlex ID# WLM1933S

---

**Premium Gem 1934-S Half Dollar  
Attractive Peripheral Toning**

- 3841 1934-S MS66 PCGS. CAC.** The pearl-gray centers are encompassed by attractive caramel-gold and aquamarine margins. This lustrous Great Depression half dollar is fully struck except for slight blending on the fingers of the branch hand. Well preserved despite minor marks on the wings and right obverse field. PCGS# 6594, NGC ID# 24RH, CoinPlex ID# WLM1934S

---

**1941-S Walking Liberty Half Dollar, MS67  
Late-Date Key in High Grade**

- 3842 1941-S MS67 NGC.** The 1941-S Walking Liberty half dollar is the most difficult coin of the late-date series to locate in high grade. This spectacular Superb Gem is well-detailed, with just a touch of the always seen softness on Liberty's branch hand. The completely brilliant surfaces radiate vibrant mint luster and eye appeal is terrific. Census: 19 in 67, 0 finer (12/12). NGC ID# 24S5, PCGS# 6613, CoinPlex ID# WLM1941S

---

**Superb Gem 1942-S Half Dollar  
Memorable Conditional Rarity**

- 3843 1942-S MS67 NGC.** Small S. A remarkably preserved Superb Gem that boasts strong luster and an above average strike on Liberty's head and skirt lines. Close to brilliant aside from a peripheral obverse arc of rose-red, apple-green, and autumn-gold. Census: 7 in 67, 0 finer (1/13). NGC ID# 24S8, PCGS# 6617, CoinPlex ID# WLM1942S

---

**1942-S Walker, Sharply Struck MS67**

- 3844 1942-S MS67 NGC.** The 1942-S is one of the standout S-mint strike rarities from the 1940s. After producing well-struck halves throughout the 1930s, quality control slipped in the San Francisco Mint, especially during the war years. This is a very strongly struck piece that only lacks a couple of spotty areas on the skirt lines for completeness in that area. The surfaces are brilliant throughout and we see no marks of consequence. The usual swirling mint frost immediately identifies this as a San Francisco product. Census: 7 in 67, 0 finer (1/13). NGC ID# 24S8, PCGS# 6617, CoinPlex ID# WLM1942S

## EARLY DOLLARS

### 1795 Three Leaves Dollar B-5, BB-27, MS61

**3845** 1795 Flowing Hair, Three Leaves MS61 NGC. B-5, BB-27, R.1. Bowers-Borckardt Die State II, with the die crack off the left wreath stem not reaching the rim. The B-5, BB-27 is the most common of the 1795 dollar die pairs regardless of design variety or subvariety, which induces price pressure from type collectors whether or not they tackle subvarieties such as the Two or Three Leaves versions of Flowing Hair dollars (the other five Three Leaves die pairs are scarce or rarer, for example). Better circulated and Mint State representatives of the B-5, BB-27 experience a magnified version of this pressure.

This example is a warmly lustrous MS61 that illustrates many of the typical characteristics of its die pair. The Bowers-Borckardt reference notes that "most early die states show striking weakness at the centers." Certainly this coin is not strong on the interiors, yet the luster flow is undisturbed even at seemingly detail-lacking zones such as the eagle's breast. The long, raised "bar" between star 5 and the uppermost flowing curl in Liberty's hair is a prominent diagnostic for the obverse die and thus the die pair.

Several colors add life to the gray base, including orange, gold, and green elements. A few small spots of charcoal toning also are present, more on the reverse. While the piece shows wispy flaws and a few deeper marks such as the near-vertical abrasion behind Liberty's eye, this coin's all-around eye appeal is better than the MS61 designation might suggest. Census: 13 in 61, 39 finer (1/13).

*From The Fenn Family Collection.* NGC ID# 24WZ, PCGS# 6852, CoinPlex ID# EDO1795FH3LEAV

**Choice VF 1795 Flowing Hair Dollar  
Two Leaves, B-2, BB-20 Variety**

- 3846** 1795 Flowing Hair, Two Leaves VF35 NGC. B-2, BB-20, R.3. Bowers-Borckardt Die State II. The diagonal bar near star 4 and the leaf end positioned below the final S in States identifies the BB-20 variety. The obverse die was also used on the BB-19 variety, and the reverse was used to strike BB-21 and BB-24 as well. Moderate even wear shows on the design elements and the pleasing gray surfaces exhibit accents of pink and gold toning. NGC ID# 24WZ, PCGS# 6853, CoinPlex ID# EDO1795FH2LEAV

**1795 Flowing Hair Dollar, XF45  
Two Leaves, B-1, BB-21**

- 3847** 1795 Flowing Hair, Two Leaves XF45 NGC. CAC. B-1, BB-21, R.2. Early unlisted die state, with clash mark from Liberty's nose to forehead. The BB-21 variety is identified by the lowest curl just touching one point of star 1, the two leaves under each wing, and the berry positioned under the right side of the first A in AMERICA. The 7 was punched over an erroneous 1, which shows clearly on this specimen. The obverse die of B-1 was also used to strike the extremely rare 1795 B-10, BB-22, and the Rarity-8 1795 B-16, BB-16 Dollars.

This attractive Choice XF specimen is toned an attractive medium gray color with a touch of blue and gold intermixed. A small planchet flaw can be seen between STATES and OF.  
Ex: FUN Signature (Heritage, 1/2002), lot 7167. NGC ID# 24WZ, PCGS# 6853, CoinPlex ID# EDO1795FH2LEAV

**Centered Draped Bust 1795 Dollar  
B-15, BB-152, VF30**

- 3848** 1795 Draped Bust, Centered VF30 PCGS. B-15, BB-152, R.2. Bowers-Borckardt Die State IV, with extended die break in Liberty's hair but no crack through the second part of AMERICA. This coin presents in grayscale, light on worn areas such as Liberty's portrait and medium to dark, sometimes slate-blue or charcoal, through the fields. The moderately worn obverse is pleasing, though several small digs affect the eagle on the reverse. PCGS# 6858, NGC ID# 24X2, CoinPlex ID# EDO1795DRAP

**AU53 B-4, BB-61 1796 Silver Dollar  
Small Date, Large Letters**

- 3849** 1796 Small Date, Large Letters AU53 NGC. B-4, BB-61, R.3. Bowers-Borckardt Die State II. Substantial mint luster greets the viewer of this lightly circulated Small Eagle dollar. The fields and devices are essentially untuned, though the peripheries exhibit rich golden-brown and sea-green shades. Adjustment marks, made at the First Philadelphia Mint prior to the strike to bring the piece within statutory weight, are prominent on the eagle but less conspicuous near the border. No post-strike abrasions are consequential, although the obverse displays minor marks from its short stint in commerce during the final full year of the Washington Administration. PCGS# 6860, CoinPlex ID# EDO1796SDLL

**1796 Small Date, Small Letters Dollar  
Extremely Fine B-1 Variety**

- 3850** 1796 Small Date, Small Letters XF40 NGC. B-1, BB-66, High R.3. A scarcer Bolender marriage that can be identified by the comparatively close spacing of the 96 in the Small Date. Golden-brown and gunmetal-gray patina alternates across this nicely detailed early dollar. The portrait has a few handling marks and the upper left reverse border has a hint of granularity, but the fields and the reverse are relatively devoid of contact.  
Ex: New York Signature (Heritage, 7/2004), lot 6858.  
From The Fenn Family Collection. NGC ID# 24X3, PCGS# 6859, CoinPlex ID# EDO1796SDSL

**1796 Draped Bust Dollar, AU55  
Small Date, Small Letters, B-1, BB-66**

- 3851 1796 Small Date, Small Letters AU55 NGC. B-1, BB-66, R.4.** Bowers-Borckardt Die State II. The very scarce BB-66 variety is identified by the point of star 13 pointing to the top fold of drapery and the berry positioned below the A in STATES on the reverse. This was the only use of the obverse die, but the reverse was also used to strike five other varieties over a four-year period, from 1795 to 1798. Die evidence suggests that the BB-66 variety was actually struck in 1798. This coin is an attractive Choice AU specimen with just a touch of wear on the well-detailed design elements. The surfaces are remarkably free of significant distractions. A few traces of mint luster shine under shades of lavender-gray and champagne-gold patina. Census: 21 in 55, 23 finer (12/12). NGC ID# 24X3, PCGS# 6859, CoinPlex ID# EDO1796SDSL

**Smooth B-5, BB-65 1796 Dollar  
Large Date, Small Letters Reverse**

- 3852 1796 Large Date, Small Letters VF25 NGC. B-5, BB-65, R.2.** Bowers-Borckardt Die State IV with a large die break between the IC in AMERICA. B-5 is the sole Large Date variety for 1796. This Small Eagle dollar has pearl-gray high points that contrast with gunmetal-gray fields. No marks are readily evident and the wings show pleasing definition for the VF25 level. PCGS# 6861, CoinPlex ID# EDO1796LDSL

**Choice XF 1797 Silver Dollar  
10x6 Stars, Large Letters, B-3, BB-71**

- 3853 1797 10x6 Stars, Large Letters XF45 NGC. B-3, BB-71, R.2.** Bowers-Borckardt Die State IV. The unorthodox 10x6 star arrangement causes LIBERTY to appear uncentered above the portrait. A chestnut-brown early dollar with pleasing definition despite light wear on the eagle's breast. Surprisingly unabraded overall, though we note one slight reverse rim ding is noted at 5:30. Ex: *Long Beach Signature (Heritage, 2/2006)*, lot 1600, which realized \$8,625. NGC ID# 24X4, PCGS# 6865, CoinPlex ID# EDO179710X6

**1798 Draped Bust Dollar, AU58  
Heraldic Eagle, B-23, BB-105**

**3854** 1798 Large Eagle, Pointed 9, Wide Date AU58 NGC. B-23, BB-105, R.3. Bowers-Borckardt Die State III. A scarce late die state. The 1798 Draped Bust dollar claims a mintage of 327,536 pieces, and both Small Eagle and Heraldic Eagle reverse motifs were employed during the year. Only two die varieties are known for the Small Eagle type, but the Heraldic Eagle design boasts a total of 31 different varieties. This coin represents the slightly scarce BB-105 variety, with a flaw on star 4 and the leaf point under the left foot of I in AMERICA. The obverse die was also used to strike the BB-104 variety and the reverse was used on the early state of BB-106.

This coin features well-struck design elements, with a touch of softness on the centers and some incomplete hair detail, due to lapping of the dies. The pleasing surfaces are blanketed in shades of bluish-gray and champagne-gold toning, with much original mint luster underneath. Only minor signs of contact are apparent. Census: 61 in 58, 40 finer (1/13). PCGS# 6877, CoinPlex ID# EDO1798LGEAGWIDEDT

**AU50 1800 Bust Dollar  
Scarce B-4, BB-186**

**3855** 1800 AU50 PCGS. B-4, BB-186, R.4. One of three uses of the reverse with re-engraved T in UNITED and die dots around the second S in STATES. Generous luster remains on lightly worn surfaces with streaky patina, blue-green, gold, olive, and violet-silver to varying degrees. An old pinscratch is noted in the left obverse field. PCGS# 6887, NGC ID# 24X9, CoinPlex ID# EDO1800

**Colorful AU 1800 Dollar  
Better B-8, BB-188 Marriage**

**3856** 1800 AU50 PCGS. CAC. B-8, BB-188, R.4. Bowers-Borckardt Die State IV. Splashes of golden-brown toning cling to the borders of this richly detailed early silver dollar. Luster is evident in protected regions, and the only remotely mentionable mark is a hair-thin field line above the left half of the banner. A better Bolender variety identified by a die lump within the R in LIBERTY. PCGS# 6887, NGC ID# 24X9, CoinPlex ID# EDO1800

**Unmarked 1800 Silver Dollar, AU50  
B-12, BB-184**

**3857** 1800 AU50 PCGS. CAC. B-12, BB-184, R.3. Bowers-Borckardt Die State II. Repunching on the R in LIBERTY and a die break on the E in AMERICA identify this moderately scarce Bolender variety. Dove-gray and chestnut-gold shades embrace the well defined surfaces. Luster illuminates the borders and motifs. There are no relevant marks. PCGS# 6887, NGC ID# 24X9, CoinPlex ID# EDO1800

1802/1 Narrow Date Dollar, B-1, BB-231  
Colorful Near-Mint State Example

- 3858** 1802/1 Narrow Date AU58 NGC. B-1, BB-231, R.4. The *Guide Book* lists four varieties for the 1802 dollars, including the 1802/1 overdates with Wide or Narrow Date and the Normal Date with the same attributes. All four are more or less rare as *Guide Book* varieties. The 1802/1 overdate with Narrow Date comprises two die pairings, the present R.4 B-1, BB-231 and the R.3 B-4, BB-232. The two different Narrow Date overdate obverses can be easily distinguished, however: The BB-231 shows the 8 in the date centered and upright between the 1 and 0 but entered too low, while BB-232 shows the 8 equidistant between 1 and 0 but tilted to the right at its top. This piece displays underlying brightness covered with a layer of medium-density, variegated gray, rose, and blue patina on each side. The strike is slightly soft in the centers of each side, but there are no mentionable marks on either side. This variety is quite conditionally rare in so fine a grade. For the 1802/1 Narrow Date, both varieties, Census: 18 in 58, 7 finer (1/13). We suspect most of those are the BB-232. NGC ID# 24XC, PCGS# 6898, CoinPlex ID# EDO1802OVR1

GOBRECHT DOLLARS

1836 Judd-60 Gobrecht Dollar, PR30  
Die Alignment I, Light Gray Patina

- 3859** 1836 Name on Base, Judd-60 Original, Pollock-65, R.1, PR30 NGC. Silver. Plain Edge. No Stars Obverse, Stars Reverse. Die Alignment I (the center of Liberty's head is opposite the O in DOLLAR). There is no trace of the diagonal die clash on the reverse, placing this piece among the 400 dollars struck first in the final week of December in 1836. The devices show even high-point friction from circulation, yet the fields retain a glimmer still of the original proof finish. Numerous small handling marks are scattered over each side, with a few larger marks and one shallow scratch reserved for the reverse. The surfaces are light gray with a faint presence of reddish patina. PCGS# 11225, CoinPlex ID# GOB1836ORIG

**PR40 1836 Gobrecht Dollar  
Judd-60, Die Alignment I**

- 3860** 1836 Name on Base, Judd-60 Original, Pollock-65, R.1, PR40 PCGS. Silver. Plain Edge. No Stars Obverse, Stars Reverse. Die Alignment I (the center of Liberty's head is opposite the O in DOLLAR). There is just the slightest evidence of the straight die clash mark above the eagle's wing angling toward AT in STATES. Not only is it faint, but it is partially obscured by numerous small abrasions in the area as well as the rest of the coin. Medium gray patina covers most of each side with contrasting brilliantish accents over the high points. A milling mark and small planchet void in the right obverse field are the only mentionable defects. PCGS# 11225, CoinPlex ID# GOB1836ORIG

**1836 Gobrecht Dollar, PR61  
Judd-60 Restrike, Die Alignment III  
Richly Toned and Deeply Reflective**

- 3861** 1836 Name on Base, Judd-60 Restrike, Pollock-65, R.5, PR61 PCGS. Silver. Plain Edge. Die Alignment III (head of Liberty opposite the N in ONE after a coin turn). Die Alignment III coins are always seen with reverse die cracks. On this piece they are quite obvious through the tops of NITED STATES O, but less evident at the bottom of OLLA. All Die Alignment III coins are restrikes. Coins such as this one, with no die rust to the left of the face of Liberty, are believed to have been struck in the late 1850s.

This late 1850s striking period is consistent with the appearance of this coin. The fields are deeply mirrored, even through the toning, much more so than the fields on the 1836 Originals. For a PR61 this coin still has a lot of pop. Yes, the fields show hairlines, but the rich blue and gray toning does a good job of concealing many of them, at least at arm's length. The strike details are strong overall with complete head and foot definition on Liberty, but just a bit of softness on the breast of the eagle.

*Ex: Long Beach Signature (Heritage, 9/2010), lot 4342.*

*From The Fenn Family Collection. PCGS# 11227, CoinPlex ID# GOB1836RES*

---

**1838 Judd-85 Gobrecht Dollar, PR65**  
**Fewer Than a Dozen Pieces Believed Known**

**3862 1838 Name Omitted, Judd-85 Restrike, Pollock-94, High R.7. PR65 NGC.** Silver. Plain Edge. Stars Obverse, No Stars Reverse. Die Alignment III (the center of Liberty's head is opposite the N in ONE). This rarity is a variant of the Judd-84 1838 Gobrecht dollar, a rarity in its own right, the difference between the two being in the edge treatment, the Judd-84s have a reeded edge and the Judd-85s are plain edge coins.

As noted in the *Gobrecht Dollars* reference, all Judd-85s show the same reverse characteristics. All show minute die cracks that connect MERI, TE, and LAR (continuing into the field to the right). The spur on the right side of the D in UNITED is also diagnostic. The always-seen depression below the F in OF is very faintly seen on this piece, most likely obscured by the toning. The Judd-84 dollars are believed to have actually been struck in 1838, and are considered by many to be the only legitimate patterns in the Gobrecht series. The Judd-85 dollars are restrikes and were undoubtedly struck by Mint personnel for sale to collectors. The fields on this piece have confirmed reflectivity that is consistent with later 19th century proofs. It is believed these pieces were actually struck during Henry Linderman's second term as Mint director, sometime between 1873 and 1878.

These pieces are extremely rare. Our reference for this series states that probably only a dozen pieces exist, but there may be even fewer. We only know of four other coins. One was offered by Stack's in their 2003 sale of the L.K. Rudolf Collection and graded Very Choice Brilliant Proof; another piece was plated in the *Gobrecht Dollars* book on page 101, a coin owned at the time by Kenneth Goldman; the ANS/Korein PR62 coin; and the fourth is a PR66 piece sold by us as part of the Lemus/Queller Collection, a piece that brought \$149,500 in January 2009.

The depth of mirroring in the fields would undoubtedly be even more pronounced were it not for the layers of color present. Each side displays variegated shadings of rose, blue, golden, and brown, lighter in the center of the obverse and deeper around the margin. The color is evenly distributed across the reverse. The strike is generally full. This includes complete definition on the foot of Liberty, the eagle's breast feathers, and the right-side stars on the obverse. The only weakness is noted on stars 4 through 8 on the left side of the obverse. This same area of weakness is seen on the Rudolf coin, but is not present on the ex: Goldman piece, and is only slightly evident on the Lemus coin. The only pedigree markers we see are three short parallel marks in the field above the eagle's wing. This rarity should be of great interest to the Gobrecht specialist. PCGS# 11354, CoinPlex ID# PAT1838J85RES

## SEATED DOLLARS

Richly Toned Choice Mint State  
1859 Seated Dollar

- 3863 1859 MS64 NGC.** At certain angles to the light, this pre-Civil War Seated dollar takes on a semiprooflike and contrasted appearance. Well-struck central devices have a frosty character and the fields are reflective. A rich blanket of gold, orange, and blue-violet drapes the whole, while the fields show a curious mix of lint marks and small abrasions. Census: 16 in 64, 0 finer (1/13). From *The Fenn Family Collection*. NGC ID# 24YX, PCGS# 6946, CoinPlex ID# L\$M1859

Near-Gem 1863 Seated Dollar  
Attractive Condition Rarity

- 3864 1863 MS64 NGC.** A light golden cast settles over otherwise silver-to-white surfaces that offer varying levels of opacity in the patina. Well-defined devices show a degree of frostiness on the highest design elements. While both sides show small faults, including a line of reed marks around stars 11 and 12, this near-Gem representative is uncommonly high-grade for a Civil War-era Seated dollar issue that emerged in an atmosphere where the coins were more precious as bullion than as "Union" money. Only 27,200 business strikes were produced. Census: 24 in 64, 4 finer (1/13). NGC ID# 24Z6, PCGS# 6953, CoinPlex ID# L\$M1863

XF Sharpness 1871-CC Silver Dollar  
Only 1,376 Pieces Struck

- 3865 1871-CC — Polished — NGC Details. XF.** The tiny mintage of 1,376 pieces and its second-year Carson City status ensure the issue is much rarer than its 1870-CC predecessor. The present well-defined example is untuned and bright from polishing and has an obverse rim ding at 3 o'clock. A lens reveals scattered small marks of little consequence. NGC ID# 24ZH, PCGS# 6967, CoinPlex ID# L\$M1871CC

1871-CC Seated Dollar, Choice AU  
Lowest CC Dollar Mintage

- 3866 1871-CC AU55 NGC.** After a mintage of 11,758 silver dollars at the Carson City Mint in 1870, production dropped off dramatically, to just 1,376 pieces in 1871. In fact, the 1871-CC had the lowest mintage of any Seated Liberty dollar with the sole exception of the obscure (and unknown) 1873-S. While scarce in all grades, the 1871-CC is exceptionally difficult to locate in high grades. The opportunity to acquire an About Uncirculated example does not come along very often.

A touch of silver on the high points accents the golden-gray toning that covers the majority of both sides. We note a light scrape in the field from Liberty's shoulder to star 5 and a shallow mark near star 13 for pedigree purposes. There are no other significant abrasions. Census: 5 in 55, 11 finer (1/13). Ex: *ANA Signature (Heritage, 8/2010)*, lot 3295. NGC ID# 24ZH, PCGS# 6967, CoinPlex ID# L\$M1871CC

## PROOF SEATED DOLLARS

### Elegantly Toned PR66 1861 Seated Dollar

- 3867 1861 PR66 PCGS. CAC.** While the 1861 Seated dollar enjoyed a relatively high proof mintage of 1,000 specimens, that figure was down from the year before, and the denomination would not return to so high an output for the rest of the decade. This is a richly toned Premium Gem representative of the proof 1861 Seated dollar with roughly concentric toning that has gold-to-peach interiors, blue-violet outer toning, and a touch of orange at the obverse rims. Reflectivity is generous, the strike and preservation excellent. A worthy coin in all regards. Population: 3 in 66, 1 finer (1/13).  
*From The Fenn Family Collection. PCGS# 7004, NGC ID# 252F, CoinPlex ID# L\$P1861*

### 1863 Seated Dollar, Gem Proof Low-Mintage Date

- 3868 1863 PR65 PCGS. CAC.** Elegant mirrors shine through medium-density toning, gray-gold and blue with traces of peach in between. The frostiness of the sharply struck devices shows in places, hinting at underlying contrast. A small planchet irregularity to the right of Liberty's right (facing) elbow may serve as a future pedigree marker. At just 460 pieces, this Civil War-era proof issue saw a smaller mintage than most of its surrounding years, and higher-quality representatives such as this Gem are in short supply. Population: 5 in 65, 9 finer (1/13). PCGS# 7006, NGC ID# 252H, CoinPlex ID# L\$P1863

Lightly Toned PR63 Cameo  
1863 Seated Dollar

- 3869 1863 PR63 Cameo PCGS. CAC. At the height of the Civil War, the Philadelphia Mint persisted in making proof coins for the small elite of coin collectors at the time. Though this example shows light hairlines in its reflective fields, it offers excellent field-device contrast under a layer of light golden toning that eases toward rose-violet near the rims. Population: 14 in 63 (2 in 63+) Cameo, 15 finer (1/13). PCGS# 87006, CoinPlex ID# L\$P1863CA

Choice Proof 1865 Seated Dollar  
Low-Mintage Civil War Date

- 3870 1865 PR64 PCGS. Only 500 proof Seated Liberty dollars were struck in 1865, but the survival rate for the issue is fairly high. The design elements of this impressive Choice example are sharply detailed and the fields are deeply mirrored, under shades of sea-green and cerulean-blue toning. Population: 31 in 64, 31 finer (1/13). PCGS# 7008, NGC ID# 252K, CoinPlex ID# L\$P1865

1865 Seated Dollar, Deeply Mirrored PR67  
Among the Finest Known

- 3871 1865 PR67 NGC. The 1864 and 1865 Seated dollar issues are both extremely rare as high-grade business strikes, with only six to 10 examples estimated to have survived in Gem or finer condition, and one or two of the 1865 business strikes in similar grade. Both dates were low-mintage productions to begin with, and most of each were apparently exported. The proofs of each issue are more available, although still quite elusive in Superb Gem. A total of 470 proofs were reported struck of the 1864 Seated dollar, and 500 proofs of the 1865.

Bowers gives an estimate of 48 or so survivors of the 1865 Seated dollar proof in PR65 or finer condition. That is an amount far smaller than the 80 examples that PCGS' CoinFacts website gives as an estimate in PR65 or better. The combined NGC/PCGS certified population reports, which nonetheless seem to be riddled with many duplicates, show 94 Gem or finer proofs in all contrast levels.

This immaculate Superb Gem is fully struck throughout both sides and displays lovely original color in shades of powder-gray, pinkish-blue, and lavender, with deeper rim toning on each side. A couple of tiny charcoal accents within the first two shield stripes should provide future pedigree identification. A coin of remarkable technical and aesthetic quality.

From The Fenn Family Collection. NGC ID# 252K, PCGS# 7008, CoinPlex ID# L\$P1865

---

1871 Seated Dollar, PR67 Ultra Cameo  
Extraordinary Cameo Contrast  
None Certified in Higher Numeric Grades

**3872 1871 PR67 Ultra Cameo NGC.** Among With Motto Seated Liberty dollars, the 1871 claims the second-highest proof mintage of the series, at a generous 960 pieces. The coins were primarily sold with the proof sets, which enjoyed a steady demand throughout the year. It is not likely that any significant number went unsold, as the final delivery of 110 coins took place in November, indicating that supplies had run low before the popular Christmas season. The 1871 has a typical survival rate for proofs of that era, as NGC and PCGS have combined to certify a total of 454 coins between them (1/13), or just a little less than 50 percent of the original mintage.

At least two obverse dies and probably two reverse dies were prepared for the proof coinage in 1871. This coin represents the more available Breen-5488 variety, with the final digits in the date clearly separated and some minor doubling on the feathers of the left wing (not to be confused with the Doubled Reverse Die variety listed by Q. David Bowers in his series reference). According to the description of lot 921 in the Chapman brothers' sale of May 27, 1889, some of the 1871 proofs were made from silver obtained by melting down silver trumpets deposited by Philadelphia's Diligent Fire Engine Company 10.

The present coin exhibits profound cameo contrast between the deeply mirrored fields and the richly frosted devices. The black-on-white cameo flash is stunning when this coin is tilted in the light. The design elements are sharply detailed and the pristine surfaces show no signs of toning or contact. Eye appeal is truly remarkable. Census: 2 in 67 Ultra Cameo, 1 in 67 ★ Ultra Cameo, 0 finer (1/13). PCGS# 97019, CoinPlex ID# L\$P1871DC

## PROOF TRADE DOLLARS

### PR66 Cameo 1880 Trade Dollar Bold Color and Contrast

- 3873 1880 PR66 Cameo PCGS.** The most beautiful proof Trade dollars often are the most colorful, and this Premium Gem Cameo proof specimen of the highest-mintage issue in the series, the 1880, fits in both worlds. Though both sides have deep color, peach-to-gold on the interiors with violet-to-blue hues in crescents around all but left on each side, the essential contrast between gleaming fields and frosted devices remains intact. The cameo effect is particularly remarkable on the obverse with its boldly realized seated figure of Liberty. Population: 8 in 66 Cameo, 6 finer (1/13). PCGS# 87060, CoinPlex ID# T\$P1880CA

### 1882 Trade Dollar, PR65 ★ Cameo Richly Toned

- 3874 1882 PR65 ★ Cameo NGC.** The 1882 Trade dollar was produced exclusively in proof format, with a limited mintage of 1,097 pieces. This spectacular Gem is sharply detailed in most areas, but the upper stars show just a touch of flatness. The surfaces are patinated in spectacular shades of champagne-gold and cerulean-blue. The reflective fields contrast sharply with the frosted devices. Census: 28 in 65 Cameo, 15 finer (1/13). PCGS# 87062, CoinPlex ID# T\$P1882CA

## MORGAN DOLLARS

### Gem 1879-CC Morgan Dollar Bold Reverse Patina

- 3875 1879-CC MS65 PCGS.** This high-end Gem survivor looks like two completely different coins between its sides. The obverse is delicately frosted on the portrait with swirling cartwheel luster around, the whole faintly toned over in pale gray. The reverse, by contrast, has bold patina, primarily gold-to-orange with striking blue and violet elements enhancing the left and upper borders. The strike is decent for the date, though not complete. The 1879-CC Morgan dollar was underrepresented in 20th century government holdings relative to its peers and high-grade survivors are elusive today. Population: 97 in 65 (1 in 65+), 2 finer (1/13). PCGS# 7086, NGC ID# 253T, CoinPlex ID# M\$M1879CC

**1879-CC Morgan, MS64 Deep Mirror Prooflike  
Deeply Contrasted and Reflective**

**3876 1879-CC MS64 Deep Mirror Prooflike ANACS.** Only 756,000 examples of the 1879-CC Morgan dollar were struck, and even newcomers to the series know it as the first Carson City “showstopper” in the series, along with the 1889-CC and, to a lesser extent, the 1893-CC. Few examples survive with deep contrast on both sides, yet the surfaces on this piece boast extremely deep, mirrored reflective fields contrasting with heavy mint frost on the devices. Most of each side is brilliant with just the slightest accent of golden color around the peripheries. This piece is unusually clean for an 1879-CC. The centers are well brought up and show almost none of the softness often seen on Deep Mirror Prooflike examples of this issue.

*Ex: Charlotte ANA National Money Signature (Heritage, 3/2003), lot 6586. NGC ID# 253T, PCGS# 97087, CoinPlex ID# M\$M1879CCDMPL*

**Colorful 1879-CC Dollar, MS63  
VAM-3 ‘Capped Die’**

**3877 1879-CC Capped Die MS63 PCGS. VAM-3.** A Top 100 Variety. Magnificently patinated on both sides. The obverse is bathed in lavender, ocean-blue, and butter-gold. The reverse displays peach-gold, aquamarine, and lilac toning. Satiny and nicely struck with the expected number of small marks. The 1879-CC is a much better Carson City date, and the “Capped Die” repunched mintmark constitutes a minority of the issue. PCGS# 7088, NGC ID# 253T, CoinPlex ID# M\$M1879CCCAP

---

1884-S Morgan Dollar, MS63  
Classic Condition Rarity and Series Key

**3878 1884-S MS63 PCGS. CAC.** A substantial mintage of 3.2 million Morgan dollars was accomplished at the San Francisco Mint in 1884, but most of the mintage was released into circulation at the time of issue, and few coins were saved for numismatic purposes. The 1884-S is plentiful in circulated condition, but high-grade specimens are quite elusive in today's market.

Undoubtedly, some bags were retained in Treasury vaults, as small numbers were later released to customers in the period from 1926 to the early 1950s. It seems likely that the bulk of the government stockpile was melted under the provisions of the Pittman Act in 1918, however, as the numbers released in later years were never large, and the issue attracted little attention.

The 1884-S was not well-represented in the great Treasury releases of the 1960s, and series specialists finally realized that the issue was scarce in all Mint State grades, and rare above the Select level. Today, the 1884-S is recognized as an important key to the Morgan dollar series in high grade. Auction appearances in modern times include the impressive Select specimen in lot 4184 of the Central States Signature (Heritage, 4/2002), which realized \$54,050.

The present coin is a delightful Select example, with sharply detailed design elements that show bold, if not full, definition on the hair strands above Liberty's ear. The mostly brilliant surfaces display a few areas of pale green and gray toning, with most of the color on the reverse. Both sides exhibit a mixture of vibrant satiny mint luster and semiprooflike reflectivity. We expect intense competition from Morgan dollar enthusiasts when this lot is called. Population: 42 in 63, 15 finer (1/13).

From The Fenn Family Collection. PCGS# 7156, NGC ID# 254P, CoinPlex ID# M\$M1884S

Rare Uncirculated 'Hot Lips' VAM-4  
1888-O Silver Dollar

- 3879 1888-O Doubled Die Obverse MS60 PCGS. VAM-4.** A Top 100 Variety. The famous "Hot Lips" *Guide Book* variety with strong die doubling on Liberty's profile. This variety is relatively available in circulated grades but is a great rarity in Mint State. It is unknown above MS61. The present piece displays unbroken cartwheel luster and has light butter-gold toning at the margins. The centers are lightly impressed and the cheek and fields exhibit moderate marks commensurate with the grade. Population: 1 in 60, 2 finer (1/13). PCGS# 7308, CoinPlex ID# M\$M1888ODDO

1889-CC Dollar, AU58 Example  
Impressive Remaining Mint Luster

- 3880 1889-CC AU58 PCGS. CAC.** The 1885-CC and 1889-CC Morgan dollar issues are a study in contrasts. The 1885-CC was the last before the Carson City Mint closed for four years, and the 1889-CC was the first Morgan dollar struck after the hiatus. The 1885-CC, due to its abundant presence in the GSA sales — more than half of the original mintage of 228,000 pieces — is actually difficult to find in *circulated* grades. The 1889-CC had a recorded mintage of some 350,000 coins, but most were apparently melted later — perhaps in the Pittman Act destructions around 1920. Circulated examples of the 1889-CC can be found, but problem-free midgrade (and especially high-end AU) examples are scarce and hotly contested. This is an attractive and appealing example for the collector. The mint luster is thin but almost complete over both sides, only interrupted by slight friction and a number of small abrasions, none of which are worthy of note. The strike is strong and each side has light gray patina. PCGS# 7190, NGC ID# 2559, CoinPlex ID# M\$M1889CC

---

1889-CC Morgan Dollar, MS61  
Important CC-Mint Key

**3881 1889-CC MS61 ANACS.** As every student of the Morgan dollar series knows, the 1889-CC is the undisputed key to the Carson City series. The issue was only lightly represented in the great Treasury releases of the 1960s, and it seems likely that much of the small mintage of 350,000 pieces was melted in 1918, following the protocols of the Pittman Act. Examples in MS61 condition are scarce in today's market, and the issue becomes quite rare at higher levels.

This impressive Mint State coin is sharply detailed throughout, and both sides retain much of their original mint luster. Wisps of golden-tan toning are evident on both sides and a spot of violet color accents the border of Liberty's cap. The surfaces show the expected number of contact marks for the grade, but all are minor and none deserve individual mention. Altogether, an attractive specimen of this important key. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

---

Select 1889-CC Morgan Dollar  
Very Scarce at This Level

**3882 1889-CC MS63 NGC.** The Carson City Mint was reopened for coinage operations in 1889, after a four-year hiatus. A small mintage of 350,000 pieces was accomplished, and most of the coins that were not released into circulation were stored in Treasury vaults and later melted, under the provisions of the Pittman Act. As a result, the 1889-CC is the most elusive Carson City Morgan, and a sought-after key issue in the series.

This attractive Select specimen displays sharply detailed design elements and vibrant cartwheel mint luster. A few hints of delicate golden-tan toning add to the considerable eye appeal, and only a few scattered contact marks are evident. Census: 60 in 63, 47 finer (1/13). NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

---

MS65 ★ 1890 Silver Dollar

**3883 1890 MS65 ★ NGC.** Dramatic cherry-red, forest-green, lemon-gold, and powder-blue patina endows the obverse. The reverse is brilliant save for slender bands of gunmetal-blue, ruby-red, and sun-gold near the left margin. This lustrous Gem has a suitable strike and displays only minor obverse marks. Census: 3 in 65 ★, none finer with a Star designation (12/12). NGC ID# 255C, PCGS# 7196, CoinPlex ID# M\$M1890

**1890-CC Dollar, Silver-White MS66  
Frosted Surfaces**

**3884 1890-CC MS66 PCGS. CAC.** The surfaces on this Premium Gem 1890-CC Morgan dollar show plenty of frosted mint luster amid silver-white color and an absence of any discernible toning. The lack of mentionable abrasions — save for a single nick on the reverse, on the eagle's right (facing) breast and not overlarge — is unusual for the issue, accentuating the surface quality and putting this piece into a distinct minority. The strike is sharp throughout, even at the hair over Liberty's ear. PCGS has seen only 10 submissions in this grade with none finer, and NGC has graded only two in MS66 with none finer (1/13). PCGS# 7198, NGC ID# 255D, CoinPlex ID# M\$M1890CC

**Satiny Select 1893-CC Dollar  
The 'Third Key' Among Carson City Morgans**

**3885 1893-CC MS63 NGC.** The last of a fabled Old West era, the 1893-CC Morgan dollars possess a cachet all their own. Most are unfortunately poorly made, but this Select example is in the minority. The silver-white surfaces show generous frosted luster with no trace of toning. A few scattered marks appear on Liberty's cheek and elsewhere consistent with the grade, but none are severe or overly distracting. The 1893-CC is considered the "third key" in the CC-mint Morgans along with the 1879-CC and 1889-CC. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

**1893-CC Silver Dollar, MS64  
Final CC Issue**

**3886 1893-CC MS64 PCGS.** The final Carson City issue and an important condition rarity that is in strong demand across all grades. This Choice Mint State specimen approaches the Gem level, exhibiting full mint brilliance and frosty silver luster. PCGS has only certified 11 finer examples (1/13). PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

---

Choice 1895-O Morgan Dollar  
Low-Mintage Condition Rarity  
Only Seven Finer Coins at PCGS

**3887 1895-O MS64 PCGS. CAC.** From a small mintage of 450,000 pieces, the 1895-O Morgan dollar is one of the most elusive issues of the series in high grade. As Q. David Bowers says in his series reference:

"The rarity and importance of the 1895-O in Mint State cannot be overemphasized. As a dealer I know full well that only rarely does a specialized collection of Morgan dollars contain a specimen in *any* Uncirculated grade. Over the years, the 1895-O has received very little publicity, as virtually no one has had a vested interest (i.e. inventory)."

Bowers goes on to estimate a surviving population of 30-50 examples in MS64 condition, but even this small number is almost certainly too high. PCGS and NGC have combined to certify only 24 Choice examples between them, including an unknown number of resubmissions and crossovers (1/13).

From a quality standpoint, the typical 1895-O had two strikes against it from the time it was struck. The dies were deliberately spaced at a wider-than-optimal distance, in an ineffectual effort to prevent breakage and prolong die life. This resulted in coins that were softly struck and lackluster. A large number of these coins was released into circulation at the time of issue, and circulated examples are not difficult to locate in today's market. Many more coins were stored in Treasury vaults, and most of these were probably melted in 1918, under the provisions of the Pittman Act. That the 1895-O is the only Morgan dollar issue that was not represented in the great Treasury releases of the 1960s goes far to explain the rarity of this issue in high grade today.

The present coin is an attractive Choice example, with satiny mint luster under shades of lavender-gray, magenta, and sea-green toning. The strike is better-than-average, with just a touch of the typical softness on the hair above Liberty's ear. Only a few minor contact marks can be detected on both sides. This coin should find a home in a fine collection or Registry Set. Population: 11 in 64, 7 finer (1/13). PCGS# 7236, NGC ID# 255Y, CoinPlex ID# M\$M1895O

**1896-O Morgan Dollar, MS63  
Seldom Hoarded**

**3888 1896-O MS63 PCGS.** There are many low-mintage dates that are plentiful in high grades due to long term storage in the U.S. Treasury. There are also a few high-mintage issues that are rare in high grades for exactly the opposite reason. Nearly 5 million 1896-O Morgan dollars were minted, but most of those coins entered circulation. Today, the average certified grade is less than 55, and any Mint State piece that is finer than the present specimen is a major rarity, as PCGS has only certified 29 pieces in MS64 or finer grades. This example is fully brilliant with typical design weakness, but with exceptional surfaces and luster. PCGS# 7242, NGC ID# 2563, CoinPlex ID# M\$M1896O

**1903-S Dollar, Elusive Near-Gem Example**

**3889 1903-S MS64 NGC.** This satiny silver-gray piece shows no evidence of discernible color otherwise, and the few small marks that account for the grade are mostly confined to the reverse fields. The strike is sharp even on the hair over the ear, and the generous luster produces excellent eye appeal. This 1903-S is desirable in any Mint State grade, and high-end, attractive examples such as this coin are far more elusive. NGC ID# 256T, PCGS# 7288, CoinPlex ID# M\$M1903S

**PROOF MORGAN DOLLARS**

**Deeply Patinated 1880 Morgan Dollar, PR65**

**3890 1880 PR65 PCGS.** This Gem proof of the 1880 Morgan dollar is decently detailed and well-preserved, but the real story is its patina, deep enrobing waves of blue and dusky peach. Hints at the coin's past reflectivity and contrast appear at the interior reverse, which shows a subtle cameo effect at certain angles to the light. Population: 43 in 65, 50 finer (1/13). PCGS# 7315, NGC ID# 2724, CoinPlex ID# M\$P1880

**Fully Struck, Brilliant Premium Gem Proof  
1881 Morgan Dollar, Cameo Example**

**3891 1881 PR66 Cameo PCGS.** Any Morgan dollar proof, regardless of date, is conditionally rare at the Gem level, with Premium Gems considerably more so. The large size and exposed high points of the coins, as well as their relatively low face value compared to proof gold, made them more susceptible to contact marks and carelessness than many other U.S. coin series. The 1881 Morgans saw a typical proof mintage of 984 coins, but the majority of them fall below the Gem proof level. This PR66 Cameo PCGS-graded piece is brilliant and deeply mirrored, displaying strong mint frost that borders on a Deep Cameo designation. The impeccable strike is full throughout both sides. There are no mentionable signs of contact. Population: 7 in 66 (1 in 66+) Cameo, 6 finer (1/13). PCGS# 87316, CoinPlex ID# M\$P1881CA

**1892 Morgan Dollar, PR65  
Vivid Multicolor Toning**

**3892 1892 PR65 PCGS.** A generous proof mintage of 1,245 Morgan dollars was struck in 1892, but examples in Gem condition are very scarce today. This well-detailed Gem displays deeply reflective fields under shades of cobalt-blue, lavender-gray, and lime-green toning. Population: 28 in 65, 34 finer (1/13). PCGS# 7327, NGC ID# 272M, CoinPlex ID# M\$P1892

---

1895 Morgan Dollar, PR66 Cameo  
Always Sought-After, Proof-Only Date

**3893 1895 PR66 Cameo NGC.** In the narrowest sense, the 1895 proof Morgan dollar is not much rarer or less rare than its cousins — other proof silver dollar issues from the 1890s. The well-known mintage of 880 proof 1895 dollars in percentage terms is not significantly different from either the production of the 1894 proofs, at 972 pieces, nor the 1896 proofs, at 762 coins. But from a broader perspective, what makes the 1895 proof Morgans is not what they possess, but rather what they *lack* — their counterparts, the mythical 12,000 business strike Morgans.

Were the 12,000 business strikes that appear in some Mint records ever produced, and if so, were they dated 1895? If no business strikes were ever made, this puts the 1895 in the category of a proof-only issue, a class of numismatics where it has lots of classmates — the 1875 and 1876 proof-only three dollar gold issues; the three proof-only issues from the three cent nickel series, in particular the low-mintage 1877 and 1878 issues; and the clandestinely made and/or distributed 1884 and 1885 Trade dollar issues.

Even if business strikes were manufactured, all available evidence — or lack of evidence — points either to their bearing a date other than 1895, or else being melted in the Pittman Act furnaces of 1919-1920 (the actual date of the mass meltings). With each passing year it seems increasingly likely that no definitive business strike 1895 Morgan dollar will ever appear in the marketplace — although it would certainly be front-page news if it did.

While some of the proof-only rarities cited above have much-smaller mintages than the 1895 Morgan dollar, it must be remembered that Morgan dollar collectors are *legion*, perhaps numbering 100 times as many as specialists in those series. As a result of the healthy mintage and enormous demand, series specialists know two things: that they can find an example in the grade they want, and that it will be the subject of intense desire on the part of a cadre of dedicated collectors.

This Premium Gem proof is undesignated as a Cameo, although it exhibits strong contrast, with satiny silver devices floating above full and deeply mirrored fields. Delicate champagne color is limited to the outer rims of this otherwise brilliant and untuned piece. A tiny planchet flake above WE on the reverse is the only apparent blemish on the surfaces that are pristine in every other regard. The strike is bold overall, with slight weakness over the ear, as always. *From The Fenn Family Collection.* PCGS# 87330, CoinPlex ID# M\$P1895CA

---

Superb Gem Proof 1897 Morgan Dollar  
Obvious Reverse Contrast

**3894 1897 PR67 PCGS.** It is something of a surprise that this coin was not described as Cameo by PCGS, as both sides display the frost-and-mirrors characteristic of the designation. The reverse alone surely would have been called Cameo, though the reverse is more borderline. Faint golden patina appears at the reverse borders and a couple of deep spots appear at the obverse margins, but the surfaces otherwise are silver. Only a touch of softness is noted at the hair over Liberty's ear and the all-around preservation is as high in quality as the PR67 grade would imply. Population: 10 in 67, 2 finer (1/13). PCGS# 7332, NGC ID# 27ZV, CoinPlex ID# M\$P1897

---

1898 Morgan Dollar, PR67  
Spectacular Deep Cameo Specimen

**3895 1898 PR67 Deep Cameo PCGS.** Only 735 proof Morgan dollars were struck in 1898 but the year seems to have been a high-water mark for quality. The typical example displays a sharp strike and bold cameo contrast, prompting Michael Fuljenz to comment, "This year was probably the best made in the entire series."

The present coin stands out, even by the high standards of this banner year. A magnificent Superb Gem, with deeply mirrored brilliant fields and razor-sharp definition on all design elements, this coin possesses extraordinary eye appeal. The richly frosted devices provide dramatic contrast with the reflective fields and the black-on-white cameo flash is stunning when the coin is tilted in the light. Population: 11 in 67 (1 in 67+) Deep Cameo, 1 finer (1/13). PCGS# 97333, CoinPlex ID# M\$P1898DC

---

---

**Superb Gem Proof 1901 Morgan Dollar  
Contrasted on Reverse**

- 3896 1901 PR67 NGC.** The 1901 silver issues were the last in the pre-World War I “classic” period to have widespread cameo effects, as 1902 marked a transition in the Mint’s preparation methods that enforced a strongly brilliant style on Barber and Morgan coinage. This Superb Gem specimen from an issue of just 813 pieces is a “one-sided cameo” with obvious contrast on the reverse, though the obverse falls shy of the standard. Faintly toned with just a hint of pastel-yellow and a few dots of deeper color on the eagle’s breast. NGC has graded just three non-Cameo examples as PR68 or better (1/13). NGC ID# 27ZZ, PCGS# 7336, CoinPlex ID# M\$P1901

---

**1902 Morgan Dollar, PR65  
All-Brilliant Finish**

- 3897 1902 PR65 NGC.** A delightful Gem proof Morgan dollar, from a mintage of 777 pieces. The design elements are sharply detailed in most areas, with just the slightest softness on the hair above the ear. The fields are deeply mirrored, but the all-brilliant finish used in 1902 prevents cameo contrast. Census: 43 in 65, 50 finer (1/13). NGC ID# 2822, PCGS# 7337, CoinPlex ID# M\$P1902

---

**PEACE DOLLAR**

---

**Premium Gem 1921 Peace Dollar  
Ideal First-Year Type Coin**

- 3898 1921 MS66 PCGS. CAC.** The high-relief design elements of this spectacular Premium Gem are sharply detailed in most areas, with just a touch of softness on Liberty’s hair. The creamy surfaces are free of significant contact marks and vibrant mint luster is present on both sides. PCGS has graded only 7 numerically finer coins (1/13). PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921

---

**ERRORS**

---

**Two-Planchet Bonded Pair  
1998 Cent, MS66 Red**

- 3899 1998 Lincoln Cent — Two Planchet Bonded Pair — MS66 Red NGC.** 5.0 gm. The typical copper-plated zinc cent weighs 2.5 gm. This remarkable mint error has the steep, even, thimble-like walls associated with the dramatic obverse die cap error. The reverse has a well struck impression of the reverse die, though the copper plating is absent from the margins. The final strike of the obverse die cap bonded with its final mated reverse. The two cents are together because the walls of the reverse cap partly encompass the walls of the obverse cap, and it may also be that the reverse of the obverse cap is fused with the obverse of the reverse cap.

**Obverse Die Cap 1998 Cent  
MS67 Red, Dramatic Mint Error**

- 3900 1998 Lincoln Cent — Obverse Die Cap — MS67 Red NGC.** This dramatic thimble-shaped die cap was caused when a newly struck cent stuck to the obverse die. It then acted as a die against a series of cent planchets, and the force from those strikes caused the present cent to wrap around the collar of the obverse die. The struck portion became paper-thin, lost its copper plating, and shows the obverse die incused and reversed as it was struck through the thin “floor” of the die cap. This “floor” has partially separated from the “walls” of the die cap though a connecting hinge is still present.

**Obverse Die Cap 1999 Cent, MS66**

- 3901 1999 Lincoln Cent — Obverse Die Cap — MS66 NGC.** This imposing mint error occurred when a cent clung to the obverse die after its initial, normal strike. It acted as a die against any number of newly fed cents, and those strikes caused the present cent to develop “walls” that wrapped around the outer collar of the obverse die. The base of the cent shows the Lincoln obverse design in full detail, while the reverse is featureless and the walls show splits from the stress of expansion. About two-thirds of the piece has the silver-white color of the zinc interior.

**MS65 Red and Brown  
1920 Buffalo Nickel  
Struck on a Cent Planchet**

- 3902 1920 Buffalo Nickel — Struck on a Cent Planchet — MS65 Red and Brown NGC.** This off metal mint error was struck aligned with the collar at 10:30. Virtually all of the date is present, as is the mintmark area. The Indian's profile and bison's head are also complete. The bison's tail and much of UNITED STATES OF AMERICA is off the flan. Rose-gold toning is consistent throughout the lustrous and unmarked surfaces. As nice an example of this type and planchet combination as can be found.

**GOLD DOLLARS**

**Premium Gem 1849 Closed Wreath Gold Dollar  
Bold Date and Design Detail**

- 3903 1849 Closed Wreath MS66 PCGS.** Boldly hubbed date. While the Closed Wreath is significantly less famous than its one-year-only Open Wreath predecessor, in Premium Gem it is a condition rarity that should not be underestimated. This MS66 example has strong apricot tints over a sun-yellow base and swirling luster around. Liberty's portrait displays intricate detail, as does the wreath, though the stars show a touch of softness in their centers. As expected for the grade, the surfaces are magnificently smooth aside from a few shallow marks near the truncation of the bust. Population: 4 in 66 (1 in 66+), 0 finer (1/13). PCGS# 7503, CoinPlex ID# G\$M1849CLWREATH

**Low-Mintage 1850-C Gold Dollar, MS62**  
Only One Finer Coin at PCGS

**3904 1850-C MS62 PCGS. Variety 1.** Only 6,966 gold dollars were struck at the Charlotte Mint in 1850, and it seems certain that none were saved for numismatic purposes. This issue is one of the rarest of the series, probably tied with the 1859-C as the second-rarest Charlotte gold dollar. No more than 150-250 specimens are extant today in all grades, with most examples seen in the VF-XF range. Mint State pieces are very rare.

The present coin is a remarkable MS62 example, with an attractive mixed patina of orange, green, and rose-gold hues. The design elements are well-detailed, much sharper than usually seen on this issue, with just a touch of weakness on the date and ribbon bow. The pleasing surfaces show prooflike reflectivity in many areas, with exceptional eye appeal. Population: 5 in 62, 1 finer (1/13). PCGS# 7510, NGC ID# 25BG, CoinPlex ID# G\$M1850C

**Choice 1852-C Gold Dollar**  
Well-Struck Portrait

**3905 1852-C MS64 NGC. CAC. Variety 2.** A beautiful Choice Charlotte gold dollar. The borders are rich peach-gold while the open fields display lighter apricot shades. The portrait is sharply struck, even on the curls near the ear, and the fields are devoid of marks. Shallow mint-made strike-throughs are present between the LA in DOLLAR and beneath Liberty's chin, but they have no effect on the technical grade. The 1852-C has a mintage of just 9,434 pieces and although resubmissions have inflated the third party census, a majority of survivors are in XF or AU grades. Census: 7 in 64, 5 finer (1/13). NGC ID# 25BR, PCGS# 7518, CoinPlex ID# G\$M1852C

**1853 Gold Dollar, MS66**  
Sharp Strike From a Late Die State

**3906 1853 MS66 PCGS.** This Premium Gem is sharply struck, despite the presence of die erosion and subtle die cracks in this late die state. Both sides have frosty yellow mint luster with brilliant surfaces and delicate splashes of olive patina. An uncommon grade for this common issue. Population: 28 in 66, 11 finer (1/13). PCGS# 7521, NGC ID# 25BU, CoinPlex ID# G\$M1853

---

1854 Type Two Gold Dollar, Spectacular MS66  
Rich Color and Sparkling Mint Luster

3907 1854 Type Two MS66 PCGS. CAC. "Solve one problem, create another," the old bromide goes, and so it was with the Mint's coinage difficulties of the 1850s. The reduction in net silver content of the minor coinage, signified by the Arrows/Arrows and Rays designs introduced in 1853, managed for the first time since the Mint's founding to provide ample quantities of circulating domestic silver coinage. The gold dollar and double eagle, introduced commercially in 1849 and 1850 respectively, were intended to increase the circulation of gold coins and as new coinage vehicles for the abundance of California gold. The double eagle was popular and circulated well, especially in the West.

But the diminutive gold dollar had problems. Its small size and weight — a 13-mm coin weighing only 1.67 gm, about one-eighteenth of a troy ounce — meant it was easily lost. In 1854 Mint Engraver James B. Longacre attempted a fix via a one dollar gold coin that was 1 mm larger in diameter and proportionally thinner, but the urge to stereotype the design was among the factors that doomed the result. Not only was the size increased, but the Indian Princess motif was introduced to harmonize with the three dollar gold coin, also introduced in 1854. On the one dollar coins, the head of Liberty was in relatively high relief for such a tiny coin, with the high points in the center obverse in direct opposition to the LL in DOLLAR and the 85 in the date on the reverse. Striking difficulties were inevitable. The strike on the reverse shows the near-universal weakness on the 8 in the date and LL in DOLLAR. Each side also displays the usually seen clash marks. However, what is truly spectacular on this piece is the bright, sparkling mint luster and rich reddish-gold and lilac color intermixed over each side. Population: 11 in 66, 2 finer (1/13). From *The Fenn Family Collection*. PCGS# 7531, NGC ID# 25C3, CoinPlex ID# G\$M1854TY2

1855-C Gold Dollar, AU58  
High-End for the Issue

- 3908 **1855-C AU58 NGC. Variety 1.** The last 5 is right of center of the A in DOLLAR. The date is sharp on the last two digits, with some weakness on the upper halves of 18. The mintage of the 1855-C gold dollar was 9,803 pieces, but, more importantly, it is the only Type Two Charlotte gold dollar, and as such quite popular and in demand — even more so, since the 1855-D is extremely elusive in any grade close to this near-Mint State coin. The surfaces are medium orange-gold and boast excellent eye appeal throughout. The obverse shows some minor planchet roughness in the fields, bold die clashing, and weakness of the strike on some of the feather plumes and the hair above the eye. LIBERTY is faint but discernible. Given the considerable remaining luster and paucity of mentionable marks, this is a high-end survivor of this difficult-to-grade issue. Census: 32 in 58, 14 finer (1/13). NGC ID# 25C5, PCGS# 7533, CoinPlex ID# G\$M1855CTY2

Mint State 1855-C Gold Dollar  
Only Type Two C-Mint Issue

- 3909 **1855-C MS60 NGC. Variety 1.** The 1855-C is the only Type Two gold dollar from the Charlotte Mint, with a small mintage of 9,803 pieces. Doug Winter estimates a surviving population of 250-350 examples in all grades, but the issue is very rare in Mint State. Quality control was not a priority when the coins were produced and many examples were struck on rough or faulty planchets. Striking problems were common with the Type Two design, especially with the 1855-C, which is never seen with sharp details. As a result of these circumstances, the 1855-C is the second rarest Charlotte gold dollar in high grade, behind only the virtually uncollectible 1849-C Open Wreath.

The present coin is an attractive specimen for this issue. The peripheral details are fairly sharp, but the centers show the typical softness always seen on the 1855-C. The central reverse shows an area of surface roughness at the exact center of the coin, obliterating the LL in DOLLAR. The pleasing yellow-gold surfaces display partially prooflike luster, with only minor contact marks. This coin represents the rare Variety 1, with the 5 centered under the A in DOLLAR. The 1855-C is avidly sought-after by date and type collectors alike. Census: 3 in 60, 11 finer (1/13). NGC ID# 25C5, PCGS# 7533, CoinPlex ID# G\$M1855CTY2

**1856-S Gold Dollar, MS64**  
**Sole 1856 Issue With Type Two Design**

- 3910 1856-S Type Two MS64 NGC. CAC.** Normal S. The 1856-S is a challenging issue among Type Two gold dollars, even more so than the 1855-O, as the low mintage of 24,600 pieces would suggest. In 1856 only the San Francisco mint produced gold dollars with this design, because Mint Director Col. James Ross Snowden initiated redesign of the gold dollars to the Type Three format after the San Francisco dies had been shipped west in 1855. The lack of an 1856 issue from any other mint gives this issue a certain cachet with collectors of gold type. Akers' reference on gold dollars lists this date as "very rare." The 1856-S is among the best produced of all Type Two dollars, and the present example is an excellent representative of both the date and the type. It shows no clash marks and only light central weakness, on the obverse chiefly confined to Liberty's high point hair and the faint LIBERTY, while even the headdress tips are pleasingly bold. The reverse shows considerable contrast between the mirrored fields and frosty devices. DOLLAR and the date are bold, even if the double L's and the 8 are slightly soft. The 6 in the date is repunched north. Perusal with a glass reveals only a few miscellaneous ticks on this lustrous, unsurpassable coin. A superior choice for the finest type or date set. Census: 4 in 64, 0 finer (1/13).  
*Ex: FUN Signature (Heritage, 1/2006), lot 3397. NGC ID# 25C8, PCGS# 7536, CoinPlex ID# G\$M1856STY2*

**Near-Mint 1859-C Gold Dollar**  
**Radiant Example of Last Charlotte Issue**

- 3911 1859-C AU58 NGC. Variety 1.** The final-year Charlotte Mint gold dollar issue, the 1859-C has a mintage of only 5,235 pieces. The present straw-gold representative lacks any mentionable marks and exhibits glimmers of luster on the lettering, wreath, and headdress. The strike shows the blending on the curls, date, and dentils expected for rustic branch mint production. Census: 26 in 58, 22 finer (1/13). NGC ID# 25CM, PCGS# 7552, CoinPlex ID# G\$M1859C

**1859-C Gold Dollar, MS62**  
**None Finer at NGC**

- 3912 1859-C MS62 NGC. Variety 1.** Last of the Charlotte gold dollar issues, though half eagles continued to be struck at the Southern mint until the Civil War closed the facility in 1861. This butter-gold representative is surprisingly free from marks and has a pleasing strike, though the O in GOLD retains the granular planchet texture since metal flowed to the portrait during coinage. Census: 10 in 62, 0 finer (1/13). NGC ID# 25CM, PCGS# 7552, CoinPlex ID# G\$M1859C

**MS62 1859-S Gold Dollar**  
**Only 15,000 Minted**

- 3913 1859-S MS62 PCGS.** A complete set of San Francisco gold dollars includes just seven coins, but encompasses all three design variations for the denomination, beginning with the Type One in 1854 and continuing through Type Three in 1860, and again in 1870. All seven issues are rare in Mint State grades. This attractive specimen, exhibiting slight weakness at the central obverse, displays frosty luster with brilliant lemon and honey-gold surfaces. Population: 2 in 62, 4 finer (1/13). PCGS# 7554, NGC ID# 25CP, CoinPlex ID# G\$M1859S

---

**Premium Gem 1870 Gold Dollar  
In-Demand Low-Mintage Date**

- 3914 **1870 MS66 PCGS.** Fortunately for present-day collectors a number of high-quality specimens of this low-mintage date have survived through the years. It is hard to understand how, since most contemporary collectors preferred to order proofs for their collections, rather than business-strikes. In any case, this delightful Premium Gem displays well-detailed design elements and partially prooflike luster, with outstanding eye appeal. Population: 4 in 66, 9 finer (1/13). PCGS# 7569, NGC ID# 25D6, CoinPlex ID# G\$M1870

---

**Low-Mintage 1870 Gold Dollar  
Magnificent Superb Gem**

- 3915 **1870 MS67 PCGS.** This postwar issue has a business strike mintage of only 6,300 pieces and comes near the end of a decade-long lull in production of the denomination between the seven-figure output of 1862 and the six-figure revival of 1873. A handful of exceptional survivors are known, this Superb Gem among them. The all-around detail is strong for the type, while the swirling apricot-gold luster has an occasional frosted quality. Both sides are impressively smooth, and the viewer should not be deceived by apparent scuffs that are present on the plastic holder and not the coin itself. Population: 8 in 67 (1 in 67+), 1 finer (1/13). PCGS# 7569, NGC ID# 25D6, CoinPlex ID# G\$M1870

---

**1870-S Gold Dollar, MS63  
Only 3,000 Coined**

- 3916 **1870-S MS63 PCGS.** With the sole exception of the 1870-S gold dollar, all branch mint issues of the denomination were struck from 1849 through 1861. The San Francisco Mint was the only branch mint that remained open throughout the Civil War, and that facility concentrated on the large double eagles. This diminutive gold piece has brilliant yellow luster with sharp details, reflective fields, and pristine surfaces. Population: 4 in 63, 12 finer (1/13). PCGS# 7570, NGC ID# 25D7, CoinPlex ID# G\$M1870S

---

**Gem 1872 Gold Dollar  
Low-Mintage Date**

- 3917 **1872 MS65 PCGS. CAC.** Only 3,500 business-strike gold dollars were struck in 1872, making the issue scarce-to-rare in all grades. This impressive Gem is well-detailed, with just a touch of the usual softness on the denomination. The bright greenish-gold surfaces display vibrant mint luster and few signs of contact. Population: 3 in 65, 13 finer (1/13). PCGS# 7572, NGC ID# 25D9, CoinPlex ID# G\$M1872

**1872 Gold Dollar, MS68**  
**Phenomenal Quality**

**3918 1872 MS68 NGC.** From an original production of only 3,500 business strikes, today the average certified survivor of the 1872 gold dollar issue only grades AU58 or thereabouts. Few high-grade examples exist, and among Mint State coins, most cluster in the range of MS62 through MS64. A tiny handful of wonderfully high-grade examples do exist, however, that were obviously held back from circulation at the time of their production and carefully preserved thereafter. Most of those coins show either full prooflike surfaces or semiprooflikeness.

As one might expect from the grade, this is a phenomenal coin. The surfaces are essentially perfect. The only mentionable pedigree identifier is a small, curved lint mark in the left obverse field out from Liberty's forehead. The fields are bright and semiprooflike, with an even layer of rich reddish color over both sides. An incredible opportunity for the gold specialist. Among non-Prooflike examples, this coin is the only MS68, and surpassed by only a single MS69 coin at NGC, although that service has also certified one piece in MS68 Prooflike. The finest survivors at PCGS are in MS67 (1/13).

Ex: *Charlotte ANA Signature (Heritage, 3/2003)*, lot 6177; *Long Beach Signature (Heritage, 5/2009)*, lot 1486, where it brought \$14,000. NGC ID# 25D9, PCGS# 7572, CoinPlex ID# G\$M1872

**PROOF GOLD DOLLARS**

**1880 Gold Dollar**  
**Eye-Appealing PR65+ Ultra Cameo**

**3919 1880 PR65+ Ultra Cameo NGC.** This lovely PR+ Ultra Cameo NGC-graded 1880 gold dollar marks the beginning of the last decade of production for this smallest federal gold denomination. Proof gold dollars during the 1880s were often given as Christmas presents, making them more available (due to larger net sales from the Mint) than earlier examples — a boon for type collectors today. This piece displays deeply mirrored fields that set up strong contrast against the frosted devices. The orange-peel field texture is typical of proof gold of the era. The eye appeal is strong over yellow-gold surfaces with a bit of reddish patina. A loupe is needed to see a couple of tiny contact marks plus a pair of lint marks, mentioned but of no import. Census: 1 in 65+ Ultra Cameo, 1 finer (1/13). NGC ID# 25EP, PCGS# 97630, CoinPlex ID# G\$P1880DC

**1883 Gold Dollar, PR65 Cameo**  
**Only 207 Examples Struck**

**3920 1883 PR65 Cameo NGC. CAC.** From a tiny mintage of 207 pieces, the 1883 proof gold dollar is seldom encountered in today's market. This delightful Gem displays razor-sharp design elements, with rich mint frost that contrasts boldly with the deeply mirrored fields. Eye appeal is terrific. Census: 8 in 65 Cameo, 14 finer (1/13). NGC ID# 25ET, PCGS# 87633, CoinPlex ID# G\$P1883CA

## EARLY QUARTER EAGLES

Choice AU 1827 Quarter Eagle  
Low-Mintage Issue  
BD-1, Only Known Variety

**3921** 1827 AU55 PCGS. BD-1, R.5. Bass-Dannreuther Die State a/c. The 1827 Capped Bust Left quarter eagle is an elusive date, with a reported mintage of just 2,800 pieces. There is a single die variety known for the date and only a single die state of the variety has been identified. The reverse die was previously used to strike quarter eagles in 1826, and it appears to have been lapped before its use in 1827. Probably no more than 45-55 examples of the 1827 quarter eagle remain extant in all grades.

The present coin displays well-detailed design elements, with some reverse detail incomplete, due to lapping. The pleasing yellow-gold surfaces are lustrous and lightly abraded, with no mentionable distractions. Eye appeal is quite strong for an early quarter eagle. Population: 6 in 55, 19 finer (1/13). PCGS# 7666, NGC ID# 25FJ, CoinPlex ID# G2E1827

Uncirculated Details BD-1  
1832 Quarter Eagle

**3922** 1832 — Improperly Cleaned — NGC Details. Unc. BD-1, R.4. The sole die marriage for this rare date. Just 4,400 pieces were struck, and a sizeable majority of those were melted long ago. The present unworn green-gold representative is hairlined and the reverse field near the eagle is glossy. The strike is generally sharp with slight inexactness on the curl above the ear and the left shield border. The Capped Head type was struck intermittently between 1821 and 1834. Although all dates are rare, the patience advanced collector can acquire each of them, since unlike its half eagle cousin, the series has no great rarities. NGC ID# 25FN, PCGS# 7672, CoinPlex ID# G2E1832

## LIBERTY QUARTER EAGLES

### AU50 1842-D Two and a Half Just 4,643 Pieces Struck

- 3923 1842-D AU50 PCGS. Variety 3-F.** A later die state with only traces of repunching evident on the date. Well struck for a remote branch mint product, with any incompleteness limited to the eyebrow and the hair above the ear. This straw-gold example has an unabraded reverse and only subdued obverse marks. A scant 4,643 pieces were struck for this early and challenging Dahlonega issue. PCGS# 7725, NGC ID# 25GJ, CoinPlex ID# L2M1842D

### Uncirculated Low Mintage 1842-O Two and a Half

- 3924 1842-O MS61 NGC. Variety 1.** The 1842-O began with a modest mintage of only 19,800 pieces, lowest among quarter eagles from the New Orleans Mint. Most certified examples are in XF or AU grades, but the present lightly abraded and typically struck green-gold example is unworn and displays satin luster. Census: 4 in 61, 6 finer (1/13). Ex: San Francisco ANA (*Heritage*, 7/2005), lot 10315, which realized \$9,200. NGC ID# 25GK, PCGS# 7726, CoinPlex ID# L2M1842O

### Near-Mint 1852-C Two and a Half

- 3925 1852-C AU58 PCGS. Variety 1.** A honey-gold Borderline Uncirculated example of this rare Charlotte issue. Just 9,772 pieces were struck, and the typically encountered survivor is a cleaned XF. The present coin is significantly finer since wear is minimal and there are no detracting marks. The centers show moderate incompleteness usual for the remote branch facility. Population: 7 in 58, 5 finer (1/13). PCGS# 7764, NGC ID# 25HS, CoinPlex ID# L2M1852C

### 1854-C Two and a Half, MS61

- 3926 1854-C MS61 NGC. Variety 1.** From a low mintage of 7,295 pieces, the 1854-C Liberty quarter eagle is collectible in XF and AU but becomes very rare in Mint State. The present apricot-gold representative retains its original "skin" and displays only minimal marks. Mildly granular near the obverse center, as coined. Portions of the eagle are lightly impressed, as always for the issue. Census: 8 in 61, 10 finer (7/12). NGC ID# 25HY, PCGS# 7770, CoinPlex ID# L2M1854C

---

1857 Quarter Eagle, MS68  
The Finest Known Specimen

3927 **1857 MS68 PCGS.** The Liberty quarter eagle was first minted in 1840 and continued virtually unchanged through 1907, with only minor hub modifications such as the slender arrowheads introduced in 1859. This year, the Roosevelt dime will tie the Liberty quarter eagle for the longest tenure without a major design change.

The quarter eagle mintage of 214,130 coins in 1857 was sufficient that the date remains common today, especially in lower Mint State grades. The average certified grade is just a tad below MS60. However, the 1857 is rare in MS64 and extremely rare in finer grades. The combined PCGS and NGC population includes three pieces graded MS65, two in MS66, one in MS67, and the present specimen, the only certified MS68 (1/13). This piece is from the same die pair as the MS67 PCGS Harry W. Bass, Jr. coin that was sold in October 1999. At the time, the PCGS population included two coins certified MS67 and none finer.

Nearly vertical die polishing striations are responsible for the satin luster of this amazing Superb Gem, the finest existing 1857 quarter eagle. The strike is bold, although weakness is evident on the eagle's left facing leg. Both sides have sensational cartwheels, with fully brilliant butter-yellow surfaces. A single dark brown freckle appears in the reverse field above the eagle's head and will serve as a convenient pedigree marker. This amazing Liberty quarter eagle is destined for the finest PCGS Set Registry collection.

From *The Fenn Family Collection*. PCGS# 7782, NGC ID# 25JC, CoinPlex ID# L2M1857

**Near-Mint 1866 Quarter Eagle  
Only Three Finer Coins at PCGS**

- 3928 1866 AU58 PCGS.** Only 3,110 Liberty quarter eagles were struck at the Philadelphia Mint in 1866, making the date scarce-to-rare in all grades today. This otherwise well-detailed near-Mint specimen shows an area of blankness on the lower reverse, probably caused by a clogged die. Population: 2 in 58, 3 finer (1/13). PCGS# 7803, NGC ID# 25K7, CoinPlex ID# L2M1866

**1875 Quarter Eagle, MS61+  
Famous Rarity, 400 Pieces Struck**

- 3929 1875 MS61+ NGC.** The year 1875 is a landmark date for gold collectors, as all the Philadelphia Mint gold denominations except the double eagle were produced in extremely small numbers. The 1875 quarter eagle claims an epically low mintage of just 400 examples, and probably no more than 50 business-strike specimens are extant in all grades today. Accordingly, the 1875 is one of the most sought-after issues of the series.

The present coin is one of the finest survivors, with sharply detailed design elements and prooflike yellow-gold fields, with a few hazy color spots on the obverse. A scattering of minor contact marks on both sides is consistent with the grade. Census: 2 in 61 (1 in 61+), 0 finer (1/13). NGC ID# 25KS, PCGS# 7822, CoinPlex ID# L2M1875

**Superb Gem 1893 Liberty Quarter Eagle  
Tied for Finest Certified**

- 3930 1893 MS67 NGC. CAC.** The 1893 quarter eagle claims a mintage of 30,000 pieces, making Mint State coins quite elusive. This magnificent Superb Gem is tied with four other coins for finest-certified honors at NGC, while PCGS has never graded a coin at this level (1/13). The design elements are sharply detailed and the pristine surfaces radiate vibrant mint luster. Eye appeal is tremendous. NGC ID# 25LH, PCGS# 7845, CoinPlex ID# L2M1893

**1902 Quarter Eagle, MS68  
Tied For Finest of the Type**

- 3931 1902 MS68 NGC.** This handsome quarter eagle is well-made from crisp dies showing a few die polishing lines but no cracks, clash marks, or other defects. Both sides have a bold strike with full star details, sharp hair, and full plumage on the reverse. The NGC Census report shows that six examples have been certified MS68, although we suspect that figure may include resubmissions. For the entire Liberty quarter eagle series, NGC has graded 40 submissions MS68 and PCGS has graded nine similar submissions. Neither service has examined anything finer. This impressive Superb Gem exhibits frosty and highly lustrous orange-gold surfaces with pale emerald overtones. A highly appealing piece for the connoisseur. *From The Fenn Family Collection.* NGC ID# 25LT, PCGS# 7854, CoinPlex ID# L2M1902

1906 Liberty Quarter Eagle, MS67  
Only One Finer Coin at PCGS

- 3932 **1906 MS67 PCGS.** This magnificent Liberty quarter eagle exhibits razor-sharp definition on all design elements, with fine detail present on Liberty's hair and the star centrils. The pleasing yellow-gold surfaces display highlights of rose and especially vibrant mint luster. Eye appeal is terrific. Population: 39 in 67, 1 finer (1/13). PCGS# 7858, NGC ID# 25LX, CoinPlex ID# L2M1906

PROOF LIBERTY QUARTER EAGLES

1887 Quarter Eagle, PR66 Cameo  
Ex: Byron Reed

- 3933 **1887 PR66 Cameo NGC.** Ex: Byron Reed. At the time of Byron Reed's death, he had accumulated "sixteen thousand objects; approximately twenty per week for sixteen years straight" according to the 1996 catalog. This proof quarter eagle was struck just four years before Byron Reed's death in 1891. Because of its newness to the marketplace at the time, it could not have passed through more than a couple of people's hands before it was impounded in the Western Heritage Museum in Omaha. The description of this coin from the 1996 auction reads like a coin description from a 19th century catalog:

Quarter-Eagle, 1888. Proof to choice Proof, attractive golden cameo Estimate \$3,000-4,000

There were 122 proofs struck of this issue, and it is estimated by Garrett-Guth that less than half that number, or 40-50 coins may exist today, including several impaired pieces. This is among the five finest known 1887 quarter eagles, three PR66 Cameo coins and two PR66 Ultra Cameos. (PCGS has not certified a PR66.) The surfaces of this lovely proof are essentially perfect with no noticeable flaws on either side. As expected, the fields are deeply reflective and the devices frosted, yielding the cameo effect. There are none of the often-seen lint marks on this piece. Exceptional quality and a rare opportunity to own an importantly pedigreed piece of proof gold. Ex: Byron Reed Collection (Spink America, 10/1996), lot 72, where it brought \$11,550. NGC ID# 288A, PCGS# 87913, CoinPlex ID# L2P1887CA

---

**1888 Quarter Eagle, PR65 Cameo  
Among the Finest Graded**

- 3934 1888 PR65 Cameo PCGS. CAC.** Auction offerings of the 1888 quarter eagle at the PR65 Cameo grade level are infrequent. To date, the highwater mark is the sale of a PCGS-certified example that brought \$27,600 in a 2010 Stack's auction. The proofs of this date complement a low mintage of 16,001 circulation strikes, typical of this decade when the Philadelphia Mint was concentrating on half eagles and eagles at the expense of quarter eagles and double eagles for circulation. The surfaces of this Gem Cameo proof are vivid lemon-yellow, sharply detailed, and deeply mirrored with strong field-device contrast. There is a slight orange-peel effect visible. The only surface disturbance is a shallow planchet flake near the obverse rim between stars 5 and 6 which will serve as a reliable pedigree identifier. Population: 5 in 65 (1 in 65+) Cameo, 0 finer (1/13). PCGS# 87914, NGC ID# 288B, CoinPlex ID# L2P1888CA

---

**1895 Two and a Half, PR64 Ultra Cameo  
Maximal Field-Device Contrast**

- 3935 1895 PR64 Ultra Cameo NGC. CAC.** The 1895 quarter eagles in proof format were struck in a typical quantity for the time of 119 pieces, complementing the business-strike production of 6,000 coins — also typical for the era, but quite low on an absolute basis. The gradual rise of the proof mintages during the 1880s and 1890s was due, we believe, to a generation of new collectors inducted into the pastime by the introduction of the No CENTS Liberty nickels in 1883, and the rumors that they might be recalled. This near-Gem 1895 quarter eagle displays maximal contrast between jet-black mirrored fields and deep orange-gold devices. A few light contact marks in the fields explain the grade. Census: 5 in 64 Ultra Cameo, 23 finer (1/13). NGC ID# 288J, PCGS# 97921, CoinPlex ID# L2P1895DC
-

---

1901 Quarter Eagle, PR67+ Cameo  
Sole Finest Cameo Graded at PCGS

3936 1901 PR67+ Cameo PCGS. CAC. With a grade of PR67+ Cameo, the present coin is the sole finest PCGS-certified survivor of the 1901 proof quarter eagles, a production given as 223 pieces in the *Guide Book*. There are no Cameos at PCGS in PR67, making the next-finest Cameo the sole PR66. There are three PR67 Deep Cameos at PCGS, but this Cameo piece is still finer due to the Plus grade.

Incredibly, NGC has seen 10 submissions in PR67 Ultra Cameo including three Star coins, seven in PR68 Ultra Cameo including two Stars, and two in PR69 Ultra Cameo, although we believe duplications are definitely afoot in those high numbers. The present PR67+ Cameo PCGS piece with added CAC endorsement would certainly form the centerpiece or the beginning of a fine gold type or Registry Set. As expected, the surfaces appear simply impeccable, with deep orange-gold color, splendid device frost, and fields that easily fade to black. The strike is every bit as nice as the surface preservation. PCGS# 87927, NGC ID# 288R, CoinPlex ID# L2P1901CA

## INDIAN QUARTER EAGLES

Complete 15-Piece 1908-1929 Indian Quarter Eagle Set  
Each Piece Graded MS62

**3937 1908-1929 Set of Indian Quarter Eagles MS62 NGC, PCGS.** A perfectly matched 15-piece set of Indian quarter eagles, all grading MS62. Included are:

**1908 MS62 NGC.** Bright yellow-gold surfaces, the top of the eagle's wing is weak as always on this date.

**1909 MS62 NGC.** Bright overall with a few more noticeable field marks scattered across the reverse.

**1910 MS62 NGC.** Vibrant, lustrous surfaces. A tad weakly struck on each side.

**1911 MS62 NGC.** Attractive, subtle reddish-gold and lilac colors are interspersed over both obverse and reverse. Well struck.

**1911-D MS62 NGC.** The mintmark is well-defined on this series key. The yellow-gold surfaces display just a touch of reddish patina. Minimally marked for the grade. The diagnostic wire rim on the right side of the obverse is especially pronounced.

**1912 MS62 PCGS.** The surfaces are obviously original with deep cherry-red color throughout and grease stains (as struck) flecked here and there. Most of the obvious abrasions are confined to the reverse.

**1913 MS62 NGC.** Bright, satiny surfaces. A series of interesting planchet fissures are seen through IN GOD WE TRUST.

**1914 MS62 NGC.** Sharply struck with the expected brightness of surfaces and light reddish patina.

**1914-D MS62 NGC.** Even, light reddish-gold color. Just a tad softly struck, but surprisingly free from the abrasions one would expect from this grade.

**1915 MS62 NGC.** Rich mint frost covers the reddish-tinged faces of this piece. A couple of smaller marks are located on the obverse, and a series of more prominent ones are seen below STA on the reverse.

**1925-D MS62 NGC.** Even reddish-gold color and bright throughout. A couple of marks run across the high point of the Indian's cheek bone.

**1926 MS62 NGC.** While many of the pieces in this collection show reddish color, this is by far the most pronounced. Strong mint luster, minimally abraded.

**1927 MS62 NGC.** This is a colorful coin too, but in a different way. Light lilac and yellow-gold are interspersed overall with a tinge of red overall. Slight abrasions.

**1928 MS62 NGC.** Shimmering yellow-gold color. A bit soft in the centers.

**1929 MS62 NGC.** Even yellow-gold color and bright mint luster. A couple of small abrasions are located in the usual place, the right reverse field. *From The Fenn Family Collection.* (Total: 15 coins) NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908

---

**1911-D Two and a Half, MS63  
Strong D, Strong Definition Overall**

**3938 1911-D Strong D MS63 PCGS. CAC.** Two of the most interesting and appealing characteristics of the Indian Head quarter eagle set are its relatively small, collectible size — only 15 issues spanning the 1908-1929 timeframe — and the existence of a sole key to the series, the 1911-D. We have tried to think of another series that has attributes similar to this set, and cannot think of another. Most other U.S. coin series either have many more members overall, or they have multiple keys in many cases.

Of course, being able to actually complete a set of American gold from the “classic era” of U.S. numismatics — assuming one can find a nice, acceptable 1911-D — is also part of the appeal of finishing the Indian Head quarter eagle collection. This is an especially attractive example of this important 20th century issue. The mintmark is clearly defined on all sides, with none of the blobbiness often seen. Strike details are strong in other areas with notably bold definition on the lowest feather in the headdress and top of the eagle’s wing. Each side is minimally abraded, and there is a slight, even accent of reddish patina with yellow-gold glowing beneath. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

---

**Near-Gem 1911-D Strong D Quarter Eagle  
Remarkably Bold Strike Overall**

**3939 1911-D Strong D MS64 PCGS.** The 1911-D quarter eagle was a small-mintage and low-survival issue, as has been noted many times, but the survival is further muddled by the existence of many Weak D examples in the marketplace. On some pieces the mintmark is so weak that it is nearly impossible to see with the naked eye, and yet the diagnostic wire rim from 1 to 5 o’clock on the obverse serves as authentication. While these coins are true 1911-Ds, they certainly bring less in the marketplace. Most collectors prefer to buy a nice 1911-D with a Strong D mintmark. In fact, Mike Fuljenz writes in his series reference that “it is our strong belief that since this is the key issue in the Indian Head Quarter Eagle set the collector should stretch and try to buy the nicest example that is feasible. An otherwise unexceptional set can be made very desirable with the addition of a very nice 1911-D.”

This coin is remarkable for its completeness of strike in all areas, not just the mintmark. The feathers in the headdress are complete as are the feathers at the top of the eagle’s wing. But the star of the show is the D, which is fully popped up from the surrounding field. Otherwise, the mint luster is bright and satiny, and there are no singularly mentionable marks on either side. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

---

## PROOF INDIAN QUARTER EAGLE

### Near-Gem Matte Proof 1914 Quarter Eagle

- 3940 1914 PR64 NGC. The 1914 quarter eagle proof is one of the more frequently seen within the series. Even through the recorded proof mintage was only 142 pieces, it is seen more often than the 1912 or 1913 issues. The Mint tweaked its method of matte proof production slightly in this year, making the surface facets larger and the overall reflectivity less. But this piece displays surfaces that are brighter than most examples seen, with a slight greenish tinge to the color. There are a few tiny breaks in the luster on the high points of the design that account for the near-Gem grade, but this attractive piece should nonetheless find ready bidders. Census: 24 in 64, 45 finer (1/13). NGC ID# 289N, PCGS# 7963, CoinPlex ID# I2P1914

## THREE DOLLAR GOLD PIECES

### Choice 1859 Three Dollar Gold Very Rare in Higher Grades

- 3941 1859 MS64 PCGS. From a mintage of 15,558 pieces, the 1859 three dollar gold piece is a scarce date in all grades today. This well-detailed Choice example displays vibrant satiny mint luster and well-preserved orange and greenish-gold surfaces, with ample eye appeal. Population: 14 in 64, 8 finer (1/13). PCGS# 7979, NGC ID# 25MD, CoinPlex ID# G3M1859

### Condition Rarity MS64 1866 Three Dollar

- 3942 1866 MS64 NGC. The post-Civil War experience of the three dollar gold denomination was one of next-to-nil circulation and generally minimal mintages punctuated by two years of excitement. The year 1866 was not among them, and just 4,000 business strikes were produced, including this distinctive near-Gem. Diffusely reflective luster is sun-gold and has only a hint of the swirling luster more commonly seen on business strikes. Well-defined devices have a hint of frostiness to them as well. A conditionally rare example of a challenging issue. Census: 1 in 64, 2 finer (1/13). NGC ID# 25MM, PCGS# 7987, CoinPlex ID# G3M1866

---

### Fully Struck Gem 1878 Three Dollar

- 3943 1878 MS65 PCGS.** The last of the Big Three Indian Princess three dollar gold issues usually chosen for type — along with the first-year 1854 and the midseries 1874 — the 1878 is memorable both for its large mintage of 82,304 circulation strikes and its PCGS number, 8000. All are nonetheless relatively elusive at the Gem level and the subject of high demand. The average certified example is a hair under MS60. This Gem 1878 displays thick mint frost and generous luster. Original, deep reddish patina shows faint lilac accents. Close examination shows a few pinprick marks, none singularly detracting, and the strike is full, even on the bowknot. PCGS has seen 69 submissions finer (1/13).  
From *The Fenn Family Collection*. PCGS# 8000, NGC ID# 25MZ, CoinPlex ID# G3M1878

---

### Choice 1888 Three Dollar Gold 5,000 Pieces Minted

- 3944 1888 MS64 NGC.** The 1888 three dollar gold piece claims a mintage of only 5,000 pieces, but a significant number of high-grade pieces were saved by contemporary collectors and Philadelphia jewelers. This well-detailed Choice example displays satiny mint luster and light yellow-gold surfaces, with only minor signs of contact. Census: 96 in 64 (1 in 64+), 50 finer (1/13). NGC ID# 25NB, PCGS# 8010, CoinPlex ID# G3M1888

---

### PROOF THREE DOLLAR GOLD PIECE

#### 1888 Three Dollar, PR64 Richly Patinated, Brightly Reflective

- 3945 1888 PR64 PCGS.** The proof 1888 is scarcer than generally understood. The *Guide Book* reports a proof mintage of 291 pieces, but PCGS and NGC combined have certified just 207 pieces in all grades (1/13). Much of that quantity undoubtedly represents resubmissions over the past 26 years, particularly from PCGS to NGC in attempts to secure Cameo designations. The present piece does have noticeable contrast, particularly on the obverse, but it remains housed in the green label holder where it has resided since the 1990s. It has Breen's diagnostic, a patch of die rust on the neck seen on all 1888 proofs. Attractively toned orange-gold with the deepest shades near the rims. Gorgeously smooth despite a shallow planchet lamination (as made) near the D in UNITED. Population: 26 in 64, 40 finer (1/13).  
Ex: *FUN Signature (Heritage, 1/2009)*, lot 4027.  
From *The Fenn Family Collection*. PCGS# 8052, NGC ID# 28AX, CoinPlex ID# G3P1888

## EARLY HALF EAGLES

Rarity-5 1795 Small Eagle Five, BD-1, MS61  
Likely the First Small Eagle Five Die Variety

3946 1795 Small Eagle MS61 NGC. BD-1, R.5. Bass-Dannreuther Die State c/b. The U.S. Mint used eight obverse and eight reverse dies to strike the recorded 8,707 examples of the 1795 half eagle with Small Eagle reverse, the first year of U.S. gold coinage when only five and ten dollar pieces were struck; the quarter eagles would appear a year later, in 1796. There are 12 1795 Small Eagle varieties in all, numbered BD-1 through BD-12. That there are so many die varieties existing among the 1795 Small Eagle fives can be laid at the feet of the early Mint's inexperience with proper hardening of die steel; many dies cracked early, although they appear to have been used as long as they were serviceable.

The BD-1 is a rare die pairing, of which Bass-Dannreuther estimate that only 40 to 50 pieces survive in all grades. Given the characteristics of the dies, it is surmised to be the first die pairing used for the year. The obverse shows a wide date with the flag of the 5 mostly covering the drapery of Liberty. Star 1 is embedded in the lowest hair curl, and star 15 pierces the front of the bust. Star 11 is distant from the Y in LIBERTY. (The wide date obverse dies are BD-1 through BD-6.) The reverse shows the wreath having four berries, two inside, two outside. Palm leaves touch the bottom center of U and the left side of N in UNITED.

The present Mint State example is yellow-gold with a hint of reddish patina. The fields are moderately reflective, probably from die lapping. The obverse shows some moderate die cracks through the peripheral stars as outlined in Bass-Dannreuther. The strike is sharp, save for the immediate center of each side, showing slight weakness evident on the central hair curls and eagle's breast. Numerous small abrasions are dotted around, but the grade primarily derives from a horizontal obverse scratch from star 5 to the right border of Liberty's neck.

From The Fenn Family Collection. NGC ID# 25ND, PCGS# 8066, CoinPlex ID# E5M1795SMEAG

---

1799 Small Stars Half Eagle, MS62  
Rare BD-4 Variety  
Probably the Finest Known, Ex: Childs

3947 1799 Small Stars Reverse MS62 NGC. Breen-6435, BD-4, R.7. Both dies are perfect with no lapping, clash marks, or die cracks, apparently as always, and the reflective fields suggest an early strike from newly prepared dies. In *Early U.S. Gold Coin Varieties, A Study of Die States 1795-1834*, John Dannreuther described two die states, perfect or with reverse clash marks. He further suggested that a terminal die state with later reverse die damage should exist. Indeed such a coin does exist, as an example of BD-4 with two retained cudns on the reverse appeared as lot 2260 in the Bowers and Merena March 2003 auction.

Only 10 to 12 examples of this variety are known, according to Dannreuther, although the cataloger believes that fewer pieces actually exist, finding just eight auction records over the past 30 years, including an earlier appearance of the present specimen. Since the 1993 beginning of our Permanent Auction Archives, we have offered 46 1799 half eagles of all varieties and grades, and this is the first appearance of BD-4 in any of our sales.

When this piece was handled in 1989, at the same time that the first Bass gold sale was being prepared, and with both Bass specimens available for side-by-side study, the cataloger wrote: "This is apparently a very rare variety with most examples well circulated. In fact, this example, which is nicer than either in the Harry W. Bass, Jr. Collection, may be finest known for the die marriage."

The possible status as finest known of the variety remains unchanged. Minor surface abrasions are confined to the open areas of the obverse and reverse fields. The brilliant green-gold surfaces and reflective fields of this lovely specimen host delicate splashes of pale orange toning. The present offering represents an incredible opportunity for the advanced early half eagle specialist.

Ex: Walter H. Childs Collection (Bowers and Merena, 8/1999), lot 689.

From The Fenn Family Collection. NGC ID# 25NT, PCGS# 8081, CoinPlex ID# E5M1799

Choice AU 1800 Half Eagle, BD-2

- 3948 1800 AU55 NGC. BD-2, High R.3. A scarce die variety from the final full year of the Adams administration. This apricot-gold representative displays substantial luster, and is lightly abraded aside from a brief mark near obverse star 2 and a few wispy hair-thin vertical lines on Liberty's neck. The central reverse displays moderate mint-made adjustment marks. NGC ID# 25NW, PCGS# 8082, CoinPlex ID# E5M1800

Near-Mint 1802/1 Half Eagle  
Very Rare BD-4 Variety

- 3949 1802/1 AU58 NGC. BD-4, R.7. Bass-Dannreuther Die State c/b. A very rare die marriage with two pick-up points. A leaf tip points between the RI in AMERICA, and the 1 underdigit is centered within the 2. The date is double clashed within STATES, and the left obverse border is slightly buckled. Probably no more than 10-12 examples of the BD-4 remain extant in all grades. This is a generally lustrous straw-gold half eagle with a precise strike and only a hint of friction, limited to the forehead and cloud centers. Despite the recent publication of the well made Bass-Dannreuther reference, collecting early half eagles by die pairing has yet to catch on. Nonetheless, varieties of the greatest rarity have enormous market potential, and the present piece should be the subject of enthusiastic bidding.  
Ex: Long Beach Signature (Heritage, 9/2008), lot 3580. NGC ID# 25NX, PCGS# 8083, CoinPlex ID# E5M1802OVR1

1803/2 Half Eagle, AU Details  
Broken Foot of T, BD-3

- 3950 1803/2 — Damaged — NGC Details. AU. BD-3, R.4. All 1803 half eagles are overdates, with a reported mintage of 33,506 pieces. The BD-3 is a scarce variety, with a surviving population of 125-175 pieces in all grades. This well-detailed orange-gold specimen is still attractive, despite some evidence of tooling on the lower reverse. The surfaces retain much of their original mint luster. NGC ID# 25NY, PCGS# 8084, CoinPlex ID# E5M1803OVR2

Mint State Details 1808 Five Dollar  
Normal Date, Close 5D, BD-3

- 3951 1808 — Improperly Cleaned — NGC Details. Unc. BD-3, R.4. Close 5D, Normal Date. No hairlines are readily evident but the wheat-gold surfaces are mildly luminous. Well struck except on the dentils. No marks are remotely worthy of mention aside from a thin line relegated to the margin above the M in AMERICA. Bright luster at the borders and on the eagle, curls, and cap further ensures the eye appeal. NGC ID# 25PA, PCGS# 8102, CoinPlex ID# E5M1808

Choice AU 1812 Five Dollar  
Wide 5D, BD-1

- 3952 1812 AU55 PCGS. BD-1, R.3. The Wide 5D variety, easily distinguished from the only other 1812 marriage, the Narrow 5D BD-2. BD-1 has a bold curved die line within the eagle's shield and left (facing) wing, as made from an unknown mishap at the First Philadelphia Mint. This almond-gold representative shows light wear on Liberty's curls and the eagle's neck plumage, but luster illuminates the legends, stars, and motifs. Smooth overall with a few faint faded marks on the left obverse field. PCGS# 8112, NGC ID# 25PL, CoinPlex ID# E5M1812

## LIBERTY HALF EAGLES

### Mint State 1839 Half Eagle First Liberty Head Issue

- 3953 1839 MS61 PCGS. The year 1839 marked the first appearance of Gobrecht's Liberty Head design on the five dollar denomination. The date is avidly sought after by date and type collectors, and Mint State examples are rare. This well-detailed specimen exhibits vibrant mint luster and a few minor contact marks on both sides. Population: 3 in 61, 12 finer (1/13). PCGS# 8191, NGC ID# 25S7, CoinPlex ID# L5M1839

### Small D 1841-D Half Eagle Notable Near-Mint Piece

- 3954 1841-D Small D AU58 NGC. Variety 5-D. The more commonly seen Small D variety for this issue; the Tall D reverse is "very scarce" per Winter. Radiant surfaces have broad semireflectivity and only light wear and abrasions. Color is pleasing with considerable splashes of orange that stand in contrast to the "washed-out" color too often seen on Southern gold. Census: 10 in 58, 21 finer (1/13). NGC ID# 25SR, PCGS# 8204, CoinPlex ID# L5M1841D

### MS63+ 1844 Half Eagle The Better Bass Specimen

- 3955 1844 MS63+ PCGS. The finer of two 1844 half eagles in the second Bass auction catalog, plate-matched by a luster graze off the left tip of the bust. Though modestly abraded, this is a well-defined example with generous satin-frost luster that has a touch of green to the gold. Population: 8 in 63 (1 in 63+), 4 finer (1/13). Ex: Auction '86 (Paramount, 7/1986), lot 1918; Bass II (Bowers and Merena, 10/1999), lot 930. From The Fenn Family Collection. PCGS# 8219, NGC ID# 25T7, CoinPlex ID# L5M1844

### Select Mint State 1844-O Half Eagle Recovered From the S.S. New York

- 3956 1844-O MS63 NGC. Variety 5. Ex: S.S. New York. The shipwreck is the source of several high-grade examples of the 1844-O half eagle, including this Select representative. The luster is bright and swirling, a rich yellow with hints of apricot. On the obverse, the marks present are largely small with the exception of a luster graze to the right of the date. The reverse has more visible scrapes, most notably under the eagle's left (facing) wing. The strike is sharp both on the delicately frosted inner devices and the peripheral stars, completing the coin's rewarding appearance. Census: 10 in 63, 6 finer (1/13). From The Fenn Family Collection. NGC ID# 25TA, PCGS# 8222, CoinPlex ID# L5M1844O

### Borderline Uncirculated 1845-D Five Sharply Struck Dahlonge Type Coin

- 3957 1845-D AU58 PCGS. Variety 14-H (formerly 12-I). The Dahlonge, Georgia facility is known for indifferently produced coinage, but this half eagle displays intricate definition on all design elements. The borders teem with bright luster and the fields are only lightly abraded. One small strike-through is noted near the tip of the upper arrowhead. Population: 24 in 58, 17 finer (1/13). PCGS# 8224, NGC ID# 25TC, CoinPlex ID# L5M1845D

---

**1860-C Half Eagle, MS64**  
**Perhaps the Finest Known of This Important Issue**  
**One of the Few With No Obverse Die Damage**

**3958 1860-C MS64 NGC. CAC.** The number of coins struck in the Charlotte Mint dropped considerably in 1860 to the lowest point since 1846. Only 14,813 pieces were struck, all from a single die pair. However, in spite of the low mintage, the 1860-C only ranks 9th in overall rarity of the 24 C-mint fives and 12th in high-grade rarity. The surfaces of most 1860-C fives have a distinct appearance. As Doug Winter mentions, "this reverse was improperly hubbed and, as such, it has an 'incomplete' appearance." That is certainly the case on this coin. The other usually distinguishing characteristic is found on the obverse: "Most have a curving die defect in the obverse field from the chin down towards the rim between the first two stars." We cannot recall the last time we have seen an 1860-C five that did not have this characteristic, but this piece definitely does not. It does, however, show the raised die striations in the field at the top of the obverse.

It is estimated that only 150 to 200 coins have survived in all grades of the 1860-C five. Again quoting Winter from his sidenote in his C-mint reference: "Most examples grade Very Fine and Extremely Fine and are characterized by poor eye appeal. This is a scarce coin in the lower About Uncirculated grades and is quite rare in properly graded AU55 to AU58. There are currently around seven or eight Uncirculated coins known." One coin is listed at the top of his Condition Census, an NGC MS64 piece. The census data from NGC shows two pieces in MS64, and we believe this may be this coin that has been resubmitted in hopes of attaining a Gem grade, but the duplicate submission has not been removed.

While poor eye appeal may be typical for most 1860-C half eagles, that is certainly not the case with this coin. As mentioned, it lacks the distracting die defect in the lower left obverse field. The presence of the die striations at the top of the obverse indicate brightness from lapping can be expected on many higher graded examples, and that is the case with this piece. Indeed, vertical striations are prominent on the obverse, less so in the reverse fields. The overall surfaces display rich reddish-gold color, and the only pedigree identifiers are seen in the fields on each side of the eagle's head. The obverse design elements are sharply defined, especially on the peripheral stars.

We believe this may have been one of the first coins struck of this important issue since it pre-dates the die damage seen on most examples. It is certainly one of the two finest known, and may well be the finest 1860-C five dollar in existence.

*From The Fenn Family Collection.* NGC ID# 25VG, PCGS# 8285, CoinPlex ID# L5M1860C

---

1861 Five Dollar, MS66  
Bright Mint Luster and Rich Color

**3959 1861 MS66 NGC.** A truly magnificent specimen; currently tied for the finest certified at NGC and PCGS. The 1861 had the second-highest mintage in the No Motto half eagle series at 688,084 pieces. Indeed, 1861 was a bumper year for nearly all U.S. coins, from the three cent piece through the double eagle. There is no doubt that the Civil War, which began with the April 12th 1861 bombardment of Fort Sumter, was the driving force behind the significant upswing in mintages.

Two days after Sumter fell to the Confederacy, Abraham Lincoln called for a force of 75,000 men to combat the South, and the following day Congress instituted the first national draft in United States history. The new army had to be paid, of course, and munitions had to be purchased, so production was ramped up dramatically at the Philadelphia Mint. It is also important to note that of the four mints operating in 1861, three — Dahlonega (Georgia), Charlotte (North Carolina), and New Orleans (Louisiana) — were in Confederate territory and ceased production during the first year of the war.

The 1861 half eagle is popular among type collectors both for its status as a Civil War issue and because of the availability of this issue in most grades. The majority of certified examples have been graded in the About Uncirculated range, but even low Mint State representatives can be located with relative ease. This issue becomes scarce in Select Uncirculated (MS63), Choice specimens are very scarce, Gems are rare. The present coin is only of only three MS66 examples graded at both major services (1/13), with none finer. The mint luster is bright, and the fields especially so. The fields tend toward semiprooflikeness from the striations present. Overall the coin has yellow-gold color with an overlay of red.

*From The Fenn Family Collection.* NGC ID# 25VK, PCGS# 8288, CoinPlex ID# L5M1861

**Mint State 1865 Half Eagle  
Only 1,270 Examples Struck**

- 3960 1865 MS60 NGC.** Gold coins were rarely seen in circulation in 1865, the final year of the Civil War, and only 1,270 business-strike Liberty half eagles were produced at the Philadelphia Mint. Mint State examples are extremely rare in today's market, and really high-grade coins are nonexistent. The present coin is an attractive MS60 example, with well-detailed design elements that show a touch of softness on the central reverse. The lightly marked yellow-gold surfaces display prooflike reflectivity in sheltered areas, with exceptional eye appeal for the grade. Census: 2 in 60, 3 finer (1/13). NGC ID# 25VW, PCGS# 8298, CoinPlex ID# L5M1865

**1883 Half Eagle, MS67 ★  
Finest Known, Amazing Quality**

- 3961 1883 MS67 ★ NGC.** After three consecutive years of multiple-millions mintages for half eagles, perhaps Philadelphia was due for a slowdown. Whatever the actual reason, fewer than a quarter-million of the coins were struck at the main Mint in 1883, and high-grade examples are rarities, none so much as this MS67 ★ example. When we first offered this piece in November 2004, it was the only coin of its kind, easily trumping the next-best grade of MS65.

The holder is different this time around, but everything else about this beautiful Superb Gem is the same as in 2004, including its distance from the rest of the pack. Smooth orange-gold surfaces have wonderful luster with glimpses of peach. Fully detailed with a shallow planchet flaw above Liberty's nose the only reliable pedigree marker.

*From The Fenn Family Collection.* NGC ID# 25XK, PCGS# 8361, CoinPlex ID# L5M1883

**Select 1890-CC Half Eagle  
Variety 1-A, the Only Die Pair**

- 3962 1890-CC MS63 PCGS. Variety 1-A.** The Carson City Mint produced 53,800 half eagles in 1890, all from a single documented die pair. The mintage was sufficient that any collector has an opportunity to acquire an example, but it was low enough that high grade pieces remain elusive. This Select Mint State specimen displays brilliant lemon-yellow surfaces with frosty luster and minimal marks. A few splashes of honey-gold are noted on each side. Population: 33 in 63, 29 finer (1/13). PCGS# 8376, NGC ID# 25Y3, CoinPlex ID# L5M1890CC

## PROOF LIBERTY HALF EAGLE

Gem Proof 1876 Liberty Half Eagle  
Very Rare Cameo Example  
Popular Centennial Issue

**3963 1876 PR65 Cameo NGC.** The 1876 proof Liberty half eagle claims a tiny mintage of just 45 pieces. Small though it is, this figure represents the largest proof half eagle mintage of the 1870s. The coins were all included in gold proof sets, with one group of 20 sets delivered on February 19 and another group of 25 sets delivered on June 13. It seems likely that the earlier group was intended to satisfy the normal demand for the year and the later group was issued in conjunction with the Centennial of Independence celebration in Philadelphia in the summer of 1876. In lot 1401 of the Lorin G. Parmelee Collection (New York Coin & Stamp, 6/1890), the cataloger notes the high demand for these proof sets:

"Gold proof set: \$20, \$10, \$5, \$3, \$2 1/2, \$1: sharp, perfect proofs-many inquiries having been made for this centennial gold set; we therefore offer it entire."

The business-strike mintage was a minuscule 1,432 pieces in 1876, putting severe date-collector pressure on the small supply of proofs. Probably no more than 15-20 proofs survive in all grades, and at least two examples are impounded in institutional collections. High-quality Cameo examples are very rare.

The present coin is a delightful Gem with sharply detailed design elements and well-preserved yellow-gold surfaces. A pair of insignificant contact marks in the obverse field, near star 5, will serve as pedigree markers for this noteworthy specimen. The richly frosted devices and deeply mirrored fields create a stunning cameo effect when the coin is tilted in the light. Eye appeal is outstanding. Census: 3 in 65 Cameo, 2 finer (1/13). NGC ID# 28CD, PCGS# 88471, CoinPlex ID# L5P1876CA

## INDIAN HALF EAGLES

### 1909-O Indian Half Eagle, AU55 Final O-Mint Issue

3964 1909-O AU55 NGC. Variety 1. A paltry mintage of just 34,200 Indian half eagles was accomplished at the New Orleans Mint in 1909, during the last year of coinage operations at the storied Southern facility. Accordingly, the 1909-O is one of the most sought-after issues in the 20th-century gold series.

Both sides of this well-struck Choice AU specimen exhibit abundant original mint luster and only the slightest scuffiness on the devices precludes a Mint State evaluation. The light greenish-gold surfaces are free of large or distracting marks and eye appeal is quite strong for the grade. An excellent opportunity for those not wishing to wait for a Mint State piece. NGC ID# 25ZK, PCGS# 8515, CoinPlex ID# I5M1909O

---

Mint State 1909-O Indian Half Eagle  
Only O-Mint Five Struck in the 20th Century

**3965 1909-O MS61 PCGS. CAC.** The year 1909 is an interesting portrait of American numismatics, with one mint looking backward while the others faced resolutely forward. The New Orleans Mint's production of the 1909-O half eagle would mark the first and last time it would strike an Indian Head gold coin of any denomination, in a series already in its second year. The facility, which opened in 1838, would cease operation in 1909, an outdated throwback, a crumbling shell of its former glory. In Philadelphia and San Francisco, the mints were producing the shiny first-year examples of the new Lincoln cent. The Denver Mint, opened in 1906, was producing gold coins of the new Pratt Indian Head and Saint-Gaudens designs by 1908, and would strike its first Lincoln cents in 1911 and Liberty nickels in 1912. But the 1909-O half eagle, of the Indian Head design, would be the first gold coin issue New Orleans had made since the Liberty Head eagle of 1894. (In fact, it is the only O-mint half eagle struck during the 20th century.)

The 1909-O half eagle is every bit as famous within its series as the 1911-D is among the quarter eagles, even if the 1909-O five is not the only series key. Mint State examples such as the present piece are in great demand, however, and there are far more bidders than successful buyers for every nice example. This piece displays original "crusty" surfaces, a feature seldom seen on this issue. The surfaces are largely yellowish-brown, and each side shows unbroken mint luster. The grade derives primarily from a few larger marks scattered over both sides.

*From The Fenn Family Collection. PCGS# 8515, NGC ID# 25ZK, CoinPlex ID# I5M1909O*

---

**1913-S Half Eagle, MS62**  
**Scarce in Finer Grades**

- 3966 **1913-S MS62 PCGS.** The 1913-S half eagle is quite scarce in MS63, but this MS62 is an attractive alternative, showing antique-gold color with some charcoal accents in the fields on both sides and a few marks consistent with the grade. The crucial cheek of the Indian is free of major marks, a plus for collectors. PCGS has seen five in 62+ and 63 finer (1/13). PCGS# 8526, NGC ID# 25ZP, CoinPlex ID# I5M1913S

---

**Eye-Catching Gem 1914 Half Eagle**  
**Just Two Finer in Combined Population**

- 3967 **1914 MS65 NGC.** While the 1914 half eagle is generally accessible in lesser grades, a true Gem is a condition rarity worth savoring. This strongly detailed MS65 example has generous yellow-gold luster swirling across each side with hints of peach to the surfaces. Several planchet depressions in the mouth area may appear to be marks under casual inspection but are not, hence the high technical grade. The obverse is solid, but the shimmering and carefully preserved reverse is an utter delight with just a small vertical scrape below the word TRUST for an obvious mark. Census: 20 in 65, 1 finer (1/13). NGC ID# 28DU, PCGS# 8527, CoinPlex ID# I5M1914

---

**1914 Indian Half Eagle, MS65**  
**Undervalued in Gem**

- 3968 **1914 MS65 PCGS. CAC.** With a mintage just shy of a quarter million pieces, the 1914 has the lowest production of any Philadelphia Mint Indian half eagle, and it is the second rarest Philadelphia issue behind the 1929. Both sides of this Gem display bold definition that is typical for the issue. The surfaces are lightly abraded, but lack the usual heavy marks seen on most survivors. Delicate sky-blue overtones accompany the frosty yellow-gold luster, creating above-average eye appeal. This issue is considerably undervalued in MS65. Population: 27 in 65, 1 finer (1/13). PCGS# 8527, NGC ID# 28DU, CoinPlex ID# I5M1914

---

Near-Gem 1914-S Indian Half Eagle  
Premier Condition Rarity  
Ex: Thaine Price

3969 **1914-S MS64 NGC.** The 1914-S Indian half eagle is a prime condition rarity, tied with the 1912-S as the rarest issue of the series in high grade. When David Akers cataloged this identical coin in lot 35 of the Dr. Thaine B. Price Collection, he noted:

“The 1914-S Half Eagle is another classic example of a condition rarity. Although 263,000 were minted, not an especially low mintage even by Indian Head Half Eagle standards, apparently most were immediately placed into circulation since the majority of known specimens are in the EF to AU range. There are a number of Uncirculated pieces known, however, most of them from a small hoard of mint state examples that was uncovered some years ago. None of these pieces was of high quality, however, and in Choice Uncirculated or better condition, the 1914-S Half Eagle remains one of the least often available issues among all Twentieth Century United States gold coins. By today's strict grading standards, probably no more than two or three could legitimately be called Gems and only a handful of others match this specimen in terms of overall quality and appearance.”

Recent population data confirms Akers' assessment of the rarity of this issue in high grade. Currently, PCGS has graded six coins in MS64 and two examples in MS64+, with none finer, while NGC has certified six specimens in MS64, one coin in MS65, and none finer (1/13).

This extraordinary coin displays vibrant mint luster on both sides, unusual for the 1914-S, which often comes with granular surfaces and muted mint luster. The design elements are sharply detailed and the mintmark is unusually bold and well-formed. The well-preserved surfaces exhibit delightful shades of green and orange-gold patina, with tremendous eye appeal. A vertical hairline just left of E in E PLURIBUS UNUM serves as a pedigree marker. This coin is tied with two other pieces for second place in David Akers list of Significant Examples. A comparable specimen may not become available for years.

Ex: Dr. Thaine B. Price Collection (David Akers, 5/1998), lot 35; Long Beach Signature (Heritage, 9/1998), lot 7150; FUN Signature (Heritage, 1/1999), lot 8167. NGC ID# 28DW, PCGS# 8529, CoinPlex ID# I5M1914S

## PROOF INDIAN HALF EAGLE

1909 Indian Half Eagle, PR66+  
Rare Roman Finish Example  
Ex: Eliasberg

**3970 1909 PR66+ PCGS. CAC.** After the first year of the matte finish proved so unpopular with collectors, the Mint switched to what we know today as the “Roman Finish” style of proofing for gold coins. This method did not involve treating the planchets, as with the previous matte finish. Rather, proofs were struck on unprepared planchets. The striking pressure imparted a natural brightness to the limited production runs of proof gold. In the case of the 1909 only 78 proofs were struck, and of that number it is estimated that perhaps 30 or so pieces are extant today in all grades.

The surfaces are bright and show a surprising green-gold tint, rather than expected yellow-gold. Just around the margins on each side there is a light, but still noticeable accent of reddish patina. All design elements show razor-sharp definition, as expected of a proof. The surfaces are unmarked as far as we can see, with one exception: A shallow, irregularly shaped planchet flake is seen in the reverse field just above the eagle's tail feathers. This identifier greatly simplifies tracing the pedigree of this important coin. Finer pieces are known, but not many. Each of the major services show only seven pieces in PR66 with a combined 10 pieces finer, one at PCGS and nine at NGC (1/13). Numismatists have slowly begun to realize the absolute rarity of this two-year proofing process and the knowledgeable collector will bid accordingly.

*Ex: John H. Clapp Collection, directly from the Mint, December 1909; Louis E. Eliasberg, Sr.; The United States Gold Coin Collection (Bowers and Ruddy, 10/1982), lot 621; Raj Collection (Stack's, 8/2011), lot 7697.*

*From The Fenn Family Collection. PCGS# 8540, NGC ID# 25ZS, CoinPlex ID# 15P1909*

## EARLY EAGLES

### BD-5 1795 Ten Dollar, AU58 Rarest 13 Leaves Die Pair

3971 1795 13 Leaves AU58 NGC. BD-5, R.5. Among the rarer 13 Leaves die pairs for the 1795 eagle, distinguished by the gap between the leaves and the U in UNITED as well as the “attenuated” star 10 that is distant from Liberty’s cap. **Bass-Dannreuther Die State e/c**, only state recognized as extant in *Early U.S. Gold Coin Varieties*, heavily lapped and cracked. Additional theoretical states include the less-lapped d/c and the terminal f/d.

Die state evidence paints an intriguing picture of the emission sequence for the 1795 ten dollar coins, the first year of issue for the largest denomination authorized by the Mint Act of 1792. The 9 Leaves or BD-3 variety, rarest of all 1795 ten dollar die pairs, matches Obverse 2 with Reverse B. The two dies were taken out of service at the same time, replaced with Obverse 3 and Reverse C (the BD-4) tandem. The BD-5 variety came about when Obverse 2, previously retired but still usable, was paired with the similarly worn-down but functional Reverse C; noted gold coin expert Harry W. Bass, Jr. emphasized this finding with an exclamation point in his notebook, as seen in *Early U.S. Gold Coin Varieties*.

This is a near-Mint example of the BD-5 die pair, minimally worn with considerable radiance to the yellow-gold luster. A dull patch is noted just to the left of the eagle’s head, and a few more echoes appear on either side. Detail is impressive, especially when the extensive die lapping is taken into consideration. All-in-all, a coin many collectors would be proud to own as a representative of the rarest 1795 13 Leaves die pair.

From *The Fenn Family Collection*. NGC ID# 25ZT, PCGS# 8551, CoinPlex ID# E101795

---

**Near-Mint 1796 Eagle**  
**BD-1, Only Variety of the Date**  
**Very Scarce Early Issue**

**3972 1796 AU58 NGC. BD-1, R.4.** Bass-Dannreuther Die State c/b. This piece has the vertical die crack almost always seen through the cap, below the E in LIBERTY. The reverse die is early in its life, proving that this piece was coined before 1797 pieces that used the same reverse die. Some later die states of the 1796 eagle were coined after the 1797 Small Eagle tens. The scenario creates confusion regarding original mintage figures. Some of the 4,146 eagles reported for 1796 were actually dated 1795, and some of the 3,615 eagles of 1797 were actually dated 1796.

While the 1795 Small Eagle tens are plentiful, those dated 1796 and, especially, 1797, are much rarer. John Dannreuther estimates a total survival of about 500 1795-dated eagles, about 150 1796-dated eagles, and only 60 1797 Small Eagle tens. For all of those issues, higher grades are much rarer. An accurate condition census of early eagles is nonexistent but such a record is highly needed. There are probably only 10 to 12 different Mint State 1796 eagles surviving today, with a couple dozen AU coins also known. The 1796 eagles have long been a favorite of collectors and recent auction appearances include the attractive AU58 PCGS coin in lot 4980 of the Pittsburgh Signature (Heritage, 10/2011) that realized \$92,000.

This near-Mint specimen is highly lustrous with only a trace of wear on the high points. Both sides have minuscule marks that are expected for the grade, and light adjustment marks are visible in the hair. This impressive piece, with its slightly reflective fields and bright yellow surfaces, has excellent eye appeal and will grace a fine cabinet of early eagle varieties. Census: 29 in 58, 15 finer (1/13). NGC ID# 25ZW, PCGS# 8554, CoinPlex ID# E101796

---

Large Stars Obverse 1799 Eagle  
Choice XF, BD-10

3973 1799 Large Stars Obverse XF45 PCGS. BD-10, R.3. 1799 was an abundant year for gold eagle varieties. Ten die marriages are known; eight with small obverse stars and two with large obverse stars. The latter share the same obverse die, and although BD-9 is very rare, BD-10 is collectible by the standards of the challenging series. The present orange-gold and olive-green representative is devoid of visible marks although the fields display minor hairlines. The eagle's plumage is intricately detailed and glimpses of luster outline design elements. The Heraldic Eagle ten dollar is missing from most gold type sets, and here is an opportunity to obtain a problem-free but collector-grade example. PCGS# 8562, NGC ID# 2623, CoinPlex ID# E101799

---

Mint State 1800 Capped Bust Right Eagle  
BD-1, Only Dies for the Date  
Rarely Seen Finer

3974 1800 MS60 NGC. BD-1, High R.3. Bass-Dannreuther Die State c/e. The reported mintage of Capped Bust Right eagles in 1800 was a meager 5,999 pieces, and there is a single die variety known for the date. However, this issue is somewhat more available today than the small mintage figure would suggest, with a surviving population of 200-300 examples in all grades. The reverse die was used in 1799 to strike the BD-10 variety of that year, then employed to strike the early die states of the 1800 issue, then used to produce the scarce BD-1 variety of 1801, and finally remarried with this obverse die to strike more 1800-dated eagles. The late die state of this coin indicates it was struck after the 1801 BD-1 eagles, and the coins from the later 1800-dated emission were probably included in the mintage totals for 1801.

The 1800 eagle was always a popular date with collectors, possibly because of its low mintage figure and its turn-of-the-century date. Examples appeared at auction in sales of the 1860s, including the coin offered in lot 1620 of the Fifth Semi-Annual Sale (W. Elliot Woodward, 10/1864):

"1800 Nearly as fine as the last; fine impression and beautiful surface; very scarce."

The lot, which sounds like a coin very similar to the present specimen, realized \$23 to J.O. Emery, a good price at the time. Examples appear several times per year in the modern era, bringing higher and higher prices. The record price realized for an 1800 eagle belongs to the magnificent MS65 NGC coin in lot 3250 of the FUN Signature (Heritage, 1/2008), which brought \$310,500.

This coin displays sharply detailed design elements and retains much of its original mint luster. The pleasing greenish-gold surfaces show a scattering of minor contact marks on both sides, explaining the grade. An interesting network of die breaks is evident through the branch, tailfeathers, and arrow shafts, and another crack travels through UNI, identifying the late die state. Eye appeal is outstanding for an early eagle. Census: 5 in 60, 42 finer (1/13). NGC ID# 2626, PCGS# 8563, CoinPlex ID# E101800

---

MS61 1801 Eagle, BD-2  
Type Collection Essential

- 3975 1801 MS61 NGC. BD-2, R.2. A sharply struck apricot-gold Heraldic Eagle type coin. Consequential marks are absent, though close inspection of the open fields beneath a loupe shows trivial hairlines. The usual die state with nine curious vertical “spines” (bold, straight, vertical, parallel die lines) within Liberty’s cap. Upon first glance, these appear to be clash marks from the shield, but they do not match the shield, or part of any U.S. coin of the era, and their true origin remains unknown. Occasional examples of BD-2 lack the “spines,” such as lot 4967 in our January 2012 FUN Signature, so the obverse die received the mysterious impressions after it was first placed in service. NGC ID# 2627, PCGS# 8564, CoinPlex ID# E101801

LIBERTY EAGLES

Near-Mint 1838 Eagle  
Low-Mintage, Two-Year Type Coin

- 3976 1838 AU58 NGC. Coinage of ten dollar gold pieces resumed in 1838, after a hiatus of 34 years. The 1838 Liberty Head eagle boasts a minuscule mintage of 7,200 pieces, making the date scarce-to-rare in all grades. Gobrecht’s Liberty Head design was modified in 1839, leaving a two-year design type that is quite popular with type collectors. Coins in near-Mint condition are very rare today, and Mint State examples are virtually unobtainable.

The present coin is a pleasing AU58 specimen, with lustrous, greenish-gold surfaces and frosty devices. The central design elements are strongly impressed, with fine detail present on Liberty’s hair and the eagle’s neck. A few star centers are a little flat. The surfaces show few abrasions for the grade. Census: 7 in 58, 2 finer (1/13).  
From *The Fenn Family Collection*. NGC ID# 262D, PCGS# 8575, CoinPlex ID# LTM1838

---

**1848 Eagle, MS61  
A Condition Rarity**

**3977 1848 MS61 NGC.** An impressive Mint State example representing the beginning of an important historical era in American history as James Marshall discovered gold in California the same year this coin was struck. However, it is doubtful that this piece, or any 1848 eagles, were struck out of California mined gold.

Eagles were only minted in Philadelphia and New Orleans during the year, and the New Orleans pieces are elusive. This lovely Mint State piece exhibits above average design motifs with brilliant yellow surfaces and reflective fields. Highly appealing and quite rare. Census: 11 in 61, 11 finer (1/13). NGC ID# 2633, PCGS# 8599, CoinPlex ID# LTM1848

**Eliasberg's MS63 1883-S Ten Dollar**

**3978 1883-S MS63 PCGS. CAC. Ex: Eliasberg.** The 1883-S is an underappreciated scarcity with a mintage of just 38,000 pieces. This is a high-end example with dynamic cartwheel luster, lovely lime-green and orange toning, and an intricate strike. One small mark on the jaw and a tiny mint-made carbon spot at 10 o'clock deny an even finer third party assessment. Exceeded in grade only by the spectacular MS66 example from the Harry W. Bass, Jr. collection. Population: 6 in 63, 1 finer (1/13).

Ex: *United States Gold Coin Collection (Bowers and Ruddy, 10/1982), lot 778.* PCGS# 8702, NGC ID# 2669, CoinPlex ID# LTM1883S

**Smooth MS63 1895-O Eagle  
None Finer at PCGS**

**3979 1895-O MS63 PCGS. Variety 2.** Three die pairs are known for this later New Orleans issue. The mintage of 98,000 pieces suggests scarcity, but it is nonetheless surprising that PCGS has yet to certify any examples above the MS63 level. The present lustrous representative has smooth olive-gold surfaces and a sharp strike. One small lamination near the shoulder tip provides an identifier. Population: 20 in 63, none finer (1/13). PCGS# 8733, NGC ID# 2679, CoinPlex ID# LTM1895O

## PROOF LIBERTY EAGLES

### 1879 Liberty Eagle, PR65 Cameo Classic 19th Century Rarity

**3980 1879 PR65 Cameo NGC.** The 1879 proof Liberty eagle is a classic rarity in the U.S. gold series. While not as well known as the 1877 and 1878, the 1879 proof Liberty eagle is just as elusive. Only 30 specimens were struck, and experts agree no more than 10 to 12 individual coins are known today. We could only account for seven distinct specimens in our roster below, but a few examples may not have appeared in our auction survey. Two coins are impounded in Institutional collections, further reducing the number available to collectors. This coin is tied with one other specimen for second-finest certified (4/12), but it is difficult to imagine an example with greater eye appeal.

As with all proofs of this date, the hair curls behind Liberty's head are detached by excessive die polishing and seem to "float" in back of the neck. Further evidence of this heavy die polishing can also be seen on the detached left end of the scroll, and below the second T in TRUST. The surfaces display lovely honey-gold coloration and the fields are deeply mirrored with a significant amount of mint frost over the devices; this produces impressive cameo contrast on each side. Close examination with a magnifier shows a few light hairlines, but these do not impair the overall appearance or Gem quality of this important 19th century gold coin.

#### 1879 Proof Eagle Roster

1. **PR65 Cameo NGC.** FUN Signature (Heritage, 1/2007), lot 3659, realized \$50,312.50, **the present coin.**
2. **PR65 Cameo NGC.** Atlanta Signature (Heritage, 8/2001), lot 7946; FUN Signature (Heritage, 1/2006), lot 3546.
3. **PR64 Cameo PCGS.** FUN Signature (Heritage, 1/2007), lot 3772.
4. **PR64 PCGS.** T. Harrison Garrett, purchased directly from the Mint; Robert Garrett; John Work Garrett; Johns Hopkins University; Garrett Collection, Part IV (Bowers and Ruddy, 10/1980), lot 1675; Auction '84 (Stack's, 7/1984), lot 1454, Ed Trompeter; FUN Signature (Heritage, 1/1999), lot 8241; Santa Clara Signature (Heritage, 11/1999), lot 6901; Central States Signature (Heritage, 5/2000), lot 7797.
5. **PR64 PCGS.** Massachusetts Historical Society Collection (Stack's, 10/1970), lot 955; Harry W. Bass, Jr; Bass Collection, Part II (Bowers and Merena, 10/1999), lot 1571; Bass Collection, Part IV (Bowers and Merena, 11/2000), lot 728; Central States Signature (Heritage, 4/2011), lot 5438.
6. **PR64 Cameo, Uncertified.** A specimen in the National Numismatic Collection, Smithsonian Institution, formerly in the Mint Cabinet, purchased from the coiner in January 1879, per Walter Breen. Grade courtesy of Jeff Garrett and Ron Guth.
7. **Proof.** R.C.W. Brock, purchased from the Mint in 1879; J.P. Morgan; donated to the American Numismatic Society in 1908, exhibited at the 1914 ANS Exhibition.

#### Other Appearances

- A. World's Greatest Collection (Numismatic Gallery, 1/1946), lot 684; Memorable Collection (Numismatic Gallery, 3/1948), lot 577; ANA Convention Auction (Abe Kosoff, 8/1968), lot 1033; Florida numismatist, part of an assembled 1879 gold proof set, possibly the same as number 2 above.
- B. William Cutler Atwater Collection (B. Max Mehl, 6/1946), lot 1457.
- C. David S. Wilson Collection (S.H. Chapman, 3/1907), lot 339, part of a complete six-piece gold proof set.
- D. Thomas Cleneay Collection (S.H. & H. Chapman, 12/1890), lot 430, part of a complete six-piece gold proof set.
- E. William B. Wetmore Collection (S.H. & H. Chapman, 6/1906), lot 162, part of a complete six-piece gold proof set.
- F. Somerset Collection (Bowers and Merena, 5/1992), lot 1541, listed as PR60, polished, possibly a business strike.

*From The Fenn Family Collection.* NGC ID# 28FH, PCGS# 88819, CoinPlex ID# LTP1879CA

---

## Superb Gem Proof 1902 Eagle First Year of Brilliant Finish

3981 1902 PR67 NGC. Mintages can be deceiving, a lesson learned by many collectors with Morgan dollars or Saint-Gaudens twenties but equally applicable to the proof 1902 ten dollar issue. As Garrett and Guth put it in the *Encyclopedia of U.S. Gold Coins*, "The 1902 eagle has the second-highest mintage of any Proof Liberty Head eagle, but it is certainly not the second most common today. Rather, the 1902 issue is difficult to find in any grade and is especially elusive in Gem condition."

Why is the proof 1902 eagle so rare relative to its official mintage? While any assessment must contain its fair share of speculation, the influence of the change in finish cannot be ignored. Taken as a whole, the proof eagles from 1902 to 1907 have both low survival rates compared to their immediate predecessors and smaller total pools of survivors. In the case of the 1902 eagle, perhaps 30 to 35 pieces survive after resubmissions are culled from the pool of certified pieces. The two NGC PR67 specimens graded are the finest in the combined certified population, as of (1/13).

This is one of them, a gleaming beauty with just a hint of field-device contrast. Sharply impressed on the devices with stunning mirrors, this is a truly elite specimen with only a few tiny planchet depressions. Easily the finest specimen of the issue ever offered by Heritage, this is an important opportunity for the dedicated proof gold collector. NGC ID# 28G9, PCGS# 8842, CoinPlex ID# LTP1902

## INDIAN EAGLES

### 1908-D No Motto Ten, MS65+ Superlative Type Coin

**3982 1908-D No Motto MS65+ PCGS. CAC.** The new Saint-Gaudens design for the Indian Head eagles was introduced in 1907 to the general public via the 1907 No Periods issue, struck to the extent of nearly a quarter-million pieces. The 1908 Philadelphia and Denver ten dollar issues were both fairly low-mintage affairs, as the motto IN GOD WE TRUST was placed on the coins as mandated by Congress over the objections of President Theodore Roosevelt, and the 1908 With Motto issues from Philadelphia and Denver saw much larger productions.

The 1908-D No Motto issue had a mintage of 210,000 pieces while the 1908 Philadelphia No Motto only saw 33,500 struck. But despite the difference in mintages, the 1908-D No Motto is highly elusive at the Gem level. Michael Fuljenz writes of the issue in *Indian Gold Coins of the 20th Century*:

"The 1908-D No Motto issue is just about as rare overall as its Philadelphia Mint counterpart, despite possessing a much larger mintage. This is due mostly to a lack of continued interest in the novelty of the new design and as a result very few were actually saved."

Fuljenz ranks the 1908-D No Motto eighth most elusive in the series out of 32 in rarity at the Gem level. The present piece is certified MS65+ by PCGS and also boasts the CAC endorsement. The bright, swirling mint luster is more suggestive of an S-mint than a D-mint. The strike is sharp throughout both sides. The rich reddish-gold patina shows slight accents of lilac when closely examined, over surfaces that show a granular texture typical of the issue. A superlative type coin. Population: 3 in 65 (1 in 65+), 5 finer (1/13). PCGS# 8854, NGC ID# 28GH, CoinPlex ID# ITM1908DNM

**Choice 1909 Indian Eagle  
Vivid Color, Sharp Details**

**3983 1909 MS64 PCGS. CAC.** From a smallish mintage of 184,700 pieces, the 1909 Indian eagle is a scarce issue in MS64 condition, and quite rare in higher grades. This sharply detailed Choice example displays vivid greenish-gold surfaces, with vibrant mint luster and excellent eye appeal. Population: 75 in 64, 25 finer (1/13). PCGS# 8862, NGC ID# 28GM, CoinPlex ID# ITM1909

**1932 Indian Eagle, MS66  
Only One Numerically Finer Coin at PCGS**

**3984 1932 MS66 PCGS.** The 1932 Indian eagle is an available date in lower grades, but the issue is very scarce at the Premium Gem level, and very rare any finer. This well-detailed example displays especially vibrant mint luster, and the light orange gold surfaces are virtually mark-free. Population: 91 in 66 (1 in 66+), 1 finer (1/13). PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932

**LIBERTY DOUBLE EAGLES**

**1850 Liberty Double Eagle, AU58  
First Year of Denomination**

**3985 1850 AU58 NGC.** Always popular as a first-year type coin, the 1850 Liberty double eagle is seldom encountered in high grade. This attractive near-Mint specimen shows just a touch of wear on the high points of the well-detailed design elements and the pleasing greenish-gold surfaces retain most of their original mint luster. A scattering of minor contact marks is consistent with the grade. NGC ID# 268F, PCGS# 8902, CoinPlex ID# 20M1850

**Near-Mint 1850 Double Eagle  
Important First-Year Type Coin**

**3986 1850 AU58 PCGS. CAC.** The twenty dollar denomination was struck for the first time in 1850, making the date an important one for type purposes. This well-detailed near-Mint example displays vivid orange-gold surfaces, with frosty mint luster and a scattering of minor contact marks that define the grade. Population: 34 in 58, 72 finer (1/13). PCGS# 8902, NGC ID# 268F, CoinPlex ID# 20M1850

**1850-O Twenty Dollar, AU53  
Elusive New Orleans Issue**

**3987 1850-O AU53 NGC.** This piece is from the usually encountered die marriage for the 1850-O, identified by a high mintmark that touches the eagle's tail. Although struck at New Orleans every year from the advent of the denomination until the Civil War shuttered the facility in 1861 (and again in 1879 when the mint re-opened), O-mint double eagles are very scarce relative to demand from Southern type collectors. The typical example grades XF, and Uncirculated pieces are prohibitively rare. The present AU53 piece has plentiful pockets of luster and abrasions are moderate aside from a bagmark beneath obverse star 8. *From The Fenn Family Collection.* NGC ID# 268G, PCGS# 8903, CoinPlex ID# 20M1850O

1855-O Double Eagle, AU50  
Third-Rarest O-Mint Twenty

**3988 1855-O AU50 PCGS. Variety 1.** The 1855-O Liberty double eagle is the third-rarest O-mint twenty, with a mintage of just 8,000 pieces. The 1855-O has been overshadowed by its ultra-rare neighbors, the 1854-O and 1856-O, but it is a very scarce issue in all grades, with only 70-80 specimens still extant. Most examples seen are in the VF-XF grade range, and attractive AU coins are quite rare.

This impressive AU specimen is well-detailed, with vivid lemon-yellow surfaces and ample mint luster. A few hints of prooflike reflectivity cling to protected areas around the devices. A scattering of minor contact marks on both sides defines the grade. Population: 4 in 50, 15 finer (12/12). PCGS# 8915, NGC ID# 268W, CoinPlex ID# 20M1855O

Borderline Uncirculated 1857-S Twenty  
Ex: S.S. Central America, Variety 20H

**3989 1857-S AU58 PCGS. CAC. Variety 20H.** Ex: S.S. Central America. SSCA 4697. 20H is the Bold, Low S variety, a much scarcer SSCA reverse than the prevalent 20A Spiked Shield. The present sun-gold example displays considerable luster, though the high points of the hair show slight rub. Field marks are minor and generally confined to the left obverse field. Housed in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

1857-S Inverted Mintmark Twenty, MS62  
From the S.S. Republic

**3990 1857-S MS62 NGC.** Ex S.S. Republic. Most 1857-S double eagles in the market place are from the S.S. Central America discovery that sank in September of that year. However, eight years later, the S.S. Republic sank, also with a remarkable gold treasure. This piece is from the latter treasure.

The large S mintmark is right of center over the N in TWENTY and was punched in the die upside down, as the top of the mintmark is heavier than the bottom. It should be the other way around. While this example shows scattered marks, both sides are fully brilliant with frosty mint luster and lovely light yellow surfaces. NGC ID# 2696, PCGS# 8922, CoinPlex ID# 20M1857S

Near-Gem 1857-S Double Eagle  
Non-SSCA Origin

**3991 1857-S MS64 PCGS.** Despite its high numerical grade, vibrant mint luster, smooth surfaces, and rich peach-gold and lime-green toning, the present 1857-S twenty *did not* originate from the S.S. Central America shipwreck. We know this because the reverse die does not match any of the eight documented in Robert Evan's July 2000 *Numismatist* article. The mintmark is entered lower and further right than on any SSCA reverse. The coin was presumably struck in the later months of the year, after the gold shipment destined for the SSCA left the West Coast. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

---

Spiked Shield 1857-S Double Eagle, MS65  
S.S. Central America Treasure

- 3992 **1857-S MS65 PCGS. Variety 20A.** Ex: S.S. Central America. SSCA 0330. One of the more heavily patinated and colorful examples of the “Spiked Shield” 1857-S Central America double eagle to make its way into a gold-label PCGS holder. Its orange-gold luster is strong, though cloudy areas occupy the right reverse as well as areas behind Liberty’s head. A touch of rose is noted at the obverse rim southwest of the tip of the bust. Under the patina is a quality Gem. This piece comes with a book-style case, and while the paper certificate of authenticity is missing, the PCGS holder is testament enough to this coin’s place in numismatic history. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

---

Mint State 1861 Liberty Twenty  
Possible Shipwreck Coin

- 3993 **1861 MS61 PCGS.** A remarkable Mint State example of this Type One double eagle, with sharp details in Liberty’s hair and smooth rose-gold surfaces that display frosty, slightly subdued, mint luster. The surfaces are remarkably free of significant distractions, suggestive of a higher grade. This coin has the look of a shipwreck find, but no documentation is present. PCGS# 8932, NGC ID# 269G, CoinPlex ID# 20M1861

---

Civil War-Era 1863-S Double Eagle, MS61

- 3994 **1863-S MS61 PCGS.** The vast majority of the Civil War’s fighting left the Western, Union-aligned states — California and Oregon at the start of the war, and Nevada beginning in 1864 — largely untouched in an economic sense. At a time when gold was hoarded back east, the San Francisco Mint was striking large quantities of double eagles, approaching a million in the case of the 1863-S. This is a scarce Mint State representative of the issue, softly struck on the high points with subtle yellow-to-orange luster but considerable all-around appeal. Shallow cuts on Liberty’s cheekbone and chin contribute to the grade. Population: 18 in 61, 20 finer (1/13). PCGS# 8940, NGC ID# 269R, CoinPlex ID# 20M1863S

Select Mint State 1865 Double Eagle  
Boldly Lustrous Beauty

3995 **1865 MS63 NGC.** Surprisingly bright luster starts at pale canary but approaches sun-yellow on this double eagle dated to the final year of the Civil War. The reverse was in a late state of use, as evidenced by spidery die cracks at the upper legend and the top left side of the rays. The all-around definition is solid, and if not for a single significant abrasion that crosses between the hair under Liberty's coronet and her forehead, the piece would be a lock for a finer grade. Many high-grade examples of this double eagle issue were recovered from the *S.S. Republic*, though the present coin is not sourced. NGC ID# 269U, PCGS# 8943, CoinPlex ID# 20M1865

1867-S Type Two Twenty, AU58  
Seldom Seen Finer

3996 **1867-S AU58 PCGS. CAC.** Mint State examples of the 1867-S double eagle are quite elusive, despite the large mintage of 920,750 pieces. These pieces were part and parcel of everyday commerce in the dusty, hardscrabble Old West, and today the average certified survivor grades a bit less than AU50. This example offers excellent mint luster overall but is rather densely marked with abrasions accounting for the AU58 grade rather than actual rub. One long, arcing scrape runs from the tip of the coronet, extending close to star 5. The medium-gold surfaces show a slight reddish patina, along with a decent strike for a Type Two twenty. NGC has seen only 22 submissions finer (1/13). PCGS# 8952, NGC ID# 26A2, CoinPlex ID# 20M1867S

XF Sharpness 1871-CC Twenty  
Early Low Mintage Issue

3997 **1871-CC — Cleaning — PCGS Genuine. XF Details. Variety 1-A.** Though affordable relative to the famous first-year 1870-CC, the 1871-CC is rare in its own right, as only 17,387 pieces were struck and none were given numismatic consideration until a quarter century later. This caramel-gold example is somewhat glossy but retains traces of mint luster. Just one bagmark merits mention, located between obverse stars 1 and 2. PCGS# 8961, NGC ID# 26AB, CoinPlex ID# 20M1871CC

---

**AU Sharpness 1872-CC Twenty**

**3998 1872-CC — Streak Removed — PCGS Genuine. AU Details. Variety 1-A.** The 1872-CC is a much better Carson City issue and has about one-fifth the mintage of the 1876-CC. The present lemon-gold example has a slender and vertical mint-made streak of struck-in grease, as made, centered over Liberty's jaw. Hints of smoothing are evident on the streak at Liberty's cheek. Small to moderate marks are also present, but ample luster outlines design elements. PCGS# 8964, NGC ID# 26AE, CoinPlex ID# 20M1872CC

---

**1873-CC Double Eagle, AU55  
Popular CC-Mint Issue**

**3999 1873-CC AU55 PCGS. Variety 1-A.** The 1873-CC Liberty double eagle claims a mintage of 22,410 pieces, and the issue was considered scarce in all grades before some examples surfaced in a couple of hoards in the 1990s. Today, probably 400-500 examples are known in all grades, but the issue is still very scarce in AU55 condition. The present coin is an attractive Choice AU specimen that shows just a touch of wear on the well-detailed design elements. The medium-intensity greenish-gold surfaces retain much of their original mint luster and show only minor contact marks. Population: 25 in 55, 57 finer (1/13). PCGS# 8968, NGC ID# 26AJ, CoinPlex ID# 20M1873CC

---

**1876-S Twenty Dollar, MS64  
One of the Finest Examples Known**

**4000 1876-S MS64 NGC.** The large mintage of 1.6 million pieces, the San Francisco mintmark, the Type Two classification, and the Centennial date have all contributed to this issue's immense popularity, and it is a double eagle that is widely available, as Garrett and Guth say, "in grades of Very Fine to MS-61." It appears that many pieces were jostled about and/or shipped overseas and later repatriated, as at the near-Gem level of the present coin, the issue is decidedly *uncommon*. This specimen is one of 10 so graded at NGC, with two coins finer (1/13). Similar populations are seen at PCGS. This MS64 specimen is a specially attractive example, with excellent luster and medium orange-yellow coloration on well-struck surfaces that are free of distracting abrasions. *From The Fenn Family Collection.* NGC ID# 26AX, PCGS# 8978, CoinPlex ID# 20M1876S

---

**Select 1883-S Twenty  
Important Condition Rarity**

**4001 1883-S MS63 NGC.** An impressive Liberty twenty, this lovely gold piece has brilliant and lustrous yellow surfaces with wisps of pinkish-rose overtones on each side. The strike is sharp against the field, with a satiny, slightly prooflike reverse. A few scattered marks explain the grade of this beauty. Census: 70 in 63 (1 in 63+), 5 finer (1/13). NGC ID# 26BJ, PCGS# 9000, CoinPlex ID# 20M1883S

**1890-CC Twenty Dollar, Bright MS63  
Among the Few Finest Survivors**

**4002 1890-CC MS63 NGC. Variety 1-A.** The Sherman Silver Purchase Act of 1890 and increased gold deposits at Carson City, as the Comstock Lode shed much of its last remaining resources, made the 1890 gold coinage from Carson City the fourth-highest in the facility's history, and third-highest when one includes the silver coinage.

The 1890-CC double eagle was struck to the extent of 91,209 pieces, plentiful for Carson City but meager in comparison to the vast outputs of the era in San Francisco and Philadelphia. Perhaps 300 examples of the 1890-CC twenty survive today in Mint State. The present MS63 NGC coin is the sole finest at that service, although PCGS has seen five similarly graded submissions (1/13). Deep, even reddish patina covers each side of this piece, which displays bright, semiprooflike fields with a dab of lilac intermingled. Plentiful luster radiates throughout each side. The reverse die shows evidence of heavy lapping, as seen by the missing tailfeathers on the right side of the eagle. Light field chatter appears, along with one larger planchet flake below star 5. Among the finest survivors, both technically and aesthetically, of this historic issue.

From *The Fenn Family Collection*. NGC ID# 26BY, PCGS# 9014, CoinPlex ID# 20M1890CC

**Mint State 1892-CC Twenty  
Vivid Color, Strong Mint Luster**

**4003 1892-CC MS61 NGC. Variety 1-A.** A nominal mintage of 27,265 Liberty double eagles was accomplished at the Carson City Mint in 1892. Thanks to some finds in foreign holdings, the supply of 1892-CC twenties has increased somewhat in recent years. There are probably 800-900 examples extant in all grades today, but Mint State pieces are quite elusive. This attractive MS61 specimen displays vivid greenish-gold surfaces that show vibrant mint luster on both sides, with traces of prooflike reflectivity in sheltered areas. The design elements are sharply rendered and a scattering of minor contact marks on both sides defines the grade. Census: 76 in 61, 44 finer (1/13). NGC ID# 26C6, PCGS# 9020, CoinPlex ID# 20M1892CC

---

Uncirculated 1892-CC Twenty  
Reflective Fields on Each Side

**4004 1892-CC MS61 NGC.** Probably less than 1% of the original mintage of 1892-CC double eagles survives today in Mint State, perhaps 200 examples out of the production of 27,265 pieces. By the time this coin was struck, Nevada's fabled Comstock Lode had largely played out, and many of the Liberty Head double eagles produced at all U.S. mints from the mid-1880s forward were exported and melted — even those from Carson City. This Mint State example displays even, bright yellow-gold color with noticeably reflective fields on each side. There are remarkably few abrasions present for the grade, and the piece is sharply struck throughout. Census: 76 in 61, 44 finer (1/13). NGC ID# 26C6, PCGS# 9020, CoinPlex ID# 20M1892CC

---

---

1904 Liberty Twenty, MS66  
Ideal Type Coin

**4005 1904 MS66 PCGS.** A sharply detailed Premium Gem, with vibrant mint luster and well-preserved peach-gold surfaces. The 1904 Liberty double eagle is an available date in all grades up to MS66, but Premium Gems are scarce, and finer grades are almost unobtainable. Population: 145 in 66, 2 finer (1/13). PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

---

## PROOF LIBERTY DOUBLE EAGLES

### Centennial-Year 1876 Double Eagle, PR63 Cameo Far Fewer Survivors Than Expected

**4006 1876 PR63 Cameo PCGS.** We have often wondered about the mintage of the 1876 proofs in general compared to their subsequent survival. A glance at the *Guide Book* figures will confirm that the bookending double eagle proof issues of 1874 and 1875, as well as the 1877 and 1878, each had recorded mintage figures of 20 proofs per year, while the 1876 stands out at more than double, 45 pieces.

The 1876 twenty dollar proof nonetheless appears nearly as rare as the above-named issues, with perhaps 15 surviving in all, including the Smithsonian example. It appears as though the Mint struck extra examples in the year of the American Centennial Exposition, which took place in Philadelphia, near the Mint.

Even if that were the case, the 1876 twenty does not appear to have been saved in significantly higher numbers, at least not in terms of examples that have survived to the present day. One of the challenges to the existence of a proof double eagle over 140-150 years to today is the *sheer face value*, a sum that represented quite a lot of money until the 1940s. A collection containing a proof double eagle was always subject to being raided when times were hard or food was scarce. Various economic depressions including the Great Depression, two World Wars, and various personal calamities may have also prevented a greater survival of proof double eagles overall, regardless of the year and the number reportedly struck. It was also the Mint's usual habit to melt as unsold any examples that remained on hand at year-end, and that appears surely to be the case with the 1876.

The present PR63 Cameo example is the sole Cameo in any grade certified at PCGS, although there are two Deep Cameo examples, one in PR64 and one in PR64+. This piece shows remarkably deep-mirrored fields that complement frosted devices, and the contrast seems even more profound because of the depth of mirroring. Slight, even reddish patina appears throughout, complementing the strong yellow-gold undertones. One mentionable scrape appears in the left obverse field, from below the chin to the field area near stars 3 and 4. A wonderful example of the "caviar of U.S. numismatics."

*From The Fenn Family Collection. PCGS# 89091, NGC ID# 26DV, CoinPlex ID# 20P1876CA*

---

1876 Double Eagle, PR64+ Deep Cameo  
Finest Certified at PCGS, Ex: Pittman  
Only 45 Pieces Struck

4007 1876 PR64+ Deep Cameo PCGS. CAC. Accurate mintage records exist for most proof double eagles, such as the 45 proofs struck in 1876. Less accurate is an estimate of the number of survivors. For example, Jeff Garrett and Ron Guth suggest that only about 15 of those coins survive today. In their *Encyclopedia of U.S. Gold Coins 1795-1933*, the authors write:

“The 1876 double eagle is very rare in Proof, but the date is probably the most available issue of the type. The mintage number for the year is higher than for previous years. This may have been in anticipation of increased sales because of centennial celebrations. Many must have remained unsold, however, as there are only 15 or so coins known today. Most of the survivors grade no better than choice Proof.”

Other estimates are similar. The PCGS Coin Facts website suggests that 18 to 20 proofs are known today, and the NGC Coin Explorer website states: “we believe that only about a dozen examples still exist today, although the number may be as high as 15 coins.”

In addition to the rarity of the date in proof, type collectors must also consider how many proofs survive for the entire Type Two design that was issued from 1866 through 1876. That total population is almost certainly under 100 pieces, or about nine per issue.

We have made no attempt to compile a roster of proof 1876 double eagles. Such rosters rank among the most challenging numismatic pursuits. Plate matching photos from older catalogs is a nearly impossible task. However, this piece has a prominent lilac toning spot between star 13 and the border that identifies it as the John Jay Pittman coin. Pittman’s collection was known for the high quality of its contents, which is borne out by the virtues of this coin. Both sides have deeply mirrored fields with rich yellow surfaces and outstanding contrast. The surfaces host a few faint hairlines and imperceptible contact marks. A stunning visual display accompanies the rarity of this piece. PCGS has certified three PR64 examples of the 1876 double eagle, one in PR64, another in PR64 Deep Cameo, and this coin in PR64+ Deep Cameo, with none finer (1/13).

Ex: *Memorable Sale* (Numismatic Gallery, 3/1948), lot 697; *John Jay Pittman*; *Pittman Collection, Part I* (David Akers, 10/1997), lot 1153. PCGS# 99091, NGC ID# 26DV, CoinPlex ID# 20P1876DC

**1877 Double Eagle, PR58 Cameo  
Lightly Circulated Proof Example**

- 4008 1877 PR58 Cameo NGC.** This is an only slightly circulated proof that we would hesitate to call “impaired,” as it still boasts all the attributes and convincing surfaces and full strike of a proof coin, despite the fields showing a bit of fuzziness from handling and a few scattered small- to medium-sized contact marks on each side. The surfaces are bright yellow-gold with a slight tinge of reddish patina complementing, and the contrast remains sufficiently clear for a Cameo designation. The proof mintage was recorded as 20 pieces, but perhaps half that number survive today. Given the intense demand for proof Liberty twenties, this mildly circulated specimen will provide an opportunistic entry point for many bidders that otherwise would be unavailable to them. We expect astute bidders will act accordingly. Census: 1 in 58 Cameo, 4 finer (1/13).  
From *The Fenn Family Collection*. PCGS# 89093, CoinPlex ID# 20P1877CA

**HIGH RELIEF DOUBLE EAGLES**

**1907 Wire Rim High Relief Twenty  
Entry-Level Coin**

- 4009 1907 High Relief, Wire Rim Genuine PCGS.** The PCGS number ending in .98 suggests Damage as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. In our opinion, this coin has the details of a AU50 specimen that has been damaged and cleaned. Only slight friction is seen over the high points of the design. The surfaces are bright from cleaning. The damage mentioned in the PCGS code is seen on the reverse: A scratch begins at the top of UNITED and continues through STATES, and a short cut, resembling a test cut is located at 9 o'clock on that same side. Numerous small contact marks are scattered over both sides from apparent use for a short time in the channels of commerce. Still visually impressive, as are all High Reliefs, and sure to be a welcome entry-level addition. PCGS# 9135, NGC ID# 26F2, CoinPlex ID# SGM1907HRWIRE

**1907 Saint-Gaudens Twenty, Unc Details  
High Relief, Wire Rim**

- 4010 1907 High Relief, Wire Rim — Improperly Cleaned — NGC Details. Unc.** The 1907 Saint-Gaudens High Relief double eagle is always in demand because of its limited mintage and the acknowledged beauty of its design. This coin shows the Wire Rim feature often seen on the coins from early deliveries, caused by metal being extruded between the collar and the die when the coins were struck. The central design elements display sharp three dimensional detail, as always, and the yellow and rose-gold surfaces are lightly marked. NGC ID# 26F2, PCGS# 9135, CoinPlex ID# SGM1907HRWIRE

---

**Flat Rim 1907 High Relief Twenty, MS66**  
**One of the Few Known With a Completely Flat Rim**

**4011 1907 High Relief, Flat Rim MS66 NGC.** The striding figure of Liberty used by Augustus Saint-Gaudens is inextricably linked to the figure of Liberty that leads General Sherman in the Sherman Monument at the entrance to New York's Central Park. Both are essentially the same figure. In *The Greater Journey*, David McCullough gives the background for the model Saint-Gaudens used for the Sherman Monument and by extension for the figure of Liberty on the 1907 twenty dollar gold piece:

"Several busts and studies of Victory had also been done in New York prior to Saint-Gaudens's departure for Paris. The young woman who posed for him was a twenty-four year old model named Hettie Anderson from South Carolina, whom he described as 'the handsomest model I have ever seen ...' Few were to know that she was an African-American, but for Saint-Gaudens and the others who did, it must have seemed especially fitting that she be the one to lead the triumphant Union commander on his way."

Just as few were to know the identity of the sculptor's model for the Sherman Monument, likewise few numismatists know who served as the model for Saint-Gaudens' double eagle. And just as fitting as it is for an African-American to lead the way for General Sherman in his march through the South, it seems just as appropriate for Liberty, as depicted by Hettie Anderson, to lead the way forward into the new American century on the 1907 twenty dollar gold pieces. The realism practiced by Augustus Saint-Gaudens and seen throughout all his sculptural works was groundbreaking for the sculptors that followed him. The veristic creations of Adolph Weinman and Hermon MacNeil were made possible by the naturalism seen on the ten and twenty dollar gold pieces designed by Saint-Gaudens.

This is an impressive example of this significantly scarcer High Relief variant, seen here with a flat rim. This is one of the very few pieces we have ever seen with a completely flat rim around each side. The surfaces display light, even reddish patina and thick, satiny mint luster. The only pedigree identifiers we see are a light smudge of reddish patina near the obverse rim at 9 o'clock and a couple of marks across the rays below the eagle on the reverse. PCGS# 9136, CoinPlex ID# SGM1907HRFLAT

## PROOF HIGH RELIEF DOUBLE EAGLE

1907 PR64 Wire Rim High Relief Twenty  
Complete Wire Rim Around the Obverse

- 4012 1907 High Relief PR64 NGC.** An unknown number of proof High Reliefs were struck in 1907. In Robert Loewinger's reference on proof gold, he differentiates between the proofs struck from Collar I (Flat Rim coins) and Collar II (Wire Rim coins). Collar II pieces show the bases of the M in UNUM slanting. That feature is viewable on this particular coin because it is housed in a newer four-prong encasement that allows viewing of most of the edge. The wire rim is complete around the obverse and nearly so around the reverse. The surfaces otherwise are bright and satiny with only the slightest contact marks. As always on proof High Reliefs, the fields show strong evidence of swirling die polish marks. A complete list of attributes for proofs can be found on pages 76-77 of Loewinger's *Proof Gold Coinage of the United States*. PCGS# 9132, CoinPlex ID# SGP1907XHRINV

## SAINT-GAUDENS DOUBLE EAGLES

1907 Arabic Numerals Twenty, MS66+  
Variegated Toning and Bold Strike

- 4013 1907 Arabic Numerals MS66+ PCGS. CAC.** Gold, orange, and lilac tinges alternate in prevalence and intensity throughout the surfaces of this splendid Premium Gem, but the radiant mint luster is consistent throughout, as is the bold strike and absence of notable marks. The first wide-distribution issues of the Saint-Gaudens series, the Charles Barber low-relief reinterpretation. Population: 13 in 66+, 15 finer (1/13). PCGS# 9141, NGC ID# 26F5, CoinPlex ID# SGM1907

1908 Saint-Gaudens Double Eagle, MS67  
Short-Lived No Motto Design

- 4014 1908 No Motto, Wells Fargo Nevada MS67 NGC.** This remarkable Superb Gem was included in the Wells Fargo Hoard, a gathering known for its high quality and eye appeal. The design elements are well detailed and the light yellow and rose-gold surfaces display vibrant mint luster, with only a few minor signs of contact. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

1908 No Motto Double Eagle  
Flawless Superb Gem, Ex: Wells Fargo

- 4015 1908 No Motto, Wells Fargo Nevada MS67 NGC. CAC.** Short Rays obverse. A lustrous peach-gold double eagle that boasts strong mint luster and exquisitely preserved fields and devices. Only the eagle's leg and Liberty's nose show incompleteness of strike. An outstanding representative from the remarkable Wells Fargo holding. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS

---

**1911-D/D Twenty Dollar, MS66  
Popular Widely Repunched Mintmark**

- 4016 1911-D/D MS66 PCGS. FS-501.** The mintmark is indeed repunched, due east. The 1911-D is plentiful in most grades but becomes very scarce at the MS66 level. This is a lovely Premium Gem whose pumpkin-gold surfaces are highly lustrous and sharply struck. The fields are immaculate, and the eagle has only faint, minor contact. PCGS# 145010

---

**Near-Gem 1914 Saint-Gaudens Twenty  
Low-Mintage Philadelphia Issue**

- 4017 1914 MS64 PCGS.** The 1914 Saint-Gaudens double eagle boasts a low mintage of 95,250 pieces and the date is somewhat scarce at the Choice level. High-grade coins are rare, as PCGS has certified only 39 coins in grades above MS64 (1/13). The present coin is a well-struck Choice specimen, with pleasing orange-gold surfaces and frosty mint luster. PCGS# 9164, NGC ID# 26FS, CoinPlex ID# SGM1914

---

**Superb Gem 1924 Double Eagle  
Extraordinary Mark-Free Fields**

- 4018 1924 MS67 NGC.** A spectacular Superb Gem example of this popular type coin, with razor-sharp definition on all design elements and vibrant mint luster on both sides. The light yellow-gold surfaces show a few highlights of green and rose, with no mentionable distractions. NGC has graded only two coins in higher numeric grades (1/13). NGC ID# 26G7, PCGS# 9177, CoinPlex ID# SGM1924

---

**Select 1924-D Saint-Gaudens Twenty  
Lustrous and Appealing**

- 4019 1924-D MS63 PCGS.** A well-detailed Select example of the 1924-D Saint-Gaudens double eagle, which is usually seen with a weak strike, showing just a touch of softness on the Capitol building. The lustrous yellow and rose-gold surfaces show only minor signs of contact, with strong eye appeal for the grade. PCGS# 9178, NGC ID# 26G8, CoinPlex ID# SGM1924D

---

**Choice AU 1926-D Twenty Dollar  
Rarely Encountered in Circulated Grades**

- 4020 1926-D AU55 NGC.** Despite a mintage of 481,000 pieces, only a few dozen 1926-D twenties are known today in circulated grades. Most of this low-mintage issue was apparently stored in Treasury vaults and later melted in the mid-1930s. The 1926-D was considered a great rarity in the 1940s, but enough examples surfaced in European holdings in the 1950s to change the rarity ranking of this issue to merely very scarce. This bright yellow-gold example shows just a trace of rub over the high points. No notable or even mentionable abrasions appear on either side. A rare opportunity to acquire this rarity in lightly circulated condition. NGC ID# 26GE, PCGS# 9184, CoinPlex ID# SGM1926D

## COMMEMORATIVE SILVER

### Patinated Gem 1900 Lafayette Dollar

- 4021 1900 Lafayette Dollar MS65 PCGS. DuVall 2-C.** A repunched second S in STATES identifies the interesting die marriage. The legends for the Lafayette dollar were entered by hand on working dies, a most unusual departure from the then-practice of hubbing the entire design. This lustrous Gem has a precise strike and rich dove-gray, forest-green, and autumn-gold toning. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE

### 1922 Grant With Star Half, MS66 First Variety Struck

- 4022 1922 Grant With Star MS66 NGC.** The original request from the Ulysses S. Grant Centenary Memorial Association was for 200,000 commemorative gold dollars. Half dollars were not suggested, but the legislation was changed to authorize just 10,000 gold dollars along with 250,000 half dollars. Profits from the various Grant commemorative issues were earmarked to provide suitable memorial buildings in southern Ohio to celebrate the birth centennial of the Civil War general and 18th president. Collectors might assume that the rare With Star variety, with just 4,256 pieces struck, was an addition to the original half dollar design. In reality, the more common No Star variety came after production of the With Star pieces. This wonderfully preserved example boasts uncommon sharpness and vibrancy for the issue, lightly toned at the borders in speckled violet and blue-green shades. Census: 43 in 66, 7 finer (1/13).  
*Ex: FUN Signature (Heritage, 1/2007), lot 1155, which brought \$12,650. NGC ID# 28KC, PCGS# 9307, CoinPlex ID# COM1922GRANTSTAR*

### Premium Gem 1928 Hawaiian Half Dollar Seldom Seen Finer

- 4023 1928 Hawaiian MS66 PCGS.** This Premium Gem 1928 Hawaiian is about as good as it gets at PCGS, as that service has seen 61 submissions in this grade, but only six are finer: four in 66+ and two in 67 (1/13). This piece is largely silver-gray with scattered amber-gold accents more prevalent at the rims. Generous luster on each side complements few marks and excellent eye appeal. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

### 1928 Hawaiian Half Dollar, MS66 Silver Commemorative Key

- 4024 1928 Hawaiian MS66 NGC.** The 1928 Hawaiian half dollar is a key to the silver commemorative series, with a distribution of 9,958 pieces. This remarkable Premium Gem is sharply detailed and brightly lustrous, with attractive shades of golden-brown and ice-blue toning. Census: 68 in 66 (2 in 66+), 3 finer (1/13). NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

### Superb Gem 1927 Vermont Half Dollar No Numerically Finer Coins at PCGS

- 4025 1927 Vermont MS67 PCGS.** The 1927 Vermont commemorative half dollar claims a distribution total of 28,142 pieces, and few survivors can match the quality and appeal of the present coin. This sharply detailed Superb Gem exhibits vibrant mint luster and a few hints of champagne-gold toning on both sides. Population: 23 in 67 (1 in 67+), 0 finer (1/13). PCGS# 9401, NGC ID# 28M6, CoinPlex ID# COM1927VERMONT

**1950-D Booker T. Washington Half Dollar  
Sharply Detailed Superb Gem**

- 4026 1950-D Booker T. Washington MS67 PCGS. CAC.** A series of silver commemorative half dollars honoring the life and accomplishments of Booker T. Washington was authorized by Congress in 1946, and large numbers of the coins were produced at all three mints through 1950. Although many examples were sold through various distributors over the years, numismatic demand failed to meet the optimistic production totals. In 1950 the Denver Mint produced more than 12,000 specimens, but only half that number were actually distributed. The coins were poorly produced, and high-quality coins with well-struck details are quite elusive today.

The present coin is a spectacular Superb Gem showing sharply detailed design elements throughout. The pristine surfaces display hints of attractive golden-tan toning amid vibrant mint luster on both sides. Eye appeal is extraordinary. Population: 6 in 67, 0 finer (12/12). PCGS# 9421, NGC ID# 28ML, CoinPlex ID# COM1950DBTW

**COMMEMORATIVE GOLD**

**1904 Lewis and Clark Gold Dollar  
Uncommonly Lustrous Premium Gem**

- 4027 1904 Lewis and Clark MS66 PCGS.** An uncommonly bright representative from the first of two years for this “double-headed” design. The luster is pale yellow with a significant cartwheel effect and the devices had sharp detail. An all-around remarkable coin that many commemorative enthusiasts would be proud to own. PCGS has graded just 17 pieces as MS67 or finer (1/13). PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

**1915-S Panama-Pacific Quarter Eagle  
MS66, Elusive Any Finer**

- 4028 1915-S Panama-Pacific Quarter Eagle MS66 PCGS. CAC.** Rich orange-gold luster enhances each side of this Panama-Pacific quarter eagle Premium Gem. Though the striking softness on Columbia's head and the eagle's figure is typical, the overall level of preservation is anything but. Finer examples are conditionally scarce, and PCGS has graded just 24 pieces as MS67 or better (1/13). PCGS# 7450, NGC ID# 26HK, CoinPlex ID# CGM1915SPANPAC

**Superb Gem 1915-S Pan-Pac Two and a Half  
Tied for Finest Graded**

**4029 1915-S Panama-Pacific Quarter Eagle MS67 PCGS. CAC.** The 1915-S Panama-Pacific quarter eagle, featuring an obverse design by Mint Chief Engraver Charles Barber, is a fairly modernistic design for Barber, who would pass away two years later at age 77. The figure of Columbia riding a hippocampus, a mythological sea monster with the foreparts of a horse and the hindquarters of a fish, plays nicely into the nautical theme of the Panama-Pacific International Exposition. The reverse design is more pedestrian, a recycled eagle by George T. Morgan first used on 1877 pattern half dollars.

The present Superb Gem Pan-Pac quarter eagle is one of only 24 submissions in this grade at PCGS, and there are none finer (1/13). Softly glowing, thorough luster radiates throughout each side, complementing light orange-gold gold color and a virtual absence of contact. A prize example of this popular commemorative design. PCGS# 7450, NGC ID# 26HK, CoinPlex ID# CGM1915SPANPAC

San Francisco History Center, San Francisco Public Library

---

1915-S Panama-Pacific Fifty Dollar Round  
Attractive MS65 Example

**4030 1915-S Panama-Pacific 50 Dollar Round MS65 NGC.** The PCGS Collectors Forum is abuzz with news of possible legislation that would authorize the Mint to produce 2015-dated (or MMXV-dated?) “replicas” of the Panama-Pacific commemorative coins. Many collectors expressed enthusiasm for the idea, including one who mentioned his longtime preference for the “octagonal quintuple eagle.”

“Quintuple eagle” is a term that was first applied to the 1851-52 fifty dollar octagonal issues of Augustus Humbert and the U.S. Assay Office; smaller-denomination gold coinage was either prohibited or bureaucratically blocked during the early years of the California Gold Rush. The “eagle” was a ten dollar gold piece, of course, and the Humbert-U.S. Assay Office quintuple eagles were also called “quints,” “ingots,” “adobes,” and “slugs.”

Both the term “quintuple eagle” and the octagonal fifty dollar gold pieces, in particular, recall the heady days of the California Gold Rush as exemplified by the “Forty-Niners,” men who beginning in 1849 abandoned land and family in a pell-mell rush to California in order to yank fame and fortune from the fields of gold.

The authorizing legislation for the 1915-S Panama-Pacific coins included five coins from silver half dollar to gold dollar and quarter eagle and the two fifty dollar pieces, in the round and octagonal variants. Not knowing how many of each of the large gold pieces would sell, the Mint struck extras of each kind, about 1,500 of each plus a handful of assay coins. The octagonal pieces proved a bit more popular and thus fewer were melted. The octagonals ended up with a net distribution of 645 pieces, versus 483 for the round versions.

The net gold content of each version is the same, but the octagonal coins feature frolicking dolphins in the eight corners, and the inner perimeters and design elements are all slightly reduced to accommodate the extra design touch. Grade-for-grade the round version sells for only slightly more than the octagonal pieces, but both versions are revered as the most pursued collectibles in the entire U.S. commemorative series.

This is a remarkably attractive coin example. Thick mint luster is seen over the orange-gold surfaces. Close examination reveals a few tiny marks on the face of Minerva, but none that are singularly distracting.

*From The Fenn Family Collection. NGC ID# 26HM, PCGS# 7451, CoinPlex ID# CGM1915SPANPACROUND*

---

1915-S Panama-Pacific Round Fifty, MS66  
Only 483 Distributed

---

**4031 1915-S Panama-Pacific 50 Dollar Round MS66 NGC.** Farran Zerbe had high hopes for the Panama-Pacific International Exposition and used his influence in Congress to have legislation approved for an ambitious commemorative coinage issue, including 3,000 gold coins of the fifty dollar denomination. Half of those coins were stipulated to be octagonal, resembling the 1851 octagonal gold pieces of the California Gold Rush. The other half, like this piece, were round. Apparently Zerbe felt that the two shapes meant collectors would need to buy two fifty dollar gold pieces instead of one. There were also smaller-denomination pieces issued, including half dollars, gold dollars, and quarter eagles. The set of five coins had a face value of \$104 and an issue price of \$200. Purchasers of either fifty dollar gold piece for \$100 received the three smaller-denomination coins at no additional cost.

Although the entire authorization of 3,000 pieces was minted, with an additional 19 coins reserved for the Assay Commission, few were actually sold. Zerbe's plan was largely unsuccessful. Just 645 octagonal pieces and 483 round examples were actually sold, and the rest were melted. Had all 1,500 pieces of each shape been sold, the issue would be a rarity today, but the extremely low distribution means that the Panama-Pacific fifty dollar gold coins are now major rarities.

The designs that New York artist Robert Aitken created are essentially the same on the round and octagonal pieces. The obverse features the goddess Minerva, who was the goddess of wisdom, and the reverse features her sacred owl, the accepted symbol of wisdom. The octagonal pieces have the addition of dolphins in the eight angles outside the legends. The design was intended to follow the exposition theme of wisdom and industry. Aitken certainly had his critics and some suggested that the addition of dolphins on the octagonal coins implied that the Panama Canal was constructed for the benefit of those mammals. Treasury secretary William McAdoo was counted among the critics of Aitken's design.

Zerbe and others had contemplated striking these coins on the Panama-Pacific International Exposition grounds, but that never happened. A special ceremony was held at the San Francisco Mint for the first strikes on June 15, 1915. These large gold coins were minted on a special medal press that was shipped from Philadelphia, specifically for the one coinage issue. At the first strike ceremony, guests and officials minted the first 29 pieces, while mint employees produced the next 71 pieces that same day. The other 2,900 large gold coins were struck during the following few weeks.

Although some pieces show signs of wear or rub, most surviving Panama-Pacific fifty dollar gold coins grade MS63 or MS64. Higher-grade pieces like this Premium Gem are rarely encountered. This piece has frosty luster with brilliant lemon-yellow surfaces and strong details. Scattered surface marks are minimal, and unlike most, there is no sign of rub on the high points of Minerva or the owl. NGC has certified 19 examples of the round variant in MS66, with four in MS67 (1/13). NGC ID# 26HM, PCGS# 7451, CoinPlex ID# CGM1915SPANPACROUND

---

## 1915-S Panama-Pacific Fifty Dollar Octagonal, MS63 Among the Most Enduring Legacies of the Exposition

### 4032 1915-S Panama-Pacific 50 Dollar Octagonal MS63 PCGS.

Driving west on San Francisco's Marina Boulevard or El Camino Real/Richardson Street towards the Golden Gate Bridge, before crossing the bridge into Sausalito, one passes the Palace of Fine Arts, the only building still standing from the massive Panama-Pacific International Exposition of 1915. The finely styled Palace of Fine Arts, at 3301 Lyon St., has a distinctive octagonal shape to its Greco-Romanesque rotunda, dual columns descending from each of the eight apices, and the entire rotunda fronts a lovely little lagoon reminiscent similar settings in Europe.

The architect of the Palace of Fine Arts, Bernard R. Maybeck, chose a design intended to reflect a Roman ruin, symbolizing the "mortality of grandeur and the vanity of human wishes." The Palace of Fine Arts, like all the other buildings at the massive Panama-Pacific International Expo, was made for short-term use, built as a wood-framed structure covered with a burlap-fiber mixture known as "staff." Only the original crescent-shaped concrete walls of the museum itself, to protect the valuable artwork displayed, imparted a greater measure of permanence.

Nonetheless, the Palace of Fine Arts did not wear well, and in 1964 the structures were demolished and reconstructed, duplicating the original Maybeck plans. It is ironic that the most "permanent" symbols to arise from the 1915 exposition are the various gold and silver coinage issues that were minted as part of the gigantic exposition, while no original building remains — the "mortality of grandeur" indeed.

And we cannot but appreciate the further irony of the Palace of Fine Arts rotunda reflecting the design of the 1915 fifty dollar octagonal pieces. The octagonal pieces are prized for their unusual design, and the round pieces have the lowest net distribution of any U.S. commemorative coin.

President Roosevelt visited the Panama Canal only once, in its early stages in 1906, when the project was still in crisis mode, rallying the workers and becoming the first American president to venture overseas while in office. He never revisited the completed Panama Canal, although he is recorded to have attended the Panama-Pacific International Exposition in 1915. There is no record of his reaction to the Pan-Pac fifty dollar coins, but we can guess what his reaction might have been: "Bully!"

The present MS63 fifty dollar octagonal coin is housed in a first-generation holder. Bright orange-gold color complements the excellent luster, although a shallow scuff on the cheek of Minerva and another of the right (facing) wing of the owl account for the grade. PCGS# 7452, NGC ID# 26HN, CoinPlex ID# CGM1915SPANPACOLT

---

Near-Gem 1915-S Octagonal Pan-Pac Fifty Dollar  
Delicately Toned Surfaces

**4033 1915-S Panama-Pacific 50 Dollar Octagonal MS64 NGC.** The 1915-S Panama-Pacific fifty dollar gold coins, struck in round and octagonal versions, were a dual commemoration. They fêted the 1914 completion of the colossal Panama Canal and the importance of the Pacific Ocean to American and world commerce, but they also served as a quadrennial observance of the epic crossing of the Isthmus of Panama to the Pacific Ocean in 1513 by the Spanish explorer Vasco Núñez de Balboa, becoming the first European to discover that mighty body of water.

For many collectors' tastes, the 1915-S fifty dollar gold coins are every bit as appealing and enticing as the MCMVII High Relief pieces — and more so for some. While the High Reliefs perhaps win the prize for aesthetics, the Pan-Pacs win the prize for the simple novelty of the Robert I. Aitken design (in the good sense of classic numismatic art) as well as their sheer massivity, weighing 2.5 times that of a High Relief. They depict Minerva (Athena) on their obverse rather than Liberty (with optional swimming dolphins in the corners of the octagonal), and the reverse design featuring an owl and California pine cones — the weaving spider and its web were removed at the draft stage — is a welcome departure from “yet another eagle,” no matter how beautifully rendered.

Many collectors express particular enthusiasm for the unusual octagonal gold coins, although the round 1915-S fifties have the lowest net distribution of any classic commemorative coin. Both types are classic American collectibles, among the most popular in the entire U.S. series. This is a particularly nice example. The surfaces display delicate shadings of lilac and golden-orange. There are a few light, grade-limiting scuffs in the center of each side, but this coin certainly presents well.

*From The Fenn Family Collection.* NGC ID# 26HN, PCGS# 7452, CoinPlex ID# CGM1915SPANPACOCOT

## TERRITORIAL GOLD

Plain Edge 27G., 21C., K-24  
MS62 A. Bechtler Gold Dollar

- 4034 (1842-52) A. Bechtler Dollar, 27G. 21C. Plain Edge MS62 NGC. K-24, R.3. This August Bechtler gold dollar variety is the most available from that maker but is typically encountered in cleaned or damaged circulated grades. The present example has original caramel-gold toning and an absence of abrasions. The strike is even throughout. From rusted dies, as made, and the minor bend at the center occurred as the coin was removed from the dies. Listed on page 374 of the 2013 *Guide Book*. Census: 35 in 62, 27 finer (1/13). PCGS# 10040

1852 Humbert Octagonal Fifty  
VF30, K-11, 887 Thous.

- 4035 1852 Humbert Fifty Dollar, 887 Thous. VF30 PCGS. K-11, R.5. The Kagin-11 "slug" was struck shortly before founder John Little Moffat left Moffat & Co., which operated the U.S. Assay Office of San Francisco. Moffat's exit caused a company reorganization into the United States Assay Office of Gold with principals Joseph R. Curtis, Philo P. Perry, and Samuel H. Ward. Augustus Humbert stayed on as assayer but his name no longer appeared on issues of the new company. The present butter-gold example has clear legends and substantial plumage detail. The glossy surfaces exhibit distributed small marks. We note moderate obverse edge knocks at 6:30 and 5:30. Listed on page 377 of the 2013 *Guide Book*. PCGS# 10217

Choice AU 1853 Assay Office Twenty  
K-18, 900 Thous. Fine

- 4036 1853 Assay Office Twenty Dollar, 900 Thous. AU55 PCGS. K-18, R.2. The K-18 variety of U.S. Assay Office twenty dollar pieces were struck in the same fineness and in the same city as the 1854-S double eagles, only a year earlier under different auspices. This lightly worn example of the last Assay Office "double eagle" has a light orange tint to modestly abraded but still-lustrous surfaces. Listed on page 380 of the 2013 *Guide Book*. PCGS# 10013

1852 Wass Molitor Ten Dollar, AU50  
Large Head, Wide Date, K-4

- 4037 1852 Wass Molitor Ten Dollar, Large Head, Wide Date AU50 NGC. K-4, R.5. The most commonly seen die state for the Wide Date variety, heavily cracked around the obverse margins but without the bisecting break on that side. Of course, "commonly" is relative for a die pair that is rare regardless of condition. As always for the Wass Molitor tens, the interior detail is weak, but the generous luster remaining on the orange-gold surfaces highlights the coin's general lack of wear. Abrasions on and near the central devices and a few rim nicks confirm the AU50 designation from NGC. Listed on page 385 of the 2013 *Guide Book*. PCGS# 10348

## COINS OF HAWAII

### 1883 Hawaii Half Dollar, MS65 Rarely Seen in High Grades

- 4038 1883 Hawaii Half Dollar MS65 PCGS.** The 1883 Hawaii half dollar claims a mintage of 700,000 pieces and examples in Gem condition are quite rare. This attractive Gem is sharply detailed throughout, with lustrous surfaces that show few signs of contact. Accents of gray and lavender patina visit the surfaces of both sides. Population: 14 in 65 (1 in 65+), 1 finer (1/13). PCGS# 10991

### 1883 Akahi Dala, MS63 Hawaiian Silver Dollar Minted in San Francisco

- 4039 1883 Hawaii Dollar MS63 NGC.** The Hawaiian dollar is also known as the "Akahi Dala" per the inscription on the reverse of this San Francisco Mint product. All of the 1883 Hawaiian silver coins were minted in California. This Select Mint State specimen has full brilliance and luster with gentle gold toning on each side. Census: 13 in 63, 32 finer (1/13). PCGS# 10995

## PATTERNS

### Gem Proof Shield Reverse Judd-193 1858 Flying Eagle Cent

- 4040 1858 Flying Eagle Cent, Judd-193, Pollock-236, Snow-PT11a, R.5, PR65 PCGS.** The obverse is struck from the Small Letters 1858 Indian cent die, while the pattern reverse shows an oak wreath with a broad ornamental shield at top. Struck in copper-nickel with a plain edge. This is a needle-sharp wheat-gold Gem with nicely mirrored fields. Only trivial pinpoint carbon limits the grade. Population: 10 in 65, 0 finer (1/13). PCGS# 11844, CoinPlex ID# PAT1858J193

### 1863 Three Cent Design in Aluminum Judd-322, PR64

- 4041 1863 Three Cent Silver, Judd-322, Pollock-387, High R.7, PR64 PCGS. CAC.** Although described in the literature as "regular dies trial pieces," these are actually restrikes made in the early 1870s and sold as part of complete off-metal sets with the silver coinage of this year containing quarter, half dollar, and dollar which had the reverses of 1866 with the motto IN GOD WE TRUST above the eagle. These three cent dies were made from a hub which had the D in UNITED broken and may be a backdated novodel. Struck in aluminum with a plain edge. The fields are deeply mirrored on each side and there is slight but noticeable contrast against the frosted devices. Slight haziness is seen over both obverse and reverse. Slightly marked with some planchet irregularities. PCGS# 60479, CoinPlex ID# PAT1863J322

PR66 Red Cameo Judd-336 Pattern  
1863 Quarter in Copper, Motto Reverse

- 4042 1863 Quarter Dollar, Judd-336, Pollock-408, R.7, PR66 Red Cameo NGC. The obverse features the regular Seated Liberty obverse, but the reverse shows the motto IN GOD WE TRUST added to a scroll above the eagle, of the type adopted in 1866. Struck in copper with a reeded edge. Judd theorizes a later striking date for the issue, 1865 or thereabouts. This remarkable example retains its copper-apricot color from 150 years ago with only slight variations into peach and blue, always light and never in any of the "Brown" shades. With its excellent strike and contrast, this easily is among the best survivors of its extremely rare issue. PCGS# 80498, CoinPlex ID# PAT1863J336RD

1865 With Motto Five Dollar in Copper  
Judd-446, PR66 Brown

- 4043 1865 Five Dollar, Judd-446, Pollock-518, High R.6, PR66 Brown PCGS. The obverse die is the regular design for the year. The reverse is the design adopted in 1866, with the scroll over the eagle's head and the motto IN GOD WE TRUST added. Struck in copper with a reeded edge. This transitional dies trial may have been struck in 1865, but it also may have been struck later with other With Motto restrikes. As pointed out on the USPatterns.com website, "The first definite appearance of this design was in the April 1870 auction by John Haseltine of coins from the Idler collection." The Brown designation belies the actual appearance of this piece which is a deep blue. Small remnants of red still remain, most notably on the portrait of Liberty. The mirrored fields are deeply reflective and the surfaces minimally marked, as expected. The centers are a bit softly defined. PCGS# 60633, CoinPlex ID# PAT1865J446BN

1870 Aluminum Ten Dollar  
Judd-1036, Rarity-8, PR65 Cameo

- 4044** 1870 Ten Dollar, Judd-1036, Pollock-1171, R.8, PR65 Cameo PCGS. While long regarded as regular dies trial pieces, these were more likely struck for sale to collectors as part of complete off-metal sets. Struck in aluminum with a reeded edge. This is a terrifically rare aluminum pattern. Only two or three pieces are believed to exist, and this appears to be the first time we have handled one. As with most aluminum patterns, the fields are deeply mirrored and set up a dark background for the heavily frosted devices. Slight planchet irregularities through TAT in STATES and above the M in AMERICA serve to identify this particular piece. PCGS# 61285, CoinPlex ID# PAT1870J1036

1871 Ten Dollar Dies Trial in Copper  
Judd-1173, PR67 Brown

- 4045** 1871 Ten Dollar, Judd-1173, Pollock-1315, High R.7, PR67 Brown NGC. Struck from the regular dies for the 1871 Liberty Head eagle. Struck in copper with a reeded edge. Only five or six of these pieces exist today, an even smaller number than the actual gold proof eagles of the year. All six gold denominations were also struck in copper, aluminum, and nickel. It is believed that just one of each survive in nickel, two or three each in aluminum, and four to six each in copper. This is a stunning Superb Gem proof that exhibits beautiful medium blue and violet toning around faded red mint color at the centers. The devices are boldly defined with satiny luster and the flawless fields are fully reflective.  
*Ex: Stack's (2/1977), lot 1144; Lemus/Queller Collection (Heritage, 1/2009), lot 1822, where it realized \$20,700.*  
*From The Fenn Family Collection.* PCGS# 61436, CoinPlex ID# PAT1871J1173BN

**1875 'Sailor Head' Twenty Cent Pattern in Copper  
Judd-1393, PR65 Red and Brown**

- 4046** 1875 Sailor Head Twenty Cents, Judd-1393, Pollock-1536, R.7, PR65 Red and Brown PCGS. William Barber's "Sailor Head" obverse with three-pointed shield reverse. Struck in copper with a plain edge. This is among the most attractive of about a dozen survivors in copper. Rather than showing patches of red here and brown there, this piece is evenly (and slightly) mellowed from full Red over each side. A problem-free example and well worth serious consideration. PCGS# 71700, CoinPlex ID# PAT1875J1393RB

**Copper 1880 Metric Dollar  
Judd-1649, PR66 Red and Brown**

- 4047** 1880 Metric Dollar, Judd-1649, Pollock-1849, R.7, PR66 Red and Brown PCGS. CAC. George T. Morgan's Liberty Head design as on Judd-1622. Liberty's hair is in a bun with a ribbon inscribed LIBERTY in incuse letters. Reverse with a wreath of cotton and wheat, inner circle of dots enclosing 895.8 S. / 4.2—G. / 100—C. / 25 GRAMS. DEO EST GLORIA ("God is glory/To God be the glory") appears in a cartouche, with UNITED STATES OF AMERICA and ONE DOLLAR at the rim. Struck in copper with a reeded edge. Only a dozen or so pieces are believed known in copper. Significant original red is interspersed over each side with lilac-brown. Essentially contact-free with little evidence of carbon. A couple of flecks can be found in the right obverse field. PCGS# 72034, CoinPlex ID# PAT1880J1649RB

**MS66 1999-P Anthony Dollar on an  
Experimental Planchet**

- 4048** 1999-P Anthony Dollar — Struck on an Experimental Planchet — MS66 PCGS. Alloy listed as 73% copper, 25% zinc, and 2% nickel, a never-adopted combination. Issued Anthony dollars are copper-nickel. In 1999, the Mint was testing alloys for a new dollar coin that would have a gold appearance yet possess the same electromagnetic signature as the then-current Anthony dollar. Several 1999- and 2000-dated Statehood quarters and Anthony dollars were struck in various experimental alloys. Presumably, those pieces should have been destroyed, but not all were. This example is primarily sea-green, but has dashes of rose and gold toning. Well-preserved but softly struck on the olive branch, LIBERTY, and the top of the hair. The rims retain the rough texture of the planchet prior to the strike. PCGS# 89581

### SHIELD NICKELS

**4049 1868 MS66+ NGC.** This high-end Premium Gem features well-detailed design elements, with just a touch of softness on the reverse stars. The well-preserved surfaces display vibrant mint luster, with just a trace of pale gold toning. Census: 33 in 66 (2 in 66+), 1 finer (1/13). NGC ID# 22P2, PCGS# 3795, CoinPlex ID# SNM1868

**4050 1870 MS65 PCGS. CAC.** Attractive powder-blue and caramel-gold shades endow satiny, smooth surfaces. Despite a mintage of more than 4.8 million pieces, there was little collector interest at the time of issue, and Gems are rare today. Population: 29 in 65, 10 finer (1/13). PCGS# 3797, NGC ID# 22P4, CoinPlex ID# SNM1870

#### 1871 Nickel, MS66 Tied for Finest Certified

**4051 1871 MS66 PCGS. CAC.** A few thin die cracks appear at the lower obverse of this Premium Gem. Minor machine doubling is evident at the date and motto, while the strike is deficient only among the leaves. Both sides have satiny light gray luster with delicate champagne overtones. Population: 10 in 66, 0 finer (1/13). PCGS# 3798, NGC ID# 22P5, CoinPlex ID# SNM1871

**4052 1876 Tripled Die Obverse MS65 ANACS. FS-101.** Ex: Sunnywood / Bowers. The pickup point is the annulet, which has secondary impressions to the northwest and southeast. Splashes of peach-gold and cherry-red toning grace this lustrous, fully struck, and smooth Gem. NGC ID# 22PB, PCGS# 3805, CoinPlex ID# SNM1876

#### 1879 Shield Nickel, MS64 Low Business-Strike Mintage

**4053 1879 MS64 PCGS.** Few high-grade examples from this issue were saved by contemporary collectors, therefore there are not enough surviving examples to satisfy the demand. This near-Gem exhibits areas of golden toning along with a few small spots of darker color. The design elements display attractive definition. Population: 25 in 64, 53 finer (1/13). PCGS# 3808, NGC ID# 276D, CoinPlex ID# SNM1879

#### Gem 1879 Shield Nickel Few Business Strikes Made

**4054 1879 MS65 PCGS.** Only 25,900 business-strike Shield nickels were coined in 1879, as the Philadelphia Mint allocated its resources to produce nearly 15 million Morgan dollars that year. The low mintage makes the 1879 Shield nickel a scarce date in all grades, and examples in Gem condition are quite rare. The present coin is a sharply struck Gem, patinated in shades of rose on the obverse and light green on the reverse, with strong mint luster under the toning. Population: 31 in 65 (1 in 65+), 22 finer (1/13). PCGS# 3808, NGC ID# 276D, CoinPlex ID# SNM1879

#### 1881 Shield Nickel, MS65 Elusive Circulation Strike

**4055 1881 MS65 PCGS. CAC.** Housed in a first-generation PCGS holder, this Gem Mint State 1881 Shield nickel has delicate gold toning over satiny nickel-gray surfaces with bold design motifs. It is an attractive example of an issue that is usually only seen in proof format. Only 68,800 pieces were struck for circulation. Population: 36 in 65, 18 finer (1/13). PCGS# 3811, NGC ID# 276F, CoinPlex ID# SNM1881

**4056 1883/2 AU55 PCGS. CAC. FS-302.** Five obverse varieties are known for this scarce overdate, but FS-302 is better than all but FS-301. About two-thirds of the outline of the underdigit 2 is evident. This smooth cream-gray example has more extensive luster than expected for the grade.  
Ex: Boston ANA Signature (Heritage, 8/2010), lot 4242, which realized \$1,725. PCGS# 3814, NGC ID# 22PD, CoinPlex ID# SNM1883OVR2

## PROOF SHIELD NICKELS

- 4057 1867 No Rays PR65 Cameo PCGS.** Delicate repunching appears on the 7. More than 50 Repunched Date varieties are known for the 1867 No Rays nickels, although few are known on proofs. Attractive light champagne toning appears on each side of this nickel-gray Gem Cameo proof. Population: 36 in 65 Cameo, 7 finer (1/13). PCGS# 83821, CoinPlex ID# SNP1867NRCA
- 4058 1868 PR65 NGC. CAC.** From a limited proof mintage of just 600 pieces, this sharply detailed Gem displays deeply mirrored fields and outstanding eye appeal. Census: 63 in 65, 19 finer (1/13). NGC ID# 276J, PCGS# 3822, CoinPlex ID# SNP1868
- 4059 1869 PR65 Cameo PCGS. CAC.** This brilliant and darkly mirrored Gem has a good strike and noticeable frost on design elements. Only 600+ proofs were struck. Population: 15 in 65 Cameo, 13 finer (1/13). PCGS# 83823, CoinPlex ID# SNP1869CA
- 4060 1869 PR66 Cameo NGC.** Fully reflective fields are set against frosted devices, producing the cameo effect that is so highly valued by specialists. This lovely Premium Gem displays minimal toning and gorgeous surfaces. Census: 8 in 66 Cameo, 2 finer (1/13). PCGS# 83823, CoinPlex ID# SNP1869CA
- 4061 1870 PR66 Cameo NGC.** From an estimated mintage of 1,000 pieces, the proof 1870 Shield nickel is surprisingly hard to locate in high grade, and examples with cameo contrast are even more elusive. A high degree of reflectivity creates tremendous eye appeal for this Premium Gem example though the contrast is modest. Almost all proof 1870 Shield nickels exhibit planchet problems, with this example displaying only minor signs of such. Census: 13 in 66 Cameo, 2 finer (1/13). 66 (1 in 66+) Cameo, 0 finer (12/12). PCGS# 83824, CoinPlex ID# SNP1870CA

### 1871 Nickel, PR66+ Cameo Finest PCGS Certified

- 4062 1871 PR66+ Cameo PCGS. CAC.** The early nickel proofs were generally modest quality as the Mint was inexperienced with the metal. This impressive piece has high contrast with brilliant nickel-gray devices and deeply mirrored fields. Both sides have delicate champagne toning. Population: 13 in 66 (2 in 66+) Cameo, 0 finer (1/13). PCGS# 83825, CoinPlex ID# SNP1871CA

### 1872 Shield Nickel, Superb Gem Proof Moderately Contrasted

- 4063 1872 PR67 NGC.** Excellent strike and reflectivity. While the central devices show diminished mint frost and this Superb Gem shows minimal contrast as a result, the specimen's essential brilliance makes for winning eye appeal. This coin is tied for numerically finest certified by either NGC or PCGS (1/13). Ex: *FUN Signature* (Heritage, 1/2009), lot 643. NGC ID# 276N, PCGS# 3826, CoinPlex ID# SNP1872
- 4064 1873 Closed 3 PR66 Cameo PCGS. CAC.** Outstanding sharpness and reflectivity with minimal patina. The moderate frost over the devices leads to easily appreciable contrast. Population: 17 in 66 Cameo, 1 finer (1/13). PCGS# 83827, CoinPlex ID# SNP1873CL3CA
- 4065 1876 PR66 Cameo NGC.** The deeply reflective fields of this stunning Premium Gem contrast dramatically with the sharply detailed frosty design elements, while the well-preserved surfaces show a single splotch of grayish color at 7 o'clock on the reverse. Census: 35 in 66 (2 in 66+) Cameo, 3 finer (1/13). PCGS# 83830, CoinPlex ID# SNP1876CA
- 4066 1876 PR66 Cameo NGC.** Although this piece appears fully brilliant at first glance, examination under a light reveals charming green-gold overtones. Impressively frosted on the sharply struck central devices, this Premium Gem has lovely eye appeal. Two small strikethroughs appear near the D in UNITED. Census: 35 in 66 (2 in 66+) Cameo, 3 finer (1/13). PCGS# 83830, CoinPlex ID# SNP1876CA
- 4067 1876 PR66+ Cameo PCGS.** The frosty design elements of this sharply detailed specimen stand out in bold contrast to the well-preserved reflective fields. A few hints of light gold toning enhance the considerable appeal. Population: 22 in 66 (2 in 66+) Cameo, 5 finer (1/13). PCGS# 83830, CoinPlex ID# SNP1876CA
- 4068 1877 PR62 NGC.** Myriad dark specks accompany the dark toning on this grayish-gold proof. Both sides have mirrored fields around sharp design elements. NGC ID# 276U, PCGS# 3831, CoinPlex ID# SNP1877

### 1877 Nickel, PR65 Proof-Only Issue

- 4069 1877 PR65 NGC.** The actual mintage of proof 1877 nickels remains unknown, although historically reported as 510 pieces. The true production may have been higher, as NGC and PCGS have certified nearly twice that quantity. This brilliant Gem has lightly toned gray surfaces with deep mirrors and slight cameo contrast. There are no noticeable spots and few other blemishes. NGC ID# 276U, PCGS# 3831, CoinPlex ID# SNP1877

- 4070 1878 PR62 NGC.** This brilliant proof has satiny light gray surfaces rather than the deep mirrors of most proofs. However, both sides have bold design motifs with slight cameo contrast. NGC ID# 276V, PCGS# 3832, CoinPlex ID# SNP1878
- 4071 1878 PR67 NGC. CAC.** From a proof mintage of 2,350 pieces, this spectacular Superb Gem is one of the finest survivors. The design elements are sharply detailed throughout and the reflective surfaces show no mentionable distractions. Census: 22 in 67, 0 finer (1/13). NGC ID# 276V, PCGS# 3832, CoinPlex ID# SNP1878
- 4072 1880 PR67 Cameo NGC.** Subtle hints of gold appear on this well-struck example displaying brilliant mirrored fields and attractively frosted devices. The proof mintage for this issue consisted of only 3,955 coins. Census: 22 in 67 (1 in 67+) Cameo, 0 finer (1/13). PCGS# 83835, CoinPlex ID# SNP1880CA
- 4073 1880 PR67 Cameo PCGS. CAC.** A beautifully preserved example, this Superb Gem displays pronounced contrast on both sides. Only subtle hints of color are present. A small die crack extends from the left side of the U in TRUST to the shield. This representative is from a proof mintage of 3,955 pieces. Population: 15 in 67 Cameo, 0 finer (1/13). PCGS# 83835, CoinPlex ID# SNP1880CA
- 4074 1881 PR67 NGC.** A lovely and lightly toned Superb Gem proof, this example exhibits faint green-gold and russet colors at the rims with virtually nickel-white centers displaying mirrored surfaces. One of the berries is separated from the obverse wreath, a common side effect of this year's lapped dies. Census: 24 in 67, 1 finer (1/13). NGC ID# 276X, PCGS# 3836, CoinPlex ID# SNP1881
- 4075 1881 PR67 Cameo NGC.** The fields display considerable reflectivity, though portions show more flash than actual mirrors. This Superb Gem exhibits substantial contrast between the open spaces and the mildly frosted, sharply struck central devices. Hints of orange and russet appear on the obverse. Census: 28 in 67 Cameo, 1 finer (1/13). PCGS# 83836, CoinPlex ID# SNP1881CA
- 4076 1882 PR67 Cameo NGC.** Pleasing contrast between the field and devices adds to the eye appeal of this sharply struck Superb Gem. The obverse exhibits a few tiny spots of color. Hints of dark orange appear at the outer edges of the reverse and that side reveals a few lint marks. Census: 23 in 67 Cameo, 0 finer (1/13). PCGS# 83837, CoinPlex ID# SNP1882CA
- 4077 1883 PR67 NGC.** A generous proof mintage of 5,419 Shield nickels was struck in 1883, the last date of the design. The present coin is sharply struck, with mirrored fields that show a degree of haziness in some areas. Census: 44 in 67, 1 finer (1/13). NGC ID# 276Z, PCGS# 3838, CoinPlex ID# SNP1883

## LIBERTY NICKELS

### 1890 Nickel, MS66 Tied for Finest at PCGS

- 4078 1890 MS66 PCGS.** Above-average detail is present on peripheral details such as the obverse stars and the ears of corn. This Premium Gem is smooth with a touch of satin to the luster, largely pale nickel-gray with hints of blue at the interiors and touches of greenish-gold and crimson close to the rims. Population: 13 in 66 (2 in 66+), 0 finer (1/13). PCGS# 3851, NGC ID# 22PM, CoinPlex ID# LBN1890

- 4079 1900 MS66 NGC. CAC.** Sharply struck save for two of the obverse stars and the left ear of corn on the reverse. Pleasing satiny luster shows a trace of peripheral toning on each side. A single small abrasion is visible to the right of the large Roman numeral V. Census: 40 in 66 (2 in 66+), 5 finer (1/13). NGC ID# 22PS, PCGS# 3861, CoinPlex ID# LBN1900
- 4080 1912-S MS63 NGC.** San Francisco waited until 1912 to strike nickels, though cents were coined there beginning in 1908. The scant mintage of the 1912-S makes it a key date. The present select example displays satin luster and dusky apricot toning. NGC ID# 277R, PCGS# 3875, CoinPlex ID# LBN1912S
- 4081 1912-S MS63 PCGS.** The low-mintage 1912-S is one of only two branch mint issues in the 30-year run of the Liberty nickel. This coruscating representative is minimally abraded, with a minor retained lamination (as made) passing through star 1. PCGS# 3875, NGC ID# 277R, CoinPlex ID# LBN1912S

### Key 1912-S Liberty Nickel, MS64

- 4082 1912-S MS64 PCGS.** The key date, low-mintage 1912-S Liberty nickel is one of the most sought-after coins of the 20th century. It is challenging in all grades of Uncirculated, and always brings impressive prices when offered at public auction. This piece is typical for the issue, with soft striking details on the peripheral stars and muted, satin-like mint luster. The surfaces are originally toned in gray-olive hues with deeper golden-rose coloration around the margins. An attractive near-Gem example of this important issue. Ex: *Central States Signature* (Heritage, 5/2005), lot 5996; *Dallas Signature* (Heritage, 7/2006), lot 371. PCGS# 3875, NGC ID# 277R, CoinPlex ID# LBN1912S

### 1912-S Liberty Nickel, MS65 Toned and Satiny

- 4083 1912-S MS65 PCGS.** Attractive shades of pale gold and lavender patina blanket the surfaces of this exceptional Gem, with vibrant mint luster shining through the toning. The design elements are well-detailed, with just a touch of softness on the stars and wreath. Eye appeal is outstanding. PCGS has graded only 10 numerically finer specimens (1/13). PCGS# 3875, NGC ID# 277R, CoinPlex ID# LBN1912S

---

**Key 1912-S Nickel, Pastel-Toned MS65**

- 4084 1912-S MS65 PCGS.** This delightful Gem represents the last year of business-strike production for the Liberty Head design, and the San Francisco Mint struck only 238,000 pieces. The design elements are sharply detailed and the surfaces display vibrant mint luster, under attractive shades of champagne-gold and lavender toning. PCGS# 3875, NGC ID# 277R, CoinPlex ID# LBN1912S

---

**1912-S Nickel, MS65  
Only San Francisco Liberty Nickel**

- 4085 1912-S MS65 NGC.** The only San Francisco Mint coin of the design, this Gem is a magnificent example with delicate blue toning on its satiny gray surfaces. Both sides are nicely defined with full ears of corn in both branches of the wreath. A few minor marks are consistent with the grade. Census: 99 in 65 (1 in 65+), 5 finer (1/13). NGC ID# 277R, PCGS# 3875, CoinPlex ID# LBN1912S

---

**1912-S Nickel, MS65  
Elusive in Finer Grades**

- 4086 1912-S MS65 PCGS.** This lovely Gem displays an attractive blend of ice-blue and pale gold toning with faint iridescence. Both sides are nicely detailed with satiny gray luster. PCGS and NGC have only certified 15 finer examples (1/13), indicating the strong demand in this grade. PCGS# 3875, NGC ID# 277R, CoinPlex ID# LBN1912S

---

**1912-S Nickel, MS65  
Only Year of Branch Mint Coinage**

- 4087 1912-S MS65 NGC.** The only branch mint Liberty nickels were struck at Denver and San Francisco in 1912, and both issues are highly popular with collectors. This satiny Gem exhibits light nickel-gray surfaces with full luster and few blemishes. A splendid specimen for the connoisseur. NGC has only certified five finer examples (1/13). NGC ID# 277R, PCGS# 3875, CoinPlex ID# LBN1912S

---

**PROOF LIBERTY NICKELS**

- 4088 1883 No Cents PR66 NGC.** The 1 in the date is repunched north. A coruscating, smooth, and lightly toned specimen of this famous single-year type. Though business strikes are plentiful, the proof issue is scarce relative to demand. NGC ID# 22PU, PCGS# 3878, CoinPlex ID# LBP1883NC

- 4089 1883 No Cents PR66 Cameo PCGS. CAC.** Despite a generous proof mintage of 5,219 pieces, the 1883 proof No Cents Liberty nickel is still a scarce issue in Premium Gem condition. The well-preserved surfaces display a hint of soft champagne toning. Population: 70 in 66 (5 in 66+) Cameo, 11 finer (1/13). PCGS# 83878, CoinPlex ID# LBP1883NCCA

---

**1883 No Cents Nickel  
PR66 Deep Cameo**

- 4090 1883 No Cents PR66 Deep Cameo PCGS. CAC.** The first Liberty nickel, and a one-year type, this Premium Gem Deep Cameo proof is an amazing specimen with extraordinary eye appeal. Both sides are deeply mirrored around bold, highly lustrous white devices. Population: 5 in 66 (1 in 66+) Deep Cameo, 1 finer (1/13). PCGS# 93878, CoinPlex ID# LBP1883NCDC

- 4091 1884 PR66 Cameo PCGS.** A fully struck apricot-gold high grade representative of Charles Barber's Liberty type. The flashy fields display only minute carbon. Population: 41 in 66 (3 in 66+) Cameo, 3 finer (1/13).  
Ex: *Denver Signature (Heritage, 8/2006), lot 617.* PCGS# 83882, CoinPlex ID# LBP1884CA

- 4092 1884 PR66 Cameo NGC. CAC.** A crisply detailed piece that offers moderate contrast between the impressive mirrors and the delicately frosted devices. Pale green-gold and nickel-blue tints visit the fields. Census: 32 in 66 Cameo, 17 finer (1/13).  
Ex: *Dallas Signature (Heritage, 10/2008), lot 369.* PCGS# 83882, CoinPlex ID# LBP1884CA

**4093 1885 PR64 NGC.** The 1885 is the rarest regular issue of the Liberty nickel series. Proofs are as available as most other dates but are subject to greater demand from series completists. The present flashy near-Gem is fully struck and lightly toned with minor pinpoint reverse carbon. NGC ID# 277T, PCGS# 3883, CoinPlex ID# LBP1885

**4094 1885 PR64 PCGS.** Sharply struck on all design elements, including the reverse left ear of corn. Devoid of carbon or contact though the dusky cream-gray surfaces are more satiny than mirrored. Housed in a first generation PCGS holder.

*Ex: Baltimore Signature (Heritage, 3/2009), lot 572, which realized \$1,207.50. PCGS# 3883, NGC ID# 277T, CoinPlex ID# LBP1885*

**4095 1885 PR66 PCGS. CAC.** Attractively toned with subtle orange, peach, russet, sage, sea-green, and light steel-blue highlights, this well-struck Premium Gem has nice eye appeal. Only 12 examples have received higher numeric grades from PCGS (1/13). PCGS# 3883, NGC ID# 277T, CoinPlex ID# LBP1885

#### 1885 Nickel, PR67 Enjoys High Demand

**4096 1885 PR67 NGC.** While proof 1885 nickels are equally as plentiful as other proof Liberty nickel issues, they enjoy greater demand due to the rarity of high grade business strikes. This Superb Gem is an exceptional specimen with ice-blue toning inside a ring of light gold. Census: 17 in 67, 3 finer (1/13). NGC ID# 277T, PCGS# 3883, CoinPlex ID# LBP1885

**4097 1885 PR66 Cameo PCGS.** Key to the series as a business strike, the proofs take on added importance to collectors. This is a sparkling, deeply mirrored example with significant mint frost over the devices. Only the palest toning is present. Population: 44 in 66 Cameo, 6 finer (1/13). PCGS# 83883, CoinPlex ID# LBP1885CA

#### 1889 Nickel, PR64 Cameo Elusive Cameo Proof

**4098 1889 PR64 Cameo NGC.** Both sides of this near-Gem Cameo proof exhibit pale champagne toning over light gray surfaces with a small area of cinnamon toning on the reverse. Both sides have excellent field-to-device contrast with bold design motifs. A small carbon spot is evident in the left obverse field. Census: 3 in 64 Cameo, 2 finer (1/13). PCGS# 83887, CoinPlex ID# LBP1889CA

**4099 1890 PR66 Cameo NGC.** The proof 1890 has proved unexpected elusive with significant cameo contrast. The present high grade specimen has icy motifs and brilliant mirrored fields. The strike is bold and there is no evidence of carbon. Census: 22 in 66 Cameo, 2 finer (1/13).

*Ex: Lucy Collection (Heritage, 10/2008), lot 380, which realized \$977.50. PCGS# 83888, CoinPlex ID# LBP1890CA*

**4100 1894 PR67 NGC.** A respectable mintage of 2,632 proof Liberty nickels was achieved in 1894, and this spectacular Superb Gem is one of the finest survivors. The design elements are sharply detailed throughout and the deeply mirrored fields show no mentionable distractions. Census: 7 in 67, 2 finer (1/13). NGC ID# 2784, PCGS# 3892, CoinPlex ID# LBP1894

**4101 1897 PR66 Cameo PCGS. CAC.** A pleasing Premium Gem proof, this piece displays deep field reflectivity contrasting against frosted devices with razor-sharp definition throughout. Both sides are near-brilliant with a few small hints of color. The coin is virtually free of abrasions other than a small mark in the field near the top of the left side of the wreath. Population: 24 in 66 (4 in 66+) Cameo, 8 finer (1/13). PCGS# 83895, CoinPlex ID# LBP1897CA

**4102 1897 PR65 Deep Cameo PCGS.** The deeply contrasted obverse of this lovely Gem proof displays a hint of blue in the fields, counterbalancing the ice-white effects of the sharply struck portrait. The reverse exhibits orange and peach color throughout, yet the cameo effect is no less impressive on that side. Population: 1 in 65 Deep Cameo, 2 finer (1/13). PCGS# 93895, CoinPlex ID# LBP1897DC

**4103 1902 PR65 Cameo PCGS. CAC.** Sharply detailed throughout, the frosty design elements of this impressive Gem contrast boldly with the mirrored fields. The well-preserved surfaces display attractive shades of lime-green and lavender toning. Population: 7 in 65 Cameo, 13 finer (1/13). PCGS# 83900, CoinPlex ID# LBP1902CA

**4104 1905 PR67 ★ NGC.** A gorgeous example displaying deep reflectivity beneath turquoise patina, this coin exhibits modest contrast that enhances the already overwhelming eye appeal. Census: 2 in 67 ★, none finer with the Star designation (1/13).

*Ex: Orlando FUN Signature (Heritage, 1/2007), lot 2205. NGC ID# 278F, PCGS# 3903, CoinPlex ID# LBP1905*

**4105 1907 PR66 Cameo NGC.** Light gold toning visits this high grade proof. A combination of deeply mirrored fields and frosty devices provides excellent eye appeal. All of the elements are boldly defined. One small obverse spot at 10 o'clock. Census: 22 in 66 Cameo, 10 finer (12/12).

*Ex: West Palm Beach Signature (Heritage, 6/2008), lot 389, which realized \$977.50. PCGS# 83905, CoinPlex ID# LBP1907CA*

#### 1908 Nickel, PR66 Cameo Elusive Contrasted Proof

**4106 1908 PR66 Cameo PCGS. CAC.** Proof coins struck between the years 1901 and 1910 tend to exhibit little contrast, as mint officers discouraged the cameo appearance that is so popular today. This piece has light cameo contrast with brilliant and untuned nickel-gray surfaces. Population: 14 in 66 Cameo, 4 finer (1/13). PCGS# 83906, CoinPlex ID# LBP1908CA

**1908 PR67 Cameo Liberty Nickel  
Untoned With Stunning Contrast**

- 4107 1908 PR67 Cameo NGC.** Both sides show readily appreciable contrast, with that of the reverse being slightly stronger. The detail is bold, and the gleaming mirrors are beautifully preserved. An essentially untoned Superb Gem specimen of this later proof Liberty nickel issue. Census: 6 in 67 Cameo, 0 finer (1/13).  
*Ex: Central States Signature (Heritage, 4-5/2009), lot 1460. PCGS# 83906, CoinPlex ID# LBP1908CA*

- 4108 1909 PR67 Cameo NGC.** It has to be admitted that not all Cameo proof Liberty Nickels exhibit impressive contrast, especially on the cheek and neck. However, the present Superb Gem does not fall into that category, since the obverse contrast is seemingly worthy of an Ultra Cameo designation. The reverse also has attractive white-on-black distinction. Brilliant except for a blush of gold color northwest of the reverse center. The left ear of corn is typically struck, but the strike is otherwise exemplary and the preservation is exquisite. Census: 25 in 67 (1 in 67+) Cameo, 5 finer (1/13).  
PCGS# 83907, CoinPlex ID# LBP1909CA

**Superb Gem Proof 1910 Liberty Nickel  
Unusual Cameo Specimen**

- 4109 1910 PR67 Cameo PCGS. CAC.** *Ex: Groman.* A fairly generous mintage of 2,405 proof Liberty Head nickels was accomplished in 1910, but few examples can compare with the quality of the present coin. This magnificent Superb Gem displays an even coat of champagne-gold toning over sharply detailed design elements that contrast boldly with the mirrored fields in an unusual cameo effect. Population: 13 in 67 Cameo, 2 finer (1/13).  
PCGS# 83908, CoinPlex ID# LBP1910CA

**BUFFALO NICKELS**

- 4110 1913 Type One MS67 PCGS.** Large areas of attractive gold toning in a variety of shades cover both sides of this well-struck Superb Gem, providing this example with pleasing eye appeal. Only 12 examples have been awarded higher numeric grades by PCGS (1/13).  
PCGS# 3915, NGC ID# 22PW, CoinPlex ID# BFN1913TY1
- 4111 1913 Type One MS67 PCGS. CAC.** Splendid peach, rose, lemon, and sky-blue shades endow this lustrous and unabraded Superb Gem. The sole year of the Mound Reverse subtype. A costly acquisition any finer. PCGS# 3915, NGC ID# 22PW, CoinPlex ID# BFN1913TY1

- 4112 1913 Type One MS67 PCGS. CAC.** Light champagne toning adds to the visual appeal of both sides of this Superb Gem nickel. The piece displays the rough, pebbly field texture that James Earle Fraser designed for the subtype. PCGS has graded only 12 numerically finer examples (1/13).  
PCGS# 3915, NGC ID# 22PW, CoinPlex ID# BFN1913TY1

- 4113 1913 Type Two MS64 ANACS.** The general public paid little attention to the design change in 1913, and the Type Two nickels were not saved in the same numbers as the Type One coins were. Vibrant golden-champagne toning covers both sides of this pleasing near-Gem. Clash marks appear near E PLURIBUS UNUM. Housed in a small format holder. NGC ID# 22PZ, PCGS# 3921, CoinPlex ID# BFN1913TY2

- 4114 1913 Type Two MS66 PCGS.** Lustrous surfaces that are largely toned a champagne color add to the attractiveness of this Premium Gem. Splashes of russet, rose, cherry, lilac, and bright green also appear, primarily on the reverse, providing nice eye appeal. Due to the state of the dies, this piece exhibits a grainy texture in places and the letters in LIBERTY display an incompleteness of strike. PCGS has awarded higher numeric grades to a mere 17 examples (1/13).  
PCGS# 3921, NGC ID# 22PZ, CoinPlex ID# BFN1913TY2

- 4115 1917-D MS65 PCGS.** Light golden overtones visit parts of richly lustrous surfaces that show a quiet intensity at certain angles to the light. Slightly soft on the high points but clearly unworn with only a few flyspecks. PCGS# 3935, NGC ID# 22RE, CoinPlex ID# BFN1917D

- 4116 1918/7-D VG10 PCGS. FS-101.** The broad downstroke of the underdigit 7 confirms the rare World War I overdate. This stone-gray example provides attractive eye appeal for the grade despite a few light abrasions. PCGS# 3939, NGC ID# 22RJ, CoinPlex ID# BFN19187D

**Superb Gem 1919 Buffalo Nickel  
Lovely Patination**

- 4117 1919 MS67 NGC.** Jade-green, golden-brown, and orange-red patina graces this pristine Superb Gem. Only the hair above the braid lacks a full strike. A colorful and beautiful example of an issue seldom seen in such remarkable quality. Housed in a prior generation holder. Census: 6 in 67, 1 finer (1/13).  
NGC ID# 22RL, PCGS# 3941, CoinPlex ID# BFN1919

- 4118 1919-D MS63 PCGS.** Pleasing shades of champagne-gold and powder-blue toning enhance the surfaces of this attractive Select specimen. The design elements are well-detailed and vibrant mint luster shines through the patina. PCGS# 3942, NGC ID# 22RM, CoinPlex ID# BFN1919D

- 4119 1920-D MS64+ PCGS.** This high-end near-Gem exhibits an attractive light gold color on both sides along with scattered pinpoint brown toning. Each side displays small wispy die cracks, with strike doubling at LIBERTY and clash marks and evidence of die erosion appearing near 1 o'clock on the reverse. PCGS# 3945, NGC ID# 22RR, CoinPlex ID# BFN1920D

- 4120 1921-S AU53 PCGS.** The 1921-S Buffalo nickel is a popular low-mintage issue. This lightly circulated example is well-detailed, with pleasing light gray surfaces that retain traces of original mint luster. PCGS# 3948, NGC ID# 22RU, CoinPlex ID# BFN1921S

**4121 1923-S MS64 PCGS. CAC.** Gold-orange patina has considerable iridescence where present, as does the violet-nickel toning that forms a counterpoint on both sides, especially the reverse. This luminous near-Gem has solid all-around eye appeal. PCGS# 3950, NGC ID# 22RW, CoinPlex ID# BFN1923S

**4122 1924-S AU50 PCGS Secure. CAC.** The 1924-S Buffalo nickel claims a low mintage of 1.4 million pieces. This example displays olive-gray and rose-red surfaces. Minor wear is evident on the bison's hair, but this coin retains ample satin luster and is void of noticeable marks. PCGS# 3953, NGC ID# 22RZ, CoinPlex ID# BFN1924S

---

**Lustrous Select 1924-S Nickel  
Struck From Eroded Dies**

**4123 1924-S MS63 PCGS.** The 1924-S Buffalo nickel is one of the S-mint keys to the series, well-known to collectors as an elusive issue. This example shows good luster but the dies are clearly fatigued, particularly the reverse die, which produced a markedly weak strike on that side of the coin. The obverse is considerably better-struck. Attractive pinkish-gold color appears throughout. PCGS# 3953, NGC ID# 22RZ, CoinPlex ID# BFN1924S

---

**Choice 1925-S Buffalo Nickel  
Lightly Toned Specimen**

**4124 1925-S MS64 NGC.** Quality control was not a priority for the San Francisco Mint in 1925, and most Buffalo nickels of that date are weakly struck and lackluster. This attractive Choice example displays a better-than-average strike, with a touch of softness on the bison's head and shoulder. Satiny luster shows on both sides, with a few hints of pale gold and ice-blue toning. NGC has graded 23 numerically finer examples (1/13). NGC ID# 22S4, PCGS# 3956, CoinPlex ID# BFN1925S

**4125 1926-D MS64 NGC.** Gold, light steel-blue, pink, and lilac highlights provide this near-Gem with a pleasing appearance. This piece displays an incompleteness of strike as this issue is known for. NGC has awarded higher numeric grades to only 39 examples (1/13). NGC ID# 22S6, PCGS# 3958, CoinPlex ID# BFN1926D

**4126 1926-D MS64 PCGS.** Steel-gray color with a hint of gold appears on the obverse, while the reverse features attractive yellow-gold hues with iridescent blue-green accents. This near-Gem exhibits minimal contact marks and the reverse displays strong detail. PCGS# 3958, NGC ID# 22S6, CoinPlex ID# BFN1926D

**4127 1927-S MS64 PCGS.** Vibrant luster emanates from both sides of this attractive near-Gem key date representative. Numerous colors enhance the appearance, including shades of bright silver, rich gold, lilac, and sea-green. Although contact marks are present, including several on the Indian's cheek, the toning largely obscures them. Only 21 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 3962, NGC ID# 22SA, CoinPlex ID# BFN1927S

**4128 1934 MS66+ PCGS. CAC.** A lovely high-end Premium Gem example, this coin displays rich pastel ice-blue and almond-gold colors. The coin is well-struck and exhibits only a few minor abrasions. Population: 2 in 66+, 22 finer (1/13). PCGS# 3972, NGC ID# 22SL, CoinPlex ID# BFN1934

**4129 1937-D Three-Legged AU53 NGC. FS-901.** Walnut-brown toning enriches the fields, while the motifs are gunmetal-gray. Abrasions are essentially absent, and the eye appeal is superior for the AU53 grade. An important variety with decades-long residence in the *Guide Book*. NGC ID# 22SX, PCGS# 3982, CoinPlex ID# BFN1937D3LEG

**4130 1937-D Three-Legged AU55 NGC. FS-901.** Beautiful peach-gold, powder-blue, and jade-green toning adorns this coruscating key date nickel. The bison's flank has a wispy horizontal mark, but the surfaces are otherwise devoid of abrasions. NGC ID# 22SX, PCGS# 3982, CoinPlex ID# BFN1937D3LEG

**4131 1937-D Three-Legged AU55 NGC. FS-901.** The stone-gray centers are framed by lustrous wheat-gold borders. A well defined and lightly abraded Choice AU example of this famous mint error. Mildly granular near UNITED. The NGC holder lists the prior *Cherry-pickers'* number, FS-020.2. NGC ID# 22SX, PCGS# 3982, CoinPlex ID# BFN1937D3LEG

**4132 1937-D Three-Legged AU55 PCGS. CAC. FS-901.** A lightly circulated example of this famous key, with the bison's foreleg removed by excessive die polishing. The pleasing gray surfaces retain traces of satiny mint luster and only light wear shows on the devices. PCGS# 3982, NGC ID# 22SX, CoinPlex ID# BFN1937D3LEG

**4133 1937-D Three-Legged AU58 NGC. CAC. FS-901.** Steel-gray and autumn-gold shades enrich this satiny and sharply detailed key date nickel. Along with the 1922 No D Strong Reverse cent, the best known of all die polish varieties. NGC ID# 22SX, PCGS# 3982, CoinPlex ID# BFN1937D3LEG

---

**PROOF BUFFALO NICKELS**

---

**1913 Nickel, PR65  
Type One Reverse**

**4134 1913 Type One PR65 PCGS.** Distinct olive toning appears on both sides of this sharply defined Gem proof Type One nickel. Struck only in 1913, these pieces introduced the new design to contemporary collectors, following production of five Liberty nickels at the beginning of the year. PCGS# 3988, NGC ID# 278R, CoinPlex ID# BFP1913TY1

**1913 Buffalo Nickel, PR66  
Gold-Toned Type Two**

- 4135 1913 Type Two PR66 PCGS.** This light gold-toned Premium Gem proof has hints of rose overtones on its satiny proof surfaces with bold design motifs and exceptional eye appeal. Both sides have scattered carbon flecks that are only visible with a glass. A splendid first-year Type Two Buffalo nickel. PCGS# 3990, NGC ID# 278S, CoinPlex ID# BFP1913TY2

- 4136 1914 PR65 PCGS.** Satiny and attractive with gold and mustard hues over much of each side. Excellent detail for this first full year of matte proof production. PCGS# 3991, NGC ID# 278T, CoinPlex ID# BFP1914

**Superb Gem Proof 1914 Buffalo Nickel  
Only 1,275 Pieces Struck**

- 4137 1914 PR67 NGC.** The bright matte surfaces of this magnificent Superb Gem show attractive hints of ice-blue and golden-brown toning. The design elements display razor-sharp definition throughout, including the bison's head and shoulder. Eye appeal is exceptional. Census: 61 in 67, 10 finer (1/13). NGC ID# 278T, PCGS# 3991, CoinPlex ID# BFP1914

- 4138 1915 PR66 PCGS.** Gold-orange through the fields and parts of the devices with nickel-gray at the higher zones on each side. Excellent detail contributes to the high all-around eye appeal of this Premium Gem. PCGS# 3992, NGC ID# 278U, CoinPlex ID# BFP1915

**Pristine PR66 1916 Nickel**

- 4139 1916 PR66 PCGS.** Pastel lime-green and chestnut-gold shades compete for territory across this flawless and undisturbed specimen. A well struck and satiny Premium Gem. The end of the trail for the proof type until its resumption two decades later. Certified in a green label holder. Population: 81 in 66 (1 in 66+), 35 finer (1/13). PCGS# 3993, NGC ID# 278V, CoinPlex ID# BFP1916

- 4140 1936 Type One—Satin Finish PR64 PCGS.** This near-Gem exhibits lustrous satin surfaces and light champagne color. Scattered pinpoint brown toning appears throughout both sides. The design elements display attractive detail. PCGS# 3994, NGC ID# 278X, CoinPlex ID# BFP1936TY1SATIN

- 4141 1936 Type One—Satin Finish PR66 NGC.** Richly toned on both sides, this Premium Gem has tremendous eye appeal on both sides. The mingled colors are primarily pastel and include shades of yellow, pink, green, blue, and lilac along with a few flecks of cherry. Bold satin luster further enhances the appearance of this well-struck coin. NGC ID# 278X, PCGS# 3994, CoinPlex ID# BFP1936TY1SATIN

- 4142 1936 Type One—Satin Finish PR66 PCGS. CAC.** After a two-decade gap, proof production resumed in 1936 in both satin and brilliant format. A stone-white Premium Gem with pristine preservation and excellent eye appeal. The strike is intricate, though the hair above the braid lacks absolute detail. PCGS# 3994, NGC ID# 278X, CoinPlex ID# BFP1936TY1SATIN

**1936 Type Two Brilliant Buffalo Nickel, PR67**

- 4143 1936 Type Two—Brilliant Finish PR67 NGC.** The razor-sharp strike is as expected but these Brilliant Finish coins never cease to amaze with the utter perfection of their overall surface texture. This quicksilver Superb Gem boasts no discernible color on either side and immaculate preservation throughout. An excellent candidate for a fine type set. NGC has seen 16 finer (1/13). NGC ID# 278Y, PCGS# 3995, CoinPlex ID# BFP1936TY2BRIL

- 4144 1937 PR65 PCGS.** Straw-gold and ice-blue endow this prominently mirrored and boldly struck Gem. Pristine aside from a couple of pinpoint flecks. This final year proof type coin is certified in a green label holder. PCGS# 3996, NGC ID# 278Z, CoinPlex ID# BFP1937

- 4145 1937 PR65 PCGS.** A gleaming Gem specimen from the last proof Buffalo nickel issue. Pastel blues and yellows lend a chromelike gleam, though a few small brown spots radiate from flyspecks on the obverse. PCGS# 3996, NGC ID# 278Z, CoinPlex ID# BFP1937

- 4146 1937 PR66 NGC.** Proof Buffalo nickels were struck for the last time in 1937, with a reported mintage of 5,769 pieces. This spectacular Premium Gem displays razor-sharp definition on all design elements and deeply mirrored fields, with hints of pale gold toning. NGC ID# 278Z, PCGS# 3996, CoinPlex ID# BFP1937

- 4147 1937 PR66 NGC.** Golden highlights against the brilliant, flashy surfaces of this Premium Gem add to the visual allure along with a bold strike. A few small carbon spots are present. NGC ID# 278Z, PCGS# 3996, CoinPlex ID# BFP1937

- 4148 1937 PR66 PCGS. CAC.** A bold strike and rich gold highlights add to the tremendous visual allure of this Premium Gem. Small russet-colored streaks appear in the fields on both sides on this example struck from moderately rotated dies. PCGS# 3996, NGC ID# 278Z, CoinPlex ID# BFP1937

## JEFFERSON NICKELS

- 4149 1938-D MS67 Full Steps PCGS.** Vibrant toning, in varying shades of light orange and peach, covers large portions of both sides of this Superb Gem. Scattered flecks of pastel green also appear. This is a beautifully preserved example of this popular low mintage issue with plenty of eye appeal. Population: 36 in 67 Full Steps, 0 finer (1/13). PCGS# 84001, NGC ID# 22T5, CoinPlex ID# JFN1938DFS
- 4150 1939-S Reverse of 1938 MS66 Full Steps PCGS.** A brilliant, beautifully preserved example with attractive champagne toning. The '39-S ranks among the scarcest issues of the long-lived series. Neither major service has awarded a higher numeric grade to a single example, with PCGS having graded only 17 in 66 (1 in 66+) Full Steps (1/13). PCGS# 84006, NGC ID# 22TC, CoinPlex ID# JFN1939SR1938FS
- 4151 1939-S Reverse of 1940 MS66 Full Steps PCGS.** Lustrous surfaces provide this Premium Gem with pleasing eye appeal. Tan and powder-blue toning with hints of lilac appear. The reverse exhibits a few streaks of orange color. Tiny die polish lines appear near the top of the reverse. Population: 19 in 66 Full Steps, 0 finer (1/13). PCGS# 894006, CoinPlex ID# JFN1939SR1940FS

### Superb Gem 1943/2-P Nickel

- 4152 1943/2-P MS67 PCGS. FS-101.** 2013 is the 70th anniversary of the 1943/2-P overdate, the last such blunder in U.S. Mint history. A thoroughly lustrous Superb Gem that has mark-free surfaces and a hint of gold toning. The high points of Jefferson's portrait show minor flan chatter, as struck. PCGS# 4019, NGC ID# 22TR, CoinPlex ID# JFN19432P
- 4153 1943/2-P MS65 Full Steps PCGS. FS-101.** Delma K. Romines is credited with discovery of this popular World War II overdate. The present lustrous Gem is crisply struck and magnificently preserved. Pastel almond-gold, lilac-red, and powder-blue tints contribute further to the eye appeal. PCGS# 84019, NGC ID# 22TR, CoinPlex ID# JFN19432PFS
- 4154 1951 MS66 Full Steps PCGS.** Champagne and apricot hues, with hints of red and pink, adorn both sides of this lustrous Premium Gem. The design motifs display attractive detail. Population: 14 in 66 Full Steps, 0 finer (1/13). PCGS# 84043, NGC ID# 22UG, CoinPlex ID# JFN1951FS
- 4155 1951-S MS66 Full Steps PCGS.** Attractive satin luster adds to the visual appeal of this lovely example. Both sides exhibit wispy vertical striations in the fields, as made. Neither major service has awarded a higher numeric grade to a single example, with PCGS having graded 22 in 66 (1 in 66+) Full Steps (1/13). PCGS# 84045, NGC ID# 22UJ, CoinPlex ID# JFN1951SFS

### Premium Gem 1955-D/S Nickel Guide Book FS-501 Variety

- 4156 1955-D/S MS66 PCGS. FS-501.** Similar to the 1938-D/S Buffalo nickel, there are several reverse dies for the 1955-D/S, but FS-501 is the *Guide Book* variety. It shows the undermintmark S above and to the upper left of the Denver mintmark. Die lines near the PL in PLURIBUS provide further markers. Honey-gold fields contrast with gunmetal-blue devices. Lustrous and nearly pristine with traces of the planchet surface on Jefferson's jaw. The San Francisco Mint was downgraded to Assay Office status in 1955. Remaining dies were sent to other facilities as an economy measure. PCGS# 4058, NGC ID# 22UX, CoinPlex ID# JFN1955DS
- 4157 1964-D MS65 Full Steps PCGS.** Brilliant shimmering surfaces emanate from this well-preserved Gem. A few minor contact marks appear on the obverse. As made die striations appear on both sides. Population: 24 in 65 Full Steps, 4 finer (1/13). PCGS# 84076, NGC ID# 22VH, CoinPlex ID# JFN1964DFS
- 4158 1968-S MS65 Full Steps PCGS.** A lovely Gem with almond-gold color overall along with a few splashes of russet, this example has lovely eye appeal. Minor scattered surface marks appear on both sides. Population: 5 in 65 Full Steps, 3 finer (1/13). PCGS# 84081, NGC ID# 22VN, CoinPlex ID# JFN1968SFS

## PROOF JEFFERSON NICKELS

- 4159 1971 No S PR67 Cameo NGC.** Stone-white and immaculate with impressive white-on-black contrast. The No S proof variety can be found on 1968, 1970, 1975, and 1983 dimes, as well 1990 cents, but 1971 is the only nickel date for the desirable mint error. NGC ID# 22YN, PCGS# 84204, CoinPlex ID# JFP1971NOSCA
- 4160 1971 No S PR68 Cameo PCGS.** This brilliant and pristine Superb Gem has darkly reflective fields and icy motifs. The strike is razor-sharp. Walter Breen states in his 1988 *Encyclopedia* that the variety was discovered on December 29, 1971, and that the Mint confirmed a mintage of 1,655 pieces. Population: 53 in 68 Cameo, 8 finer (12/12).  
*Ex: New York Signature (Heritage, 11/2003), lot 5899.* PCGS# 84204, NGC ID# 22YN, CoinPlex ID# JFP1971NOSCA

## MERCURY DIMES

- 4161 1916-D Good 6 NGC.** The all-important date and mintmark are bold on this sought-after key, and the surfaces show even wear on both sides, with no large or distracting abrasions. All major design detail remains complete in outline, but the fasses and bands are worn smooth. NGC ID# 23GY, PCGS# 4906, CoinPlex ID# MRD1916D
- 4162 1916-D VG8 PCGS.** A well worn but attractive example, this piece displays natural silver-gray surfaces. Although numerous contact marks are present on this example, as expected at this grade level, none of the marks is severe. Hints of gold and steel-blue enhance the appearance. PCGS# 4906, NGC ID# 23GY, CoinPlex ID# MRD1916D

- 4163 1917 MS66+ Full Bands PCGS. CAC.** Deep luster emanates from this high-end Premium Gem. Areas of attractive toning that includes shades of gold, orange, russet, lilac, and olive-green appear on both sides. The piece is well-struck and displays only a few very minor abrasions, including one small spot on Liberty's cheek that poses little distraction, if any. A wonderful coin. Population: 78 in 66 (1 in 66+) Full Bands, 17 finer (1/13). PCGS# 4911, NGC ID# 23H2, CoinPlex ID# MRD1917FB
- 4164 1918-D MS63 Full Bands PCGS.** Light partial gold toning is more prominent to the right on each side. Modestly abraded but pleasingly lustrous with a full line between the bands on the reverse. PCGS# 4919, NGC ID# 23H6, CoinPlex ID# MRD1918DFB
- 4165 1918-S MS64 Full Bands PCGS. CAC.** The central designs remain largely untuned on this near-Gem, with areas of color appearing at the outer edges including shades of russet and green-gray. A small mark appears at the jaw. Population: 62 in 64 (1 in 64+) Full Bands, 43 finer (1/13). PCGS# 4921, NGC ID# 23H7, CoinPlex ID# MRD1918SFB
- 4166 1921 MS61 Full Bands PCGS.** The 1921 has one of the lowest mintages of the series. The present lustrous and lightly toned example is well struck and free from consequential marks. From late stage dies. Encased in a first generation holder. PCGS# 4935, NGC ID# 23HE, CoinPlex ID# MRD1921FB
- 4167 1924-S MS64 Full Bands PCGS.** Mottled violet and steel toning appears on frosty silver luster on this sharply defined Choice Mint State piece. Sharply struck examples seldom appear in higher grades, as evidenced by the fact that only 17 numerically finer Full Bands coins have been certified by PCGS (1/13). PCGS# 4947, NGC ID# 23HL, CoinPlex ID# MRD1924SFB
- 4168 1925-S MS65 Full Bands PCGS.** Iridescent toning at portions of the outer edges on this Gem includes lemon, orange, cherry, and green. Golden champagne color covers much of the obverse. Minor clash marks appear on the obverse and the often seen "fadeaway" of the peripheral lettering is present. Population: 68 in 65 (2 in 65+) Full Bands, 19 finer (1/13). PCGS# 4953, NGC ID# 23HP, CoinPlex ID# MRD1925SFB
- 4169 1926-D MS65 Full Bands PCGS. CAC.** A sharply detailed Gem, with Full Bands definition on the fasces, this attractive coin displays ample mint luster, with highlights of gold, ice-blue, and amber toning. Population: 83 in 65 Full Bands, 27 finer (1/13). PCGS# 4957, NGC ID# 23HS, CoinPlex ID# MRD1926DFB

#### 1930-S Dime, MS67 Full Bands Untuned and Essentially Flawless

- 4170 1930-S MS67 Full Bands PCGS.** Incredible brilliance radiates from this stunning Superb Gem 1930-S dimes, and all of the bands on the reverse are fully defined, not merely the crucial central pair. No trace of other color appears on the frosted silver surfaces, which appear virtually mark-free as well. Population: 11 in 67 (1 in 67+) Full Bands, 0 finer (1/13). PCGS# 4981, NGC ID# 23J6, CoinPlex ID# MRD1930SFB

- 4171 1935-S MS67 Full Bands PCGS. CAC.** Gold-orange and burgundy along much of the borders with silver interiors. Luster is satiny but insistent, while the strike is all-around strong. Population: 80 in 67 (1 in 67+) Full Bands, 1 finer (1/13). Ex: *Palm Beach Signature (Heritage, 11/2004)*, lot 6384. PCGS# 4997, NGC ID# 23JE, CoinPlex ID# MRD1935SFB
- 4172 1937 MS68 Full Bands PCGS.** Appealing cartwheel luster is present on this pleasing example. The obverse exhibits gray, gold, and cherry colors with a few flecks of vibrant green, while the reverse remains primarily untuned, with several shades of yellow appearing at portions of the extreme outer edges. This is an attractive, well-struck coin. Population: 39 in 68 Full Bands, 0 finer (1/13). PCGS# 5005, NGC ID# 23JJ, CoinPlex ID# MRD1937FB
- 4173 1940 MS68 Full Bands ANACS.** This short-set beauty is sharply struck and carefully preserved, as the grade would imply, but the toning is what makes it special. Pale almost-silver centers yield swiftly to gold and orange shadings in the fields and deep blues and violets along much of the borders. Housed in a small-format holder. Ex: *FUN Signature (Heritage, 1/2006)*, lot 2191. NGC ID# 23JU, PCGS# 5023, CoinPlex ID# MRD1940FB

#### 1940 Mercury Dime, MS68 Full Bands Impeccable Pastel Toning

- 4174 1940 MS68 Full Bands PCGS. CAC.** The satiny surfaces of this coin are so clean they almost appear to be a proof, save for the different surface texture. There is light overlay of golden color throughout both sides with a near-subliminal hint of pastel aqua, and only a tiny tick on Liberty's neck appears under magnification. The Full Bands separation is "all there," with an equally sharp strike elsewhere. Among the finest, and with the CAC endorsement as well. Population: 25 in 68 (1 in 68+) Full Bands, 0 finer (1/13). PCGS# 5023, NGC ID# 23JU, CoinPlex ID# MRD1940FB
- 4175 1943-D MS68 Full Bands NGC.** A brilliant and near-perfect example of this popular Short Set issue. The surfaces display shimmering mint luster and add an extra dimension of visual interest to this lovely type coin. Census: 10 in 68 Full Bands, 0 finer (1/13). NGC ID# 23K9, PCGS# 5047, CoinPlex ID# MRD1943DFB

#### PROOF MERCURY DIMES

- 4176 1936 PR65 PCGS. CAC.** 1936 is the first and lowest mintage date of the seven-year run of proof Mercury dimes. This well struck Gem offers pastel caramel-gold and ice-blue toning and is housed in a gold label holder. PCGS# 5071, NGC ID# 27DG, CoinPlex ID# MRP1936
- 4177 1937 PR67 PCGS. CAC.** Gleaming reflectivity is obvious even at a distance on this minimally toned Superb Gem proof from the second year of special strikings for the Mercury dime. Razor-sharp detail is most evident on the bands with their clean line of separation. PCGS# 5072, NGC ID# 27DH, CoinPlex ID# MRP1937

## ROOSEVELT DIME

### 1956 Dime, MS67 Full Bands Mint Set Toning

- 4178 1956 MS67 Full Bands PCGS.** The obverse exhibits an intense presentation of steel, cobalt, violet, emerald, yellow, and orange toning in a target or bullseye pattern, while the reverse is brilliant with only a hint of champagne and powder-blue toning. The strike is bold and the surfaces exhibit frosty luster. Population: 11 in 67 Full Bands, 0 finer (1/13). PCGS# 85112, NGC ID# 23LH, CoinPlex ID# ROD1956FB

## PROOF ROOSEVELT DIMES

- 4179 1970 No S PR65 Cameo NGC.** An attractive example of this popular missing-mintmark issue, this dime displays a crisp strike with light, yet distinct contrast between the gleaming mirrors and faintly frosted devices. Tiny specks of color appear on both sides. Census: 2 in 65 Cameo, 39 finer (1/13). NGC ID# 27F5, PCGS# 85248, CoinPlex ID# ROP1970NOSCA
- 4180 1970 No S PR69 Cameo NGC.** Thickly frosted motifs rise above the smooth and glassy fields. A pristine specimen of this key proof variety. Mint marks were added to working dies by hand in 1970, though in recent decades they are present on the master hub. Census: 10 in 69 Cameo, 1 finer as 69 Ultra Cameo (1/13). NGC ID# 27F5, PCGS# 85248, CoinPlex ID# ROP1970NOSCA
- 4181 1983 No S PR69 Deep Cameo PCGS.** The contrast is particularly vivid on the obverse of this PR69 example, with Roosevelt's portrait displaying a deeply frosted appearance. This is a very pleasing example with strong eye appeal. Population: 88 in 69 Deep Cameo, 0 finer (1/13). PCGS# 95265, NGC ID# 27FJ, CoinPlex ID# ROP1983NOSDC

## STANDING LIBERTY QUARTERS

### 1916 Standing Liberty Quarter, VG8 Fully Readable Date

- 4182 1916 VG8 NGC.** Just 52,000 Standing Liberty quarters were minted in 1916, introducing the design to a small segment of the public, and perhaps to a few contemporary collectors. The new Hermon MacNeil design entered full scale production the following year. Although well worn, this natural pewter-gray specimen shows only trivial flaws consistent with the grade. The top of the date is incomplete, but all four digits are fully readable. NGC ID# 242Y, PCGS# 5704, CoinPlex ID# SLQ1916

- 4183 1917-D Type One MS64 Full Head PCGS. CAC.** An attractively toned near-Gem, this coin displays iridescent colors in shades of mint-green, teal, fuchsia, orange, yellow, plum, and dark sea-green appears at the outer edges, with the reverse exhibiting the strongest showing of color. Champagne color appears elsewhere. PCGS# 5709, NGC ID# 2432, CoinPlex ID# SLQ1917DTY1FH

### 1917-D Type Two Quarter, MS67 Finest Non-Full Head NGC Coin

- 4184 1917-D Type Two MS67 NGC.** Intensely lustrous with light gray-gold surfaces showing hints of orange and violet color at the margins. Solidly struck overall with Liberty's head showing impressive detail, though the lack of a proper ear-hole precludes Full Head status. Tied with one other coin for finest non-Full Head coin in the combined certified population (1/13). Ex: Long Beach Signature (Heritage, 9/2003), lot 6777; FUN Signature (Heritage, 1/2010), lot 2657; Long Beach Signature (Heritage, 6/2011), lot 3549. NGC ID# 2435, PCGS# 5716, CoinPlex ID# SLQ1917DTY2
- 4185 1917-S Type Two MS65 PCGS.** Scarcest among the first PDS trio of Type Two issues, the 1917-S is seldom found with the rich original toning of the present Gem. The reverse displays vibrant plum-red, forest-green, and chestnut-gold toning. Housed in an old green label holder. PCGS# 5718, NGC ID# 2436, CoinPlex ID# SLQ1917STY2
- 4186 1918 MS65 Full Head NGC.** Light almond-gold patina endows this lustrous and uncommonly smooth Gem. The date and Liberty's head are needle-sharp, and incompleteness of strike is confined to the shield rivets near the waist. NGC ID# 2437, PCGS# 5721, CoinPlex ID# SLQ1918FH
- 4187 1919 MS66 PCGS. CAC.** Jade-green and cherry-red with the deepest shades of color near the rims. A thoroughly lustrous and impressively unabraded Premium Gem. A good strike with softness limited to the sprigs and the two shield rivets at the waist. Population: 87 in 66 (5 in 66+), 18 finer (1/13). PCGS# 5728, NGC ID# 243B, CoinPlex ID# SLQ1919

### 1919 Quarter, MS66+ Full Head Remarkably Bold Strike

- 4188 1919 MS66+ Full Head PCGS. CAC.** This 1919 Standing Liberty quarter boasts a remarkable strike, one of the sharpest we have ever seen on an example of this issue. The strike goes far beyond the full head details to embrace the shield rivets, the date, and most of the peripheral details. A superlative example and a great type coin. Population: 67 in 66 (5 in 66+) Full Head, 15 finer (1/13). PCGS# 5729, NGC ID# 243B, CoinPlex ID# SLQ1919FH

---

#### Satiny MS63 1919-D Quarter

**4189 1919-D MS63 PCGS. CAC.** This satiny and mark-free Standing Liberty quarter has steel-gray and chestnut-gold toning. The strike is generally bold, though three rivets, the center of the head, and the date are incomplete. The 1919-D is low mintage and a much better date. Encased in an old green label holder.

*Ex: Long Beach Signature (Heritage, 9/2011), lot 3457, which realized \$2,530. PCGS# 5730, NGC ID# 243C, CoinPlex ID# SLQ1919D*

---

#### 1919-D Quarter, Sharply Struck MS65 Medium Copper-Amber Toning

**4190 1919-D MS65 PCGS.** Considerable head details are present, even if insufficient for a Full Head designation, and in fact the surfaces are well-detailed throughout. This Gem shows a medium copper-amber layer of patina covering most of each side with generous luster underneath, although silver areas remain in the center. Population: 43 in 65 (1 in 65+), 25 finer (1/13). PCGS# 5730, NGC ID# 243C, CoinPlex ID# SLQ1919D

---

#### 1920-D Standing Liberty Quarter, MS66 Underrated Issue in High Grade

**4191 1920-D MS66 PCGS.** The 1920-D Standing Liberty quarter is an underrated date, especially in high grade. This impressive Premium Gem is sharply detailed in most areas, but the definition on Liberty's head is a little short of full. The well-preserved brilliant surfaces are brightly lustrous, with outstanding eye appeal. Population: 27 in 66 (1 in 66+), 1 finer (1/13). PCGS# 5736, NGC ID# 243F, CoinPlex ID# SLQ1920D

---

#### 1921 Standing Liberty Quarter, MS64 Attractively Toned and Lustrous

**4192 1921 MS64 NGC.** Shades of pale gold and ice-blue toning enhance the well-preserved surfaces of this attractive Choice specimen. The design elements are well-detailed, with just a trace of softness on two of the shield rivets and the eagle's belly. Vibrant satiny mint luster adds to the considerable visual appeal. NGC ID# 243H, PCGS# 5740, CoinPlex ID# SLQ1921

**4193 1921 MS64 NGC.** The 1921 Standing Liberty quarter is a better date in the series, from a smallish mintage of 1.9 million pieces. This well-detailed Choice example offers vibrant mint luster and attractive shades of champagne-gold toning. NGC ID# 243H, PCGS# 5740, CoinPlex ID# SLQ1921

---

#### Premium Gem 1921 Standing Liberty Quarter Vibrant Luster, Strong Eye Appeal

**4194 1921 MS66 PCGS.** The design elements of this impressive Premium Gem show sharp details in some areas, but the date is weakly impressed and the head details fall a little short of full. Both sides exhibit brilliant surfaces, with especially vibrant mint luster and incredible eye appeal. Population: 18 in 66, 0 finer (1/13). PCGS# 5740, NGC ID# 243H, CoinPlex ID# SLQ1921

**4195 1923-S VF30 NGC.** From a smallish mintage of 1.3 million pieces, the 1923-S Standing Liberty quarter is a key date in the series and collectors prize this issue in all grades and conditions. This pleasing VF30 example retains much of its original design detail and displays traces of mint luster, with hints of gold and amber patina. NGC ID# 243K, PCGS# 5744, CoinPlex ID# SLQ1923S

**1923-S Quarter, MS62  
Middle Rarity Tier**

- 4196 1923-S MS62 NGC. CAC.** Semikey issues fall between common issues and rarities. In the Standing Liberty quarter series, the 1916 and the overdate are the key rarities, while issues such as the 1921 and 1923-S are in the next-lower tier. This piece has satiny silver luster with splashes of gold and iridescent toning. NGC ID# 243K, PCGS# 5744, CoinPlex ID# SLQ1923S

**1923-S Standing Liberty Quarter, MS65  
Low-Mintage Key**

- 4197 1923-S MS65 PCGS.** Quarter specialist J.H. Cline considers the 1923-S Standing Liberty quarter one of the key dates in the series, with a reported mintage of 1.3 million pieces. The present coin is a well-struck Gem, with vibrant mint luster. The pleasing surfaces display attractive shades of ice-blue and gold toning. Population: 97 in 65 (1 in 65+), 36 finer (1/13). PCGS# 5744, NGC ID# 243K, CoinPlex ID# SLQ1923S

**Conditional Rarity 1923-S Quarter, MS65**

- 4198 1923-S MS65 PCGS. CAC.** This frosty Gem is fully brilliant and sharply struck with highly lustrous silver surfaces. Nearly full head details are present with most of the shield rivets, and the eagle's feathers on the reverse. PCGS has only certified 36 finer examples (1/13). PCGS# 5744, NGC ID# 243K, CoinPlex ID# SLQ1923S

- 4199 1924-S MS64 PCGS. CAC.** Shimmering surfaces with subtle shades of color including light yellow, russet, bright green, pink, and light steel-gray, add to the visual appeal of this lovely near-Gem. Die polish lines appear near the top of the obverse. Liberty's head and a couple of rivets are softly defined, as typically seen. PCGS# 5750, NGC ID# 243N, CoinPlex ID# SLQ1924S

- 4200 1926 MS66 PCGS. CAC.** Almond-gold toning with streaks of yellow-brown and russet appears on both sides of this Premium Gem with attractive satin luster. The piece displays a minor incompleteness of strike, including a few of the shield rivets. Population: 36 in 66 (2 in 66+), 1 finer (1/13). PCGS# 5754, NGC ID# 243R, CoinPlex ID# SLQ1926

- 4201 1927-S AU50 PCGS.** A touch of wear shows on the high points of the design elements, like Liberty's head and the eagle's feathers, but this impressive AU specimen retains much original mint luster and displays completely brilliant surfaces. A scarce issue, from a low mintage of 396,000 pieces. PCGS# 5764, NGC ID# 243W, CoinPlex ID# SLQ1927S

**1927-S Quarter, MS62  
50% Full Head**

- 4202 1927-S MS62 NGC.** The 1927-S quarter is frequently encountered in grades below Fine, infrequently seen in Mint State grades, and rarely between those extremes. This example is a lustrous Mint State specimen with brilliant silver surfaces and average design definition, showing about half of the head detail. NGC ID# 243W, PCGS# 5764, CoinPlex ID# SLQ1927S

- 4203 1928-D MS67 PCGS.** Extremely lustrous, this example displays blushes of golden-violet toning primarily across the center of the obverse. The strike is especially well executed for a '28-D, being temptingly close to a Full Head designation. This impressive Superb Gem exhibits virtually unmarked surfaces. Population: 2 in 67, 0 finer (1/13). PCGS# 5768, NGC ID# 243Y, CoinPlex ID# SLQ1928D

- 4204 1928-S MS66 Full Head PCGS.** Lustrous surfaces grace both sides of this Premium Gem displaying lovely eye appeal. Scattered areas of gold, plum-mauve, and violet toning appear. The shield rivets exhibit an incompleteness of strike. Population: 99 in 66 Full Head, 12 finer (1/13). PCGS# 5771, NGC ID# 243Z, CoinPlex ID# SLQ1928SFH

- 4205 1929-S MS66 Full Head NGC.** The brilliant surfaces of this sharply detailed Premium Gem emit blazing, intense mint luster. Full Head definition is present, but the shield rivets exhibit an incomplete strike. Census: 86 in 66 (2 in 66+) Full Head, 22 finer (1/13). NGC ID# 2444, PCGS# 5777, CoinPlex ID# SLQ1929SFH

- 4206 1929-S MS66+ Full Head PCGS. CAC.** This spectacular high-end Premium Gem displays vivid shades of burnt-orange and ice-blue toning, with vibrant mint luster and well-detailed design elements, including Full Head definition. PCGS# 5777, NGC ID# 2444, CoinPlex ID# SLQ1929SFH

**1930 Standing Liberty Quarter, MS67 Full Head  
Among the Finest Certified**

- 4207 1930 MS67 Full Head PCGS Secure.** Both sides of this Superb Gem have brilliant silver luster as expected, with no evidence of toning. The design features are fully impressed, including not only the head details but also the rivets on the shield. This example is among the finest certified by PCGS. Such opportunities do not occur with frequency, thus the Registry Set collector would do well to take advantage. Population: 31 in 67 Full Head, 0 finer (1/13). PCGS# 5779, NGC ID# 2445, CoinPlex ID# SLQ1930FH

**WASHINGTON QUARTERS**

- 4208 1932-D MS63 PCGS.** Lightly toned across each side, mostly pale blue on the obverse with apricot prevailing on the opposite side. A few light abrasions appear on each side, the reed mark off the corner of the L in LIBERTY perhaps most prominent. A pleasing coin for the grade and its key issue. PCGS# 5791, NGC ID# 2448, CoinPlex ID# WQU1932D
- 4209 1932-S MS64 PCGS. CAC.** Splashes of color on the obverse include shades of gold and light brown along with a few flecks of teal. Small areas of color appear on the reverse, particularly near 3 o'clock. A few small charcoal-colored spots appear on each side. This near-Gem from a first-year key date displays attractive luster and nice eye appeal. PCGS# 5792, NGC ID# 2449, CoinPlex ID# WQU1932S
- 4210 1935-S MS66+ PCGS. CAC.** Areas of deep toning appear along large portions of the outer edges of this high-end Premium Gem. The hues include red-brown, cherry, bright orange, and lemon along with scattered gray freckles. The obverse is immaculate and the reverse displays only inconsequential imperfections. Population: 2 in 66+, 21 finer (1/13). PCGS# 5799, NGC ID# 244E, CoinPlex ID# WQU1935S
- 4211 1935-S MS67 NGC.** Medium orange-gold and aquamarine toning visits lustrous and unabraded surfaces. The low mintage 1935-S is collectible in Mint State but Superb Gems are undeniably rare. Census: 31 in 67, none finer (1/13). NGC ID# 244F, PCGS# 5799, CoinPlex ID# WQU1935S
- 4212 1936-D MS66 PCGS. CAC.** Shining and slightly frosty, this is a primarily silver-white coin with touches of scattered flecks of gold and tan. Contact marks appear at the mintmark and the design immediately above and the top of Washington's portrait exhibits a thin horizontal die crack. PCGS has awarded numerically higher grades to only 11 examples (1/13). PCGS# 5801, NGC ID# 244H, CoinPlex ID# WQU1936D
- 4213 1937 MS67 PCGS.** Rich satin luster provides this bright Superb Gem with tremendous eye appeal. Neither major grading service has assigned a higher numeric grade to a single example (1/13). PCGS# 5803, NGC ID# 244K, CoinPlex ID# WQU1937

- 4214 1937 MS67 NGC. CAC.** Swirling luster has a subtle cartwheel effect on this lightly frosted and minimally toned Superb Gem. Great all-around eye appeal with only a few small, stray spots and marks. Neither NGC nor PCGS has graded an example of the issue as MS68 or finer (1/13). NGC ID# 244K, PCGS# 5803, CoinPlex ID# WQU1937

**1939-S Quarter, Sharp MS67  
Registry Set Prize**

- 4215 1939-S MS67 PCGS. CAC.** One of only 29 in the MS67 grade at PCGS with none finer, this 1939-S is also at the top of the heap aesthetically, with satin luster over silvery surfaces that show a mere hint of gold accentuating. Marks are essentially nil, and the strike is sharp throughout both sides. A prize for the Registry Set collectors with the added CAC endorsement. PCGS# 5810, NGC ID# 244T, CoinPlex ID# WQU1939S

**Superb Gem 1939-S Washington Quarter  
Among the Finest Certified**

- 4216 1939-S MS67 PCGS. CAC.** The 1939-S Washington quarter is a better date in the series, from a mintage of 2.6 million pieces. This impressive, well-preserved Superb Gem displays tremendous eye appeal with sharply detailed design elements and vibrant mint luster. Neither PCGS nor NGC has awarded a higher grade to one of these examples (1/13). PCGS# 5810, NGC ID# 244T, CoinPlex ID# WQU1939S
- 4217 1942 MS67 PCGS. CAC.** Areas of toning are present on this Superb Gem, primarily on the obverse. The colors include lemon, gold, fuchsia and a number of shades of green. The coin displays attractive satin luster and is virtually unabraded. A thin die crack extends down the outer portion of the eagle's right wing to the Q in QUARTER. Population: 27 in 67 (3 in 67+), 0 finer (1/13). PCGS# 5817, NGC ID# 2452, CoinPlex ID# WQU1942
- 4218 1943-S MS67 PCGS. CAC.** Large S. Light olive-gold toning endows this lustrous and magnificently preserved Superb Gem. The strike is precise aside from peripheral softness near the date and AMERICA. Only nine at the MS67 level with the CAC seal. Population: 38 in 67 (2 in 67+), 1 finer (1/13). PCGS# 5822, NGC ID# 2457, CoinPlex ID# WQU1943S
- 4219 1944 MS67 PCGS.** Splashes of russet, rose, and sea-green color cover portions of both sides of this bright Superb Gem exhibiting frosty luster. This is a lovely representative. Population: 58 in 67 (1 in 67+), 0 finer (1/13). PCGS# 5824, NGC ID# 2458, CoinPlex ID# WQU1944

**4220 1944-D MS67 PCGS. CAC.** A gorgeous representative, this Superb Gem displays brilliant silver-white surfaces. The lustrous coin displays a crisp strike. A thin horizontal die crack appears at the top of Washington's head and another die crack appears at the outer edge of the eagle's right wing. Population: 84 in 67 (6 in 67+), 1 finer (1/13). PCGS# 5825, NGC ID# 2459, CoinPlex ID# WQU1944D

**4221 1944-S MS67 PCGS. CAC.** Large S. A hint of golden patina visits this lustrous Superb Gem. Only trivial grazes are present. The centers are intricate while the lower obverse and upper reverse peripheries show softness. PCGS# 5826, NGC ID# 245A, CoinPlex ID# WQU1944S

**4222 1945 MS67 PCGS.** Attractively struck, this Superb Gem is primarily brilliant on both sides although faint hints of light green color appear on portions of the obverse. Rich luster adds to the eye appeal of this lovely coin. Population: 18 in 67, 1 finer (1/13). PCGS# 5827, NGC ID# 245B, CoinPlex ID# WQU1945

**4223 1950-D MS67 PCGS.** Hints of caramel and pale-green appear on both sides of this lustrous Superb Gem. The coin displays an attractive strike, with a thin die crack appearing at the base of Washington's neck. Population: 41 in 67 (1 in 67+), 0 finer (1/13). PCGS# 5842, NGC ID# 245T, CoinPlex ID# WQU1950D

**4224 1954-S MS67 PCGS.** A well-struck example retaining brilliant, lustrous surfaces, this piece exhibits pleasing eye appeal. The few abrasions present are minor. This is a lovely representative. Population: 42 in 67 (1 in 67+), 1 finer (1/13). PCGS# 5857, NGC ID# 22FU, CoinPlex ID# WQU1954S

**4225 1954-S MS67 PCGS. CAC.** Toning, in intermingled shades of bright-orange, russet, and cherry, covers large portions of the obverse while the reverse remains largely free of color. The reverse displays an incompleteness of strike, particularly at the outer edges, along with a couple of thin die cracks. Population: 42 in 67 (1 in 67+), 1 finer (1/13). PCGS# 5857, NGC ID# 22FU, CoinPlex ID# WQU1954S

#### Conditional Rarity 1960 Quarter, MS67

**4226 1960 MS67 PCGS.** Most of the late silver Washington quarter issues after 1955 were high-mintage affairs, with Philadelphia making fewer than Denver but both making many millions of coins per year. Most are poorly struck and/or extensively bagmarked, precluding the Superb Gem grade (and often several grades below that). This happy exception shows quicksilver surfaces with blazing luster and only a single mentionable field graze near the L of LIBERTY. Population: 9 in 67, 0 finer (1/13). PCGS# 5868, NGC ID# 246K, CoinPlex ID# WQU1960

**4227 1996-P MS68 PCGS.** A brilliant and coruscating conditional rarity from the waning years of the Flanagan reverse design. The strike is unimprovable and any contact is microscopic. Population: 53 in 68, 0 finer (1/13). PCGS# 5960, NGC ID# 248R, CoinPlex ID# WQU1996P

## PROOF WASHINGTON QUARTERS

**4228 1936 PR65 PCGS. CAC.** This Gem displays rich luster and lovely eye appeal. Hints of toning are present, primarily on the reverse. This is an attractive representative of the first year of issue for proof Washington quarters. PCGS# 5975, NGC ID# 27HN, CoinPlex ID# WQP1936

#### 1950 Quarter, PR68 Cameo Well-Contrasted, Superbly Preserved

**4229 1950 PR68 Cameo PCGS.** Perceptible field-device contrast is sufficient for a Cameo designation on this Washington quarter proof. The contrast alone would separate this piece from most of the issue, but the incredible surface preservation increases the distance between this PR68 piece and most other survivors. The silver-white surfaces are untoned otherwise. Population: 4 in 68 Cameo, 0 finer (1/13). PCGS# 85982, NGC ID# 27HW, CoinPlex ID# WQP1950CA

#### 1951 Quarter, Lightly Toned PR68 Cameo

**4230 1951 PR68 Cameo PCGS.** Only a breath of toning appears on the surfaces of this stunningly preserved 1951 quarter, light gold in portions of the obverse fields and pale rose at part of the reverse rim. There are simply no observable marks, even under magnification, and considerable field-device contrast yielding the Cameo designation. Population: 5 in 68 Cameo, 0 finer (1/13). PCGS# 85983, NGC ID# 27HX, CoinPlex ID# WQP1951CA

**4231 1976-S Silver PR70 Deep Cameo PCGS.** Ice-white devices rise above glassy fields. Brilliant and beautiful with a full strike and unimprovable cameo contrast. Jack L. Ahr was credited with the reverse design, though the drummer motif was loosely based on the Archibald Willard painting "Spirit of '76." Population: 49 in 70 Deep Cameo (12/12). PCGS# 96008, NGC ID# 27JG, CoinPlex ID# WQP1976SSILVDC

## PROOF STATEHOOD QUARTER

**4232 1999-S Delaware Silver PR70 Ultra Cameo NGC.** The fields are so deeply mirrored, that held at the right angle and examined closely, the obverse almost appears to display images of a horse in motion as found in the pages of a flip book. The strike is precise and the surfaces pristine on this numerically perfect example. This is a wonderful piece for collectors who seek only the best. NGC ID# 27M8, PCGS# 96043, CoinPlex ID# QQP1999SDESILVDC

## WALKING LIBERTY HALF DOLLARS

- 4233 1916 MS65 PCGS.** Lustrous and sharply struck with exceptionally unabraded, original surfaces. A few minute gray obverse flecks are noted over medium stone-gray and caramel-gold toning. Housed in a first generation holder.

Ex: *Charlotte ANA Signature (Heritage, 3/2003)*, lot 5991; *Rosemont Central States Signature (Heritage, 4/2011)*, lot 4394, which realized \$1,955. PCGS# 6566, NGC ID# 24PL, CoinPlex ID# WLM1916

- 4234 1916 MS65 PCGS.** Areas of gray, gold, and green patina serve to highlight large portions of the devices on this pleasing Gem. A few splashes of red also appear. The lower left portion of the gown exhibits a few small reed marks. PCGS# 6566, NGC ID# 24PL, CoinPlex ID# WLM1916

- 4235 1916-D MS64+ PCGS. FS-501.** The mintmark is repunched southeast. This variety is seen on only a small percentage of 1916-D halves despite the relatively low mintage of the issue. A well struck and lustrous stone-gray near-Gem with apple-green and russet margins. PCGS# 6567, NGC ID# 24PM, CoinPlex ID# WLM1916D

- 4236 1916-S AU58 PCGS. CAC.** This well-detailed near-Mint specimen shows some separation between Liberty's thumb and finger and retains much of its original mint luster, under hints of pale gold toning. PCGS# 6568, NGC ID# 24PN, CoinPlex ID# WLM1916S

- 4237 1917 MS65 PCGS. CAC.** Light caramel-gold patina visits this lustrous and sharply struck Gem. Refreshingly free from abrasions, and scarce in the present grade despite a healthy mintage of 12,292,000 pieces. Encapsulated in a first generation holder. PCGS# 6569, NGC ID# 24PR, CoinPlex ID# WLM1917

- 4238 1917-D Obverse MS64 PCGS.** This Choice better date half dollar has light to medium golden-gray obverse toning. The left reverse displays deeper russet shades though the front wing is only moderately patinated. PCGS# 6570, NGC ID# 24PR, CoinPlex ID# WLM1917DOBV

- 4239 1917-D Obverse MS64 PCGS.** Coruscating luster sweeps the light olive-gold surfaces of this nicely struck early branch mint near-Gem. A few small reed marks appear in the obverse field at right, but the coin displays few abrasions. This is a well-preserved example and is an excellent value relative to higher grades. PCGS# 6570, NGC ID# 24PR, CoinPlex ID# WLM1917DOBV

- 4240 1917-D Obverse MS64 NGC.** The obverse of this near-Gem displays a variety of brilliant colors covering a large portion of the outer edge, including shades of russet, cherry, teal, bright orange, lime, and vibrant forest-green. Areas of subtle gold and peach toning appear on the reverse. This is a lovely example. NGC ID# 24PR, PCGS# 6570, CoinPlex ID# WLM1917DOBV

- 4241 1917-D Reverse AU58 PCGS. CAC.** One of the most challenging grades for any collection is AU58 and a complete set of Walking Liberty half dollars in that grade would be a major accomplishment. This piece is lustrous and brilliant with white surfaces and subliminal toning. PCGS# 6571, NGC ID# 24PS, CoinPlex ID# WLM1917DREV

### 1917-D Reverse Half Dollar, MS64 Moderately Toned

- 4242 1917-D Reverse MS64 PCGS.** Generous luster rests under a moderate layer of copper-amber patina with aqua accents near the rims, more prevalent on the obverse while the reverse shows some untuned area remaining in the center. Despite a larger mintage, the 1917-D Reverse Mintmark is more elusive in higher grades than the 1917-D Obverse Mintmark coin. PCGS has seen only 42 finer than the present near-Gem (1/13). PCGS# 6571, NGC ID# 24PS, CoinPlex ID# WLM1917DREV

### Near-Gem 1917-D Reverse Half Light Patina and Sharp Strike

- 4243 1917-D Reverse MS64 NGC.** Few marks of any import appear on the surfaces of this near-Gem 1917-D Reverse Mintmark half, which furthers boasts a sharp strike and attractive moderate patina, a sprinkling of gold, pink, copper, and russet hues. The Gem level is elusive for this issue, where PCGS has seen only 42 submissions (1/13). NGC ID# 24PS, PCGS# 6571, CoinPlex ID# WLM1917DREV

- 4244 1917-S Obverse AU58 PCGS. CAC.** Although San Francisco struck more than 6.5 million halves in 1917, most bore the mintmark on the reverse. Fewer than 1 million pieces were coined prior to the changeover in mintmark position. This Borderline Uncirculated example retains luster. Areas of gray and moss-green patina are largely confined to the reverse. PCGS# 6572, NGC ID# 24PT, CoinPlex ID# WLM1917SOBV

### 1917-S Reverse Half Dollar, Lightly Toned MS64

- 4245 1917-S Reverse MS64 PCGS.** The surfaces are still mostly untuned and satiny with a lavender crescent of color on the obverse, gold-amber on the reverse. This near-Gem 1917-S Reverse half dollar is a tad softly struck through the center but shows only a scattering of small abrasions, consistent with the grade. PCGS has seen only 51 submissions finer than this piece (1/13). PCGS# 6573, NGC ID# 24PU, CoinPlex ID# WLM1917SREV

**Reverse Mintmark 1917-S Half, MS64  
Partial Split Thumb on Liberty**

- 4246 1917-S Reverse MS64 PCGS. CAC.** The pinkish-silver centers on each side of this near-Gem cede to deep charcoal-gray color near the rims. The satiny surfaces are well-struck with a partial split thumb and offer excellent eye appeal, despite a scattering of small marks that are in accord with the grade. PCGS has seen only 51 grading events finer (1/13). PCGS# 6573, NGC ID# 24PU, CoinPlex ID# WLM1917SREV

**Choice 1918-S Walking Liberty Half  
Rare Issue in Higher Grades**

- 4251 1918-S MS64 NGC.** The 1918-S Walking Liberty half dollar is much more difficult to locate in high grade than its mintage of 10.2 million pieces would suggest. This delightful Choice example is well-struck, with just a touch of the typical softness on the central obverse and the eagle's leg. Both sides radiate vibrant mint luster, with a few hints of pale gold toning and ample eye appeal. NGC ID# 24PX, PCGS# 6576, CoinPlex ID# WLM1918S

**Satiny Gem 1918 Half Dollar**

- 4247 1918 MS65 PCGS.** The 1918 Walking Liberty more elusive than generally thought at the Gem level of preservation. This piece is nicely struck with a partial split thumb on Liberty and satiny surfaces with a dab of copper color in the fields on each side, while most of the rest remains silver-gray. Population: 95 in 65, 8 finer (1/13). PCGS# 6574, NGC ID# 24PV, CoinPlex ID# WLM1918

**Border-Toned MS64+ 1918-S Half Dollar**

- 4252 1918-S MS64+ PCGS.** Strongly toned orange and reddish-brown around the entire reverse margins and the bottom half of the obverse. Softly shimmering silver centers show significant striking softness, particularly on the reverse, but only a graze in the right obverse field precludes full Gem status. PCGS has graded just 32 pieces as MS65 or finer (1/13). PCGS# 6576, NGC ID# 24PX, CoinPlex ID# WLM1918S

- 4248 1918-D AU58 PCGS. CAC.** Flecks of gray patina appear primarily at the upper portion of the obverse on this near-Mint example. Brilliant luster remains, especially on the reverse. Wear is confined to the high points and the only surface mark worthy of mention appears at the elbow of Liberty's outstretched arm. PCGS# 6575, NGC ID# 24PW, CoinPlex ID# WLM1918D

- 4249 1918-D AU58 PCGS. CAC.** Satiny mint luster shines through layers of gray and golden-brown patina on this attractive near-Mint example. The design elements are well-struck, with noticeable separation between Liberty's thumb and finger on the wreath hand. PCGS# 6575, NGC ID# 24PW, CoinPlex ID# WLM1918D

- 4250 1918-S MS63 PCGS. CAC.** Attractively toned, the obverse displays splashes of varying shades of yellow, orange, fuchsia, and lilac along with a few tiny flecks of deep powder-blue, violet, and aquamarine. The variety of colors spread across the majority of the surface provides tremendous eye appeal whether viewed from a distance or examined closely. Gold, gray, and silver are the predominant colors on the reverse. PCGS# 6576, NGC ID# 24PX, CoinPlex ID# WLM1918S

**1919 Walking Liberty Half, MS64+  
Well-Detailed Example**

- 4253 1919 MS64+ PCGS. CAC.** The 1919 Walking Liberty half dollar is an elusive date in the early series, from a small mintage of 962,000 pieces. This high-end Choice example is especially well-struck, with clear separation between Liberty's thumb and finger and much emerging detail on the eagle's leg. Satiny mint luster shines through a thin layer of pale gold and pink toning. PCGS# 6577, NGC ID# 24PY, CoinPlex ID# WLM1919

- 4254 1920 MS64 PCGS. CAC.** Small, scattered splashes of golden-brown color appear on both sides of this near-Gem that exhibits vibrant luster. A few small abrasions, consistent with the grade, appear on each side. PCGS# 6580, NGC ID# 24R3, CoinPlex ID# WLM1920

**1920 Walking Liberty Half, MS65  
Thick Mint Frost**

- 4255 1920 MS65 PCGS.** Bright and lustrous surfaces display a light tan area on the starred portion of the flag. The strike is typical for this date, with the thumb partially defined and most of the skirt lines present. A small milling mark occurs on Liberty's abdomen, and a couple of other marks are seen on the breast area. Population: 82 in 65 (2 in 65+), 14 finer (1/13).  
*Ex: FUN Signature (Heritage, 1/2005), lot 7612; ANA Signature (Heritage, 7/2005), lot 6417. PCGS# 6580, NGC ID# 24R3, CoinPlex ID# WLM1920*

- 4256 1920-S MS62+ NGC.** Light golden-tan and gunmetal toning enriches the borders of this lustrous better date half dollar. The strike is typical but the surfaces are refreshingly free from abrasions. NGC ID# 24R5, PCGS# 6582, CoinPlex ID# WLM1920S

**1920-S Walking Liberty Half, MS64  
Lustrous, Upper-End Example**

- 4257 1920-S MS64 PCGS.** CAC. Occasional splashes of olive-green and reddish gold toning are seen on the borders of this near-Gem S-mint Walker. Lustrous surfaces exhibit relatively well-struck design elements, with partial definition apparent on the thumb of Liberty's branch hand. A few unobtrusive marks preclude Gem classification.  
*Ex: ANA Signature (Heritage, 7-8/2008), lot 656; ANA Signature (Heritage, 8/2010), lot 4178. PCGS# 6582, NGC ID# 24R5, CoinPlex ID# WLM1920S*

**AU 1921-D Half Dollar  
Well-Preserved Surfaces**

- 4258 1921-D AU50 PCGS.** Light rub on the high points is to be expected at this grade level, but this 1921-D half dollar shows no singular or heavy marks on the surfaces. The satiny texture and silver color with just a hint of pinkish patina would enable this piece to fit nicely into a largely Mint State collection. PCGS# 6584, NGC ID# 24R7, CoinPlex ID# WLM1921D

- 4259 1923-S AU55 PCGS Secure.** CAC. A few small splashes of gold and brown toning appear on this example, primarily at the outer edges of the obverse. The central skirt lines and other high points exhibit light wear. The coin has pleasing eye appeal. PCGS# 6586, NGC ID# 24R9, CoinPlex ID# WLM1923S

**Well-Struck 1927-S Half Dollar, MS64**

- 4260 1927-S MS64 PCGS.** CAC. The gently glowing surfaces of this pleasing near-Gem example show soft, satin luster with powder-gray color yielding to light iridescent hues in the right obverse field. This is a well-struck example with a partial split thumb and good detailing overall. PCGS has graded only 65 coins at the Gem level (1/13). PCGS# 6587, NGC ID# 24RA, CoinPlex ID# WLM1927S

- 4261 1929-D MS62 PCGS.** Gold CAC. Nicely struck and lustrous with dusky tan-gray toning and a few minor marks on the right obverse field. A better date Denver issue, certified in a first generation holder. PCGS# 6589, NGC ID# 24RC, CoinPlex ID# WLM1929D

**1929-D Walking Liberty Half, MS65  
Strongly Struck Example**

- 4262 1929-D MS65 NGC.** CAC. Even though only 1 million half dollars were struck in Denver in 1929, there was little need for them in the channels of commerce. As a result, a fair number have been preserved in relatively high grades. This is a strongly struck example whose strike is comparable to some issues from the 1940s. The mint luster is bright and satiny, and each side has a slight accent of golden toning around the rims. Census: 79 in 65 (2 in 65+), 16 finer (1/13). NGC ID# 24RC, PCGS# 6589, CoinPlex ID# WLM1929D

- 4263 1929-S MS63 PCGS.** Medium olive-gray toning embraces the obverse, and is joined on the reverse with blushes of deeper gunmetal shades. A satiny and minimally abraded example with a good strike for the issue. Housed in a first generation holder. PCGS# 6590, NGC ID# 24RD, CoinPlex ID# WLM1929S

- 4264 1934 MS67 PCGS.** CAC. Areas of tan, olive, and bright orange color appear primarily at the outer edges of the obverse. The reverse includes a few small specks of brown color. The design elements exhibit strong detail on both sides of this lustrous example. PCGS has awarded higher numeric grades to only 8 examples (1/13). PCGS# 6592, NGC ID# 24RF, CoinPlex ID# WLM1934

- 4265 1935-D MS65 NGC.** This Great Depression half dollar exhibits lovely lemon-gold and orange toning along the left borders. Highly lustrous though Liberty's cheek and branch hand show softness. Minor contact is noted on the rim above STATES. Certified in a former generation holder. NGC ID# 24RK, PCGS# 6596, CoinPlex ID# WLM1935D

- 4266 1935-D MS65 PCGS.** Straw-gold and powder-blue shades enrich this highly lustrous and carefully preserved half dollar. The skirt lines are well struck. Encapsulated in an old green label holder. PCGS# 6596, NGC ID# 24RK, CoinPlex ID# WLM1935D
- 4267 1935-S MS64 PCGS. CAC.** A wisp of tan toning visits otherwise brilliant surfaces. Well preserved and lustrous with expected incompleteness of strike on the high points. The 1935-S is the scarcest of the three issues for the date. PCGS# 6597, NGC ID# 24RL, CoinPlex ID# WLM1935S
- 4268 1937-S MS66+ PCGS. CAC.** Yellow and golden-orange toning covers large portions of the obverse on this high-end Premium Gem. Splashes of crimson, green, and light teal also appear. The brilliant reverse is almost entirely free of toning. Only 25 examples have received higher numeric grades from PCGS (1/13). PCGS# 6603, NGC ID# 24RT, CoinPlex ID# WLM1937S

**1937-S Half Dollar, MS67  
Impeccable Surface Preservation**

- 4269 1937-S MS67 PCGS.** This frosted Superb Gem 1937-S half dollar displays a bold strike amid surfaces that are largely untoned, save for a thin accent of pinkish-gold near the rims. The surface preservation is impeccable, making this piece among the finest survivors at PCGS. Population: 25 in 67, 0 finer (1/13). PCGS# 6603, NGC ID# 24RT, CoinPlex ID# WLM1937S

**Superb Gem 1937-S Half Dollar  
Lightly Toned at the Borders**

- 4270 1937-S MS67 PCGS. CAC.** Bright and slightly frosted luster remains primarily silver but has hints of green-gold that are most visible along the margins. A few areas of die-polish brilliance hug the eagle's form on the reverse of this well-struck and carefully preserved Superb Gem. Population: 25 in 67, 0 finer (1/13). PCGS# 6603, NGC ID# 24RT, CoinPlex ID# WLM1937S
- 4271 1938 MS67 PCGS. CAC.** Peach-toned at the rims with near-silver centers that show considerable, though not overwhelming luster. Liberty's hand is well-defined, though only the ghost of a thumb appears on the branch hand. Population: 68 in 67 (1 in 67+), 1 finer (1/13). PCGS# 6604, NGC ID# 24RU, CoinPlex ID# WLM1938
- 4272 1938-D MS65+ PCGS. CAC.** Splashes of vibrant toning appear at the outer edges of both sides of this bright, lustrous example that displays attractive detail. The colors on this high-end Gem include hues of orange, sage, fuchsia, teal, lime-green, cherry, bright orange, mint-green, violet, and lemon. PCGS# 6605, NGC ID# 24RV, CoinPlex ID# WLM1938D

- 4273 1938-D MS66 NGC.** Blushes of rose toning visit the right obverse and reverse of this otherwise silver-gray Premium Gem. The coin exhibits attractive luster, though the central devices display the typical softness. NGC has assigned higher numeric grades to only 17 examples (1/13).  
*Ex: Rosemont Central States (Heritage, 4/2008), lot 1509.* NGC ID# 24RV, PCGS# 6605, CoinPlex ID# WLM1938D
- 4274 1939 MS67+ PCGS.** Delicate blue tints against silver surfaces grow more prominent on the subtly frosted reverse, which adds occasional hints of yellow. The strike, luster, and preservation are equally impressive on this notable piece. PCGS has graded only 25 coins as MS68 or finer (1/13). PCGS# 6606, NGC ID# 24RW, CoinPlex ID# WLM1939
- 4275 1939-S MS67 PCGS.** Subtle hints of color, including a few spots of toning primarily near the top of the reverse, appear on this brilliant Superb Gem. Neither PCGS nor NGC has awarded a higher numeric grade to a single example (1/13). PCGS# 6608, NGC ID# 24RY, CoinPlex ID# WLM1939S
- 4276 1941 MS67+ PCGS. CAC.** Faint creamy toning with hints of caramel-gold color surrounds large areas of both sides of this high-end Superb Gem. A solid strike imparts sharp detail to the design elements. This is one of only 15 PCGS-graded examples at the 67+ level, with 14 finer (1/13). PCGS# 6611, NGC ID# 24S3, CoinPlex ID# WLM1941
- 4277 1941-S MS66 NGC.** The scarcest regular issue from the 1940s, the 1941-S is infrequently encountered with both attractive peripheral toning and booming cartwheel luster. The present high grade example has golden-brown margins and an above average strike for the issue. NGC ID# 24S5, PCGS# 6613, CoinPlex ID# WLM1941S
- 4278 1941-S MS66 PCGS. CAC.** Shimmering brilliance appears on both sides of this nicely struck example. This Premium Gem exhibits a few subtle hints of color and displays minimal abrasions. Only 6 pieces have been awarded higher numeric grades by PCGS (1/13). PCGS# 6613, NGC ID# 24S5, CoinPlex ID# WLM1941S
- 4279 1941-S MS66 PCGS. CAC.** Generous satin-frosted luster is eye-catching on this faintly gold-tinged Premium Gem. Solid preservation, though only a hint of Liberty's thumb is visible on the branch hand. PCGS has graded just six pieces as MS67 or finer (1/13). PCGS# 6613, NGC ID# 24S5, CoinPlex ID# WLM1941S
- 4280 1942-S MS66+ PCGS. CAC.** Trumpet tail S. This brilliant half dollar offers booming luster, and the strike is good given its San Francisco origin. Nearly pristine except for a single slender obverse mark near 9:30. PCGS# 6617, NGC ID# 24S8, CoinPlex ID# WLM1942S
- 4281 1942-S MS66+ PCGS. CAC.** Trumpet tail S. Golden-russet toning embraces the borders of this nearly pristine and thoroughly lustrous World War II Walker. The strike is incomplete but that is that limits the grade. PCGS# 6617, NGC ID# 24S8, CoinPlex ID# WLM1942S
- 4282 1942-S MS66+ PCGS. CAC.** Trumpet tail S. Light gold toning visits this otherwise brilliant high grade half dollar. Lustrous and virtually immaculate with bold skirt lines and the expected incompleteness on Liberty's head and branch hand. PCGS# 6617, NGC ID# 24S8, CoinPlex ID# WLM1942S
- 4283 1944-S MS66+ PCGS. CAC.** Large S. An essentially brilliant high grade wartime Walker that boasts vibrant luster and a pristine appearance. The skirt lines are well defined though the branch hand is softly brought up. PCGS# 6623, NGC ID# 24SE, CoinPlex ID# WLM1944S
- 4284 1945-S MS67 NGC.** Knob S. Light caramel-gold toning is consistent across both sides of this lustrous and well preserved Walking Liberty half. The strike is above average for the San Francisco issue though the branch hand is softly brought up. Census: 25 in 67, 0 finer (1/13). NGC ID# 24SH, PCGS# 6626, CoinPlex ID# WLM1945S

- 4285 1946 Doubled Die Reverse MS64 PCGS. FS-801.** Obvious die doubling is evident on E PLURIBUS UNUM and the eagle's plumage. A Choice example of this *Guide Book* variety. Lustrous and well preserved with iridescent honey-gold, sky-blue, and lilac toning. Population: 61 in 64, 21 finer (1/13). PCGS# 6632, CoinPlex ID# WLM1946DDR

## PROOF WALKING LIBERTY HALF DOLLARS

### Gem Proof 1936 Walking Liberty Half Mintage 3,901 Specimens

- 4286 1936 PR65 NGC.** While the mirrors are not so strong on this Gem as on certain other proofs of this "rebound" year, proof status is undeniable thanks to the crisp detail on Liberty's hand and the eagle's feathers plus the sharply squared rims. Watery silver fields have a few faint suggestions of blue, gold, and gray. NGC ID# 27V4, PCGS# 6636, CoinPlex ID# WLP1936

### 1936 Half Dollar, Fully Struck PR65

- 4287 1936 PR65 PCGS. CAC.** The first-year proofs of the "modern era," the 1936 cent through half dollar issues, are perennially popular, none more so than the 1936 Walking Liberty half, the largest and, to many eyes, the most beautiful as well of the five designs. This silvery Gem proof half dollar has light rim accents of rose but is largely untoned, showing little contrast and no mentionable contact marks on boldly struck surfaces. PCGS# 6636, NGC ID# 27V4, CoinPlex ID# WLP1936

### Premium Gem 1936 Walking Liberty Half Prominently Patinated

- 4288 1936 PR66 PCGS. CAC.** Through significant gold and blue-gray patina this Premium Gem offers persistent chromelike luster. Design detail is excellent and the preservation decidedly above-average. Only 3,901 specimens were struck for the issue and PCGS has graded only 23 of those as PR67 or better (1/13). PCGS# 6636, NGC ID# 27V4, CoinPlex ID# WLP1936

### 1936 Half Dollar, PR66 Delicate Contrast

- 4289 1936 PR66 NGC. CAC.** A remarkable Premium Gem proof, this 1936 Walker represents the debut of proof coins for the series, save for a handful of early matte proofs that few collectors have even heard of, let alone seen. This piece has delicate contrast between its boldly defined devices and fully mirrored fields, with no toning on either side. NGC ID# 27V4, PCGS# 6636, CoinPlex ID# WLP1936

### 1936 Walking Liberty Half Dollar Reflective Premium Gem Proof

- 4290 1936 PR66 PCGS. CAC.** This is a highly reflective but low-contrast example of the 1936 Walking Liberty half, a typical appearance for this popular issue, with completely brilliant surfaces on each side. The Premium Gem grade is attested to by the sharp strike and lack of noticeable contact. Higher-grade pieces are quite elusive; PCGS has seen only 23 finer (1/13). PCGS# 6636, NGC ID# 27V4, CoinPlex ID# WLP1936

- 4291 1937 PR67 PCGS.** Silver and gold iridescence at the interiors yields to deep yellow-green at the rims with sage patches around parts of the reverse. The detail is crisp on the obverse as usual, though the eagle's front leg shows the softness that is inevitable even on proofs. PCGS# 6637, NGC ID# 27V5, CoinPlex ID# WLP1937

- 4292 1937 PR67 PCGS. CAC.** The toning and reflectivity share prominence on this pleasingly preserved Superb Gem proof. The coin's essential gleam lights up patina that is gold on the interiors with pale blue at the borders. PCGS# 6637, NGC ID# 27V5, CoinPlex ID# WLP1937

- 4293 1938 PR67 PCGS.** Iridescent almond-gold and ice-blue tints embrace this pristine and razor-sharp proof Walker. The motifs display light frost and demonstrate moderate contrast with the mirrored fields. PCGS# 6638, NGC ID# 27V6, CoinPlex ID# WLP1938

- 4294 1938 PR67 NGC.** Minuscule flecks of color appear on this brilliant, highly reflective Superb Gem. The surfaces are pristine. Only the fingers of the branch hand exhibit incompleteness. This is a very pleasing representative. NGC ID# 27V6, PCGS# 6638, CoinPlex ID# WLP1938

**PR68 1941 Walking Liberty Half  
Toned Obverse, Blazing Reverse**

**4295 1941 PR68 NGC.** The obverse has significant overtoning with gauzy gold-to-gray overall and a small but prominent area of claret at the top reverse that overlaps with the rim and edge reeding. On the reverse, by contrast, the chromelike luster is on full-blast through a faint veil of canary-yellow. A carefully preserved eye-catcher. NGC ID# 24SP, PCGS# 6641, CoinPlex ID# WLP1941

**4296 1942 PR67 PCGS. CAC.** Considerable reflectivity on both sides, more so the obverse, despite a distinct coat of faintly tinged patina. A patch of golden-brown and rosewood patina stretches between the L and I of LIBERTY at the left rim. PCGS# 6642, NGC ID# 27V9, CoinPlex ID# WLP1942

## FRANKLIN HALF DOLLARS

**4297 1949-S MS65 Full Bell Lines Prooflike NGC.** In the days before Full Bell Lines became important to collectors, the 1949-S was considered the key to the series. It remains a scarce and popular low-mintage issue. This sharply struck Gem has appreciably reflective, near-brilliant fields. Marks are minimal, and the eye appeal is substantial.  
*From The Atlanta Collection.* NGC ID# 24SV, PCGS# 86655, CoinPlex ID# FHM1949SFBL

**4298 1950-D MS66 Full Bell Lines PCGS.** Thick, swirling mint luster rolls around each side of this coin as it is rotated underneath a light. The obverse is brilliant, while the reverse displays a slight accent of golden color. This is a clean, problem-free example with strong definition on the bell lines. Population: 54 in 66 (3 in 66+) Full Bell Lines, 0 finer (1/13). PCGS# 86657, NGC ID# 24SX, CoinPlex ID# FHM1950DFBL

**4299 1950-D MS66 Full Bell Lines NGC.** Rich satin luster emanates from both sides of this Premium Gem. Hints of peach and gold appear on both sides. A small reed mark is present near Franklin's chin. Census: 7 in 66 Full Bell Lines, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24SX, PCGS# 86657, CoinPlex ID# FHM1950DFBL

**4300 1954-S MS66 Full Bell Lines PCGS.** Booming luster sweeps across this boldly impressed and well-preserved representative with faint partial olive-gold toning on otherwise silver surfaces. Conditionally rare so fine. Population: 78 in 66 (2 in 66+) Full Bell Lines, 1 finer (1/13).  
*Ex: San Francisco ANA Signature (Heritage, 7/2005), lot 6486; Summer FUN Signature (Heritage, 7/2010), lot 4024.*  
*From The Atlanta Collection.* PCGS# 86669, NGC ID# 24TB, CoinPlex ID# FHM1954SFBL

**4301 1958-D MS67 ★ NGC.** The rich toning that engulfs this well-struck, lustrous example includes iridescent shades of deep cherry, orange, pink, lime-green, and bright kelly-green on the obverse with a full array of stunning iridescent rainbow color present on the reverse. A few small reed marks appear on the Liberty Bell. Census: 11 in 67 ★, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24TH, PCGS# 6675, CoinPlex ID# FHM1958D

**4302 1958-D MS67 Full Bell Lines NGC.** A medley of lime-green, orange-gold, and crimson patination blankets the obverse of this Superb Gem and resides on large portions of the reverse that also includes areas of teal color. The sharply struck design elements culminate in Full Bell Lines. Census: 15 in 67 Full Bell Lines, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24TH, PCGS# 86675, CoinPlex ID# FHM1958DFBL

**4303 1958-D MS67 Full Bell Lines PCGS. CAC.** Original mint set toning is obvious on this attractive, well-preserved half dollar. Each side displays variegated rose and lilac toning. What is curious about the toning is it is evenly distributed on each side; usually mint set toning is heavier on one side. The underlying mint luster is especially strong and there are no mentionable abrasions. Population: 28 in 67 Full Bell Lines, 0 finer (1/13). PCGS# 86675, NGC ID# 24TH, CoinPlex ID# FHM1958DFBL

**4304 1959-D MS66 Full Bell Lines NGC.** Attractive pale yellow toning with splashes of orange, russet, and red covers both sides of this Premium Gem creating an attractive look. Scattered charcoal-colored freckles also appear. Census: 18 in 66 Full Bell Lines, 1 finer (1/13). NGC ID# 24TK, PCGS# 86677, CoinPlex ID# FHM1959DFBL

**4305 1962 MS65 Full Bell Lines PCGS.** The all-important lower bell lines are complete on this lustrous Gem Franklin half dollar. The mostly brilliant surfaces display a few hints of gold toning providing outstanding eye appeal. Only 4 numerically finer FBL examples have been graded by PCGS (1/13). PCGS# 86682, NGC ID# 24TR, CoinPlex ID# FHM1962FBL

## PROOF FRANKLIN HALF DOLLARS

**4306 1950 PR67 NGC.** A lovely Superb Gem representative from the first proof Franklin half dollar issue, this example displays brilliant silver surfaces. The piece is minimally abraded and quite attractive. NGC has awarded higher numeric grades to only two examples (1/13). NGC ID# 27VA, PCGS# 6691, CoinPlex ID# FHP1950

### 1950 PR66 Cameo Half Dollar Series Key

**4307 1950 PR66 Cameo NGC.** Between 1950 and 1970 proof dies were not sandblasted or chrome plated, and frosted cameo proofs were more difficult to produce. The 1950 has long been recognized as a key to the series. Brilliant overall, except for a faint accent of golden at the top of the obverse, the devices are noticeably white against the deeply mirrored proof fields. An exceptional, high-grade 1950 proof. Census: 48 in 66 (1 in 66+) Cameo, 9 finer (1/13). NGC ID# 27VA, PCGS# 86691, CoinPlex ID# FHP1950CA

**Premium Gem Proof 1950 Franklin Half  
Seldom Encountered Cameo Specimen**

- 4308 1950 PR66 Cameo NGC.** Proof production of half dollars resumed in 1950, after an eight-year gap, with a mintage of 51,386 pieces. Few examples can match the technical quality and eye appeal of this spectacular Premium Gem, with deeply mirrored fields and richly frosted devices that yield profound cameo contrast. Census: 48 in 66 (1 in 66+) Cameo, 9 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 27VA, PCGS# 86691, CoinPlex ID# FHP1950CA

- 4309 1951 PR67 Cameo PCGS.** A beautifully preserved Superb Gem, this example displays moderate contrast between the richly mirrored fields and the devices. Neither NGC nor PCGS has graded a numerically finer Cameo example, with PCGS having graded a total of only 7 at the 67 Cameo level (1/13). PCGS# 86692, NGC ID# 27VB, CoinPlex ID# FHP1951CA

- 4310 1952 PR67 Cameo PCGS. CAC.** Deeply mirrored fields, with areas of toning, accent the lightly frosted devices on this Superb Gem. The toning on the obverse includes shades of russet, burnt-orange, and forest-green. Violet, gray, and orange shades appear on the reverse. The Liberty Bell displays bold details. Population: 29 in 67 Cameo, 1 finer (1/13). PCGS# 86693, NGC ID# 27VC, CoinPlex ID# FHP1952CA

**1952 Franklin Half, PR66 Ultra Cameo  
Deeply Contrasted and Lightly Toned**

- 4311 1952 PR66 Ultra Cameo NGC.** Deep cameo contrast between fields and devices over silvery surfaces complements the thin ring of intermittent rose-copper color on each side. The deep contrast puts this piece into a distinct minority, but there are few marks for the grade as well. Census: 6 in 66 (1 in 66+) Ultra Cameo, 4 finer (1/13). NGC ID# 27VC, PCGS# 96693, CoinPlex ID# FHP1952DC

- 4312 1953 PR67 Cameo NGC.** Icy motifs contrast with glassy fields. Brilliant at the centers though the borders offer golden-brown and forest-green toning. Elusive on high grade with blatant cameo contrast.  
*Ex: Atlanta Signature (Heritage, 8/2001), lot 6356.* NGC ID# 27VD, PCGS# 86694, CoinPlex ID# FHP1953CA

- 4313 1953 PR68 Cameo NGC.** Untoned with deep reflectivity and moderate frost that add up to Cameo-worthy contrast. A quality specimen. Census: 27 in 68 Cameo, 0 finer (1/13).  
*Ex: FUN Signature (Heritage, 1/2009), lot 6070.*  
*From The Atlanta Collection.* NGC ID# 27VD, PCGS# 86694, CoinPlex ID# FHP1953CA

- 4314 1954 PR68 Cameo PCGS.** Most 1954 halves display minimal cameo contrast, but the present high grade specimen has icy devices and legends. The glassy fields are untuned. An exceptional example of the issue. Certified in a green label holder. PCGS# 86695, NGC ID# 27VE, CoinPlex ID# FHP1954CA

- 4315 1954 PR68 Cameo PCGS.** Bold field-device contrast is evident on this spectacular PR68 Franklin dollar, with richly frosted design elements and deeply mirrored fields. Eye appeal is terrific. Population: 27 in 68 Cameo, 0 finer (1/13).  
*From The Atlanta Collection.* PCGS# 86695, NGC ID# 27VE, CoinPlex ID# FHP1954CA

- 4316 1954 PR68 ★ Cameo NGC. CAC.** Moderately contrasted with eye-popping peripheral patina, gold-orange with blue-to-violet hues at the rims. An impressively preserved marvel.  
*From The Atlanta Collection.* NGC ID# 27VE, PCGS# 86695, CoinPlex ID# FHP1954CA

- 4317 1954 PR67 Ultra Cameo NGC.** Obvious contrast between the frosted devices and the darkly reflective fields confirms the Ultra Cameo designation. This Superb Gem has a lovely appearance. A few small lint marks, as made, appear. Census: 22 in 67 Ultra Cameo, 10 finer (1/13).  
*From The Atlanta Collection.* PCGS# 96695, CoinPlex ID# FHP1954DC

**1955 Franklin Half Dollar, PR68 Deep Cameo  
None Finer at PCGS**

- 4318 1955 PR68 Deep Cameo PCGS. CAC.** A virtually perfect coin, with incredibly rich mint frost on the design elements and flawless mirrored fields that provide profound cameo contrast. Eye appeal is tremendous. PCGS has yet to certify an example in higher numeric grades (1/13).  
*From The Atlanta Collection.* PCGS# 96696, NGC ID# 27VE, CoinPlex ID# FHP1955DC

**PR69 Cameo 1956 Franklin Half  
Elusive Type One Reverse**

- 4319 1956 Type One PR69 Cameo NGC.** A near-flawless representative of this more elusive version of the proof 1956 Franklin half dollar, appreciably contrasted with an essentially black-and-white field-device effect. Even under magnification, faults are few and far between. Census: 16 in 69 Cameo, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24TV, PCGS# 86686, CoinPlex ID# FHP1956TY1CA

- 4320 1956 Type Two PR68 Cameo NGC.** Richly frosted design elements contrast boldly with the deeply mirrored fields and eye appeal is terrific. The high-relief eagle, with extra feather detail, was introduced in 1956 and remained a fixture on proofs of the following years.  
*From The Atlanta Collection.* NGC ID# 24TW, PCGS# 86697, CoinPlex ID# FHP1956TY2CA

**4321 1956 Type Two PR69 Ultra Cameo NGC.** The Type Two design is recognized by the high relief eagle, with extra feather detail, on the reverse. This virtually perfect specimen is deeply mirrored and profoundly contrasted, with incredible mint frost on the design elements. Census: 66 in 69 Ultra Cameo, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24TW, PCGS# 96697, CoinPlex ID# FHP1956TY2DC

**4322 1957 PR68 Ultra Cameo NGC.** Bold contrast between the frosty devices and deeply mirrored fields is particularly evident on the reverse of this example. A couple of tiny strike throughs, as made, appear. One is located near the second T in TRUST and the other on the bell. Minute flecks appear at the outer edges. This coin has tremendous visual appeal. Census: 38 in 68 Ultra Cameo, 5 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 24TX, PCGS# 96698, CoinPlex ID# FHP1957DC

### 1958 Ultra Cameo Half, PR68 Challenging Date

**4323 1958 PR68 Ultra Cameo NGC.** A stunning 1958 proof Franklin half dollar with fully brilliant silver surfaces completely devoid of toning. Both sides have deeply mirrored fields that seem unending, serving as a nice frame for the extraordinary, highly lustrous devices. Census: 10 in 68 Ultra Cameo, 2 finer (1/13).  
*Ex: FUN Signature (Heritage, 1/2009), lot 6074; Long Beach Signature (Heritage, 9/2009), lot 887.*  
*From The Atlanta Collection.* NGC ID# 27VH, PCGS# 96699, CoinPlex ID# FHP1958DC

**4324 1959 PR68 ★ Cameo NGC.** Richly mirrored fields and nicely contrasted frosty devices provide this example with tremendous eye appeal. This is a wonderful representative of one of the rarest Franklin proof issues. Census: 5 in 68 Cameo ★, 1 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 27VJ, PCGS# 86700, CoinPlex ID# FHP1959CA

### Superb Gem Proof 1959 Franklin Half Dollar Rare With Ultra Cameo Surfaces

**4325 1959 PR67 Ultra Cameo NGC.** The 1959 proof Franklin half dollar is seldom seen with Ultra Cameo surfaces because the old master die was still in service and had clearly deteriorated. Incredibly, this magnificent Superb Gem is profoundly contrasted, with stunning black-on-white cameo flash and pristine surfaces. Census: 5 in 67 Ultra Cameo, 0 finer (1/13).  
*From The Atlanta Collection.* NGC ID# 27VJ, PCGS# 96700, CoinPlex ID# FHP1959DC

**4326 1960 PR69 Cameo PCGS.** A black and white beauty, this PR69 Franklin half dollar exhibits no imperfections and displays extremely strong cameo effect on both sides. According to our Auction Archives, we have not offered an example at this grade level since 2004, making this a rare opportunity to acquire one of these scarce high-end pieces. Set Registry collectors will no doubt be vying for this lovely coin. Population: 2 in 69 Cameo, 0 finer (1/13).  
*Ex: Long Beach Signature (Heritage, 6/2002), lot 5944.* PCGS# 86701, NGC ID# 24TY, CoinPlex ID# FHP1960CA

**4327 1960 PR68 ★ Ultra Cameo NGC.** Eye-catching frost and incredible reflectivity add up to an Ultra Cameo Franklin half to remember. Virtually untuned surfaces more than earn the Star designation.  
*From The Atlanta Collection.* NGC ID# 24TY, PCGS# 96701, CoinPlex ID# FHP1960DC

**4328 1961 Doubled Die Reverse PR65 NGC. FS-801.** The left-side peripheral letters on the reverse are uncommonly thick, and E PLURIBUS UNUM demonstrates a wide shift. The variety is listed in the *Guide Book*. This untuned Gem provides reflective fields and is void of spots or hairlines.  
*From The Atlanta Collection.* PCGS# 6689, CoinPlex ID# FHP1961DDR

**4329 1961 Doubled Die Reverse PR65 NGC. FS-801.** Dramatic die doubling is evident on UNITED and E PLURIBUS UNUM, as well as on other reverse letters. This high grade specimen has a lightly toned obverse and medium plum-red and sea-green shades on the reverse. Pristine save for one small spot above the date.  
*From The Atlanta Collection.* PCGS# 6689, CoinPlex ID# FHP1961DDR

### Brilliant Doubled Die Reverse FS-801 PR66 1961 Half Dollar

**4330 1961 Doubled Die Reverse PR66 NGC. FS-801.** The left-side reverse legends exhibit dramatic die doubling. The variety is photographed in the 2013 *Guide Book* on page 210. Flashy and brilliant with a needle-sharp strike. Pristine aside from one tiny gray spot on Franklin's hair. Census: 32 in 66, 23 finer (1/13).  
*From The Atlanta Collection.* PCGS# 6689, CoinPlex ID# FHP1961DDR

### Stone-White PR67 FS-801 1961 Doubled Die Reverse Half

**4331 1961 Doubled Die Reverse PR67 NGC. FS-801.** A fully brilliant and immaculate specimen of this dramatic doubled die variety. Though *Cherry-pickers'* lists two other DDR varieties for the proof date, both minor, it is FS-801 that dominates the front cover of the Fifth Edition Volume II. Census: 23 in 67, none finer (1/13).  
*From The Atlanta Collection.* PCGS# 6689, CoinPlex ID# FHP1961DDR

**1962 Franklin Half, PR69 Ultra Cameo  
Among the Finest Certified**

- 4332 1962 PR69 Ultra Cameo NGC.** This incredible Franklin half dollar is just one tick away from technical perfection, with richly frosted design elements that seem to float on the deeply mirrored liquid fields. The surfaces are flawless and completely brilliant, with stunning eye appeal. Census: 22 in 69 Ultra Cameo, 0 finer (1/13). *From The Atlanta Collection.* NGC ID# 27VK, PCGS# 96703, CoinPlex ID# FHP1962DC

**MORGAN DOLLARS**

- 4333 1878 8TF MS65 PCGS. VAM-17.** The caramel-gold toning is faint on the obverse and dusky on the reverse. Lustrous and nicely struck with smooth fields and only minor facial grazes. VAM-17 is comparatively available in high grade but displays strong die doubling on the left reverse border. PCGS# 7072, NGC ID# 253H, CoinPlex ID# M\$M18788TF

**White MS66 1878 Morgan Dollar  
VAM-21, Eight Tailfeather Reverse**

- 4334 1878 8TF MS66 NGC. VAM-21.** Doubled bases on the R and B in PLURIBUS confirms the 8TF VAM assignment, though the obverse die was later used to strike the 7/8TF VAM-43. The reverse die is unique to VAM-21 and, though die doubled, is most interesting for its die polish lines on the outer margin of the left wing. This high grade silver dollar is brilliant, lustrous, and well preserved. NGC ID# 253H, PCGS# 7072, CoinPlex ID# M\$M18788TF

- 4335 1878 7TF Reverse of 1878 MS65 NGC. VAM-114A.** This first year VAM has many interesting clash marks and a doubled die obverse. Many collectors will take greater notice of the lovely peripheral autumn-gold and forest-green patina. Sharply struck and lustrous with a particularly smooth reverse. NGC ID# 253K, PCGS# 7074, CoinPlex ID# M\$M18787TFR1878

**Tripled Blossoms Top 100 VAM-198  
Second Reverse 1878 Morgan Dollar  
MS62, Tied for Finest Certified**

- 4336 1878 7TF Tripled Blossoms, Reverse of 1878 MS62 NGC. VAM-198.** A Top 100 Variety. Formerly VAM-199.1. Liberty's cotton blossoms are die tripled. An early die state without any peripheral reverse cracks. A lightly toned example with good luster, a clean cheek, and minor grazes on the left obverse field. Unavailable any finer. Census: 2 in 62, none finer (1/13). PCGS# 133833

- 4337 1878-CC MS65 PCGS. CAC.** The Morgan design was introduced in 1878, making this issue an extremely important one for mintmark type collectors. This attractive Gem is sharply detailed and brightly lustrous. Housed in a green label holder. PCGS# 7080, NGC ID# 253M, CoinPlex ID# M\$M1878CC

**Premium Gem 1878-CC Morgan Dollar  
First-Year Carson City Type Coin**

- 4338 1878-CC MS66 PCGS.** A brilliant and boldly struck Gem with potent cartwheel luster and lovingly preserved surfaces. An outstanding representative of this popular first-year Carson City Morgan Dollar issue. There is no sign of the die doubling that accompanies many Dollar varieties from this year, although the lower wreath is distinguished by a series of lengthy raised die lines, as made. PCGS has encapsulated a mere five pieces with finer grades (1/13). *Ex; FUN Signature (Heritage, 1/2004), lot 8548.* PCGS# 7080, NGC ID# 253M, CoinPlex ID# M\$M1878CC

- 4339 1878-CC MS65 Prooflike NGC.** This impressive Gem has fully mirrored fields around lustrous silver devices, imparting obvious cameo contrast with delicate peripheral iridescence. Both sides are otherwise brilliant white. NGC ID# 253M, PCGS# 7081, CoinPlex ID# M\$M1878CCPL

**1878-CC Morgan Dollar  
Starkly Contrasted MS65 Deep Mirror Prooflike**

- 4340 1878-CC MS65 Deep Mirror Prooflike NGC.** This is an outstanding Gem that displays a high degree of field-motif contrast. The mildly frosted design features are fully struck (not unusual for this issue), as evidenced by sharp delineation in the hair over Liberty's ear and on the breast feathers. Wisps of reddish-tan and cobalt-blue cling to the rim areas, a pleasing frame for essentially untuned centers. Some minute obverse milling marks preclude an even higher grade.  
*Ex: ANA National Money Signature (Heritage, 3/2007), lot 1204; Long Beach Signature (Heritage, 5/2009), lot 1002. NGC ID# 253M, PCGS# 97081, CoinPlex ID# M\$M1878CCDMPL*

- 4341 1878-S MS66 PCGS. CAC.** *Ex: Benson Collection.* Vivid shades of blue, gray, and green patina blanket the surfaces of this well-detailed Premium Gem, with vibrant mint luster shining through the toning. PCGS has graded only 21 coins in higher numeric grades (1/13). PCGS# 7082, NGC ID# 253R, CoinPlex ID# M\$M1878S
- 4342 1879-CC AU53 NGC.** This is a representative of a challenging Carson City dollar. Other than a few small specks of gray on the reverse, the coin is free of toning. Scattered marks appear on both sides, with small reed marks present on Liberty's cheek. NGC ID# 253T, PCGS# 7086, CoinPlex ID# M\$M1879CC
- 4343 1879-S MS66 PCGS Secure.** Magnificent forest-green, cherry-red, and orange-gold toning enriches the obverse. The reverse remains brilliant. This razor-sharp piece has splendidly smooth fields and only minor facial contact.  
*Ex: Columbus Central States Signature (heritage, 4/2006), lot 3241, which realized \$2,875. PCGS# 7092, NGC ID# 253X, CoinPlex ID# M\$M1879S*

**1879-S Morgan Dollar, MS68  
None Certified Finer**

- 4344 1879-S MS68 NGC.** The eye appeal of the brilliant-white surfaces is superior to that of most extant Morgan dollars. Every hair curl and breast feather is fully articulated, and rich mint frost overlays the devices as well as the fields. Not even under a loupe can one discern a distracting abrasion. NGC ID# 253X, PCGS# 7092, CoinPlex ID# M\$M1879S

- 4345 1879-S MS67 Prooflike PCGS. CAC.** A brilliant and high grade silver type coin with frosty motifs and reflective fields. An outstanding Superb Gem housed in a green label holder. Population: 46 in 67 (3 in 67+) Prooflike, 2 finer (1/13). PCGS# 7093, NGC ID# 253X, CoinPlex ID# M\$M1879SPL

- 4346 1880 MS66 NGC.** Despite the large mintage of 12.6 million pieces, the 1880 Morgan dollar is decidedly scarce in Premium Gem condition, and no numerically finer examples have been certified by either of the leading grading services (1/13). This is a bright and attractive, well-struck Premium Gem example with only scattered, minor abrasions.  
*From The Fenn Family Collection. NGC ID# 253Y, PCGS# 7096, CoinPlex ID# M\$M1880*

**1880 Morgan Dollar, MS66**

- 4347 1880 MS66 PCGS. CAC.** The 1880 Morgan dollar is far more elusive than the 1880-S at the Premium Gem grade level of the present piece, even though 12.6 million pieces were struck in Philadelphia. This piece shows few marks of any size over softly frosted surfaces that are silver-white and sharply struck. PCGS has certified none finer than the present piece (1/13). PCGS# 7096, NGC ID# 253Y, CoinPlex ID# M\$M1880
- 4348 1880-CC MS65+ PCGS.** Cartwheel luster has frosty effects on the interiors and an almost pillow effect near the eagle. A shallow line descending from Liberty's mouth leaves the piece somewhere between Gem and Premium Gem. PCGS# 7100, NGC ID# 2542, CoinPlex ID# M\$M1880CC
- 4349 1880-CC MS65+ PCGS. CAC.** Cartwheel luster appears on this virtually untuned example that displays well-struck design elements. The surface marks are limited to minor grazes other than reed marks on the reverse between the star and O in ONE. This is a lovely high-end Gem. PCGS# 7100, NGC ID# 2542, CoinPlex ID# M\$M1880CC
- 4350 1880/79-CC Reverse of 1878 MS65 PCGS. VAM-4.** A Top 100 Variety. A highly lustrous and crisply struck Gem with clean fields and only minor facial grazes. A hint of gold toning visits this overdated and obsolete reverse Carson City Morgan. PCGS# 7108, NGC ID# 253Z
- 4351 1880-CC 8/7 Reverse of 1878 MS65 PCGS Secure. VAM-7A.** A Hit List 40 Variety. The popular Second Reverse variety, which was obsolete by 1880. The clashed die state with an N from IN at the left border of Liberty's neck. Lustrous and nearly brilliant with a sharp strike and one small spot near the shoulder. PCGS# 7110
- 4352 1880-O MS64+ PCGS. CAC.** A wonderful near-Gem, this 1880-O Morgan dollar has brilliant silver luster with frosty surfaces and light gold toning on each side. PCGS has only certified 32 finer examples (1/13). PCGS# 7114, NGC ID# 2543, CoinPlex ID# M\$M1880O
- 4353 1880-S MS67+ PCGS. CAC.** Medium S. An essentially brilliant Superb Gem whose dazzling luster and exemplary strike make the piece ideal for type purposes. Only inconsequential contact limits the grade. PCGS# 7118, NGC ID# 2544, CoinPlex ID# M\$M1880S

**MS68 ★ 1880-S Large S Dollar**  
**Dazzling Semiprooflike Luster**

**4354 1880-S MS68 ★ NGC.** Large S. Hints of rose-red and tan color visit the peripheries of this thoroughly lustrous and attentively struck Superb Gem. The preservation is exceptional, even for an 1880-S, which often come very nice. The fields are flashy, enough to coax a Star from NGC though insufficiently mirrored for a Prooflike designation. Population: 30 in 68 ★, none finer with a star designation (1/13).  
*Ex: Dallas Signature (Heritage, 11/2005), lot 3117, which realized \$3,757.50. NGC ID# 2544, PCGS# 7118, CoinPlex ID# M\$M1880S*

**4355 1880-S 8 Over 7 MS67 NGC. VAM-12.** A Hit List 40 Variety. Medium S. A "check mark" is visible on the second 8 in the date, as made from the remnant of an underdigit 7. The check mark is the desirable feature for VAM-12. The present lustrous high grade dollar displays light lemon-gold toning on the right obverse and upper reverse. NGC ID# 2544, PCGS# 7118, CoinPlex ID# M\$M1880S

**4356 1880-S 8 Over 7 MS66 Deep Mirror Prooflike NGC. VAM-8.** A Top 100 Variety. Medium S. Cameo contrast is evident between the luminous motifs and the mirrored fields. A precisely struck and splendidly smooth Premium Gem. PCGS# 97121

**4357 1881-CC MS65+ PCGS. CAC. VAM-2.** The 8s in the date exhibit interesting die fill. This low mintage Carson City dollar provides potent luster and a precise strike. A wisp of almond-gold toning denies full brilliance. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**4358 1881-CC MS66 PCGS. CAC.** A wisp of chestnut toning precludes full brilliance, but this nicely struck and low mintage Carson City Premium Gem provides potent luster and pleasing preservation. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**4359 1881-CC MS66 PCGS. CAC.** A bright and attractive representative, this Premium Gem is well-struck and exhibits only minor grazes. A number of small die cracks are present on each side. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**4360 1881-CC MS66+ PCGS. CAC.** A high-end Premium Gem Morgan dollar from a low mintage of 296,000 pieces, this coin possesses vibrant mint luster and sharply detailed design elements, with well-preserved brilliant surfaces and extraordinary eye appeal. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**4361 1881-CC MS66+ PCGS. CAC.** An interesting network of fine die cracks is evident on the peripheries of both sides of this high-end Premium Gem. The design elements are sharply detailed and both sides radiate vibrant mint luster, with outstanding eye appeal. PCGS# 7126, NGC ID# 2547, CoinPlex ID# M\$M1881CC

**4362 1881-O MS64 Deep Mirror Prooflike PCGS.** This Choice New Orleans dollar displays reflective fields and an exemplary strike. Brilliant save for a patch of gray on the left reverse. Smooth aside from one faint graze on the cheek. Minor die doubling is evident on Liberty's nose. PCGS# 97129, NGC ID# 2548, CoinPlex ID# M\$M1881ODMPL

**4363 1882 MS64 PCGS. CAC.** Dramatic cherry-red and forest-green toning consumes the obverse. The reverse border exhibits bands of honey-gold, sky-blue, and lilac. The reverse is well preserved and the obverse is smooth save for a slender graze on the left field. PCGS# 7132, NGC ID# 254A, CoinPlex ID# M\$M1882

**4364 1882-CC MS66+ PCGS. CAC.** A brilliant, well-struck example with considerable eye appeal, this piece displays only a few subtle hints of toning. Very few contact marks are present and clashing appears at the wreath to the right of the eagle. Population: 45 in 66+, 56 finer (1/13). PCGS# 7134, NGC ID# 254B, CoinPlex ID# M\$M1882CC

**4365 1882-CC MS65+ Deep Mirror Prooflike PCGS. CAC.** Frosty motifs and lustrous, flashy fields provide outstanding eye appeal. Brilliant save for a blush of peripheral golden-brown near 3 o'clock on the reverse. Sharply struck and splendidly preserved. PCGS# 97135, NGC ID# 254B, CoinPlex ID# M\$M1882CCDMPL

**4366 1882-O MS65 PCGS.** Sharply detailed throughout, this delightful Gem displays vibrant cartwheel mint luster, with mostly brilliant surfaces and an arc of green patina on the obverse periphery. Eye appeal is outstanding. PCGS# 7136, NGC ID# 254C, CoinPlex ID# M\$M1882O

**4367 1882-O MS65 PCGS.** Brilliant and lustrous with a sharp strike and refreshingly unabraded surfaces. TRUST and other nearby legends are lightly die doubled. The base of the 82 is doubled. Housed in an old green label holder. PCGS# 7136, NGC ID# 254C, CoinPlex ID# M\$M1882O

**4368 1882-O MS65 PCGS.** An essentially brilliant, well-struck Gem, this piece displays subtle hints of rose and peach color. A number of die cracks are present on the reverse and the mintmark along with the majority of the letters in DOLLAR exhibit machine doubling. PCGS has assigned higher numeric grades to only 26 examples (1/13). PCGS# 7136, NGC ID# 254C, CoinPlex ID# M\$M1882O

**4369 1882-O MS65 PCGS.** A delightful Gem, this example hosts wispy champagne toning over frosty silver luster with fully brilliant surfaces. Minor repunching appears inside the mintmark. PCGS# 7136, NGC ID# 254C, CoinPlex ID# M\$M1882O

**4370 1882-O MS65 PCGS. CAC.** A well struck and thoroughly lustrous New Orleans dollar that boasts potent luster and light peripheral golden patina. Smooth overall with two small reverse rim dings near 5:30. Encapsulated in an old green label holder.  
*Ex: Chicago Signature (Heritage, 8/2011), lot 4535, which realized \$1,265. PCGS# 7136, NGC ID# 254C, CoinPlex ID# M\$M1882O*

**4371 1882-O MS65 Prooflike PCGS. CAC.** A splendid Prooflike Gem, both sides showing brilliant and untuned silver surfaces. The devices are frosty and highly lustrous on deeply mirrored fields with minimal grade-consistent marks. Population: 36 in 65 Prooflike, 1 finer (1/13). PCGS# 7137, NGC ID# 254C, CoinPlex ID# M\$M1882OPL

**4372 1882-S MS67+ PCGS. CAC.** This magnificent high-end Superb Gem is spectacularly toned in shades of electric-blue and golden-brown, with vibrant mint luster and sharply detailed design elements. Eye appeal is extraordinary. PCGS# 7140, NGC ID# 254F, CoinPlex ID# M\$M1882S

- 4373 1883 MS67 NGC.** Vibrant luster emanates from both sides of this appealing Superb Gem. Areas of russet toning appear on both sides at the outer edges, with brilliant flecks of teal, cherry, and violet present at portions of the obverse rim. The coin is well-struck and exhibits only the most minor abrasions. NGC has assigned higher numeric grades to only 4 examples (1/13).  
*From The Fenn Family Collection.* NGC ID# 254G, PCGS# 7142, CoinPlex ID# M\$M1883

**1883 Morgan Dollar, MS67**  
**Only Two Numerically Finer Coins at PCGS**

- 4374 1883 MS67 PCGS.** The 1883 Morgan dollar was produced in large numbers, but few examples can match the appeal of this magnificent Superb Gem. The design elements show razor-sharp definition throughout and the pristine fields radiate vibrant mint luster, with outstanding eye appeal. Population: 86 in 67 (6 in 67+), 2 finer (1/13). PCGS# 7142, NGC ID# 254G, CoinPlex ID# M\$M1883
- 4375 1883-S MS62 NGC.** Flashy cartwheel luster with partial pale toning in gold, olive, and cloud-white. Lightly abraded overall with a scrape on Liberty's cheek but overall eye appeal more consistent with a Select coin. NGC ID# 254K, PCGS# 7148, CoinPlex ID# M\$M1883S
- 4376 1883-S MS62 NGC.** A well-detailed MS62 example of this popular S-mint issue, with vibrant mint luster and mostly brilliant surfaces that show a few hints of pale gold toning. A few minor, grade-consistent contact marks are present on both sides. NGC ID# 254K, PCGS# 7148, CoinPlex ID# M\$M1883S
- 4377 1884-CC MS66 PCGS.** Brilliant iridescent toning in shades of mint-green, yellow, fuchsia, and teal covers large portions of the obverse. The reverse remains largely untuned other than a thin arc of golden brown and red color at the extreme edge of the lower right quadrant. PCGS has awarded higher numeric grades to only 69 examples (1/13). PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC
- 4378 1884-CC MS66+ PCGS. CAC.** The well-preserved brilliant surfaces of this popular CC-mint dollar are devoid of mentionable distractions and both sides radiate vibrant mint luster. The sharply detailed devices are richly frosted and eye appeal is outstanding. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC
- 4379 1884-CC MS66+ PCGS. CAC. VAM-3A.** An interesting Carson City VAM with a repunched 1 in the date, light die doubling on the profile, and "counterclash doubling at back of Phrygian cap ribbon," per VAMworld.com. Brilliant and lustrous with smooth surfaces and a suitable strike. PCGS# 7152, NGC ID# 254M, CoinPlex ID# M\$M1884CC

**1884-CC Dollar, Highly Lustrous MS67**

- 4380 1884-CC MS67 NGC.** The brilliant reverse complements an obverse with glimpses of light gold at the lower rim. Scintillating luster radiates from each side, and Liberty's cheek is essentially pristine. Slight roller marks can be seen on the lower cheek, and the hair above the ear and on the eagle's breast are typically struck. But the bold luster, and fields that are nearly distraction-free, more than compensate. Among the finest graded at NGC.  
*Ex: Long Beach Signature (Heritage, 9/2006), lot 5147.*  
*From The Fenn Family Collection.* NGC ID# 254M, PCGS# 7152, CoinPlex ID# M\$M1884CC
- 4381 1884-S AU58 NGC.** An attractive near-Mint example, this piece boasts bright lustrous surfaces with only a few scattered toning spots. The coin is well-struck overall with only minor incompleteness of strike at the centers. Reed marks appear on both sides along with scattered contact marks. NGC ID# 254P, PCGS# 7156, CoinPlex ID# M\$M1884S
- 4382 1885 MS67+ NGC.** The devices are toned ice-blue, while the fields are peach-red and the upper margin is sea-green. Well struck and lustrous with exemplary preservation, even by Superb Gem standards. A condition rarity this fine. NGC has certified only five coins in higher numeric grades (1/13). NGC ID# 254R, PCGS# 7158, CoinPlex ID# M\$M1885
- 4383 1885 MS67 PCGS. CAC.** This frosty silver-white Superb Gem is free of all but the most minuscule marks on the lower neck of Liberty, but the crucial cheek and obverse fields are nearly mark-free. The reverse is equally pristine save for a single minor tick on the breast. A few light die cracks encircle portions of the periphery. PCGS# 7158, NGC ID# 254R, CoinPlex ID# M\$M1885
- 4384 1885 MS67 PCGS. CAC.** A crescent of light gold toning at the upper obverse accents the brilliant silver luster of this frosty Superb Gem. Both sides are sharply struck with pristine surfaces. Population: 86 in 67 (3 in 67+), 1 finer (1/13). PCGS# 7158, NGC ID# 254R, CoinPlex ID# M\$M1885
- 4385 1885 MS65 Deep Mirror Prooflike PCGS. CAC.** Glassy fields contrast with the intricately struck and frosty motifs. Exceptionally unabraded, and brilliant save for a hint of mint-made grease near the N in UNUM. The 1885 is plentiful overall but not as a DMPL Gem. Housed in a green label holder. PCGS# 97159, NGC ID# 254R, CoinPlex ID# M\$M1885DMPL
- 4386 1885-CC MS65 NGC.** Autumn-gold and sea-green endow the peripheries of this lustrous, well struck, and low mintage Carson City Gem. The fields are refreshingly smooth and the cheek displays only wispy marks. NGC ID# 254S, PCGS# 7160, CoinPlex ID# M\$M1885CC
- 4387 1885-CC MS65 PCGS. CAC.** A delightful Gem from the fabled Carson City Mint, with sharply detailed design elements and well-preserved surfaces. Vibrant mint luster is evident on both sides, with a few hints of golden-tan toning. PCGS# 7160, NGC ID# 254S, CoinPlex ID# M\$M1885CC
- 4388 1885-O MS65+ PCGS. CAC.** Gorgeous toning engulfs both sides of this high-end Gem that displays brilliant reflectivity. Iridescent shades of orange, russet, cherry, teal, and violet are among the colors present. The coin displays a bold strike overall, with only minor incompleteness at the centers. Although abrasions appear, the patina largely obscures them. PCGS# 7162, NGC ID# 254T, CoinPlex ID# M\$M1885O

**4389 1885-O MS67 NGC.** Gorgeous bands of lime-green, cobalt-blue, ruby-red, and peach-gold dominate the upper left obverse. The remainder of the coin is brilliant save for a hint of honey-gold on the reverse periphery. Sharply struck and splendidly unabraded. NGC ID# 254T, PCGS# 7162, CoinPlex ID# M\$M1885O

**4390 1886 MS67 NGC. VAM-1C.** A Hot 50 Variety. The “3 + 2 Clashed Reverse,” described by VAMworld.com as an “unusual offset of sideways vee clash marks next to top of right wreath.” This lustrous silver dollar has a good strike, exceptional preservation, and an arc of lemon-gold and lilac-red toning on the lower obverse border. NGC ID# 254V, PCGS# 7166, CoinPlex ID# M\$M1886

**4391 1886 MS67 PCGS. CAC.** This stunning Superb Gem, while not particularly rare, will certainly capture the attention of the Morgan dollar connoisseur, with satiny silver luster and iridescent splashes on the obverse. PCGS has certified only three finer examples (1/13). PCGS# 7166, NGC ID# 254V, CoinPlex ID# M\$M1886

**4392 1886-O MS62 NGC.** The high mintage 1886-O is common in VF but surprisingly elusive in Uncirculated grades. The present lustrous example displays light golden toning and surprisingly few marks. The centers are softly brought up. NGC ID# 254W, PCGS# 7168, CoinPlex ID# M\$M1886O

**4393 1886-O MS62 ANACS.** Areas of gold and russet toning appear on both sides of this example, primarily along portions of the outer edges. Both sides exhibit attractive mint luster that enhances the eye appeal. Small reed marks appear on Liberty's face, primarily on her chin. Both sides display grade consistent scattered contact marks. Housed in a small format holder. NGC ID# 254W, PCGS# 7168, CoinPlex ID# M\$M1886O

#### Top 100 VAM-2 1886-S/S Dollar MS64 Deep Mirror Prooflike

**4394 1886-S/S MS64 Deep Mirror Prooflike PCGS. VAM-2.** A Top 100 Variety. The mintmark was initially entered with a tilt to the left, then carefully repunched in the proper position. Traces of the serifs remain from the first impression. But any variety of the lower mintage 1886-S dollar is desirable, particularly in DMPL format. This flashy and nearly untuned Choice Morgan has a good strike and pleasing preservation. PCGS# 97171, NGC ID# 254X, CoinPlex ID# M\$M1886SDMPL

**4395 1887 MS67 NGC.** A lovely Superb Gem, this piece exhibits appealing cartwheel luster. Hints of gold and rose toning appear at the extreme outer edge of the lower left portion of the obverse and Liberty's hair displays a small area of color. Scattered marks appear on both sides. Census: 315 in 67 (4 in 67+), 2 finer (1/13). NGC ID# 254Y, PCGS# 7172, CoinPlex ID# M\$M1887

**4396 1887 MS67 PCGS. CAC.** This memorable Superb Gem displays vibrant mint luster and razor-sharp definition on all design elements, with outstanding eye appeal. A network of fine die cracks is evident on the peripheries of both sides. Population: 70 in 67, 1 finer (1/13). PCGS# 7172, NGC ID# 254Y, CoinPlex ID# M\$M1887

#### Superb Gem 1887 Morgan Dollar Spectacular Prooflike Specimen

**4397 1887 MS67 Prooflike NGC.** The 1887 Morgan dollar is an available date in general, but striking problems and subdued luster severely restrict the number of high-grade pieces seen. This spectacular Superb Gem is sharply detailed throughout, with well-preserved prooflike surfaces that show a few hints of golden-tan toning. Census: 7 in 67 Prooflike, 0 finer (1/13). NGC ID# 254Y, PCGS# 7173, CoinPlex ID# M\$M1887PL

#### Gem VAM-2A 1887-S/S Dollar

**4398 1887-S/S MS65 PCGS. VAM-2A.** A Top 100 Variety. Though designated as VAM-2 on the insert, this is the later die state with “damaged denticles below 87” in the date, per VAMworld.com. VAM-2A was assigned in 2010, likely after the silver dollar was encapsulated. Lustrous and brilliant with a precise strike and minimal marks. PCGS# 7180, NGC ID# 2554, CoinPlex ID# M\$M1887S

**4399 1888 MS66+ PCGS. CAC.** An attractive high-end Premium Gem, this example displays brilliant surfaces. The coin exhibits only minor incompleteness of strike at the centers. Although contact marks are present, only the most minor marks appear on Liberty's cheek and the coin retains strong visual appeal. Population: 36 in 66+, 16 finer (1/13). PCGS# 7182, NGC ID# 2555, CoinPlex ID# M\$M1888

**4400 1888 MS66 Prooflike PCGS.** The fields are largely reflective on both sides of this lovely Premium Gem and provide a level of contrast against the devices. Small areas of attractive toning appear near the rims on both sides, with the colors including russet and bright teal. The surface marks are minor. Population: 12 in 66 (3 in 66+) Prooflike, 0 finer (1/13). PCGS# 7183, NGC ID# 2555, CoinPlex ID# M\$M1888PL

**4401 1888-O MS66 PCGS.** The 1888-O Morgan dollar is an available date in lower grades, but it becomes scarce in MS66, and finer examples are virtually unobtainable. This spectacular Premium Gem displays sharply detailed design elements and mark-free lustrous surfaces, with a few hints of grayish-gold toning. PCGS has graded no coins in higher numeric grades (1/13). PCGS# 7184, NGC ID# 2556, CoinPlex ID# M\$M1888O

**4402 1888-O MS66 PCGS. CAC.** Primarily silver on the reverse and halfway so on the obverse, though the bands of green, blue, orange, and gold slanting across the upper and left zones on that side are noteworthy. Well-struck save for the hair over Liberty's ear with generous cartwheel luster. PCGS# 7184, NGC ID# 2556, CoinPlex ID# M\$M1888O

**1888-S Morgan Dollar, MS65  
Low-Mintage Better Date**

**4403 1888-S MS65 PCGS.** The 1888-S Morgan dollar is a better date in the series, from a mintage of 657,000 pieces. This attractive Gem features well-detailed design elements and frosty cartwheel mint luster, with a few wisps of golden-tan toning. Only a few minor contact marks are evident and visual appeal is quite strong. PCGS# 7186, NGC ID# 2557, CoinPlex ID# M\$M1888S

**4404 1889-CC VF20 NGC.** Attractively toned in shades of lavender-gray, amber, and champagne-gold, this important CC-mint issue shows even wear on the surfaces and only minor abrasions. The majority of 1889-CC Morgan dollars are in VF grades, and this piece is more attractive than most. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**4405 1889-CC VF20 NGC.** A well-worn, but problem-free, example of this key Carson City issue, with pleasing gray and amber patina and all major design detail intact, at least in outline. The 1889-CC is the rarest CC-mint issue of the series. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**4406 1889-CC VF30 NGC.** The 1889-CC is the most elusive Morgan dollar from the Carson City Mint, and most examples seen are in VF grades. This attractive example retains more design detail than the average specimen, with traces of mint luster and pleasing shades of champagne-gold and gray patina. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**4407 1889-CC VF30 NGC. CAC.** Moderately worn with gold-to-gray surfaces overall and an arc of deep blue at the right obverse. Three shallow cuts in Liberty's eye area leave this coin just short of Choice VF status. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**4408 1889-CC — Improperly Cleaned, Stained — NGC Details. XF.** A dark gunmetal-gray key date Carson City silver dollar with occasional small rim marks but relatively unabraded fields and devices. Glimmers of luster reside within the motifs. NGC ID# 2559, PCGS# 7190, CoinPlex ID# M\$M1889CC

**4409 1889-O MS64 PCGS. CAC.** Both sides are fully patinated in steel-gray, golden-brown, and apple-green shades. This lustrous Choice dollar has an above-average strike given its New Orleans origin. The left obverse displays unobtrusive marks. PCGS# 7192, NGC ID# 255A, CoinPlex ID# M\$M1889O

**4410 1889-O MS64+ PCGS. CAC.** Faint almond-gold toning graces this lustrous and splendidly smooth near-Gem. The centers display the usual New Orleans softness, and the margins exhibit a mint-made orange-peel texture. PCGS# 7192, NGC ID# 255A, CoinPlex ID# M\$M1889O

**4411 1889-S MS66 PCGS.** The 1889-S Morgan dollar claims a small mintage of 700,000 pieces and examples in Premium Gem condition are seldom encountered. This well-detailed specimen displays lustrous, mark-free surfaces, with hints of golden-tan toning. Population: 63 in 66, 1 finer (1/13). PCGS# 7194, NGC ID# 255B, CoinPlex ID# M\$M1889S

**4412 1890 MS64 Deep Mirror Prooflike PCGS.** Contrast is evident between the fields and the devices on this example. The obverse is largely untoned while the reverse includes a few splashes of gold color. Contact marks on the obverse consist mainly of grazes while the reverse includes a few deeper marks. Population: 95 in 64 (2 in 64+) Deep Mirror Prooflike, 6 finer (1/13). PCGS# 97197, NGC ID# 255C, CoinPlex ID# M\$M1890DMPL

**Famous Tail Bar VAM-4  
1890-CC Silver Dollar**

**4413 1890-CC Tail Bar MS63 PCGS Secure. VAM-4.** A Top 100 Variety. This is one VAM variety that does not require magnification to attribute, due to the unusually broad die scratch beneath the fletchings. The present lustrous Select example possesses rich navy-blue, golden-brown, and lilac-red toning. The strike is good despite minor mint-made roller marks over the ear. The fields are smooth and the cheek exhibits moderate marks. PCGS# 87198, CoinPlex ID# M\$M1890CCTB

**4414 1890-CC MS63 Prooflike NGC.** Brilliant fields and frosty devices add to the visual appeal of this piece. Scattered spots of toning, most of them very light, appear on both sides. Each side displays minor surface marks, with Liberty's chin exhibiting a few light reed marks. Census: 96 in 63 Prooflike, 71 finer (1/13). NGC ID# 255D, PCGS# 7199, CoinPlex ID# M\$M1890CCPL

**Choice 1890-CC Silver Dollar  
Deep Mirror Prooflike**

**4415 1890-CC MS64 Deep Mirror Prooflike PCGS. CAC.** A stone-white and flashy near-Gem with good eye appeal despite occasional faint parallel roller marks, as coined. A better Carson City issue. Housed in an old green label holder.  
*Ex: Minneapolis Central States Signature (Heritage, 5/2000), lot 5296; Long Beach Signature (Heritage, 2/2002), lot 5992.* PCGS# 97199, NGC ID# 255D, CoinPlex ID# M\$M1890CCDMPL

**4416 1890-O MS65+ PCGS.** A coin with pleasing visual appeal on both sides, this high-end Gem displays only the slightest hints of toning. The piece is softly struck at the extreme centers, but the details are well-defined elsewhere. Population: 2 in 65+, 20 finer (1/13). PCGS# 7200, NGC ID# 255E, CoinPlex ID# M\$M1890O

**Gem 1890-O Morgan Dollar  
Rare Prooflike Specimen**

- 4417 1890-O MS65 Prooflike PCGS. CAC.** The 1890-O Morgan dollar claims a huge mintage of 10.7 million pieces, but the issue is seldom seen in high grade, with prooflike surfaces. This well-detailed Gem displays deeply reflective fields and frosty devices, with a few minor hairlines and contact marks on each side. Population: 22 in 65 Prooflike, 1 finer (1/13). PCGS# 7201, NGC ID# 255E, CoinPlex ID# M\$M1890OPL

**1890-S Morgan Dollar, MS66  
Prize for Toning Enthusiasts**

- 4418 1890-S MS66 PCGS.** This Premium Gem 1890-S Morgan is a prize for the toning enthusiasts, with a beautiful crescent of aqua and copper patina on the left obverse contrasting against untuned silver-white surfaces on the remainder of that side. The reverse shows a scattering of copper patina throughout of varying intensity. Both sides, but particularly the obverse high points, are free of singular marks. PCGS has seen only six finer (1/13). PCGS# 7202, NGC ID# 255F, CoinPlex ID# M\$M1890S

**Premium Gem 1890-S Silver Dollar  
Only Six Finer at PCGS**

- 4419 1890-S MS66 PCGS.** A small splash of dusky tan patina appears at the left obverse border on otherwise completely brilliant silver surfaces with satin luster and excellent eye appeal. Both sides are boldly defined including nearly full separation of the hair strands over Liberty's ear. PCGS has only certified six finer examples (1/13). PCGS# 7202, NGC ID# 255F, CoinPlex ID# M\$M1890S

**Patinated 1890-S Dollar, MS66**

- 4420 1890-S MS66 PCGS.** Rich gunmetal-blue and wheat-gold toning dominates the obverse. The reverse is closer to brilliant but displays blushes of tan-gold. Fully struck and lustrous with exemplary preservation. Certified in a first generation holder. Though plentiful in typical Mint State, the 1890-S is nearly unobtainable above the MS66 level. PCGS# 7202, NGC ID# 255F, CoinPlex ID# M\$M1890S

**Sharply Struck, Frosty MS66 1890-S Dollar**

- 4421 1890-S MS66 PCGS. CAC.** There are few examples of the 1890-S Morgan dollar at either NGC or PCGS finer than the present Premium Gem, precisely one and six coins, respectively (1/13). This silvery PCGS example boasts full, frosty luster over each side, with little trace of color and few mentionable marks. The strike is quite sharp, even down to the hair over the ear. PCGS# 7202, NGC ID# 255F, CoinPlex ID# M\$M1890S

**Choice 1890-S Morgan Dollar  
Elusive Deep Mirror Prooflike Example**

- 4422 1890-S MS64 Deep Mirror Prooflike PCGS. CAC.** The 1890-S Morgan dollar is seldom encountered with Deep Mirror Prooflike contrast and lightly abraded surfaces. This delightful Choice example exhibits sharply detailed design elements and deeply reflective fields, with just a few minor contact marks and outstanding eye appeal. Population: 29 in 64 Deep Mirror Prooflike, 8 finer (1/13). PCGS# 97203, NGC ID# 255F, CoinPlex ID# M\$M1890SDMPL

**4423 1891 MS64+ PCGS. CAC.** Subtle hints of color appear on this high-end near-Gem example. Brilliant cartwheel luster adds to the eye appeal of this pleasing example. The coin is well-struck. Minor abrasions appear on both sides. PCGS# 7204, NGC ID# 255G, CoinPlex ID# M\$M1891

**4424 1891-CC MS64+ PCGS. CAC. VAM-3.** A Top 100 Variety. The so-called "Spitting Eagle" variety, which emerged in relative quantity from the GSA auctions. The present lot is of greater significance for its original peach-gold and apple-green toning, which dominates both borders. PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

#### 1891-CC Morgan Dollar, MS65

**4425 1891-CC MS65 PCGS.** The 1891-CC Morgan dollar claims a mintage of 1.6 million pieces, generous for a Carson City emission, but examples are rarely encountered above the Gem level. This delightful specimen is well-detailed, with vibrant cartwheel mint luster and creamy surfaces that show few signs of contact. PCGS has graded 29 numerically finer coins (1/13). PCGS# 7206, NGC ID# 255H, CoinPlex ID# M\$M1891CC

**4426 1891-CC MS63 Deep Mirror Prooflike PCGS.** Thickly frosted and with looking-glass fields, this brilliant piece is awash in brilliant luster and deep contrast. There are a few minor scuffs in the fields, and there is a bit of struck-in die grease near star 12. Despite these picky impairments, this coin still exudes a good bit of eye appeal. PCGS# 97207, NGC ID# 255H, CoinPlex ID# M\$M1891CCDML

#### Gem 1891-O Morgan Dollar Beautiful Variegated Patina

**4427 1891-O MS65 PCGS.** Beautiful variegated patina on each side includes rose, sky-blue, sandy gold, and violet colors, with much underlying luster, a prize for lovers of toned Morgan dollars. The strike is typical for the issue, showing some flatness on the eagle's breast and the hair over Liberty's ear, but marks are few and the eye appeal is excellent. Population: 87 in 65 (1 in 65+), 0 finer (1/13). PCGS# 7208, NGC ID# 255J, CoinPlex ID# M\$M1891O

**4428 1891-S MS65 NGC.** An attractive example with full luster, this brilliant Gem has deep gold and iridescent toning over pristine surfaces. The reverse has a faint die crack from the border over the final S through the top of OF to the wing. NGC ID# 255K, PCGS# 7210, CoinPlex ID# M\$M1891S

#### Deep Mirror Prooflike Near-Gem 1891-S Silver Dollar

**4429 1891-S MS64 Deep Mirror Prooflike NGC.** Plum-red and sea-green grace the peripheries of this boldly struck and moderately frosted silver dollar. Certified in a former generation holder. A very scarce issue with prominently mirrored fields. Census: 34 in 64 Deep Mirror Prooflike, 6 finer (1/13).

Ex: Midwinter ANA Signature (Heritage, 3/1997), lot 489; Dallas Signature (Heritage, 11/2007), lot 1261. NGC ID# 255K, PCGS# 97211, CoinPlex ID# M\$M1891SDMPL

#### Gem 1892 Morgan Dollar Only Three Finer Coins at PCGS

**4430 1892 MS65 PCGS.** The Philadelphia Mint drastically reduced production of Morgan silver dollars in 1892, to just over 1 million pieces. This delightful Gem displays well-detailed design elements, with a touch of the typical softness on the hair above Liberty's ear. The brilliant surfaces radiate vibrant mint luster, with outstanding eye appeal. PCGS has certified only three numerically finer examples (1/13). PCGS# 7212, NGC ID# 255L, CoinPlex ID# M\$M1892

#### 1892 Morgan Dollar, MS65 Extremely Rare Any Finer

**4431 1892 MS65 PCGS.** Ex: Gold River Collection. The 1892 Morgan dollar is a scarce issue in MS65 condition, and a prime condition rarity in finer grades. This attractive Gem displays well-detailed design elements and vibrant mint luster on both sides. A few hints of golden-brown toning add to the considerable eye appeal. PCGS has graded only three coins in higher numeric grades (1/13). PCGS# 7212, NGC ID# 255L, CoinPlex ID# M\$M1892

**Gem 1892 Morgan Dollar**  
**Rare Any Finer**

- 4432 1892 MS65 PCGS. CAC.** Faint tan toning and dynamic luster confirm the originality of this carefully preserved Gem. Only the centers lack a sharp strike, and no marks are of individual consequence. The 1892 is the first of four increasingly rare Philadelphia Morgan dollar issues that culminate in the proof-only 1895.

*Ex: The Milly Chaykin Collection (Heritage, 10/2011), lot 4245. PCGS# 7212, NGC ID# 255L, CoinPlex ID# M\$M1892*

- 4433 1892-CC MS61 PCGS.** This lightly toned and thoroughly lustrous Uncirculated Carson City dollar has a well preserved reverse and the expected number of moderate facial marks. Certified in a green label holder. PCGS# 7214, NGC ID# 255M, CoinPlex ID# M\$M1892CC

- 4434 1892-CC MS63 NGC. VAM-4B.** The mintmark is nicely repunched, among other interesting die features. A highly lustrous better date Carson City dollar with light tan-gold and fire-red obverse peripheral toning. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 4435 1892-CC MS63 NGC.** A delightful Select example of this popular Carson City issue, with well-detailed design elements and lustrous surfaces. A few minor contact marks on Liberty's cheek explain the grade. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 4436 1892-CC MS63+ NGC.** This high-end Select specimen offers sharply detailed design elements and vibrant mint luster, with creamy surfaces that display a few hints of light gold toning. A scattering of minor contact marks on the reverse explains the grade. NGC ID# 255M, PCGS# 7214, CoinPlex ID# M\$M1892CC

- 4437 1892-O MS64+ NGC.** This high-end Choice example displays well-detailed design elements, with just a touch of the typical softness on the hair above the ear. Both sides exhibit smooth creamy surfaces, with vibrant mint luster and few signs of contact. NGC ID# 255N, PCGS# 7216, CoinPlex ID# M\$M1892O

- 4438 1892-O MS64 PCGS. CAC. VAM-2.** The 2 in the date is lightly repunched north. A virtually brilliant and thoroughly lustrous Choice better date New Orleans dollar. Held back from a higher grade only by the strike, which shows the usual O-mint softness at the centers. PCGS# 7216, NGC ID# 255N, CoinPlex ID# M\$M1892O

- 4439 1892-S AU53 PCGS. CAC.** The 1892-S Morgan dollar is an elusive issue in higher grades. This impressive AU53 example is well-detailed and shows bright mint luster, under shades of bluish-gray and sea-green toning. PCGS# 7218, NGC ID# 255P, CoinPlex ID# M\$M1892S

- 4440 1893 MS63 NGC.** The 1893 Morgan dollar is always in demand because of its low mintage of 378,000 pieces. This attractive Select example is well-detailed and brightly lustrous, with remarkably few surface marks for the grade. NGC ID# 255R, PCGS# 7220, CoinPlex ID# M\$M1893

- 4441 1893 MS64 PCGS.** Brilliant surfaces and cartwheel luster add to the eye appeal of this near-Gem. Slight hints of peach color appear at the outer edges. The coin is well-struck overall with only minor incompleteness of strike at the centers. PCGS# 7220, NGC ID# 255R, CoinPlex ID# M\$M1893

- 4442 1893-CC AU53 PCGS.** Both sides of this attractive AU specimen are prooflike with sharp design motifs and a hint of cameo contrast still evident. The surfaces are brilliant and untuned with nearly full luster. PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

- 4443 1893-CC — Improperly Cleaned — NGC Details. Unc.** Well struck for this semikey Carson City issue, but the almond-gold surfaces are hairlined. A few small marks are noted on Liberty's face. Luster dominates the borders but is subdued across the open fields. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

- 4444 1893-CC — Obverse Stained — NGC Details. Unc. VAM-2.** Per VAMworld.com, "late die stage specimens [such as the present piece] are particularly desired as these are believed to be among the very last coins struck at the Carson City Mint." Lustrous and nicely struck with chatter on the left obverse field, a concealed scuff on Liberty's cap, and an arc of ebony patina on the upper obverse margin. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

**Mint State 1893-CC Morgan Dollar**

- 4445 1893-CC MS61 NGC.** Like most examples of this final Carson City issue, this attractive Mint State specimen is sharply detailed, with vibrant mint luster on both sides and a few hints of pale gold toning. A few minor contact marks, the worst being a pair of long, thin scratches in the obverse field, near the chin, explain the grade. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

**Frosty MS62 1893-CC Morgan**

- 4446 1893-CC MS62 PCGS.** A few distributed marks on the cheek and neck of Liberty are consistent with the grade and preclude a finer one, but none of them are particularly large or overt. The frosty surfaces show a tinge of golden patina more prevalent on the reverse, amid complete luster and good eye appeal. A small carbon spot appears atop the second S in STATES. The last of the CC-mint Morgans and a key to the series. PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

---

1893-CC Morgan Dollar, MS62

- 4447** 1893-CC MS62 NGC. The 1893-CC Morgan dollar is a semi-key date from a mintage of 677,000 pieces. This brightly lustrous MS62 example exhibits a sharp strike and mostly brilliant surfaces, with a few hints of golden-tan toning. The obverse shows the expected number of minor contact marks for the grade. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

---

1893-CC Morgan Dollar, MS62  
Last Carson City Issue

- 4448** 1893-CC MS62 NGC. The Carson City Mint closed its doors in 1893, after a small mintage of 677,000 Morgan silver dollars. This impressive MS62 example displays vibrant mint luster and sharply detailed design elements, with a few hints of lavender toning. A scattering of minor contact marks, mostly on the obverse, explains the grade. NGC ID# 255S, PCGS# 7222, CoinPlex ID# M\$M1893CC

---

1893-CC Silver Dollar, MS63  
Deep Obverse Toning

- 4449** 1893-CC MS63 PCGS. Two nearly identical Select Mint State 1893-CC Morgan dollars are offered in the present sale. This piece has intermingled violet, lime-green, steel-gold, and sky-blue toning on the obverse. The reverse is brilliant with hints of gold toning at the border. Both sides have frosty silver luster. PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

---

Final-Year 1893-CC Morgan Dollar, MS63

- 4450** 1893-CC MS63 PCGS. The obverse has considerable dappled sage and blue patina over soft luster. The reverse is closer to brilliant with a stronger cartwheel effect but still some color at the borders. A double clash is noted to the right of the eagle. The 1893-CC issue was cut off by the closure of the Carson City Mint's coining operations. PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC

---

Select 1893-CC Morgan Dollar

- 4451** 1893-CC MS63 PCGS. The obverse of this Select semikey Morgan dollar is darkly toned in shades of bluish-gray, lavender, and sea-green, while the mostly brilliant reverse shows just a few hints of pale gold. The design elements are well-detailed and satiny mint luster shines beneath the toning. PCGS# 7222, NGC ID# 255S, CoinPlex ID# M\$M1893CC
- 
- 4452** 1893-S — **Damaged, Cleaned** — NGC Details. **Good.** This key date silver dollar is thickly hairlined. The reverse and much of the obverse display uniform deep green toning. Two attempted punctures on Liberty's neck are repaired and cause swelling opposite on IN GOD. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S
- 
- 4453** 1893-S **Good 4** NGC. Liberal splashes of attractive toning appear at the outer edges on both sides of this piece displaying overall even wear. The colors include shades of burnt-orange, aquamarine, teal, deep pink, yellow-gold, and russet. There are no marks worthy of mention. This coin displays tremendous eye appeal for the grade. NGC ID# 255U, PCGS# 7226, CoinPlex ID# M\$M1893S

---

### 1893-S Morgan Dollar, Fine 15

**4454 1893-S Fine 15 PCGS.** A well-worn, but still attractive example of the business-strike key to the Morgan dollar series. The surfaces of this Fine 15 specimen are blanketed in mingled shades of bluish-gray, sea-green, and golden-brown toning, with a hint of amber on the upper obverse. No large or distracting abrasions are evident. PCGS# 7226, NGC ID# 255U, CoinPlex ID# M\$M1893S

**4455 1894 VG8 NGC.** Only 110,000 pieces were struck of the 1894, making it prized by collectors in all grades and conditions. Although primarily uniform in color on both sides, hints of golden-yellow are present. The wear is even and the piece retains an attractive appearance. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

**4456 1894 — Improperly Cleaned — NGC Details. AU.** The 1894 is a low mintage Philadelphia issue in demand regardless of grade. The present untoned piece shows only slight wear at the centers but is subdued by a relatively mild cleaning. The left obverse has a few minor marks. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

---

### 1894 Morgan Dollar, MS60 Better P-Mint Date

**4457 1894 MS60 NGC.** The 1894 Morgan dollar is a low-mintage key, seldom encountered in high grade and prized by collectors in all grades and conditions. This attractive MS60 example is sharply detailed throughout and minimally abraded for the grade, with vibrant mint luster and strong eye appeal. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

---

### 1894 Morgan Dollar, MS61 Popular, Low-Mintage Date

**4458 1894 MS61 NGC.** Only 110,000 pieces were struck of the 1894, and when found Uncirculated examples are invariably in the lower grade ranges. This is a brilliant example that is well, but not fully struck, with satiny mint luster. Numerous small abrasions are peppered over the obverse, as one would expect from the grade. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

---

### 1894 Silver Dollar, MS62 Second Lowest Business Strike Mintage

**4459 1894 MS62 NGC.** A favorite issue at Heritage Auctions is the 1894 Morgan dollar, and we are delighted to present multiple examples in the present auction. At least six different examples are offered in this sale. This Mint State piece has satiny white luster with brilliant, untuned silver surfaces. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

---

### Popular 1894 Silver Dollar, MS62 Softly Frosted and Beautifully Toned

**4460 1894 MS62 NGC.** The 1894 Morgan dollar is hotly sought in all grades and quite elusive in Mint State. This beautifully toned MS62 example would form a superlative acquisition for most collectors. Softly frosted, flowing luster complements the amber and gold-toned surfaces that show few marks for the grade, another plus. The strike is sharp throughout both sides, as often seen on this issue. NGC ID# 255V, PCGS# 7228, CoinPlex ID# M\$M1894

---

### 1894 Dollar, MS63 Excellent Eye Appeal

**4461 1894 MS63 PCGS.** Excellent eye appeal is the hallmark of this Select 1894 Morgan dollar, the lowest-mintage circulation strike in the series save for the 1893-S and the subject of hot pursuit among collectors. This piece boasts creamy-white centers with glints of gold and jade near the rims. The frosty surfaces show some minor grazes and roller marks on Liberty's cheek in concert with the grade, but this piece will appeal to many factions within the collector community. The 1894 is popular even in well-circulated condition. PCGS# 7228, NGC ID# 255V, CoinPlex ID# M\$M1894

**4462 1894-O MS61 NGC.** Gunmetal-gray and walnut-brown toning enriches this satiny and minimally abraded scarcer date New Orleans dollar. The hair above the ear and the eagle's breast show softness customary for the issue. NGC ID# 255W, PCGS# 7230, CoinPlex ID# M\$M1894O

- 4463 1894-S MS64 PCGS.** This sharply detailed Choice Morgan dollar displays brilliant surfaces with reflective fields. Surface marks, primarily on the obverse, limited the grade of this attractive piece. The 1894-S is a scarce issue in higher grades. PCGS# 7232, NGC ID# 255X, CoinPlex ID# M\$M1894S

**Gem 1894-S Morgan Dollar  
Lightly Toned Conditional Rarity**

- 4464 1894-S MS65 NGC.** The Gem level is the highest grade seen — albeit infrequently — for the 1894-S Morgan dollar, a grade level where the issue is quite popular and the subject of strong bidding activity. This silver-white piece is frosty with a hint of gold patina, the surfaces showing a few luster grazes consistent with the grade but no mentionable marks. The strike is adequate save for the hair over the ear, where some roller marks appear. A conditional rarity in the Morgan series. Census: 42 in 65, 9 finer (1/13). NGC ID# 255X, PCGS# 7232, CoinPlex ID# M\$M1894S

**Appealing 1895-O Dollar, AU58  
Barely Circulated Example**

- 4465 1895-O AU58 NGC.** Scattered light marks appear in the fields and on the cheek of Liberty, but there is scarcely any trace of rub on the high points, and we believe it is more what we would call "field chatter" that prevents a Mint State grade. Soft luster radiates from each side, and the whisper of pinkish-gold color adds further to the strong eye appeal. The 1895-O dollar is quite pricey in Mint State, so this AU58 coin should prove a convincing alternative for many potential bidders. NGC ID# 255Y, PCGS# 7236, CoinPlex ID# M\$M1895O

**Select 1896-S Morgan Dollar  
Elusive Issue in High Grade**

- 4466 1896-S MS63 NGC.** The 1896-S Morgan dollar is much more difficult to locate in high grade than its mintage of 5 million pieces would indicate. This pleasing Select specimen displays vibrant mint luster and well-detailed design elements, with a scattering of minor contact marks on the obverse that explains the grade. NGC ID# 2564, PCGS# 7244, CoinPlex ID# M\$M1896S

**1896-S Morgan Dollar, MS64+  
Challenging Issue in High Grade**

- 4467 1896-S MS64+ PCGS. CAC.** The peak of the 6 is repunched. This is a much better date near-Gem that boasts dynamic luster and attractive peripheral autumn-gold and jade-green toning. The centers show moderate incompleteness of strike, although the remainder of the design is well impressed. The obverse displays a few minor to moderate grazes. PCGS# 7244, NGC ID# 2564, CoinPlex ID# M\$M1896S

- 4468 1897-S MS66+ PCGS. CAC.** Bright shimmering surfaces and cartwheel luster provide tremendous eye appeal. This high-end Premium Gem displays a sharp strike other than the extreme centers. Whispers of toning appear at the outer edges. Population: 5 in 66+, 22 finer (1/13). PCGS# 7250, NGC ID# 2567, CoinPlex ID# M\$M1897S

- 4469 1898 MS66+ Prooflike PCGS. CAC.** A flashy, high grade Premium Gem, this coin is well-struck and minimally abraded. A few small glimpses of orange toning contribute to the eye appeal. Population: 11 in 66 (1 in 66+) Prooflike, 0 finer (1/13). PCGS# 7253, NGC ID# 2568, CoinPlex ID# M\$M1898PL

- 4470 1898-S MS65 PCGS.** An attractive, minimally abraded example, this Gem displays brilliant, reflective surfaces that include small hints of color. Other than the extreme centers, the coin displays a sharp strike. Population: 405 in 65 (2 in 65+), 69 finer (1/13). PCGS# 7256, NGC ID# 256A, CoinPlex ID# M\$M1898S

**Premium Gem 1899-S Morgan Dollar  
Only One Finer Coin at NGC**

- 4471 1899-S MS66 NGC. CAC.** From a mintage of 2.5 million pieces, the 1899-S Morgan dollar is not a major rarity in the series, but the issue is seldom encountered at the Premium Gem level. This spectacular MS66 specimen is well-detailed and attractive, with mostly brilliant surfaces that show a few hints of pale gold toning. Although not designated as Prooflike, this coin features brightly reflective fields on both sides. Census: 26 in 66, 1 finer (1/13). NGC ID# 256D, PCGS# 7262, CoinPlex ID# M\$M1899S

- 4472 1899-S MS64 Deep Mirror Prooflike ANACS.** The 1899-S is not difficult to locate with prooflike surfaces, but few examples can match the profound field to device contrast of the present coin. Glimpses of peach and rose toning adorn the margins. NGC ID# 256D, PCGS# 97263, CoinPlex ID# M\$M1899SDMPL

- 4473 1900 MS66+ PCGS. CAC.** This brilliant and semiprooflike high grade silver dollar possesses a bold strike and uncommon preservation. A common date overall, but very scarce in the present quality. PCGS# 7264, NGC ID# 256E, CoinPlex ID# M\$M1900

**High Grade 1900-O/CC Dollar, MS66  
Top 100 VAM-8B, Clashed Letters**

**4474 1900-O/CC MS66 PCGS. VAM-8B.** A Top 100 Variety. VAMworld.com gives this variety an Interest Factor of 5, their highest level, due to its clashed letters, die rust, and overmintmark. A lustrous Premium Gem with delicate golden toning and an essentially immaculate reverse. The obverse displays only minor grazes. For all 1900-O/CC VAMs, Population: 83 in 66, 2 finer (1/13). PCGS# 7268, NGC ID# 256G, CoinPlex ID# M\$M1900OCC

**4475 1900-S MS65 PCGS Secure.** Both sides of this attractive Gem are toned in shades of champagne-gold and sea-green, with vibrant mint luster underneath and ample eye appeal. Only a few minor contact marks are evident. PCGS# 7270, NGC ID# 256H, CoinPlex ID# M\$M1900S

**4476 1901 AU58 PCGS.** The 1901 Morgan dollar is surprisingly difficult to locate in high grade. This attractive near-Mint specimen shows just a touch of high-point wear on the well-detailed design elements and bright mint luster on both sides. PCGS# 7272, NGC ID# 256J, CoinPlex ID# M\$M1901

**4477 1901 AU58 PCGS.** The 1901 Morgan dollar is an available date in lower circulated grades, but the issue is quite elusive in Mint State. This attractive near-Mint specimen makes a nice alternative, with well-detailed design elements and lustrous surfaces that show a scattering of minor abrasions and accents of golden-tan toning. PCGS# 7272, NGC ID# 256J, CoinPlex ID# M\$M1901

**Deep Mirror Prooflike Gem  
1901-O Silver Dollar**

**4478 1901-O MS65 Deep Mirror Prooflike NGC.** The 1901-O is readily obtained in Uncirculated grades but only a minuscule percentage of such pieces exhibit blatant field reflectivity. The present Gem has flashy fields and attractive light peripheral rose-red and powder-blue toning. Well preserved, with the cheek especially free from abrasions. Housed in a prior generation holder. Census: 22 in 65 Deep Mirror Prooflike, 1 finer (12/12). NGC ID# 256K, PCGS# 97275, CoinPlex ID# M\$M1901ODMPL

**4479 1902 MS66 PCGS.** A fully brilliant and lovely Premium Gem, this 1902 dollar displays cartwheel luster and outstanding eye appeal. There are relatively few contact marks and they are minor. Only 24 numerically finer pieces are PCGS-certified (1/13). PCGS# 7278, NGC ID# 256M, CoinPlex ID# M\$M1902

**4480 1902-O MS64 Deep Mirror Prooflike NGC. CAC.** An attractive near-Gem, this satiny New Orleans Morgan is brilliant aside from slender orange-gold and powder-blue bands near the rims. Housed in a former generation holder. Census: 60 in 64 Deep Mirror Prooflike, 12 finer (1/13). NGC ID# 256N, PCGS# 97281, CoinPlex ID# M\$M1902ODMPL

**4481 1902-S MS64 PCGS. CAC.** A frosty and lustrous Choice Mint State specimen, this pleasing dollar has light ivory surfaces with peripheral gold toning splashes on each side. Slight central weakness is expected for the issue. PCGS# 7282, NGC ID# 256P, CoinPlex ID# M\$M1902S

**4482 1902-S MS64+ PCGS. CAC.** Brilliant, reflective surfaces and cartwheel luster add to the visual appeal of this high-end near-Gem example. The coin is well-struck and is held from a higher grade due to contact marks. PCGS# 7282, NGC ID# 256P, CoinPlex ID# M\$M1902S

**4483 1904 MS65 PCGS.** This sharply detailed Gem displays lustrous surfaces, with accents of golden-tan patina and strong mint luster. The Morgan dollar design was retired after 1904, but made a one-year comeback in 1921. PCGS# 7290, NGC ID# 256U, CoinPlex ID# M\$M1904

**PROOF MORGAN DOLLARS**

**1880 Morgan Dollar, PR64  
Medium-Intensity Toning**

**4484 1880 PR64 PCGS.** Light shades of apple-green and cerulean-blue toning blanket the well-preserved surfaces of this impressive Choice specimen. The design elements are sharply rendered throughout and the fields are deeply mirrored, under the patina. Eye appeal is outstanding. Population: 90 in 64, 93 finer (1/13). PCGS# 7315, NGC ID# 2724, CoinPlex ID# M\$P1880

**Gem Proof 1881 Morgan Dollar**

**4485 1881 PR65 NGC.** Both sides of this Gem proof Morgan yield a slight golden-tan cast with lavender-blue at the margins. Contrast is present if not Cameo-grade, and a solid strike leaves strong detail on the design features. A few grade-consistent marks are largely inconsequential, as Liberty's cheek and neck are remarkably clean. Census: 27 in 65, 38 finer (1/13). NGC ID# 2725, PCGS# 7316, CoinPlex ID# M\$P1881

---

**Choice Proof 1886 Morgan Dollar**  
**Rich, Elegant Patina**

- 4486 1886 PR64 PCGS.** An impressive Choice proof with deep obverse patina and lighter reverse toning. The obverse has a blend of blue, brown, and iridescent hues, while the reverse is lighter gold with the iridescence as a substantial overtone. One of 886 proofs coined for this issue, and clearly among the most beautiful survivors. Population: 41 in 64, 36 finer (1/13). PCGS# 7321, NGC ID# 27ZF, CoinPlex ID# M\$P1886

---

**1887 Morgan Dollar, PR64**  
**Only 710 Pieces Minted**

- 4487 1887 PR64 PCGS.** The production of proof Morgan dollars was sharply reduced in 1887, to a paltry 710 examples. Although the field-device contrast does not quite rise to the Cameo level on this attractive Choice example, the sharply detailed design elements show considerable mint frost and the fields are brightly reflective. A few hints of pale gold toning add to the strong visual appeal. Population: 62 in 64, 44 finer (1/13). PCGS# 7322, NGC ID# 27ZG, CoinPlex ID# M\$P1887

---

**Patinated Choice Proof 1890 Dollar**

- 4488 1890 PR64 NGC. CAC.** Butter-gold toning dominates this boldly struck near-Gem, though the borders also exhibit powder-blue shades. The fields are flashy but the original patina precludes any Cameo designation. From a meager proof mintage of 590 pieces. Certified in a former generation holder. NGC ID# 27ZK, PCGS# 7325, CoinPlex ID# M\$P1890

---

**1891 Morgan Dollar, PR64**  
**Sharp Details, Dark Toning**

- 4489 1891 PR64 NGC.** From a small mintage of only 650 pieces, the 1891 proof Morgan dollar is often seen with a soft strike on the central devices. However, this impressive Choice example exhibits sharp details throughout, with darkly toned reflective surfaces that show vivid gray, violet, and cerulean-blue hues. Census: 42 in 64, 65 finer (1/13). NGC ID# 27ZL, PCGS# 7326, CoinPlex ID# M\$P1891

- 
- 4490 1892 PR58 NGC.** An obvious proof despite a trace of high-point rub, this piece has light silver highlights with gray and golden-brown toning. The fields retain much of their mirrored surface. NGC ID# 27ZM, PCGS# 7327, CoinPlex ID# M\$P1892

---

**Proof 1894 Silver Dollar**

- 4491 1894 PR61 PCGS.** A precisely struck caramel-gold specimen with a few faint field hairlines. The 1894 has a proof mintage of just 972 pieces, and its associated business strike issue is among the keys to the series. Encapsulated in an old green label holder. Ex: *Superior*, 10/1990, lot 1592. PCGS# 7329, NGC ID# 2577, CoinPlex ID# M\$P1894

- 
- 4492 1897 PR62 NGC.** A well-detailed PR62 example of this Morgan dollar issue, from a mintage of 731 pieces. The deeply mirrored fields show a few wisps of burnt-orange toning and a few minor hairlines, with minimal signs of contact. NGC ID# 27ZV, PCGS# 7332, CoinPlex ID# M\$P1897

**1897 Morgan Dollar, PR65**  
Only 731 Pieces Struck

- 4493 1897 PR65 NGC.** The small mintage of 731 proof Morgan dollars was well-produced, and this attractive Gem is a memorable example. The design elements are sharply rendered in most areas, with just a touch of softness on the hair strands above Liberty's ear. The reflective surfaces are toned in shades of blue, green, and lavender. Census: 21 in 65 (1 in 65+), 44 finer (1/13). NGC ID# 27ZV, PCGS# 7332, CoinPlex ID# M\$P1897

**Multicolor PR64 1900 Silver Dollar**

- 4494 1900 PR64 PCGS.** Deep sea-green, tan-brown, and dove-gray toning encompasses this scarce proof silver dollar. Fully struck, undisturbed, and void of detractors. The fields are flashy despite the multicolor patina. Encapsulated in a green label holder. A scant 912 proofs were produced. PCGS# 7335, NGC ID# 27ZY, CoinPlex ID# M\$P1900

**1902 Morgan Dollar, PR64**  
First Year of All-Brilliant Finish

- 4495 1902 PR64 PCGS.** The Mint began using an all-brilliant finish for proofs in 1902, but this coin shows an unusual amount of mint frost for the date. The design elements are well-detailed, with just a touch of softness on the hair above the ear, and the fields are deeply mirrored. The surfaces are toned in shades of apple-green and champagne-gold. Population: 82 in 64, 45 finer (1/13). PCGS# 7337, NGC ID# 2822, CoinPlex ID# M\$P1902

**1903 Morgan Dollar, PR63**  
Vivid Toning, Bright Mirrors

- 4496 1903 PR63 PCGS.** Vivid shades of apple-green and cobalt-blue toning create a spectacular play of colors on the deeply reflective surfaces of this attractive Select proof. The design elements are sharply detailed, but lack the thick mint frost of earlier years, reducing field-device contrast. From a small proof mintage of 755 pieces. PCGS# 7338, NGC ID# 2823, CoinPlex ID# M\$P1903

**Choice Proof 1904 Morgan Dollar**  
Dark Toning, Unusual Mint Frost

- 4497 1904 PR64 PCGS.** Dark purple and lime-green toning envelopes the well-preserved and deeply mirrored fields of this attractive Choice specimen. The design elements show more mint frost than usual for a proof of this era and the devices are well-struck, with just a touch of softness on the hair above the ear. Population: 81 in 64 (1 in 64+), 50 finer (1/13). PCGS# 7339, NGC ID# 2824, CoinPlex ID# M\$P1904

**Gem Proof 1904 Morgan Dollar**  
Vivid Toning

- 4498 1904 PR65 NGC.** Only 650 proof Morgan dollars were struck in 1904, using the all-brilliant finish that the Mint adopted in 1902. This attractive Gem is patinated in vivid shades of champagne-gold and cerulean-blue, with sharply detailed design elements and deeply mirrored fields that shine through the toning. Census: 43 in 65 (1 in 65+), 55 finer (1/13). NGC ID# 2824, PCGS# 7339, CoinPlex ID# M\$P1904

## PEACE DOLLARS

- 4499 1921 MS64 PCGS. CAC.** Broad “halo” luster enlivens the mostly silver surfaces of this Choice first-year Peace dollar. A few hints of blue and patches of gray appear, the latter most prominently near the left obverse rim. PCGS# 7356, NGC ID# 2U4E, CoinPlex ID# P\$M1921

### White MS66 1922-D Dollar Top 50 VAM-3A Doubled Die Reverse

- 4500 1922-D MS66 NGC. VAM-3A, R.6.** A Top 50 Variety. The “Doubled Leaves” VAM with reverse die doubling evident on the edges of the leg feathers and leaves. Designated as VAM-3 but in fact the later die state VAM-3A with bold die cracks near IN. VAMworld.com credits John Bradley with the discovery of VAM-3A in February 2010. Brilliant and lustrous with remarkable preservation. NGC ID# 257D, PCGS# 7358, CoinPlex ID# P\$M1922D
- 4501 1922-D MS66+ NGC.** This lustrous Denver Mint type coin has a hint of golden toning though many would consider it brilliant. The fields are unabraded and the portrait displays only trivial contact. NGC ID# 257D, PCGS# 7358, CoinPlex ID# P\$M1922D
- 4502 1922-S MS65 PCGS. CAC.** The 1922-S Peace dollar is a condition rarity in grades above the Gem level. This delightful Gem displays well-detailed design elements and lustrous surfaces, with pleasing shades of golden-brown toning. PCGS has graded only seven coins in higher numeric grades (1/13). PCGS# 7359, NGC ID# 257E, CoinPlex ID# P\$M1922S

### Gem 1923-S Peace Dollar Scarce in High Grades

- 4503 1923-S MS65 NGC.** Bright and highly lustrous with no singularly mentionable abrasions on either side. Just a bit softly struck in the centers, as always. A short horizontal grease stain is seen in the lower left obverse field. Very scarce in Gem condition.  
*Ex: Santa Clara Signature (Heritage, 11/2001), lot 7360.*  
*From The Fenn Family Collection.* NGC ID# 257H, PCGS# 7362, CoinPlex ID# P\$M1923S
- 4504 1924 MS66+ NGC. CAC.** Both sides of this lovely high-end Premium Gem exhibit satin luster. Attractive areas of golden-orange toning appear along with flecks of deep gray. A thin die crack extends from an area near the 1 in the date to the first T in TRUST. NGC ID# 257J, PCGS# 7363, CoinPlex ID# P\$M1924

- 4505 1924-S MS64 PCGS. CAC.** The 1924-S is much scarcer in Mint State than its 1922-S and 1923-S predecessors. The present lustrous near-Gem displays exquisite peach-gold and powder-blue toning. Nicely struck and desirable. PCGS# 7364, NGC ID# 257K, CoinPlex ID# P\$M1924S

- 4506 1925 MS66 NGC. VAM-5.** A Top 50 Variety. The ray behind the leg feathers is absent due to polished dies, the same cause as the better known 1937-D Three Legged nickel variety. A lustrous and Peace dollar with a hint of gold patina. Nearly pristine aside from a minor obverse fingerprint at 2 o'clock. NGC ID# 257L, PCGS# 7365, CoinPlex ID# P\$M1925

- 4507 1925 MS66 NGC. VAM-3.** A Top 50 Variety. The “Doubled Shoulder” DDR with the leaves and rays also showing die doubling. This lustrous high grade example displays a wisp of olive-gold toning, though many observers would call it brilliant. The obverse appears pristine and the reverse has only minor contact on the eagle and near the O in DOLLAR. NGC ID# 257L, PCGS# 7365, CoinPlex ID# P\$M1925

- 4508 1925-S MS64+ PCGS. CAC.** This high-end Choice specimen is well-detailed, with a touch of the typical softness on the central devices. The lightly marked surfaces are blanketed in shades of golden-brown and turquoise toning, with strong mint luster underneath. PCGS has certified only 37 coins in higher numeric grades (1/13). PCGS# 7366, NGC ID# 257M, CoinPlex ID# P\$M1925S

- 4509 1926-S MS65 PCGS. CAC.** Brilliant satin surfaces lead to tremendous eye appeal for this lovely Gem. Green speckles appear to the right of the eagle on the reverse. PCGS has assigned higher numeric grades to only 66 examples (1/13). PCGS# 7369, NGC ID# 257R, CoinPlex ID# P\$M1926S

- 4510 1928-S MS64 PCGS. CAC.** This well-detailed Choice Peace dollar possesses outstanding eye appeal, with vibrant mint luster and attractive accents of golden-brown patina. Only a few minor signs of contact are evident. PCGS# 7374, NGC ID# 257W, CoinPlex ID# P\$M1928S

- 4511 1928-S MS64 PCGS. CAC.** The creamy surfaces of this impressive Choice Peace dollar are well-preserved and brightly lustrous, with well-detailed design elements and exceptional eye appeal. PCGS has graded 49 numerically finer examples (1/13). PCGS# 7374, NGC ID# 257W, CoinPlex ID# P\$M1928S

### 1934-S Peace Dollar, MS62 Popular Late-Series Key

- 4512 1934-S MS62 PCGS. CAC.** The 1934-S is a key date in the Peace dollar series, with a low mintage and a low survival rate in high grade. Most of the mintage was released into circulation at the time of issue, and few high-quality examples were saved. This pleasing MS62 specimen exhibits well-detailed design elements and satiny mint luster, under light shades of golden-tan and crimson patina. PCGS# 7377, NGC ID# 257Z, CoinPlex ID# P\$M1934S

Choice 1934-S Peace Dollar  
Immaculate Obverse Surfaces

- 4513 1934-S MS64 NGC.** From a smallish mintage of just over 1 million pieces, the 1934-S Peace dollar was not heavily saved by contemporary collectors. As a result, the 1934-S is quite scarce in high grade today. This attractive MS64 example offers well-detailed design elements, with vibrant satiny mint luster and exceptional eye appeal. Only a few minor contact marks in the left reverse field prevent an even higher grade. NGC ID# 257Z, PCGS# 7377, CoinPlex ID# P\$M1934S

1934-S Peace Dollar, MS64  
Scarce Issue in Higher Grades

- 4514 1934-S MS64 PCGS. CAC.** The design elements of this impressive Choice Peace dollar are sharply detailed in most areas, but a touch of the typical softness shows on Liberty's hair. The well-preserved surfaces radiate vibrant mint luster, with outstanding eye appeal. The 1934-S is a sought-after key to the series. PCGS# 7377, NGC ID# 257Z, CoinPlex ID# P\$M1934S

SACAGAWEA DOLLAR

Scarce Goodacre Presentation  
2000-P Sacagawea Dollar, SP69

- 4515 2000-P Goodacre SP69 ICG.** Sculptor Glenna Goodacre designed the obverse of the Sacagawea dollar. For her efforts, she was due \$5,000 from the Treasury. She requested her payment in Sacagawea dollars. Those received a special satin finish by the Mint prior to their receipt by Goodacre on April 5, 2000. This example is fully struck and satiny with flawless surfaces. A trace of gray toning is on the reverse rim near 9 o'clock. NGC ID# 259K, PCGS# 99584

COMMEMORATIVE SILVER

1893 Isabella Quarter  
Lightly Toned, Attractive Gem

- 4516 1893 Isabella Quarter MS65 PCGS. CAC.** Softly glowing luster is the highlight of this Gem Isabella quarter, a piece with excellent eye appeal due to the relative lack of abrasions and original surfaces, pinkish-gold and well-struck on both sides. This Gem would fit nicely into (or form a good start to) a complete commemorative type set. PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

Patinated MS65 Isabella Quarter

- 4517 1893 Isabella Quarter MS65 PCGS. CAC.** This lovely Gem displays emerald-green, rose-red, and cream-gray toning. The strike is full except on the lower reverse dentils. Devoid of marks and certain to attract bidder attention. The Isabella quarter is the sole U.S. coin type to depict a foreign ruler. PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

Beautifully Toned Gem 1893 Isabella Quarter

- 4518 1893 Isabella Quarter MS65 PCGS. CAC.** The Isabella quarter is unusual both in its denomination and in its design — women on both sides, one a historical figure, the other an archetype (or stereotype) of women of the era. Together they make the Isabella quarter a popular outlier in the silver commemorative series, just as is the 1900 Lafayette dollar. This Gem boasts the usual sharp strike with original surfaces showing moderate russet-gold patina that congregates most heavily at the rims and the reverse high points, a beautiful example of the type. PCGS# 9220, NGC ID# 28HR, CoinPlex ID# COM1893ISABELLA

- 4519 1900 Lafayette Dollar MS64 PCGS. DuVall 1-B.** Slender bands of cherry-red, lemon-gold, and lime-green endow the margins of this lustrous and well struck Choice Lafayette dollar. Inspection beneath a lens fails to locate any detractors. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE
- 4520 1900 Lafayette Dollar MS64 NGC. DuVall 1-B.** Golden-brown and lilac-red toning adorns the borders. A blush of sea-green is beneath Bartlett's statue of Lafayette. A coruscating Choice silver dollar with unmarked surfaces and a bold strike. NGC ID# 28N8, PCGS# 9222, CoinPlex ID# COM1900LAFAYETTE
- 4521 1900 Lafayette Dollar MS64 PCGS. CAC. DuVall 2-C.** An almond-gold near-Gem with dynamic cartwheel luster and only a few minor field and facial marks. One slender gray streak is noted on the left reverse field. The only silver dollar entry in the classic commemorative series. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE
- 4522 1900 Lafayette Dollar MS64 NGC. CAC. DuVall 2-C.** Lovely autumn-gold and powder-blue margins encompass the medium dove-gray centers. The reverse periphery displays hints of plum-red and blue-green. Well struck and satiny with smooth fields and minor contact on the portraits. NGC ID# 28N8, PCGS# 9222, CoinPlex ID# COM1900LAFAYETTE

**MS64+ Lafayette Dollar  
Dynamic Cartwheel Luster**

- 4523 1900 Lafayette Dollar MS64+ PCGS. CAC. DuVall 1-B.** Light to medium autumn-gold and jade-green toning enriches the peripheries of this lustrous and crisply struck near-Gem. The fields are well preserved, and the coin would likely command an even higher grade were it not for a single bagmark on Washington's cheek. PCGS# 9222, NGC ID# 28N8, CoinPlex ID# COM1900LAFAYETTE
- 4524 1921 Alabama MS65 PCGS. CAC.** Vibrant satin luster emanates from both sides of this attractive Gem. Splashes of color that include shades of lemon, peach, mint-green, and dusty-rose further enhance the appearance. The majority of the design elements are well-struck with some incompleteness of strike noted at the eagle's upper leg as is often seen. PCGS# 9224, NGC ID# 28HT, CoinPlex ID# COM1921ALA
- 4525 1921 Alabama 2x2 MS65 PCGS.** Rich satin luster emanates from both sides of this appealing Gem that displays prominent design details. The coin is brilliant with only subtle hints of color. Governor Kilby's cheek exhibits only the most inconsequential marks and there are no abrasions worthy of mention. PCGS# 9225, NGC ID# 28HS, CoinPlex ID# COM1921ALA2X2
- 4526 1921 Alabama 2x2 MS65 PCGS.** Lustrous satin surfaces provide this Gem with attractive visual appeal. The minimally abraded piece is largely untuned other than a few small toning spots on the reverse. A long vertical die crack extends through much of the eagle. PCGS# 9225, NGC ID# 28HS, CoinPlex ID# COM1921ALA2X2

- 4527 1937 Antietam MS66 PCGS. CAC.** The obverse in particular exhibits pleasing luster on this Premium Gem. Although the colors on the reverse are not as pronounced, the obverse is richly colored with mingled areas of tan, lime-green, cherry, and orange along with a few small splashes of bright kelly-green. This pleasing example is well-struck and virtually free of abrasions. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM
- 4528 1937 Antietam MS66 PCGS. CAC.** The centers remain essentially untuned on this appealing Premium Gem. Toning frames large portions of the outer edges, primarily an attractive pale yellow tone, although other colors also appear. Brilliant luster radiates from each side of this well-struck piece. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM
- 4529 1937 Antietam MS66 PCGS. CAC.** Flecks of toning cover both sides of this Premium Gem, with greater concentrations appearing at the outer edges. A number of colors are present, including golden-orange, pink, cherry, and numerous shades of green. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM
- 4530 1937 Antietam MS66 PCGS. CAC.** Vivid orange, russet, olive-green, and golden-brown are among the colors that largely cover both sides of this lovely Premium Gem. The piece exhibits attractive detail. PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM
- 4531 1937 Antietam MS67 PCGS.** This Civil War commemorative was struck in commemoration of the bloodiest day in American history. Also known as the Battle of Sharpsburg to those in the South, there were 22,720 casualties, including 3,650 soldiers killed. This Superb Gem displays softly frosted mint luster with accents of color that include russet and yellow-brown. PCGS has awarded higher numeric grades to only 15 examples (1/13). PCGS# 9229, NGC ID# 28HV, CoinPlex ID# COM1937ANTIETAM

- 4532 1935-D Arkansas MS67 NGC. CAC.** Primarily cream-gray, though glimpses of golden-brown and navy-blue visit the margins. Lustrous and unabraded with only a hint of inexactness of strike on the eagle's chest. Census: 27 in 67 (2 in 67+), 0 finer (1/13). NGC ID# 28HX, PCGS# 9234, CoinPlex ID# COM1935DARK

**Superb Gem 1936-S Arkansas Centennial Half  
Lightly Toned, None Finer Certified**

- 4533 1936-S Arkansas MS67 PCGS. CAC.** This is the San Francisco version from the "true" centennial year 1936, marking the 100th anniversary of Arkansas' entry into the Union. PCGS has seen only 12 submissions at the MS67 grade level of this piece, a lightly toned pinkish-gray piece with only scattered small marks and a thin ring of iridescence on the portrait (obverse) side (1/13). PCGS# 9239, NGC ID# 28J3, CoinPlex ID# COM1936SARK
- 4534 1938 Arkansas MS66+ PCGS. CAC.** Sun-gold toning fills the margins though the majority of the coin is light stone-gray. This intricately struck Premium Gem has sweeping luster and displays only minute contact. Population: 92 in 66 (7 in 66+), 8 finer (1/13). PCGS# 9245, NGC ID# 28J7, CoinPlex ID# COM1938ARK

**Premium Gem 1939 Arkansas Half  
Border-Toned Elegance**

**4535 1939 Arkansas MS66 NGC. CAC.** The multiyear striking abuses of certain commemorative series, including the Arkansas design, ended with legislation in 1939. This Premium Gem from the last Philadelphia issue comes from a mintage of just 2,104 pieces. Satiny gray interiors gain a peach hue at the margins, most obviously toward the left. NGC ID# 28JA, PCGS# 9249, CoinPlex ID# COM1939ARK

**4536 1936-S Boone MS67+ NGC. CAC.** Satin luster emanates from both sides of this high-end Superb Gem creating attractive eye appeal. Golden-orange toning covers large portions of the obverse, with an array of colors present near the outer edges, including bright deep-pink color and several hues of green. Moss and sea-green appear on the reverse along with small areas of lemon, fuchsia, lilac, and bright orange near the rims. Census: 33 in 67 (1 in 67+), 1 finer (1/13). NGC ID# 28JP, PCGS# 9268, CoinPlex ID# COM1936SBOONE

**4537 1936 Bridgeport MS67 PCGS.** Hints of tan-green, steel-blue, and apricot color appear on this Superb Gem along with small speckles of toning. A few minor contact marks appear on the high points of the obverse featuring a portrait of P.T. Barnum. Population: 62 in 67 (2 in 67+), 0 finer (1/13). PCGS# 9279, NGC ID# 28JX, CoinPlex ID# COM1936BRIDGEPT

**4538 1925-S California MS66 PCGS.** Vibrant satiny mint luster shines through attractive shades of pale gold, lavender, and green patina on the pristine surfaces of this spectacular Premium Gem. The design elements are sharply rendered and eye appeal is outstanding. PCGS# 9281, NGC ID# 28JY, CoinPlex ID# COM1925SCALIF

**4539 1925-S California MS66+ PCGS. CAC.** Lustrous surfaces along with large splashes of color that include sage, russet, olive-green, forest-green, golden-brown, gray, and steel-blue add to the visual appeal of this high-end Premium Gem. PCGS# 9281, NGC ID# 28JY, CoinPlex ID# COM1925SCALIF

**1925-S California Half Dollar, MS67  
Spectacular Multicolor Toning**

**4540 1925-S California MS67 PCGS. CAC.** Attractively toned in shades of cerulean-blue, violet, and champagne-gold, this spectacular Superb Gem presents sharply detailed design elements and vibrant satiny mint luster throughout. No mentionable distractions are present and eye appeal is tremendous. Population: 87 in 67, 5 finer (1/13). PCGS# 9281, NGC ID# 28JY, CoinPlex ID# COM1925SCALIF

**4541 1936 Cincinnati MS66 PCGS.** Dappled golden-brown and ivory-gray toning endows this coruscating and high grade silver commemorative. Though the Cincinnati half commemorates an 1886 event of obscure significance, the type is always in demand due to its low mintage. PCGS# 9283, NGC ID# 28JZ, CoinPlex ID# COM1936CINCI

**4542 1936 Cincinnati MS66 PCGS. CAC.** A high-grade example of this semikey type, this piece features gunmetal-blue adorning the obverse along with a wisp or two of peripheral sun-gold. The reverse field is richly patinated in blended peach and apple-green, while the kneeling figure is stone-gray. PCGS# 9283, NGC ID# 28JZ, CoinPlex ID# COM1936CINCI

**4543 1936-D Cincinnati MS66 PCGS. CAC.** Subtle golden and tan toning appears on the obverse of this attractive example while the reverse is virtually free of toning. The central design on the reverse displays a contact mark at the left thigh. Hairlines are present on both sides. PCGS# 9284, NGC ID# 28K2, CoinPlex ID# COM1936DCINCI

**4544 1936-D Cincinnati MS66+ NGC. CAC.** From a desirable low mintage type, this piece features iridescent apple-green, lemon-gold, and ruby-red toning along the reverse periphery. The remainder of this Premium Gem displays light honey patina. Lustrous and well preserved with a good strike. NGC ID# 28K2, PCGS# 9284, CoinPlex ID# COM1936DCINCI

**4545 1936-S Cincinnati MS66 PCGS.** This is a very pleasing representative of the San Francisco-produced pieces. Scattered toning in shades of tan, orange, and gold appears. The obverse displays a few small reed marks. Population: 54 in 66 (1 in 66+), 1 finer (1/13). PCGS# 9285, NGC ID# 28K3, CoinPlex ID# COM1936SCINCI

**4546 1936 Cleveland MS67 PCGS.** Attractive toning rings the outer edges of the obverse and includes shades of violet, ice-blue, pink, and light-gold. Hairlines also appear. The same is true on the reverse, with the colors consisting of shades of bright yellow, sea-green, fuchsia, gray, and violet. Both sides display reed marks, although they are primarily located on the reverse. The luster is quite appealing. Population: 44 in 67 (1 in 67+), 1 finer (1/13). PCGS# 9288, NGC ID# 28K4, CoinPlex ID# COM1936CLEVE

**4547 1936 Columbia MS67 PCGS. CAC.** Toning appears at the extreme outer edges of both sides of this Superb Gem. The colors include gold, russet, and gray. The coin displays attractive luster on both sides. Although contact marks are present, they are minor. Population: 64 in 67 (5 in 67+), 0 finer (1/13). PCGS# 9291, NGC ID# 28K5, CoinPlex ID# COM1936COLUMBIA

**4548 1936-D Columbia MS67 ★ NGC.** The tab-toned obverse shows vibrant apple-green, rose-red, and orange-gold toning at the margin and bull's-eye where the coin was exposed while housed in an original holder (not included). The reverse displays similar attractive shades. Census: 10 in 67 ★, 27 finer with a Star designation (1/13). NGC ID# 28K6, PCGS# 9292, CoinPlex ID# COM1936DCOLUMBIA

**4549 1892 Columbian MS66 PCGS. CAC.** This early commemorative half dollar displays vivid shades of gold, violet, and lavender patina, with vibrant mint luster and sharply detailed design elements. PCGS has graded only 13 examples in higher numeric grades (1/13). PCGS# 9296, NGC ID# 26H5, CoinPlex ID# COM1892COLUMBIAN

**4550 1892 Columbian MS66 PCGS. CAC.** Only the most minor abrasions are present on this brilliant and lustrous Premium Gem example. This is a lovely, well-struck representative with a high degree of eye appeal. PCGS has assigned higher numeric grades to only 13 examples (1/13). PCGS# 9296, NGC ID# 26H5, CoinPlex ID# COM1892COLUMBIAN

**4551 1893 Columbian MS66+ NGC.** A beautifully toned example of this "souvenir" coin that features blended jade-green, caramel-gold, and cherry-red colors. Both sides of this satiny piece are remarkably well-preserved, even by Premium Gem standards. NGC ID# 26H6, PCGS# 9297, CoinPlex ID# COM1893COLUMBIAN

**4552 1893 Columbian MS66 PCGS. CAC.** This is a lustrous, well-struck, untuned example that displays very few abrasions and they are minor. This Premium Gem displays tremendous eye appeal. Only 11 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 9297, NGC ID# 26H6, CoinPlex ID# COM1893COLUMBIAN

**4553 1935 Connecticut MS66 NGC. CAC.** Delicate chestnut-gold and ivory-gray shades alternate across lustrous and smooth surfaces. A nearly pristine example of this handsomely designed state tercentenary type. NGC ID# 28K8, PCGS# 9299, CoinPlex ID# COM1935CONN

---

**Pristine 1935 Connecticut Half, MS67  
One Single Coin Finer at PCGS**

**4554 1935 Connecticut MS67 PCGS.** The modernistic eagle design on the Connecticut half, designed by Henry Kreis, is not to every collector's taste, but this Superb Gem shows off both it and the Charter Oak on the other side to full advantage. The lustrous surfaces show just a touch of gold in the exergue of the tercentenary date side, with silver-gray untuned — and unmarked — surfaces elsewhere. Population: 52 in 67 (3 in 67+), 1 finer (1/13). PCGS# 9299, NGC ID# 28K8, CoinPlex ID# COM1935CONN

**4555 1936 Delaware MS67 PCGS.** Specks of green-gray toning appear primarily on the obverse. More concentrated areas of patina, in shades of deep russet and olive-green, are visible at the outer bottom edges of the obverse. This lustrous Superb Gem also displays hints of light pink and sage. Minor contact marks are visible, primarily on the reverse. Population: 87 in 67 (8 in 67+), 1 finer (1/13). PCGS# 9301, NGC ID# 28K9, CoinPlex ID# COM1936DELAWARE

**4556 1936 Delaware MS67 PCGS. CAC.** Attractive luster emanates from both sides of this Superb Gem. Tiny speckles of brown toning appear on both sides while the obverse exhibits areas of gold, apricot, and olive-green toning along portions of the outer edges. Only minor contact marks are observed. Population: 87 in 67 (8 in 67+), 1 finer (1/13). PCGS# 9301, NGC ID# 28K9, CoinPlex ID# COM1936DELAWARE

**4557 1936 Delaware MS67 PCGS. CAC.** This lustrous, well-struck Superb Gem displays pastel shades of apricot-gold, lime-green, and rose-red on both sides, with the deepest shades on the obverse. A few small reed marks appear on this attractive representative. Population: 87 in 67 (8 in 67+), 1 finer (1/13). PCGS# 9301, NGC ID# 28K9, CoinPlex ID# COM1936DELAWARE

**4558 1936 Elgin MS67 PCGS.** The obverse of this Superb Gem exhibits tab toning, with the color consisting of shades of golden-brown. Similar colors appear on the reverse along with hints of green and violet. The reverse displays the lightly-struck, grainy surfaces that are often encountered. Only four examples have received higher numeric grades from PCGS (1/13). PCGS# 9303, NGC ID# 28KA, CoinPlex ID# COM1936ELGIN

**4559 1936 Gettysburg MS66 PCGS. CAC.** An array of vibrant toning appears on both sides, but is primarily limited to the fields on the obverse, accentuating the design elements. The splashes of color include intermingled shades of olive-green, cherry, brown, and dark charcoal-gray. Other than a small mark near the Union soldier's cheek, this example is virtually free of abrasions. PCGS# 9305, NGC ID# 28KB, CoinPlex ID# COM1936GETTYSBURG

**4560 1936 Gettysburg MS67 NGC.** Attractive luster and pleasing surfaces add to the visual appeal of this Superb Gem. Areas of toning appear primarily at the extreme outer edges although other areas exhibit tiny freckles. A couple of small reed marks are scattered on the obverse and appear on the Union shield. Census: 57 in 67, 2 finer (1/13). NGC ID# 28KB, PCGS# 9305, CoinPlex ID# COM1936GETTYSBURG

**4561 1922 Grant With Star MS64 NGC.** This is a very attractive coin for the grade. The surfaces of this near-Gem display the usual brightness, a result of the die polishing marks on each side. A light reddish-gold patina darkens slightly around the margins. NGC ID# 28KC, PCGS# 9307, CoinPlex ID# COM1922GRANTSTAR

**4562 1928 Hawaiian MS62 ANACS.** This representative of the scarcest silver commemorative type displays deep aqua flecks and russet color at portions of the outer edges, primarily on the obverse. Surface marks appear in the field under portions of UNITED STATES. NGC ID# 28KE, PCGS# 9309, CoinPlex ID# COM1928HAWAIIAN

---

**Choice 1928 Hawaiian Half Dollar  
Key Silver Commemorative**

**4563 1928 Hawaiian MS64 PCGS. CAC.** The 1928 Hawaiian half dollar is one of the key issues in the silver commemorative series, with a distribution total of less than 10,000 pieces. This delightful Choice example exhibits sharply detailed design elements with especially vibrant mint luster. The mostly brilliant surfaces show just an occasional touch of light gold toning. PCGS# 9309, NGC ID# 28KE, CoinPlex ID# COM1928HAWAIIAN

**4564 1935 Hudson MS65 NGC.** A russet-brown, lilac-red, stone-gray, and lime-green Gem of the low mintage Hudson type. Satiny and nicely struck with an unmarked appearance. Certified in a prior generation holder. NGC ID# 28KF, PCGS# 9312, CoinPlex ID# COM1935HUDSON

**4565 1935 Hudson MS65 PCGS.** A softly lustrous emerald-gray representative, this piece exhibits scattered toning in shades of gold and olive-green with hints of red. A well-struck and pleasing Gem. PCGS# 9312, NGC ID# 28KF, CoinPlex ID# COM1935HUDSON

**4566 1935 Hudson MS66 PCGS. CAC.** The color on this lovely Premium Gem includes splashes of honey-gold, lime-green, orange, and pale red. The centers exhibit the typical incompleteness of strike and minor contact marks are present. PCGS has awarded higher numeric grades to a mere 7 examples (1/13). PCGS# 9312, NGC ID# 28KF, CoinPlex ID# COM1935HUDSON

**4567 1925 Lexington MS66 PCGS.** Attractive satin luster adds to the visual appeal of this Premium Gem. The centers remain largely silver, but attractive toning covers large portions of the outer edges including shades of orange, gold, russet, and cherry. Only 10 examples have achieved higher numeric grades from PCGS (1/13). PCGS# 9318, NGC ID# 28KK, CoinPlex ID# COM1925LEXINGTON

**4568 1925 Lexington MS66 PCGS. CAC.** Delicate honey-gold and sky-gray patina encompasses this satiny and sharply struck Premium Gem. Traces of lavender toning are confined to the obverse rim. Any marks require thorough evaluation to confirm. PCGS# 9318, NGC ID# 28KK, CoinPlex ID# COM1925LEXINGTON

- 4569 1925 Lexington MS66 PCGS. CAC.** A well-detailed Premium Gem specimen of this popular silver commemorative, with vibrant mint luster on both sides and even shades of champagne-gold toning. PCGS has certified only 10 coins in higher numeric grades (1/13). PCGS# 9318, NGC ID# 28KK, CoinPlex ID# COM1925LEXINGTON
- 4570 1925 Lexington MS66 PCGS. CAC.** Brilliant satin luster adds to the visual appeal of this Premium Gem. Small areas of toning appear on both sides of the virtually unabraded piece, with the colors including red, lime-green, gray, yellow, and brown. Only 10 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 9318, NGC ID# 28KK, CoinPlex ID# COM1925LEXINGTON
- 4571 1918 Lincoln MS66 PCGS. CAC.** A beardless Abraham Lincoln faces to the right on this Illinois Centennial commemorative half dollar, often referred to as the Lincoln, Illinois, or Lincoln-Illinois commemorative. Subtle toning in hues of tan, gold, dusty-rose, and sage appears on this attractive Premium Gem. The piece exhibits a bold strike and displays a lovely frosty luster. PCGS# 9320, CoinPlex ID# COM1918LINCOLN
- 4572 1936 Long Island MS66 PCGS. CAC.** Pale shades of gold, green, and red add to the visual appeal of this lovely Premium Gem. Areas of dark gray freckles also appear. The surface marks are minor in nature. Only 38 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 9322, NGC ID# 28KL, CoinPlex ID# COM1936LONGISL

**Superb Gem 1936 Long Island Half Dollar  
Spectacular Tab Toning**

- 4573 1936 Long Island MS67 NGC.** The tab-toned obverse has orange-brown patina at the periphery and the central bull's-eye. The remainder of the obverse is brilliant where it rested against its issued cardboard holder for presumably many years. Rich lavender-red, peach-gold, and olive-green hues consume much of the reverse. Census: 55 in 67, 3 finer (1/13). NGC ID# 28KL, PCGS# 9322, CoinPlex ID# COM1936LONGISL

**1936 Long Island Half Dollar, MS67  
Only Three Finer Specimens at NGC**

- 4574 1936 Long Island MS67 NGC.** Deep cherry-red and orange peripheral toning surrounds the cream-gray devices. The design elements are well struck and unmarked with remarkable mint frost over each side. An exquisite representative of this tercentenary type. Only a few pieces have been certified above the MS67 level. Census: 55 in 67, 3 finer (1/13). NGC ID# 28KL, PCGS# 9322, CoinPlex ID# COM1936LONGISL

- 4575 1936 Lynchburg MS67 NGC.** A fully struck and lustrous example featuring delicate apricot-gold and mint-green toning. Study beneath a loupe fails to find any imperfections. NGC has registered only three numerically superior pieces (1/13). NGC ID# 28KM, PCGS# 9324, CoinPlex ID# COM1936LYNCHBURG
- 4576 1920 Maine MS66 PCGS.** Apple-green and plum grace the peripheries of the obverse, while the center remains largely untuned. The reverse displays a bright appearance with only subtle hints of color. This is a splendid, well-struck Premium Gem exhibiting clean fields. Only 21 examples have achieved higher numeric grades from PCGS (1/13). PCGS# 9326, NGC ID# 28KN, CoinPlex ID# COM1920MAINE
- 4577 1920 Maine MS66 PCGS. CAC.** Small, scattered splashes of toning, primarily in shades of olive-green and russet, appear on both sides, particularly near the outer edges. This Premium Gem displays satin luster. PCGS has assigned higher numeric grades to only 21 pieces (1/13). PCGS# 9326, NGC ID# 28KN, CoinPlex ID# COM1920MAINE
- 4578 1920 Maine MS66+ PCGS. CAC.** Vibrant toning in iridescent shades of fuchsia, plum, lemon, lime-green, bright green, and teal surrounds large portions of the outer edges of both sides of this high-end Premium Gem, creating stunning visual appeal. Only 21 examples have received higher numeric grades from PCGS (1/13). PCGS# 9326, NGC ID# 28KN, CoinPlex ID# COM1920MAINE
- 4579 1934 Maryland MS67 PCGS.** This spectacular Superb Gem is among the finest certified examples at PCGS, with sharply detailed design elements and vibrant mint luster, under shades of lavender, green, and gold toning. Population: 51 in 67 (2 in 67+), 0 finer (1/13). PCGS# 9328, NGC ID# 28KP, CoinPlex ID# COM1934MARYLAND
- 4580 1934 Maryland MS67 NGC.** The portrait of Cecil Calvert faces front, unlike his profile appearance on the rare silver Maryland pieces from the Colonial era. This is a lustrous Superb Gem with caramel-gold and pearl-gray toning. The design is boldly impressed and the surfaces are splendidly smooth. Census: 83 in 67, 2 finer (1/13). NGC ID# 28KP, PCGS# 9328, CoinPlex ID# COM1934MARYLAND
- 4581 1934 Maryland MS67 PCGS. CAC.** Rich satin luster emanates from both sides of this Superb Gem. Scattered areas of light toning in a variety of appealing hues appear throughout; however a concentrated area of dark russet and orange along with small flecks of green appears at the bottom rim of the obverse. Population: 51 in 67 (2 in 67+), 0 finer (1/13). PCGS# 9328, NGC ID# 28KP, CoinPlex ID# COM1934MARYLAND
- 4582 1921 Missouri 2x4 MS64 PCGS.** Caramel-gray color covers both sides of this lovely near-Gem. Hints of gold and silver appear at many of the protected areas, particularly near the outer edges. The typical strike is noted and there are only a few minor contact marks. PCGS# 9331, NGC ID# 28KR, CoinPlex ID# COM1921MISSOURI2X4
- 4583 1921 Missouri 2x4 MS65 PCGS.** Rich luster and brilliant surfaces add to the visual appeal of this lovely Gem. A few small spots of gray color appear on each side along with two slightly larger areas of color on the reverse. Only 27 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 9331, NGC ID# 28KR, CoinPlex ID# COM1921MISSOURI2X4
- 4584 1921 Missouri 2x4 MS65 NGC.** Original mint luster adds to the visual appeal of this Gem. Toning largely encircles the obverse and accentuates the bust of the frontiersman. The reverse exhibits a particularly pleasing appearance with satin luster and greater-than-usual detail on the devices, including the shoulder strap on the standing frontiersman. NGC has assigned higher grades to 61 pieces (1/13). NGC ID# 28KR, PCGS# 9331, CoinPlex ID# COM1921MISSOURI2X4

- 4585 1923-S Monroe MS65 NGC.** This Gem exhibits lovely satin surfaces with areas of russet, tan, and olive-green color appearing primarily on the obverse. Along with the Panama-Pacific, Vancouver, and California Diamond Jubilee issues, the Monroe is one of several commemorative issues with a West Coast connection. NGC ID# 28KT, PCGS# 9333, CoinPlex ID# COM1923SMONROE
- 4586 1923-S Monroe MS65 PCGS.** This boldly detailed Gem displays mostly brilliant surfaces that show a few spots of bluish-gray and amber toning. Vibrant mint luster is evident on both sides and eye appeal is outstanding. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 4587 1923-S Monroe MS65 PCGS.** Vibrant mint luster shines through shades of silver-gray, pale gold, and amber toning on this well-detailed Gem. The Monroe commemorative half dollar was produced in large quantities and many unsold specimens were released directly into circulation. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 4588 1923-S Monroe MS65 PCGS.** The silver base peeks through on occasion, though a peach overtone and splashes of blue, violet, and pink are far more prominent. A pleasingly patinated Gem example of the famous Monroe half. PCGS# 9333, NGC ID# 28KT, CoinPlex ID# COM1923SMONROE
- 4589 1923-S Monroe MS65 NGC. CAC.** Splashes of ocean-blue, lemon-gold, and tan-brown toning invigorate this lustrous and well struck Gem. A single thin diagonal mark above the date is all that denies an even finer grade. NGC ID# 28KT, PCGS# 9333, CoinPlex ID# COM1923SMONROE
- 4590 1938 New Rochelle MS67 PCGS.** The surfaces of both sides of this Superb Gem are brilliant, providing it with a freshly minted appearance. A tiny die break extends from the first C in ROCHELLE through the last E. PCGS has awarded higher numeric grades to a mere 2 examples (1/13). PCGS# 9335, NGC ID# 28KU, CoinPlex ID# COM1938NEWROCHELLE
- 4591 1926 Oregon MS67 PCGS.** A stunning Superb Gem example of this popular commemorative issue, with sharply detailed design elements and vibrant mint luster. The pristine surfaces are accented by hints of pale jade toning. Population: 71 in 67 (5 in 67+), 3 finer (1/13). PCGS# 9340, NGC ID# 28KW, CoinPlex ID# COM1926OREGON
- 4592 1926-S Oregon MS67 PCGS. CAC.** A magnificent Superb Gem example of one of the most popular types of the silver commemorative series, this coin is sharply detailed and lustrous throughout. Shades of blue, green, lavender, and gold toning give the coin an attractive antique appearance. PCGS has graded only 5 numerically finer examples (1/13). PCGS# 9341, NGC ID# 28KX, CoinPlex ID# COM1926SOREGON
- 4593 1928 Oregon MS67 PCGS.** Attractive light gold toning covers the vast majority of both sides of this lustrous Superb Gem example. The piece is largely free of surface marks other than a few reed marks appearing on the Indian design. The reverse is rotated slightly to the left. Population: 68 in 67 (4 in 67+), 2 finer (1/13). PCGS# 9342, NGC ID# 28KY, CoinPlex ID# COM1928OREGON
- 4594 1937-D Oregon MS68 NGC. CAC.** Delicate ice-blue and almond-gold tints ensure the originality of this lustrous high grade commemorative. The strike is good though the back of the wagon is incomplete. Census: 65 in 68, 1 finer (1/13). NGC ID# 28L5, PCGS# 9347, CoinPlex ID# COM1937DOREGON
- 4595 1938 Oregon MS67 PCGS. CAC.** Primarily untuned, other than small areas of color at the top margins of both sides and the bottom of the obverse, this Superb Gem displays lustrous satin surfaces. The piece is well-struck and virtually free of abrasions. Population: 81 in 67 (7 in 67+), 2 finer (1/13). PCGS# 9348, NGC ID# 28L6, CoinPlex ID# COM1938OREGON
- 4596 1938 Oregon MS67+ NGC. CAC.** Rich luster emanates from both sides of this appealing high-end Superb Gem. Small areas of light toning are present, mainly at the outer edges. Census: 6 in 67+, 2 finer (1/13). NGC ID# 28L6, PCGS# 9348, CoinPlex ID# COM1938OREGON
- 4597 1938-D Oregon MS67+ PCGS. CAC.** An example with tremendous eye appeal on both sides, this high-end Superb Gem displays rich luster. Areas of light toning include shades of light golden-brown and peach. Population: 6 in 67+, 37 finer (1/13). PCGS# 9349, NGC ID# 28L7, CoinPlex ID# COM1938DOREGON
- 4598 1939 Oregon MS67 PCGS. CAC.** A pleasing Superb Gem, this piece is virtually untuned save for the rims. Lustrous satin surfaces further enhance the appearance and the coin is virtually free of abrasions. This is a pleasing example. Population: 85 in 67 (2 in 67+), 4 finer (1/13). PCGS# 9352, NGC ID# 28L9, CoinPlex ID# COM1939OREGON
- 4599 1939-D Oregon MS67 PCGS. CAC.** The year 1939 saw the final issue of Oregon Trail commemorative half dollars, and the 1939-D boasts a tiny distribution figure of 3,004 pieces. This bright, lustrous, untuned Superb Gem displays tremendous visual appeal and is free of marks. Only 19 examples have been awarded higher numeric grades by PCGS (1/13). PCGS# 9353, NGC ID# 28LA, CoinPlex ID# COM1939DOREGON
- 4600 1939-S Oregon MS67 PCGS. CAC.** Small areas of toning appear at the outer edges of this lustrous Superb Gem with nice eye appeal. The long-running Oregon type finally ended its intermittent 13-year run in 1939. Population: 87 in 67 (1 in 67+), 8 finer (1/13). PCGS# 9354, NGC ID# 28LB, CoinPlex ID# COM1939SOREGON
- 4601 1915-S Panama-Pacific MS65 PCGS.** Sweeping, radiant satin luster emanates from both sides of this coin. This Gem is almost entirely free of toning, other than a few pinpoints of charcoal color on the reverse and subtle hints of lilac. The piece displays an attractive strike. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC
- 4602 1915-S Panama-Pacific MS65 PCGS.** The Panama-Pacific half dollar claims a distribution total of 27,134 pieces. This attractive Gem displays well-detailed design elements and satiny mint luster, with hints of pale gold toning. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC

---

**1915-S Panama-Pacific Half Dollar, MS66  
Satiny Surfaces and Originally Toned**

- 4603 1915-S Panama-Pacific MS66 PCGS.** Five coins were issued during the Panama-Pacific Exposition to commemorate the opening of the Panama Canal, including the 1915-S commemorative half dollar, with a distribution of 27,134 pieces. This impressive Premium Gem displays the satiny, slightly granular surfaces seen on all examples of this issue, with well-detailed devices and pleasing gold and pink patina. PCGS# 9357, NGC ID# 26H7, CoinPlex ID# COM1915SPANPAC
-

**Superb Gem 1920 Pilgrim Half Dollar  
The Roman Collection Specimen**

**4604 1920 Pilgrim MS67 PCGS. CAC.** Ex: The Roman Collection. Original golden-brown and pearl-gray toning envelops this lustrous and virtually immaculate Superb Gem. The 1920 Pilgrim is plentiful in typical Mint State, but examples are surprisingly difficult to locate at the MS67 level. Population: 39 in 67 (3 in 67+), 0 finer (1/13). Ex: *Milwaukee ANA Signature* (Heritage, 8/2007), lot 1289. PCGS# 9359, NGC ID# 28LC, CoinPlex ID# COM1920PILGRIM

**4605 1936-D Rhode Island MS67 PCGS.** An attractive, minimally marked Superb Gem with lustrous surfaces, this example displays only a few tiny freckles on the obverse. Toning appears at the outer edges of the reverse in a variety of colors, including gold, olive-green, golden-brown, and gray. Population: 52 in 67 (1 in 67+), 0 finer (1/13). PCGS# 9364, NGC ID# 28LF, CoinPlex ID# COM1936DRHISLAND

**4606 1936-D Rhode Island MS67 PCGS.** A remarkable Superb Gem example of the 1936-D Rhode Island half dollar, with sharply detailed design elements and vibrant mint luster. Light shades of gold and lavender toning enhance the flawless surfaces. Population: 52 in 67 (1 in 67+), 0 finer (1/13). PCGS# 9364, NGC ID# 28LF, CoinPlex ID# COM1936DRHISLAND

**4607 1937 Roanoke MS67 PCGS. CAC.** The obverse is tab-toned, with the "tabs" near OF and the bust tip. Golden-brown, rose-red, and apple-green shades fill the margins. The centers are pearl-gray. A sharply struck and virtually pristine Superb Gem. Encased in an old green label holder. PCGS# 9367, NGC ID# 28LH, CoinPlex ID# COM1937ROANOKE

**4608 1937 Roanoke MS67 PCGS. CAC.** Light to medium orange-red and aquamarine toning invigorates the borders of this fully struck, lustrous, and essentially pristine Superb Gem. Encapsulated in a green label holder. PCGS# 9367, NGC ID# 28LH, CoinPlex ID# COM1937ROANOKE

**4609 1936-D San Diego MS67 PCGS.** Small splashes of tan and yellow toning along with a few flecks of cherry appear on this lustrous Superb Gem, particularly at the rim on the reverse. Population: 76 in 67 (2 in 67+), 0 finer (1/13). PCGS# 9372, NGC ID# 28LL, CoinPlex ID# COM1936DSANDIEGO

**4610 1926 Sesquicentennial MS65 NGC. CAC.** Both sides of this Gem display lovely satin luster with light gold surfaces and splashes of deeper peripheral toning. NGC has assigned higher numeric grades to only 12 pieces (1/13). NGC ID# 28LM, PCGS# 9374, CoinPlex ID# COM1926SESQUI

**4611 1935 Spanish Trail MS64 NGC.** Razor-sharp definition is evident on all design elements and vibrant mint luster radiates from both sides, creating exceptional eye appeal. Only a few minor contact marks in the obverse field prevent a Gem designation. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

**4612 1935 Spanish Trail MS66 NGC.** Dusky orange patina with a few flashes of green highlight the surfaces of this lovely Premium Gem. The piece is well-struck, with only the most minor luster shifts to note. Ex: *Long Beach Signature* (Heritage, 1/2004), lot 6688. NGC ID# 28LN, PCGS# 9376, CoinPlex ID# COM1935SPTRAIL

**4613 1935 Spanish Trail MS66 PCGS. CAC.** A boldly struck and attractive Premium Gem example of this low-mintage commemorative type. The almond-gold surfaces are satiny and display only minor imperfections. PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

**1935 Commemorative Half Dollar, MS67  
Old Spanish Trail**

**4614 1935 Spanish Trail MS67 PCGS. CAC.** This impressive Superb Gem exhibits highly lustrous ivory surfaces with delightful golden-brown toning along the borders. The surfaces show a few trivial imperfections consistent with the grade. PCGS has only certified two finer examples of this issue (1/13). PCGS# 9376, NGC ID# 28LN, CoinPlex ID# COM1935SPTRAIL

**4615 1925 Stone Mountain MS67 PCGS.** This lustrous Superb Gem is delicately patinated in wheat-gold and sky-blue shades. The obverse field is pristine and a lens locates only delicate contact on the front horse and lower reverse. Ex: *St. Louis Central States* (Heritage, 5/2003), lot 7736, which realized \$2,530. PCGS# 9378, NGC ID# 26H8, CoinPlex ID# COM1925STONEMTN

**4616 1936-S Texas MS67 PCGS. CAC.** Splashes of color cover large portions of the obverse. The patina includes shades of dark lime-green, russet, brick-red, dark purple, olive-green, and cherry-red. The lustrous reverse is largely free of color other than light gold and russet color at the outer edges. This is a lovely well-struck example with minimal surface marks. Population: 68 in 67 (5 in 67+), 1 finer (1/13). PCGS# 9388, NGC ID# 28LW, CoinPlex ID# COM1936STEXAS

**4617 1936-S Texas MS67+ PCGS. CAC.** This high-end Superb Gem displays sharply detailed design elements and vibrant satiny mint luster, with a few hints of pale gold toning. Population: 68 in 67 (5 in 67+), 1 finer (1/13). PCGS# 9388, NGC ID# 28LW, CoinPlex ID# COM1936STEXAS

**4618 1938 Texas MS67+ PCGS.** Splashes of burnt orange and gold color appear at portions of the outer edges of both sides of this high-end Superb Gem. Brilliant hues of lime-green, forest-green, bright red and lemon appear at REMEMBER THE. The lustrous surfaces are minimally abraded. Population: 43 in 67 (2 in 67+), 1 finer (1/13). PCGS# 9394, NGC ID# 28M2, CoinPlex ID# COM1938TEXAS

**4619 1927 Vermont MS66 PCGS. CAC.** A remarkable Premium Gem, with razor-sharp definition on all design elements and vibrant mint luster on both sides. Light shades of pale gold patina add to the significant visual appeal. PCGS# 9401, NGC ID# 28M6, CoinPlex ID# COM1927VERMONT

**4620 1927 Vermont MS66 PCGS. CAC.** Despite the fact that the Vermont commemoratives were struck in the highest relief of any in the series, the coins generally exhibit strong detail, as is the case with this Premium Gem example. The patina includes hues of pale-yellow, rose, and russet. Only 23 pieces have achieved higher numeric grades from PCGS (1/13). PCGS# 9401, NGC ID# 28M6, CoinPlex ID# COM1927VERMONT

**4621 1927 Vermont MS66+ PCGS. CAC.** Hints of color that include pale yellow, gold, and light gray are scattered throughout on this lovely high-end Premium Gem example. The well-struck piece displays shimmering satin luster. Only a few minor abrasions appear. Population: 18 in 66+, 23 finer (1/13). PCGS# 9401, NGC ID# 28M6, CoinPlex ID# COM1927VERMONT

**4622 1946-D Booker T. Washington MS67 PCGS. CAC.** Attractive shades of lavender-gray and sea-green toning blanket the well-preserved surfaces of this spectacular Superb Gem. The design elements are well-detailed and satiny mint luster shines through the patina. Population: 41 in 67 (4 in 67+), 0 finer (1/13). PCGS# 9405, NGC ID# 28M8, CoinPlex ID# COM1946DBTW

**4623 1946-S Booker T. Washington MS67 PCGS. CAC.** Splashes of lime-green and orange-red toning add to the attractiveness of this highly lustrous example. Booker T. Washington founded the Tuskegee Institute in 1881. Population: 72 in 67 (3 in 67+), 0 finer (1/13). PCGS# 9406, NGC ID# 28M9, CoinPlex ID# COM1946SBTW

#### Satiny Superb Gem 1948-D Booker T. Washington Half

**4624 1948-D Booker T. Washington MS67 PCGS. CAC.** This satiny Superb Gem 1948-D Booker T. Washington half is among only 13 such submitted to PCGS with none finer (1/13). The centers are untuned, but a thin ring of iridescent toning includes saffron and amber hues, to beautiful effect. The portrait of educator Booker T. Washington, who rose "from slave cabin to Hall of Fame," is free of visible marks. Population: 13 in 67, 0 finer (1/13). PCGS# 9413, NGC ID# 28ME, CoinPlex ID# COM1948DBTW

**4625 1949 Booker T. Washington MS67 NGC.** Pastel olive-gold and powder-blue toning graces this lustrous and nearly immaculate Superb Gem. The portrait retains indications of the planchet surface, customary for the Booker T. Washington type. NGC ID# 28MG, PCGS# 9416, CoinPlex ID# COM1949BTW

**4626 1952-D Washington-Carver MS66 PCGS. CAC.** Scattered freckles and splashes of color, primarily dove-gray with a few areas of russet, appear on this Premium Gem. This brilliant piece exhibits cartwheel shimmer. Population: 33 in 66, 0 finer (1/13). PCGS# 9435, NGC ID# 28MW, CoinPlex ID# COM1952DWASHCARVER

**4627 1954-D Washington-Carver MS66 PCGS. CAC.** With only 12,000 pieces issued, the 1954-D Washington-Carver commemorative half dollar is undervalued in relation to its small mintage. This example is a delightful Premium Gem exhibiting strong mint luster and delicate gold and ice-blue toning. Population: 33 in 66, 0 finer (1/13). PCGS# 9443, NGC ID# 28N4, CoinPlex ID# COM1954DWASHCARVER

### COMMEMORATIVE GOLD

**4628 1903 Louisiana Purchase/Jefferson MS64+ NGC. CAC.** A beautiful olive-gold near-Gem that boasts sweeping luster and smooth surfaces. The strike is sharp except on the A in PURCHASE, which is opposite Jefferson's high relief shoulder. NGC ID# 26HA, PCGS# 7443, CoinPlex ID# CGM1903JEFF

**4629 1903 Louisiana Purchase/Jefferson MS65 PCGS. CAC.** Both sides are decidedly reflective on this pale canary-yellow example of the Jefferson gold dollar. Most of the details in the wig are brought out, and there is a hint of a wire rim visible on close examination. An intriguing piece. PCGS# 7443, NGC ID# 26HA, CoinPlex ID# CGM1903JEFF

**4630 1903 Louisiana Purchase/Jefferson MS66 NGC. CAC.** This sun-gold Premium Gem features a needle-sharp strike and dazzling luster. The surfaces are uncommonly close to pristine. An outstanding value relative to the several dozen pieces certified finer. NGC ID# 26HA, PCGS# 7443, CoinPlex ID# CGM1903JEFF

**4631 1903 Louisiana Purchase/Jefferson MS66 PCGS. CAC.** Large splashes of orange add to the visual appeal of this Premium Gem. This piece displays a crisp strike. The 1903 Louisiana Purchase gold dollars enjoyed a business-strike distribution of 35,000 pieces, evenly split between the Jefferson and McKinley types. PCGS# 7443, NGC ID# 26HA, CoinPlex ID# CGM1903JEFF

**4632 1903 Louisiana Purchase/McKinley MS65 PCGS.** Peach-gold on the obverse with a more apricot reverse that also has coppery areas. Well-defined on the late president's portrait and pleasingly preserved. PCGS# 7444, NGC ID# 26HB, CoinPlex ID# CGM1903MCKIN

**4633 1903 Louisiana Purchase/McKinley MS65 PCGS.** This well-struck Gem exudes vibrant luster. A few splashes of color, primarily orange, appear on each side. A minute die crack is evident between the rim and the second I in LOUISIANA. The reverse exhibits a few small abrasions. PCGS# 7444, NGC ID# 26HB, CoinPlex ID# CGM1903MCKIN

**4634 1903 Louisiana Purchase/McKinley MS66 PCGS.** A well-preserved yellow-gold example of this early gold commemorative issue. The portrait is sharply struck though the dentils show occasional softness. Though dated 1903, the coin celebrated the Louisiana Purchase Exposition held in 1904. PCGS# 7444, NGC ID# 26HB, CoinPlex ID# CGM1903MCKIN

**4635 1904 Lewis and Clark MS63 PCGS.** Noticeably reflective fields and rich yellow-gold color add to the eye appeal of this Select example. Surface abrasions appear on both sides, including a long, thin mark that extends from Lewis' head into the right obverse field, held this lovely piece from a higher grade. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

**4636 1904 Lewis and Clark MS64 PCGS.** This is a pleasing Choice Mint State representative displaying excellent eye appeal due to a combination of brilliant yellow-gold luster and delicate blue-green patina. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

#### 1904 Lewis and Clark Gold Dollar, MS65

**4637 1904 Lewis and Clark MS65 PCGS.** With a distribution of 10,025 pieces, the 1904 Lewis and Clark gold dollar is one of the key issues in the gold commemorative series, though not quite as elusive as its 1905 counterpart. This sharply detailed Gem displays lightly marked orange-gold surfaces with hints of lilac and vibrant mint luster. PCGS# 7447, NGC ID# 26HC, CoinPlex ID# CGM1904LANDC

**4638 1905 Lewis and Clark MS62 NGC.** Vibrant color that includes hints of lime-green and lemon adds to the eye appeal of this lustrous piece. Although 55,000 pieces of the 1905 Lewis and Clark were produced, sales flopped at \$2.50-\$3 per coin, and only approximately 10,000 examples escaped being melted. This example exhibits some of the frequently seen orange-peel effect, due to die wear, on each side. NGC ID# 26HD, PCGS# 7448, CoinPlex ID# CGM1905LANDC

**4639 1915-S Panama-Pacific Gold Dollar MS65 NGC.** Strongly orange-gold with occasional variations toward peach and yellow. The luster is warm and inviting on this carefully preserved Panama-Pacific gold dollar. NGC ID# 26HE, PCGS# 7449, CoinPlex ID# CGM1915SPANPAC

**4640 1915-S/S Panama-Pacific Gold Dollar MS65 NGC. Breen-7436.** The mintmark is repunched southeast. NGC has designated the variety as VP-001, their VarietyPlus attribution service reference number. A lustrous butter-gold Gem that boasts an intricate strike and a mark-free appearance.  
*From The Fenn Family Collection.* NGC ID# 26HE, PCGS# 7449, CoinPlex ID# CGM1915SPANPAC

**4641 1915-S Panama-Pacific Gold Dollar MS66 PCGS.** A few areas of vibrant orange color along with hints of rose add to the visual appeal of this rich and lustrous Premium Gem. The attractive piece displays a crisp strike. Only 15,000 examples were distributed. PCGS# 7449, NGC ID# 26HE, CoinPlex ID# CGM1915SPANPAC

---

**1915-S Panama-Pacific Quarter Eagle, MS62  
Struck to Commemorate the Panama Canal**

**4642 1915-S Panama-Pacific Quarter Eagle MS62 PCGS.** From a small distribution of 6,749 pieces, the 1915-S Panama-Pacific quarter eagle was part of a five coin issue created in conjunction with the Panama-Pacific Exposition, celebrating the opening of the Panama Canal. The design elements are well-detailed and the orange-gold surfaces are lustrous and lightly marked. PCGS# 7450, NGC ID# 26HK, CoinPlex ID# CGM1915SPANPAC

---

**1915-S Pan-Pac Two and a Half, MS64**

**4643 1915-S Panama-Pacific Quarter Eagle MS64 NGC.** Struck to commemorate the opening of the Panama Canal, the 1915-S Panama-Pacific quarter eagle had a small distribution of 6,749 pieces. This well-detailed Choice specimen displays well-preserved yellow-gold surfaces, with a hint of rose color and slightly subdued mint luster.  
*From The Fenn Family Collection.* NGC ID# 26HK, PCGS# 7450, CoinPlex ID# CGM1915SPANPAC

**4644 1916 McKinley MS66 NGC.** Subtle, swirling peach-gold and amber colors enliven the subtly lustrous surfaces of this solidly struck Premium Gem. This is a carefully preserved example exhibiting only a few minuscule marks. NGC ID# 26HF, PCGS# 7454, CoinPlex ID# CGM1916MCKIN

---

**1916 McKinley Gold Dollar, MS67  
Only One Certified Finer**

**4645 1916 McKinley MS67 NGC.** The McKinley gold dollars were authorized to provide funding for a memorial in Niles, Ohio, the birthplace of the late President. The memorial structure, depicted on the reverse of these gold dollars, was completed in 1915. The property is owned by the National McKinley Birthplace Memorial Association. This Superb Gem shows the usual soft, frosty gold luster and brilliant rose overtones of most surviving examples. NGC has only certified one finer, and PCGS has never certified a better example (1/13). NGC ID# 26HE, PCGS# 7454, CoinPlex ID# CGM1916MCKIN

**4646 1917 McKinley MS64 PCGS.** The brass-gold surfaces of this near-Gem include peach color and exhibit rich luster. This piece displays strong all-around eye appeal for the grade. McKinley was honored on the 1903 and 1916 gold commemorative dollars, which may explain the low mintage for the 1917. The *Guide Book* reports a distribution of 5,000 pieces, one-third the 1916 emission. PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

---

**1917 McKinley Dollar, MS66+  
Frosty and Lustrous**

**4647 1917 McKinley MS66+ PCGS. CAC.** The 1917 McKinley Memorial gold dollar is considerably scarcer at the Premium Gem level of the present piece than the 1916 issue. This MS66+ example is free of all but a couple of minuscule marks, mostly in the obverse field, while the president's profile is quite clean. The orange-gold surfaces are thoroughly lustrous, although a tiny dark toning fleck appears at 2 o'clock on the obverse rim. Population: 3 in 66+, 57 finer (1/13). PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

---

**1917 McKinley Gold Dollar, MS66+  
Less Available Than the 1916 Issue**

- 4648** 1917 McKinley MS66+ PCGS. CAC. In high grade condition, the 1917 McKinley gold dollar is seen less frequently than its 1916 counterpart. This high-end Premium Gem is sharply detailed throughout, with mark-free yellow-gold surfaces that show a few hints of lilac. Vibrant mint luster adds to the considerable visual appeal. PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

---

**Superb 1917 McKinley Gold Dollar  
Among the Finest Certified**

- 4649** 1917 McKinley MS67 PCGS. A sharply detailed Superb Gem, with vibrant mint luster and delicate yellow and rose-gold patina. Eye appeal is extraordinary. Of the two dates in which the McKinley gold dollar was issued (1916 and 1917), the 1917 is much more elusive. Population: 57 in 67, 0 finer (1/13). PCGS# 7455, NGC ID# 26HG, CoinPlex ID# CGM1917MCKIN

- 4650** 1922 Grant No Star MS62 NGC. The 1922 Grant gold dollar, with no star in the field, claims a distribution of just 5,000 pieces. This piece displays deep butter-gold luster along with occasional hints of orange. Long, wispy abrasions affect Grant's portrait and the field just to the right. NGC ID# 26HJ, PCGS# 7458, CoinPlex ID# CGM1922GRANTNS

---

**1922 Grant Gold Dollar, MS66  
No Star Variant**

- 4651** 1922 Grant No Star MS66 PCGS. A delightful Premium Gem example of the No Star variant of this popular gold commemorative. The design elements are well-detailed, with a touch of softness on the cabin wall and the hair above Grant's ear. Vibrant satiny mint luster adds to the considerable visual appeal. PCGS# 7458, NGC ID# 26HJ, CoinPlex ID# CGM1922GRANTNS

---

**Two-Toned 1922 Grant No Star Dollar, MS66  
Well-Preserved Example**

- 4652** 1922 Grant No Star MS66 PCGS. This is a stunning two-toned Premium Gem of the Grant No Star gold dollar, a coin that takes a two-toned appearance, lemon-yellow contrasting against deep orange hues throughout both side. Only a single nick occurs on General Grant's upper cheek, in concert with the grade, and the reverse is free of mentionable marks. PCGS# 7458, NGC ID# 26HJ, CoinPlex ID# CGM1922GRANTNS

---

**1922 Grant Gold Dollar, MS66+  
Popular With Star Variant**

- 4653** 1922 Grant With Star MS66+ PCGS. CAC. The Grant gold commemorative dollar comes in two varieties, with and without the tiny star in the obverse field below the second A in AMERICA. This high-end Premium Gem represents the With Star variety and exhibits well-detailed design elements and lustrous orange-gold surfaces. PCGS# 7459, NGC ID# 26HH, CoinPlex ID# CGM1922GRANTSTAR

---

**Superb Gem 1922 Grant Gold Dollar  
With Star Variety**

- 4654** 1922 Grant With Star MS67 NGC. Hints of lemon appear on this lustrous Superb Gem that exhibits strong eye appeal on both sides. A tiny die crack extends vertically through the cabin. Per the Guide Book, "the gold dollars were first issued with a star, which was removed for the later issues." NGC has awarded higher grades to only 10 examples (1/13). NGC ID# 26HH, PCGS# 7459, CoinPlex ID# CGM1922GRANTSTAR

- 4655** 1926 Sesquicentennial MS64 PCGS. A touch of orange-gold color blends in nicely with the otherwise purely golden surfaces of this near-Gem example. Only a few inconsequential contact marks hold this attractive piece from a higher grade.  
Ex: *Atlanta Signature (Heritage, 8/2001)*, lot 7534. PCGS# 7466, NGC ID# 26HL, CoinPlex ID# CGM1926SESQUI

**4656 1926 Sesquicentennial MS65 PCGS.** Hues of orange and apricot add to the eye appeal of this lustrous Gem. Portions of the rims display a deep lemon color. A few minor marks are present, including a couple of small reed marks on the reverse. PCGS# 7466, NGC ID# 26HL, CoinPlex ID# CGM1926SESQUI

**4657 1926 Sesquicentennial MS65 PCGS. CAC.** The lime-green borders encroach upon the butter-gold centers. This well struck Gem has exemplary luster and only inconsequential contact. The final gold commemorative prior to 1984. PCGS# 7466, NGC ID# 26HL, CoinPlex ID# CGM1926SESQUI

## MODERN ISSUES

**4658 2000-W Library of Congress Bimetallic Ten Dollars MS69 PCGS.** The 2000-W Library of Congress ten dollar commemorative is the first gold/platinum bimetallic coin ever issued by the United States, with a mintage of just 6,683 pieces. This specimen is a nearly perfect coin, with sharply detailed design elements, satiny mint luster, and virtually flawless surfaces. PCGS# 9784, NGC ID# 28V5

**4659 2001-W Capitol Visitor's Center Half Eagle MS69 PCGS.** With a low distribution of just 6,781 pieces in Uncirculated format, the Capitol Visitor Center half eagle ranks among the least available modern commemoratives. This almost technically perfect, bright yellow specimen exudes satiny luster and has spectacular eye appeal. PCGS# 9792, NGC ID# 28VB

## MODERN BULLION COINS

Perfect 1986 Silver Eagle, MS70  
One of Three in This Ultimate Grade at PCGS

**4660 1986 Silver Eagle MS70 PCGS.** The American Silver Eagle series was launched in 1986 and has become an exceedingly popular one with a large subset of American collectors (and likely many overseas as well). The mintage of the first-year 1986 would turn out to be moderate at 5.4 million pieces, and yet PCGS has certified precisely three pieces among the "business strikes" at this ultimate grade level (1/13). This coin is softly frosted, mark-free (of course), and presents as basically untuned silver-white, although magnification reveals some tiny areas of gold patina. A prize for some lucky bidder's Registry Set. PCGS# 9801, NGC ID# 26J4

## 1993-P Silver Eagle PR70 Deep Cameo

**4661 1993-P Silver Eagle PR70 Deep Cameo PCGS.** Prior to 1993, all proof silver Eagles were coined in San Francisco, carrying the S mintmark. In 1993, the P mintmark first appeared on the silver Eagles of the "Philadelphia Set" commemorating the 200th anniversary of coinage operations in that city. This fully brilliant and perfect proof has untuned silver surfaces with exceptional contrast. PCGS# 9867, NGC ID# 26JK

**4662 1999-W Quarter-Ounce Gold Eagle MS69 PCGS.** The West Point mintmark was only supposed to appear on proof specimens in 1999, but one die pair with the mintmark was inadvertently prepared for Uncirculated strikes instead of proofs. This is a pristine piece with splashes of rich peach toning. PCGS# 99942, NGC ID# 26MG

## COINS OF HAWAII

**4663 1847 Hawaii Cent AU58 NGC. CAC. M. 2CC-2.** Crosslet 4, 15 berries. The rich olive-brown toning dominates but cedes to hints of the initial fire-red within design crevices. Unabraded and satiny with a typical strike. PCGS# 10965

**4664 1883 Hawaii Half Dollar MS62 PCGS.** A lovely, largely untuned Mint State piece with sharp design details and lustrous surfaces, this example displays a lovely appearance. Numerous tiny contact marks, primarily on the obverse, limited the grade. PCGS# 10991

**4665 1883 Hawaii Half Dollar MS63 PCGS.** Rich toning that includes intermingled shades of rich golden-brown, sea-green, electric-blue, and plum covers the majority of both sides, with the most pronounced areas appearing on the obverse. This is a lovely example with pleasing eye appeal. Population: 67 in 63 (3 in 63+), 74 finer (1/13). PCGS# 10991

## ALASKA TOKEN

**4666 "1862" Alaska 2 TooWah Gold, Original, 5 Stars, MS63 NGC. Gould-Bressett 108.** A satiny and unabraded canary-gold representative that shows a soft central impression. Nathan Joseph struck the originals in 12K alloy circa 1910. The originals can be easily distinguished by weight from the circa-1945 Tatham restrikes, which are gilt brass and weigh approximately 0.75gm.

## ELONGATED COINS

**4667 (1939-1940) New York World's Fair Elongate on a Liberty Quarter Eagle.** The elongate obverse depicts the Firestone Building. The gold coin undertype is a Closed 3 1873 or (less likely) 1873-S. The undertype obverse is apparent on the blank elongate reverse.

**4668 1940 New York World's Fair Elongate on a Liberty Quarter Eagle.** The elongate obverse depicts the Administration Building. The gold coin undertype is an 1878 or (less likely) 1878-S. The undertype obverse, though "smashed," is visible on the blank elongate reverse.

## ERRORS

### 1943 Lincoln Cent, MS62 on a Silver Dime Planchet Famed Issue for Off Metal Errors

- 4669 1943 Lincoln Cent — Struck on a Silver Dime Planchet — MS62 PCGS.** Uncirculated steel cents struck on copper cent planchets are heralded rarities, but steel cents on dime planchets are much more affordable. The present off metal error shows the incomplete rims typical of the error category. Since a dime planchet is smaller than a cent planchet and cannot completely fill the dies, the strike is soft on Lincoln's forehead and the upper obverse and lower reverse margins. Lightly toned in aqua and tan shades.

### Off Center 1936 Buffalo Nickel, MS60

- 4670 1936 Buffalo Nickel — Off Center — MS60 ANACS.** Possibly a broadstrike, as all design elements are present. A broad arc of unstruck surface is centered at 6 o'clock. LIBERTY and AMERICA exhibit stretching toward the rim. Crisply struck and coruscating with two small rim marks on the reverse at 6 o'clock. Housed in a small-size holder.

### Broadstruck AU55 1856 Seated Dime Scarce Large Date Variety

- 4671 1856 Large Date Seated Dime — Broadstruck out of Collar — AU55 PCGS.** This lightly circulated better date obsolete type coin displays light honey-gold toning. The fields exhibit faint abrasions. The major devices and stars are well struck, but a majority of the dentils are mushy. A relatively well centered broadstrike, the obverse rim is steep, and the rims are somewhat wider near 9 o'clock than near 3 o'clock. The edge is plain (unreeded) and visible within the holder.

### Uncentered Broadstrike on a Choice AU Semikey 1921 Dime

- 4672 1921 Mercury Dime — Uncentered Broadstrike — AU55 PCGS.** This semikey Mercury dime has a broad peripheral band of unstruck surface, widest at 11 o'clock. Metal flow toward the margins causes stretching and distortion on the peripheral legends, most evident on STATES and the date. The bands are full, usual for the type when broadstruck. Lightly toned almond-gold and steel-blue.

### Franklin Half on a Dime Planchet, MS60

- 4673 Undated Franklin Half Dollar — Struck on a Dime Planchet — MS60 ANACS.** This wrong planchet mint error was struck favoring the central devices. Most of Franklin and the Liberty Bell are present, including all of Franklin's profile. Only the 19 in the date is present, and the mintmark, if any, is off the flan. Appropriately, the denomination is absent. Lustrous with light straw-gold and ice-blue toning. One slender coin counter mark on the bell accounts for the grade. Certified in a small-size holder.

### Undated Franklin Half Dollar Struck on a Type One Cent Flan Gem Red and Brown

- 4674 Undated Franklin Half — Struck on a Type One Cent Planchet — MS65 Red and Brown NGC.** 3.07gm. E PLURIBUS UNUM is intact, though the date and mintmark areas are off the flan. Both sides display consistent light orange-red color, with navy-blue near the edges and hints of lilac on the high points. Portions of HALF and UNITED are present and exhibit stretching toward the border, characteristic of a wrong planchet error. The rims are not raised, indicating a Type One planchet that bypassed the upset mill.

**1963-D Franklin Half Dollar  
Struck on a Cent Planchet  
MS61 Red and Brown**

- 4675 1963-D Franklin Half — Struck on a Cent Planchet — MS61 Red and Brown NGC.** 3.1gn. Cherry-red and apple-green toning embraces this lustrous off-metal mint error. Nearly aligned with the collar at 7 o'clock, a fortuitous planchet placement that allows all of the date and mintmark to be present. Appropriately, HALF DOLLAR is absent. LIBERTY is also missing. A trio of thin test marks from a perplexed finder are west of the eagle.

**Double Struck, 2nd Strike 70% Off Center  
Clad Kennedy Half, Uncirculated Details**

- 4676 Undated Clad Kennedy Half — Double Struck, 2nd Strike 70% Off Center, Scratch — PCGS Genuine. Unc.** The first strike was normal (aside from prominent strike doubling) but the coin failed to fully eject, and was struck a second time, widely off center toward 5 o'clock. The second strike is at 4:30 relative to the first strike. A thin vertical scratch on the first strike portrait corresponds to the PCGS designation. The 19 in the date is present on the first strike, but there is no other indication of date or mintmark.

**Ike Dollar on a Cent Planchet  
Uniface Reverse, MS64 Red**

- 4677 Undated Eisenhower Dollar — Struck on a Cent Planchet, Uniface Obverse — MS64 Red PCGS.** A cent planchet and an Ike dollar planchet were apparently fed together between the dies, with the cent flan facing the reverse die. The eagle's head, body, and front wing is present. The legs, back wing, and tail are partly present. Not enough of the Earth is visible to determine the subtype. The peculiar obverse has a deeply incused shape that perhaps represents the strike of the reverse die through the thinned cent flan. It also exhibits numerous slender raised lines probably caused by abrasions on the Ike dollar planchet.

**2001-P Sacagawea Dollar on Quarter Planchet, MS64**

- 4678 2001-P Sacagawea Dollar — Struck on a Quarter Planchet — MS64 NGC.** 5.4 gm. Slightly underweight for a statehood quarter planchet, which weighs 5.67 gm per the *Guide Book*. This lustrous and well preserved piece has full legends, although AMERICA is tight, and the right-side rims are absent. Mostly white with faint tan toning and a couple of dabs of cherry-red patina. The 2001-P has a much lower mintage than the first-year 2000-P and 2000-D. Ex: *St. Louis Central States (Heritage, 5/2007)*, lot 2784; *Orlando FUN Signature (Heritage, 1/2009)*, lot 6307, which realized \$5,750.

**Choice 1911 Eagle With Reverse Strike-Through**

- 4679 1911 Indian Eagle — Reverse Struck-Through — MS64 NGC.** This thoroughly lustrous lemon-gold near-Gem is housed reverse-up in the holder, the better to showcase the prominent mint-made strike-through on the lower right reverse. Presumably, a thin wire was fed between the planchet and the reverse die and fell out of the coin after the strike. Its outline curves close to the rim and overlaps the tips of the eagle's wing feathers. Ex: *Houston Signature (Heritage, 12/2008)*, lot 1744.

**GSA DOLLARS**

- 4680 1880/79-CC Reverse of 1878 MS64 NGC. VAM-4.** A Top 100 Variety. This overdated Carson City dollar has a brilliant obverse and a wisp of tan toning on the right reverse. Lustrous and nicely struck with smooth fields and light marks on the portrait. PCGS# 407108

**Multicolor Bag-Toned 1885-CC GSA Dollar, MS66+ ★**

- 4681 1885-CC MS66+ ★ NGC.** Magnificent bag toning adorns much of the obverse and displays intense cherry-red, canary-gold, and forest-green shades. The upper left obverse is brilliant where a different coin (not included) overlapped the surface. Lustrous and nicely struck with a brilliant reverse. An unhinged box of issue (but no certificate) accompanies the lot. PCGS# 407160

*End of Session Three*

## SESSION FOUR

Floor, Telephone, Heritage Live!®, Internet, Fax, and Mail Signature® Auction # 1182  
Friday, February 8, 2013 | 7:00PM PT | Long Beach | Lots 4682 - 5026

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

### PATTERNS

Very Scarce 1853 Cent Pattern, PR55  
Judd-151, Copper-Nickel Alloy

- 4682** 1853 One Cent, Judd-151, Pollock-178, Low R.6, PR55 NGC. The obverse is from a regular issue 1853 Liberty quarter eagle die. The reverse has ONE and CENT widely separated within an unbalanced wreath. Struck with a reeded edge in an alloy of 40% nickel and 60% copper. The obverse has a broad rim and short denticles, the reverse has a narrow rim and long denticles. The initially stone-gray surfaces have faintly toned caramel-gold. The fields are mildly subdued and only lightly abraded. PCGS# 11628, CoinPlex ID# PAT1853J151

PR63 Brown Judd-161 Original  
Median Diameter 1854 Cent

- 4683** 1854 One Cent, Judd-161 Original, Pollock-187, R.4, PR63 Brown NGC. 6.2 gm. Eagle Eye Photo Seal, card included. The design is similar to that on production large cents except the diameter is close to a quarter dollar, there are no stars on the obverse, and the wreath is proportionately smaller. Struck with a plain edge in an alloy of 94% copper, 5% tin, and 1% zinc, per the NGC insert. Fully struck and devoid of contact with deeply blended ebony-brown and gunmetal-blue toning. PCGS# 11663, CoinPlex ID# PAT1854J161ORIGBN

1854 Smaller Sized Cent Pattern in Bronze  
Judd-161, PR64 Brown

- 4684** 1854 One Cent, Judd-161 Original, Pollock-187, R.4, PR64 Brown PCGS. CAC. The obverse and reverse designs are similar to the adopted Braided Hair designs, but without stars on the obverse and struck on a smaller-sized planchet. These popular patterns are known in copper, bronze, and oriole. This example is struck in bronze and has a plain edge. Considerable reflectivity is seen in the fields in spite of the substantial presence of deep walnut-brown and aquamarine patina. One shallow mint-made strike-through is noted on the cheekbone. Certified in a first generation holder. PCGS# 11663, CoinPlex ID# PAT1854J161ORIGBN

Gem Proof Judd-208 Transitional  
1858 Indian Cent

- 4685** 1858 Indian Cent, Judd-208, Pollock-259, R.1, PR65 NGC. This is an 1858-dated transitional pattern with dies similar to the circulation-issue 1859 Indian cent, struck in copper-nickel with a plain edge. The wreath has five-leaf clusters. The surfaces are light-brown, with some cameo contrast and good eye appeal, despite a few tiny flecks that appear under a loupe. Ex: Long Beach Signature (Heritage, 5/2008), lot 2872, which realized \$2,300. PCGS# 11885, CoinPlex ID# PAT1858J208

**PR66 1858 Indian Cent Pattern  
Judd-212, Wide Shield Reverse**

- 4686** 1858 Indian Cent, Judd-212, Pollock-263, R.4, PR66 PCGS. Snow-PT25. Similar to the Indian cent design as issued in 1860, but with a broad, ornamented shield at the top of the reverse. Struck in copper-nickel with a plain edge. The centered date, broad bust tip Pollock and Snow variant of Judd-212. This intricately impressed Premium Gem displays dazzling field reflectivity and is void of contact. Infrequent pinpoint carbon denies a higher grade. Population: 1 in 66, 1 in 66 Cameo, none finer (1/13). PCGS# 11895, CoinPlex ID# PAT1858J212

**Choice Proof Judd-228 Transitional  
1859 Shield Reverse Cent**

- 4687** 1859 Indian Cent, Judd-228, Pollock-272, R.1, PR64 PCGS. Snow-PT4. The transitional Pointed Bust Type of 1860 but dated 1859. The reverse displays the oak wreath and shield design first struck for circulation on 1860 cents. Regular issue 1859 cents are sans shield and feature a laurel wreath. Struck in copper-nickel with a plain edge. A well struck Choice proof with partial wire rims. Contact marks are absent and no carbon is visible. The mildly subdued fields exhibit rose-red and lime-green tints. PCGS# 11934, CoinPlex ID# PAT1859J228

**1859 'French Head' Half Dollar  
Judd-242, PR64 Brown**

- 4688** 1859 Half Dollar, Judd-242, Pollock-298, R.5, PR64 Brown PCGS. The European-inspired design of James B. Longacre, the so-called French Head, shows a bust of Liberty facing right, draped with a ribbon inscribed LIBERTY with a wide wreath of oak and vine on her head. The date 1859 is below. The reverse has the denomination 50 CENTS within a wreath of cotton, tobacco, sugar cane, corn, wheat, and oak. Struck in copper with a reeded edge. Despite the Brown designation, glimpses of original mint red show near the rims. A dark toning area is noted near the 18 in the date. PCGS# 11980, CoinPlex ID# PAT1859J242BN

**GOD OUR TRUST 1862 Seated Half  
Judd-294, PR64 Brown**

- 4689** 1862 Half Dollar, Judd-294, Pollock-352, Low R.7, PR64 Brown NGC. The design is similar to that used on regular issue 1862 Seated half dollars, except that a scroll with the motto GOD OUR TRUST is present above the eagle's head. Struck in copper with a reeded edge. The present fully struck specimen is satiny and smooth. The obverse field near 4:30 is glossy. When rotated beneath the light, the surfaces exhibit powder-blue and golden-brown toning. PCGS# 60444, CoinPlex ID# PAT1862J294BN

**Very Rare Thick Planchet Judd-299  
Bronze 1863 Indian Cent, PR64 Brown**

- 4690** 1863 One Cent, Judd-299, Pollock-359, Snow-PT1b, R.7, PR64 Brown PCGS. This transitional striking of the Indian cent has the regular design of 1863, but it is struck in bronze with a plain edge with a medallion alignment. This was the Mint's first experiment with bronze and approximately 200 pieces are known today. Coins are known struck on both thick and thin planchets. The thin planchet variety is R.3, but the present lot is the very rare thick planchet variety, as can be seen within the PCGS holder. The present sharply struck near-Gem is richly toned lilac-red and olive-green. Satiny and free from detractors. PCGS# 60454, CoinPlex ID# PAT1863J299BN

**1865 Copper Three Cent Nickel  
Judd-411, PR65 Brown**

- 4691** 1865 Three Cent Nickel, Judd-411, Pollock-482, High R.6, PR65 Brown PCGS. Similar in design to the issued three cent nickel, but the ribbon ends extend to the denticles. Struck in copper with a plain edge. Examples were struck of this pattern in nickel, copper, and aluminum (unseen since 1892). The present razor-sharp specimen offers deep shades of steel-blue, orange-gold, and rose-red. Pinpoint carbon limits the grade. PCGS# 60592, CoinPlex ID# PAT1865J411BN

**1868 PR66 Ultra Cameo Three Cent Nickel  
Judd-615, Struck on a Wider Planchet**

- 4692** 1868 Three Cent Nickel, Judd-615, Pollock-680, R.5, PR66 Ultra Cameo NGC. Similar in design to the contemporary three cent nickel, but the wreath on the reverse is that of the Flying Eagle cent and the Roman numeral lacks fluting on the columns. Struck in nickel with a plain edge. The obverse rim is unusually wide, while the reverse is narrower than normal. Tom DeLorey suggested that the obverse design is a regular 17.9-mm three cent obverse set in a one cent-size 19.1-mm die blank, leaving the wide borders, whereas the reverse is normal one cent-size. The fields show exceptionally deep reflectivity, especially for a nickel product, with sharply contrasting frosted devices. The mostly brilliant surfaces have a light overlay of straw-gold patina. There is a small patch of die rust, as made, between the chin and the T in UNITED. PCGS# 60827, CoinPlex ID# PAT1868J615

**Choice Proof Judd-702  
Standard Silver 1869 Ten Cent**

- 4693** 1869 Standard Silver Ten Cents, Judd-702, Pollock-781, R.5, PR64 NGC. CAC. Standard Silver design. Liberty sports a diadem in her hair, oak and laurel wreath reverse, STANDARD SILVER above, the date below, 10 CENTS in the center. Struck in silver with a reeded edge. Precisely struck and prominently mirrored with dappled navy-blue, plum-red, and slate-gray toning. PCGS# 60927, CoinPlex ID# PAT1869J702

**PR64+ Brown Judd-729 Reeded Edge  
1869 Standard Silver Quarter**

- 4694** 1869 Standard Silver Quarter Dollar, Judd-729, Pollock-810, Low R.7, PR64+ Brown PCGS. CAC. A Standard Silver design that depicts Liberty wearing a diadem. A scroll occupies the obverse exergue. The reverse displays STANDARD SILVER 1869 around the rim with 25 CENTS in the center of an oak and laurel wreath. Struck in copper with a reeded edge. The obverse exhibits an unusually steep wire rim near 1 o'clock. The present fully struck and unabraded specimen is virtually carbon-free. Richly toned in steel-blue, olive-green, chestnut-gold, and lavender shades. PCGS# 60956, CoinPlex ID# PAT1869J729BN

**Red Gem Proof 1870 Standard Silver  
Dime in Copper, Judd-846**

- 4695** 1870 Standard Silver Ten Cents, Judd-846, Pollock-945, R.7, PR65 Red PCGS Secure. CAC. Ex: Stonewall Collection. Liberty wears a starless tiara, and the large agricultural wreath consists of corn and cotton. Struck in copper with a plain edge. These dies are seldom available in copper alloy; silver examples are seen about four times more often. This lovely and sharply struck orange-gold Gem has a tiny spot near 9 o'clock, but is otherwise outstanding. Ex: Denver Signature (Heritage, 8/2006), lot 1453. PCGS# 81090, CoinPlex ID# PAT1870J846RD

**Multicolor PR66 Judd-868 Plain Edge  
1870 Standard Silver Dime**

- 4696** 1870 Standard Silver Ten Cents, Judd-868, Pollock-964, Low R.7, PR66 PCGS Secure. CAC. Ex: Stonewall Collection. On the obverse Liberty's head is tied back in a bun, there is a star on the headband, UNITED STATES OF AMERICA around, and the motto IN GOD WE TRUST is placed on a scroll below. The reverse has 10 / CENTS inside a small oak and laurel wreath, STANDARD SILVER, in large letters, arcs along the upper reverse margin. The date 1870 is at the reverse exergue. Struck in silver with a plain edge. Sea-green, caramel-gold, and steel-blue patina enrich this nicely mirrored, immaculate, and well struck specimen. PCGS# 61112, CoinPlex ID# PAT1870J868

**Copper 1870 Standard Silver Dime  
PR65 Red and Brown, Judd-869**

- 4697** 1870 Standard Silver Ten Cents, Judd-869, Pollock-965, R.7, PR65 Red and Brown PCGS Secure. CAC. Ex: Stonewall Collection. A bust of Liberty, facing right, wears a single star on the headband. The reverse has 10 CENTS in the center, surrounded by an oak and laurel wreath with STANDARD SILVER above and the date in the exergue. Struck in copper with a reeded edge. This well struck Gem has deep cherry-red toning with glimpses of the initial orange-gold at the borders. Flawless aside from a single small spot on the final A in AMERICA. PCGS# 71113, CoinPlex ID# PAT1870J869RB

**Choice Proof Judd-945 Standard Silver  
1870 Half Dollar, Struck in Silver**

- 4698 1870 Standard Silver Half Dollar, Judd-945, Pollock-1073, Low R.7, PR64 PCGS. CAC.** The obverse design is a bust of Liberty facing right, with the legend UNITED STATES OF AMERICA around and the motto IN GOD WE TRUST on a scroll below. Liberty is wearing a cap ornamented with two stars, and a ribbon crossing her shoulder is inscribed LIBERTY in incuse letters. The reverse has the denomination 50 CENTS and the date 1870 within a wreath of cotton and corn, with the inscription STANDARD above. Struck in silver with a reeded edge. The present fully struck Choice proof has flashy fields and only a hint of straw-gold toning. Only trivial hairlines prevent an even finer third party assessment. Population: 5 in 64, 2 finer (1/13). PCGS# 61191, CoinPlex ID# PAT1870J945

**Judd-1672 1881 Liberty Nickel  
PR66 Red and Brown**

- 4699 1881 Liberty Head Five Cents, Judd-1672, Pollock-1873, High R.6, PR66 Red and Brown PCGS.** The obverse of this five cent pattern features the as-issued Liberty Head motif of Charles Barber, surrounded by UNITED STATES OF AMERICA, the date 1881 below. The reverse offers a large V in the center for the denomination, surrounded by a foliar open wreath of wheat, cotton, and corn. Struck in copper with a plain edge. The present needle-sharp specimen is spectacularly toned cherry-red, cobalt-blue, and peach-gold. No imperfections are evident beneath the multicolor shades. PCGS# 72068, CoinPlex ID# PAT1881J1672RB

**GOLD DOLLARS**

- 4700 1849 No L MS63 NGC.** The widely repunched star pair beneath the bust identifies the No L variety, even before the truncation is checked for the presence of Longacre's initial. Designated as "Small Head" by NGC though more accurately described as Distant Stars. Sharply struck and lustrous with apricot toning. NGC ID# 25B7, PCGS# 7501, CoinPlex ID# G\$M1849NOL

**1850 Gold Dollar, MS65  
A Condition Rarity**

- 4701 1850 MS65 PCGS.** This is an amazing Gem gold dollar. The 1850 has a modest mintage of less than half a million coins and is extremely rare in MS65 or finer grades. In fact, PCGS and NGC have graded a total of just 26 MS65 coins, and only eight finer pieces (1/13). Sharply struck and highly lustrous, this Gem exhibits lovely light yellow luster with slightly deeper reddish patina near the borders. Population: 14 in 65, 4 finer (1/13). PCGS# 7509, NGC ID# 25BF, CoinPlex ID# G\$M1850

**Uncirculated 1850-O Gold Dollar**

- 4702 1850-O MS61 NGC. Variety 1.** One die pair is known for the scant mintage of 14,000 pieces. The rarest New Orleans gold dollar issue, though affordable relative to the 1855-O due to the latter's status as a single-year O-mint type. The present Uncirculated 1850-O is precisely struck and displays lovely butter-gold toning. Minimally abraded and the margins teem with luster. Census: 37 in 61, 25 finer (1/13). NGC ID# 25BJ, PCGS# 7512, CoinPlex ID# G\$M1850O

**Gem Mint State 1851 Gold Dollar  
Great Example of Type One Design**

- 4703 1851 MS65 PCGS.** A high-quality Gem that hails from one of the more abundant Type One gold dollar issues, this piece has faint peach overtones against rich yellow luster. A coppery streak extending from Liberty's neck to a nearby star adds character. The reverse is rotated approximately 45 degrees counterclockwise from coin turn. PCGS# 7513, NGC ID# 25BK, CoinPlex ID# G\$M1851

**MS62 1851-C Gold Dollar  
Lustrous Charlotte Type Coin**

- 4704 1851-C MS62 PCGS. Variety 1.** This sharply struck and lustrous Charlotte gold dollar is predominantly lemon-gold but has hints of lilac patina on the central reverse. Marks are minor throughout, aside from a cluster of faint grazes east of the 1 in the denomination. Population: 18 in 62 (1 in 62+), 29 finer (1/13). PCGS# 7514, NGC ID# 25BL, CoinPlex ID# G\$M1851C

**1852-C Gold Dollar, Unc Details**

- 4705 1852-C — Obverse Scratched — NGC Details. Unc. Variety 2.** Like all Charlotte gold dollar issues, the 1852-C is rare. A meager 9,434 pieces were issued, and only a small percentage have survived with Uncirculated sharpness. The present butter-gold example is nicely struck but has a vertical pinscratch on the portrait. Minor mint-made strike-throughs cause a granular appearance on the central obverse field and near the AR in DOLLAR. NGC ID# 25BR, PCGS# 7518, CoinPlex ID# G\$M1852C
- 4706 1853 MS64 PCGS. CAC.** The 1853 gold dollar is a plentiful issue and a favorite choice of type collectors seeking a Type One representative. This well-detailed Choice example features lustrous peach-gold surfaces with few signs of contact. PCGS# 7521, NGC ID# 25BU, CoinPlex ID# G\$M1853
- 4707 1853 MS64 PCGS. CAC.** An impressive Choice example of this Type One gold dollar, with well-detailed design elements and vibrant satiny mint luster. The Type One design was retired the next year, and the 1853 is a popular date with type collectors. PCGS# 7521, NGC ID# 25BU, CoinPlex ID# G\$M1853

**Gem 1853 Gold Dollar  
Quality Type Coin**

- 4708 1853 MS65 NGC.** This generally well-defined Type One gold dollar makes an excellent representative of the small-diameter Coronet design. The obverse luster is largely straw-gold and pale apricot, though the reverse has an area of peach on the interior. Quality inner detail and a frosty air complete the eye appeal. NGC ID# 25BU, PCGS# 7521, CoinPlex ID# G\$M1853

- 4709 1853-O MS62 PCGS. CAC. Variety 2.** The date is entered low and is lightly repunched on the 1 and 3. This well struck green-gold representative has an unabraded reverse and faint thin obverse marks near the eye and the border at 2 o'clock. PCGS# 7524, NGC ID# 25BX, CoinPlex ID# G\$M1853O
- 4710 1854 Type Two AU58 PCGS.** Nearly full frosty luster remains on each side with only a trace of rub on the high points of this brilliant yellow gold dollar, exhibiting faint blue-green overtones. Trivial marks are only visible with a glass. PCGS# 7531, NGC ID# 25C3, CoinPlex ID# G\$M1854TY2
- 4711 1854 Type Two MS61 NGC.** The obverse is lightly die doubled, most apparent on STATES. A Mint State apricot-gold representative of the briefly coined Small Head subtype. The fields display prominent clash marks but lack relevant marks. NGC ID# 25C3, PCGS# 7531, CoinPlex ID# G\$M1854TY2

**Type Two 1855 Gold Dollar, MS62**

- 4712 1855 MS62 PCGS. CAC.** Pale and beautiful radiance prevails on this Type Two gold dollar. The surfaces are largely straw-gold with areas of sun-yellow also present. Though a number of wispy abrasions are scattered through the fields, this piece has excellent arm's-length eye appeal for its short-lived type. PCGS# 7532, NGC ID# 25C4, CoinPlex ID# G\$M1855TY2

**AU Sharpness 1855-C Gold Dollar**

- 4713 1855-C — Bent — NGC Details. AU. Variety 2.** The sole Charlotte Small Head issue, and rare due to a miserly mintage of 9,803 pieces. This tan-gold example is bent between the AT in STATES. The portrait has a couple of small strike-throughs, and slight granularity is noted near the A in STATES and the C in AMERICA, all as made. Struck from clashed dies, usual for the ephemeral Type Two design. NGC ID# 25C5, PCGS# 7533, CoinPlex ID# G\$M1855CTY2

### Boldly Lustrous 1858 Gold Dollar, MS65

**4714 1858 MS65 NGC.** Predominantly sun-yellow surfaces show a few suggestions of apricot. The strike is above-average on the bow tying together the wreath, though Liberty's hair shows a touch of softness. As a lustrous Gem representative of a little-saved Type Three issue, this piece is a condition rarity. NGC has graded only one example as MS66 or finer (1/13). NGC ID# 25CH, PCGS# 7548, CoinPlex ID# G\$M1858

**4715 1861 MS65 PCGS. CAC.** Sea-green and peach-gold alternate across smooth and lustrous surfaces. This well struck Civil War Gem displays a double set of clash marks but appears unabraded. Certified in a green label holder. Population: 34 in 65, 10 finer (1/13). PCGS# 7558, NGC ID# 25CU, CoinPlex ID# G\$M1861

**4716 1862 MS65 PCGS. CAC.** A lemon-gold Gem whose dynamic luster and intricate strike combine for exquisite eye appeal. The fields display only trivial contact. Housed in a green label holder. PCGS# 7560, NGC ID# 25CW, CoinPlex ID# G\$M1862

**4717 1871 MS64 PCGS.** The 1871 has a minimal business strike mintage of 3,900 pieces and, unlike certain later dates, relatively few examples were set aside as Mint State. This semiprooflike near-Gem is smooth aside from marks near the O in DOLLAR. Population: 19 in 64, 24 finer (1/13). PCGS# 7571, NGC ID# 25D8, CoinPlex ID# G\$M1871

**4718 1873 Open 3 MS65 NGC.** The 1873 gold dollars, with an Open 3 in the date, were struck later in the year and in greater quantity than their Close 3 predecessors. This pleasing honey-gold Gem is well struck and highly lustrous. Census: 50 in 65, 10 finer (1/13). NGC ID# 25DB, PCGS# 7573, CoinPlex ID# G\$M1873OP3

### 1876 Gold Dollar, Gem Uncirculated Low-Mintage Date

**4719 1876 MS65 NGC. CAC.** A flashy Gem with partially reflective and wholly original lemon-orange surfaces with only a few tiny marks. The only detractor is slight softness of strike over the high points of the design. A conditionally rare and exceedingly desirable piece from a mintage of only 3,245 examples. Census: 6 in 65, 3 finer (1/13). Ex: *Denver Signature (Heritage, 8/2006)*, lot 1541. NGC ID# 25DE, PCGS# 7577, CoinPlex ID# G\$M1876

**4720 1877 MS63 NGC.** The prooflike yellow-gold surfaces of this attractive Select example show a few hints of green, with sharply detailed design elements and only minor signs of contact. Census: 20 in 63, 36 finer (1/13). NGC ID# 25DE, PCGS# 7578, CoinPlex ID# G\$M1877

### Gem 1877 Gold Dollar Attractive Prooflike Surfaces

**4721 1877 MS65 PCGS.** Only 3,900 gold dollars were struck in 1877, but contemporary collectors saved a number of high-grade specimen, like the present coin, for future numismatists to enjoy. This delightful Gem displays well-detailed design elements and prooflike yellow and rose-gold surfaces, with terrific eye appeal. Population: 7 in 65, 23 finer (1/13). PCGS# 7578, NGC ID# 25DE, CoinPlex ID# G\$M1877

**4722 1878 MS65 PCGS. CAC.** Unlike its three dollar gold counterpart, the 1878 gold dollar did not see a production spike, and just 3,000 business strikes were released. This strongly reflective yellow-gold survivor offers crisp detail and vibrant eye appeal. Population: 18 in 65, 6 finer (1/13). PCGS# 7579, NGC ID# 25DG, CoinPlex ID# G\$M1878

**4723 1880 MS66 PCGS.** The 1880 has a tiny mintage of 1,600 pieces, though Philadelphia-area dealers managed to set aside a few hundred examples. The present boldly struck Premium Gem possesses beautiful peach-red toning and outstanding preservation. PCGS# 7581, NGC ID# 25DJ, CoinPlex ID# G\$M1880

**4724 1882 MS64 PCGS.** A touch of apricot color lends a different hue to the yellow-gold base at certain angles. Generous swirling luster has a touch of flash on the reverse. Great eye appeal for this issue of just 5,000 business strikes. PCGS# 7583, NGC ID# 25DL, CoinPlex ID# G\$M1882

**4725 1882 MS65 PCGS.** Primarily peach-gold though ruby-red congregates at the upper obverse margin. Pristine except for a single diagonal pinscratch on the cheek. Only 5,000 pieces were struck. PCGS# 7583, NGC ID# 25DL, CoinPlex ID# G\$M1882

**4726 1883 MS65 NGC. CAC.** A splendidly preserved and lustrous yellow-gold Gem. The ERT in LIBERTY is faint, as coined from a lapped die. From a commercial mintage of just 10,800 pieces. NGC ID# 25DM, PCGS# 7584, CoinPlex ID# G\$M1883

**4727 1883 MS67 PCGS.** A stunning Superb Gem, this orange-gold specimen has satiny luster with radiant mint brilliance on both sides. A hint of contrast is evident between the frosty devices and reflective fields. PCGS has only certified nine finer examples of the 1883 gold dollar (1/13). PCGS# 7584, NGC ID# 25DM, CoinPlex ID# G\$M1883

**4728 1884 MS63 PCGS. Gold CAC.** A meager 5,230-piece mintage ensures the scarcity of this later gold dollar date. The present sharply struck and unabraded Select example exhibits prooflike peach-gold fields. Encased in an old green label holder. PCGS# 7585, NGC ID# 25DN, CoinPlex ID# G\$M1884

**4729 1884 MS64 NGC.** Wisps of ruby-red patina visit the borders, while the centers exhibit radiant yellow-gold color. Boldly struck and well-preserved aside from a couple of faint marks in the left obverse field. The date was initially entered with a pronounced upward slant, then largely effaced and repunched. Census: 27 in 64, 54 finer (1/13). Ex: *Long Beach Signature (Heritage, 6/2004)*, lot 7359. NGC ID# 25DN, PCGS# 7585, CoinPlex ID# G\$M1884

**4730 1884 MS66 PCGS. CAC.** Splashes of peach, apricot, lemon, plum, and fiery-orange add to the attractiveness of this lustrous Premium Gem. Hints of frosted mint-green and lime appear as well. Clash marks are visible on both sides. Population: 17 in 66, 19 finer (1/13). PCGS# 7585, NGC ID# 25DN, CoinPlex ID# G\$M1884

**4731 1888 MS66 PCGS.** A lovely Premium Gem, this 1888 gold dollar exhibits frosty yellow luster with a few tiny copper toning spots on each side. This highly appealing piece will find a nice home in an advanced type set or specialized collection. PCGS# 7589, NGC ID# 25DT, CoinPlex ID# G\$M1888

**4732 1889 MS64 PCGS.** This well preserved final-year gold dollar features a bold strike and rich peach-gold color. The flashy fields display a couple of minor lintmarks (as coined) on the central reverse. Encapsulated in a green label holder.

*Ex: New York Signature (Heritage, 7/2004), lot 8001, which realized \$891.25. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889*

**4733 1889 MS64 NGC. CAC.** A mildly prooflike wheat-gold near-Gem of the final Liberty issue. The denomination would be resurrected years later for various commemorative types. Well struck and unmarked with uncommon eye appeal for the designated grade. NGC ID# 25DU, PCGS# 7590, CoinPlex ID# G\$M1889

**4734 1889 MS65 PCGS.** An intricately struck orange-gold Gem with flashy luster and pleasing preservation. The lower wreath is die doubled, as always on business strikes of this final year issue. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889

**4735 1889 MS66 PCGS. CAC.** An impressive Premium Gem marking the end of the regular-issue gold dollar denomination, this piece exhibits brilliant yellow-gold surfaces with prooflike fields and noticeable contrast. A few trivial spots appear on each side. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889

#### Superb Gem 1889 Gold Dollar Series Finale

**4736 1889 MS67 NGC.** As no gold dollars were issued in 1890 before the act to repeal the denomination passed, the 1889 is the final date in the series. This Superb Gem would make an excellent finisher for a set. Swirling luster has an apricot tinge and a small coppery area in the dentils over the M in AMERICA on the obverse. NGC ID# 25DU, PCGS# 7590, CoinPlex ID# G\$M1889

#### Last-Year 1889 Gold Dollar, MS67

**4737 1889 MS67 PCGS.** This final-year gold dollar is fully struck and devoid of the slightest contact. The khaki-gold surfaces are lustrous and limited in grade only by a couple of tiny peripheral alloy spots on each side. Housed in a first generation holder, and virtually unobtainable any finer from PCGS. PCGS# 7590, NGC ID# 25DU, CoinPlex ID# G\$M1889

## CLASSIC QUARTER EAGLES

**4738 1834 — Improperly Cleaned — NGC Details. Unc. Breen-6138, Variety 1, R.1.** The Small Head variety, believed struck from the first Classic quarter eagle dies. The portrait is slightly taller on subsequent varieties. The straw-gold fields are mildly subdued from cleaning, but marks are minor aside from a glossy area beneath STATES. NGC ID# 25FS, PCGS# 7692, CoinPlex ID# G2E1834CLASSIC

#### Mint State 1834 Classic Quarter Eagle Ephemeral Small Head Subtype

**4739 1834 MS61 NGC. Breen-6138, Variety 1, R.1.** A lemon-gold first-year type representative with flashy luster near design elements. A thin mark on the chin, but generally only lightly abraded for the MS61 level. The only die marriage of the Small Head subtype, identified by the shape of the two leftmost upper hair curls.

*Ex: Long Beach Signature (Heritage, 9/2009), lot 1444, which realized \$2,875. NGC ID# 25FS, PCGS# 7692, CoinPlex ID# G2E1834CLASSIC*

**4740 1837 XF45 NGC. CAC. Breen-6145, Variety 16, R.2.** The usual die variety for this lower mintage Philadelphia issue, though two other rare die pairs are known. The apricot-gold surfaces show moderate wear and display a few minor marks near OF and the date. NGC ID# 25FX, PCGS# 7695, CoinPlex ID# G2E1837

**4741 1837 AU55 NGC. Breen-6145, Variety 16, R.2.** A straw-gold Classic quarter eagle with pockets of bright luster near design elements. A lens reveals infrequent hair-thin marks but there are no obtrusive abrasions. A lower mintage date. NGC ID# 25FX, PCGS# 7695, CoinPlex ID# G2E1837

#### Uncirculated 1838 Classic Quarter Eagle Final Year of the Type

**4742 1838 MS60 NGC. Breen-6146, Variety 19, R.2.** A remarkable example of the scarce 1838 quarter eagle coinage, with sharp design elements and brilliant green-gold luster. The surfaces are pleasing for the grade with only the usual tiny surface marks that have a tendency of accumulating over time. None of the imperfections are of any significance, and the overall appearance is excellent.

*Ex: Dallas Signature (Heritage, 11/2007), lot 1854. NGC ID# 25FY, PCGS# 7696, CoinPlex ID# G2E1838*

## LIBERTY QUARTER EAGLES

### Near-Mint 1840 Quarter Eagle Debut of Coronet Design

- 4743 1840 AU58 NGC.** The debut of Christian Gobrecht's long-lived Coronet design for quarter eagle, the 1840 was a small issue (18,859 pieces) followed by the small or null output at Philadelphia in 1841. This near-Mint representative is softly struck but shows only minor true wear. The surfaces are pale yellow with overpowering radiance. NGC ID# 25GA, PCGS# 7717, CoinPlex ID# L2M1840

- 4744 1842-O XF40 PCGS. Variety 1.** This green-gold New Orleans quarter eagle has less wear and greater luster than expected for the XF40 grade. The strike is good despite blending on the shield. One hair-thin mark noted above the eagle's head. A scant 19,800 pieces were issued. PCGS# 7726, NGC ID# 25GK, CoinPlex ID# L2M1842O

- 4745 1843-D Small D Good 6 PCGS. Variety 4-H (formerly 4-D).** A well circulated and luminous orange-gold Dahlonega representative. Minute marks are distributed along with one moderate abrasion near star 9. The scarce late die state with a radial die crack near the first S in STATES. Certified in a green label holder. PCGS# 7730, NGC ID# 25GP, CoinPlex ID# L2M1843D

- 4746 1843-D Small D XF45 PCGS. Variety 4-H (formerly 4-D).** This rare late die state has a crack through the right side of the first S, angling down to the top of the wing. A pleasing Choice XF with the usual marks expected for the grade, this example retains a trace of luster with bright yellow surfaces. PCGS# 7730, NGC ID# 25GP, CoinPlex ID# L2M1843D

- 4747 1843-D Large D VF35 PCGS. Variety 4-I (formerly 4-H).** The Large D is significantly rarer than the Small D. This Dahlonega example retains traces of luster and is well defined on the plumage and the hair above the ear. We note an intermittent horizontal mark between 3 and 9 o'clock on the reverse and a few thin marks on the portrait.  
*Ex: New Millennium Collection (Heritage, 11/2003), lot 7155, which realized \$1,265. PCGS# 97730, CoinPlex ID# L2M1843DLD*

### Choice AU 1843-D Quarter Eagle Rare Large D Variety

- 4748 1843-D Large D AU55 NGC.** The Large D variety is significantly rarer than its Small D counterpart, but the present coin is from a different and unlisted reverse die. The mintmark tilts upward and its upright is centered over the tip of the fraction bar. The mintmark is also clearly repunched at its base. A well struck and desirable apricot-gold Dahlonega five with original color and unblemished surfaces. PCGS# 97730, CoinPlex ID# L2M1843DLD

- 4749 1845-D XF45 NGC. Variety 6-J (formerly 6-I).** An elusive Dahlonega two and a half issue with a mintage of 19,460 pieces. Rich pumpkin-gold toning drapes this lightly abraded representative. The centers and dentils show a typical strike but the wings and stars are well defined, and glimmers of luster are plentiful. NGC ID# 25GX, PCGS# 7738, CoinPlex ID# L2M1845D

### Smooth AU 1845-D Quarter Eagle

- 4750 1845-D AU50 PCGS. Variety 6-J (formerly 6-I).** A remarkably unabraded green-gold representative of this low mintage but collectible Dahlonega issue. The shield and the hair above the ear show incompleteness but the stars are sharply defined. Luster glimmers from the legends, curls, and eagle. Population: 21 in 50, 50 finer (1/13). PCGS# 7738, NGC ID# 25GX, CoinPlex ID# L2M1845D

### Near-Mint 1845-D Two and a Half

- 4751 1845-D AU58 PCGS. Variety 6-J (formerly 6-I).** A nicely struck canary-gold Borderline Uncirculated Dahlonega example. The fields exhibit clash marks (as made) but only inconsequential abrasions are present. The 1845-D is a low mintage issue, and the median certified grade at PCGS is XF45. Population: 15 in 58, 9 finer (1/13). PCGS# 7738, NGC ID# 25GX, CoinPlex ID# L2M1845D

- 4752 1846-O AU55 NGC. Variety 1.** This wheat-gold New Orleans representative is uncommonly void of marks, and the sole identifier is a slight rim ding at 12 o'clock on the reverse. The strike is incomplete at the centers though most stars are bold. NGC ID# 25H4, PCGS# 7743, CoinPlex ID# L2M1846O

### Mint State 1846-O Two and a Half

- 4753 1846-O MS61 NGC. Variety 1.** The mintmark is placed further left than on the other two varieties. This New Orleans issue is merely scarce in XF and AU but becomes rare in Mint State. The sun-gold fields are bright and only moderately abraded. The centers show inexactness of strike typical for branch mint gold coinage of the era. Census: 12 in 61, 10 finer (1/13). NGC ID# 25H4, PCGS# 7743, CoinPlex ID# L2M1846O

**4754 1847-O AU58 NGC. Variety 4.** An unabraded wheat-gold Borderline Uncirculated New Orleans representative. The strike is typical at the centers though most stars are crisp. The dies have close to medal turn, usual for this scarce die pair. Census: 39 in 58, 31 finer (1/13). NGC ID# 25H8, PCGS# 7747, CoinPlex ID# L2M1847O

**4755 1848-D VF30 PCGS. Variety 10-O (formerly 10-N).** The scarcer of the two die marriages for this challenging Dahlonega issue. The present midgrade caramel-gold example has pleasing sharpness and the only noticeable mark is concealed between stars 9 and 10. PCGS# 7751, NGC ID# 25HC, CoinPlex ID# L2M1848D

**4756 1849-C XF40 NGC. Variety 1.** A honey-gold Charlotte two and a half that displays hints of luster within the lettering and shield. The centers are typically struck, but wing and hair detail are present. Minor marks are near the forehead curl and the E in LIBERTY. *Ex: Ft. Lauderdale FUN Signature (Heritage, 1/2005), lot 8562, which realized \$1,725.* NGC ID# 25HE, PCGS# 7753, CoinPlex ID# L2M1849C

**4757 1851 MS64 PCGS.** A lustrous apricot-gold near-Gem with a good strike and a few minor marks near star 1. The obverse has a wire rim. The base of the date is repunched on all four digits. Population: 38 in 64 (1 in 64+), 4 finer (1/13). PCGS# 7759, NGC ID# 25HL, CoinPlex ID# L2M1851

#### Mint State 1851-O Two and a Half

**4758 1851-O MS61 NGC. Variety 1.** The date is nicely repunched, with traces of errant digits entered too low and with a downward slant. A non-repunched date variety is also known. This sun-gold New Orleans quarter eagle is refreshingly unabraded though the curls near the ear and the eagle's claws and left (facing) leg exhibit incompleteness of strike. Census: 22 in 61, 16 finer (12/12). NGC ID# 25HP, PCGS# 7762, CoinPlex ID# L2M1851O

**4759 1852-C XF40 NGC. Variety 1.** A lightly abraded straw-gold representative of this challenging Charlotte issue. The strike is better on the curls than on the eagle. A minimal 9,772 pieces were produced, and only a small fraction of that number have survived. NGC ID# 25HS, PCGS# 7764, CoinPlex ID# L2M1852C

#### 1853 Quarter Eagle, Gem Uncirculated Reddish-Tinged Mint Luster

**4760 1853 MS65 NGC.** The 1853 quarter eagle had a relatively large mintage (approaching 1.5 million pieces), the result of a large influx of California gold bullion. It is readily available in circulated condition, but Mint State coins become more difficult to locate, especially in the higher levels. The distinct reddish-tinted surfaces distinguish this piece, whose only drawback is a diagonal mark behind the chin of Liberty. Census: 19 in 65, 1 finer (1/13). *From The Fenn Family Collection.* NGC ID# 25HV, PCGS# 7767, CoinPlex ID# L2M1853

**4761 1856 MS63 NGC.** A lustrous and lightly abraded example, this piece displays a sharp strike except for the lower half of the eagle. Although the 1856 is a readily available date in circulated grades, examples appear less frequently in the higher Mint State grades. Census: 41 in 63, 35 finer (1/13). NGC ID# 25J7, PCGS# 7777, CoinPlex ID# L2M1856

**4762 1857-O AU55 NGC. Variety 1.** The sole die pairing for this lower mintage (34,000 pieces) New Orleans issue. The caramel-gold surfaces are lightly abraded, and we note only a small mark near star 2. The strike is fairly sharp, particularly on the curls near the coronet. NGC ID# 25JE, PCGS# 7784, CoinPlex ID# L2M1857O

**4763 1860 Old Reverse, Type One VF30 PCGS. Ex: Childs.** The upper two arrowheads touch, indicative of the better Type One variety. A midgrade but original and problem-free example with peach-gold and apple-green toning. The Childs Collection is remembered for its finest known 1804 dollar.

*Ex: Walter H. Childs Collection (Bowers and Merena, 8/1999), part of lot 598; Indianapolis Central States (Heritage, 4/2001), lot 7689, which realized \$1,437.50.* PCGS# 97791, CoinPlex ID# L2M1860OLDREV

**4764 1861 New Reverse, Type Two MS62 NGC.** The slender arrow heads are well-separated, diagnostic of the new reverse hub that went into use in 1859. The transition period from the old hub to the new hub lasted until 1861, likely due to reuse of old reverse dies. This piece is fully brilliant with frosty yellow luster and delicate orange overtones. NGC ID# 25JX, PCGS# 7794, CoinPlex ID# L2M1861NEWREV

**4765 1861 New Reverse, Type Two MS64 PCGS.** This Civil War type coin exhibits sweeping luster and smooth apricot-gold surfaces. The major devices are intricately struck, though portions of the borders lack a complete impression. PCGS# 7794, NGC ID# 25JX, CoinPlex ID# L2M1861NEWREV

**4766 1861 New Reverse, Type Two MS64 NGC.** An attractive Choice example of this popular Civil War type coin, with sharply detailed design elements and satiny mint luster. The pleasing peach and rose-gold surfaces are well-preserved and the only mark of note is a minor rim bruise at 3 o'clock on the obverse. NGC ID# 25JX, PCGS# 7794, CoinPlex ID# L2M1861NEWREV

**4767 1862 AU58 NGC.** The 1862 mintage was less than one-tenth of the prior years, due to the end of specie payments. The present near-Mint apricot-gold example is sharply struck and only moderately abraded. NGC ID# 25JZ, PCGS# 7796, CoinPlex ID# L2M1862

**4768 1862 AU58 NGC.** A brilliant lemon-yellow near-Mint quarter eagle, this Civil War issue has a trace of high-point rub with pleasing surfaces and excellent eye appeal. NGC ID# 25JZ, PCGS# 7796, CoinPlex ID# L2M1862

#### 1869 Quarter Eagle, MS61 Low Philadelphia Mintage

**4769 1869 MS61 NGC.** Philadelphia Mint gold production was extremely limited during the post-Civil War years. For example, the mintage of 1869 quarter eagles was limited to 4,320 business strikes and 25 proofs. Few of those pieces actually circulated, and the average certified grade is AU55. This piece is clearly above average, exhibiting brilliant light yellow luster and prooflike fields, with scattered, grade-consistent marks. Census: 14 in 61, 5 finer (1/13). NGC ID# 25KD, PCGS# 7809, CoinPlex ID# L2M1869

- 4770 1870 AU58 NGC.** The 1870 has a scant mintage of 4,520 pieces, since gold coins failed to circulate in the East, and double eagles were preferred for bullion transactions. This near-Mint two and a half is almond-gold and partly flashy despite a trace of high point wear. Census: 34 in 58, 13 finer (1/13). NGC ID# 25KE, PCGS# 7811, CoinPlex ID# L2M1870
- 4771 1870-S AU58 NGC.** A scarce issue from a mintage of just 16,000 coins, the 1870-S quarter eagle is usually found in grades below AU. This piece has nearly full mint brilliant with orange-gold luster and only a few scattered marks. A copper toning spot appears on the obverse rim at 3 o'clock. Census: 27 in 58, 13 finer (1/13). NGC ID# 25KG, PCGS# 7812, CoinPlex ID# L2M1870S
- 4772 1876 AU58 NGC.** Lightly rubbed with pale radiance for luster. Scattered minor abrasions on each side have little impact on the all-around visual appeal. Weakness in the shield stripes suggests die polishing as opposed to striking softness. NGC ID# 25KU, PCGS# 7824, CoinPlex ID# L2M1876
- 4773 1877-S MS62 PCGS.** This satiny Mint State piece has exceptional eye appeal for the grade, with brilliant yellow surfaces and reflective fields around the lustrous devices. Population: 30 in 62, 33 finer (1/13). PCGS# 7827, NGC ID# 25KX, CoinPlex ID# L2M1877S
- 4774 1878 MS65 NGC.** Lovely orange toning adorns this lustrous high grade gold type coin. The strike shows minor incompleteness on the shield and stars, but the surfaces appear smooth to the unaided eye. Census: 31 in 65 (2 in 65+), 6 finer (1/13). NGC ID# 25KY, PCGS# 7828, CoinPlex ID# L2M1878
- 4775 1878-S MS63 PCGS.** Well-defined with generous luster and splashes of orange against a backdrop of pale yellow. Modestly abraded but pleasing, though the coin is crooked in its gasket. Population: 35 in 63, 13 finer (1/13). PCGS# 7829, NGC ID# 25KZ, CoinPlex ID# L2M1878S
- 4776 1879 MS64+ PCGS.** A lovely and lustrous green-gold near-Gem. The 1 in the date is lightly repunched. The 1879 mintage was reduced from the prior year, as it became evident that Federal paper parity with gold would not result in a rush to hold the latter. Population: 61 in 64 (3 in 64+), 16 finer (1/13). PCGS# 7830, NGC ID# 25L2, CoinPlex ID# L2M1879
- 4777 1879 MS64 PCGS. CAC.** An attractive near-Gem, this piece displays brilliant luster, great color, and a bold strike. When examined more closely, numerous small contact marks appear, primarily on the obverse, limiting the grade. Population: 61 in 64 (3 in 64+), 16 finer (1/13). PCGS# 7830, NGC ID# 25L2, CoinPlex ID# L2M1879
- 4778 1887 MS62 PCGS.** The semireflective fields are typical for this low-mintage Philadelphia issue. The vivid yellow-gold surfaces are attractive despite a scattering of minor abrasions that define the grade. Population: 34 in 62, 42 finer (1/13). PCGS# 7839, NGC ID# 25LB, CoinPlex ID# L2M1887
- 4779 1891 MS63 PCGS.** A lovely apricot-gold representative. Crisply struck and coruscating. AMERICA is strongly die doubled, as seen on all business strikes of this low mintage date. Population: 32 in 63, 35 finer (1/13). PCGS# 7843, NGC ID# 25LF, CoinPlex ID# L2M1891

**Premium Gem 1893 Quarter Eagle  
Extremely Elusive in Higher Grades**

- 4780 1893 MS66 PCGS. CAC.** The design elements of this delightful Premium Gem are sharply detailed throughout, and the attractive peach-gold surfaces radiate satiny mint luster. The well-preserved surfaces show no mentionable signs of contact, and eye appeal is outstanding. Population: 19 in 66, 0 finer (1/13). PCGS# 7845, NGC ID# 25LH, CoinPlex ID# L2M1893

- 4781 1897 MS65 NGC.** A few scattered dark specks are noted with a small area of greenish copper on the reverse of this frosty and fully lustrous pink-gold quarter eagle. NGC has graded 67 examples as MS66 or better (1/13). NGC ID# 25LM, PCGS# 7849, CoinPlex ID# L2M1897
- 4782 1902 MS65 NGC.** The 1902 Liberty quarter eagle is an available date in high grade and a popular choice of type collectors. This attractive Gem is sharply detailed and lustrous, with yellow and rose-gold surfaces that show minimal signs of contact. NGC ID# 25LT, PCGS# 7854, CoinPlex ID# L2M1902
- 4783 1902 MS65 PCGS.** Fully struck throughout both sides, this lovely Gem displays orange-gold centers accented by glints of green near the rims. Scattered marks are present, however they are minor and the eye appeal is great. PCGS# 7854, NGC ID# 25LT, CoinPlex ID# L2M1902
- 4784 1902 MS65 NGC. CAC.** A lovely Gem, this quarter eagle has frosty yellow luster with full mint brilliance and sharp design motifs. The date has the 1 and 9 closely spaced and appearing to lean slightly to the left. NGC ID# 25LT, PCGS# 7854, CoinPlex ID# L2M1902
- 4785 1903 MS65 PCGS.** This lovely sun-gold Gem shows occasional freckles of golden-rose toning that are most conspicuous near the beak. Fully struck and lustrous with a smooth reverse and only minor obverse grazes. PCGS# 7855, NGC ID# 25LU, CoinPlex ID# L2M1903
- 4786 1904 MS66 NGC.** A sharp strike and frosty luster are readily apparent on this lovely Premium Gem. A solitary copper toning spot appears on the obverse with trivial, grade-consistent marks on each side. NGC ID# 25LV, PCGS# 7856, CoinPlex ID# L2M1904
- 4787 1905 MS65 PCGS.** Broadly swirling apricot-gold luster has aspects of peach at certain angles to the light. This piece owes its grade to a few delicate lines on the portrait, and the arm's-length eye appeal of this 20th century quarter eagle makes it a strong candidate for type collectors. PCGS# 7857, NGC ID# 25LW, CoinPlex ID# L2M1905
- 4788 1905 MS66 NGC.** This supremely lustrous type coin shows bright, swirling mint luster with no obvious or mentionable abrasions on either side. Light reddish tinted gold color is well-balanced from side to side. NGC ID# 25LW, PCGS# 7857, CoinPlex ID# L2M1905
- 4789 1905 MS66 PCGS.** Here is an extraordinary Premium Gem with fully lustrous and brilliant light yellow-gold surfaces that display hints of powder-blue toning. The design elements are boldly detailed and the surfaces are pristine. PCGS has only certified 54 finer examples (1/13). PCGS# 7857, NGC ID# 25LW, CoinPlex ID# L2M1905

**1905 Liberty Quarter Eagle, MS67  
Only One Finer Coin at PCGS**

- 4790 1905 MS67 PCGS.** A magnificent Superb Gem, with razor-sharp definition on all design elements and vibrant satiny mint luster. The vivid yellow and orange-gold surfaces show a few highlights of lilac and few signs of contact. Eye appeal is tremendous. Population: 53 in 67, 1 finer (1/13). PCGS# 7857, NGC ID# 25LW, CoinPlex ID# L2M1905

- 4791 1907 MS65 NGC.** A delightful Gem example from the last year of the Liberty design, this coin is well-detailed and brightly lustrous, with light greenish-gold surfaces and no mentionable distractions. NGC ID# 25LY, PCGS# 7859, CoinPlex ID# L2M1907

## INDIAN QUARTER EAGLES

- 4792 1908 MS64 NGC.** As the first year of issue, the 1908 is possibly the most popular Indian Head quarter eagle. Tinges of orange along the border accompany delicate blue-green highlights on this satiny light yellow near-Gem specimen. NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908
- 4793 1908 MS64 NGC.** A stunning specimen, this Choice Mint State first-year Indian quarter eagle exhibits brilliant orange-gold surfaces with frosty luster. A few marks are primarily evident on the reverse. NGC ID# 288Y, PCGS# 7939, CoinPlex ID# I2M1908
- 4794 1909 MS63+ PCGS.** From a mintage of 441,760 pieces, the 1909 Indian quarter eagle is the third-rarest date of the series in terms of total number of specimens known. This lovely high-end Select example displays attractive eye appeal, with a bold strike and great color. PCGS# 7940, NGC ID# 288Z, CoinPlex ID# I2M1909

### 1909 Quarter Eagle, MS65 Third-Rarest Indian Two and a Half

- 4795 1909 MS65 PCGS.** The 1909 Indian quarter eagle is an underrated date in the series. In absolute terms, only the famous 1911-D and the low-mintage 1914 issues are seen less often. This delightful Gem is well-detailed, with mattelike satiny mint luster and well-preserved orange-gold surfaces. PCGS has graded only 17 numerically finer coins (1/13). PCGS# 7940, NGC ID# 288Z, CoinPlex ID# I2M1909
- 4796 1910 MS64 NGC.** Delicate bluish overtones accent the frosty luster and fully brilliant yellow surfaces of this near-Gem quarter eagle. The 1910 is an elusive date in higher grades with an average certified grade of just MS61. NGC ID# 2892, PCGS# 7941, CoinPlex ID# I2M1910
- 4797 1910 MS64 PCGS.** A frosty light yellow-gold Indian quarter eagle, this Choice Mint State piece has exceptional surfaces for the grade, and boasts strong eye appeal. PCGS# 7941, NGC ID# 2892, CoinPlex ID# I2M1910
- 4798 1911 MS64 NGC.** Frosty luster and sharp design motifs are evident on this fully brilliant 1911 Indian quarter eagle. This date has the second highest mintage of the series, but is considered scarcer than the dates in the 1920s, and is popular due to its association with the key 1911-D quarter eagle. NGC ID# 2893, PCGS# 7942, CoinPlex ID# I2M1911

### 1911 Indian Two and a Half, MS65 Prime Condition Rarity in Higher Grades

- 4799 1911 MS65 PCGS.** The 1911 Indian quarter eagle is a scarce issue in MS65, and a prime condition rarity in finer grades. This delightful Gem features well-detailed design elements and mattelike satiny mint luster, with mark-free rose-gold surfaces. Population: 99 in 65 (8 in 65+), 1 finer (1/13). PCGS# 7942, NGC ID# 2893, CoinPlex ID# I2M1911
- 4800 1911-D XF45 PCGS. CAC.** This circulated example of the key-date Indian quarter eagle issue retains luster and displays attractive color on both sides. The wear is confined to the high points and though several contact marks are present, they do not pose a distraction and are mainly confined to the reverse. A pleasing example, this piece possesses lovely eye appeal. PCGS# 7943, NGC ID# 2894, CoinPlex ID# I2M1911D

### Mint State Sharpness 1911-D Quarter Eagle

- 4801 1911-D — Improperly Cleaned — NGC Details. Unc.** The Denver mintmark is sharp and the headdress exhibits complete design detail. The plumage shows inexactness only on the upper tip of the front wing. The straw-gold surfaces are lackluster but appear unabraded. The key to the readily completed gold series. NGC ID# 2894, PCGS# 7943, CoinPlex ID# I2M1911D
- 4802 1912 MS64 PCGS.** This scarce issue is ranked as the fifth rarest Indian quarter eagle according to Michael Fuljenz, and it is a rare date in Gem grades. This near-Gem will fit nicely in a high grade set of the series. Both sides have frosty light yellow luster with trivial marks. PCGS# 7944, NGC ID# 2896, CoinPlex ID# I2M1912
- 4803 1913 MS64 NGC.** Primarily sun-gold with an orange overtone that is significantly more prominent on the reverse. Well-defined overall with a shallow scrape at the left reverse. NGC ID# 2897, PCGS# 7945, CoinPlex ID# I2M1913

**1913 Quarter Eagle, MS65**  
**Only Four Numerically Finer Coins at NGC**

- 4804 1913 MS65 NGC.** From a mintage of 722,000 pieces, the 1913 Indian quarter eagle is surprisingly difficult to locate in high grade. This attractive Gem is sharply detailed, with light yellow-gold surfaces that show slightly granular texture and somewhat thin mint luster. Census: 83 in 65 (1 in 65+), 4 finer (1/13). NGC ID# 2897, PCGS# 7945, CoinPlex ID# I2M1913

**Gem 1913 Indian Quarter Eagle**  
**Very Rare in Finer Grades**

- 4805 1913 MS65 NGC.** From a mintage of 722,000 pieces, the 1913 Indian quarter eagle is a challenging issue in high grade and Gem specimens are quite elusive. This impressive MS65 example exhibits well-detailed design elements and vibrant mint luster on both sides. The pleasing yellow-gold surfaces show accents of rose color and ample eye appeal. Census: 83 in 65 (1 in 65+), 4 finer (1/13). NGC ID# 2897, PCGS# 7945, CoinPlex ID# I2M1913

**Select Mint State 1914 Quarter Eagle**  
**Second-Lowest Mintage of Series**

- 4806 1914 MS63 NGC.** The luster is surprisingly bold and pale on this straw-gold Select example from the Indian quarter eagle issue with the second-lowest mintage of the series. Overall definition is strong and the necklace, though weak on the lowest pendant, has complete outlines. Light abrasions define the grade. NGC ID# 2898, PCGS# 7946, CoinPlex ID# I2M1914

- 4807 1914-D MS63 PCGS. CAC.** Lustrous surfaces and attractive color add to the eye appeal of this Select Mint State example. The reverse exhibits hints of green. As is often seen, the obverse reveals an incompleteness of strike at portions of the Indian's headdress. Although a number of grade consistent contact marks are present, they pose minimal distraction. PCGS# 7947, NGC ID# 2899, CoinPlex ID# I2M1914D

**1915 Quarter Eagle, MS65**  
**Only Three Finer at PCGS**

- 4808 1915 MS65 PCGS.** Wisps of dusky rose toning grace the brilliant surfaces of this fully lustrous and frosty yellow-gold Gem. The 1915 quarter eagle is a plentiful date that is often chosen for type collections. However, it is a major rarity in finer grades, with only three better examples certified by PCGS (1/13). PCGS# 7948, NGC ID# 289A, CoinPlex ID# I2M1915

- 4809 1926 MS64 NGC.** Broadly lustrous with diffuse reflectivity and a hint of apricot against the primary yellow hue. The obverse is a trifle softly struck, but the reverse has good detail. NGC ID# 289C, PCGS# 7950, CoinPlex ID# I2M1926

- 4810 1926 MS64+ PCGS. CAC.** Wisps of pink toning appear over the brilliant and frosty yellow-gold surfaces of this lustrous near-Gem. A few trivial imperfections prevent a higher grade. PCGS# 7950, NGC ID# 289C, CoinPlex ID# I2M1926

- 4811 1926 MS65 PCGS.** A splendid Gem, this 1926 quarter eagle is highly lustrous with frosty mint brilliance, light yellow surfaces, and delicate bluish overtones. PCGS# 7950, NGC ID# 289C, CoinPlex ID# I2M1926

- 4812 1926 MS65 PCGS.** A lustrous peach-gold Gem that shows traces of apple-green toning here and there. A lens reveals only inconsequential contact. CDN reached \$6,000 in November 2005 but is \$2,100 as of Christmas 2012. Encapsulated in a green label holder. PCGS# 7950, NGC ID# 289C, CoinPlex ID# I2M1926

- 4813 1927 MS64+ NGC.** A popular date for type purposes, the 1927 Indian quarter eagle is usually available in high-grade condition. This high-end Choice example makes a nice alternative to a more expensive Gem, with well-detailed design elements and lustrous orange and rose-gold surfaces. NGC ID# 289D, PCGS# 7951, CoinPlex ID# I2M1927

- 4814 1927 MS64+ PCGS. CAC.** A precisely struck Indian type coin whose coruscating sun-gold surfaces are free from remotely consequential contact. A slender die break is noted at the top of the 2 in the date. PCGS# 7951, NGC ID# 289D, CoinPlex ID# I2M1927

- 4815 1927 MS65 PCGS.** All of the Indian quarter eagles in the 1920s are type issues, dates that are plentiful and chosen for type collections. However, none of the five issues are normally encountered in grades above MS65. PCGS has only certified 18 finer 1927 quarter eagles, for example (1/13). This lustrous Gem has frosty light yellow surfaces with excellent eye appeal. PCGS# 7951, NGC ID# 289D, CoinPlex ID# I2M1927

- 4816 1928 MS64+ NGC. CAC.** Faintly peach-gold at certain angles with a more distinct yellow cast elsewhere. Both sides are clearly of above-average Choice quality, though a few wispy marks in the reverse fields preclude full Gem status. NGC ID# 289E, PCGS# 7952, CoinPlex ID# I2M1928

- 4817 1928 MS65 NGC.** Surprisingly flashy for an Indian quarter eagle with a range of yellows to the golden luster. A shallow scrape is noted at the top of the war bonnet. NGC ID# 289E, PCGS# 7952, CoinPlex ID# I2M1928

**4818 1929 MS64+ PCGS. CAC.** The 1929 is the last issue of the Indian series. This high-end Choice example is well-detailed and lustrous, with pleasing orange and greenish-gold surfaces that show few signs of contact. PCGS# 7953, NGC ID# 289F, CoinPlex ID# I2M1929

### THREE DOLLAR GOLD PIECES

**4819 1854 AU58 NGC.** This honey-gold Borderline Uncirculated first year type coin is refreshingly free from marks. The high points of the curls show trivial wear but substantial luster fills design elements. NGC ID# 25M3, PCGS# 7969, CoinPlex ID# G3M1854

**4820 1854 AU58 PCGS.** Attractive peach color appears at many of the protected areas on this near-Mint example, especially on the obverse. Wear is confined to the high points and although abrasions are present, they are minor and have little, if any, impact on the eye appeal. PCGS# 7969, NGC ID# 25M3, CoinPlex ID# G3M1854

**4821 1854 MS61 NGC.** A pleasing example of the first-year three dollar gold piece, a one-year subtype of the design. This piece has brilliant yellow surfaces with delicate bluish toning, and a small spot at the left obverse between T and E of UNITED. NGC ID# 25M3, PCGS# 7969, CoinPlex ID# G3M1854

**4822 1855 AU53 NGC.** Apricot and orange colors add to the attractiveness of this example along with a few scattered splashes of plum-red and russet on the reverse. The lightly worn surfaces display modest abrasions.  
*From The Fenn Family Collection.* NGC ID# 25M6, PCGS# 7972, CoinPlex ID# G3M1855

**4823 1856-S XF45 PCGS.** Small S, the scarcer of the two mintmark sizes for this San Francisco type issue. This smooth Choice XF representative displays glimpses of peach-gold luster within the legends and device crevices. PCGS# 7975, NGC ID# 25M9, CoinPlex ID# G3M1856S

**4824 1856-S AU50 PCGS.** Small S. Pockets of luster illuminate the legends and outline the devices. The curls and wreath show light wear but no abrasions are individually consequential. Most three dollar pieces were struck at Philadelphia, though the '56-S is collectible. PCGS# 7975, NGC ID# 25M9, CoinPlex ID# G3M1856S

**4825 1857 AU58 PCGS. CAC.** Traces of green patina are visible on the heavily clashed yellow-gold surfaces of this lustrous near-Mint example. Both sides have sharp design details save for slight weakness on the ribbon bow. A small abrasion is noted on Liberty's jawline. This coin was certified nearly upside-down in its gasket. PCGS# 7976, NGC ID# 25MA, CoinPlex ID# G3M1857

### Still-Lustrous AU53 1857-S Three Dollar One of 14,000 Pieces Struck

**4826 1857-S AU53 NGC.** The first run of San Francisco three dollar issues ended with the 1857-S, third in the line. This is a considerably lustrous, albeit lightly worn representative of the low-mintage date, orange-gold with a scrape underlining the T in UNITED on the obverse but few serious abrasions elsewhere. The reverse is well-suited to display with that side up. Census: 30 in 53, 40 finer (1/13). NGC ID# 25MB, PCGS# 7977, CoinPlex ID# G3M1857S

**4827 1859 AU53 PCGS.** Scattered surface marks appear on both sides of this still lustrous yellow-gold three, with traces of violet toning among the peripheral design elements. The mintage was a modest 15,558 coins, but that production was ninth highest of the series. PCGS# 7979, NGC ID# 25MD, CoinPlex ID# G3M1859

**4828 1859 MS61 NGC.** Just 10 issues in the three dollar gold series had mintages of more than 10,000 coins, and eight of those 10 issues were dated between 1854 and 1859. The 1859 is one of those, and this splendid specimen exhibits lemon and light yellow luster with trivial surface marks in the fields. NGC ID# 25MD, PCGS# 7979, CoinPlex ID# G3M1859

**4829 1861 XF45 PCGS.** This Civil War date has a low mintage of 5,959 pieces. The peach-gold surfaces are minimally abraded and mildly bright. Luster fills the legends and shimmers from the motifs. Certified in a green label holder. PCGS# 7982, NGC ID# 25MG, CoinPlex ID# G3M1861

### 1868 Three Dollar Gold, MS62+ Prooflike Surfaces

**4830 1868 MS62+ PCGS. CAC.** The 1868 three dollar gold piece claims a nominal mintage of just 4,850 pieces, but the issue has a fairly high survival rate. This high-end MS62 example displays well-detailed design elements and attractive orange-gold surfaces that show prooflike reflectivity in sheltered areas. Population: 42 in 62 (1 in 62+), 42 finer (1/13). PCGS# 7989, NGC ID# 25MP, CoinPlex ID# G3M1868

**4831 1874 AU50 PCGS.** Several different shades appear on this example, including deep yellow and hints of orange-red. A portion of the wreath at lower left exhibits slightly darker color. Peach appears in some of the protected areas. Luster remains evident. PCGS# 7998, NGC ID# 25MX, CoinPlex ID# G3M1874

**4832 1874 AU55 NGC.** In 1874 the Philadelphia Mint coined more than 40,000 three dollar gold pieces, more than they produced during the previous 10 years. Only once more, in 1878, did the mintage exceed 6,000 coins. This Choice AU example has a blend of light yellow and orange-gold color with reflective fields. NGC ID# 25MX, PCGS# 7998, CoinPlex ID# G3M1874

**4833 1874 AU58+ NGC.** Slight rub on the eyebrow and shoulder curl indicates cursory Gilded Age circulation, but both sides teem with luster, and the caramel-gold surfaces are unblemished. NGC ID# 25MX, PCGS# 7998, CoinPlex ID# G3M1874

**4834 1878 AU58 NGC.** Nearly full lustrous remains on this near-Mint specimen, with bright yellow-gold surfaces and traces of dusky toning. The strike is typical, with weakness in the headdress and the wreath. At 82,304 coins, the 1878 had the second-highest mintage of the denomination. NGC ID# 25MZ, PCGS# 8000, CoinPlex ID# G3M1878

**4835 1878 — Scratch — PCGS Genuine. Unc. Details.** This fully struck peach-gold three dollar type coin displays vibrant luster. Marks are inconsequential except for a lengthy but relatively light vertical pinscratch on the left obverse field. PCGS# 8000, NGC ID# 25MZ, CoinPlex ID# G3M1878

**1882 Three Dollar Gold, AU55**  
Only 1,500 Pieces Struck

- 4836 1882 AU55 PCGS. CAC.** From a mintage of just 1,500 pieces, the 1882 three dollar gold piece is a scarce date in higher grades. This Choice AU specimen offers well-detailed design elements, with more detail on the reverse, and lightly abraded yellow-gold surfaces. Prooflike reflectivity is evident in sheltered areas. PCGS# 8004, NGC ID# 25N5, CoinPlex ID# G3M1882

**Choice XF 1884 Three Dollar**  
Mintage 1,000 Pieces

- 4837 1884 XF45 NGC. CAC.** Just 1,000 pieces were struck for this late-date business strike three dollar issue. This is an appreciably worn (and unusual as such) Choice XF example with faint glimmers of yellow-orange luster remaining in the protected areas. Wispy abrasions are visible, but serious marks are few. Census: 3 in 45, 46 finer (1/13). NGC ID# 25N7, PCGS# 8006, CoinPlex ID# G3M1884

**Uncirculated Prooflike 1886 Three Dollar**

- 4838 1886 MS61 Prooflike NGC.** Given its low mintage of 1,000 pieces, it comes as little surprise that a number of 1886 three dollar pieces are prooflike. Those were struck shortly after a die pair was newly installed, when the dies still imparted a prooflike appearance from its preparation. Later strikes from the same dies instead show satiny or cartwheel luster. This is a precisely struck and flashy sun-gold example that lacks any mentionable marks. Census: 12 in 61 Prooflike, 11 finer (1/13). PCGS# 78008

**EARLY HALF EAGLES**

**1803/2 Half Eagle, XF40**  
Very Scarce BD-4 Variety

- 4839 1803/2 XF40 PCGS. BD-4, R.4.** Bass-Dannreuther Die State b/c. The 3 touches the bust and the T in LIBERTY is perfect, identifying the BD-4 variety. This lightly worn specimen displays pleasing antique-gold patina, with a few minor abrasions and no adjustment marks. Probably 125-175 examples of the BD-4 variety remain extant in all grades. PCGS# 8084, NGC ID# 25NY, CoinPlex ID# E5M1803OVR2

**AU Details 1808 Half Eagle**  
Wide 5D, BD-3

- 4840 1808 — Reverse Damage — NGC Details. AU. BD-3, High R.3.** The "Wide 5D" die variety. The open reverse field displays myriad pinpoint marks and the cheek exhibits faint hairlines, but no individual abrasions are evident. Luster illuminates the borders and devices of this almond-gold Reich Head five. Significantly scarcer than the 1807 BD-8 type coin. NGC ID# 25PA, PCGS# 8102, CoinPlex ID# E5M1808

**CLASSIC HALF EAGLES**

- 4841 1834 Plain 4 AU55 NGC. Breen-6502, McCloskey 2-A, R.1.** Breen's Second Head with slight differences in the curls relative to the First Head. This sun-gold half eagle shows minor incompleteness of strike at the centers but lacks any relevant abrasions and displays bright luster on the margins and devices. NGC ID# 25RR, PCGS# 8171, CoinPlex ID# E5M1834PL4

- 4842 1836 AU58 NGC. Breen-6509, McCloskey 2-A, R.4.** Second Head, Large Date. A scarce die variety of this available Classic date. The reverse is distinguished by a vertical die crack through the eagle's head. On the obverse, the B and R in LIBERTY are repunched. The straw-gold surfaces are unmarked, and rotation reveals ample luster on the legends and motifs. NGC ID# 25RY, PCGS# 8174, CoinPlex ID# E5M1836

- 4843 1838 AU50 NGC. Breen-6514, McCloskey 1-A, R.2.** Large Arrows and a Small 5 distinguish M. 1-A from the equally collectible M. 2-B. The present canary-gold representative has pleasing definition and is free from any detracting marks. NGC ID# 25S4, PCGS# 8176, CoinPlex ID# E5M1838

- 4844 1838 AU50 NGC. Breen-6514, McCloskey 1-A, R.2.** A lightly circulated example with peach-gold and olive-green toning. Sharply defined and minimally abraded with an original appearance and pleasing eye appeal. NGC ID# 25S4, PCGS# 8176, CoinPlex ID# E5M1838

- 4845 1838 AU53 ANACS. Breen-6515, McCloskey 2-B, R.1.** The small arrows, large 5 variety. This wheat-gold representative has ample luster on the motifs and peripheries. Distributed small marks fail to deny the eye appeal. Housed in a small-size holder. NGC ID# 25S4, PCGS# 8176, CoinPlex ID# E5M1838

**Borderline Uncirculated 1838 Five  
Small Arrows Reverse**

- 4846 1838 AU58 PCGS. CAC. Breen-6515, McCloskey 2-B, R.1.** Small arrows, Large 5. A minimally abraded peach-gold piece that boasts a bold strike and considerable glowing luster. Seldom encountered with the present eye appeal at the near-Mint level. The final date of the Classic type, which had a fairly short five-year run. Population: 29 in 58, 55 finer (1/13). PCGS# 8176, NGC ID# 25S4, CoinPlex ID# E5M1838

**LIBERTY HALF EAGLES**

- 4847 1839 AU55 NGC.** This butter-gold first year Liberty five has a good strike aside from the left-side stars. The high points show only slight wear, and the only noticeable mark is on the reverse rim at 10:30. NGC ID# 25S7, PCGS# 8191, CoinPlex ID# L5M1839
- 4848 1839 AU55 NGC.** A yellow-gold Choice AU representative that displays only minor abrasions. The strike is bold aside from a few star centers. A single-year design subtype, since the portrait differs from the 1840 and later issues. NGC ID# 25S7, PCGS# 8191, CoinPlex ID# L5M1839
- 4849 1841 AU53 NGC.** Rich orange toning embraces much of this lightly circulated and low mintage Liberty No Motto five. A loupe reveals small abrasions and portions of the eagle are incompletely brought up. Census: 4 in 53, 39 finer (1/13). NGC ID# 25SN, PCGS# 8202, CoinPlex ID# L5M1841

**Choice XF Large Date 1842-C Five**

- 4850 1842-C Large Date XF45 NGC. CAC. Variety 1.** The CAC seal is seldom seen on Charlotte Mint gold. CAC has certified six examples of this issue with only two at the XF45 level. The present well-defined sun-gold example displays a few moderate field marks but has an above average strike and shows hints of luster in protected areas. NGC ID# 25SW, PCGS# 8209, CoinPlex ID# L5M1842CLD

**MS62 1844 Half Eagle**

**Ex: S.S. New York**

- 4851 1844 MS62 NGC.** Ex: S.S. New York. The steamship S.S. New York first sailed in 1837. It sank during a hurricane in the Gulf of Mexico in 1846. A variety of Federal gold coins were recovered in 2007. The 1844 remains a very scarce issue, typically encountered in XF to AU. The present well struck butter-gold example has a smooth portrait and light field abrasions. Census: 10 in 62 (1 in 62+), 19 finer (1/13). From The Fenn Family Collection. NGC ID# 25T7, PCGS# 8219, CoinPlex ID# L5M1844
- 4852 1845-D — Improperly Cleaned — NGC Details. XF. Variety 14-H (formerly 12-I).** This butter-gold Dahlonega half eagle is subdued by a relatively mild cleaning. We note a slender mark near the forehead, a tick above the eye, and a small nick on the reverse rim at 1:30. NGC ID# 25TC, PCGS# 8224, CoinPlex ID# L5M1845D

**1847-C Five Dollar, AU55**

**Popular as a Charlotte Type Coin**

- 4853 1847-C AU55 NGC. Variety 1.** The only die pair used for the issue. The mintage of 84,151 pieces places the 1847-C as the most available Charlotte five, but it is surprisingly challenging in higher grades. Of the 300-400 pieces believed known in all grades, only 51-69 are estimated to exist in AU condition. This is a semi-glossy orange-gold example with numerous small, but individually insignificant abrasions scattered over each side. Just a touch of striking weakness is noted. NGC ID# 25TN, PCGS# 8233, CoinPlex ID# L5M1847C

**AU 1848-C Half Eagle**  
**Minimally Abraded**

**4854 1848-C AU50 NGC. Variety 1.** This tan-gold Charlotte type coin is minimally abraded though the obverse exhibits shallow strike throughs, as made, most apparent on Liberty's neck and near the first two stars. The reverse field also has a strike-through beneath the ED in UNITED. The major devices show even definition but the stars are lightly impressed. NGC ID# 25TT, PCGS# 8237, CoinPlex ID# L5M1848C

**4855 1849-C XF45 NGC. CAC. Variety 1.** The usual die state for the variety with a radial die crack near the U in UNITED. This almond-gold Charlotte Mint type coin is minimally abraded for the Choice XF grade. The hair bun and eagle's legs are softly defined though the remainder of the strike is good. NGC ID# 25TW, PCGS# 8241, CoinPlex ID# L5M1849C

**4856 1850-C — Cleaned — ANACS. AU55 Details. Variety 3.** A green-gold Charlotte half eagle that displays an above average strike and surprisingly few visible abrasions. Rotation beneath a lens reveals parallel hairlines on both sides. NGC ID# 25TZ, PCGS# 8244, CoinPlex ID# L5M1850C

**Luminous 1850-D Five Dollar, AU55**

**4857 1850-D AU55 PCGS. Variety 28-S (formerly 24-P).** This canary-gold Dahlonega five has a sharp strike on the wings and most of the curls, though the lovelock and the eagle's neck are lightly impressed. The fields are luminous and free from singularly consequential abrasions. Luster fills the legends and motifs. Population: 15 in 55, 10 finer (1/13). PCGS# 8245, NGC ID# 25U3, CoinPlex ID# L5M1850D

**4858 1851-C — Obverse Rim Damage — NGC Details. VF. Variety 1.** This honey-gold Charlotte five is without any noticeable marks on the fields or devices, but the obverse rim has a small gouge at 5:30. The curls and eagle's neck are typically struck. NGC ID# 25U6, PCGS# 8247, CoinPlex ID# L5M1851C

**Near-Mint 1853-D Half Eagle**

**4859 1853-D Large D AU58 NGC. Variety 34-Y (formerly 29-V).** An almond-gold Borderline Uncirculated Dahlonega half eagle type coin. Surprisingly unabraded, and the strike is fairly sharp with the left-side stars and fletchings lightly brought up. The minutely granular surfaces display areas of bright luster that are more extensive on the reverse. NGC ID# 25UF, PCGS# 8255, CoinPlex ID# L5M1853D

**1854-D Half Eagle, AU55**  
**Variety 37-BB**

**4860 1854-D Large D AU55 NGC. Variety 37-BB (formerly 31-X).** A wheat-gold Dahlonega five whose unblemished surfaces exhibit vibrant luster within the legends and around the stars and motifs. The strike is soft only near the fletchings and central curls. Variety 37-BB is the most often encountered of the four different 1854-D die marriages. NGC ID# 25UK, PCGS# 8258, CoinPlex ID# L5M1854D

**4861 1855-C XF45 PCGS. Variety 1.** This olive-gold example retains its original "skin" and is without any consequential contact. The strike is generally sharp for the Charlotte facility aside from softness on the eagle's neck, claws, and fletchings. PCGS# 8262, NGC ID# 25UR, CoinPlex ID# L5M1855C

**Near-Mint 1856-C Five Dollar**

**4862 1856-C AU58 NGC. Variety 1.** 1856 witnessed the lowest Charlotte mintage of half eagles between 1847 and 1859. Examples with partial mint luster and original peach-gold color are highly elusive. The strike is bold for the Southern branch facility aside from the lower obverse margin. One mint-made lamination affects the second S in STATES. Census: 24 in 58, 12 finer (12/12). NGC ID# 25UW, PCGS# 8267, CoinPlex ID# L5M1856C

- 4863 1857 MS61 PCGS.** Even though 98,188 pieces were struck of the 1857, it was not widely saved at the time of issue, accounting for its scarcity today. Rich gold colors with hints of peach add to the visual appeal of this lustrous example. Numerous surface marks limited the grade although the majority of them are minor. Population: 9 in 61, 28 finer (1/13). PCGS# 8271, NGC ID# 25V2, CoinPlex ID# L5M1857

**Smooth AU53 1858-D Five**

- 4864 1858-D AU53 PCGS. Variety 42-GG (formerly 35-CC).** The 1858-D half eagle, from a mintage of 15,362 pieces, is seldom seen in any grade. Luster fills design elements and the pumpkin-gold color is attractive. The strike is above average, and the only mentionable contact is a faint pinscratch left of the beak. A small lamination (as made) is near the upper arrowhead. Encapsulated in an old green label holder. PCGS# 8278, NGC ID# 25V9, CoinPlex ID# L5M1858D

- 4865 1859 AU58 PCGS. CAC.** From a small mintage of 16,734 pieces, the 1859 Liberty half eagle is very rare in high grade. This lightly circulated near-Mint example is well-detailed, with lustrous, lightly abraded surfaces. Population: 6 in 58, 1 finer (1/13). PCGS# 8280, NGC ID# 25VB, CoinPlex ID# L5M1859

- 4866 1862-S Fine 12 NGC.** From a mintage of 9,500 pieces, the 1862-S Liberty half eagle is a rare date in all grades. This evenly worn Fine specimen displays bright greenish-gold surfaces with no large or distracting abrasions. Census: 2 in 12, 35 finer (1/13). NGC ID# 25VR, PCGS# 8293, CoinPlex ID# L5M1862S

**1872 Half Eagle, AU53  
Only 1,660 Minted**

- 4867 1872 AU53 NGC.** This pleasing example of the important, low-mintage 1872 half eagle has considerable light yellow luster with delicate rose toning around the peripheral devices. Both sides show considerable field reflectivity with scattered marks consistent with the grade. Census: 8 in 53, 12 finer (1/13). NGC ID# 25WF, PCGS# 8325, CoinPlex ID# L5M1872

- 4868 1872-S AU53 PCGS.** A lightly circulated example of this popular better date, from a mintage of 36,400 pieces. The vivid orange-gold surfaces retain much of their original mint luster. Population: 5 in 53, 7 finer (1/13). PCGS# 8327, NGC ID# 25WH, CoinPlex ID# L5M1872S

- 4869 1874-CC VF25 PCGS. Variety 1-C.** An apricot-gold Carson City half eagle with a minimally abraded appearance. Softly brought up on Liberty's curls and the eagle's neck, but traces of luster cling to the stars and letters. Encased in a prior generation holder. PCGS# 8334, NGC ID# 25WP, CoinPlex ID# L5M1874CC

**1874-S Liberty Five, AU50  
Conditionally Rare in High Grade**

- 4870 1874-S AU50 NGC.** Radiant surfaces are pale yellow and have a touch of green to them, perhaps due to silver alloy in the California gold likely used to strike this San Francisco half eagle. Out of 16,000 pieces struck, coins in AU50 and finer are condition rarities. Census: 9 in 50, 25 finer (1/13). NGC ID# 25WR, PCGS# 8335, CoinPlex ID# L5M1874S

- 4871 1880-CC — Scratch — PCGS Genuine. Unc. Variety 1-A.** This sharply struck peach-gold Carson City half eagle is smooth except for a single thin scratch above star 11. Luster dominates the borders and is subdued across the open fields. PCGS# 8352, NGC ID# 25XB, CoinPlex ID# L5M1880CC

**1880-S Five Dollar, MS65  
Delicate, Semiprooflike Fields**

- 4872 1880-S MS65 NGC.** The 1880-S Liberty half eagle was produced in large numbers, but the issue circulated heavily in the 19th century and examples in Gem condition are quite difficult to locate. The present coin is a well-detailed Gem, with vibrant mint luster, a semireflective finish in the fields, and pale orange-gold surfaces. Census: 16 in 65, 0 finer (1/13). NGC ID# 25XC, PCGS# 8353, CoinPlex ID# L5M1880S

- 4873 1881 MS64+ PCGS.** More than 5.7 million half eagles were minted in Philadelphia during 1881, and many of those survive today, but few are finer than this impressive piece. Both sides have sharp details and brilliant surfaces with mint-green peripheral toning. PCGS has only certified 15 finer examples (1/13). PCGS# 8354, NGC ID# 25XD, CoinPlex ID# L5M1881

**Select 1881/1880 Half Eagle, FS-301**

- 4874 1881/1880 MS63 NGC. FS-301.** The faint outline of a 0 bookends the second 1 in the date. The first 1 and second 8 are clearly repunched south. The 1881 is common, but the overdate variety is rare. This lustrous sun-gold representative is well struck and displays only scattered minor abrasions. Census: 5 in 63, 4 finer

**Boldly Reflective 1882 Half Eagle  
Eye-Catching MS62 ★ Deep Prooflike**

- 4875 1882 MS62 ★ Deep Prooflike NGC.** Powerful reflectivity and frosted devices stack up for a Deep Prooflike effect that powers this Philadelphia beauty to a Star designation. Though scattered light abrasions appear in the fields and a thin line cuts under Liberty's eye, the all-around eye appeal is amazing for the grade. A copper spot is noted between FIVE and D on the reverse. PCGS# 78358

- 4876 1882-CC AU53 NGC. CAC. Variety 1-A.** This apricot-gold Carson City half eagle type coin offers plentiful luster for the designated grade. Refreshingly free from detractors. The strike shows only minor high point inexactness. NGC ID# 25XH, PCGS# 8359, CoinPlex ID# L5M1882CC

**Near-Mint 1882-CC Half Eagle**

- 4877 1882-CC AU58 PCGS. Variety 1-A.** This Carson City five dollar issue is rare in Uncirculated grades, though near-Mint examples are collectible. The present attractive pumpkin-gold piece offers substantial luster and is void of visible marks, though the obverse displays a few faint hairlines. Population: 67 in 58, 13 finer (1/13). PCGS# 8359, NGC ID# 25XH, CoinPlex ID# L5M1882CC

**Lustrous Uncirculated Details  
1882-CC Half Eagle**

- 4878 1882-CC — Reverse Damage — NGC Details. Unc. Variety 1-A.** This lustrous caramel-gold Carson City five displays unbroken luster and exhibits only minor field marks, along with one small tick on the jaw. It has the general appearance of an MS63 example except for the roundish hit on the horizontal shield lines that confirms the NGC designation. Since the single finest certified grades MS63, the present lot may be of substantial interest to the specialist. NGC ID# 25XH, PCGS# 8359, CoinPlex ID# L5M1882CC

**Uncirculated Details 1882-CC Five Dollar**

- 4879 1882-CC — Improperly Cleaned — NGC Details. Unc. Variety 1-A.** The honey-gold surfaces are mildly bright, and display minor incompleteness on the eagle's neck plumage and Liberty's eyebrow. Abrasions are surprisingly inconsequential, though moderate clash marks (as coined) are noted on both sides. A better Carson City issue.  
Ex: Dr. Samuel J. Bergard Collection (Stack's, 7/2008), lot 2508. NGC ID# 25XH, PCGS# 8359, CoinPlex ID# L5M1882CC

- 4880 1882-S MS62 Prooflike NGC.** Dazzling field reflectivity confirms the Prooflike designation. A nicely struck wheat-gold Liberty five with fewer marks than is normally associated with the MS62 grade. Census: 3 in 62 Prooflike, 3 finer (12/12). PCGS# 78360

**Condition Rarity MS64 1884 Half Eagle**

- 4881 1884 MS64 NGC. CAC.** Generally well-struck, though a trifle soft on the eagle's neck feathers, with generous orange-yellow luster swirling across each side. A shallow flaw appears at the back of Liberty's jaw, but the Choice designation is well-deserved despite this small fault. NGC has graded only one example of this issue as MS65 or better (1/13). NGC ID# 25XN, PCGS# 8364, CoinPlex ID# L5M1884

**AU 1884-CC Half Eagle**

- 4882 1884-CC AU50 PCGS. Variety 1-A.** This orange-gold AU Carson City five has occasional minor marks but there are no singular detractors. Bright luster fills the legends and outlines individual stars. Scarce in all grades, since a scant 16,402 pieces were struck. Population: 22 in 50, 36 finer (1/13). PCGS# 8365, NGC ID# 25XP, CoinPlex ID# L5M1884CC

- 4883 1885 MS64 PCGS. CAC.** The generously minted 1885 five dollar is popular as a type coin. This is a bright, sparkling example that is sharply defined and shows only minimal signs of coin-to-coin contact. Population: 72 in 64 (5 in 64+), 2 finer (1/13). PCGS# 8367, NGC ID# 25XS, CoinPlex ID# L5M1885

**Near-Gem 1891 Half Eagle  
Five-Figure Mintage, Condition Rarity**

**4884 1891 MS64 NGC.** Excellent strike with swirling apricot-gold luster overall that turns yellow or peach depending on the angle to the light. A shallow dig-and-scape in the field to the left of Liberty's neck defines the grade, but the reverse has strong visual appeal. NGC has graded just three examples of the issue as MS65 or better (1/13). NGC ID# 25Y4, PCGS# 8377, CoinPlex ID# L5M1891

**4885 1891-CC MS61 PCGS. Variety 1-A.** The apricot centers are framed by lustrous lime-green margins. The strike is consistent throughout, and the scattered small marks are no more than is customary for the MS61 level. PCGS# 8378, NGC ID# 25Y5, CoinPlex ID# L5M1891CC

**4886 1893-CC AU58 NGC. CAC. Variety 1-A.** Bright luster dominates the margins and motifs of this sun-gold Carson City five. The reverse is unabraded while the obverse field displays three thin marks. The 1893-CC is significantly scarcer than its 1891-CC predecessor. NGC ID# 25YB, PCGS# 8384, CoinPlex ID# L5M1893CC

**Unmarked MS62 1893-CC Five Dollar**

**4887 1893-CC MS62 NGC. Variety 1-A.** From the final year of coinage at the Carson City facility, the present crisply struck caramel-gold representative is uncommonly void of discernible marks, though each side has a few delicate hairlines. The eye appeal is exceptional for its designated grade. Census: 60 in 62, 29 finer (1/13). NGC ID# 25YB, PCGS# 8384, CoinPlex ID# L5M1893CC

**4888 1899 MS65 NGC.** A frosty Gem, this 1899 half eagle is a condition rarity, representing an issue that has an average certified grade of only 62. This lustrous Gem exhibits brilliant yellow luster with splashes of delicate orange toning and trivial, grade-consistent marks. NGC ID# 25YS, PCGS# 8398, CoinPlex ID# L5M1899

**Toned Gem 1900 Half Eagle**

**4889 1900 MS65 PCGS.** A precisely struck Gem that boasts potent luster and lovely orange-gold toning. The reverse is essentially pristine and the obverse displays only a couple of unimportant facial marks. A common date in typical Mint State but very scarce in the present quality. Housed in a green label holder. Population: 87 in 65, 8 finer (1/13). PCGS# 8400, NGC ID# 25YU, CoinPlex ID# L5M1900

**1901/00-S Five Dollar, MS65  
Scarce 20th Century Overdate**

**4890 1901/00-S MS65 NGC. FS-301.** The upper right curve of the underdigit 0 is evident near the peak of the second 1 in the date. Well preserved and lustrous with faint lime-green toning. One of the final overdate varieties caused by punching a date logotype into an earlier dated die. Later overdates (from 1909, 1918, and 1942) were hubbing errors. Census: 21 in 65, 4 finer (1/13). *Ex: Houston Signature (Heritage, 12/2009), lot 1698, which realized \$3,593.75.* NGC ID# 25YX, PCGS# 8403, CoinPlex ID# L5M19010S

**1901-S Liberty Five, MS66  
Very Rare in Finer Grades**

**4891 1901-S MS66 PCGS.** The 1901-S Liberty half eagle is an available date in lower grades, but examples in MS66 condition are very scarce, and PCGS has graded only two numerically finer specimens (1/13). This sharply detailed Premium Gem exhibits well-preserved peach-gold surfaces, with vibrant mint luster and ample eye appeal. PCGS# 8404, NGC ID# 25YX, CoinPlex ID# L5M1901S

**4892 1902 MS64 NGC.** A crisply struck honey-gold Choice half eagle with pleasing preservation and dynamic luster. Scarce at the MS64 level when compared with the other P-mints of its decade. NGC ID# 25YY, PCGS# 8405, CoinPlex ID# L5M1902

**4893 1903 MS64 NGC.** Well-defined on the interiors and shining yellow-gold with hints of orange to the luster. A touch of peripheral striking softness and minor abrasions combine to account for the grade. NGC ID# 25Z2, PCGS# 8407, CoinPlex ID# L5M1903

**4894 1907 MS64+ PCGS. CAC.** This lustrous near-Gem is primarily peach-gold though the borders display olive-green. Well struck and attractive though minor marks emerge beneath a lens. PCGS# 8416, NGC ID# 25ZC, CoinPlex ID# L5M1907

**4895 1908 MS65 NGC.** Decently detailed overall with a touch of satin to the swirling peach-inflected yellow-gold luster. This Gem comes from the last appearance of the Christian Gobrecht design on a five dollar coin until 2006. NGC ID# 25ZE, PCGS# 8418, CoinPlex ID# L5M1908

## INDIAN HALF EAGLES

### Choice 1908 Indian Half Eagle First-Year Type Coin

**4896 1908 MS64 NGC.** The Indian design appeared on the half eagles for the first time in 1908, with a production of more than a half million coins at the Philadelphia Mint, a quantity sufficient that any collector can obtain an example. for the connoisseur, even Choice and Gem Mint State pieces are seen with frequency. This well-defined specimen has frosty orange and greenish-gold luster with pristine surfaces. NGC ID# 28DE, PCGS# 8510, CoinPlex ID# I5M1908

### Near-Gem 1908-D Half Eagle Low Six-Figure Mintage

**4897 1908-D MS64 NGC.** This first-year issue had a relatively slight mintage of 148,000 coins. Rare in any condition finer than MS64, Garrett and Guth comment: "In a series with condition rarities prevalent, the 1908-D half eagle has earned its place as one of the 10 rarest dates in gem grades." This is a satiny, well-struck example with just a few trivial field marks keeping it from full Gem status. NGC has graded just four coins as MS65 or better (1/13).

*Ex: Long Beach Signature (Heritage, 5/2008), lot 3326. NGC ID# 28DF, PCGS# 8511, CoinPlex ID# I5M1908D*

### Choice 1909 Indian Five Dollar Vivid Color and Luster

**4898 1909 MS64 PCGS.** This impressive Choice specimen exhibits razor-sharp definition on all design elements and vibrant mint luster on both sides. The vivid green and orange-gold surfaces are highlighted by hints of rose color. Only the most insignificant contact marks are evident, and eye appeal is outstanding. PCGS# 8513, NGC ID# 28DH, CoinPlex ID# I5M1909

### 1909 Indian Half Eagle, MS64

**4899 1909 MS64 PCGS.** A generous mintage of 627,060 Indian half eagles was struck at the Philadelphia Mint in 1909, and the issue is not too difficult to locate in MS64 condition, making it a popular choice for type enthusiasts. This attractive specimen is well-detailed and lustrous, with pleasing orange-gold surfaces. PCGS# 8513, NGC ID# 28DH, CoinPlex ID# I5M1909

### 1909 Indian Half Eagle, MS64+ Very Scarce in Higher Grades

**4900 1909 MS64+ NGC.** The 1909 Indian half eagle can be located in MS64 condition with a little patience, but the issue is very scarce in higher grades. This high-end Choice example presents well-detailed design elements and softly frosted mint luster, with bright greenish-gold surfaces. Eye appeal is outstanding. NGC ID# 28DH, PCGS# 8513, CoinPlex ID# I5M1909

**4901 1909-S MS62 NGC.** The 1909-S Indian half eagle is very scarce in Mint State grades, and this attractive MS62 example displays vivid green and orange-gold surfaces, with only minor contact marks and bright mint luster. Census: 73 in 62 (1 in 62+), 16 finer (1/13). NGC ID# 25ZL, PCGS# 8516, CoinPlex ID# I5M1909S

**1910 Indian Five, MS64  
Conditionally Rare in Higher Grades**

**4902 1910 MS64 PCGS.** The 1910 Indian half eagle claims a mintage of 604,000 pieces, but high-grade specimens are quite elusive in today's market. This impressive Choice example offers well-detailed design elements and lustrous yellow and rose-gold surfaces. PCGS has graded only 19 numerically finer coins (1/13). PCGS# 8517, NGC ID# 28DK, CoinPlex ID# 15M1910

**4903 1911-D AU55 PCGS.** Like its better known quarter eagle counterpart, the 1911-D Indian half eagle is a low-mintage key date in the series. This Choice AU example displays vibrant mint luster and vivid greenish-gold surfaces, with just a touch of wear on the well-detailed design elements. PCGS# 8521, NGC ID# 28DR, CoinPlex ID# 15M1911D

**1911-D Half Eagle, AU58  
A Low-Mintage Rarity**

**4904 1911-D AU58 PCGS. CAC.** The 1911-D quarter eagle receives all the glory, but the similarly dated half eagle is also a rarity. This near-Mint specimen has full luster with faint greenish toning over its satiny yellow-gold surfaces. The design elements are bold and the eye appeal is excellent. PCGS# 8521, NGC ID# 28DR, CoinPlex ID# 15M1911D

**Choice 1912 Indian Half Eagle  
Sharply Detailed and Lustrous**

**4905 1912 MS64 PCGS.** Razor-sharp definition is apparent on all design elements of this attractive 1912 Indian half eagle. The pleasing yellow and greenish-gold surfaces display vibrant mint luster and close inspection reveals only a few minor contact marks. Eye appeal is outstanding. PCGS has graded 44 numerically finer coins (1/13). PCGS# 8523, NGC ID# 28DS, CoinPlex ID# 15M1912

**1913 Half Eagle, MS64  
Conditionally Rare in Gem Grades**

**4906 1913 MS64 NGC. CAC.** Traces of delicate rose toning appear over brilliant lemon-yellow surfaces to enhance the eye appeal of this frosty and fully lustrous near-Gem. Both sides are boldly defined with only a few scattered marks of little consequence. NGC has only certified 42 finer examples (1/13). NGC ID# 28DT, PCGS# 8525, CoinPlex ID# 15M1913

**1915 Half Eagle, MS64  
A High Grade Rarity**

**4907 1915 MS64 PCGS.** This frosty near-Gem is a lovely example of the Indian half eagle design with sharp details and brilliant yellow luster. Both sides of this beautiful piece have wispy blue-green overtones. The 1915 is a common date, but rarely seen in higher grades. PCGS has only certified 46 finer examples (1/13). PCGS# 8530, NGC ID# 28DX, CoinPlex ID# 15M1915

**LIBERTY EAGLES**

**4908 1841 AU55 NGC.** A well struck and bright yellow-gold representative with slightly more small abrasions on the obverse than on the reverse. A scarcer No Motto Philadelphia issue. Census: 30 in 55, 31 finer (1/13). NGC ID# 262H, PCGS# 8582, CoinPlex ID# LTM1841

**Choice AU 1845-O Ten Dollar  
Date Repunched West**

**4909 1845-O AU55 NGC. Variety 3.** The date is widely repunched west, most clearly on the 4. A rare die variety, since Variety 1 is seen most often. A well detailed New Orleans No Motto ten with a halo of luster around each star and a band of luster across the reverse periphery. Small abrasions are distributed but only a slender mark beneath the hair bun merits singular mention. NGC ID# 262V, PCGS# 8593, CoinPlex ID# LTM1845O

**Scarce AU53 1848-O Eagle  
Shield Ring Reverse**

**4910 1848-O AU53 NGC. Variety 1.** The only die variety for the issue with a ring atop the second vertical shield stripe. Two other varieties are known for the 1848-O, and those rare marriages lack the shield ring. This luminous apricot-gold No Motto New Orleans ten is only lightly abraded aside from a few moderate marks on the upper reverse field. NGC ID# 2634, PCGS# 8600, CoinPlex ID# LTM1848O

**4911 1854 XF45 PCGS. CAC.** Encased in a green label holder, the present lower mintage No Motto ten exhibits original orange-gold toning and pleasing definition. No marks are noticeable aside from a curved line on the left obverse field. PCGS# 8613, NGC ID# 263G, CoinPlex ID# LTM1854

**4912 1865-S Fine 12 NGC.** The rare Normal Date variety, more challenging to locate than its well known Inverted Date counterpart. The two varieties share the low mintage of 16,700 pieces. By comparison, San Francisco struck more than 1 million double eagles that year. The present peach-gold example is well circulated but problem-free. NGC ID# 264G, PCGS# 8642, CoinPlex ID# LTM1865S

**4913 1868-S XF45 PCGS.** This rare date early Motto eagle exhibits better luster than is usual for the XF45 grade. The distributed abrasions are moderate but never obtrusive. The strike is good except on the deeply hubbed stars. PCGS# 8654, NGC ID# 264P, CoinPlex ID# LTM1868S

**4914 1881-O AU53 NGC. Variety 1.** Between the formidable 1879-O and 1883-O rarities are three very scarce but collectible New Orleans issues. The 1881-O has a mintage of just 8,350 pieces. The present lemon-gold example exhibits substantial luster and moderate field marks. NGC ID# 265Y, PCGS# 8693, CoinPlex ID# LTM1881O

**4915 1882-O AU50 NGC. Variety 1.** Glints of bright luster share the borders with rose-gold toning. The remainder of this rare date New Orleans eagle is green-gold. Only small abrasions are present. A scant 10,820 pieces were struck. NGC ID# 2664, PCGS# 8697, CoinPlex ID# LTM1882O

**4916 1889-S MS63 NGC.** The 1889-S is plentiful in typical Mint State but becomes scarce at the Select level. This boldly struck representative displays moderate marks but retains eye appeal due to its coruscant luster. NGC ID# 266P, PCGS# 8716, CoinPlex ID# LTM1889S

**4917 1890 MS62 PCGS.** A lower mintage issue, the 1890 trades for a minimal premium over its bullion content in circulated grades. At the MS62 level, however, the 1890 is undeniably scarce. This apricot-gold example is crisply struck and exhibits a smattering of small abrasions. PCGS# 8717, NGC ID# 266R, CoinPlex ID# LTM1890

**Lustrous MS61 1890-CC Eagle**

**4918 1890-CC MS61 NGC. Variety 1-A.** IN GOD WE TRUST is lightly die doubled, as always for this low mintage Carson City issue. A sharply struck sun-gold ten with good luster and fewer abrasions than is customary for the MS61 level. One small strike-through near the lower neck curl is as made. Much scarcer in Uncirculated grades than its 1891-CC successor. NGC ID# 266S, PCGS# 8718, CoinPlex ID# LTM1890CC

**4919 1891-CC AU58 NGC. Variety 5-D.** A rare die variety of this plentiful (by Carson City standards) ten dollar issue. A sharply struck, slightly glossy, and partly lustrous peach-gold example with one slender vertical mark near the profile. NGC ID# 266U, PCGS# 8720, CoinPlex ID# LTM1891CC

**4920 1892-O MS62 PCGS. Variety 1.** Lemon-yellow surfaces exhibit brilliant and frosty mint luster with the usual grade-consistent marks on each side. A few minor copper toning spots are evident. A low mintage and conditionally rare New Orleans issue. PCGS# 8723, NGC ID# 266X, CoinPlex ID# LTM1892O

**4921 1894 MS60 Prooflike NGC.** Field reflectivity distinguishes the present lot from the typical Mint State 1894 eagle. A sharply struck sun-gold piece that possesses the expected number of moderate abrasions for the MS60 grade. PCGS# 78729

**4922 1894-S XF40 NGC.** A fairly late but much better Liberty issue. A mere 25,000 pieces were struck, probably due to the Panic of 1893 and its impact on Western commerce. This yellow-gold example is well defined and mildly bright with substantial luster and one thin mark between stars 5 and 6. NGC ID# 2677, PCGS# 8731, CoinPlex ID# LTM1894S

**Challenging Gem 1899 Ten Dollar  
Bold Striking Detail**

**4923 1899 MS65 PCGS.** A boldly impressed turn-of-the-century Gem with satiny peach-gold luster blossoming across each side. The obverse has a few tiny coppery areas behind the hair bun, while the reverse has short, shallow lines of reed marks on the shield and just under the eagle's beak. Population: 32 in 65 (2 in 65+), 6 finer (1/13). PCGS# 8742, NGC ID# 267J, CoinPlex ID# LTM1899

**4924 1902-S MS64 PCGS. CAC.** A beautiful Choice Liberty type coin that boasts vibrant luster and uncommonly smooth surfaces. The fields and motifs are sun-gold while hints of aqua patina adorn the margins. PCGS# 8751, NGC ID# 267U, CoinPlex ID# LTM1902S

**4925 1903 MS64 NGC.** From late in the series, but a lower mintage issue that is much rarer at the MS64 than common dates such as the 1901-S. A well struck butter-gold near-Gem with booming luster and scattered minor grazes. NGC ID# 267V, PCGS# 8752, CoinPlex ID# LTM1903

**4926 1905 MS64 NGC.** The 1905 gets little respect due to its later date and Philadelphia origin. However, it is a lower mintage issue that is much scarcer at the MS64 level than, for example, the 1901-S. The present boldly struck and lustrous near-Gem has a smooth reverse and only minor obverse grazes. NGC ID# 2682, PCGS# 8757, CoinPlex ID# LTM1905

**4927 1906 MS63 PCGS.** The 1906 is a better date at the MS63 level, and the present crisply struck lustrous green-gold example has fewer field marks than is customary for the grade. The portrait has a couple of unobtrusive abrasions. PCGS# 8759, NGC ID# 2684, CoinPlex ID# LTM1906

## INDIAN EAGLES

**4928 1907 No Periods MS62 NGC.** Lime-green margins encompass the canary-gold centers. This Indian type coin provides booming luster and a good strike. Close evaluation reveals only minor abrasions. NGC ID# 28GF, PCGS# 8852, CoinPlex ID# ITM1907NM

### 1907 No Periods Indian Ten, MS64 Popular First Year of Design

**4929 1907 No Periods MS64 NGC.** Always in demand as the first year of the Indian design, the 1907 Indian eagle is avidly collected by date and type collectors alike. This delightful Choice specimen is well-struck, with just the slightest softness on the headdress feathers. The bright yellow and greenish-gold surfaces display vibrant mint luster and minimal signs of contact. Eye appeal is outstanding. NGC ID# 28GF, PCGS# 8852, CoinPlex ID# ITM1907NM

### Choice 1908 Indian Eagle First Year With Motto

**4930 1908 Motto MS64 PCGS. CAC.** The motto IN GOD WE TRUST was added to the design of the Indian eagle in 1908, despite the opinion of President Theodore Roosevelt that this amounted to blasphemy. This well-struck near-Gem offers lustrous yellow and greenish-gold surfaces that show only a few signs of contact. PCGS# 8859, NGC ID# 28GJ, CoinPlex ID# ITM1908MOT

**4931 1908-S AU55 PCGS. CAC.** The 1908-S is the first Indian eagle coined at San Francisco, with a mintage of less than 60,000 coins. This Choice AU specimen is typical of survivors that have an average certified grade of AU55. A few splashes of dark verdigris adhere to the surfaces of this original piece. PCGS# 8861, NGC ID# 28GL, CoinPlex ID# ITM1908S

### Near-Mint 1908-S Ten Dollar Low-Mintage Date

**4932 1908-S AU58 NGC.** Apricot-gold luster turns to peach at certain angles to the light. Though a touch of rub and light abrasions are noted on each side, this is an important representative of an early S-mint Saint-Gaudens eagle issue with a five-figure mintage. A coppery area is noted in the left obverse field. NGC ID# 28GL, PCGS# 8861, CoinPlex ID# ITM1908S

**4933 1909-S AU58 NGC.** The 1909-S Indian eagle is a better date in the series, especially in high grade. Most Mint State examples come from a hoard that surfaced in the 1970s. This attractive near-Mint specimen is well-detailed and lustrous, with lightly abraded yellow and greenish-gold surfaces. NGC ID# 28GP, PCGS# 8864, CoinPlex ID# ITM1909S

**4934 1910-S MS61 NGC.** The design elements of this attractive Mint State specimen are well-detailed and the lustrous greenish-gold surfaces are lightly abraded for the grade. The 1910-S Indian eagle is more elusive than the mintage of 811,000 pieces would suggest. NGC ID# 268D, PCGS# 8867, CoinPlex ID# ITM1910S

### Smooth 1914-S Ten Dollar, MS62

**4935 1914-S MS62 PCGS.** Booming cartwheel luster sweeps the smooth apricot-gold surfaces. The strike is sharp aside from slight blending on the forehead curls and front leg feathers. Conditionally scarce, since about half of all certified pieces are in circulated grades. Housed in an old green label holder. PCGS# 8877, NGC ID# 28H4, CoinPlex ID# ITM1914S

**1915 Indian Eagle, MS64+  
Vivid Color, Vibrant Luster**

- 4936 1915 MS64+ NGC.** From a mintage of 351,000 pieces, the 1915 Indian eagle is known as a well-produced issue and this high-end Choice example lives up to that reputation. The design elements are sharply detailed throughout and both sides radiate vibrant mint luster. The slightly granular greenish-gold surfaces show only minor signs of contact and eye appeal is terrific. NGC ID# 28H5, PCGS# 8878, CoinPlex ID# ITM1915

**1915-S Ten Dollar Indian, MS61  
Low-Mintage Issue**

- 4937 1915-S MS61 ANACS.** With a mintage of just 59,000 pieces that experienced substantial attrition, it is little wonder that the 1915-S is popular, though it does not command a substantial premium over type prices until the AU - Mint State range. This unworn piece is crisply detailed with luminous butter-yellow surfaces. Well-defined and minimally marked for the grade.  
*Ex: ANA Signature (Heritage, 7-8/2008), lot 3239.* NGC ID# 28H6, PCGS# 8879, CoinPlex ID# ITM1915S

**1932 Indian Eagle, MS65  
Nice Color and Luster**

- 4938 1932 MS65 PCGS.** The 1932 Indian eagle makes an ideal type coin, as the issue is readily available in grades up to the MS64 level, and even Gems can be found with a little patience. This attractive Gem exhibits well-detailed design elements and frosty mint luster, over well-preserved orange-gold surfaces. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932

**Gem 1932 Ten Dollar  
Effusive Luster**

- 4939 1932 MS65 NGC.** Bold cartwheel highlights hints of frostiness hidden in the details of the portrait. Luster is largely yellow-gold with silver-green accents at parts of the interiors. The 1932 eagle saw the highest mintage of the Saint-Gaudens series and is among the most popular type issues. NGC ID# 28HB, PCGS# 8884, CoinPlex ID# ITM1932

**Gem 1932 Indian Ten**

- 4940 1932 MS65 PCGS.** Although one additional Indian eagle was coined in 1933, the 1932 is the practical end of the series, and it is the only U.S. gold piece dated in the 1930s that is easily acquired. This Gem has fully brilliant yellow-gold surfaces with sharp design features and exceptional eye appeal. PCGS# 8884, NGC ID# 28HB, CoinPlex ID# ITM1932

**LIBERTY DOUBLE EAGLES**

**1850 Double Eagle, AU53  
First Regular-Issue Twenty**

- 4941 1850 AU53 NGC.** The first obtainable double eagle issue, as the sole 1849 pattern known resides in the Smithsonian. This piece has appealing orange-gold coloration with a peppering of light abrasions consistent with minor circulation. This should prove to be a popular acquisition for type gold collectors as well as numismatic history buffs. NGC ID# 268F, PCGS# 8902, CoinPlex ID# 20M1850

- 4942 1852 XF45 PCGS.** A lemon-gold Choice XF example with pleasing sharpness and ample bright luster. Small marks are distributed but none merit singular mention. Housed in a green label holder. PCGS# 8906, NGC ID# 268K, CoinPlex ID# 20M1852

**Uncirculated Repunched Date FS-301  
1852 Double Eagle**

- 4943** 1852/1852 MS61 NGC. Breen-7152, FS-301. The date is repunched north, with prior traces of all four digits evident. This green-gold Type One double eagle exhibits sweeping luster and an exemplary strike. A few moderate marks are scattered but are less detrimental than expected for the MS61 level. NGC ID# 268K, PCGS# 8906, CoinPlex ID# 20M1852

**S.S. Republic 1856 Double Eagle**

- 4944** 1856 — Authentic Shipwreck Specie — NGC. Ex: S.S. Republic. Unlike the S.S. Central America and S.S. Brother Jonathan, the S.S. Republic carried a broad variety of U.S. gold issues. The present example possesses the remaining luster of an AU55 coin but has five obverse reed impressions that prevented NGC from assigning a numerical grade. NGC ID# 268Y, PCGS# 8917, CoinPlex ID# 20M1856

- 4945** 1856-S XF45 PCGS. CAC. Substantial luster emerges from this typically bagmarked Type One Liberty twenty produced at the San Francisco Mint. The protected areas reveal a lovely peach color. Brilliant yellow-gold highlights appear, primarily at Liberty's hair, creating an attractive look. PCGS# 8919, NGC ID# 2692, CoinPlex ID# 20M1856S

**Choice AU 1856-S Double Eagle  
Considerable Remaining Luster**

- 4946** 1856-S AU55 NGC. Though lightly worn, this early San Francisco double eagle retains considerable apricot-gold luster with an orange aspect that is more prominent on the obverse. The reverse is relatively clean, though a few sizable abrasions on and to the left of the bridge of Liberty's nose contribute to the grade. NGC ID# 2692, PCGS# 8919, CoinPlex ID# 20M1856S

- 4947** 1857-S XF40 PCGS. CAC. This peach-gold 1857-S twenty is housed in a green label holder, a PCGS generation in use between 1995 and 1998. Since this generation precedes the distribution of the recovered S.S. Central America coins, the present lot could not have originated from that shipwreck. It is high end for the designated grade with no relevant marks and abundant glints of luster. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

**SSCA 1857-S Double Eagle, AU55  
Better 'Broken A' Variety**

- 4948** 1857-S AU55 PCGS. CAC. Variety 20E. Ex: S.S. Central America. SSA 1825. The Broken A is the most distinctive among the eight 1857-S reverses, described by Robert Evans in the July 2000 *Numismatist*. The A in STATES has an absent crossbar (Breen-7188). This feature was on the working hub, but was repaired by mint workers on the working dies for the other seven SSA reverses. The butter-gold surfaces are minimally abraded and display substantial luster. Encapsulated in a gold label holder. PCGS# 8922, NGC ID# 2696, CoinPlex ID# 20M1857S

- 4949** 1859-S — Improperly Cleaned — NGC Details. Unc. A caramel-gold double eagle that displays noticeable cartwheel sheen. Both sides are hairlined, more prominently on the obverse. The 1859-S is rare in Mint State and surprisingly scarce in AU. NGC ID# 269C, PCGS# 8928, CoinPlex ID# 20M1859S

**AU53 1863-S Double Eagle**

- 4950** 1863-S AU53 NGC. Breen-7216. Medium S. This San Francisco Type One twenty exhibits moderately abraded butter-gold surfaces. Though Uncirculated examples are rare, XF and AU pieces are collectible. During the Civil War, gold coins continued to circulate on the West Coast, where Federal paper money traded only at a substantial discount to face. NGC ID# 269R, PCGS# 8940, CoinPlex ID# 20M1863S

**Still-Lustrous AU53 1865 Double Eagle**

- 4951** 1865 AU53 NGC. Though appreciable wear affects both fields and devices, the obverse retains a flashy character at certain angles to the light and the peach-gold reverse swirls with luster. Numerous small abrasions and a few longer marks near Liberty's portrait point to significant commercial use, if not "circulation" in the hand-to-hand sense. NGC ID# 269U, PCGS# 8943, CoinPlex ID# 20M1865

- 4952** 1865-S XF40 PCGS. Small S. A well defined butter-gold representative from the final year of the Civil War. Remaining luster is extensive for the XF40 grade though a loupe reveals many faint field marks. Encapsulated in a green label holder. PCGS# 8944, NGC ID# 269V, CoinPlex ID# 20M1865S

**4953 1866 AU53 NGC.** First year of the Motto reverse, and scarcer in high grade than prior dates due to an absence of shipwreck-recovered examples. The present sun-gold piece displays ample luster and the expected number of minor abrasions. NGC ID# 269X, PCGS# 8949, CoinPlex ID# 20M1866

**4954 1866-S Motto XF45 NGC.** A peach-gold representative of the introductory Motto San Francisco issue. Pockets of bright luster are abundant. The surfaces are peppered with small abrasions usual for the grade and denomination. NGC ID# 269Y, PCGS# 8950, CoinPlex ID# 20M1866SMOT

**4955 1869-S AU55 NGC.** Struck too late to appear in the most famous shipwreck hoards, the 1869-S is rare in Mint State though XF to AU examples are collectible. Hints of peach and apricot appear on this partly lustrous and lightly marked Choice AU example. The coin exhibits minimal wear and attractive eye appeal. NGC ID# 26A6, PCGS# 8956, CoinPlex ID# 20M1869S

#### 1874 Double Eagle, MS60 Above Average Specimen

**4956 1874 MS60 NGC.** This pleasing Mint State Type Two double eagle is fully lustrous with frosty yellow surfaces and highly brilliant. Both sides exhibit scattered surface marks that are expected for the grade. A lovely piece for the date or type collector, and finer than usually encountered. This issue has an average certified grade of 57. NGC ID# 26AN, PCGS# 8970, CoinPlex ID# 20M1874

#### Bold XF45 1874-CC Twenty

**4957 1874-CC XF45 PCGS. Variety 1-A.** All Carson City double eagle issues are low mintage, though the 1874-CC is more available than most from that facility. The present lightly circulated canary-gold representative displays scattered minor marks and shows plentiful pockets of luster. A die chip on the jaw identifies this die marriage, one of five currently known, all of which share the same reverse. PCGS# 8971, NGC ID# 26AP, CoinPlex ID# 20M1874CC

**4958 1874-S MS60 PCGS.** Broad S, one of two mintmark styles for the issue. The lustrous peach-gold surfaces are friction free and well defined but the obverse exhibits the expected number of small marks. PCGS# 8972, NGC ID# 26AR, CoinPlex ID# 20M1874S

**4959 1875-CC XF40 NGC. Variety 4-A.** Pockets of bright luster illuminate protected areas of this partially lustrous honey-gold Carson City type coin. Alloy spots near the profile require mention and are accompanied by the expected number of moderate obverse marks. NGC ID# 26AT, PCGS# 8974, CoinPlex ID# 20M1875CC

#### 1875-CC Double Eagle, AU55

**4960 1875-CC AU55 NGC. CAC. Variety 3-B.** A Choice AU representative of this popular Type Two Carson City emission. Though the 1875-CC is collectible, its mintage is less than one-tenth of its San Francisco counterpart. The present pumpkin-gold twenty displays ample luster and a consistent strike. There are no obtrusive marks. NGC ID# 26AT, PCGS# 8974, CoinPlex ID# 20M1875CC

#### Popular 1875-CC Twenty Dollar Uncirculated Details

**4961 1875-CC — Improperly Cleaned — NGC Details. Unc. Variety 4-A.** Faint hairlines emerge when this Carson City twenty is rotated at obscure angles. The butter-gold surfaces also display the scattered small marks typical for a double eagle. Luster dominates the reverse but is a bit subdued on the obverse.  
*Ex: Old Colony Collection (American Numismatic Rarities, 12/2005), lot 1711. NGC ID# 26AT, PCGS# 8974, CoinPlex ID# 20M1875CC*

**4962 1877 MS61 Prooflike NGC.** This orange-gold Uncirculated first-year Type Three twenty has dazzling luster and the customary number of moderate marks for the MS61 level. Census: 7 in 61 Prooflike, 0 finer (1/13).  
*Ex: Orlando FUN Signature (Heritage, 1/2007), lot 6350. PCGS# 78982*

#### MS62 1877-S Double Eagle Flashy Obverse

**4963 1877-S MS62 PCGS. CAC.** A quality example of the first Type Three double eagle issue from San Francisco, boldly impressed with flashy obverse fields and a semireflective reverse. Silvery accents appear on and near the subtly frosted portrait, set against intense sun-yellow hues across most of each side. PCGS# 8984, NGC ID# 26B2, CoinPlex ID# 20M1877S

**1879-CC Double Eagle, VF35  
Scarce, Low-Mintage Date**

- 4964 1879-CC VF35 PCGS. Variety 1-A.** The late die state with partially lapped tail feathers. The 1879-CC Liberty Head double eagle boasts a low mintage of 10,708 pieces, and is much scarcer than its 1874-CC through 1876-CC predecessors. The present Choice VF example is mostly peach-gold but has an olive-green central obverse. Ample luster remains. Visible abrasions are minimal though the obverse periphery displays wispy hair-thin marks.  
*Ex: Tampa FUN Signature (Heritage, 1/2011), lot 7321, which realized \$5,462.50. PCGS# 8989, NGC ID# 26B7, CoinPlex ID# 20M1879CC*

- 4965 1881-S AU58 PCGS.** Double eagles were only produced in Philadelphia and San Francisco in 1881. The Philadelphia Mint only minted 2,260 coins, including business strikes and proofs, while the San Francisco Mint coined 727,000 pieces. It is clearly the S-Mint double eagles that represent the common issue of the year. This near-Mint specimen is typical of survivors, exhibiting light yellow luster and scattered marks on each side. PCGS# 8995, NGC ID# 26BD, CoinPlex ID# 20M1881S

- 4966 1884-CC — Scratches — NGC Details. AU. Variety 1-A.** This canary-gold Carson City twenty is nicer than the NGC designation implies, though we note a thin line on Liberty's jaw and a couple of patches of faint pin scratches on the reverse. NGC ID# 26BK, PCGS# 9001, CoinPlex ID# 20M1884CC

- 4967 1884-S MS61 NGC.** In 1884, the Philadelphia Mint limited double eagle production to 71 proofs, while Carson City coined 81,139 double eagles. That left the San Francisco Mint to do all the work, and production crews minted 916,000 twenties. This lovely Mint State specimen is fully brilliant with light yellow surfaces and frosty luster. NGC ID# 26BL, PCGS# 9002, CoinPlex ID# 20M1884S

**1885-S Double Eagle, MS63  
The Only Common Issue of 1885**

- 4968 1885-S MS63 PCGS. CAC.** The 1885 double eagle follows a familiar pattern that began in 1881, with limited Philadelphia mintages and high San Francisco mintages. The Carson city Mint also produced modest quantities of double eagles from 1882 to 1885, including under 10,000 in the latter year. This impressive Select Mint State piece has scattered marks and bold design motifs, with brilliant yellow luster and delicate greenish overtones. PCGS has only certified 33 finer examples (1/13). PCGS# 9005, NGC ID# 26BP, CoinPlex ID# 20M1885S

- 4969 1887-S MS61 NGC.** Attractive golden-orange color along with hints of peach and apricot add to the visual appeal of this piece. Scattered abrasions appear on both sides, although most are minor in nature. However, Liberty's face includes several areas of reed marks. NGC ID# 26BS, PCGS# 9007, CoinPlex ID# 20M1887S

**Near-Mint 1890-CC Twenty  
Minor Doubled Die Reverse**

- 4970 1890-CC AU58 PCGS. Variety 1-A.** This Borderline Uncirculated Carson City type coin displays exemplary cartwheel luster. The wheat-gold surfaces show moderate marks but are pleasing for the designated grade. A gray spot is noted southwest of the beak. The later die state with lapped tail feathers. Variety 1-A has a minor doubled die reverse, evident on the U in PLURIBUS, the D in GOD, and various other letters. PCGS# 9014, NGC ID# 26BY, CoinPlex ID# 20M1890CC

**Select 1892-S Double Eagle  
Vivid Color and Luster**

- 4971 1892-S MS63 PCGS.** Like many Type Three S-mint double eagles, the 1892-S is underrated in the higher Mint State grades. This Select Mint State piece is an extremely well-produced coin, with lavish apricot-gold color on each side, complete cartwheel luster, a full strike (the blobby mintmark punch is not a strike effect), and excellent preservation in the form of relatively few scattered abrasions. A super example for the type. PCGS# 9021, NGC ID# 26C7, CoinPlex ID# 20M1892S

- 4972 1896 MS63 PCGS. FS-301.** The date is boldly repunched above on this frosty, Select Mint State 1896 double eagle. An early die state, this piece shows prominent double of all four digits. Both sides are lustrous with brilliant yellow surfaces. FS-301 Population: 9 in 63, 0 finer (1/13). PCGS# 9029, NGC ID# 26CF, CoinPlex ID# 20M1896

- 4973 1897-S MS63 PCGS.** Although it is considered a common date, higher grades examples of the 1897-S are elusive, and this Select Mint State piece is a lovely representative. Both sides are bright yellow with splashes of emerald toning, especially on Liberty's cheek. PCGS# 9032, NGC ID# 26CJ, CoinPlex ID# 20M1897S

- 4974 1898-S MS64 PCGS.** Mint-green toning dominates the borders. The centers are sun-gold. Potent luster sweeps the sharply struck motifs and smooth fields. The cheek displays delicate marks. PCGS# 9034, NGC ID# 26CL, CoinPlex ID# 20M1898S

**4975 1901 MS64 NGC. CAC.** Glimmering, lustrous surfaces provide this near-Gem with a pleasing appearance. The piece is canary-gold in color overall, with hints of green and apricot. Small reed marks appear under Liberty's nose, both above her mouth and in the field. NGC ID# 26CS, PCGS# 9039, CoinPlex ID# 20M1901

**4976 1903 MS65 NGC.** A wheat-gold Gem whose exemplary strike and vibrant luster combine with unmarked surfaces to ensure outstanding eye appeal. Ten times scarcer as a Gem than its 1904 successor. NGC ID# 26CW, PCGS# 9043, CoinPlex ID# 20M1903

**4977 1903 MS65 PCGS.** An attractive, well-struck Gem, this example displays warmly lustrous surfaces exhibiting rich yellow-gold and honey-orange coloration. Only a handful of wispy marks appear on each side. PCGS has assigned higher numeric grades to only 3 examples (1/13). PCGS# 9043, NGC ID# 26CW, CoinPlex ID# 20M1903

**4978 1904 MS64 NGC.** An uncommonly appealing near-Gem example of this popular type issue with intense sun-yellow luster that has orange elements. A few choppy marks at the left side of the portrait confirm the accuracy of the grade. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

**4979 1904 MS64 NGC.** Boldly lustrous with a strong cartwheel effect heightening the interplay of yellow and orange shades. Well-struck with fewer sizable marks than often seen on Type Three Liberty twenties. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

#### Gem 1904 Double Eagle Favorite Type Coin

**4980 1904 MS65 PCGS.** The 1904 Liberty double eagle boasts a huge mintage of more than 6 million pieces, making it an available date and a favorite choice of type collectors. This attractive Gem possesses outstanding eye appeal, with sharply detailed design elements and vibrant mint luster, over vivid orange and rose-gold surfaces. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

#### MS65 1904 Double Eagle Bounteous Luster

**4981 1904 MS65 NGC.** This yellow-orange Gem has lively luster cartwheeling across each side. The strike is sharp, and coppery areas atop Liberty's hair behind the coronet and between the letters of IN within IN GOD WE TRUST add character. Light grazes are noted on Liberty's cheek and the rim above star 8. NGC ID# 26CY, PCGS# 9045, CoinPlex ID# 20M1904

**4982 1904 MS65 PCGS.** A well struck apricot-gold and lime-green Gem with dynamic luster, a nearly pristine reverse, and only a few minor marks on the left obverse. Encapsulated in an old green label holder. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

#### MS65+ 1904 Twenty Dollar Wide Range of Colors

**4983 1904 MS65+ PCGS.** Bounteous orange-gold luster has variations into yellow and peach with occasional flashes of rose. Boldly impressed and carefully preserved surfaces have just a couple of shallow straight flaws, most notably to the right of the date, in addition to the tiny marks expected on a Premium Gem. A wonderful type coin. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

**4984 1904 MS65+ PCGS Secure.** Rich sea-green and pumpkin-gold toning confirms the originality of this lustrous Gem. The strike is precise and the fields are smooth save for unobtrusive marks beneath the arrowheads. Though the 1904 is the most prevalent Liberty double eagle issue, high grade examples are always in demand from gold type set collectors. PCGS# 9045, NGC ID# 26CY, CoinPlex ID# 20M1904

**4985 1906 MS61 NGC.** The 1906 is a low-mintage Philadelphia issue, one of three key issues from that mint in a five year span, along with 1902 and 1905. All three of those dates had production totals of less than 70,000 coins, while the 1904 exceeded 6 million coins. This satiny Mint State specimen has sharp details and excellent luster with pleasing eye appeal. NGC ID# 26D4, PCGS# 9049, CoinPlex ID# 20M1906

#### Low-Mintage 1906 Double Eagle, MS62

**4986 1906 MS62 NGC.** The 1906 twenty is the second of two "crash years" for Philadelphia double eagle production after the high-mintage 1904 date. This unworn example, one of just 69,500 business strikes minted, has generous peach luster and strong detail. A few lines of reed marks, including one just to the left of Liberty's lips, contribute to the grade. NGC ID# 26D4, PCGS# 9049, CoinPlex ID# 20M1906

**4987 1907 MS64 PCGS.** The final year of the Liberty double eagle series, coined prior to introduction of the famous Saint-Gaudens design later that year. This Choice Mint State piece is finer than usual, with frosty yellow luster, trivial marks, and excellent eye appeal. PCGS has only certified 13 finer examples (1/13). PCGS# 9052, NGC ID# 26D7, CoinPlex ID# 20M1907

## SAINT-GAUDENS DOUBLE EAGLES

- 4988 1908 No Motto MS66 PCGS.** Long rays obverse. A beautiful lemon-gold example of the briefly issued No Motto subtype. The radiant fields exhibit only inconsequential contact, though the waist has a minor graze. The Capitol building is fully struck. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 4989 1908 No Motto MS66 NGC.** Long rays obverse. A green-gold Premium Gem whose coruscating surfaces show only minor marks. Slight inexactness of impression is noted on the Capitol building and the eagle's leg. PCGS# 9142, NGC ID# 26F6, CoinPlex ID# SGM1908NM
- 4990 1908 No Motto, Wells Fargo Nevada MS66 PCGS.** Short rays obverse. An exquisite apricot-gold representative from the famous No Motto holding. Luster dominates well preserved surfaces. The strike is full except on the eagle's leg feathers. PCGS# 99142, CoinPlex ID# SGM1908NMWELLS
- 4991 1910 MS64 PCGS.** Deep orange toning endows this satiny and well struck Choice Saint-Gaudens twenty. The obverse is remarkably smooth and the obverse shows only minor marks. The ideal grade for the issue in terms of value. PCGS# 9154, NGC ID# 26FF, CoinPlex ID# SGM1910
- 4992 1911-D MS65 NGC.** A peach-gold Gem with traces of apple-green along the upper obverse periphery. Highly lustrous and minimally abraded with a sharp strike and imposing eye appeal. PCGS# 9158, NGC ID# 26FK, CoinPlex ID# SGM1911D
- 4993 1911-D MS66 NGC.** Broadly lustrous with subtly frosted surfaces that are light apricot at the interiors and just a touch deeper near the rims. A shallow luster scrape under the Y in LIBERTY is one of the few barriers to an even finer designation. The 1911-D is a popular type issue but conditionally rare any better. NGC ID# 26FK, PCGS# 9158, CoinPlex ID# SGM1911D

### 1911-D/D Double Eagle, MS66 FS-501 Repunched Mintmark

- 4994 1911-D/D MS66 PCGS. FS-501.** The best-known repunched mintmark variety in the Saint-Gaudens series. The curve of an errant D is obvious to the east of the prominent mintmark. The present sharply struck Premium Gem features lovely lime-green and apricot-gold shades. Minor grazes are chiefly confined to the sun and obverse field. PCGS# 145010

### Choice 1913 Double Eagle Lower-Mintage Better Date

- 4995 1913 MS64 PCGS Secure.** The low mintage of 168,700 pieces makes the 1913 Saint-Gaudens double eagle a better date in the series, especially in high grade. This impressive Choice example exhibits well-detailed design elements and vibrant mint luster. Only 10 coins have been certified in higher numeric grades at PCGS (1/13). PCGS# 9161, NGC ID# 26FN, CoinPlex ID# SGM1913

### Gem 1913-D Double Eagle Conditionally Very Rare in Finer Grades

- 4996 1913-D MS65 PCGS.** From a mintage of 393,500 pieces, the 1913-D Saint-Gaudens double eagle is an underrated condition rarity in high grade. This impressive Gem is well-detailed, with vibrant mint luster and remarkably clean yellow-gold surfaces. PCGS has graded only five coins in higher numeric grades (1/13). PCGS# 9162, NGC ID# 26FR, CoinPlex ID# SGM1913D

### Select 1914 Saint-Gaudens Twenty Popular Low-Mintage P-Mint Issue

- 4997 1914 MS63 PCGS.** A low-mintage Philadelphia issue, the 1914 Saint-Gaudens double eagle is always in demand, especially in higher Uncirculated grades. This attractive Select example displays crisp definition on all design elements and vibrant frosty mint luster. The bright yellow-gold surfaces show only a few minor contact marks. PCGS# 9164, NGC ID# 26FS, CoinPlex ID# SGM1914

---

**1914 Saint-Gaudens Double Eagle, MS64  
Seldom Encountered in Finer Grades**

**4998 1914 MS64 PCGS.** The 1914 is an underrated date in the Saint-Gaudens double eagle series, and high-grade specimens are particularly hard to locate. This attractive Choice specimen is crisply struck, with above-average mint luster, and well-preserved orange-gold surfaces that show a few highlights of rose. PCGS# 9164, NGC ID# 26FS, CoinPlex ID# SGM1914

**4999 1914-D MS65 NGC.** Sharply struck in all areas, the fine-grain, matte-like surfaces have lovely satin-like luster and there are no singularly distracting abrasions or alloy spots on either side. NGC has certified just 47 finer examples (1/13). NGC ID# 26FT, PCGS# 9165, CoinPlex ID# SGM1914D

**5000 1916-S MS64 NGC.** Scattered surface marks appear on each side of this Choice Mint State piece, representing a single mint year. Half eagles, eagles, and double eagles were all coined at San Francisco in 1916, with no gold production of any denomination at Philadelphia. NGC ID# 26FX, PCGS# 9169, CoinPlex ID# SGM1916S

---

**1916-S Twenty, Upper-End MS65**

**5001 1916-S MS65 PCGS.** The exemplary surfaces are immediately suggestive of an even finer grade. Beautiful luster emanates from each side of this coin, from an issue that is frequently lackluster. The strike is bold. Although perusal with a loupe reveals some marks consistent with the grade, they are completely undistracting and the impression remains that the piece is high-end.  
*Ex: Long Beach Signature (Heritage, 9/2006), lot 4637.* PCGS# 9169, NGC ID# 26FX, CoinPlex ID# SGM1916S

---

**1923-D Double Eagle, MS66  
Last Common Branch Mint Twenty**

**5002 1923-D MS66 NGC. CAC.** A sensational Premium Gem, this 1923-D double eagle has an extremely high degree of luster with exceptional eye appeal. This is a common Denver Mint issue, the only plentiful branch Mint issue of the decade. NGC has only certified 43 finer examples of this issue (1/13). NGC ID# 26G6, PCGS# 9176, CoinPlex ID# SGM1923D

**5003 1925 MS66 NGC. Ex: WWII Exile Hoard.** This Premium Gem displays attractive color and luster. A small strike-through, as made, appears at the top of Liberty's head. Only 19 examples have been awarded higher numeric grades by NGC (1/13).  
*From The Fenn Family Collection.* NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925

**5004 1925 MS66+ NGC. Ex: WWII Exile Hoard.** Shimmering, lustrous surfaces and rich color provide this piece with a very attractive appearance. A minute alloy spot appears at the top of the torch on this minimally abraded high-end Premium Gem. Census: 38 in 66+, 19 finer (1/13).  
*From The Fenn Family Collection.* NGC ID# 26GA, PCGS# 9180, CoinPlex ID# SGM1925

**5005 1926 MS66 NGC. CAC. FS-101.** Die tripling is evident near the date on the rays, stars, and monogram. The variety is undesignated on the insert, but then again, the *Cherrypickers'* variety had yet to be assigned when the coin was placed in its mid-1990s holder. The peach-gold surfaces are well preserved. NGC ID# 26GD, PCGS# 9183, CoinPlex ID# SGM1926

**5006 1927 MS65+ PCGS.** Wisps of green and rose overtones grace the brilliant yellow surfaces of this highly lustrous Gem. Both sides are pristine and boldly detailed. A beautiful double eagle for an advanced gold type set. PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

---

**1927 Twenty, MS66  
The Finest Routinely Available**

**5007 1927 MS66 PCGS. CAC.** An impressive Premium Gem with bold design motifs and scintillating yellow-gold luster. The frosty surfaces show few marks of note, with beautiful honey-gold overtones. A few insignificant copper toning spots are evident on the obverse. PCGS has only certified 13 finer examples (1/13). PCGS# 9186, NGC ID# 26GG, CoinPlex ID# SGM1927

**Superb Gem 1927 Double Eagle  
Excellent Type Coin**

**5008 1927 MS67 NGC.** This gorgeous Superb Gem displays a sharply defined obverse and reverse design and fully lustrous orange-gold surfaces. The 1927 double eagle is a common date, although the Superb Gem MS67 grade represents the finest available quality. None have ever received a higher grade. Census: 49 in 67, 0 finer (1/13). NGC ID# 26GG, PCGS# 9186, CoinPlex ID# SGM1927

**5009 1928 MS66 PCGS.** This spectacular Premium Gem displays vivid greenish-gold surfaces, with a few highlights of orange, and vibrant mint luster on both sides. Sharply detailed design elements add to the remarkable visual appeal. PCGS# 9189, NGC ID# 26GK, CoinPlex ID# SGM1928

**TERRITORIAL GOLD**

**Christopher Bechtler Gold Dollar  
30 G., K-1, AU53**

**5010 (1831-34) C. Bechtler Dollar, 30G. AU53 NGC. K-1, R.4.** The first and heaviest of the Bechtler gold dollar varieties, issued prior to the 1834 Federal devaluation of the dollar relative to gold. The fields are orange-gold while the legends show ocean-blue and cherry-red toning. The obverse die was partly concave, which gives the lower obverse a sunken appearance, as made. Struck from rotated dies. Listed on page 372 of the 2013 *Guide Book*. PCGS# 10064

**CALIFORNIA FRACTIONAL GOLD**

**5011 Undated Liberty Round 25 Cents, BG-206, High R.4, MS64 PCGS.** A beautiful olive-gold example that boasts a full struck and smooth, satiny surfaces. PCGS has certified 10 pieces in circulated grades, which suggests this Period One variety sometimes participated in Gold Rush commerce. Population: 12 in 64, 0 finer (1/13). PCGS# 10391, CoinPlex ID# CALNDBG206

**5012 Undated Liberty Round 25 Cents, BG-222, R.2, MS65 NGC.** An early die state without the eventual breaks at star 1 and the top of the wreath. Well struck and lustrous. The yellow-gold surfaces are smooth except for a small mint-made strike-through at the left end of the fraction bar. Census: 11 in 65, 3 finer (1/13). PCGS# 10407, CoinPlex ID# CALNDBG222

**5013 1855 Liberty Round 50 Cents, BG-405, R.5, MS65 NGC.** Breen-Gillio Die State III, lapped dies. This Period One Gem is semiprooflike and exhibits smooth canary-gold surfaces. PCGS has also certified a single MS65 with none finer. Census: 1 in 65, none finer (1/13). PCGS# 10441, CoinPlex ID# CAL1855BG405

**5014 1871 Liberty Octagonal 25 Cents, BG-717, R.3, MS67 NGC.** An evenly struck sun-gold Superb Gem that possesses flashy fields and a pristine appearance. A wonderful representative of the Period Two octagonal Liberty type. Census: 3 in 67, 5 in 67 Prooflike, 0 finer (1/13). PCGS# 10544, CoinPlex ID# CAL1871BG717

**5015 1872 Washington Octagonal 25 Cents, Baker-503, BG-722, Low R.4, MS63 NGC.** A canary-gold representative of the popular Washington type, which provides a respite from the usual array of Liberty and Indian Head varieties. The flashy fields are smooth save for one thin line behind the portrait. The jaw and eyebrow show light rub. PCGS# 10549, CoinPlex ID# CAL1872BG722WH

**5016 1873 Liberty Octagonal 25 Cents, BG-728, R.3, MS66+ NGC.** Though undesignated as Prooflike, the fields of this wheat-gold example are nicely mirrored. Crisply struck and as made. A very high grade for the California small denomination gold series. Census: 10 in 66 (1 in 66+), 2 finer (1/13). PCGS# 10555, CoinPlex ID# CAL1873BG728

**5017 1868 Liberty Octagonal 25 Cents, BG-747, High R.5, MS62 NGC.** An unabraded and luminous representative of this scarce Period Two variety. The coin is well struck, though the reverse legends and shield outline are only partly present due to thorough die lapping, as made. PCGS# 10574, CoinPlex ID# CAL1868BG747

**5018 1876 Liberty Octagonal 25 Cents, BG-778, Low R.7, MS63 NGC.** A rare variety distinguished from the fairly plentiful BG-780 by a die scratch from the base of the denominator. The semiprooflike sun-gold surfaces are smooth but show softness of impression opposite Liberty's cheek. The obverse displays bold clash marks, as made. PCGS# 10605, CoinPlex ID# CAL1876BG778

**1875 Octagonal Indian Quarter  
MS66, Finest PCGS-Certified BG-784**

**5019 1875 Indian Octagonal 25 Cents, BG-784, High R.5, MS66 PCGS.** Deeply reflective fields contrast with luminous legends and motifs. Well struck with all of the peripheral legend bold. Flawless aside from the usual clash marks or "ghosts" (as coined) from the headdress near the DO in DOLLAR. Breen-Gillio credits the maker as the California Jewelry Co., owned by brothers Jacob and Herman Levison of San Francisco. The single finest certified at PCGS (1/13). PCGS# 10611, CoinPlex ID# CAL1875BG784

**Finest Certified MS66 BG-802  
1865 Round Liberty Quarter**

- 5020 1865 Liberty Round 25 Cents, BG-802, Low R.5, MS66 NGC.** A smooth and moderately prooflike wheat-gold example. The reverse die was lapped prior to the strike, transforming DOLLAR into LOLA. BG-802 is very scarce. As of (1/13), NGC has certified only five examples, two as MS62 and one each as MS64 and MS66. Since the three finest at PCGS are graded MS65, the present example is the single finest certified. PCGS# 10663, CoinPlex ID# CAL1865BG802

- 5021 1880/76 Indian Round 25 Cents, BG-885, R.3, MS65 PCGS.** Glassy butter-gold fields contrast with sharply defined motifs. We note a couple of pinpoint aqua spots on the reverse and mint-made minute retained laminations near the Indian's nose and the R in DOLLAR. Population: 18 in 65, 2 finer (1/13). PCGS# 10746, CoinPlex ID# CAL1880OVR76BG885

- 5022 1868 Liberty Octagonal 50 Cents, BG-906, High R.4, MS65 NGC.** Flashy luster and a crisp strike ensure the eye appeal of this unabraded Gem. Generally sun-gold, although orange-red toning visits the obverse and dominates a portion of the reverse margin. Census: 2 in 65, 2 finer (1/13). PCGS# 10764, CoinPlex ID# CAL1868BG906

- 5023 1872 Indian Round 50 Cents, BG-1048, Low R.4, MS66 Prooflike NGC.** Small stars distinguish BG-1049 from the similar BG-1049, which shares the same reverse die. A pristine Premium Gem with glassy fields and slight inexactness of strike on the central reverse. Census: 1 in 66 Prooflike, 3 in 66 Deep Prooflike, 1 finer (1/13). PCGS# 710877

**Prooflike Gem BG-1102  
Octagonal Liberty 1860 Dollar**

- 5024 1860 Liberty Octagonal 1 Dollar, BG-1102, R.4, MS65 Prooflike NGC.** A beautiful sun-gold Gem whose flashy fields are devoid of abrasions. Lightly clashed near the profile, and the central reverse retains the dimpled texture of the planchet prior to the strike. Tied for the finest certified at NGC; none are designated as Deep Prooflike. Census: 2 in 65 Prooflike, 0 finer (1/13). PCGS# 710913

## WORLD

- 5025 (1947) Saudi Arabia, Abdal Aziz bin Saud Gold Sovereign (Pound) MS61 NGC. KM-35.** Struck at the Philadelphia Mint to exchange for Saudi oil. The broad obverse rim has a few marks. Per the reverse inscription, contains 0.2354 troy ounces of gold. One of the few gold coin issues struck by the U.S. Mint during the era when private gold ownership was illegal. PCGS# 661947

- 5026 (1947) Saudi Arabia, Abdal Aziz bin Saud Gold Sovereign (Pound) MS63 NGC. KM-35.** The Saudi Arabian government was familiar with the British sovereign, and the U.S. government struck the denomination (though the legends only refer to the gold weight) as payment for oil imports. Most of 123,000 pieces struck were melted over subsequent years. Evenly struck and satiny with caramel-gold toning. PCGS# 661947

## End of Session Four

# SESSION FIVE

Heritage Live!®, Internet, Fax, and Mail Only Session

Sunday, February 10, 2013 | 12:00 PM CT | Dallas, Texas | Lots 7001 - 8985

A 17.5% Buyer's Premium (\$14 minimum) Will Be Added To All Lots

To view full descriptions, enlargeable images and bid online, visit [HA.com/1182](http://HA.com/1182)

## SPECIAL INTERNET BIDDING FEATURE

Online proxy bidding ends at HA.com two hours prior to the opening of the live auction. Check the Time Remaining on individual lots for details. After Internet proxy bidding closes, live bidding will take place through HERITAGE Live!®, our bidding software that lets you bid live during the actual auction. Your secret maximum will compete against those bids, and win all ties. To maximize your chances of winning, enter realistic secret maximum bids before live bidding begins. (Important note: Due to software and Internet latency, bids placed through Live Internet Bidding may not register in time and those bidders could lose lots they would otherwise have won, so be sure to place your proxy bids in advance.)

**7798 1914-S — Tooled — PCGS Genuine. VF Details.** NGC Census: (7/66). PCGS Population (15/140). Mintage: 264,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in VF20: \$385. PCGS# 5669, NGC ID# 23ZZ, CoinPlex ID# BQU1914S

**7799 1914-S — Improperly Cleaned — NGC Details. XF.** NGC Census: (1/57). PCGS Population (12/87). Mintage: 264,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in XF40: \$550. NGC ID# 23ZZ, PCGS# 5669, CoinPlex ID# BQU1914S

**7800 1916-D MS63 NGC.** NGC Census: (232/637). PCGS Population (382/929). Mintage: 6,540,800. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$380. NGC ID# 2426, PCGS# 5674, CoinPlex ID# BQU1916D

## PROOF BARBER QUARTERS

- 7801 1902 PR63 PCGS.** PCGS Population (53/114). NGC Census: (41/143). Mintage: 777. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR63: \$700.  
*From The Teich Family Collection.* PCGS# 5688, NGC ID# 242H, CoinPlex ID# BQP1902
- 7802 1909 PR63 PCGS. CAC.** PCGS Population (62/124). NGC Census: (33/169). Mintage: 650. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR63: \$690.  
*From The Teich Family Collection.* PCGS# 5695, NGC ID# 242R, CoinPlex ID# BQP1909
- 7803 1912 PR61 NGC.** NGC Census: (8/161). PCGS Population (8/188). Mintage: 700. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR61: \$375. NGC ID# 242U, PCGS# 5698, CoinPlex ID# BQP1912
- 7804 1913 — Improperly Cleaned — NGC Details. Proof.** NGC Census: (0/215). PCGS Population (3/206). Mintage: 613. Numismedia Wsl. Price for problem free NGC/PCGS coin in PR60: \$325. NGC ID# 242V, PCGS# 5699, CoinPlex ID# BQP1913

## STANDING LIBERTY QUARTERS

- 7805 1917 Type One PCGS Genuine.** The PCGS number ending in .92 suggests cleaning as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. Mintage: 8,740,000.  
*From The Teich Family Collection.* PCGS# 5706, NGC ID# 242Z, CoinPlex ID# SLQ1917TY1
- 7806 1917 Type One MS63 Full Head NGC.** NGC Census: (661/2365). PCGS Population (1105/3068). Mintage: 8,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$340. NGC ID# 242Z, PCGS# 5707, CoinPlex ID# SLQ1917TY1FH
- 7807 1917 Type One MS63 Full Head NGC.** NGC Census: (661/2365). PCGS Population (1105/3068). Mintage: 8,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS63: \$340. NGC ID# 242Z, PCGS# 5707, CoinPlex ID# SLQ1917TY1FH
- 7808 1917 Type One MS64 Full Head PCGS.** PCGS Population (1658/1395). NGC Census: (1259/1097). Mintage: 8,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$420. PCGS# 5707, NGC ID# 242Z, CoinPlex ID# SLQ1917TY1FH

- 7809 1917 Type One MS64 Full Head NGC.** NGC Census: (1263/1103). PCGS Population (1663/1403). Mintage: 8,740,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$420. NGC ID# 242Z, PCGS# 5707, CoinPlex ID# SLQ1917TY1FH
- 7810 1917-D Type One MS64 PCGS.** PCGS Population (169/86). NGC Census: (131/80). Mintage: 1,509,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$460. PCGS# 5708, NGC ID# 2432, CoinPlex ID# SLQ1917DTY1
- 7811 1917-D Type One AU58 Full Head PCGS.** PCGS Population (163/1263). NGC Census: (100/962). Mintage: 1,509,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU58: \$240. PCGS# 5709, NGC ID# 2432, CoinPlex ID# SLQ1917DTY1FH
- 7812 1917-D Type One MS62 Full Head NGC.** NGC Census: (128/793). PCGS Population (120/1130). Mintage: 1,509,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$335. NGC ID# 2432, PCGS# 5709, CoinPlex ID# SLQ1917DTY1FH
- 7813 1917-D Type One MS64 Full Head NGC.** NGC Census: (320/290). PCGS Population (462/400). Mintage: 1,509,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$665. NGC ID# 2432, PCGS# 5709, CoinPlex ID# SLQ1917DTY1FH
- 7814 1917-D Type One MS64 Full Head NGC.** NGC Census: (320/290). PCGS Population (462/400). Mintage: 1,509,200. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$665. NGC ID# 2432, PCGS# 5709, CoinPlex ID# SLQ1917DTY1FH
- 7815 1917-S Type One — Improperly Cleaned — NGC Details. Unc.** NGC Census: (0/166). PCGS Population (3/312). Mintage: 1,952,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS60: \$250. NGC ID# 2433, PCGS# 5710, CoinPlex ID# SLQ1917STY1
- 7816 1917-S Type One AU55 Full Head PCGS.** PCGS Population (38/806). NGC Census: (11/619). Mintage: 1,952,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in AU55: \$235. PCGS# 5711, NGC ID# 2433, CoinPlex ID# SLQ1917STY1FH
- 7817 1917 Type Two MS64 Full Head PCGS. CAC.** PCGS Population (325/255). NGC Census: (236/187). Mintage: 13,880,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$450. PCGS# 5715, NGC ID# 2434, CoinPlex ID# SLQ1917TY2FH
- 7818 1917-D Type Two MS62 Full Head NGC.** NGC Census: (36/181). PCGS Population (34/275). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS62: \$370. NGC ID# 2435, PCGS# 5717, CoinPlex ID# SLQ1917DTY2FH

- 7819 1917-D Type Two MS64 Full Head NGC.** NGC Census: (82/38). PCGS Population (120/73). Mintage: 6,224,400. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$950. NGC ID# 2435, PCGS# 5717, CoinPlex ID# SLQ1917DTY2FH
- 7820 1917-S Type Two PCGS Genuine.** The PCGS number ending in .92 suggests cleaning as the reason, or perhaps one of the reasons, that PCGS deemed this coin not gradable. Mintage: 5,552,000.  
*From The Teich Family Collection.* PCGS# 5718, NGC ID# 2436, CoinPlex ID# SLQ1917STY2
- 7821 1917-S Type Two MS64 PCGS.** PCGS Population (142/83). NGC Census: (111/68). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$460. PCGS# 5718, NGC ID# 2436, CoinPlex ID# SLQ1917STY2
- 7822 1917-S Type Two MS64 NGC.** NGC Census: (111/68). PCGS Population (142/83). Mintage: 5,552,000. Numismedia Wsl. Price for problem free NGC/PCGS coin in MS64: \$460. NGC ID# 2436, PCGS# 5718, CoinPlex ID# SLQ1917STY2

## COINS OF HAWAII

- 8896 1883 Hawaii Half Dollar XF45 PCGS.** PCGS Population (72/419). NGC Census: (40/303). Mintage: 700,000. PCGS# 10991
- 8897 1883 Hawaii Dollar XF40 NGC.** NGC Census: (52/249). PCGS Population (139/401). Mintage: 500,000. PCGS# 10995

## ERRORS

- 8898 1972-D Lincoln Cent — Double Struck, Second Strike Flipover 65% Off Center, With Uniface Reverse — MS63 Red NGC.
- 8899 1864 Large Motto Two Cent Piece — Rotated Dies — MS63 Red and Brown NGC.  
*From The Fred Yee Collection.*
- 8900 Undated Buffalo Nickel — Struck 25% Off Center — AU58 PCGS.
- 8901 1937 Buffalo Nickel — Struck 10% Off-Center — MS65
- 8902 (1980-P) Jefferson Nickel — Struck on a 1C Blank Planchet — MS64 Red NGC. 3.1 grams.
- 8903 1974-D Washington Quarter — Struck on a 1C Planchet — MS64 NGC. 3.09 Grams.
- 8904 1977 Washington Quarter — Struck on a 5C Blank Planchet — MS66 ANACS. Weight 4.93 grams.
- 8905 1999 Pennsylvania Statehood Quarter — Struck 75% Off Center — MS65 NGC.
- 8906 2000-P South Carolina Statehood Quarter — Struck 20% Off Center — MS67 PCGS.
- 8907 (2000)-P New Hampshire Statehood Quarter — Struck 35% Off Center — MS68 NGC.

- 8908 2000-S South Carolina Silver Statehood Quarter — Struck On A Defective Planchet — PR69 NGC.

- 8909 2000-S New Hampshire Clad Statehood Quarter — Double Struck with Obverse Rotation — PR69 Ultra Cameo NGC.
- 8910 1962-D Franklin Half Dollar — Struck on a 25C Planchet — AU50 PCGS.
- 8911 1963 Franklin Half Dollar — Struck on a Stock 25C — MS63 ANACS.
- 8912 1980-P Kennedy Half Dollar — Struck 15% Off Center, Obverse Wheel Mark — NGC Details. Unc.
- 8913 1883-O Morgan Dollar — 50 Degree Counter Clockwise Rotated Dies — AU58 PCGS.
- 8914 1921 Morgan Dollar — Reverse Struck Thru — MS61 NGC.
- 8915 1934-S — Scratched, Cracked Planchet — PCGS Genuine. AU Details.
- 8916 (10) 2000-11 Sacagawea Type II Blank Planchet PCGS Genuine. (Total: 10 coins)
- 8917 1925 Vancouver — Improperly Cleaned, Partial Collar — NGC Details. AU.
- 8918 Undated Modern Commemorative Silver Dollar — Type Two Blank Planchet — MS60 ANACS. Diameter-37.5mm, Weight-26.73 grams.

## WASHINGTONIA

- 8927 "1832" Birth Centennial, Philadelphia Civic Procession, Post-1858 Restrike AU58 NGC. Baker-160E, Bronze.
- 8928 1932 Birth Bicentennial, Wakefield Restored MS66 NGC. Baker-925A. Gilt bronze, 32mm.
- 8929 1932 Birth Bicentennial, Wakefield Restored MS66 NGC. Baker-925A. Gilt bronze, 32mm.
- 8930 1939 New York World's Fair, 150th Anniversary of Inauguration MS64 NGC. Baker unlisted, Reverse of Baker-3002. 31.6mm.

## U.S. PRESIDENTS & STATESMEN

- 8931 (1864) General G.B. McClellan Campaign Medal MS63 NGC. DeWitt-GMcC-1864-30. Brass.

## SO-CALLED DOLLARS

- 8932 1878 Wyoming Battle & Massacre MS61 NGC. HK-120C, R.7. A collector card accompanies the lot.
- 8933 1901-1902 Fort Sumter Dollar, South Carolina Inter-State Expo, XF45 NGC. HK-292, R.6.
- 8934 1904 Louisiana Purchase Exposition, Official Souvenir Medal MS64 NGC. HK-304, R.3.
- 8935 1907 Jamestown Tercentennial, Official Medal MS64 Brown NGC. HK-346, R.4.
- 8936 1933 Pedley-Ryan Dollar MS63 NGC. HK-825, R.5. Colorado. The reverse is double struck.
- 8937 (1962) Continental Dollar Restrike, White Metal MS66 Prooflike NGC. HK-854a, R.3. Included is a collector envelope printed by Empire Coin Co. (Q. David Bowers).

## EXPOSITIONS AND FAIRS

- 8938 1893 World's Columbian Exposition, Elongated 1893 Nickel, MS62 NGC. Eglit-372.

## EARLY AMERICAN TOKEN

- 8939 (1823-1824) Richard Trested, New York, New York — Environmental Damage, Scratched — NGC Details. XF. Rulau-E-NY-924.

## HARD TIMES TOKENS

- 8940 1837 Half Cent Token — Cleaned — ANACS. AU53 Details. Low-49, HT-73, R.2.
- 8941 (1835-1844) Wm. H. Milton & Co., Boston, Massachusetts AU55 NGC. Low-266, HT-164, R.1.
- 8942 (1835) Alfred D. Willard, Boston, Massachusetts MS63 Brown NGC. Low-328, HT-171, R.1.
- 8943 (1835) John J. Adams, Taunton, Massachusetts AU55 NGC. Low-300, HT-181, R.1.
- 8944 1837 Feuchtwanger Cent MS61 PCGS. Low-120, HT-268, Breen 3-E, R.3. New York.
- 8945 1837 Feuchtwanger Cent — Improperly Cleaned — NGC Details. Unc. Low-120, HT-268, Breen 4-E, R.3. Incorrectly attributed by NGC as Breen 3-E. New York.
- 8946 1837 Feuchtwanger Cent — Improperly Cleaned — NGC Details. Unc. Low-120, HT-268, Breen 5-G, R.2. New York.
- 8947 1837 Feuchtwanger Cent MS64 NGC. Low-120, HT-268, Breen 5-H, R.1. New York.
- 8948 1837 Feuchtwanger Cent XF45 NGC. Low-120, HT-268, Breen 6-I, R.1. New York.
- 8949 1837 Feuchtwanger Cent AU55 PCGS. CAC. Low-120, HT-268, Breen 6-I, R.1. New York.
- 8950 1837 Feuchtwanger Cent MS64 NGC. Low-120, HT-268, Breen 6-I, R.1. New York.
- 8951 1837 R.E. Russell — Obverse Scratched — NGC Details. VF. Low-128, HT-309, R.5. New York, New York.

## U.S. MERCHANT TOKENS (1845-1860)

- 8952 (1859) Robbins, Royce & Hard, New York, New York MS63 Brown NGC. Miller-NY-667.
- 8953 (1859) Robbins, Royce & Hard, New York, New York MS63 NGC. Miller-NY-668.

## CIVIL WAR MERCHANTS

- 8954 1863 Felix Kosher Dining, New York, New York MS62 Brown NGC. Fuld-NY630W-1a.
- 8955 1863 John P. Gruber, New York, New York MS63 Red and Brown NGC. Fuld-NY630AG-1a.
- 8956 1863 Hussey's Message Post, New York, New York MS63 Red and Brown NGC. Fuld-630AK-1a.
- 8957 1863 B. Maloney, New York, New York MS63 Red and Brown NGC. Fuld-NY630AU-1a.
- 8958 Miller's Hair Invigorator, New York, New York MS63 Brown NGC. Fuld-NY630AY-1a.
- 8959 Mittnacht's Eagle Safe, New York, New York MS63 Red and Brown NGC. Fuld-NY630BA-2a.
- 8960 John Quinn, Grocer, New York, New York MS63 Red and Brown NGC. Fuld-NY630BG-6a.
- 8961 Ph. J. Seiter's Market, New York, New York MS63 NGC. Fuld-NY630BQ-1b.
- 8962 Fred A. Plum, Troy, New York VF35 NGC. Fuld-NY890C-1h.
- 8963 1863 Robinson & Ballou, Troy, New York MS64 NGC. Fuld-NY890E-1b.
- 8964 1864 Great Central Fair, Philadelphia, Pennsylvania MS65 Brown NGC. Baker-363, Fuld-PA750L-1a, Julian CM-43.

- 8965 1863 Charnley, Providence, Rhode Island MS63 Brown NGC. Fuld-RI700C-3a.

## CIVIL WAR PATRIOTIC

- 8966 Tradesmens Currency MS65 Brown NGC. Fuld-202/434a. Incorrectly attributed by NGC as Fuld-202/234a.

## CIVIL WAR TOKEN

- 8967 J.W. Cruikshank Sutler Token, 81st Regiment Ohio Volunteers AU53 NGC. S-OH-AF10C.

## CONFEDERATE STATES OF AMERICA

- 8968 (1961) Confederate States of America Cent, Bashlow Restrike, Copper, MS67 Red NGC. Breen-8013. Defaced Dies.
- 8969 (1961) Confederate States of America Cent, Bashlow Restrike, Bronze, MS67 Red NGC. Breen-8013. Defaced Dies.

- 8970 (1961) Confederate States of America Cent, Bashlow Restrike, Bronze, MS68 Red NGC. Breen-8013. Defaced Dies.
- 8971 (1961) Confederate States of America Cent, Bashlow Restrike, Copper, MS68 Red NGC. Breen-8013. Defaced Dies.
- 8972 (1961) Confederate States of America Cent, Bashlow Restrike, Goldine, MS67 NGC. Breen-8014. Defaced Dies.
- 8973 (1961) Confederate States of America Cent, Bashlow Restrike, Goldine, MS68 NGC. Breen-8014. Defaced Dies.
- 8974 (circa 1947) Confederate States of America Half Dollar, C. Smith, Deo Vindice MS64 NGC.

## ALASKA TOKENS

- 8975 (circa 1910) Alaska Two Toowah, Five Stars, Gold, Original — Bent — NGC Details. Unc. Gould-Bressett 108.
- 8976 (1935) One Cent Bingle, Alaska Rural Rehabilitation Corp. MS64 NGC.
- 8977 (1935) Five Cent Bingle, Alaska Rural Rehabilitation Corp. MS64 Prooflike NGC.
- 8978 (1935) Ten Cent Bingle, Alaska Rural Rehabilitation Corp. MS62 NGC.
- 8979 (1935) Ten Cent Bingle, Alaska Rural Rehabilitation Corp. MS64 NGC.
- 8980 (1935) Fifty Cent Bingle, Alaska Rural Rehabilitation Corp. MS62 NGC.
- 8981 (1935) One Dollar Bingle, Alaska Rural Rehabilitation Corp. MS64 NGC.

## WORLD MEDAL

# Terms and Conditions of Auction

## Auctioneer and Auction:

1. This Auction is presented by Heritage Auctions, a d/b/a/ of Heritage Auctioneers & Galleries, Inc., or Heritage Auctions, Inc., or Heritage Numismatic Auctions, Inc., or Heritage Vintage Sports Auctions, Inc., or Currency Auctions of America, Inc., as identified with the applicable licensing information on the title page of the catalog or on the HA.com Internet site (the "Auctioneer"). The Auction is conducted under these Terms and Conditions of Auction and applicable state and local law. Announcements and corrections from the podium and those made through the Terms and Conditions of Auctions appearing on the Internet at HA.com supersede those in the printed catalog.

## Buyer's Premium:

2. All bids are subject to a Buyer's Premium which is in addition to the placed successful bid:
- Seventeen and one-half percent (17.5%) on Currency, US Coin, and World & Ancient Coin Auction lots, except for Gallery Auction lots as noted below;
- Nineteen and one-half percent (19.5%) on Americana & Political, Arms & Armor, Civil War & Militaria, Comic, Manuscript, Movie Poster, Space Exploration, Sports Collectibles, Texana, and Gallery Auction (sealed bid auctions of mostly bulk numismatic material) lots;
- Twenty-two percent (22%) on Wine Auction lots;
- For lots in all other categories not listed above, twenty-five percent (25%) on the first \$50,000 (minimum \$14), twenty percent (20%) of any amount between \$50,000 and \$1,000,000, and twelve percent (12%) of any amount over \$1,000,000.

## Auction Venues:

3. The following Auctions are conducted solely on the Internet: Heritage Weekly Internet Auctions (Coin, Currency, Comics, Rare Books, Jewelry & Watches, Guitars & Musical Instruments, and Vintage Movie Posters); Heritage Monthly Internet Auctions (Sports, World Coins and Rare Wine). Signature® Auctions and Grand Format Auctions accept bids from the Internet, telephone, fax, or mail first, followed by a floor bidding session; HeritageLive! and real-time telephone bidding are available to registered clients during these auctions.

## Bidders:

4. Any person participating or registering for the Auction agrees to be bound by and accepts these Terms and Conditions of Auction ("Bidder(s)").
5. All Bidders must meet Auctioneer's qualifications to bid. Any Bidder who is not a client in good standing of the Auctioneer may be disqualified at Auctioneer's sole option and will not be awarded lots. Such determination may be made by Auctioneer in its sole and unlimited discretion, at any time prior to, during, or even after the close of the Auction. Auctioneer reserves the right to exclude any person from the auction.
6. If an entity places a bid, then the person executing the bid on behalf of the entity agrees to personally guarantee payment for any successful bid.

## Credit:

7. In order to place bids, Bidders who have not established credit with the Auctioneer must either furnish satisfactory credit information (including two collectibles-related business references) or supply valid credit card information along with a social security number, well in advance of the Auction. Bids placed through our Interactive Internet program will only be accepted from pre-registered Bidders. Bidders who are not members of HA.com or affiliates should preregister at least 48 hours before the start of the first session (exclusive of holidays or weekends) to allow adequate time to contact references. Credit will be granted at the discretion of Auctioneer. Additionally Bidders who have not previously established credit or who wish to bid in excess of their established credit history may be required to provide their social security number or the last four digits thereof so a credit check may be performed prior to Auctioneer's acceptance of a bid. Check writing privileges and immediate delivery of merchandise may also be determined by pre-approval of credit based on a combination of criteria: HA.com history, related industry references, bank verification, a credit bureau report and/or a personal guarantee for a corporate or partnership entity in advance of the auction venue.

## Bidding Options:

8. Bids in Signature- Auctions or Grand Format Auctions may be placed as set forth in the printed catalog section entitled "Choose your bidding method." For auctions held solely on the Internet, see the alternatives on HA.com. Review at HA.com/common/howtobid.php.
9. Presentment of Bids: Non-Internet bids (including but not limited to podium, fax, phone and mail bids) are treated similar to floor bids in that they must be on-increment or at a half increment (called a cut bid). Any podium, fax, phone, or mail bids that do not conform to a full or half increment will be rounded up or down to the nearest full or half increment and this revised amount will be considered your high bid.
10. Auctioneer's Execution of Certain Bids. Auctioneer cannot be responsible for your errors in bidding, so carefully check that every bid is entered correctly. When identical mail or FAX bids are submitted, preference is given to the first received. To ensure the greatest accuracy, your written bids should be entered on the standard printed bid sheet and be received at Auctioneer's place of business at least two business days before the Auction start. Auctioneer is not responsible for executing mail bids or FAX bids received on or after the day the first lot is sold, nor Internet bids submitted after the published closing time; nor is Auctioneer responsible for proper execution of bids submitted by telephone, mail, FAX, e-mail, Internet, or in person once the Auction begins. Bids placed electronically via the internet may not be withdrawn until your written request is received and acknowledged by Auctioneer (FAX: 214-443-8425); such requests must state the reason, and may constitute grounds for withdrawal of bidding privileges. Lots won by mail Bidders will not be delivered at the Auction unless prearranged.
11. Caveat as to Bid Increments. Bid increments (over the current bid level) determine the lowest amount you may bid on a particular lot. Bids greater than one increment over the current bid can be any whole dollar amount. It is possible under several circumstances for winning bids to be between increments, sometimes only \$1 above the previous increment. Please see: "How can I lose by less than an increment?" on our website. Bids will be accepted in whole dollar amounts only. No "buy" or "unlimited" bids will be accepted.

The following chart governs current bidding increments for Signature auctions; Internet-only auction bidding increments are approximately half of these amounts (see HA.com/c/ref/web-tips.zx#guidelines-increments).

Current Bid.....	Bid Increment	Current Bid.....	Bid Increment
<\$10 .....	\$1	\$20,000 - \$29,999 .....	\$2,000
\$10 - \$29 .....	\$2	\$30,000 - \$49,999 .....	\$2,500
\$30 - \$49 .....	\$3	\$50,000 - \$99,999 .....	\$5,000
\$50 - \$99 .....	\$5	\$100,000 - \$199,999 .....	\$10,000
\$100 - \$199 .....	\$10	\$200,000 - \$299,999 .....	\$20,000
\$200 - \$299 .....	\$20	\$300,000 - \$499,999 .....	\$25,000
\$300 - \$499 .....	\$25	\$500,000 - \$999,999 .....	\$50,000
\$500 - \$999 .....	\$50	\$1,000,000 - \$1,999,999 .....	\$100,000
\$1,000 - \$1,999 .....	\$100	\$2,000,000 - \$2,999,999 .....	\$200,000
\$2,000 - \$2,999 .....	\$200	\$3,000,000 - \$4,999,999 .....	\$250,000
\$3,000 - \$4,999 .....	\$250	\$5,000,000 - \$9,999,999 .....	\$500,000
\$5,000 - \$9,999 .....	\$500	>\$10,000,000 .....	\$1,000,000
\$10,000 - \$19,999 .....	\$1,000		

12. If Auctioneer calls for a full increment, a bidder may request Auctioneer to accept a bid at half of the increment ("Cut Bid") only once per lot. After offering a Cut Bid, bidders may continue to participate only at full increments. Off-increment bids may be accepted by the Auctioneer at Signature® Auctions and Grand Format Auctions. If the Auctioneer solicits bids other than the expected increment, these bids will not be considered Cut Bids.

## Conducting the Auction:

13. Notice of the consignor's liberty to place bids on his lots in the Auction is hereby made in accordance with Article 2 of the Texas Business and Commercial Code. A "Minimum Bid" is an amount below which the lot will not sell. THE CONSIGNOR OF PROPERTY MAY PLACE WRITTEN "Minimum Bids" ON HIS LOTS IN ADVANCE OF THE AUCTION; ON SUCH LOTS, IF THE HAMMER PRICE DOES NOT MEET THE "Minimum Bid," THE CONSIGNOR MAY PAY A REDUCED COMMISSION ON THOSE LOTS. "Minimum Bids" are generally posted online several days prior to the Auction closing. For any successful bid placed by a consignor on his Property on the Auction floor, or by any means during the live session, or after the "Minimum Bid" for an Auction have been posted, we will require the consignor to pay full Buyer's Premium and Seller's Commissions on such lot.
14. The highest qualified Bidder recognized by the Auctioneer shall be the Buyer. In the event of a tie bid, the earliest bid received or recognized wins. In the event of any dispute between any Bidders at an Auction, Auctioneer may at his sole discretion reoffer the lot. Auctioneer's decision and declaration of the winning Bidder shall be final and binding upon all Bidders. Bids properly offered, whether by floor Bidder or other means of bidding, may on occasion be missed or go unrecognized; in such cases, the Auctioneer may declare the recognized bid accepted as the winning bid, regardless of whether a competing bid may have been higher.
15. Auctioneer reserves the right to refuse to honor any bid or to limit the amount of any bid, in its sole discretion. A bid is considered not made in "Good Faith" when made by an insolvent or irresponsible person, a person under the age of eighteen, or is not supported by satisfactory credit, collectibles references, or otherwise. Regardless of the disclosure of his identity, any bid by a consignor or his agent on a lot consigned by him is deemed to be made in "Good Faith." Any person apparently appearing on the OFAC list is not eligible to bid.
16. Nominal Bids. The Auctioneer in its sole discretion may reject nominal bids, small opening bids, or very nominal advances. If a lot bearing estimates fails to open for 40-60% of the low estimate, the Auctioneer may pass the item or may place a protective bid on behalf of the consignor.
17. Lots bearing bidding estimates shall open at Auctioneer's discretion (approximately 50%-60% of the low estimate). In the event that no bid meets or exceeds that opening amount, the lot shall pass as unsold.
18. All items are to be purchased per lot as numerically indicated and no lots will be broken. Auctioneer reserves the right to withdraw, prior to the close, any lots from the Auction.
19. Auctioneer reserves the right to rescind the sale in the event of nonpayment, breach of a warranty, disputed ownership, auctioneer's clerical error or omission in exercising bids and reserves, or for any other reason and in Auctioneer's sole discretion. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) and any other damages or expenses pertaining to the lot.
20. Auctioneer occasionally experiences Internet and/or Server service outages, and Auctioneer periodically schedules system downtime for maintenance and other purposes, during which Bidders cannot participate or place bids. If such outages occur, we may at our discretion extend bidding for the Auction. Bidders unable to place their Bids through the Internet are directed to contact Client Services at 1-800-872-6467.
21. The Auctioneer, its affiliates, or their employees consign items to be sold in the Auction, and may bid on those lots or any other lots. Auctioneer or affiliates expressly reserve the right to modify any such bids at any time prior to the hammer based upon data made known to the Auctioneer or its affiliates. The Auctioneer may extend advances, guarantees, or loans to certain consignors.
22. The Auctioneer has the right to sell certain unsold items after the close of the Auction. Such lots shall be considered sold during the Auction and all these Terms and Conditions shall apply to such sales including but not limited to the Buyer's Premium, return rights, and disclaimers.

## Payment:

23. All sales are strictly for cash in United States dollars (including U.S. currency, bank wire, cashier checks, travelers checks, eChecks, and bank money orders, and are subject to all reporting requirements). All deliveries are subject to good funds; funds being received in Auctioneer's account before delivery of the Purchases; and all payments are subject to a clearing period. Auctioneer reserves the right to determine if a check constitutes "good funds": checks drawn on a U.S. bank are subject to a ten business day hold, and thirty days when drawn on an international bank. Clients with pre-arranged credit status may receive immediate credit for payments via eCheck, personal or corporate checks. All others will be subject to a hold of 5 days, or more, for the funds to clear prior to releasing merchandise. (ref. T&C item 7 Credit for additional information.) Payments can be made 24-48 hours post auction from the My Orders page of the HA.com website.
24. Payment is due upon closing of the Auction session, or upon presentment of an invoice. Auctioneer reserves the right to void an invoice if payment in full is not received within 7 days after the close of the Auction. In cases of nonpayment, Auctioneer's election to void a sale does not relieve the Bidder from their obligation to pay Auctioneer its fees (seller's and buyer's premium) on the lot and any other damages pertaining to the lot.
25. Lots delivered to you, or your representative in the States of Texas, California, New York, or other states where the Auction may be held, are subject to all applicable state and local taxes, unless appropriate permits are on file with Auctioneer. (Note: Coins are only subject to sales tax in California on invoices under \$1500 and in Texas on invoices under \$1000. Check the Web site at: <http://coins.ha.com/c/ref/sales-tax.zx> for more details.) Bidder agrees to pay Auctioneer the actual amount of tax due in the event that sales tax is not properly collected due to: 1) an expired, inaccurate, inappropriate tax certificate or declaration, 2) an incorrect interpretation of the applicable statute, 3) or any other reason. The appropriate form or certificate must be on file at and verified by Auctioneer five days prior to Auction or tax must be paid; only if such form or certificate is received by Auctioneer within 4 days after the Auction can a refund of tax paid be made. Lots from different Auctions may not be aggregated for sales tax purposes.
26. In the event that a Bidder's payment is dishonored upon presentment(s), Bidder shall pay the maximum statutory processing fee set by applicable state law. If you attempt to pay via eCheck and your financial institution denies this transfer from your bank account, or the payment cannot be completed using the selected funding source, you agree to complete payment using your credit card on file.
27. If any Auction invoice submitted by Auctioneer is not paid in full when due, the unpaid balance will bear interest at the highest rate permitted by law from the date of invoice until paid. Any invoice not paid when due will bear a three percent (3%) late fee on the invoice amount or three percent (3%) of any installment that is past due. If the Auctioneer refers any invoice to an attorney for collection, the buyer agrees to pay attorney's fees, court costs, and other collection costs incurred by Auctioneer. If Auctioneer assigns collection to its in-house legal staff, such attorney's time expended on the matter shall be compensated at a rate comparable to the hourly rate of independent attorneys.
28. In the event a successful Bidder fails to pay any amounts due, Auctioneer reserves the right to sell the lot(s) securing the invoice to any underbidders in the Auction that the lot(s) appeared, or at subsequent private or public sale, or relist the lot(s) in a future auction conducted by Auctioneer. A defaulting Bidder agrees to pay for the reasonable costs of resale (including a 10% seller's commission, if consigned to an auction conducted by Auctioneer). The defaulting Bidder is liable to pay any difference between his total original invoice for the lot(s), plus any applicable interest, and the net proceeds for the lot(s) if sold at private sale or the subsequent hammer price of the lot(s) less the 10% seller's commissions, if sold at an Auctioneer's auction.

# Terms and Conditions of Auction

29. Auctioneer reserves the right to require payment in full in good funds before delivery of the merchandise.
30. Auctioneer shall have a lien against the merchandise purchased by the buyer to secure payment of the Auction invoice. Auctioneer is further granted a lien and the right to retain possession of any other property of the buyer then held by the Auctioneer or its affiliates to secure payment of any Auction invoice or any other amounts due the Auctioneer or affiliates from the buyer. With respect to these lien rights, Auctioneer shall have all the rights of a secured creditor under Article 9 of the Texas Uniform Commercial Code, including but not limited to the right of sale. In addition, with respect to payment of the Auction invoice(s), the buyer waives any and all rights of offset he might otherwise have against the Auctioneer and the consignor of the merchandise included on the invoice. If a Bidder owes Auctioneer or its affiliates on any account, Auctioneer and its affiliates shall have the right to offset such unpaid account by any credit balance due Bidder, and it may secure by possessory lien any unpaid amount by any of the Bidder's property in their possession.
31. Title shall not pass to the successful Bidder until all invoices are paid in full. It is the responsibility of the buyer to provide adequate insurance coverage for the items once they have been delivered to a common carrier or third-party shipper.

## **Delivery; Shipping; and Handling Charges:**

32. Buyer is liable for shipping and handling. Please refer to Auctioneer's website [www.HA.com/common/shipping.php](http://www.HA.com/common/shipping.php) for the latest charges or call Auctioneer. Auctioneer is unable to combine purchases from other auctions or affiliates into one package for shipping purposes. Lots won will be shipped in a commercially reasonable time after payment in good funds for the merchandise and the shipping fees is received or credit extended, except when third-party shipment occurs. Buyer agrees that Service and Handling charges related to shipping items which are not pre-paid may be charged to the credit card on file with Auctioneer.
33. Successful international Bidders shall provide written shipping instructions, including specified customs declarations, to the Auctioneer for any lots to be delivered outside of the United States. NOTE: Declaration value shall be the item(s) hammer price together with its buyer's premium and Auctioneer shall use the correct harmonized code for the lot. Domestic Buyers on lots designated for third-party shipment must designate the common carrier, accept risk of loss, and prepay shipping costs.
34. All shipping charges will be borne by the successful Bidder. On all domestic shipments, any risk of loss during shipment will be borne by Heritage until the shipping carrier's confirmation of delivery to the address of record in Auctioneer's file (carrier's confirmation is conclusive to prove delivery to Bidder; if the client has a Signature release on file with the carrier, the package is considered delivered without Signature) or delivery by Heritage to Bidder's selected third-party shipper. On all foreign shipments, any risk of loss during shipment will be borne by the Bidder following Auctioneer's delivery to the Bidder's designated common carrier or third-party shipper.
35. Due to the nature of some items sold, it shall be the responsibility for the successful Bidder to arrange pick-up and shipping through third-parties; as to such items Auctioneer shall have no liability. Failure to pick-up or arrange shipping in a timely fashion (within ten days) shall subject Lots to storage and moving charges, including a \$100 administration fee plus \$10 daily storage for larger items and \$5.00 daily for smaller items (storage fee per item) after 35 days. In the event the Lot is not removed within ninety days, the Lot may be offered for sale to recover any past due storage or moving fees, including a 10% Seller's Commission.
- 36A. The laws of various countries regulate the import or export of certain plant and animal properties, including (but not limited to) items made of (or including) ivory, whalebone, turtle shell, coral, crocodile, or other wildlife. Transport of such lots may require special licenses for export, import, or both. Bidder is responsible for: 1) obtaining all information on such restricted items for both export and import; 2) obtaining all such licenses and/or permits. Delay or failure to obtain any such license or permit does not relieve the buyer of timely compliance with standard payment terms. For further information, please contact Ron Brackemyre at 800- 872-6467 ext. 1312.
- 36B. Auctioneer shall not be liable for any loss caused by or resulting from:
- a. Seizure or destruction under quarantine or Customs regulation, or confiscation by order of any Government or public authority, or risks of contraband or illegal transportation of trade, or
  - b. Breakage of statuary, marble, glassware, bric-a-brac, porcelains, jewelry, and similar fragile articles
37. Any request for shipping verification for undelivered packages must be made within 30 days of shipment by Auctioneer.

## **Cataloging, Warranties and Disclaimers:**

38. NO WARRANTY, WHETHER EXPRESSED OR IMPLIED, IS MADE WITH RESPECT TO ANY DESCRIPTION CONTAINED IN THIS AUCTION OR ANY SECOND OPINE. Any description of the items or second opine contained in this Auction is for the sole purpose of identifying the items for those Bidders who do not have the opportunity to view the lots prior to bidding, and no description of items has been made part of the basis of the bargain or has created any express warranty that the goods would conform to any description made by Auctioneer. Color variations can be expected in any electronic or printed imaging, and are not grounds for the return of any lot. NOTE: Auctioneer, in specified auction venues, for example, Fine Art, may have express written warranties and you are referred to those specific terms and conditions. .
39. Auctioneer is selling only such right or title to the items being sold as Auctioneer may have by virtue of consignment agreements on the date of auction and disclaims any warranty of title to the Property. Auctioneer disclaims any warranty of merchantability or fitness for any particular purposes. All images, descriptions, sales data, and archival records are the exclusive property of Auctioneer, and may be used by Auctioneer for advertising, promotion, archival records, and any other uses deemed appropriate.
40. Translations of foreign language documents may be provided as a convenience to interested parties. Auctioneer makes no representation as to the accuracy of those translations and will not be held responsible for errors in bidding arising from inaccuracies in translation.
41. Auctioneer disclaims all liability for damages, consequential or otherwise, arising out of or in connection with the sale of any Property by Auctioneer to Bidder. No third party may rely on any benefit of these Terms and Conditions and any rights, if any, established hereunder are personal to the Bidder and may not be assigned. Any statement made by the Auctioneer is an opinion and does not constitute a warranty or representation. No employee of Auctioneer may alter these Terms and Conditions, and, unless signed by a principal of Auctioneer, any such alteration is null and void.
42. Auctioneer shall not be liable for breakage of glass or damage to frames (patent or latent); such defects, in any event, shall not be a basis for any claim for return or reduction in purchase price.

## **Release:**

43. In consideration of participation in the Auction and the placing of a bid, Bidder expressly releases Auctioneer, its officers, directors and employees, its affiliates, and its outside experts that provide second opines, from any and all claims, cause of action, chose of action, whether at law or equity or any arbitration or mediation rights existing under the rules of any professional society or affiliation based upon the assigned description, or a derivative theory, breach of warranty express or implied, representation or other matter set forth within these Terms and Conditions of Auction or otherwise. In the event of a claim, Bidder agrees that such rights and privileges conferred therein are strictly construed as specifically declared herein; e.g., authenticity, typographical error, etc. and are the exclusive remedy. Bidder, by non-compliance to these express terms of a granted remedy, shall waive any claim against Auctioneer.
44. Notice: Some Property sold by Auctioneer are inherently dangerous e.g. firearms, cannons, and small items that may be swallowed or ingested or may have latent defects all of which may cause harm to a person. Purchaser accepts all risk of loss or damage from its purchase of these items and Auctioneer disclaims any liability whether under contract or tort for damages and losses, direct or inconsequential, and expressly disclaims any warranty as to safety or usage of any lot sold.

## **Dispute Resolution and Arbitration Provision:**

45. By placing a bid or otherwise participating in the auction, Bidder accepts these Terms and Conditions of Auction, and specifically agrees to the dispute resolution provided herein. Consumer disputes shall be resolved through court litigation which has an exclusive Dallas, Texas venue clause and jury waiver. Non-consumer dispute shall be determined in binding arbitration which arbitration replaces the right to go to court, including the right to a jury trial.
46. Auctioneer in no event shall be responsible for consequential damages, incidental damages, compensatory damages, or any other damages arising or claimed to be arising from the auction of any lot. In the event that Auctioneer cannot deliver the lot or subsequently it is established that the lot lacks title, or other transfer or condition issue is claimed, in such cases the sole remedy shall be limited to rescission of sale and refund of the amount paid by Bidder; in no case shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot. After one year has elapsed, Auctioneer's maximum liability shall be limited to any commissions and fees Auctioneer earned on that lot.
47. In the event of an attribution error, Auctioneer may at its sole discretion, correct the error on the Internet, or, if discovered at a later date, to refund the buyer's purchase price without further obligation.
48. Dispute Resolution for Consumers and Non-Consumers: Any claim, dispute, or controversy in connection with, relating to and/or arising out of the Auction, participation in the Auction, award of lots, damages of claims to lots, descriptions, condition reports, provenance, estimates, return and warranty rights, any interpretation of these Terms and Conditions, any alleged verbal modification of these Terms and Conditions and/or any purported settlement whether asserted in contract, tort, under Federal or State statute or regulation shall or any other matter: a) if presented by a consumer, be exclusively heard by, and the parties consent to, exclusive in personam jurisdiction in the State District Courts of Dallas County, Texas. THE PARTIES EXPRESSLY WAIVE ANY RIGHT TO TRIAL BY JURY. Any appeals shall be solely pursued in the appellate courts of the State of Texas; or b) for any claimant other than a consumer, the claim shall be presented in confidential binding arbitration before a single arbitrator, that the parties may agree upon, selected from the JAMS list of Texas arbitrators. The case is not to be administered by JAMS; however, if the parties cannot agree on an arbitrator, then JAMS shall appoint the arbitrator and it shall be conducted under JAMS rules. The locale shall be Dallas Texas. The arbitrator's award may be enforced in any court of competent jurisdiction. Any party on any claim involving the purchase or sale of numismatic or related items may elect arbitration through binding PNG arbitration. Any claim must be brought within one (1) year of the alleged breach, default or misrepresentation or the claim is waived. This agreement and any claims shall be determined and construed under Texas law. The prevailing party (party that is awarded substantial and material relief on its claim or defense) may be awarded its reasonable attorneys' fees and costs.
49. No claims of any kind can be considered after the settlements have been made with the consignors. Any dispute after the settlement date is strictly between the Bidder and consignor without involvement or responsibility of the Auctioneer.
50. In consideration of their participation in or application for the Auction, a person or entity (whether the successful Bidder, a Bidder, a purchaser and/or other Auction participant or registrant) agrees that all disputes in any way relating to, arising under, connected with, or incidental to these Terms and Conditions and purchases, or default in payment thereof, shall be arbitrated pursuant to the arbitration provision. In the event that any matter including actions to compel arbitration, construe the agreement, actions in aid or arbitration or otherwise needs to be litigated, such litigation shall be exclusively in the Courts of the State of Texas, in Dallas County, Texas, and if necessary the corresponding appellate courts. For such actions, the successful Bidder, purchaser, or Auction participant also expressly submits himself to the personal jurisdiction of the State of Texas.
51. These Terms & Conditions provide specific remedies for occurrences in the auction and delivery process. Where such remedies are afforded, they shall be interpreted strictly. Bidder agrees that any claim shall utilize such remedies; Bidder making a claim in excess of those remedies provided in these Terms and Conditions agrees that in no case whatsoever shall Auctioneer's maximum liability exceed the high bid on that lot, which bid shall be deemed for all purposes the value of the lot.

## **Miscellaneous:**

52. Agreements between Bidders and consignors to effectuate a non-sale of an item at Auction, inhibit bidding on a consigned item to enter into a private sale agreement for said item, or to utilize the Auctioneer's Auction to obtain sales for non-selling consigned items subsequent to the Auction, are strictly prohibited. If a subsequent sale of a previously consigned item occurs in violation of this provision, Auctioneer reserves the right to charge Bidder the applicable Buyer's Premium and consignor a Seller's Commission as determined for each auction venue and by the terms of the seller's agreement.
53. Acceptance of these Terms and Conditions qualifies Bidder as a client who has consented to be contacted by Heritage in the future. In conformity with "do-not-call" regulations promulgated by the Federal or State regulatory agencies, participation by the Bidder is affirmative consent to being contacted at the phone number shown in his application and this consent shall remain in effect until it is revoked in writing. Heritage may from time to time contact Bidder concerning sale, purchase, and auction opportunities available through Heritage and its affiliates and subsidiaries.
54. Rules of Construction: Auctioneer presents properties in a number of collectible fields, and as such, specific venues have promulgated supplemental Terms and Conditions. Nothing herein shall be construed to waive the general Terms and Conditions of Auction by these additional rules and shall be construed to give force and effect to the rules in their entirety.

## **State Notices:**

Notice as to an Auction in California. Auctioneer has in compliance with Title 2.95 of the California Civil Code as amended October 11, 1993 Sec. 1812.600, posted with the California Secretary of State its bonds for it and its employees, and the auction is being conducted in compliance with Sec. 2338 of the Commercial Code and Sec. 535 of the Penal Code.

Notice as to an Auction in New York City. These Terms and Conditions of Sale are designed to conform to the applicable sections of the New York City Department of Consumer Affairs Rules and Regulations as Amended. This sale is a Public Auction Sale conducted by Heritage Auctioneers & Galleries, Inc. # 41513036. The New York City licensed auctioneers are: Sam Foose, #095260; Kathleen Guzman, #0762165; Nicholas Dawes, #1304724; Ed Beardsley, #1183220; Scott Peterson, #1306933; Andrea Voss, #1320558, who will conduct the Sale on behalf of itself and Heritage Numismatic Auctions, Inc. (for Coins) and Currency Auctions of America, Inc. (for currency). All lots are subject to: the consignor's rights to bid thereon in accord with these Terms and Conditions of Sale, consignor's option to receive advances on their consignments, and Auctioneer, in its sole discretion, may offer limited extended financing to registered bidders, in accord with Auctioneer's internal credit standards. A registered bidder may inquire whether a lot is subject to an advance or a reserve. Auctioneer has made advances to various consignors in this sale. On lots bearing an estimate, the term refers to a value range placed on an item by the Auctioneer in its sole opinion but the final price is determined by the bidders.

Notice as to an Auction in Texas. In compliance with TDLR rule 67.100(c)(1), notice is hereby provided that this auction is covered by a Recovery Fund administered by the Texas Department of Licensing and Regulation, P.O. Box 12157, Austin, Texas 78711 (512) 463-6599. Any complaints may be directed to the same address.

Notice as to an Auction in Ohio: Auction firm and Auctioneer are licensed by the Dept. of Agriculture, and either the licensee is bonded in favor of the state or an aggrieved person may initiate a claim against the auction recovery fund created in Section 4707.25 of the Revised Code as a result of the licensee's actions, whichever is applicable.

# Terms and Conditions of Auction

## Additional Terms & Conditions:

### COINS & CURRENCY

**COINS and CURRENCY TERM A:** Signature. Auctions are not on approval. No certified material may be returned because of possible differences of opinion with respect to the grade offered by any third-party organization, dealer, or service. No guarantee of grade is offered for uncertified Property sold and subsequently submitted to a third-party grading service. There are absolutely no exceptions to this policy. Under extremely limited circumstances, (e.g. gross cataloging error) a purchaser, who did not bid from the floor, may request Auctioneer to evaluate voiding a sale: such request must be made in writing detailing the alleged gross error; submission of the lot to the Auctioneer must be pre-approved by the Auctioneer; and bidder must notify Ron Brackemyre (1-800-8726467 Ext. 1312) in writing of such request within three (3) days of the non-floor bidder's receipt of the lot. Any lot that is to be evaluated must be in our offices within 30 days after Auction. Grading or method of manufacture do not qualify for this evaluation process nor do such complaints constitute a basis to challenge the authenticity of a lot. **AFTER THAT 30-DAY PERIOD, NO LOTS MAY BE RETURNED FOR REASONS OTHER THAN AUTHENTICITY.** Lots returned must be housed intact in their original holder. No lots purchased by floor Bidders may be returned (including those Bidders acting as agents for others) except for authenticity. Late remittance for purchases may be considered just cause to revoke all return privileges.

**COINS and CURRENCY TERM B:** Auctions conducted solely on the Internet **THREE (3) DAY RETURN POLICY:** Certified Coin and Uncertified and Certified Currency lots paid for within seven days of the Auction closing are sold with a three (3) day return privilege unless otherwise noted in the description as "Sold As Is, No Return Lot". You may return lots under the following conditions: Within three days of receipt of the lot, you must first notify Auctioneer by contacting Client Service by phone (1-800-872-6467) or e-mail (Bid@HA.com), and immediately ship the lot(s) fully insured to the attention of Returns, Heritage, 3500 Maple Avenue, 17th Floor, Dallas TX 75219-3941. Lots must be housed intact in their original holder and condition. You are responsible for the insured, safe delivery of any lots. A non-negotiable return fee of 5% of the purchase price (\$10 per lot minimum) will be deducted from the refund for each returned lot or billed directly. Postage and handling fees are not refunded. After the three-day period (from receipt), no items may be returned for any reason. Late remittance for purchases revokes these Return privileges.

**COINS and CURRENCY TERM C:** Bidders who have inspected the lots prior to any Auction, or attended the Auction, or bid through an Agent, will not be granted any return privileges, except for reasons of authenticity.

**COINS and CURRENCY TERM D:** Coins sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for a guarantee by Auctioneer that they are genuine. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Numismatic Guaranty Corporation (NGC), P.O. Box 4776, Sarasota, FL 34230, <http://www.ngccoin.com/services/writtenguarantee.asp>; Professional Coin Grading Service (PCGS), PO Box 9458, Newport Beach, CA 92658, <http://www.pcg.com/guarantee.html>; ANACS, 6555 S. Kenton St. Ste. 303, Englewood, CO 80111; and Independent Coin Grading Co. (ICG), 7901 East Bellevue Ave., Suite 50, Englewood, CO 80111.

**COINS and CURRENCY TERM E:** Notes sold referencing a third-party grading service are sold "as is" without any express or implied warranty, except for guarantee by Auctioneer that they are genuine. Grading, condition or other attributes of any lot may have a material effect on its value, and the opinion of others, including third-party grading services such as PCGS Currency, PMG, and CGA may differ with that of Auctioneer. Auctioneer shall not be bound by any prior or subsequent opinion, determination, or certification by any grading service. Bidder specifically waives any claim to right of return of any item because of the opinion, determination, or certification, or lack thereof, by any grading service. Certain warranties may be available from the grading services and the Bidder is referred to them for further details: Paper Money Guaranty (PMG), PO Box 4711, Sarasota FL 34230; PCGS Currency, PO Box 9458, Newport Beach, CA 92658; Currency Grading & Authentication (CGA), PO Box 418, Three Bridges, NJ 08887. Third party graded notes are not returnable for any reason whatsoever.

**COINS and CURRENCY TERM F:** Since we cannot examine encapsulated coins or notes, they are sold "as is" without our grading opinion, and may not be returned for any reason. Auctioneer shall not be liable for any patent or latent defect or controversy pertaining to or arising from any encapsulated collectible. In any such instance, purchaser's remedy, if any, shall be solely against the service certifying the collectible.

**COINS and CURRENCY TERM G:** Due to changing grading standards over time, differing interpretations, and to possible mishandling of items by subsequent owners, Auctioneer reserves the right to grade items differently than shown on certificates from any grading service that accompany the items. Auctioneer also reserves the right to grade items differently than the grades shown in the prior catalog should such items be reconsigned to any future auction.

**COINS and CURRENCY TERM H:** Although consensus grading is employed by most grading services, it should be noted as aforesaid that grading is not an exact science. In fact, it is entirely possible that if a lot is broken out of a plastic holder and resubmitted to another grading service or even to the same service, the lot could come back with a different grade assigned.

**COINS and CURRENCY TERM I:** Certification does not guarantee protection against the normal risks associated with potentially volatile markets. The degree of liquidity for certified coins and collectibles will vary according to general market conditions and the particular lot involved. For some lots there may be no active market at all at certain points in time.

**COINS and CURRENCY TERM J:** All non-certified coins and currency are guaranteed genuine, but are not guaranteed as to grade, since grading is a matter of opinion, an art and not a science, and therefore the opinion rendered by the Auctioneer or any third party grading service may not agree with the opinion of others (including trained experts), and the same expert may not grade the same item with the same grade at two different times. Auctioneer has graded the non-certified numismatic items, in the Auctioneer's opinion, to their current interpretation of the American Numismatic Association's standards as of the date the catalog was prepared. There is no guarantee or warranty implied or expressed that the grading standards utilized by the Auctioneer will meet the standards of any grading service at any time in the future.

**COINS and CURRENCY TERM K:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM L:** Storage of purchased coins and currency: Purchasers are advised that certain types of plastic may react with a coin's metal or transfer plasticizer to notes and may cause damage. Caution should be used to avoid storage in materials that are not inert.

**COINS and CURRENCY TERM M:** NOTE: Purchasers of rare coins or currency through Heritage have available the option of arbitration by the Professional Numismatists Guild (PNG); if an election is not made within ten (10) days of an unresolved dispute, Auctioneer may elect either PNG or A.A.A. Arbitration.

**COINS and CURRENCY TERM N:** For more information regarding Canadian lots attributed to the Charlton reference guides, please contact: Charlton International, PO Box 820, Station Willowdale B, North York, Ontario M2K 2R1 Canada.

**COINS and CURRENCY TERM O:** Some of the lots offered herein have been assigned to 1031 Services, Inc. for the purpose of consignor's tax deferred exchange.

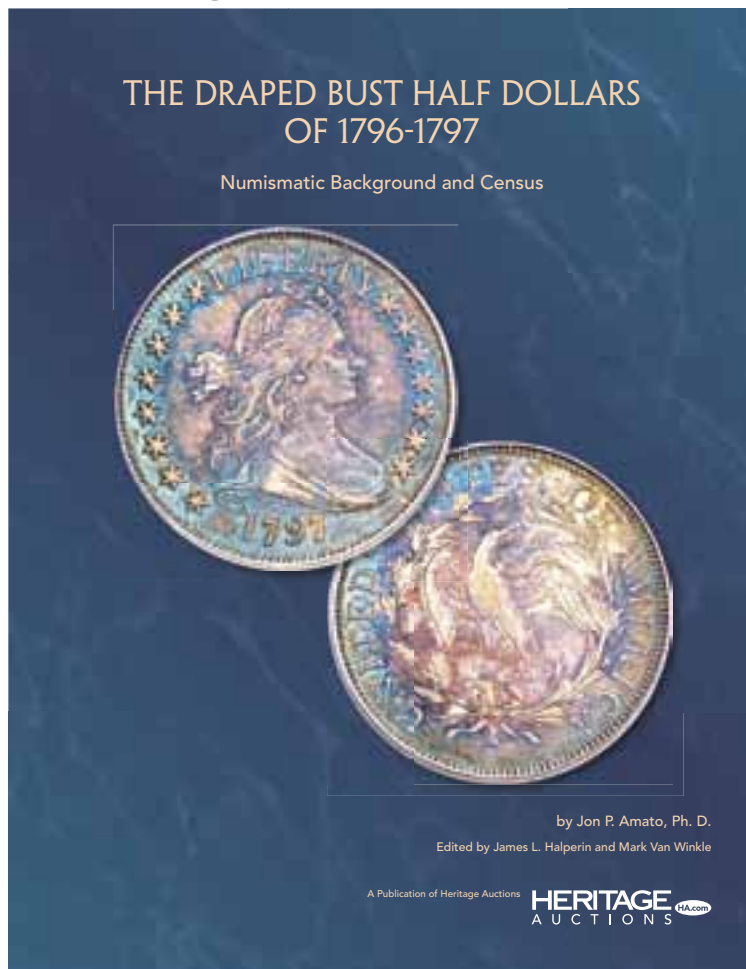

For wiring instructions call the Credit department at 1-800-872-6467 or e-mail: CreditDept@HA.com

## New York State Auctions Only

Notice as to an Auction in New York City. ## NOW AVAILABLE

### \$59.95

To purchase your copy  
visit [HA.com/EarlyHalfDollars](http://HA.com/EarlyHalfDollars)  
or call 866-835-3243.

*The Draped Bust Half Dollars of 1796-1797* by Jon Amato is the culmination of more than 10 years of research into the Draped Bust Small Eagle half dollar series, one of the most coveted type coins in American numismatics and one about which remarkably little has been written.

The book includes a profusely illustrated discourse of the four Overton varieties and one major die state of this two-year design type. Additionally, it features a census of 270 Draped Bust Small Eagle half dollar specimens. A full page is devoted to each coin, including an obverse and reverse image, a description of key identification markers, and the provenance for each.

This work will be the premier reference for 1796-1797 half dollars for years to come. Institutions having an extensive numismatic library or coin cabinet will find it a valuable complement to their holdings, and catalogers charged with writing up specimens for auction can now have an indispensable source of background and pedigree information. Likewise, coin dealers seeking to purchase one or more '96 or '97 half dollars for a client or for inventory, and collectors who own, have owned, or desire to own one will want this important reference work for their libraries.

THE WORLD'S THIRD LARGEST AUCTION HOUSE

**HERITAGE** HA.com  
AUCTIONS

# THE 1847 GOLD RUSH COLLECTION

As formed by the late  
**Robert R. Johnson**

To be offered with other major holdings at Public Auction by **Daniel F. Kelleher Auctions LLC** in Sale No. 634, Feb. 23-24, 2013 In New York City at the historic **Fletcher-Sinclair Mansion**

**Robert R. Johnson** (1928-2010) was an iconic master numismatist internationally renowned for his extensive knowledge of rare U.S. and World coins with an emphasis on gold coins and rare stamps. In 1954, he established the Robert R. Johnson Coin & Stamp Company in San Francisco.

1928 - 2010

"Bob" handled many major numismatic and philatelic rarities, including various "Jenny Inverts." His passion for stamps started him collecting as a young boy. He would enjoy researching and cataloging, and his love of the U.S. 1847 Issues was his main focus. During his many years in the collectibles field Bob accumulated an amazing array of #1s and #2s all sound, four margin examples with certificates.

**Earliest 5-Cent 1847 Use to a Foreign Destination (at right) and one of two Earliest Known Uses of the 1847 Issue** Originating in New York City, this is a folded invoice dated on the inside: **July 7, 1847**—qualifying it as one of only two known Earliest known uses (EKU). With a London transit handstamp dated July 28, 1847, on the outside reverse, this cover is also the EKU of the 1847 issue to a foreign destination. One of the truly great covers of American postal history, it is listed on page 910 of Thomas J. Alexander's *The United States 1847 Issue—A Cover Census*, and 2012 Philatelic Foundation certificate.

## Presenting The "Towson" Collection... An extraordinary collection from a bygone era.

Formed by a prominent collector of his time, this huge collection encompasses worldwide stamps in over 100 Scott Specialty Albums—keenly assembled and, with rare exceptions, stamps in mint condition. Acquired in the 1950s-1970s, the collector dealt with some of the best known dealers of the era, with an eye toward freshness and quality.

Many Countries in this collection are exceedingly special—with magnificent holdings from British Asia and Africa, Portugal & Colonies—plus Spain & Colonies, South America (featuring many mint issues rarely ever encountered), and lovely Germany and Colonies. There's more: Scandinavian countries and Eastern Europe will offer the buyer exceptional quality. And there are key rarities in Russia, Poland, and France...and especially in the French former colonial issues. But there is so much more with delightful sections from Italy, Austria, Luxembourg, Liechtenstein, along with Middle East and Independent Africa.

We have chosen to remove only the very premium, uncommon items to feature as individual lots with the intention of leaving much of the individual country collections intact to maintain their integrity. This is your opportunity to acquire amazing material.

Our February 23-24 Sale No. 634 will be held at the renowned Fletcher-Sinclair Mansion on upper Fifth Avenue in New York City. Watch for announcements on our website regarding viewing lots at the Park Avenue Heritage Galleries prior to the auction...and at our Danbury, Conn. offices.

FINE & RARE WINES

## Our Experience. Your Wine. Great Results.

Heritage Auctions dominates the fine art and vintage collectibles market.

Now, we're bringing our expertise, marketing power and record-breaking results to fine and rare wines.

And you're sure to benefit.

- Wine consignors pay no consignment and insurance fees.
- We'll beat any terms you're getting from a competitor.
- If you prefer selling your wine outright, call us and we'll make a cash offer on a single bottle or your entire cellar.
- Our aggressive marketing strategy gives your consignments international exposure.

**Our goal is more money in your pocket.**

**How can you lose?**

**Call today to learn how Heritage can realize the full potential of your cellar.**

Inquiries: Frank Martell • 310.492.8616 • 800.872.6467 ext. 1753 • FrankM@HA.com
